

COMMENCEMENT WEEK

Class of Twenty-two Will Graduate From Chelsea High School June 12th; The Program.

The annual commencement exercises of the Chelsea High school will be held Thursday evening, June 12th, at the Methodist church when a class of 22 young people, whose names were recently published, will graduate. The program follows:

March, "National Emblem," Fischer's orchestra; invocation, Rev. P. W. Dierberger; "Gypsy Love Song," orchestra; salutatory, Florence V. Killmer; history and gittatory, John W. Martin and Elsa E. Goetz; caprice, orchestra; prophecy and will, Gladys A. Leach and Ida Oesterle; valedictory, Dorothea E. L. Pielmeier; review, orchestra; address, Rev. J. H. Green; violin solo, Julius Schmidt; presentation of diplomas, Supt. W. L. Walling; class song, class of 1919.

Junior Reception Held Friday

The Junior reception was held Friday evening, June 6th, in Macomber hall. The menu was as follows: Strawberries, chicken patties, creamed potatoes, creamed peas, rolls, olives, pickles, jelly, ice cream, cake, coffee, nuts.

Arthur Kaercher was the toastmaster and the following was the program: "Our Seniors," Grace Shepherd; "Our Juniors," Max Schoenhals; solo, Florence Spring; "Chelsea High," Mr. Walling; class song, Junior class. Then followed a little farce entitled, "Just a Commencement," with the following humorous parts: Salutatory, Edgar Mayer; history, Ray Whipple; "spirit" of the class, prophecy, Edythe Koebbe, Eleanor Dancer, Glen Brooks; valedictory, Dorothy Satterthwaite; awarding of diplomas, Prof. Henry Grau.

The evening's entertainment closed with dancing with music by Fischer's orchestra.

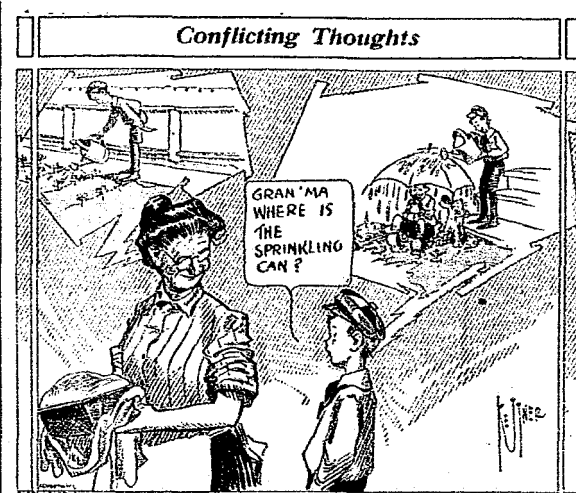

The committees in charge of the reception were as follows: Entertainment, Harold Storms, Edythe Koebbe, Clarabelle Rohards, Dorothy Speer, Ray Whipple; banquet, Esther Faust, Irene Vail, Lawrence Coe, Edgar Mayer; program, Glenn Brooks, Grace Shepherd, Helen Hopkins, Ralph Klinger; decorating, Eleanor Dancer, Leon Chapman, Ella Finkbeiner, Rex Stardevant.

The Baccalaureate Address

The annual baccalaureate sermon was delivered Sunday evening by Dr. W. J. Palmer at the Methodist church. Rev. Dierberger offered prayer and the Scripture lesson was read from the 12th chapter of Ecclesiastes by Rev. Schoen, followed by a vocal solo by Miss Winifred Bacon.

Dr. Palmer took his text from the third chapter of Philippians, 13th and 14th verses, "Brethren, I count not myself to have apprehended; but this one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Jesus Christ." He said in part:

The question which now presents itself is, how shall I make the most of my opportunities? Man is endowed with a higher form of creation than anything else. Everyone has a personality of his own to develop. Man has power over matter, the human voice, wireless, astronomy and aeroplanes have been the outgrowth of the work of the human mind. Opportunities today transcend all precedents. All are calling for your enlistment today. Mere book knowledge is not education. No one is truly educated who knows not right morals. In fact, a person whose morals are base is the

Conflicting Thoughts

worse for their education. The training of character must abide through life.

Education is the development of all the active powers of the mind and strengthening of self reliance. You must forget discouragements and losses except to make them stepping stones for advancement. If too much time is spent in regretting past mistakes you are unfitting yourself for present duties.

One of the worst enemies of human society today is to try to get something without service. Every joy has root in sacrifice. If we must succeed, we must work, and into every task put our best efforts if we would rise to higher planes.

AEROPLANES TO JACKSON

Fred H. Lewis is the First Chelseaiter to Make Air Line Trip.

Fred H. Lewis of the Lewis Spring & Asie company is the first local man to make the trip from Chelsea to Jackson in an aeroplane, or in fact to leave town in an air vehicle. The trip was made with an aviator from Detroit.

The visiting birdman, Mr. Baker, arrived in Chelsea about 2:45 o'clock, Saturday afternoon, from Detroit, and made a beautiful landing in a field on the River farm, south of town and directly across the road from the residence of George English.

Mr. Lewis had received a wire earlier in the day announcing Mr. Baker's proposed visit to Chelsea and the field had been marked with paper in order to guide the birdman in making a safe landing.

After arriving here, the pilot of the aeroplane visited the Lewis factories here and later, he and Mr. Lewis continued the flight, the mechanic yielding his seat in the plane to the Chelsea manufacturer.

