MOB RULE IN PINCKNEY

Rough Necked Mistreatment Chelsea High School Boys May Result In Warrants for County Liners.

Mob rule prevailed in Pinckney for a time Friday afternoon when members of the Chelsea high school football team were "strong-armed" by alleged members of the Pinckney team assisted by citizens of the county line town.

Several of the Chelsea boys were so severely man-handled that the affair has been referred to the county officers, in both Washtenaw and Livingston counties, and parents of the injured Chelsea lads say they'll swear out warrants against the offenders.

The Chelsea boys went to Pinckney in good faith to play a friendly game of football. The Chelsea team included only students of the Chelsea high school and complied with interscholastic rules governing such contests.

since been verified. One player, named Shehan, even came home from the U. of M. to play, and others were also ineligible.

The Chelsea team protested several players, but Pinckney retained them. The Chelsea boys then refused to finish the game and started to leave the field. Then the crowd closed in and what followed is a disgrace to a civilized community.

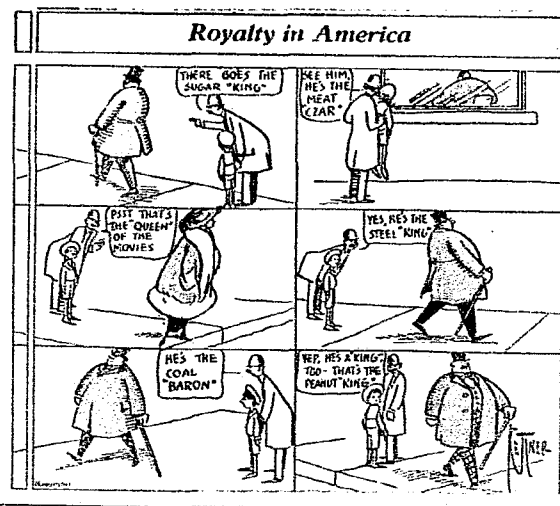

Mob law prevailed! Out-numbered and overpowered, the Chelsea lads were unmercifully pummeled by both players and citizens of Pinckney. One Chelsea boy was knocked down, his nose broken and he was kicked unmercifully; another was pounded and choked!

No one attempted to stop the assaults and when one Chelsea woman present called for an officer, a man nearby, presumably a citizen of Pinckney, told her to go to h—l. Other women and girls from Chelsea were also treated with marked disrespect and in some cases the rowdies even went so far as to strike the girls!

Attorney John Kalmbach, Superintendent McCloskey of the Chelsea schools, M. J. Dunkle, and Howard Brooks made a trip of investigation to Pinckney on Sunday and as a result secured such evidence that arrests of the ring-leaders are expected to follow.

Chelseaites who witnessed the affair, also those who investigated the matter, are strong in their criticism of Superintendent Doyle of the Pinckney school.

JACKSON—Missing since October 15, the badly decomposed body of Thomas Evans, aged 63, was found face downward on a vacant lot about a quarter of a mile from his home. It is believed Evans dropped dead while on his way to visit a friend.

BIG STORM NEXT MONTH

Astronomer Says Earth Will Stagger Under Big Shock About Dec. 17.

Professor Albert F. Porta, astronomer, predicts some dire happenings; terrible storms, possible earthquakes, eruptions, and general disturbances such as have not been experienced on this planet in the history of man about December 17, 1919.

"It will be caused by the largest sun spot on record.

"A sun spot that will be visible to the naked eye.

"Since man first began to make records of events no sun spot has been large enough to be seen without the aid of instruments. This one will be.

"The sun spot that will appear December 17, 1919, will be a vast wound in the side of the sun. It will be a gigantic explosion of flaming gases, leaping hundreds of thousands of miles out into space.

"Such a sun spot will be rich enough in electro-magnetic energy to fling the atmosphere of our earth into a disturbance without precedent or parallel. There will be hurricanes, lightning and colossal rains. It will be weeks before the earth will regain its normal weather conditions.

"Here are the simple, yet astounding facts that enable me to make this prophecy:

"The planets in their orbits swing in great ellipses about the sun. They are linked to the sun, and to each other by chains of electro-magnetic energy whose compelling forces counteract each other and hold each planet in its regular path.

"Whenever two planets wheel into such positions that they pull together on the sun—either in "conjunction" on the same side of the sun, or in "opposition" with the sun between them—their united pull causes the sun's gases to "explode"—to leap out into space in the whirling volcano we call a sun spot.

