

CENSUS BLANKS MAY PUZZLE FARMERS

There Are 74 Questions Regarding Farm Operations; And Each One With Many Sub Divisions.

God pity the farmer when he comes to fill out the agricultural census blank regarding his farm. There are 74 questions, each one many times sub-divided, so that the thing is a complicated as a Chinese puzzle.

Just to prove that we're not "kidding" and are writing in all seriousness we submit herewith question No. 61, which is a fair example of the other 73 questions, including their subdivisions:

Crops Grown on the farm in 1919. Grain and Seeds: (Report only crops grown for the grain and seed and harvested after ripening.)

1. Mixed crops not separated in harvesting (oats and barley, oats and peas, etc.)

2. Corn. (Do not include sweet or pop corn.)

Wheat:—

- 3. Winter, fall sown.
4. Winter, fall sown.
5. Oats.
6. Barley.
7. Buckwheat.
8. Rye.
9. Kafir, milo, fetorita, durra.

- 10. Rough rice.
11. Flaxseed.
Grass Seed:—
12. Red clover seed, including medium and mammoth.
13. Other clovers and alfalfa seed.
14. Timothy seed.
15. Seeds of other Grasses.
16. Soy beans.
17. Navy, pinto, lima and other ripe field beans.
18. Canada, cow and other ripe field peas.
19. Peanuts.
20. Other grains and seeds.

Your name, postoffice address, color or race, age, sex, etc., are questions you can speed up on, but most of the questionnaire will require an advance course in mathematics, supplemented with an adding machine.

JANUARY WEATHER DOPE

Almanac Prediction for Month Printed For Tribune Readers.

We've a big stock of almanacs on file this year and from their pages we have compiled the following weather forecast for January. We do not vouch for the correctness of the forecast, excepting for the 1st to the 6th, which we'll say is absolutely right.

1st to 6th, Cold Wave—Cold nights and blustery weather generally prevalent.

Regular Old Fashioned Winter

6th to 9th, Warm Wave—Bright, fair weather; with soft, slushy conditions and variable temperatures.

10th to 14th, Storm Wave—Wind and thunder gusts in southern and southeastern sections. Rain, high winds and blizzards in North Pacific states and the Rocky Mountain region.

15th to 18th, Cold Wave—Sudden fall in temperature general over the country. Freezing temperatures as far south as northern Texas, Louisiana, Mississippi, Alabama and Georgia.

19th to 21st, Mild Wave—Clear, fair weather, but with slushy conditions.

22nd to 25th, Storm Period—Heavy rain storms in southern states; fog and dampness over Lake states.

26th to 28th, Windy—High winds and blustery weather.

29th to 31st, Cloudy—Cloudy and misty over the Lake states and New England.

The temperature will range generally below the monthly average in the central and eastern sections of the U. S., but will be about normal elsewhere.

CHARLIE ROMEYN BOLLLOTAT.

Friends of Mrs. R. P. Chase, in Chelsea and vicinity, were saddened at the news of the death December 31, 1919, at the family home, 225 1/2 Beechwood avenue, Detroit, of five-years-old Charlie Romeyn, youngest son of Mr. and Mrs. Harry Bolllotat, and great-grandson of Mrs. Chase.

The body was brought to Chelsea, Thursday and interred Friday, at Vermont cemetery.

Little Romeyn was born June 20, 1914. Together with his sister and brother, Lucia and DuCharme, he has spent a great deal of time here with his great-grandmother and aunt, and by his bright, lovable ways made for himself a host of friends, who sympathize with the family in their bereavement.

"I cannot say, I will not say, that he is dead; he is just away with a cheery smile and a wave of the hand. He has wandered into an unknown land, and left us dreaming how very fair; it needs must be, since he lingers there. Think of him just the same, I say; he is not dead, he is just away."

WHEN SUNDAY COMES.

Religion gave you the entire Lord's day; what is one hour that you should begrudge it to religion?

