

EIGHT HOUR SYSTEM ON THE FARM

Well Known Farmer Shows Fallacy
of Attempt to Adopt Short
Hours for Farm Hand.

Every practical farmer who was present at the Farmers' club of the 21st will always remember it with pleasure and anticipation of the time when the new system of the eight hour day will bring relief from the present labor shortage conditions.

The question discussed was, "Shall the farmer figure his cost of production on the eight hour plan?"

Those advocating the eight hour day made the plea that the question of keeping help on the farm depended upon it. But finally they conceded that the government plan was that the farmer should put in eight hours in the field besides chores, while the hired man or boy should work only eight hours, after which he could be at liberty to go to the "movies", etc., but work him hard while you work him.

Let us see how this would work out in actual practice. It means that the farmer must be up at five to do the milking, etc. The farmer's wife must get up and get breakfast, then the "old man" must get the team and necessary tools ready for the hired man, who gets up at 7:30 with breakfast

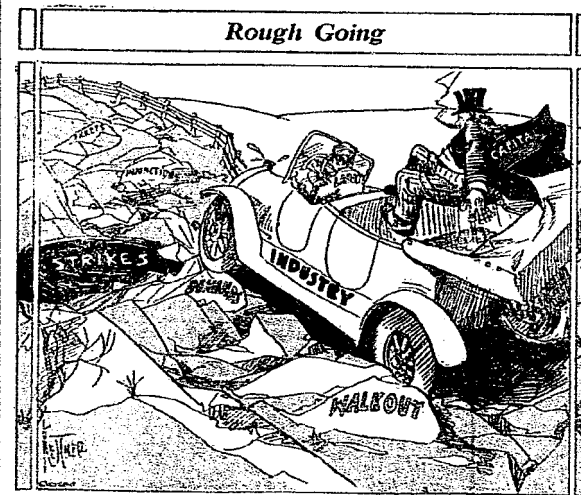

waiting for him at 7:45, and be ready to start for the fields at eight o'clock.

Now to work the average hired man for eight hours will necessitate the "old man" or farm owner to stay in the field with the hired man and see that he keeps busy, until five p. m. Then supper is ready at 5:15. This gives the boy or hired man time to shave, dress up, and go to town to the show, after the "old man" has cranked the "tin Lizzie" for him. Then it is chores again for the "old man" for two hours. Some system!

If we worked the hired man, as suggested, he should have five dollars a day, which would mean \$1,565.00 per year; his board and room another \$200, making a total of \$1,865.00. Now the "old man's" time ought to be worth as much as the hired man's eight hours, so we will add another \$1,565.00, making a grand total of \$3,430.00 for labor only. Add a conservative amount for running expenses, taxes, insurance, etc. and few farmers could meet the expense. Some system!

The unpaid labor that has gone into the production side is being cut off. For instance, some families on the farm put in from 30 to 40 hours a day for production where there are two or three boys and the wife doing the milking.

The eight hour system on the farm will mean a raise of 25% in the cost of production at one leap. It will mean \$3.00 wheat instead of \$2.25;

20¢ hogs instead of 14¢; 20¢ milk instead of 14¢.

We wonder if organized labor is ready for the eight hours system on the farm?

RETURNED SOLDIERS FILL OUT BLANKS

State War Board Wants Service Record of Each Man to Preserve As Historical Facts.

This is an urgent message to ex-service men from the state war board asking them to fill out the service record blank which has probably been furnished them by someone in charge of the work in this county. In filling out the blank you are asked to make the copy directly from the discharge papers and add the other items asked for upon the blank. Be sure to give your identification number and your mother's maiden name. You are further asked to write something upon the back of the blank concerning your individual experience while in service.

In asking you for this record there is nothing behind the request other than the desire to pay a tribute to you, individually, and to preserve for your descendants and others who will live many years from now, the historical facts connected with yourself and your service in this greatest of all wars. The record is not a matter of idle curiosity or of present use. It is solely to preserve the part played by our splendid Michigan men in the late war and to save for the future all matters that may become of interest or value.

Every county in the state is making a record like ours and we want to make the best possible showing from this county.

