To her two daughters and her granddaughter she bequeathed all the property and money which was held for her by the Union Trust company of Detroit, share and share alike, and to the two daughters and the son she leaves the rest and residue of the estate, share and share alike.

The Union Trust company of Detroit is named executor of the estate, without bond.

## REGISTER OF DEEDS BUSY.

Nearly three thousand papers have passed through the hands of Perry L. Townsend, county register of deeds and assistants, since last January, representing an enormous amount of work done by that office.

In January there were 100 warranty deeds and 177 other papers; in February 143 warranty deeds and 114 other papers; March, 193 warranty deeds and 23 other papers; April 217 warranty deeds and 250 other papers; May, 219 warranty deeds and 217 other papers; June, 235 warranty deeds and 200 other papers and last month 264 warranty deeds and 200 other papers, making a total of 2,759 papers for the seven months.

For the past five months the average number of papers handled per month has been 446, and it is expected that the next few months will show a still greater average, as in normal times the spring and fall months show a much larger number of real estate transfers than do those of summer or winter.

## FREEDOM BARN BURNED.

Sunday night about 10:30 Jacob Scherdl's barn in Freedom township was discovered to be on fire. An alarm was given and the neighbors hurried to the scene but it was evident that efforts to save the building were useless, so attention was given to saving the house. The contents of the barn were 10 tons of hay, 220 bushels of wheat, 200 bushels of old oats and about 300 bushels of unthreshed oats, a manure spreader, wagons, harnesses, etc. All went with the barn. There was an insurance of \$900 only.

MISS ISABELLE BYRNE. Miss Isabelle Byrne, an American Red Cross nurse who has just returned from service with the A. E. F. overseas, will tell of her experiences in the Chateau Thierry and Argonne sectors at the Lincoln Chautauquas here. Miss Byrne, who was assistant director of the Roosevelt Hospital, New York City, went to France as a member of the Army Nurse Corps and served as chief nurse of Mobile Operating Unit No. 1 at Chateau Thierry. This unit traveled with the American troops, carrying their equipment and supplies entirely on trucks, and within sound of the enemies' guns, and often were under direct shell-fire, "serving as long as the boys were being brought in, which meant that we were on duty during the September drive thirty-six hours at a time."

## Ford

THE UNIVERSAL CAR

You can't expect Ford performance if your car isn't "all Ford."

When you bought your Ford car we could guarantee the mechanical rightness of each part because we knew exactly the quality of materials which went into it. From time to time some of these parts will have to be replaced if for no other reason than general wear and tear. When that need arises be sure you get genuine Ford parts. There are imitation parts on the market and sold by certain repair shops and accessory houses, but there's a difference of all that extra Ford strength which Ford quality builds into the genuine.

You are assured of genuine Ford parts, expert Ford mechanics, and a most reasonable scale of charges when you bring your car to us.

## TRIES TO RE-ENACT WILD WEST PLAY

### Boy, Fascinated by Moving Pictures, Accidentally Hangs Himself.

New York.—Fascination, which the adventure and romance of wild west stories and moving pictures exerted over John Shubert, 13, is believed to be responsible for his death.

He was found hanging, strangled by a rope around his neck, from a stamper which runs along the ceiling of the bathroom in his father's apartment at 875 East 170th street.

When the body was discovered there was also found a novel of western life,

He Was Found Hanging.

which lay beneath the boy's feet, and was opened at a particularly lurid scene, which the police think the boy was trying to re-enact.

The title of the book was "The Young Wild West Holding the Hill; or the Fight for the Cave of Gold." In the picture, which had evidently struck the boy's fancy, a boy dressed in a scout's costume was being lowered into an open grave by a band of cowboys. The boy in the picture was trussed up with ropes and was being buried alive.

Beneath the picture was printed: "Let him go, boys!" shouted the leader of the band. "If the end of the plank sticks out a little, it will mark the spot where the champion death shot was buried alive. Down with him!"

The accepted theory of the cause of the hanging is that young Shubert was thrilled by the picture and by similar scenes he had read about or seen in the movies, and was trying to stage a "make-believe" hanging. It is thought that after "hanging" himself he intended to take the rope off his neck and tie it around his arms and legs in the same way "the champion death shot" was tied in the picture, and then imagine himself being buried alive. If he had carried out his plan, the grave of the picture would probably have been represented by the bathtub over which the boy hanged himself.

## Wind Yanks Celluloid Collar From Man's Neck

Connellsville, Pa.—The freak action of the wind was demonstrated here recently. A forger, wearing a celluloid collar and a "slip-in" bow tie, was seated by an open window in a street car. As the car swung around its broad side to a sudden gust the tie was whisked from the collar, the collar was unbuttoned and whipped from the man's neck and all went flying out of the window on the opposite side of the car.

