High School Foot Ball Teams Play Tie Game Friday Afternoon.

In Clinton, Friday, the Chelsea high school football team failed to score against the Clinton high team and a tie game resulted although Clinton has the weaker team. Chelsea's inability to put the pigskin over for a touchdown is alleged to be due to penalties inflicted at times when they were within striking distance of Clinton's goal. The boys claim that the referee was partial to Clinton in his rulings. The game by quarters follows:

**First Quarter.**  
Clinton won toss and Chelsea kicked to them. They fumbled the ball and Chelsea recovered it only to have the referee rule it Clinton's ball. Clinton could not advance the ball so they punted over Chelsea's goal line. Chelsea recovered the ball on her 20-yard line. Three plays failed to gain and penalties put Chelsea back, so Brooks punted to Clinton. Bacon interrupted forward pass, Chelsea made first down but could not advance ball further. Clinton then took ball and Chelsea was penalized 5 yards for off-side play. End of quarter.

**Second Quarter.**  
Chelsea again penalized 15 yards for holding. Chelsea interrupted pass, Brooks punted to Clinton and Clinton failed to gain and returned the punt about 30 yards. Chelsea lost ball and Clinton failed in an attempt for field goal. Chelsea secured ball on their 20-yard line. Forward passes failed to gain and Mohrlok went through for 8 yards. End of half.

**Third Quarter.**  
Clinton kicked to Chelsea. Brooks carried ball back to 40-yard line. Chelsea made first down and took the ball down to Clinton's 20-yard line. Penalties forced Chelsea to give the ball to Clinton on their 15-yard line. Clinton punted and Brooks carried the ball back to Clinton's 40-yard line. Mohrlok made 18 yards. Brooks 5

yards. Bacon made an additional 5 yards. Chelsea tried pass but failed. Chelsea again penalized for not having seven men on line of scrimmage. Alber made 5 yards. Chelsea lost ball on downs.

**Fourth Quarter.**  
Clinton ran ball back play after play to Chelsea's 30-yard line. Beatty interrupted forward pass and Brooks punted. Clinton brought ball back only to lose it on Chelsea's 40-yard line. Chelsea carried the ball back to Clinton's 40-yard line. End of game. Chelsea was penalized at least 15 times during the game, while Clinton was penalized only twice.

On Jan. 15, 1919, the Senate and House of Representatives of Michigan, met in joint convention in Representative Hall, Lansing, to do honor to the memory of Theodore Roosevelt. Following the delivery of eulogies by various members of these bodies resolutions were unanimously adopted paying tribute to his memory. After referring to the great sorrow caused by the Colonel's death the resolutions read:

"Whereas, Colonel Roosevelt's long public career and private life were marked by a refreshing courage, prophetic vision, an inspiring devotion to principle, reinforced by a dynamic personality, a pure heart and an active mind and body, all of which he combined to elevate the standards of our political morale and in more recent years, to strengthen and stabilize the ideals that recreated our national spirit from almost indifference to one hundred per cent Americanism; and

"Whereas, His voice and acts have done so much to promote and stimulate the youth of this and future generations along the pathway of clean living, square dealing, respect for authority, intellectual development, physical upkeep, military training, religious tolerance and devotion to the flag; and

"Whereas, All Michigan has a proper sense of the great constructive service Colonel Roosevelt has given to mankind as a public servant and as our nation's most distinguished private citizen, and having desire to give expression to this common feeling of appreciation of a great and honorable name; therefore be it

"Resolved, by the legislature, acting for the citizens of Michigan, in joint convention assembled, to pay tribute to the memory of our beloved ex-president, that these resolutions be spread upon the journals of the Senate and House of Representatives, and the same be suitably engrossed, duly authenticated and forwarded to Colonel Roosevelt's family at Oyster Bay.

## AN EXPERIENCED SHOEMAKER.

Tommy Leach has returned to his "old love" and yesterday began cobbling shoes for H. H. Lyons. Years ago Mr. Leach conducted a shoe shop in Chelsea and was recognized as an excellent workman, but he had not made or repaired a shoe for over 20 years until yesterday.