If no blank has been furnished to you apply to Mr. Ray E. Bassett, Ann Arbor, or to Mrs. P. R. Cleary, Ypsilanti.

WHEN YOU SELL THE FARM

Federal Tax Collector Will Collect Goodly Share of Sale Price.

Many farms are changing hands in Michigan this year. Farmers who have grown tired of hard work and bucking up against obstacles are going to try a whirl of it in the city. A considerable number of farmers who have come in contact with the giddy life of the city have soon lost their money in poor investments or speculations and find themselves without friends, funds or home.

All sorts of troubles are ahead of the farmer who sells the old home and begins to take life "easy." The first thing that happens now that didn't happen before the war, the federal tax collector steps up and pockets a goodly share of the sale. Did you ever think about that? For instance: Back in 1913 your farm was worth, say \$10,000. Your improvements and the natural increase in land values make its present worth \$15,000. Suppose you sell it. Will you have \$15,000 to sit away or invest? Oh, no-o! \$5,000, or the increase in value over 1913 is "income." Moreover, it is net income, and the chances are that every penny of it is subject to the federal income tax. So if you sell the farm, make up your mind that you must divide part of your proceeds with Uncle Sam.—Michigan Business Farmer.

JACOB P. MILLER.

Jacob P. Miller, a well known resident of Chelsea and Sylvan township, died Friday, December 5, 1919, aged 79 years, 10 months and eight days. He had been in failing health for some time past.

The deceased was born in Colmar, France, January 27, 1840, and came to the United States from Alsace when only 14 years of age. He lived near Buffalo for about a year, then came to this vicinity. He lived on his farm just south of town, on the Manchester road, for 41 years, but for several years past had resided in Chelsea.

He was united in marriage to Sarah Jane Stapish, November 25, 1869, at Dexter. Eight children were born to this union, seven of whom are living as follows: Mary Agnes Miller of Detroit, Mrs. John Liebeck of Sylvan, Mrs. Selma Taylor and Bernard Miller of Albion, Miss Evelyn Miller of Chelsea, Miss Helen Miller of Mishawaka, Indiana, and Mrs. William Brenner of Ceresco; also by one brother, Charles of Milwaukee, Wisconsin, and by one sister, Mrs. Theresa Nesler of Colmar, France, and by eight grandchildren.

He had been a member of St. Mary parish since coming to Chelsea, and was a member of the German Workmen's society.

The funeral was held from St. Mary church, this morning, at 10 o'clock, Rev. Fr. VanDyke conducting the service. Interment at Mt. Olivet cemetery.

INDUSTRIES PARALYZED

Fuel Restrictions Cause Local Factories to Shut Down Their Plants.

Practically every large industrial plant in Chelsea is idle today, and the employees are on an enforced vacation as the result of the fuel conservation measures adopted by the federal government.

The Lewis Spring & Axle company and the Michigan Portland Cement company closed down last week. The Chelsea plant of the Hoover Steel Ball company, closed Saturday and last night. The Chelsea Screw company, announced yesterday, may render their preparations useless, at least for the present. They have about a carload of oil on hand.

The Chelsea Roller Mill is a large user of Consumers' power, but is not classed as a non-essential industry, so its power is still available. But while the mill has power it is finding difficulty in purchasing wheat sufficient for its needs. Local growers are said to be slow in marketing their holdings and it is possible that it may be necessary for the mill to buy a supply from the government.

OFFICERS PYTHIAN SISTERS.

The Pythian Sisters elected officers Friday evening as follows:

M. E. C.—Bernice Boyd.
E. S.—Iza Guerin.
E. J.—Ira Witherell.
M. J. R. C.—Martha Shaver.
M. of F.—Jennie Walker.
Manager—Lola Dancer.
G. of F.—Ethel Heselchwerdt.
Protector—Lydia Bohnet.
Trustee—Amelia Geddes.
Delegates to grand temple—Laura Armour, Bertha Stephens.
Delegate to district convention—Lola Dancer.

POSTPONEMENT OF "CINDY."

It is with much regret that the American Legion announces the postponement of "Oh, Oh, Cindy," the farcical musical revue, until after the holidays. All arrangements had been made for the production on December 18 and 19, but owing to difficulties which have arisen it was impossible for the producing company to send their producer at this time.