## DISGUISES TO GET WIFE

### Englishman Put on Elaborate Make Up to Win His Second Spouse.

London.—A strange story of a married man's disguise was related at Sheffield when Stanley Neville was committed to the Asizes charged with bigamy, and Sophia Redford with aiding and abetting.

Neville, it was stated, was known to Redford's relations as a married man with three children, but when he introduced himself by the name of Maynard nobody recognized him.

He had shaved off his mustache, darkened his hair, discarded his spectacles, walked with a limp and looked smaller.

"I have come to claim your sister's hand," he told Redford's brother. "We are well paired, and I am a suitable chap."

Redford's brother and sister accompanied the couple to the registry office as witnesses of the marriage.

Made Baby a "Freak." Cincinnati.—Mrs. Clara C. Agnes has been granted a divorce after proving that her husband, a showman, had shaved the baby's head and exhibited it as an infant of a newly discovered South Sea island savage tribe. She also declares her husband forced her to enter cages of South Sea island natives as a snake charmer.

## When One Frock Serves for Two

The present styles in afternoon frocks play into the hands of many women who have learned to make one frock serve for both afternoon and evening. They managed very well in this same matter during the war, when Paris has dealt the cards so that the game becomes easy. There is a vogue for bare arms, or very abbreviated sleeves, on French gowns, that is reflected here in short sleeves made of the sheerest fabrics that merely veil the arms. It doesn't take much maneuvering on the part of a clever woman to place an afternoon frock of this kind in the class of evening gowns. The addition of the right accessory—the removal of a gaiter, the arrangement of the coiffure—and the trick is turned.

## Riding Habits Trim and Flattering

The time has come to frankly glory in perfect health and vigor, for the up-to-date girl cannot be good sports-woman without them. And the healthy woman who is fond of sports is an agreeable person to have about. She has interests that will keep her young, charms that will last and activities that will prevent her from getting disastrously fat. Costumers see to it that she is clad becomingly for whatever sports she elects to follow, and they have made the riding habit, of all sports clothes, the trimmest and the most flattering.

There are some special habits for summer wear that are worn by enthusiastic horsewomen who are devoted to this sport all the year round. They are made of heavy cotton basket weaves and whipcord, and are patterned after the habits of wool. White china silk blouses are worn with them and top boots in black or brown leather.

## Tuskless Elephants in Ceylon

An elephant without tusks seems almost impossible, yet in Ceylon the male elephants have no tusks at all; they have miserable little grubbers projecting two or three inches from the upper jaw and inclining downwards. Nothing produces either ivory or horn in fine specimens throughout Ceylon. Although some of the buffaloes have tolerably fine horns, they will not bear a comparison with those of other countries. The horns of the native cattle are not above four inches in length. The elk's and the spotted deer's antlers are small compared with those of their size in India. This is the more singular, as it is evident from the geological formation that at some remote period Ceylon was not an island, but formed a portion of the mainland. It is thought that there must be elements wanting in the Ceylon pasturage for the formation of ivory.

**Government Victory Show**  
At The Michigan State Fair

Detroit (Special).—Combined exhibits of several United States Government departments, to be exhibited at the Michigan State Fair, Detroit, August 29 to September 7, will comprise a gigantic victory show. They will display many of the tools of war used by the Army and Navy in late world's conflict, and a large number of trophies captured on the battlefields of Europe by American troops.

A special corp of men have been at work for months, sorting the great amount of booty brought back from abroad and selecting an exhibit that will portray to the people of this country the titanic task accomplished by the boys in khaki. The Michigan State Fair has been selected by the government officials as an exhibiting place on account of the fact that it brings together more residents of the state than any other medium.

**A Bilious Attack.**  
When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take three of Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. Adv.

When they are just the shade of brown to make them so inviting?

He knows, too, as do all our patrons, that they are even better than they look—that the rich, crisp crust encases filling sweet and juicy with that same delicate flavor always found in the pies that come from SMITH'S.

A trial order will convince you. Why do your own baking this hot weather, or wear yourself out in a hot kitchen—let us do your baking.

**Acknowledged the Acme in State Fairs**

The Michigan State Fair holds first place among the fairs of the nation. In 1918 more than 500,000 visitors were entertained during ten days. In 1919 preparations are being made to take care of twice this number. This year the Fair Management is giving \$75,000 in premium money. Extra streets have been laid out to take care of the concessions. Additional buildings are required to house the exhibits. No such interest has ever before been demonstrated by the residents of the state as they are showing this year. This institution of the people has no peer. Such intensive support has been accorded the Fair that the management has been put to a test in exploring the markets of the world to secure the attractions demanded.

No public spirited citizen interested in the welfare and progress of Michigan can afford to miss this great educational and entertaining