COUNCIL PROCEEDINGS

(Official.) Council Rooms, June 2, 1919.

Council met in regular session. Meeting called to order by president P. C. Schaible.

Roll called by the clerk.

Present—Trustees Dunkel, Dancer, Bahnmiller, Vogel and Schoenhals. Absent—Trustee Holmes. Minutes of last meeting were read and approved.

The following bills were read by the clerk:

Street Fund. G. Boekres, 1 week to May 31, \$ 12.00
General Fund.

Appropriation for music for Decoration Day..... 25.00

Palmer's Garage, storage fire apparatus, May..... 7.00

C. E. L. and Water Works Comm., order No. 8..... 1000.00

Moved by Vogel, seconded by Dunkel that the bills be allowed and orders drawn for the amounts.

Yeas—Dancer, Dunkel, Bahnmiller, Schoenhals and Vogel. Nays—None. Carried.

The following ordinance was read: Ordinance No. 55.

An Ordinance Relative to Users of Water Which is Furnished Them by the Municipal Water Works.

The Common Council of the Village of Chelsea Ordain:

Section 1. It is hereby ordered and declared that all users of water, furnished by the Water Works of the Village of Chelsea, shall have installed in their residence, place of business or premises, as soon as the same can be done, and after having been requested by the Water Works Commission, a meter, for the purpose of metering the amount of water used by them.

Section 2. Such meter shall be furnished such users of water, by the Electric Light and Water Works Commission, at actual cost.

Section 3. The Electric Light and Water Works Commission is hereby authorized to purchase such a number of meters, as in its judgment is necessary to furnish each user with a meter.

Section 4. Each property owner, who is a user of water furnished by the Village, shall pay the actual cost of such meter, and the installation thereof. Such user, however, shall

have the right to pay the same in installments of three dollars quarterly, the meter to remain the property of the Village of Chelsea, until fully paid for, and in case of the payment in installments there shall be added the sum of one dollar to the price of the meter.

Section 5. The Electric Light and Water Works Commission shall, as soon as practical, fix a rate to be charged per thousand gallons of water used, which rate shall be equitable both to the user of water and the Village of Chelsea. There shall however be fixed a minimum charge per month, which shall be due and payable each and every three months.

Section 6. All meters shall be installed under the supervision and instructions of the Electric Light and Water Works Commission.

Section 7. In case of neglect, or refusal, on the part of any property owner, who is a user of village water, to have installed a meter, after a reasonable time after the Electric Light and Water Works Commission shall have requested him to do so, or shall refuse to give his consent to have a meter installed, shall be refused the use of any water from the Municipal Water Works, until such a time when he, or she, shall have a meter installed.

This ordinance shall take effect and be in force on and after twenty days from its legal publication.

Moved by Vogel, seconded by Dancer, that Ordinance No. 55 be adopted as read.

Yeas—Dunkel, Dancer, Vogel, Bahnmiller, Schoenhals. Nays—None. Carried.

President Schaible appointed Conrad Lehman member of the board of review in place of A. H. Schumacher—declined to qualify.

Moved by Vogel, seconded by Dancer, that appointment of Conrad Lehman be confirmed.

Yeas—Dunkel, Dancer, Bahnmiller, Vogel and Schoenhals. Nays—None. Carried.

Moved by Vogel, seconded by Bahnmiller, that the President appoint a traffic officer to enforce the law regulating speed of automobiles and other motor vehicles, and the use of exhaust cutouts within the village limits, and to enforce the ordinance relative to riding bicycles on sidewalks in the Village of Chelsea.

Said officer to have authority to arrest any person who violates the law governing the above practices.

Yeas—Vogel, Dunkel, Bahnmiller, Dancer and Schoenhals. Nays—None. Carried.

Motion made and carried to adjourn until Friday, June 6th, at 7:30 p. m.

H. W. FREEMAN,
Village Clerk.
I. T. F.

TREACHERY UNBRIDLED!

Treachery stalks unbridled throughout these United States of America, what with the I. W. W. and Red plotters trying to bomb the prominent men of the country and the potato-bug army right here at home!

We thought to thwart the fell designs of the wretched beetle this year by not planting any spuds in our garden, but it seems that these "p-b's" are treacherous animals and wrongly named for we have found that they eat the tomato vines nearly as readily and with as much relish as they do potato vines, and have sort of cosmopolitan appetites, so to speak. We have about as much use for the pests as a honest-to-goodness-dyed-in-the-wool prohibitionist has for a rum-runner. Selah.

LINER ADS EFFECTIVE.

One of the most effective forms of advertising is in the "liner" or classified column where an investment of a few cents is certain to give prompt results. Tribune liner ads are always run under the heading, "Wants, For Sale, To Rent," in the same position as on the front page where they are easy to find and invariably catch the eye. Only five cents the line for first insertion, 2½ cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.

NEIGHBORHOOD ITEMS

Brevities of Interest to Tribune Readers From Nearby Towns and Localities.

IRON CREEK—Sam Holmes certainly struck luck on Tuesday. He hired George Wurster to put down a drive well on his west 80, and when down 77 feet they struck a gusher. Gravel stones and sand were thrown out and the water spurted from a pipe 15 feet above the ground, the water clearing up at once.