"Here's hoping that I see you Sunday, And that you shake my hand, And look me in the eyes again, In the way we understand. I've kinda had my bumps this week, And though you'll never know; I feel that my supply of sand is running pretty low. I want to see the face again Of you and you and you; It helps to clear the track ahead, And pull the old load through. There's something in your manner, There's something in your smile; That makes me fight to keep my place On the good highway, "Worth While."

Just SEEING YOU on Sunday Is a FLYING start for Monday."

RESOLVE: That we give religion a square deal in 1920.

STATE NEWS

Fruitport—The village may consist of all the schools into one central standardized school. Rosecommon—John N. Bauer, an old resident near here, hanged himself in his barn. He fell a few days ago hurting his head. Caylord—An epidemic of smallpox is reported in the vicinity of Johnstown and the schools have been closed and all public gatherings abandoned. Coldwater—An unwelcome surprise awaits Coldwater property owners when they go to pay their winter taxes, the rates having increased considerably over last year, the total being \$18.53 per \$1,000. Grand Rapids—The Grand Rapids Citizens' league will ask a special session of the legislature this winter to secure legislation which will relieve the emergency existing as a result of the inadequacy of teachers' salaries. Kalamazoo—The trial of J. Lee Hart, former bookkeeper of the Kalamazoo Stationery Co., is the first criminal case set for hearing after Jan. 5. Hart is one of three accused of defrauding the company out of a large amount of money. Schoolcraft—Failure of the village to receive any coal shipments since the strike was called off has made fuel conditions worse than ever here and the municipal electric plant has been compelled to close between the hours of midnight and 5 a. m. Big Rapids—The Mecosta county supervisors have been called into session December 25 at which time will be presented the question of building and maintaining a hospital owned and operated by Mecosta county. The estimated cost is \$125,000. Grand Rapids—Delbert E. Clow, Ellsworth postmaster, was convicted in district court of a charge of misappropriation of war savings funds amounting to more than \$50. A personal check for the deficiency, which he tendered the post inspector, was refused. Bay City—L. M. MacArthur, probate judge, and a committee of the Ingham county board of supervisors, all of Lansing, investigated conditions at the Juvenile Home here, upon recommendation of the local institution's methods and equipment, by Arthur Murray, secretary of the State Board of Corrections and Charities. Battle Creek—Charging him with abduction, the police arrested Charles Alfred, 23, an Italian employed in a local shoe repair shop. Alfred, the police say, brought a pretty 16-year-old Kalamazoo girl to this city and, according to the city authorities, the two since Sunday have been living in Albert's apartment. Saginaw—Sixty-one dollars each for a solution to keep automobile radiators from freezing is not exorbitant in the view of sheriff's officers—when the solution is paid for from other county funds. A raid on a fruit store recently netted 900 bottles of Jamaica ginger extract valued at \$183. It is now in the radiators of three county automobiles. Bay City—A man, found dead in a hotel here, has been identified as John McCarthy, by Mrs. A. B. Hawley, of Houghton, his mother-in-law, who relates in a letter how, after a long absence, he returned to find Mrs. McCarthy re-married, believing him dead, and how he went away again rather than embarrass her. Grand Rapids—Nineteen local aviators, headed by Major William Alden Smith, Jr., who served in the world war, have expressed a desire to be the first in aiding the government in case of a break with Mexico and have addressed a letter to the director of military aeronautics of the war department, offering their services. Grand Rapids—An ordinance to prevent motion pictures and shows of the speaking stage, believed detrimental, has been drafted by the city commission. The commission acted as the result of the denunciation of a dance act of a local vaudeville house by Ernestine Meyers recently. A censorship board of five persons, one to be the director of public welfare, is provided. Ann Arbor—Furs valued at \$15,000 were taken from Grifur Szwedling, local furrier, by four unidentified automobile thieves. Patrolmen Sodi and Kiehl, pursued the thieves as far as Dearborn, where traces were lost of them in the early morning traffic. At Ypsilanti, about nine miles from Ann Arbor, the police nearly overtook the thieves, but the distance between the two speeding cars was too great to allow the officers to shoot. According to the proprietor of the fur store, none of the stolen furs was insured. Lansing—A new species of warfare against fraternities and societies in high schools is to be waged by Thomas C. Johnson, state superintendent of public instruction. Mr. Johnson declared he will seek legislation at the next session of the general assembly making it illegal for high schools students to belong to organizations which elect members by secret ballot. Through the lack of such a law, he contends, students of high school have been able to hoodwink the anti-drug law now on the statute books.