The American Legion wishes to extend its thanks and appreciation, however, to those who so kindly offered their services towards making it a success and wish to solicit the same hearty cooperation at some future date.

LIMA DOG OWNERS.

All dog taxes must be paid on or before January 10, 1920. Oscar Lindauer, Treasurer. 2513

UNTAGGED DOGS ARE "PUBLIC NUISANCES"

May Be Killed If Found At Large After January Tenth.

After January 10, any dog not wearing a license tag, which may be found anywhere except on the premises of its owner, may be killed by any officer or any person.

Under the new law, after January 10, a dog that is not licensed is defined in the law as a "public nuisance" and any person is privileged to take the dog's life as explained above.

The license tags may now be procured from the township treasurers. They will cost \$3.00 for a male dog, \$5.00 for a female dog, and \$2.00 for an unsexed dog.

The license tag must be attached to a collar and worn by the dog constantly except when accompanied by the owner, or while the dog is used in hunting game.

This law should be thoroughly enforced and if it is, it should mean a big reduction in the dog population.

The SHORTHORN Is the Farmers' Breed

Shorthorn cattle are particularly adapted to the needs of the farmer, regardless of location. They are of quiet temperament and are easy to handle. They are also a profitable breed, as they are a good milk and beef producer. They are a hardy breed and are able to withstand the most severe weather conditions. They are a good breed for the farmer who wants a breed that is easy to handle and is a good milk and beef producer.

For information write to the American Shorthorn Breeders' Association, 13 Dexter Park Ave., Chicago, Ill.

FOOLED BY FINE FEATHERS

Eastern Potentate Evidently Unaccustomed to Seeing Glunks With So Much Gold Lace.

The gorgeous uniforms of the dignified English servants who always are in attendance at all official receptions have been the rocks upon which the pride of more than one foreigner has been wrecked. The intimated is never sure as he approaches one of these impassive-faced functionaries whether the latter is a field marshal or a footman. Witness the discomfiture of his highness Prince Felsal, son of the king of Hejaz, at the great reception in the guildhall to England's returning hero, Field Marshal Viscount Allenby. The Arabian prince, clad in his official robes of oriental design, was one of the many famous men at the guildhall. Many punctilious in the extreme, his highness made his way into the ancient hall, bowing to right and left as he met great soldiers and statesmen of the country.

He neared one, who, wearing wonderful raiment adorned with yards of heavy gold lace, appeared to be greater than them all. The prince bowed deeply—to the lord mayor's dunty.

Enigmatic.
Father—Can the girl you are courting make a good batch of bread?
Son—Well, she can handle the dough all right.

135 INDICTED IN ELECTION PROBE

CHARGES INVOLVE SIX COUNTS OF ALLEGED VIOLATIONS OF FEDERAL LAWS.

MERE POLITICS DECLARES KING

Unlawful Expenditures, Conspiracy, Fraudulent Reports Among 38 Specific "Overt Acts" Listed.

Grand Rapids.—The Federal Grand Jury has named 135 men in blanket indictment returned Saturday.

United States Senator Truman H. Newberry, his brother, John S. Newberry, both of Detroit, and 133 others were named.

Aside from the names of Senator Newberry and John S. Newberry, only 12 names have been announced, these being as follows: Allan A. Templeton, Paul H. King, Harry G. Turner, Marc T. McKee, Nathan Oakman, Frederick P. Smith, Charles A. Floyd, all of Detroit; Frank McKay, Grand Rapids; Judd Yelland, Kalamazoo; Dr. James B. Bradley, Easton Rapids; Gladstone Beattie, of Paw Paw; H. A. Hopkins, St. Clair.

The names of others are withheld pending serving of warrants.

In addressing the jury, District Judge Clarence W. Sessions, declared that the evidence indicated that from 1,000,000 to 1,500,000 had been expended in the Newberry campaign, when the commode was returned a victor over Henry Ford.

Special Prosecutor Bailey, who has directed the investigation, said that all defendants would be permitted to post bonds wherever warrants are served. Date for arraignment in federal court here will be set later.

