

REVISED GAME LAWS ARE NOW IN EFFECT

Much Small Game is Still Protected; Squirrel Season Opens October 15th For Fifteen Days.

Of especial interest to a great many men and boys in this vicinity will be the revised Game Laws for 1919, and 1920, which went into effect August 14th. The enforcement of these laws is becoming more strict each year and it behooves the person who is going to hunt, trap or fish to get a copy of the Revised Game and Fish Laws at the county clerk's office. This little book contains all the information necessary and in compact form.

Fox squirrels may be hunted this year between October 15th to 31st, inclusive. Black and gray squirrels are protected until 1921. Muskrats cannot be trapped or hunted until December 16th in this county; and the season closes March 31st. Further north in the state the season opens October 16th

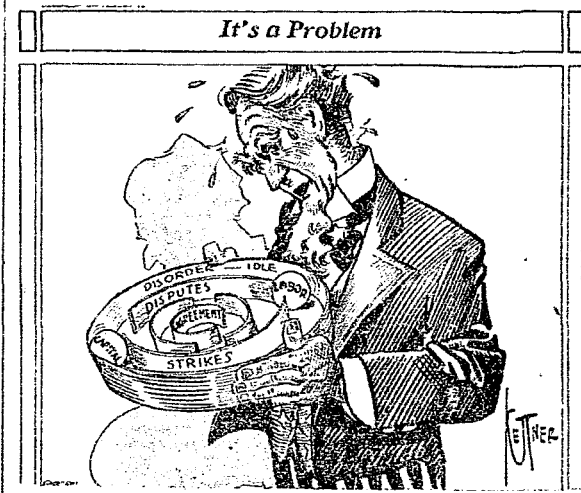

and closes April 14th. The rabbit season opens November 1st and closes March 1st.

Miscellaneous provisions of the revised laws which may be of interest to many follow:

AUTOMOBILES may be used to transfer hunters to and from hunting grounds, but must not be used in any manner that could be construed to be an act of hunting.

WHY AN EDITOR LEFT TOWN.

It was because the following items appeared in his paper:

"Mrs. Thomas W. Johnson read an article for the Woman's club, entitled 'Personal Devils.' Seventeen were present."

"Mr. John Crouse shipped a carload of hogs to Kansas City one day last week. Three of his neighbors went in with him to make up the load."

TUBERCULOSIS TAKES MORE THAN LEPROSY

Single Leper at Benton Harbor Caused Much Alarm in State But What About White Plague?

Michigan's single leper has died and the medical case that many months ago gave a great many people something like the shivers has passed into history. At Benton Harbor a few days ago Abraham Getz, a Russian Jew, died of leprosy, and this state is now without that interesting specimen.

How illogical people are in the matter of disease is illustrated by this case, the Michigan Anti-Tuberculosis association points out. This one leper has caused ten times as much stir as the three thousand deaths from tuberculosis every year. Tuberculosis is a far more dangerous disease than is leprosy. The latter disease, which was prevalent in the days of Christ, does not spread easily in cold climates. In fact, it is believed that there is practically no danger of contagion in such a climate as Michigan's.

Yet a year or two ago when the case was first discovered, many people were almost in a panic about it. No town or county wanted the leper as a resident, and many persons who were never likely to come within miles of the leper were in a panic about him.

But at the same time there were about 25,000 cases of tuberculosis in Michigan, a disease that spreads easily and of these cases about 3,000 were dying annually. Every town and county had its fair proportion of cases, but comparatively few people pay any attention to them. Comparatively little is done to prevent this disease, and it keeps on claiming its victims year after year and endangering everybody.

Tuberculosis could be made as rare as leprosy, the Michigan Anti-Tuberculosis association declares, if people would become as much interested in its prevention and cure.

BAD STORM SATURDAY

Did Considerable Damage in Waterloo Township and Munith.

High winds, hail and a deluge of rain combined to do considerable damage in the vicinity of Waterloo and Munith, late Saturday afternoon.