YPSILANTI—Private Sam J. Frankhouse of Wyandotte, who was being taken from the United States General Military Hospital, Detroit, to the hospital at Fort Sheridan, Ill., for treatment, jumped from a fast Michigan Central train Saturday morning near Danton and was instantly killed. Private Frankhouse was overseas one year and was mentally unbalanced. He was in charge of Corp. Benjamin Barneck, hospital aid, Detroit.

STOCKBRIDGE—The following will graduate from the Stockbridge school Thursday, June 12: Albert M. Lord, Grace D. Curtis, Ida S. Backus, Harold R. Parks, Lester V. Harr, Clifford C. Sharp, Lyle E. Glenn, Ethel V. Nott, Thelma I. Cook, Lucy S. Richmond, Howard R. Artz, C. Gaylord Hall, A. C. Heying, Lawrence C. Richmond.

ROAD WORK STRATS.

Work was started yesterday on the grading and graveling of the road west of town, from the Ives bridge west to the Cavanaugh lake road fork. Several hundred government motor trucks were driven over that road in March and cut it to pieces so badly that it had since been very rough.

TRY THIS ON YOUR PIANO.

Some say that kissing's a sin;
But I think it none ava.
For kissing has wound'd in the world
Since ever there was twa.

O, if it wasna lawfu'
Lawyers wadna allow it;
If it wasna holy,
Ministers wadna do it.

If it wasna modest,
Maidens wadna tak' it;
If it wasna plenty,
Fuir folks wadna get it.

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. I relieved me from my troubles. I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them." Mrs. MAUD BOYD, 1421 5th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary. Every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years' experience is at your service.

JACKSON PRISON FUNDS JUGGLED

CHAOTIC STATE OF AFFAIRS AT INSTITUTION REVEALED BY SPECIAL AUDIT.

ACCOUNTS SHORT \$300,000

Twine Shipped With No Record to Show Amount. Appropriations Used to Hide Shortages.

Lansing.—Jackson prison is short approximately \$300,000 on the showing of its own books, according to an exhaustive report made to the special Jackson prison investigating committee of the legislature.

Not only is the prison short in its accounts, but a condition that stunned the members of the special committee, the legislature and the state house generally, was revealed.

The report was found to contain that declarations that fraudulent juggling of accounts to conceal true conditions and expenses had been frequent and that cattle, horses and mules from the farms are nursing, or at least are not accounted for.

Money appropriated by the legislature for special purposes had not been used for such purposes, according to the investigators, but has, in part, been used to conceal the actual cost of running the prison and to uphold the contentions of the Simpson regime that the prison was self-sustaining; and interest charges were concealed by making them appear as sales purchases for the purpose apparently of keeping from the legislature or other state officials all knowledge of the interest expenditures.

The report also asserts that thousands upon thousands of dollars' worth of sils were sold to a Chicago firm without a single stroke of a pen in keeping an account of the sils so shipped; that the Chicago firm was permitted to use its own report of what it received and make its payments accordingly.

The committee further finds that sales of records and accounts are missing; that records were barred or torn bodily out of books; that certain persons were permitted inconceivably long "credit," some of them not paying to date, for goods purchased two and three years ago; that the prison paid freights for certain persons instead of collecting from the consignees; that the accounts were so carelessly kept that often bills were paid twice; that some were lumped under "repairs and improvements."

83 KILLED IN POWDER BLAST

Trolley Wire Sets Off Explosives On Train Passing Through Tunnel.

Wilkesbarre, Pa.—Eighty-three men dead and 50 burned and maimed, many of whom will die, is the toll of a disaster in the Baltimore tunnel of the Delaware & Hudson coal company, in the east end section of this city, June 5. Seven kegs of black powder, 300 pounds in all, were detonated and the dead and maimed were literally roasted by the super-heated gas flames following the explosion.

The tragedy occurred while the men were on their way to work in a train of 14 mine cars drawn by an electric motor, the powder being carried in two cars in the middle of the train. The train had penetrated the tunnel about 200 feet when the overhead trolley wire sagged, and, touching a steel powder keg, formed a short circuit. In an instant there was a shower of sparks and a terrific blast. A great sheet of flame, drawn by the air current, enveloped the helpless men who had no possible chance to escape.

BOMB OUTRAGES STIR POLICE

All Agencies Combined to Run Down Anarchist Plotters.

New York.—The eight cities in which bomb outrages were perpetrated last week have arranged for an interchange of police officers to facilitate co-operation of all the agencies at work running down the radicals responsible for the explosions.

The statement came at the close of a conference between federal agents and representatives of the municipal police departments of various cities.

It was stated that detachments of the New York bomb squad have been sent to Pittsburgh, Washington, Philadelphia, Boston and other cities, in the hope that they can be of assistance in rounding up anarchists and other radicals who are familiar figures in the exclusive red society of New York.

Surplus Army Meat Sold Russians.

Washington.—Secretary Baker advised the House Military Committee that he has authorized the sale of \$25,000,000 worth of food stocks held by the Army to the Cooperative Purchase Society of Russia. The society is composed of 20,000,000 heads of families, the secretary said, and will give in exchange for the food raw materials needed in the United States. Mr. Baker said in reply to questions that some of the food probably would reach the Bolsheviks.

FINDS APE SPECIMEN THAT CAN TALK HUMAN TONGUE

PROF. ROBERT L. GARNER.

New York.—The story of a strange animal, half gorilla and half chimpanzee, of such high intelligence as to rank next to man and able to talk so that native in the French Congo could understand, has been brought back by Prof. R. L. Garner, famous naturalist and monkey hunter.