One of the indictments involves six counts, charging unlawful expenditures of money during the primary and election campaigns. The other has to do with alleged false reports made to the senate by the Newberry campaign committee.

The first indictment charged that both federal and state laws were violated in that sums far in excess of legitimate expenses were used in the campaign. The second indictment cited the affidavit which Senator Newberry made while serving at the Brooklyn navy yard in which he swore that no campaign money had been spent by him or with his knowledge.

There were six counts in the first indictment. The first four were devoted to charges of excess campaign expenditures. The fifth alleged conspiracy to violate the federal corrupt practices act of October, 1918, which penalizes payment of money to voters. The sixth count to which Frank C. Bailey, special assistant to the attorney general attached especial significance alleged that the mails were used "to defraud all the people of the state of Michigan."

This sixth count charged that not only were all voters of the state defrauded but that honest campaign contributors were also victims in that they were misled into believing that the legal limits of expenditures had not been exceeded.

Politics Says King.

"Political in its inception, and designed for political effect in the coming campaigns," is the characterization of the grand jury action given by Paul H. King, manager of the Newberry campaign committee. Furthermore, Mr. King, who was among the first named in the indictments, declares he is proud of his achievement in adding the senator to a seat and that he isn't a bit worried over the developments at Grand Rapids.

Senator Newberry will provide bonds and counsel for any or all of the 134 men who, with him, were indicted by the grand jury according to a statement issued by James O. Murfin, Senator Newberry's Detroit attorney.

"There is no law prohibiting a man from spending all the money he wishes to protect his friends," said Mr. Murfin. "And I am authorized to say that we—Senator Newberry's counsel—will defend as many of those, whose zeal in the senator's behalf during the primary or election campaigns may have caused them to be indicted, as care to place their cases in our hands."

Remembers Friends.

London.—Adelina Patti, famous prima donna, who died at her castle in Wales, left a fortune valued at 116,000 pounds (more than \$500,000). She bequeathed her property to Baron Rolf Cedersjorn, her husband, with the exception of special bequests of jewelry to Alfred De Rothschild, Marianna Elster, Clara Elster and Mabel Woodford, and a Pope Leo XIII title to Herbert Vaughan, nephew of Father Bernard Vaughan.

Boys Home Site Bought.

Lansing.—The last deed was signed Saturday by which the state came into possession of 913 acres of land, the nearest point but half a mile from the city limits, as the site for the new Industrial School for Boys. The price is \$147,860. The land stretches for a mile and a half paralleling the Pere Marquette and Grand River road and has an average depth in the main tract of one mile. An extension stretches half a mile to include Jones lake.

AMATEUR MINERS KILLED

Clinton, Ind.—Six men were killed and three seriously injured in an explosion at Eagle coal mine No. 3 at Jacksonville, near here. All of the men were either mine officials or employees.

In the office of the company who, in attempting to get out surface coal for the boilers, set off a badly prepared blast. The mine had been closed by the strike.

The dead are John Stark, Terre Haute; Herbert Campbell and Joe Robertson, Clinton, office men; S. G. Stephens, Terre Haute, civil engineer; Charles Watson, assistant mine boss, and John Logsdon, Terre Haute, room boss.

The mine was not badly damaged by the explosion, it was stated and little difficulty was encountered in removing the injured and the bodies of those killed.

DANIELS ON WORK OF NAVY

Secretary's Annual Report Relates at Length the Fine Record of Our Sea Forces.

Washington.—The annual report of Secretary of the Navy Daniels, is a long and chatty relation of the efficient work of the sea forces of the United States during the great war and since the signing of the armistice. Much space is devoted to the record made by the navy in transporting troops to and from Europe, and full credit is given to its excellent work in actual warfare and in cleaning up the great mine field which it had laid in the North sea.

As for demobilization, Mr. Daniels believes this is being accomplished "without the sacrifice of national spirit, unity or force."

The story of naval aviation is long and interesting, but contains little that is not already a matter of common knowledge. Like Secretary of War Baker, Mr. Daniels is opposed to the creation of a separate air service.