A horse belonging to Thomas Stanfield of near Waterloo was struck and killed by lightning. The Parks school was also struck, and the wind did considerable damage to standing timber and orchards in the vicinity of Munith. No damage is reported in the immediate vicinity of Chelsea, the storm passing well to the north of this place.

Trees were uprooted west of Dexter, and considerable damage is reported from the northeastern part of the county, where windows were broken by the nameroth hail stones, said to be the size of hickory nuts or larger in some instances. Several silos in that vicinity were reported blown down.

Very little rain fell here Saturday, but a regular deluge visited this vicinity Sunday about noon and repeated at intervals, but no damage is reported from wind or hail.

"BIG 5" PACKERS KILL COMPETITION

INDEPENDENT DEALERS TESTIFY THAT BARONS ARE FORCING THEM TO WALL

STATE FOOD QUIZ CONTINUED

Witnesses Who Suffered by Alleged Unfair Practices of Big Packers Testify At Lansing.

Lansing.—Alleged efforts of the big meat packers to drive independent operators out of the various Michigan fields were revealed by witnesses in the state inquiry into profiteering, in session before Judge Howard West of the circuit court here.

Evidence given by men who had actually suffered from underselling and other methods of business, claimed to be unfair by the Chicago corporations, was designed to prove that these efforts had, in most cases, been entirely successful.

The "Big Five" tactics followed, according to the testimony, two clearly defined lines. The first was the cutting of prices in the wholesale market to a point where the independents found it impossible to follow and continue in business, and the other was the flooding of specified markets in advance of expected shipments of beef and other meats by the local dealers with the intention of preventing the disposals of stocks by the latter.

The impression gained from the recital of these facts was that such independent competition as exists now in the Michigan field is there on sufferance; that it could be wiped out of existence almost overnight by the use of the weapons said to have been used in the past by the Chicago packers whenever the operations of the independents became bothersome in any serious degree.

George Zimmer, of the Bay City Packing company, told of the gradual reduction of the territory covered by the operations of his business through the underselling of Swift & Co., Schwartzschild and Sulzberger (now Wilson & Co.) and Hammond, Standish & Co. The final blow came when the three big packers named all-out prices as much as six or seven cents a pound, and Zimmer threw up his hands in despair and retired from the field desired by the "Big Five," never to enter again.

Zimmer also told of the unfair, but effective, tactics of the same competitors in preventing him from buying in markets in which they were interested as purchasers. He had been buying hogs around Bay City for several years and had been practically unmolested by the "Big Five." One day, however, he ventured into the Detroit market as a buyer. To his consternation, by the time he had shipped his Detroit-bought hogs to Bay City and had slaughtered and dressed them, he was ready to sell, the "Big Five" operators, he said, had flooded the Bay City market with hogs and had forced prices down so low that Zimmer was compelled to sell at a substantial loss. The experience cured him of his temerity in entering the sacred fields of the big fellows.

RATIFY TREATY, SAYS LANSING

Secretary Breaks Silence Following Accusation of Peace Party Member.

Watertown, N. Y.—"The treaty should be ratified without delay and without change," Robert Lansing, Secretary of State, declared here in the first public utterance made by him since the statement of William C. Bullitt before the Senate Foreign Relations Committee, in which it was alleged the Secretary of State, on May 19, in Paris, said that if the American people knew what was in the treaty they would defeat it.

"In the Treaty of Peace," Mr. Lansing further said, "there is nothing which invades the sovereignty of this republic or which limits in any way the full existence of such sovereignty."

Robbers Hold Up 75 Farm Hands.

Fargo, N. D.—Eileen holdup men "stuck up" 75 harvest hands in the Oakwood railroad yards and robbed them of about \$1,300 in cash. The bandits were caught by a deputy sheriff, who organized a posse, and rounded up the gang. The robbers, to prevent the barkeepers from giving the alarm, attempted to make them remove their clothing so they would not be able to spread the alarm. A boy observed the performance from a distance and notified a deputy sheriff.

He was born in Crawford county, Pennsylvania, May 5, 1855.