Bay City—Daniel Baumgarten, 80 year, old, a resident of this city since 1869, and a former business man, is dead. Bay City—A fire in garage of the Stevens Creamery Co. destroyed the building and three automobiles. The loss is \$2,500. Bay City—The Bay County Community Board is to maintain three skating rinks on the Saginaw River during the winter. Iron Mountain—E. R. Hughes, 69 years old, mining captain at the Kowattem mine, at Sishbaugh, was killed when a chunk of ore fell on him. Stappish—George, 15 years old, son of Charles Partridge, Galdwin county farmer, was killed while hunting rabbits when his shotgun was discharged into his head. Caro—Gust Bronson and Gilbert Rogers, arrested two weeks ago in Bay City on the charge of robbing the Gilford postmaster, were bound over to the Circuit Court. Schoolcraft—William Boston Cobb, supervisor for 16 terms and village president for many years, celebrated with his wife the fiftieth anniversary of their wedding. Grand Rapids—John E. Agnew, former superintendent of the Pere Marquette railroad and prominent Michigan railroad man for nearly a quarter of a century, is dead. West Branch—Miss Helen Tolfree, daughter of John Tolfree, banker and merchant, was married to Edward W. Winters, of Detroit, at the Episcopal parsonage at Royal Oak. Cadillac—More than \$8,000 worth of food and clothing has been sold from the carload of surplus army stock bought from the Detroit army store by Cadillac merchants and sold at cost plus transportation. Kalamazoo—John McCafferty, who jumped from the third story of old Borgas hospital after eluding his nurse, will be committed to the State hospital for the insane. He was driven insane by pain of his illness. Charlevoix—Workmen digging trenches for a foundation found a human skeleton deeply imbedded in the roots of a large tree. The bones are thought to be those of an Indian or trapper, buried many years ago. Coldwater—"Some of the popular songs ought to be prohibited by law," Branch county teachers, attending an institute here, were told by Song Director Denty, Grand Rapids, who read the words of a "Jazz" song to prove his point. Grand Rapids—While conducting a hearing on a petition for a mandamus writ to require the school board to admit a girl truant to high school, the city attorney suddenly demanded change of venue, declaring Judge Dunham in Superior Court had prejudiced the case. The venue was denied. Howell—Stephen G. Fishbeck, 79, was found dead in his home with his clothing on fire. It is believed he suffered a faint spell while carrying a kerosene lamp, which was overturned near him. A brother discovered the body, going to the house, when the man did not appear for work. Kalamazoo—Sheriff Eaton released Melvin and Mrs. Webb after administering a stern reprimand at the request of the Kalamazoo humane society. An investigation showed the couple had allowed a horse and two cows to go without food for three days and without water for two days. St. Ignace—Hunters near Moran report having killed a deer without feet. The animal had been caught in the forest area last summer, had apparently run miles through embers and been permanently maimed. It was killed to put it out of its misery. The deer was pushing itself about subsisting on herbage. Mt. Clemens—Newton Elliott, 16 years old, 787 McClelland avenue, Detroit, was killed instantly when a limited interurban struck him as he stepped on the rails. Elliott, with several relatives, was touring to Mt. Clemens in an automobile. He attempted to shove the machine from the tracks after it had stalled. Lansing—Michigan public utilities commission has fixed December 23, as the date for determining whether it will permit the Detroit Edison company to increase its capital stock from \$35,000,000 to \$60,000,000 and also to issue 10-year, 7 per cent convertible debenture bonds to the extent of the outstanding capital stock of that company on February 20. Ann Arbor—Sebastian Neff, Donald Wilson and William Wilson, Jr., charged with selling intoxicating liquor, demanded hearings. The arrests followed investigations to determine where students in the university had been securing whisky. More than nine barrels of liquor, several cases of bottled intoxicants, and a miscellaneous assortment of jugs and bottles of whisky, champagne, gin, rum and wines were confiscated. Grand Rapids—Judge W. E. Nichols, of Houston, Ind., appointed by the attorney general to assist Special Prosecutor Frank C. Duffley in preparing for the trial of United States Senator Truman H. Newberry and the 134 others indicted on the charge of conspiracy to violate the election laws, has arrived in Grand Rapids. He was formerly a circuit judge in Wells county, Indiana. He was defeated for congress in the eighth Indiana congressional district last year by a small margin.