Forty years ago he conducted a shop in nearly the same location as Lyons' shop for several years. The store buildings of that period were of wooden construction and the whole row was finally wiped out by fire, Mr. Leach losing all of his stock and tools.

For over 20 years past he had given his whole time to conducting his farm northwest of town, but since its sale he has resided in Chelsea and now is once more engaged in the trade he learned in his youth and followed for many years. Mr. Leach is past 74 years of age.

## ROELL-JOHNSON.

Miss Reba Roell and Dr. F. O. Johnson, both of Greenville, were married Wednesday, November 12, 1919, in Grand Rapids, and have been visiting relatives in this vicinity for a few days.

The bride is a trained nurse and has been engaged in her profession in Greenville, while the groom is well known in this vicinity, being a native son of Dexter township and graduate of the Chelsea high school, class of 1899. Later, he attended and graduated from the University of Michigan.

Mr. and Mrs. A. E. Johnson gave a six o'clock family dinner Saturday in honor of Dr. and Mrs. Johnson, those present being Mr. and Mrs. H. V. Watts and daughter Ruby of North Lake and Mr. and Mrs. C. D. Johnson of Dexter township.

## AUTOMOBILES COLLIDE.

Two automobiles collided at Main and Middle streets about eight o'clock yesterday morning. L. E. Clark of Lyndon was driving south on Main street and an Oakland car driven by strangers was proceeding west on Middle street. The two cars came together on the west side of Main street, damaging the steering gear on the Clark car.

Some discussion ensued regarding the responsibility for the accident, but satisfactory arrangements were made and the strangers proceeded on their way west.

## NO LAWS TO STOP RED PROPAGANDA

ATTORNEY GENERAL SAYS NEW  
CURB MUST BE PUT ON  
RADICALS.

U. S. NOW LISTS 60,000 STRONG

Centralia Shooting By I. W. W.  
Planned Three Weeks Ahead of  
Fatal Day.

Washington.—The growth of radical-  
ism throughout the country is attrib-  
uted to inadequacy of federal laws  
against preaching violent overthrow  
of the government. Attorney General  
Palmer declared in replying to the  
senate's recent inquiry as to what ac-  
tion had been taken by the department  
of justice to curb efforts to establish  
a dictatorship of the proletariat.

The attorney general urged the pas-  
sage of a law to supplement the espionage  
act, and to take its place when the  
war time measure ceases to be effective.  
He described the proposed act  
as being the most effective method  
of dealing with sedition, anarchy and  
radicalism generally which members  
of his staff had been able to draft.

Mr. Palmer said the bill was broad enough  
to stop effectively all attempts to over-  
turn the existing order and yet safe-  
guard free speech and the press.

Activities of the foreign language  
press present another problem which  
the department has been unable to  
meet successfully. Mr. Palmer said.  
Investigations have uncovered 222 for-  
eign language newspapers which have  
openly advocated changes in the govern-  
mental system by violence, and  
preached sedition.

English newspapers branded as an-  
archistic and menacing by the depart-  
ment's agents number 105, Mr. Palmer  
said. He explained that these were  
much more easily dealt with as loyal  
citizens are aiding the government in  
reporting them.

Practically all of the radical organi-  
zations in the country have looked  
upon the Negro race as fertile ground  
for the spread of their doctrine, Mr.  
Palmer said.

I. W. W. Expected Attack.

Centralia, Wash.—Industrial Workers  
of the World planned the Centralia  
shooting three weeks before armistice  
day, according to an alleged confes-  
sion I. W. W. who surrendered him-  
self to the officers following the shoot-  
ing on Armistice day, in which bullets  
from the guns of the radicals killed  
four former American soldiers march-  
ing in the parade.

FARMERS VOTE DOWN UNIONS

Refuse to Join Federation of Labor in  
Proposed Conference in Washington.

Grand Rapids, Mich.—Through their  
representative, 600,000 American  
farmers and farmers' wives declined  
any alliance with union labor. By an  
overwhelming vote the National  
Grange, in annual convention here,  
adopted, in reply to an invitation ex-  
tended by Samuel Gompers for a con-  
ference in Washington, the following  
resolution:

"The National Grange declines your  
invitation for a conference in Wash-  
ington, December 13."