Professor Garner spent two years in Congo and returned with more than 3,000 specimens of birds and animals. He also brought back the stuffed body of one of the strange man-monkeys.

He shot the animal, which stood more than six feet tall and weighed more than 200 pounds.

BURLESON GIVES UP WIRES

Telegraph and Phone Lines Returned to Private Ownership.

Washington.—Postmaster General Burleson on June 5, issued an order returning the telephone and telegraph systems of the country to private ownership, effective immediately.

Under Mr. Burleson's order, while it places operation of the wire systems under private control, does not affect questions of rates and financial relations between the government and the companies, which the postmaster general announced would be left to congress. It also provides that each company keep its account during the remainder of the period of government control, so that proper settlement may be made when such control ends.

Regulations prohibiting discrimination against employees because of union affiliations also are maintained.

Telegraphers in 10 States Quit

Washington.—Employees of the Western Union Telegraph company in Florida, Alabama, Georgia, South and North Carolina, West Virginia, Virginia, Kentucky, Tennessee, Mississippi and in New Orleans, who are members of the Commercial Telegraphers' union were ordered to go on strike on June 5 by S. J. Konekamp, president of that organization.

FIRST OF 339TH ON WAY HOME

Six Companies, Approximately 1,500 Men, Leave Russia.

Archangel.—A contingent of American infantry, which has been serving in northern Russia, boarded a transport June 3 for the journey to the United States. These are the American troops detailed to sail for home.

Official announcement was made June 7, by General March that all of the original Archangel expedition will have sailed for home within two weeks.

Six companies of the 339th regiment aggregating 1,500 men, or approximately one third of the American force on the Archangel front, comprise the first detachment to leave.

Companies E, F, G, I, M and the machine gun company of the 339th infantry are the units that sailed.

There will be left at Archangel temporarily, the railway engineer units sent there recently to assist the withdrawal. General March said he was unable to forecast the date for the withdrawal of the Siberian forces.

Wholesalers Blamed for H. C. L.

Cincinnati.—That the wholesale grocery dealers in this city are in a large measure responsible for the prevailing high prices of all foodstuffs has been brought out in testimony given before the grand jury here. Many of the retail dealers who appeared before the grand jury declared they wanted to sell at lower prices because they could do a better business but that they did not dare to do so for fear of being forced out of business.

UNUSUAL HAPPENINGS AND OTHER BRIEF NEWS

Clubs Snake With Gun, Snake Safe. Petoskey, Mich.—Hasli Ely, 14 years old, attempted to club a snake with a loaded shotgun. The weapon was discharged, shattering the boy's shoulder.

Swiss to Send Mission of 500. Berne, Switzerland.—The Swiss mission, which is to leave for the United States at the end of August for a study of economic conditions in America, will number 500 members.

Ulcerated Tooth Causes Death. Grand Rapids.—From the effects of an ulcerated tooth, which resulted in infection of the brain, Goldie Fay, 18, a stenographer, died at her home. She had been ill only a few days.

Pastor Resigns to Be Christian. Detroit.—Rev. I. Paul Taylor has resigned his pastorate of Highland Park Congregational church because, he says, he "cannot be a Christian and a successful minister at the same time."

\$425,000,000 For Roads Proposed. Washington.—Federal appropriations of \$425,000,000 during the next five years for construction and maintenance of roads was proposed in a bill introduced by Senator Townsend, Republican, of Michigan.

One Reason Why Claims Are Unpaid. Washington.—Dependents of men in military service who have moved without notifying the War Risk Bureau have caused the return of 125,000 insurance certificates. A total of 337,742 checks have been returned.

Direct Cable to South America. New York.—Arrangements for direct cable service between the United States and Brazil and thence along the entire eastern coast of South America have been entered into between the Western Union Telegraph Co. and the Western Telegraph Co. of Great Britain.

25 Yanks Hurt in Train Wreck. Omaha.—Twenty-five out of 275 casualties, all members of the 557th Hoboken Casual Company, were slightly injured when five of the coaches bearing them to Presidio San Francisco, plunged down a 30-foot embankment into Salt Creek. The men were taken to Fort Omaha.

Allies Returning to Native Lands. New York.—More than 100,000 aliens, 6,000 of them from Detroit and other industrial centers in Michigan, have sailed from New York for their native countries since the armistice was signed and they have taken with them \$200,000,000, an average of \$2,000 each, according to a report made by customs officials.

Philippines Want Complete Freedom

Washington.—Final and immediate resolution of the Philippine question asked of Congress in a memorial presented by the Philippine mission. "It is for the best interest of both the United States and the Philippines," said the memorial, "that the independence of the latter country be recognized and established at this time."

Bounty Still Due Civil War Vets.

Lansing.—Giving to each veteran of the Civil war the \$100 bounty together with all accrued interest: in all cases where they did not receive such payment from the state when granted 55 years ago, is the purpose of a bill introduced the senate last week by Senator Herbert F. Baker. The principal and interest will amount to \$450 to be paid by the state.

Grenades Converted Into Banks.

Washington.—Hand grenades, manufactured for the American Expeditionary Forces, will be distributed to school children to be used as savings banks. They will only be given to pupils who are working this summer to obtain money for buying War Savings Stamps. Distribution of the banks, numbering 15,000,000, will be entirely under the direction of the savings directors of the 12 Federal Reserve Districts.