Here is what the report says of a matter that has aroused considerable public anxiety:

"The attraction of higher pay in the merchant marine has caused the navy to lose many men, many petty officers, and not a few warrant and commissioned officers. This has made it impossible to fully man all the ships. This loss has been greater than numbers indicate, because those who have left the navy were experienced and qualified, while the recruits now enlisting must be trained before they are fitted for the more important duties. The high wages paid to machinists, electricians and other skilled men in private industries has prevented the navy's securing new men in the ratings most needed. It is to be hoped congress will increase the compensation early so that many of these men will have a suitable inducement to re-enter the naval service."

FARMERS ROSE TO EMERGENCY

What They Did to Win the War and Save World From Starvation Told By Houston.

Washington.—In his annual report, Secretary of Agriculture Houston tells in a brief way how the farmers of America helped to win the war and are saving the world from starvation by marvellously increased production of foodstuffs. He says the wheat crop for 1919 is estimated at a million bushels over that of 1918 and that of corn 300,000,000 bushels over the last year's. In meat production, also, the record figure of last year will be exceeded, and the same is probably true of milk, eggs and poultry. Crop yields per acre, says Mr. Houston, show an upward tendency, due largely to better methods and better machinery.

Among other recommendations made by the secretary are: The building up of a system of personal credit unions; expansion of existing facilities and activities for aiding farmers in marketing; continuation of present policy of federal participation in road building; regulation and control of stock yards and packing houses; protection of consumers against misbranded and adulterated foods and fertilizers; increased support by states for rural schools, and legislation for improvement of sanitary conditions and medical facilities in rural districts.

Finger Saves Him.

Flint, Mich.—When Fred E. May, restaurant proprietor, was accused by two men on the street after midnight, he pulled his hand from pocket and pointed finger and they fled. May had \$300 in pocket.

Another Booze Question.

New York.—"When is a drink not a drink?" another conundrum bred of prohibition, was sprung in Supreme Court. The answer is "when it is taken at meals for food or alimentary purposes at home, hotels and restaurants." This contention was made by counsel for Howard Major, of this city, a stockholder in the American Malt & Grain Co., a \$15,000,000 concern, in a suit brought against former directors, combating their action in selling out at a loss.

UNUSUAL HAPPENINGS AND OTHER BRIEF NEWS

Students Make Hens Pay Way.

Hartford.—Three students of the Connecticut Agricultural college depend on hens to pay their tuition. Sale of the eggs has left the young farmers a good profit.

New York Moved.

New York.—Public Service Commission estimates more than 2,000,000 passengers were carried on subway, elevated and surface lines in Greater New York in 1919. The daily average was 5,700,000 approximately equal to the city's population.

More Bodies Found.

Sault Ste. Marie.—Four more bodies believed to be those of members of the steamer Myron's crew have been found near Salt Point, according to a telephone message received by Sheriff Wallace Lundy, from James Burns, who is in the government service at Salt Point.

Long Lost Letter.

London.—A letter posted in London 15 years ago has just been delivered to the Portsmouth firm to which it was addressed. The letter contained an order for some merchandise. A clerk, selecting the merchandise for shipment, discovered that the order was 15 years old.

Lower Postage.

Washington.—Postmaster General Eulerson has approved pending bills to reduce the rate of local first-class letter postage to 1 cent an ounce. A letter for delivery within the postal limits of the office in which it is mailed would take a one-cent stamp instead of a two-cent stamp.

Wanted Him to Hang.

Chicago.—Mrs. Leola Harris was deeply chagrined when she called at the county jail and learned that her husband, Henry, was not to be hanged, but that his sentence had been commuted to life imprisonment. "He was a worthless coon," said Mrs. Harris, "and I been keeping up the insurance on him for five years."

Dog's Grave Cause of Legal Row.

Concordia, Kan.—Six attorneys, a special referee and a circuit judge wrestled with the complaint brought against Dr. D. S. O'Brien of Beloit, who buried his dog, Jack, in Elmwood cemetery. The decision went against the doctor, who disinterred the body of his pet and buried it in his back yard.

Maids Get Autos.