At once a fierce debate began, one  
of the leaders being S. J. Lowell, of  
Fredonia, N. Y. Members declared  
that attendance at any such confer-  
ence was fraught with peril to the  
Grange. Few voices were heard in  
support of the invitation.

It was brought out by opponents  
that there was nothing in common  
between the agricultural interests and  
organized labor. To attend the Wash-  
ington meeting, it was declared, would  
be a tacit admission that there were  
mutual interests.

SECRETARY TO BE SENATOR

Virginia Man Appointed to Fill Sen-  
ator Martin's Unexpired Term.

Richmond, Va.—Appointment of Sen-  
ator Glass to the United States sen-  
ate to succeed the late Thomas S.  
Martin, and the acceptance of Mr.  
Glass, were announced by Leroy  
Hodges, aide to Governor Davis.  
Senator Martin had just been re-  
elected and his term does not expire  
until 1925. The election of senators  
by popular vote, however, leaves the  
governor power to fill the vacancy  
until the electorate can do so.

## BOND THEFTS LAID TO MASTER ROBBER

Trusted Messenger Boys in New  
York Lured to Life of  
Crime.

New York.—The sinister hand of a  
master robber has been directing the  
series of bond thefts, which has re-  
sulted in the loss, through trusted em-  
ployees of banking and brokerage  
houses in the financial district of New  
York city, of nearly \$1,000,000, accord-  
ing to the belief of the police.

In no other manner can the authori-  
ties account for the fact that inexperi-  
enced boys, some of them just out of  
school, have been able to plan and ex-  
ecute successfully thefts of securities  
on a gigantic scale. No boy's brain, it

Open Before Them the Easy Rewards  
of a Life of Crime.

is contended, could plan some of the  
robberies which have started Wall  
street.

Many of the best trained minds of  
New York city's detective force, be-  
sides scores of private detectives in  
the employ of financial institutions  
and bonding companies which have  
lost heavily, are seeking the criminal  
whose master mind directs the work  
of the actual operatives. They are  
working on the theory that the arch-  
criminal is a man of unusual ability  
with an intimate knowledge of the  
habits of financial houses, and the ap-  
parently loose methods in which they  
send securities about the Wall street  
district in the pockets or satchels car-  
ried by young clerks.

It is believed agents of the master  
criminal scrape acquaintance with  
banking and brokerage house mes-  
sengers, manage to involve them in small  
debts, lure them to increase the debts  
in the hope of "getting even" and then,  
when they are hopelessly entangled,  
open before them the glittering and  
easy rewards of a life of crime.

## Man Fell Eight Stories, Landed in Rocking Chair

James Hamilton, 35 years old,  
a telegraph operator, of King-  
ston Springs, Tenn., fell or was  
pushed—he doesn't recall which—  
from an eight-story window of  
a St. Louis hotel.

He landed in a sitting posture  
in a rocking chair on the side-  
walk, escaping with slight injur-  
ies due to his fall being broken  
by two electric wire cables at the  
height of the second story. He is  
being treated at the hospital  
for a cut head and splinter  
wound in the right side.

## UNDER WATER 18 MINUTES

Man Is Rescued and Resuscitated by  
Crew of Patrol Boat—May  
Recover.

Philadelphia.—After being under  
water in the Delaware for eighteen  
minutes Frank Burke was rescued and  
resuscitated by the crew of the patrol  
boat.

Burke, an employee of the Cramp  
shipyards, fell into the water from a  
hull on which he was working and  
disappeared beneath the surface, after  
struggling for a few minutes.

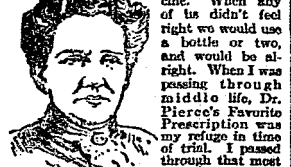

Fellow workmen made several at-  
tempts to rescue him, but were unsuccess-  
ful until the arrival of the patrol  
boat. Burke was located with grap-  
pling hooks and rushed to the emer-  
gency hospital at the shipyard. Here  
the pulmotor was applied. Physicians  
say Burke may recover.