Hogs Being Fed On Rabbit Meat.

White Springs, Kan.—Jack rabbits have become so numerous that they are a pest, destroying young orchards and even field crops. Big roundups are held in which the rabbits are driven to a common center and killed. Wagon loads have been killed in a single drive. Hogs are very greedy for rabbit meat, which contains a high feeding value, and is much cheaper than ordinary feeds. Farmers have been paying five cents each for the rabbits to feed to hogs.

Poison Gas Kills Grazing Cattle.

Paris.—Poison gas used in the war is still having its deadly effect, although the fumes have long evaporated. Authorities in Alsace have been mystified for some time as to the cause of hundreds of horses and other animals perishing suddenly while grazing. Specialists now have disclosed that the animals were poisoned by the grass over which poison gas had been widely spread during the war. The gas, resting on plants, turned them poisonous.

Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Adv.

Freshen a Heavy Skin

With the antiseptic, fascinating Cuticura Talcum Powder, an exquisitely scented convenient, economical face, skin, baby and dusting powder and perfume. Renders other perfumes superfluous. One of the Cuticura Toilet Trio (Soap, Ointment, Talcum).—Adv.

Adversity is the only scale that gives the correct weight of our friends.

AMRITSAR, PUNJAB CITY WHERE INDIANS RIOTED

View of Amritsar, one of the chief cities of the Punjab, India, and scene of riotous demonstrations against the British rule. Inserted is portrait of Gandhi, leader of the riots, who was arrested on the way to Delhi.

To Rid Ecuador of Yellow Fever

Christobal, Canal Zone.—Gen. William C. Gorgas and his staff passed through Panama recently on their way to Guayaquil, Ecuador, on his mission for the Rockefeller foundation of stimulating the elimination of yellow fever from that port and of promoting the improvement of general sanitation there.

The Ecuadorian government has become very much interested in the matter. In view of the hopes of commercial and industrial activity after the war, General Gorgas received the correspondent of the New York World very cordially, and from him and Colonel Wrightson much interesting information about the work was obtained.

The world-wide campaign now being carried on by the Rockefeller foundation

against such universal plagues as yellow fever, hookworm, malaria, bubonic plague and tuberculosis has already begun to revolutionize conditions in some of the countries in which the work is being carried on.

Vitality is increased.

For example, the reduction of the incidence of the hookworm in Porto Rico and Panama has resulted in an increase of the vitality of the population and stimulated industrial activity to a degree that has been clearly reflected in increased business activity. The foundation has employed the most eminent experts in the world for its work. General Gorgas is perhaps the most prominent of them all, having eradicated yellow fever from Cuba, made sanitation for Panama a model for the world, and carried the medical and surgical work of the United States army to a degree of efficiency never known in any army of the world before, during the war.

The west coast of South America has been severely handicapped in its shipping and commercial business by the existence of centers of yellow fever infection in a number of places, especially at Buenaventura, the Pacific port of Colombia, and Guayaquil, the commercial metropolis and port of Ecuador. A rigid quarantine has had to be maintained at Panama against all these ports of western South America, resulting in much delay to passengers who have to be held in quarantine at Panama until known to be free from infection.

WARM BLANKETS FOR SAILORS

A young merchant sailor on board one of the famous fabricated ships built by the United States shipping board is here pictured, showing the blanket that keeps him warm on cold nights at sea. The blanket, heavy, brown, striped with red, and very warm, is part of the bedding furnished by the shipping board on all vessels operated by the board.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing very hollow and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance, the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should disappear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health.

CAUTION:—Although bitro-phosphate is advertised for relieving nervousness, sleeplessness and general weakness, it should not, owing to its tendency to increase weight, be used by anyone who does not desire to put on flesh.

HEARTBURN Caused by Acid-Stomach

That bitter heartburn, belching, food-repeating, indigestion, that after eating—all are caused by acid-stomach. But they are only first symptoms—danger signals to warn you of a real trouble if not stopped. Headache, biliousness, rheumatism, acidity, that tired, listless feeling, lack of energy, dizziness, insomnia, even cancer and ulcers of the intestines and many other ailments are traceable to ACID-STOMACH.

Thousands—yes, millions—of people who ought to be well and strong are now weaklings because of acid-stomach. They really starve in the midst of plenty because they do not get enough strength and vitality from the food they eat.

Take EATONIC and give your stomach a chance to do its work right. Make it strong, cool, sweet and comfortable. EATONIC brings quick relief for heartburn, belching, indigestion and other stomach troubles. Improves digestion—helps you get full strength from your food. Thousands say EATONIC is the most wonderful stomach remedy in the world. Brought them relief when everything else failed.

Our best testimonial is what EATONIC will do for you. So get a big box of EATONIC today from your druggist. Use it five days—if you're not pleased, return it and get your money back.

EATONIC (FOR YOUR ACID-STOMACH)

NEW SOUTH WALES INFORMATION BUREAU. Singer Building, 109 Broadway, New York City. Will be pleased to send Government literature on any and every inquiry regarding opportunities for farming, stock raising, fruit growing, mining and investment in New South Wales.

AUSTRALIA

View of Amritsar, one of the chief cities of the Punjab, India, and scene of riotous demonstrations against the British rule. Inserted is portrait of Gandhi, leader of the riots, who was arrested on the way to Delhi.

be free from infection; while cargoes have frequently had to be fumigated against mosquitoes and rats, with much loss of time and money and occasional damage to the cargo.