St. Paul, Minn.—Shortage of maids and other servant girls in the exclusive residential sections of St. Paul has become so keen, that the wives of wealthy men have agreed to not only provide "improved living quarters" for the girls, but to allow them to use their automobiles "once or twice" a week.

Died When He Moved.

Elizabeth, N. J.—Milton G. Lounsbury, 102 years old, believed to have been the oldest man in New Jersey, died at Linden near here. He was a police magistrate from 1875 to 1912 and lived in the same house 50 years. His death was caused by a cold contracted when forced to move when his house was sold.

Sweet Vengeance.

Marion, Ark.—As soon as Charles Sutton got out of jail at Paw Paw, where he had served a term for stealing cider, he came to Hartford to find the man he believed had told on him. He found Abdel Denavish, in a poolroom, and without warning struck him on the jaw. Denavish was unconscious two hours and an X-ray examination showed his jaw had been broken. Sutton has not been captured.

Car No. 13 Unlucky.

Los Angeles.—Dr. Arthur Kennedy, of San Diego, Calif., was killed, Page Philbrook was injured probably fatally and two others were hurt slightly in two accidents at Ascot Park in "tuning up" cars for a race. Kennedy was a passenger in car No. 13 when a tire burst and the machine turned over while traveling at great speed. Philbrook was riding in another car which smashed into the track fence.

Must Arbitrate.

Washington.—Refusal of employers engaged in interstate business to engage in collective bargaining with their employees or to interfere with trade unions by refusing to employ or to discharge members of such unions because of such membership is made unlawful and punishable by a fine of \$5,000, or imprisonment for one year under a bill introduced in the house by Representative Kelley, of Pennsylvania.

Found the Ghost.

New York.—Occupants of a Ridge street tenement house were almost correct when they reported to the police that the groans of a "ghost" had been annoying them for two days. Detectives, aided by firemen, dug a hole in a chimney of the house and extracted David Cohen, a pushcart peddler, who informed them that, busied being dead, he had decided to end his life by jumping down the fire-story chimney. He was taken to a hospital suffering chiefly with hunger.

THE MOST DANGEROUS OF ALL DISEASES

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to lag in their duties, look out! Danger is in sight.

Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back, wake up at once. Your kidneys need help. These organs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

VASSAR GIRLS DRESS DOLLS

Students at Famous College Revive Old Custom for the Benefit of Neighborhood Children.

People who have been brought up to believe that college girls are inevitably of masculine type might be interested to know that the students at Vassar college are at present in the midst of a doll-dressing contest. Nor is this contest a new event at Vassar. Every year shortly before Thanksgiving 600 dolls are bought by the Christian association and distributed among the students to be dressed in time for Christmas for the children of the surrounding neighborhood. At an appointed time the dolls are assembled by their respective owners and placed row on row for inspection. The best-dressed doll is selected and her owner rewarded with a prize.

This custom has been observed at Vassar for many years. For the last two years, however, it has been omitted, owing to the exigencies of war work. But now that those services are not needed the work has been taken up again with an added interest and enthusiasm.

Rightly Named.

Two well-dressed women called on a rather hard-up neighbor.

One of these women commented on her hostess' dress, making the poor little woman blush with pleasure.

When the call was over and the two friends were outside one said crossly: "Why did you call that thing Mrs. Blank had on 'a creation'? It wasn't new, to say the least."

"I know. That's why I called it a creation. It was about as old as that."—St. Paul Dispatch.

Unheeded Eloquence.

"We haven't many of the old-fashioned orators."

"We don't need them," answered Senator Sorghum. "Everybody now feels perfectly competent to make a speech. What we really need is more audience."

Logs Set Afire by Friction.

The curious spectacle of great logs set afire by friction of their rapid descent in a long chute was witnessed recently in the mountains of Washington state. Logs of exceptional length were needed for special water-front piling, and could be found only at a great height. The chute down which the cut timbers were slid was over a mile long, and the big sticks attained a tremendous velocity. One that "jumped the track" on the way, shattered a 24-in. oak tree in its course, without material damage to itself.—Popular Mechanics Magazine.

Clothes Do Make a Man.

NEIGHBORHOOD NEWS

Brief Items, of Interest in Chelsea And Vicinity, From Nearby Towns and Localities.