## Must Build Jail for Youth.

prison cell and yard for the confinement  
of one prisoner, Frank Sowers,

the state supreme court the youth

but a state law bars offenders of ten-  
der age from adult criminals' as-  
sociation. Under conviction for man-

## Women From Girlhood Through Motherhood and Past Middle-Life

Twining, Mich.—"We have used Dr.  
Pierce's Golden Medical Discovery as a  
general tonic medicine. When any  
of us didn't feel  
right we would use  
a bottle or two,  
and would be al-  
right. When I was  
passing through  
middle life, Dr.  
Pierce's Favorite  
Prescription was  
my refuge in time  
of grief. I passed  
through that most  
critical time  
without any trouble. I live on a farm and  
do all of the work. You have had to do with-  
out any help and can walk four or five miles  
and not be any the worse for it."

"At the time my daughter was develop-  
ing I gave her Favorite Prescription and  
prior to that the Golden Medical Discovery,  
as she was a delicate girl, and it always  
benefited her."

"We have also used the little 'Pellita'  
with good results."—MRS. B. A. DOUG-  
LAS, Route 2, Box 92.

Fond-du-Lac, Wis.—"When I was a girl  
going to school I got all run down and weak  
due to hard studying. About the time I  
was coming to womanhood I took Dr.  
Pierce's Favorite Prescription and it built  
me up in fine shape in just a short space of  
time. I also took it a few years ago during  
expectancy and it helped me wonderfully.  
I feel comfortable and healthy and my  
baby was strong and healthy and has always  
been. Favorite Prescription has done  
wonders for me. I think it is the only  
medicine for weak women and women who  
are in delicate condition."—MRS. C.  
GUELL, JIL, 290 9th St.

Dr. Pierce's Favorite Prescription is a  
non-alcoholic remedy that any ailing wo-  
man can safely take because it is prepared  
from roots and herbs containing tonic prop-  
erties of the most pronounced character.

"Well, if it is as bad as that, mum,

## ST. CHARLES WOMAN WAS FORTUNATE

It Was a Lucky Day for Mrs. Wiethecker  
When She Read About Doan's

"I had such awful cutting pains  
in the small of my back and hips, I  
often had to cry out," says Mrs. Es-  
sene Wiethecker, 550 Madison St.,  
St. Charles, Mo. "The pain was in  
fact I was almost  
helpless. My feet  
and ankles swelled badly,  
my hands were puffed  
up and there were  
swellings under my  
eyes. I often got so  
dizzy I had to sit  
down to keep from  
falling and my health  
was completely broken down. The  
kidney secretions poured terribly in  
passage and in spite of all the medi-  
cine I took, I kept getting worse  
until I was a wreck."

"By chance I read about Doan's  
Kidney Pills and bought some. After  
I had used half a box there was a  
change and I continued to improve;  
the pains, aches and swellings left,  
and my health returned."

Mrs. Wiethecker said: "I think as  
highly of Doan's as ever. When-  
ever I have used them, they have  
benefited me."

Suit For 33 Cent.  
Jackson.—Suit involving 53 cents  
has been started by the Michigan rail-  
way against J. E. Mann, an Ann Ar-  
bor traveling salesman. Mann, carry-  
ing a case weighing 60 pounds, board-  
ed an interurban car and left the case  
on the rear platform. The conductor  
insisted that the case should be ship-  
ped as express and forthwith de-  
manded that Mann pay express  
charges. The demand was met with a  
refusal, it is asserted, and the prop-  
erty was taken over by the railroad  
company. Mann recovered the case  
on a writ of replevin. Then the com-  
pany began suit to recover \$3 cents.

## Warns Influenza Will Come Back in More Dangerous Form

Dayton, O.—Declaring that people  
gained nothing from their experience  
with the ailment in 1918 and 1919,  
Dr. W. A. Evans, prominent health  
authority and writer of Chicago, today  
predicted that the world would again  
be swept by an epidemic of influenza  
far more severe and disastrous than  
last year, when thousands of lives  
were lost. The only way it can ever  
be alleviated or exterminated is by  
following the advice of the medical  
world.