Two difficulties have been in the way of eradicating these diseases from these ports. One has been the financial expenses, which would be a heavy charge upon the governments of the countries involved, and the relative failure of the people at large to appreciate the necessity of improved sanitation.

The Rockefeller foundation is helping to solve the first of these difficulties, and is indirectly also promoting the spread of information among the people so as to reduce the indifference on the subject. The healthfulness of the Isthmus of Panama has been a good advertisement for sanitation to South American travelers.

One of the main difficulties in arousing public sentiment to demand the thoroughgoing elimination of endemic diseases has been the fact that the population of the ports involved have become more or less immune through the operation of the natural method of immunization produced by the disease.

But the constant arrival at these ports of nonimmune persons from the interior or from other countries keeps the infection alive as long as the mosquitoes which convey the disease are in these ports. There is nearly always a sufficient number of cases of yellow fever in existence to infect these mosquitoes, and when new arrivals are bitten they are likely to develop the fever, and so to keep the epidemic going from one new arrival to another. The only safe way to get rid of the fever, therefore, is to get rid of the mosquitoes.

Carry Silver Safely

Washington.—Now that the government has completed its war-time shipments to India of silver from melted dollars, Director of the Mint Baker has disclosed how thousands of tons of the metal were hauled from the Philadelphia mint to San Francisco in special trains, guarded by armed men, without loss of an ounce and without general knowledge of the procedure.

Eighteen of these treasure trains made the trip across the continent in the 12 months ending last April 23, with the silver like big bricks piled high in each of the five express cars composing a special train.

Two men with automatic pistols at their hips and sawed-off shotguns on their laps sat in each car, and later guarded the secret transfer of the

white bars from train to ship at San Francisco.

Each silver brick weighed about 63 pounds and was worth \$1,000, and each train carried between \$3,000,000 and \$10,000,000 of the bricks. Wrecking of the trains and theft of the metal by bandits was considered an ever-present menace to be guarded against.

Guarded shipments of silver dollars also were made from the United States treasury in Washington and from the New Orleans subtreasury in Philadelphia. These dollars traveled in small bags of 1,000 each and were handled much like bags of sugar, except that armed men always were near.

More than 255,000,000 silver dollars were melted and shipped to India during the year, to meet urgent war demands for coinage.

A Less Curable Failing.

In the later years Edward Everett was greatly troubled with deafness. A friend who was confiding with him asked:

"What is the trouble—can it be wax?"

"No," Everett responded whimsically, "wax."—Youth's Companion.

And there were smart men, even when they used a crooked stick for a plow.

After That the Deaf.

"My wife got so mad she wouldn't speak to me for an hour."

"Ah!"

"And then she let loose all at once."

—Boston Transcript.

After all, the "barbarian bands" may not discourage amateurs from practicing on the accordion.

Don't try to pull yourself out of trouble with a corkscrew.

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotics, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher. Genuine Castoria always bears the signature of *Chas. H. Fletcher*

Fat and Oil Production.

The production of the animal fats, exclusive of butterfat, equal to but 70 per cent of the vegetable oil output of the United States in 1912, rose in 1917 to nearly 80 per cent, including butter, in 1912 the quantity of animal fats was approximately twice as great as that of vegetable oils, while in 1917 the production of the two classes of fats and oils was nearly the same.

One of man's hardest battles is against the innate spirit of brotherhood.

Can Wear Masks and Smoke.

For persons who wear influenza masks and desire to smoke, Edward T. Duncan suggests a way, which is described in Popular Science Monthly. Get two corn plasters and, in 1912 the quantity of animal fats was approximately twice as great as that of vegetable oils, while in 1917 the production of the two classes of fats and oils was nearly the same.

The more bread the baker makes the more he kneads.

IT'S NOT YOUR HEART; IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ill-afflicted people today can be traced back to the kidney trouble.

The kidneys are the most important organs of the body. They are the filters of your blood. If the poisons which are swept from the tissues by the blood are not eliminated through the kidneys, disease of one form or another will chain you as a victim.

Kidney disease is usually indicated by weariness, sleeplessness, nervousness, despondency, backache, stomach trouble, pain in loins and lower abdomen, gall stones, gravel, rheumatism, scatica and lumbago.

All these derangements are nature's

signals that the kidneys need help. You should use GOLD MEDAL Haazem Oil Capsules immediately.

Nothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Go to your druggist today and get a box of GOLD MEDAL Haazem Oil Capsules. In twenty-four hours you should feel health and vigor returning.

After you feel somewhat improved continue to take one or two capsules each day, so as to keep the first-class condition and ward off the danger of other attacks.

Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

PACIFIC BLOCKADE NOT NEW

French Writer on International Maritime Law Was the First to Fully Describe It

"Pacific blockade" is a term invented by Hauteville, the French writer on international maritime law, to describe a blockade exercised by a great power for the purpose of bringing pressure to bear on a weaker state without actual war. The Pacific blockade has apparently established itself as a legitimate means of exercising a weak power to observe its international obligations without resorting to war for that purpose. It is a modern development and has usually been the act of several powers acting in concert. It was first employed in 1827, when the combined fleets of Great Britain, France and Russia blockaded a portion of the Turkish coast. More recent instances of its exercise were the blockade of Crete by the powers in 1897, the blockade of Venezuelan ports by Great Britain, Germany and Italy in 1902 and of Turkish ports by the powers in 1905.