VAULABLE CALF KILLED. Hedding, Calif.—Thomas Gerloch, farmer, near here, is grieving over the death of what he asserts was the most valuable calf in California. The calf was permitted to roam at will over the farm because it protected the chickens against hawks, says Mr. Gerloch. Every time a hawk would flash down from the sky to grab off a chicken the calf was on the job, ready to give battle and frequently there were fierce fights between calf and hawk. Lieut. Goodrich, from San Francisco, was flying over the farm in an airplane when his engine died and he was forced to land. The calf had been watching the great plane, apparently believing it some new sort of hawk, bent on a hen raid. As the plane landed the calf dashed up. The propeller still was spinning. Before Lieut. Goodrich could leap to the ground and chase the animal away, the calf had butted the machine in the nose. PROHIBITION LAW STANDS Supreme Court Says War Will End When Peace is Declared. Washington—War-Time Prohibition is constitutional, the Supreme Court has decided. Enforcement of the act must continue until peace is proclaimed, the court decreed. The decision was a sweeping victory for the contentions of the prohibitionists and the Government. It means that the millions of gallons of intoxicating liquors now stored throughout the country and valued at about \$1,000,000,000 will be a near total loss unless peace is proclaimed before constitutional prohibition becomes effective. The court held that the provision of the War-Time Act stating that prohibition shall end at the conclusion of the war, can have no other legal meaning than the proclamation of peace. INMATES DIE FROM POISON Pancakes Mixed With Insect Powder Prove to Be Fatal Diet. Kalamazoo—Thirty-five of the thirty-nine inmates of the Kalamazoo infirmary who were poisoned by eating pancakes in which insect powder had been used will recover. Most of the patients have shaken off the effects of the deadly poison, but the recovery of George Robinson and James Mackarrow, whose lives were despaired of, are not certain. De Forest Davis, one of the four men who died, formerly owned the International hotel in Kalamazoo and at one time was considered the best restaurant man in Kalamazoo. Davis and Charles Francisco, Frank Lester and Edmund Briggs died. TOWNSEND SUPPORTS BILL Says Anti-Strike Clause is Protection for Interests of Public. Washington—Senator Charles E. Townsend, of Michigan, urges the senate to pass the Cummins railroad bill. He endorsed the anti-strike proposition. "I know that this bill does not meet the approval of many senators," said Senator Townsend, "but it is a measure which will solve the railroad problem, which has threatened the life of the nation for the last few months and which may threaten the nation in the future. It is first a bill having regard for the people's rights. It does not serve any special interest. "The railroad question must be solved to the justice of the people, rather than the interests of either the owners or the workers. It preserves all the necessary needs of the United States and compels them to furnish transportation at lowest cost. "Referring to the anti-strike clause, the Michigan senator said: "The railroads are chartered by the government for the benefit of the people of the United States. The owner is entitled to a reasonable profit for his investment in the public welfare. It is improper for employers and employees to get together and settle wages and prices of everything sold in the nation. The people's interest in the matter must be kept paramount. Labor opposes this bill and capital opposes the bill." Boyne City—The Teachers' Institute which convened here voted to urge all teachers not to accept positions in Charlevoix county next year for less than \$100 a month. Pays 6 Cents Fine. Coldwater—Lacking Mr. Pickwick's determination to abide by what he deemed the principle of the thing, Jay Crowe has paid 6 cents and been released from jail. One meal there was enough for him. The incarceration of Mr. Crowe was the result of a Glendon Township game feud, growing out of counter charges of illegal hunting. In justice court he had been fined the 6 cents and refused to pay, preferring to go to jail. UNUSUAL HAPPENINGS AND OTHER BRIEF NEWS Schwab Gets Control. New York—Charles M. Schwab has acquired control of the United Zinc Smelting corporation, it was announced here. M. B. Liesberger has been elected president of the company. Want Blue Laws. Caro—Ministers and church workers have drafted a revised ordinance and submitted it to the council to stop Sunday picture shows. The ordinance would also close all kinds of unnecessary business Sundays. Trust Mispiloted. Caro—George Woodman and Herman Barto, trustees, stole the key to the sheriff's automobile, another trustee's money and overcoat, an overcoat belonging to the sheriff and finally the sheriff's