Influenza can be prevented; last  
year's results prove that. As a pre-  
ventive for flu, Turpo has been a  
pronounced success. Turpo is an  
effective germicide, combining the old-  
fashioned remedies of turpentine  
(which has always been known as the  
best home germicide), camphor and  
menthol in a pure mineral base. These  
ingredients have long been recognized  
as effective germicides, as well as hav-  
ing really wonderful qualities in re-  
lieving colds and congestions. Snuff a  
little Turpo up the nostrils several  
times a day and the flu germs will  
have little chance of getting a lodging  
and breeding place. Many physicians  
and hospitals use and recommend Tur-  
po. Buy a thirty cent jar of Tur-  
po, while your druggist has a sup-  
ply on hand, and use as directed. Last  
year druggists could not supply the  
demand. Remember that Turpo is a  
preventive, not a cure for influenza.  
Take care of yourself and if, in spite  
of your precautions, you think you  
have the flu, go to bed at once and  
call a doctor.—Adv.

Fabrics for Paper.  
For a long time we have derived  
many of our most interesting fabrics  
from Japan, and it would be hard to  
find a woman's wardrobe that did not  
contain some fabric that was of Ja-  
panese design or that was actually  
made in that land of chrysanthemums  
and geisha girls. But it is only in the  
immediate present that the propo-  
sition of getting clothes already made  
from Japan has presented itself. No,  
they would not be kimonos or obi's  
or anything of that sort; they would  
be made according to the latest oc-  
cidental standards and would be es-  
pecially designed and executed for  
the American taste. But why not?  
Wouldn't you be interested to see a  
blosme made of georgette in Japanese  
design, as dainty and well finished as  
your American taste would demand,  
but distinctive with that distinction  
that comes along in oriental work-  
manship?

Don't stay stuffed up! Quit blowing  
and snuffing! A dose of "Pape's Cold  
Compound" taken every two hours un-  
til three doses are taken usually breaks  
up a cold and ends all gripe misery.  
The very first dose opens your  
clogged-up nostrils and the air pas-  
sages of the head; stops nose running;  
relieves the headache, dullness, fever-  
ishness, sneezing, soreness and stiffness.  
"Pape's Cold Compound" is the  
quickest, surest relief known and costs  
only a few cents at drug stores. It acts  
without assistance. Tastes nice. Con-

Formerly Was Oyster King.  
Jacob Ockers, known as the "Oys-

Long Island (N. Y.) home, was the  
first exporter of oysters to Europe, and  
his name came to be known in all  
markets where the blue point oyster  
was found in foreign countries. His  
foreign shipments the first year  
amounted to only 1,000 barrels. Later  
his export business became the largest  
of its kind in the United States, and  
amounted to 30,000 barrels annually.

## Stock Raising in WESTERN CANADA

is as profitable as grain growing. Successes as wonderful as those from growing wheat, oats, barley, and flax have been made in raising horses, cattle, sheep and hogs. Bright, sunny climate, nutritious grasses, good water, enormous fodder crops—these spell success to the farmer and stock raiser. And remember, you can buy on easy terms.

### Farm Land at \$15 to \$30 An Acre

Land equal to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—grazing land convenient to good grain farms at proportionately low prices. These lands have every rural convenience: good schools, churches, roads, telephones, etc., close to live towns and good markets.

If you want to get back to the farm, or to farm on a larger scale than is possible under your present conditions, investigate what Western Canada has to offer you.

## Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent life insurance companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

## HIS SCHEME DIDN'T WORK

This Colonel Evidently Was Wise as to the Foxy Ways of His Junior Officers.