"These sun spots in turn cause storms in the atmosphere on our earth—doubtless on other planets as well.

"Two planets, united, are enough to cause a small sun spot and a small storm. Three cause a larger one—four make a very great storm indeed.

"Six of them—Mercury, Mars, Venus, Jupiter, Saturn and Neptune—will be inconjunction; grouped together in the greatest "league of planets" ever known in the annals of astronomy.

"They will be massed in the narrow limit of that twenty-six degrees, on the same side of the sun. Directly opposite, coming into opposition with this gigantic league will be the huge planet Uranus and the six planets will pierce the sun like a mighty spear.

"Our earth is outside the league at an angle of nearly 90 degrees—in perfect position to receive almost the full force of the monster electrical disturbance as it leaps into activity on what to us will be the eastern horizon of the sun's disk. That means we shall get the full strength of the storm when the sun spot is at its worst, before the exploding gases have had time to die down.

"Such a close grouping of planets has never been recorded before. The whole solar system will be strangely out of balance.

"What will be the outcome? My knowledge does not permit me to state beyond the fact that the storms, eruptions and earthquakes will be tremendous in their strength and scope."

NEW SCHOOL FOR UNADILLA.

As a result of the election in Unadilla township, last week, a new central school building will be built next summer at a cost of about \$40,000.

At the school meeting next July a school board of five members will be elected, and it is probable that the location of the new school will be decided at that time.

GEORGE A. MILLER.

George A. Miller, a former well known resident of Chelsea and vicinity, but for many years past a resident of Chicago, died suddenly Thursday in that city.

Mr. Miller was born March 13, 1865, his parents being George and Josephine Miller. He was 55 years, eight months and eight days of age.

His mother, Mrs. George Miller, Sr. of this place; four brothers, E. J., Louis J. and John P. Miller, of Chicago, C. W. Miller of Ithaca; four sisters, Sr. M. Ignatius, O. S. B., of St. Clair, Misses Mary J., Margaret E., Anna L., and Lena Miller, of Chelsea, and one niece, Miss Josephine Miller of Chelsea, are left to mourn their loss.

The deceased was a member of the following societies: Knights of Columbus, Catholic Order of Foresters, Holy Name Society, St. Joseph's Sodality, A. A. of S. and E. R. E. of A.

The funeral was held from St. Mary church Monday morning at 10 o'clock, Rev. Father VanDyke conducting the service. Interment at Mt. Olivet cemetery.

Those from a distance who attended the funeral were: Louis J. and John P. Miller of Chicago, C. W. Miller of Ithaca, Sr. M. Ignatius, O. S. B., of St. Clair, Mrs. Michael Condon and Miss Sue Powell of Detroit, Mrs. J. F. Quinlan and Miss Margaret Quinlan of Ann Arbor, Frank Quinlan of Detroit, Mr. and Mrs. Daniel Hoey and Galbraith Gorman of Dexter, John P. Foster and Miss Ida Finnell of Ann Arbor.

AUTO ACCIDENT FATAL

Former Chelsea Woman Killed Near Ypsilanti Sunday Night.

En route home from a visit at the home of her sister, Mrs. Fred Genter of Lima township, Sunday evening, Mrs. B. M. Burbank of Detroit was instantly killed when the automobile in which she and her husband were riding went into the ditch near Sheldon, east of Ypsilanti, and overturned.

Mr. Burbank was driving and was blinded by the lights of another car. Both he and his wife were pinned under their car and the latter sustained a fracture at the base of the skull, which caused her death soon after being released.

Mrs. Burbank drove out from Detroit early Sunday to visit her sister, later Mr. Burbank joined her and they started for home about nine o'clock. In the car they had a quantity of canned fruit, vegetables and other food, including their Thanksgiving turkey.

TAXES HERE AND THERE

Rates In Sylvan Township Are Much Lower Than In Jackson County.

Every once in a while we hear some one complain about "high taxes" in Chelsea—some people seem to be chronic kickers about taxes. But over in Columbia township, Jackson county, taxes are much higher than in our own Sylvan township, according to figures published in the Brooklyn Exponent.

The rates in this township vary from a minimum of \$13.58 in school district No. 4 fr. Sylvan and Lima to a maximum of \$17.63 in district No. 2 Sylvan.

But over in Columbia township, Jackson county, the lowest rate is \$17.88 in district No. 7 (Brooklyn village), while their maximum rate is \$28.84 in district No. 5 fr. The average rate seems to be around \$23.