A Philosopher.

"Lots of rain!"

"Yes," replied Uncle Bill Bottletop. "As long as we've got prohibition, it's a comfort to know there's no shortage of water."

A sword in the hands of a coward is his own danger.

Living Monstrosities.

Instances where a living creature appears to consist of two similar parts capable of a certain degree of separate life are called "living monstrosities." It is noted that this phenomenon occurs abnormally and occasionally even among human beings. Instances are Helena and Judith, the Hungarian sisters (1701-1723), the famous Siamese twins (1814-1874), the South Carolina negroes Millie and Christina, and the Bohemian sisters, Rosalie and Josephine.

Often the union is so much closer that the consolidated individuals do not survive long after birth. Among the lower animals the phenomenon is far more common than it is among human beings, and it is thought possible that by persistent selection and breeding a race of double monsters might be established.

Safety in Silence.

"An intelligent looking dog you have there."

"Indeed he is," said the proud owner. "Now, if that dog could only talk, the things he might say!"

"Perish the thought! That dog has followed me into all kinds of places."

—Birmingham Age-Herald.

All war agencies must remember that it is not how much they may do—but when, and where.

The war was the fire of freedom directed against the accumulated hostility of the ages.

Army Asks 1,500 New Planes.

Washington—Plans for the construction of more than 1,500 airplanes at a cost of \$29,000,000 and the purchase from Great Britain of one of the newest type of dirigibles for use as a model for future dirigible construction in this country, are included in the army program for aircraft production, outlined by Major-General Menoher, director of military aeronautics. General Menoher said that the dirigible to be purchased from Great Britain would be 629 feet long.

KEEP YOURSELF FIT!

You can't afford to be laid up with sore, aching kidneys in these days of high prices. Some occupations bring kidney trouble; almost any work makes weak kidneys worse. If you feel tired all the time, and suffer with lame back, sharp pains, dizzy spells, headaches and disordered kidney action, use Doan's Kidney Pills. It may save an attack of rheumatism, dropsy, or Bright's disease. Doan's have helped thousands back to health.

A Michigan Case

J. W. Viers, 520 Milwaukee Avenue, O'wasco, Mich., says: "I had sharp pains across the small of my back, caused by a strain. I was bothered when at work and when I stopped, the pain always settled into me. I had seen Doan's Kidney Pills highly recommended and finally began taking them. They soon cured me and during the past year I have had no sign of the trouble."

As He Walks Along.

The local society in the town of Voronezh in Russia has discovered what everyone else has failed to find, hitherto, a royal road to learning. And, like every really great discovery, it is simplicity itself. Placed the principal thoroughfares of your town with "portraits and brief news items," and what have you? Why, a "Street University." "In this way," declares the Izvestia, "any citizen, instead of spending years at a bourgeois university, can pick up a general knowledge of the principal subjects as he walks along." As he walks along. Even so.

FRECKLES

Now is the time to get rid of these ugly spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these "harmful spots."

Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is when that more than one ounce is needed to completely clear the skin and make a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.—Advt.

His Favorite.

Landlady—What part of the chicken do you prefer?

Boarder—A little of the meat, please.

A Sure Sign.

"Is your husband improving?"

"I think his health is, because his language isn't."

It's no more human to err than it is to lie about it.

COCA-COLA WILL BE USED TO CHRISTEN ENGINE

Program Will Feature Exercises at Fire Hall on Wednesday.

[From Nashville Tennessean.]

Ann Dallas Dudley, the new fire engine at the Waverly-Belmont fire hall, will be christened on Wednesday afternoon at 2 o'clock with appropriate exercises. Mrs. Gullford Dudley, for whom the engine gets its name, is one of the state's pioneer suffrage workers and it is due to her untiring work that partial suffrage was given the women of Tennessee. Mrs. Miles Williams, a resident of the twenty-first ward, is chairman of arrangements, and also a pioneer suffragist, and little Judith Winston Folk, the 6-year-old daughter of Mr. and Mrs. Isaac Folk, also a pioneer suffragist and the youngest member of the Nashville organization, has been chosen sponsor. Miss Folk has selected as her maids the following young girls, daughters of prominent suffrage leaders: Travanta Dudley, Lenore Kenny, Kate Barksdale, Harriet Ingram, Mary Sue Cantrell, Jane Davis and Elizabeth Smith.

At the christening, not champagne but a bottle of coca-cola will be broken and the maids will shower the engine with yellow flowers. Speeches will be made by Mayor William Gorton, Commissioner Tompkins and Chief A. A. Rosetta. Mrs. Dudley, a member of the national suffrage organization, and Mrs. Renu Folk, chairman of the city organization, will be honor guests of the occasion.—Advt.

May Use Cottonseed Oil.

In the United States the yellow unbleached palm oil is used very largely in the tin plate industry. So far it is almost the only substance which has been found satisfactory as a flux on the discharge side of the pots of melted tin through which the sheet iron plates are passed to receive their coats of tin. Recent experiments with hydrogenated cottonseed oil, however, indicate that our tin plate industry will be independent of this foreign-controlled oil.

Rara Avis.

The Scrap Book

Business Instinct.

The teacher was trying to impress upon her class the necessity of regulating the selfish human heart, and to drive her point home she produced her watch.