BULGARIAN FRONTIER CHANGED

Part of Ferdinand's Territory and All War Plunder Given to Allies.

Washington.—The summary of the Bulgarian treaty of peace cabled to the state department by the American peace commission at Paris shows the pact to follow the same general plan as the Austrian treaty.

Some of the outstanding points in the treaty are: Bulgaria must reduce her army to 20,000 men, give up her navy, surrender all airships and pay in 37 years an indemnity of 2,250,000,000 francs.

Western Thrace must be ceded to the Allies and the western frontier is altered considerably to the advantage of Serbia.

All plunder taken in the war must be returned, and, as special compensation for the destruction of Serbian coal mines, Bulgaria must deliver 50,000 tons of coal annually to the Serb, Croat and Slovene states.

Many clauses, such as the League of Nations, labor, aerial navigation, penalties, prisoners of war and graves, except for the substitution of names, are identical with the Austrian Treaty.

POLICE NAB BANK ROBBERS

Gang Who Held Up Grand Rapids Bank Caught in Detroit.

Detroit—Identified by two witnesses of the hold-up of the Grandville avenue branch of the Grand Rapids Savings Bank in which about \$5,500 in cash and Liberty Bonds was taken and a man killed last Friday morning, three of the four men implicated—Tom Leon, alias Tom Leon, Ally Handen and John Herhigo, were arrested here and are said to have confessed.

The name and description of the fourth man in the gang was also furnished the police. All of the bandits have police records.

The men were arrested singly, largely on information furnished by James Bright, a porter in a Grand Rapids restaurant, who had overheard the plans for the robbery, it is said.

New York—Peter Cooper Hewitt, inventor, predicts that America and Europe will soon be "connected" by wireless telephones. This may take from two to five years, he said.

What About a New Rug?
 In furnishing the room, the rug is one of the essential effect producing features. To secure tone and artistic qualities requires careful discrimination and choice from a well selected assortment.
 At present the rug situation is a problem. The manufacturers have reduced their output by a half, still the demand increases steadily, and is now far in excess of supply. This increases the importance of a good rug display by just that much.
 If you are furnishing that extra room, or are replacing a worn rug we feel it would be worth your while to look at our assortment of which we feel justly proud. We hope your visit to us will result in pleasure and saving, and it will be a pleasure to serve you.

TWO BOUQUETS: THANKS!
 Commenting upon the Tribune's recent birthday, both the South Lyon Herald and the Fowlerville Review said some nice things about us. George Adams of the Fowlerville Review is probably the dean of country newspaperdom in Southern Michigan, although Alar Blosser of Manchester runs him a close second. Both Mr. Adams of the Review and A. K. Pierce of the Herald publish mighty good papers—we always enjoy looking them over—and we'll say they are among the best that come to our exchange table. The bouquets they handed us follow:
 The Chelsea Tribune was 12 years old Tuesday. It's a dandy newspaper.—South Lyon Herald.
 The Chelsea Tribune completed its twelfth year last week, the past nine years under the ownership of an old Livingston county boy, Ford Axtell. It is published twice each week and is growing better each year, being not only a credit to the publisher, but to Chelsea.—Fowlerville Review.

CARD OF THANKS.
 I wish in this way to express to all my neighbors and friends my heartfelt appreciation of their kindness and words of sympathy following the loss of my husband. Mrs. J. D. Cotton.
 Tribune "liner" ads; five cents the line first insertion, 2 1/2 cents the line each subsequent insertion.
 Chamberlain's Cough Remedy.
 This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Scruby, Chillicothe, Mo., writes, "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds and croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotic.
 W. L. Walling of Eaton Rapids, former superintendent of the Chelsea schools, was in town Saturday en route home from Ypsilanti, where he had been in quest of teachers. The Eaton Rapids school is so overcrowded that the board has been obliged to buy a portable house with two rooms to relieve the congestion, and must employ two additional teachers.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors proscribed local remedies, and by failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One hundred dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.