automobile and fled from jail here. Gives Up Loot. Washington—Great Britain is prepared to release American-owned goods seized during the war, on establishment of their American ownership at the time the goods were shipped. The State Department has been advised by the British foreign office. Propose Big Refinery. Baltimore—Announcement has been made by B. Howard Griswold, Jr., president of the board of trade, that the American Sugar Refining company has decided to build one of the largest sugar refineries in the world here. The site will be at Locust Point. Now Wants to Go. New York—Rather than be separated from Alexander Berkman, her companion of seven years, Emma Goldman announced through her attorney that she has abandoned her legal fight in the supreme court to prevent her deportation to soviet Russia with Berkman and some 80 other radicals. No Canadian Orders. Washington—Because of the fluctuations of exchange rates the Canadian postoffice department has decided to suspend the issue of money orders to the United States. The suspension will last during the period of fluctuation. Postmasters are advised to pay money orders issued in Canada prior to December 17. Big Navy Planned. Washington—Recommendations of the navy general board for the building program for 1921 include two battle ships, one battle cruiser, 10 scout cruisers, five destroyers, flotilla leaders and six submarines. "The navy of the United States should be equal to the most powerful navy maintained by any other nation of the world," not later than 1925, the report adds. Mother Saves Sons. New York—President Wilson has pardoned Edward W. Thompson and Alberto Angrassa, each serving two years in the Atlanta penitentiary for the theft here of 15 pounds of sugar. The application for a pardon set forth among other things that Thompson's mother was a nurse in the family of President Cleveland for 24 years and is still employed by his widow. Keep Sugar Board. Washington—After approving an amendment which will retain in force the provision of the Food Control Law giving the President power to control prices and regulate the movement of sugar, the House Agriculture Committee ordered a favorable report on the Senate Bill continuing the United States Sugar Equalization Board through 1926. Big Loss Reported. New York—Methodism lost 60,000 members in 1920. Dr. Edgar Blake, executive secretary of the centenary conservation committee, reported at the annual meeting of the board of foreign missions of the Methodist Episcopal church. He said the loss was largely due to the church entering "so wholeheartedly into the prosecution of the war" that it neglected to keep its membership. Newspapers Limited. Washington—Newspapers containing more than 24 pages would be charged five times the present postage rate under a bill introduced by Senator Jones, Democrat, New Mexico. The senator said publishers in his state complained that only the big city papers with their own mills were able to obtain the print paper they needed. "Twenty-four pages will give ample space for current news and advertisements," said Senator Jones. Officer Faces Trail. Louisville, Ky.—Lieutenant John C. PACKERS GIVE UP CONTROL OF FOOD AGREE TO CONFINE EFFORTS TO PREPARING MEAT FOR PUBLIC CONSUMPTION. OTHER SUITS TO BE PRESSED Officials Declare No Compromise is Offered to Dismiss Other Pending Suits. Washington—Formal announcement that the Big Five packers have decided to dissolve their control of industries unrelated to the meat business has been made by the Department of Justice. This is regarded by many officials as a victory for the Government in its attack on the high cost of living. Some believe, however, that if the packers have entered into an agreement with Palmer to discontinue their side lines in return for the anti-trust suits against them being called off, such action will constitute a dangerous compromise between the Government and the alleged trust. Senators in charge of the principal packers regulation bills declared they would go ahead with them, regardless of the reports. The Kenyon and Kendrick bills both aim at separation of the packers from stock yards, control of refrigerator cars and many other devices by which it is alleged they have obtained advantages over smaller independent packers. A dozen or more important side line industries of the packers, involving investment of many millions of dollars, will be disposed of under the stipulated decree. The packers in the future will be required to confine their business activities to the production of meat, poultry, butter, eggs and cheese, under the agreement. Among the lines of business from which it is said the packers will be ordered to withdraw are the following: Leather, canned fruits and vegetables, soap, cleansing powders, groceries, fertilizers, cold storage, fish, refrigerator car lines, cereal. UNUSUAL HAPPENINGS AND OTHER BRIEF NEWS