We'll say Sylvan township has no reason to complain because of a high tax rate.

MURDER WILL OUT.

About two years ago some one killed a heifer in a field on the Hugh Sweet farm in Waterloo township, took a quarter of a beef from it and left the carcass lying in the field.

A "John Doe" warrant was sworn out at the time, but no arrests were made until last Thursday when Burt McLean of Stockbridge was taken before the justice for a hearing. He demanded an examination, which was set for December 1st, with bail fixed at \$500.

SHEEP KILLING DOGS

Old Resident Relates Some of His Experiences With Canines.

One morning I found four of my sheep dead, and four others so badly torn I had to kill them. It was the work of a dog—a sheep-killer.

I was satisfied that he would return again the next night, so I prepared for him. Between one and two o'clock that night a man living over a mile away got up, opened his bedroom window and shot his dog.

A neighbor found some of his sheep killed by dogs. He prepared for the dogs return that night. The next morning he buried three big dogs in the same field that he did his sheep.

One morning early in winter a man saw two dogs chasing sheep. He tied his horse and drove the dogs away. He was able to give a good description of the dogs. These dogs were permitted to live all winter and many sheep were killed. One morning in April they attacked my sheep.

I saw them when they commenced but before I could get to them they had killed one and caught another. I had them followed home. I drove immediately to the home of the owner, and got there before the dogs. I never had any doubt but that these two dogs killed all the sheep which were killed in the township that winter.

These cases were years apart, and in each instance no sheep were killed immediately after, so I have no doubt that we got the right dogs each time.

If you have sheep killed by dogs, don't tell anyone about it until you think the dogs are dead, for if you let their owners will tie them up until the scare is over, then let them loose again to prey on other sheep.

No one wants to keep sheep-killing dogs, but we all think our dog is innocent until proven guilty.

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for you."

Become Run-Down Followed by Rheumatism

Flint, Mich.—"Several years ago I became very poorly and finally had rheumatism so that I couldn't walk for several months. I doctored with four of our local doctors with very little relief, if any, and used some two or three different patent medicines. I got no better. My friends thought I wasn't going to get well at all. I was clear discouraged and when I read in the paper of someone in my same condition who had been cured by taking Dr. Pierce's Golden Medical Discovery and the little Pleasant Pellets and took them. By that time I was so much better that I kept on and I was so well I hardly knew myself. My friends were surprised. Of course I told them all I did was to take the 'Discovery' and take good care of myself. Now this is all straight truth."—MRS. THEO. FACK, 1201 Blevens Ave.

Houghton—Andrew Eliola, 20 years old, was fatally shot by his father, Matt Eliola, while hunting near Afton. The shooting was accidental, the father's rifle being discharged as the two were handling a deer. The son walked two miles to camp and then expired. The bullet had entered his stomach.

Mt. Clemens—Before a jury of farmers in circuit court, about 20 witnesses testified against Henry Johnson, accused of having murdered Mrs. Ma Artist at her home in Romeo six weeks ago. One witness identified a cap said to belong to Johnson, found on a bed in the murdered woman's room. Johnson's former roommate identified a letter written to him by Johnson declaring: "I will not allow any woman to jilt me and I will murder any woman doing so." Johnson was found guilty of the murder.

FLU CAUSED PRESIDENT WILSON'S SICKNESS

Physicians claim that President Wilson is suffering from neurasthenia or nervous exhaustion. This, they claim, is the after effect of an attack of influenza which he had last April, while he was in Paris attending the Peace conference. There are hundreds of thousands of people today who are still suffering some bad effect from last year's attack of influenza.

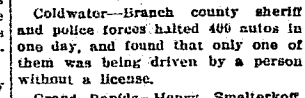

Doctors are agreed that the Flu is coming back this fall, and now that cooler weather is here, they are afraid it will break out any time. Even if one recovers from the Flu, the after effects are terrible. The only sure thing to do is to prevent the Flu.

Influenza can be prevented; last year's results prove that. As a preventive for Flu, Turpo has been pronounced success. Turpo is an effective germicide, combining the old-fashioned remedies of turpentine (which has always been known as the best home germicide), camphor and menthol in a pure mineral base. These ingredients have long been recognized as effective germicides, as well as having really wonderful qualities in relieving colds and congestions. Snuff a little Turpo up the nostrils several times a day, and the Flu germs will have little chance of getting a lodging and breeding place. Many physicians and hospitals use and recommend Turpo.