"Now, girls," she said, "you all see this watch"—an assertion so obviously true that there was no danger of contradiction. "Now," she continued, "just suppose for a moment that it did not keep correct time, that I found it was willing to go any way but the right way, what should I do with it?"

There was the usual pause which pupils indulge in because it flatters the teacher by making her suppose her problem is a very deep one, and that her wisdom is, therefore, profound. Then a bright little girl held up her hand.

"Please, miss," she said, "you would sell it to a friend!"

The Footpad and the Jokesmith.
The professional Jester was walking along the darkened street, alone. He heeded not whether his footsteps tended, nor noted the lateness of the hour; for he was composing witticisms that he might peddle money.

"Hands up!"
The Humorist started from his reverie, and found himself looking into the transmitter of a large revolver.

"Excuse me for taking your time," said the robber, chuckling at his own humor, though the joke was disgustingly old. But the Jester laughed merrily, as if it were new.

"Don't apologize for that," he said; "I can well spare it. You see it is only a dollar watch. But I can sell this joke to a funny paper for two dollars and make one hundred per cent on the transaction."

Domestic Repartee.
A friend confessed to us the other day that his wife always got the best of it in the duel of words. But the reason he confessed was that he had overheard an instance in proof.

The lady came into the room and said, "Oh, Robert, what do you think? I forgot to take the cake out of the oven, and it's burned to a crisp!"
"Well, all the tools aren't dead yet!" growled Robert.

"That's lucky for me," she admitted. "I don't look at all well in black."
And then she left the room, and he admitted what he admitted.

Unappreciation.
"What's the matter with the submarines?" inquired Herr Schrecklich.
"The submarines are all right," replied the captain of the U-boat. "The trouble is that the people we shoot at refuse to admire our beautiful mechanism. They have no hesitation whatever about shooting it up."

He Knew.
The Minister—Do you know where you will go if you go fishing on Sunday, young man?
The Young Man—Sure! Down to the river.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, Ohio. Sold by all druggists, only 75 cents.

about roofings, the name McHenry-Millhouse just naturally comes to your mind. That is because their Asphalt Shingles and Asphalt Prepared Roofings in Rolls are known the country over for quality, durability and economy.

Nothing but the very best material obtainable enters into the manufacture of these products. The processes are efficient to a high degree. The McHenry-Millhouse Asphalt Shingles and Asphalt Prepared Roofing in Rolls are recognized as standard of the trade.

Thorough planning in constructing new buildings or re-roofing your present buildings means that you will specify these high grade materials for the purpose. The old roofing is exceedingly economical and practically indestructible. There is absolutely no waste to roll roofing. It can be used to advantage on any and all classes of buildings.

Come on in sometime and look these materials over. No obligations to buy.

Sold by

CHELSEA ELEVATOR CO.

The Doctor Away From Home When Most Needed.

People are often very much disappointed to find their family physician away from home when they most need his services. Diseases like pain in the stomach and bowels, colic and diarrhoea require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. Adv.

Extensive improvements, including a rock-faced stucco finish on the first story and asbestos shingles on the second story, also the repainting of the wood-work, have been made on the home of Mr. and Mrs. Roy Harris, 404 McKinley street.

Tickets for Detroit on the D. J. & C. interurban line are sold with the understanding that passengers will be discharged at the Detroit city limits, due to the strike in that city. It was said Monday that automobile trucks were at the city line to take passengers into the city, although no formal arrangement had been made to see that passengers were thus provided for.

The World Needs Men!
The world needs men. The whirling wheels of the universe sound the call: From the lowliest state to seats of the great.

From the bench to the lawmakers' hall! The world needs men of brains and work to do the things that the shirkers shirk.

Up man, and build! The ground is cleared. And awaits but the master hand! This thing shall be wrought by the Toiler's thought.

While the sluggard shall dig in sand! The loafer may lounge, but the thing for you is off with your coat, and up and do!

—Henry Edward Warner in Richmond Times-Dispatch.

Lame Back Relieved.

For a lame back apply Chamberlain's Liniment twice a day and massage the muscles of the back over the seat of pain thoroughly at each application.

Adv.

I was there to make a sketch of her. Luncheon was just over, and she was talking to a little knot of women. The first words I heard, as I slid quietly into a nearby seat, were "National Biscuit," recalling pleasantly my own tasty Unedeada Biscuits.

I looked at her, and noticed that she spoke about my biscuits, and those were our part.

"Between the dark and daylight," she was quoting, "there's always a bit of pause."

Seems waiting and listening—for the children. Since they were babies, I've given them babies. First I had to...

Then, when they were toddlers, I had to give them toddlers like a feast. For the menu, sometimes Unedeada Biscuits and milk. Sometimes Graham Crackers Oatmeal Crackers or Lunch Biscuits. This is changed on special occasions to Old Time Sugar Cookies. I liked that, and noticed that there are days when we had cream and Nutella and those were our part.

"The original, inherent goodness of Unedeada Biscuit is due to the superior materials and methods employed in the baking. The everlasting table-goodness of Unedeada Biscuit is due to security of the In-cr-seal trade mark package."

(NATIONAL BISCUIT COMPANY)

"You see, even my babies seem to go on, 'are much like me' Biscuit Products can be. During the most tractable after they've had something to eat. National Biscuit up we never missed the Child-dainties always begin our Child-dren's Hour with its tasty feast."