In the regular army it is one of the customs of the service, when at a regular army post, for the junior officers to call upon the senior officers. To comply with this custom without making the calls, the junior officer frequently waits until he knows the senior officer is away and then calls at his home and leaves a card. One night when I was stationed at a post in Texas, I saw the colonel down town and on my way home stopped at the colonel's quarters and put my card under the door. I was just leaving the porch when I noticed a car at the gate, and on closer inspection I noted that the colonel was in the car and was awaiting me at the gate. He laughingly said: "Kind of late to make a call, isn't it, Lieut.?" This became one of the colonel's best stories, and to say that I was more than once embarrassed by putting it mild.—Exchange.

# Backache only a Symptom

"It Seems as Though my Back Would Break."

This is a common expression among women, yet they toil on day after day heedless of the significance of this distressing symptom.

Backache is often a warning of some inward trouble that requires attention, and which unless relieved will sooner or later declare itself in more serious ailments.

If it is caused by female derangement Lydia E. Pinkham's Vegetable Compound is what you need. It quickly asserts its curative powers in all those peculiar ailments of women.

For more than thirty years this good old fashioned root and herb medicine has been restoring American women to health.

The Splendid Recovery of Mrs. Coventry

Newark, N. J.—"The doctor said I had organic trouble and treated me for several weeks. At times I could not walk at all and I suffered with my back and legs so I often had to stay in bed. I suffered off and on for eight years. Finally I heard that Lydia E. Pinkham's Vegetable Compound was a good medicine, and I tried it with splendid effect. I can now do my housework and my washing. I have recommended your Vegetable Compound and Blood Medicine and three of my friends are taking it to their advantage. You may use my name for a testimonial." — Mrs. THERESA COVENTRY, 75 Burnett St., Newark, N. J.

Mrs. Hunt tells how it helped her Detroit, Mich.—"I was in a general run-down condition, was very nervous and tired, had backache and other troubles. I suffered for several years, was not able to work at times and tried doctor's medicine with no results. I saw Lydia E. Pinkham's Vegetable Compound advertised, and after taking it a short time I was much better. I am still taking it myself and giving it to my daughter, and am glad to recommend Vegetable Compound at anytime." — Mrs. M. E. Hunt, 171 Davison Ave.

**JOLLIFICATION AT WEDDINGS.**

The Tribune has received copies of the Little Valley (New York) Hub, containing accounts of the Norton-Conklin and ReGo-Champlin wedding, which have been reported in previous issues of the Tribune. However, the following will be of interest to Chelsea friends of the contracting parties:

"At the wedding on Rock City street November 4th, there was a sign in the front of the residence reading: 'Wedding here today—everybody welcome.' People going to work in the morning noticed it and smiled, but in spite of the fact the contracting parties left and returned to the residence several times during the day it was not known to them till spoken about after the ceremony, when they went out to see and laughed with the others. Every time one of the contracting parties went out front some one on to the racket went along to hide the tell-tale sign from view."

"The couple was escorted to Salamanca in true style and everyone along the route was aware of what was taking place. At the start off of the trip a detour was made to Main street, turning around the danger light Constable Thomas keeps in your path."

"Another wedding was said to have taken place the same day in which there were some interesting surprises to those most interested; an announcement of which will likely appear next week."

**LINER ADS EFFECTIVE.**  
 One of the most effective forms of advertising is the "liner" or classified column where an investment of a few cents is certain to give prompt results. Tribune liner ads are always run under the heading, "Wants, For Sale, To Rent" in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.

 The "mess" had not been what the men had been used to at home. One day on a hike a "candidate" was seen eating green persimmons by the C. O., who said in his most sarcastic voice, "Smith, we have mess at noon today as usual." Private Smith saluted stiffly.

**A Good Cough Medicine for Children.**

You will find nothing better for coughs and colds in children or for yourself. It keeps the cough loose, expectoration easy and soon frees the system from the cold.

**FLEETS BENEATH THE SEAS**

Hun Warships Sunk at Scapa Flow Not the Only Ones of Which There is Record.

Few people know that the British have a sunken fleet nearly half as large again as the German fleet that lies beneath the waves at Scapa Flow. In 1933 an English merchant fleet of 400 sail was being conveyed to the Mediterranean by twenty-three English and Dutch men-of-war, when they were attacked by seventy-one French ships. No less than 90 English vessels were downed, but Admiral Rooke, by brilliant maneuvering, brought the others away in safety.