ANN ARBOR—H. G. Swartz and A. J. Singer, of Detroit, the former said to be a Wayne county deputy sheriff, were arrested at Saline, Sunday, by Deputy Sheriff Cook, charged with having in their possession 213 quarts of whisky, which the deputy alleges they were transporting from Toledo to Detroit.

MILAN—The greatest damage sustained in Milan during the storm was at the Milan Opera House where the roof was lifted completely off and hurled into the street below. It landed on the automobile driven by J. Killenback, crushing the top and radiator. Both Mr. and Mrs. Killenback were hurt but their injuries were not serious. Mr. Killenback was cut around the head and shoulders, while Mrs. Killenback was saved from the heavy roof timbers by the top of the machine.—Leader.

YPSILANTI—An order requiring Mrs. May F. Moreau to give security for costs of her \$10,000 damage suit against E. C. Bartlett, for alleged criminal assault, was made Saturday by Judge George W. Sample in circuit court. According to attorneys for the defendant, the plaintiff is heavily in debt and an investigation of Massachusetts court records show her to be a woman of questionable character. They allege she has an alias and that among other misdemeanors, she has been arrested for larceny and polygamy and has served a term in the house of correction.

LINER "ADS" EFFECTIVE.

One of the most effective forms of advertising is in the "liner" or classified column where a n investment of a few cents is certain to give prompt results. Tribune liner ads are always run under the heading, "Wants, For Sale, To Rent," in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for the first insertion, 2½ cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.

Splendid Cough Medicine.

"As I feel that every family should know what a splendid medicine Chamberlain's Cough Remedy is I am only too pleased to relate my experience and only wish that I had known of its merits years ago," writes Mrs. Clay Fry, Ferguson Station, Mo. "I give it to my children when they show the slightest symptoms of being croupy, and when I have a cough or cold on the lungs a very few doses will relieve me, and by taking it for a few days I soon get rid of the cold." Notice To Creditors.

State of Michigan, County of Washtenaw, ss. Notice is hereby given that by an order of the Probate Court for the County of Washtenaw, made on the 17th day of November A. D. 1919, four months from that date were allowed for creditors to present their claims against the estate of Jane H. Moore, late of said County, deceased, and that all creditors of said deceased are required to present their claims to said Probate Court, at the Probate Office in the city of Ann Arbor, for examination and allowance, on or before the 17th day of March next, and that such claims will be heard before said Court, on the 17th day of January and on the 17th day of March next, at ten o'clock in the forenoon of said days.

Dated, Ann Arbor, November 17, A. D. 1919.

Emory E. Leland, Judge of Probate.

HYMN FOR CHRISTMAS.

Oh! lovely voices of the sky
Which hymned the Saviour's birth,
Are ye not singing still on high,
Ye that sang "Peace on earth?"
To us yet speak the strains
Wherein in time gone by
Ye blessed the Syrian swains.
Oh! voices of the sky!

Oh! clear and shining light whose beams
That hour heaven's glory shed,
Around the palms and o'er the streams,
And on the shepherd's head,
Be near, through life and death,
As in that holiest night
Of hope and joy and faith—
Oh! clear and shining light!

—Felicia Hemans.

Should Be Quarantined.

Many physicians believe that anyone who has a bad cold should be completely isolated to prevent other members of the family and associates from contracting the disease, as colds are about as catching as measles. One thing sure—the sooner one rids himself of a cold the less danger, and you will look a good while before you find a better medicine than Chamberlain's Cough Remedy to aid you in curing a cold. War and After War

For one year the Bell Telephone System, as well as other telephone, telegraph, cable and radio systems, was under control and supervision of the government of the United States. This was a war measure, designed to give the war agencies of the country the fullest use of all facilities of communication.

During this time the normal development and expansion of all telephone systems was necessarily subordinated to governmental needs. Materials and equipment had to be utilized first in the construction and maintenance of lines for war purposes. Ordinary development and expansion waited.

The Bell Telephone System is making headway in its effort to overtake the demand for service which developed during this period of suspension, but some time will yet be required before the expansion of the business can proceed at normal speed.