The fact that there have been cases of "flu" already reported makes it important that you prepare now. Buy a thirty-cent jar of Turpo, while your druggist has a supply on hand, and use as directed. Last year druggists could not supply the demand. Remember that Turpo is a preventive, not a cure for influenza. Take care of yourself.—Adv.

BREAKS YOUR COLD IN JUST A FEW HOURS

"Pape's Cold Compound" instantly relieves stuffiness and distress.

Don't stay stuffed up! Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery.

The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's.—Adv.

WOMEN NEED SWAMP-ROOT Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble. Don't delay starting treatment. Dr. Klinger's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions. Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Klinger & Co., Binghamton, N. Clearly Without the Law. Wise Judge Quickly Pointed Out Why Musician Was Manifestly Guilty of Looting. A man was brought into court recently under the anti-looting law. The judge looked at him for a moment and then asked: "What is your occupation?" "I am a musician, your honor," was the reply. "In that case I'll have to find you guilty of looting." "But, your honor," protested the man, "I'm regularly employed by the church as an organist." "That only confirms my opinion," said the judge. "The law requires every man to work, but your occupation requires you to play."

Subtle Scheme. "I have often thought, Mrs. Welfare worker, that it would be an admirable idea to get intoxicated, get arrested, and thus be able to write up what happens to these members of the world's unfortunates." "Well?" said the rich lady. "Could you supply the necessary liquor?"—Louisville Courier-Journal.

SOLUTION IS PUT UP TO GARFIELD

OPERATION OF MINES WANT GOVERNMENT TO ASSUME RISK OF RESULTS.

MINERS ACCEPT WILSON PLAN

Administrator to Confer With Other Department Heads Before Replying.

Washington—Refusing to accept proposals made by Secretary of Labor Wilson as a basis for further negotiations, soft coal operators of the central competitive field have rested their case with Fuel Administrator Garfield, whose official approval is necessary to validate any new wage agreement.

The public would not stand for a wage advance above their offer of 15 cents per ton to coal diggers and 20 per cent to day laborers, the operators asserted. They refused to make further overtures or even to restate their proposition, unless the government, through the fuel administration, assumed responsibility for the added burden to the nation's fuel bill.

Dr. Garfield notified the mine owners that he would not meet their committee, of which Thomas T. Brewster is chairman, until after he has consulted with Attorney General Palmer, Director General Hines and Judge C. B. Ames, assistant attorney general. It was considered likely the negotiations might have to go over until after the cabinet meeting, when, it was expected, a policy to get the mines back into operation before the threatening coal famine brings disaster, will be worked out.

Operators' representatives authorized the statements that in their opinion figures on which Secretary Wilson based his proposals, showing living costs in the coal regions, were partisan. The secretary told the sub-scale committee that he did not speak for the government.

Dr. Garfield is said to have told individual operators that the offer made by them is as large as present conditions justify.

John L. Lewis, president of the United Mine Workers, charged the operators with "criminally delaying" the negotiations through a "conspiracy" on the part of "powerful interests" including both mine owners and others, who "have been openly opposing settlement."

Following a two-hour session of the miners, Mr. Lewis announced the workers had accepted Secretary Wilson's proposal. This proposition, provided for a flat increase in mining rates of 37.12 cents per ton, a flat increase in day wages of \$1.53, and an increase in yards and dead work of \$1.61 per cent.

Mr. Lewis also announced the miners stood on their counter-proposal for a seven-hour day, a Saturday half-holiday, and reference of all international disputes back to the districts in which they originate for settlement.

Some of the operators, including members of the scale committee of the central competitive field, Mr. Lewis said, have indicated a willingness to make a separate "treaty of peace" without waiting for concerted action. He said he had agreed to sign separate contracts.

BROKEN TRAIN HITS STREET CAR

Towerman Failed to Notice Second Section in Danger Zone.

Grand Rapids—Glenn Wilson, 25 years old, street car conductor, and George Krul, 29, a railroad conductor, were seriously injured, possibly fatally, and nearly a score of passengers received minor hurts when a street car was struck by the second section of a Paro Marquette freight train.

The train, just before it reached the crossing, broke in two sections. When the first section passed through the gates the tower man signalled the car to go ahead. The second section, which was obscured in the darkness, struck the rear vestibule of the street car and turned it around parallel to the railroad track.

Wilson and Krul, who were standing in the vestibule, were badly lacerated by broken glass.

Other passengers going down town for Saturday night shopping were also hurt by glass and thrown against the side of the car.

Sleeping Sickness Epidemic.