How many people, too, know that ninety-two years ago a fleet of sixty ships was sent to the bottom by the English when they were not even at war?

During the Greek war of independence an Anglo-French fleet under Admiral Codrington was sent to Navarino to prevent the Turkish and Greek fleets from resuming hostilities. By some misunderstanding the moving of a fire-ship led to the Turks opening fire on the Greeks, and as they would not desert, Codrington joined in the fray and sank sixty of the Turkish vessels.

This is what the duke of Wellington spoke of as "an untoward incident which he trusted would not disturb the amicable relations" between us and the Turks. But it did. The Turks, in fact, declared war; though, of course, they did not stand a chance with their fleet already at the bottom. But will all history, past and future, be able to show another fleet costing \$250,000,000, boasted of by 50,000,000 people, lying idle during five years of war, and finally sunk in an afternoon?—London Tit-Bits.

**AIRPLANES TO AID FISHERS**

Latest idea is to employ flying machines to locate "schools" of the Finny Tribes.

A new enemy the sea fishes have to fear is the human bird.

In response to a request from the United States fisheries bureau, the navy department is going to undertake to scout for schools of fish with flying machines.

Fish schools commonly travel at or near the surface of the sea, seeking what they may devour. To come across

Seeking Schools of Fish.

one is a big opportunity for the fishermen. If, therefore, the finny herds can be located by airplanes and information duly and promptly communicated to the fishing vessels, important results, meaning full cargoes for market, should be obtained.

Not only airplanes, but also "blimps"—small dirigible balloons—are to be utilized in this way, according to present plans. It is thought that they will prove especially valuable in the pursuit of the elusive southern mackerel.

There are two ways in which fish news gained by naval aviators may be sent to the fishermen. One is by wireless message in fishing ports, on receipt of which fleets would immediately depart for the place indicated. Another, and probably better, idea, is that the airplane shall speak directly to the fishing craft at sea by radio-telephone.

The first experiments are to be made in the neighborhood of Cape May, N. J.

**Pitchers, Pitchers Everywhere.**  
 Mrs. James Hensley of Knoxville, Tenn., owns 2,000 pitchers! She loves them and collects them.

One of them, low, squatly and black, was made by the Aztecs in Mexico back in the fourteen hundred. Another is a clown, and near it is a little red devil whose tail serves as a handle. A copper pitcher from Algiers looks in heathen wonder at a somber gray pitcher made by Anton Lang, the Christ of Oberammergau.

In one room corn pitchers are predominant. But there are also watermelon and pumpkin pitchers. Another room has been turned into a pasture where cow pitchers graze on the floor.—Popular Science Monthly.

**Writ in Water.**

"The I. W. W.," said Mayor Ole Hansen of Seattle, "think they'll leave their mark on the history of industrial evolution. Well, they remind me of the old boatman."

"Boatman," said a lady passenger, "what makes that funny streak on the water?"

"That?" said the old boatman. "Why, that's what the path run across the ice last winter, me'am."

**Criticism and Citizenship**

It is the plain, public duty of every citizen to criticize proposed government measures believed to be harmful.

Swift & Company is in a better position perhaps, than others, to understand the meat packing business in all its relations to public and private interests, even though the others may have been giving the subject a great deal of sincere attention.

Swift & Company is convinced that interference with its legitimate business function by governmental agencies, however well intentioned, would be an injury to every man, woman and child who wants meat to eat, as well as to the men who raise the meat and to those who dress and distribute it.

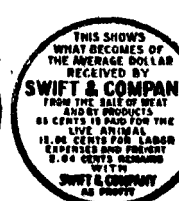

Maximum service that cannot monopolize because of keen competition and lack of control over sources of supply is furnished at a minimum of profit—a fraction of a cent per pound from all sources.

Therefore Swift & Company is taking every legitimate step of citizenship to prevent such interference.

These advertisements are intended to help you, and to help Congress decide what is best to be done. Mistakes are costly and apt to be harmful in these trying times.