Winnipeg—The thirteenth case of "sleeping sickness" here was reported to the health authorities today.

Disturbs His Bath.

Bay City, Mich.—Telford E. Hill, manager of the Mueller Chiceroy company's plant, was taking a bath in his home adjoining the plant when a freight car crashed through the hoist and against the wall of the bathroom. The wall fell and a coal car came to view. There had been two cars standing on the short switch and when the train crew attempted to place more there the cars were sent through the house. No one was injured by the accident.

Back Lane and Achy?

Don't let that had back make you miserable. Find out what is wrong. If you suffer with a constant back-ache, feel lame, weak and all-played-out; have dizzy nervous spells, you may well suspect your kidneys. If kidney irregularities distress you too, you have additional proof. Don't wait until Dr. Doan's Kidney Pills, the remedy people everywhere are recommending, ask your neighbor!

A Michigan Case

Mrs. P. Cornwall, 729 N. Front St., Mt. Clemens, Mich., writes: "My back would feel as though it were being pulled to pieces with a dull, heavy ache. My ankles swelled also, and dizzy spells would come over me. Doan's Kidney Pills cured that ache in my back, the dizzy spells no longer annoyed me and the swelling left my ankles."

EASY HOW TO SAW LOGS AND CUT DOWN TREES

Only one man, or even a boy, with the improved Ottawa Engine Log Saw can easily cut twenty-five to forty cords a day, and at a cost of less than 20 per cord. This machine, which outdoes all others, has a heavy, cross cut saw driven by a powerful especially designed 4-cycle gasoline engine. It's a fast money-maker for those using it, and does more than ten men could do, either cutting down trees, sawing logs, or buzzing branches while you rest. When not sawing, the engine can be used for other work requiring power.

The entire machine is mounted on truck wheels to make it easy to move to the trees or logs, and from cut to cut on a log without stopping the engine. For moving on the road, the truck wheels are placed parallel with the skids and the rig hauled straight ahead. The wheels turn on a two-way spindle. You do not have to take them off, but can change direction of wheel travel by merely taking out a pin.

The Ottawa can be fitted for sawing down trees. It cuts level with surface of ground, thereby getting all the timber and leaving no stumps sticking up. An automatic friction clutch stops the saw in case of undue resistance. Two men can fall forty to fifty rods a day in ordinary timber. The whole outfit is compact, simple, durable against a lifetime of hard wear. It sells for a low price and is fully guaranteed for reliable operation in the hands of every one who has trees to cut down and logs to work up.

Full information and low factory price to you can be had simply by addressing the Ottawa Mfg. Company, 2774 Wood St., Ottawa, Kansas.

Catarhal Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood to the mucous surfaces of the System. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever! Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the mucous surfaces.

GOLD-COIN SCALES RELIC

Missouri Man Has Device That Was in Daily Use in That State Many Years Ago.

A gold-coin scales of the type so useful to merchants in the middle of the nineteenth century is one of the relics kept by Jeff Davis of Booneville. Modern methods of exchange have rendered the scales useless, but it is in as good condition as it was when his grandfather used it at Cole Neck sixty years ago.

At the time B. B. Brereton set up his little store at Cole Neck, just a half mile north of what is now Clifton City, the pioneers were crossing the plains in search of gold. Gold "sweating" was common. Particles of gold dust were removed from the coin so that its value rather than its appearance suffered. The merchant had to be constantly on the lookout for underweight coins when dealing with such a class of trade.

A pair of scales was bought by Mr. Brereton for this purpose. A brass weight was used in balancing the scales to get the exact weight of the coin. But the weight test was not the only one applied. A slot of varying size in each receptacle on the scales. The slots were for the \$1, \$2.50, \$3, \$5, \$10 and \$20 coins. Coins falling to fit exactly in their respective slots were rejected.—Boonville (Mo.) Republican.

Perfects Radio Device.

According to a leading Norwegian newspaper, Engineer Hermod Peterson has patented a device for the production of electrical current for radio telegraphy.

The electricity is received by an accumulator, which releases it at certain intervals. The system is sparkless, and the sounds are clearer than in the older inventions, says the Scientific American. The clearness of sound depends upon the regularity of the current, and with this system the current is released with a mathematical exactness.

The device has further advantages in that it is cheaper, simpler and more durable than those now in use. If the circuit for this invention prove well founded, it is thought that it will mark a distinct step in advance of what has so far been accomplished in this line, and hence its possibilities are creating considerable interest in the radio world.