Schwab Gets Control. New York—Charles M. Schwab has acquired control of the United Zinc Smelting corporation, it was announced here. M. B. Liesberger has been elected president of the company. Want Blue Laws. Caro—Ministers and church workers have drafted a revised ordinance and submitted it to the council to stop Sunday picture shows. The ordinance would also close all kinds of unnecessary business Sundays. Trust Mispiloted. Caro—George Woodman and Herman Barto, trustees, stole the key to the sheriff's automobile, another trustee's money and overcoat, an overcoat belonging to the sheriff and finally the sheriff's automobile and fled from jail here. Gives Up Loot. Washington—Great Britain is prepared to release American-owned goods seized during the war, on establishment of their American ownership at the time the goods were shipped. The State Department has been advised by the British foreign office. Propose Big Refinery. Baltimore—Announcement has been made by B. Howard Griswold, Jr., president of the board of trade, that the American Sugar Refining company has decided to build one of the largest sugar refineries in the world here. The site will be at Locust Point. Now Wants to Go. New York—Rather than be separated from Alexander Berkman, her companion of seven years, Emma Goldman announced through her attorney that she has abandoned her legal fight in the supreme court to prevent her deportation to soviet Russia with Berkman and some 80 other radicals. No Canadian Orders. Washington—Because of the fluctuations of exchange rates the Canadian postoffice department has decided to suspend the issue of money orders to the United States. The suspension will last during the period of fluctuation. Postmasters are advised to pay money orders issued in Canada prior to December 17. Big Navy Planned. Washington—Recommendations of the navy general board for the building program for 1921 include two battle ships, one battle cruiser, 10 scout cruisers, five destroyers, flotilla leaders and six submarines. "The navy of the United States should be equal to the most powerful navy maintained by any other nation of the world," not later than 1925, the report adds. Mother Saves Sons. New York—President Wilson has pardoned Edward W. Thompson and Alberto Angrassa, each serving two years in the Atlanta penitentiary for the theft here of 15 pounds of sugar. The application for a pardon set forth among other things that Thompson's mother was a nurse in the family of President Cleveland for 24 years and is still employed by his widow. Keep Sugar Board. Washington—After approving an amendment which will retain in force the provision of the Food Control Law giving the President power to control prices and regulate the movement of sugar, the House Agriculture Committee ordered a favorable report on the Senate Bill continuing the United States Sugar Equalization Board through 1926. Big Loss Reported. New York—Methodism lost 60,000 members in 1920. Dr. Edgar Blake, executive secretary of the centenary conservation committee, reported at the annual meeting of the board of foreign missions of the Methodist Episcopal church. He said the loss was largely due to the church entering "so wholeheartedly into the prosecution of the war" that it neglected to keep its membership. Newspapers Limited. Washington—Newspapers containing more than 24 pages would be charged five times the present postage rate under a bill introduced by Senator Jones, Democrat, New Mexico. The senator said publishers in his state complained that only the big city papers with their own mills were able to obtain the print paper they needed. ROAD BUILDING

ORDER ALL MATERIAL EARLY United Action Urged to Overcome Deficiency in Open-Top Cars—Much Work Ahead. (Prepared by the United States Department of Agriculture.) While the expenditures during 1919 for hard-surface highways, according to estimates of the bureau of public roads of the United States department of agriculture, will set a new record with a total of \$133,000,000, this figure is small in comparison with the computed available total for 1920 or \$633,000,000, the spending of which promises to be dependent chiefly on the quality of materials the present limited railway facilities can transport. The items entering into next year's estimate are: Brought forward from unfinished work, 1919 contracts, \$165,000,000; funds available from state and county taxes and federal aid, \$273,000,000; one-fifth state and county bond issues not before available, \$50,000,000; one-third unexpended balance of state and county bond issues previously available, \$45,000,000; available from new bond issues to be voted on in the fall of 1919 and spring of 1920, \$100,000,000. Unless the available open-top cars, many of which normally lie idle in the late winter, are utilized in that slack season the work which can be done will necessarily be curtailed for lack of materials. The total for 1920 is more than four times the amount that has been expended during any previous year for like purposes. Therefore there must be a tremendous increase not only in the material supplies and shipping facilities, but also in the labor supply, and an enlargement of contractors' organizations. First of all, according to Thomas H. MacDonald, chief of the bureau of public roads, the attention of all state, county and city road-building interests should be directed toward overcoming this car shortage. It has been customary to wait until contractors' organizations were ready to begin work before starting the shipment of material. Under these conditions many thousands of open-top cars lie idle during the latter part of February, all of March, and the earlier part of April. During the past spring the number of open-top cars that were idle totaled more than 250,000. This, of course, was partly unavoidable, owing to the late date at which work got under way, following the signing of the armistice. By awarding contracts as early as possible, contractors will be able to ascertain their material requirements at different points, and so will be in position to place orders dependent on rail transportation a considerable time in advance. While the placing of material in storage, which may result from such a course, involves some expense, it will be small compared to the loss that will result if contractors are not in a position to go ahead with the work because of lack of materials. In view of the experience of 1919 and the greatly increased program for next year, it seems probable, according to the bureau of public roads, that contracts which are not awarded during the winter months will have little opportunity for being supplied with material which require transportation. THAT CHANGE IN WOMAN'S LIFE

Mrs. Godden Tells How It May be Passed in Safety and Comfort.

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. I used E. Pinkham's Vegetable Compound and was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way than I did before. The annoying heat flashes have disappeared."—Mrs. M. GODDEN, 925 Napoleon St., Fremont, Ohio.

Such annoying symptoms as heat flashes, nervousness, headache, irritability and "the blues," may be speedily overcome and the system restored to normal condition by this famous root and herb remedy Lydis E. Pinkham's Vegetable Compound. If any complications present themselves write the Pinkham Medicine Co., Lynn, Mass., for suggestions how to overcome them. The result of forty years experience is at your service and your letter held in strict confidence.

Turks' Finances Basically Sound

Impression to Contrary Before War Said to Have Been Artificially Created.

FOREIGN FINANCIERS PROFIT

Revenues Shown to Be Already Adequate to Conduct the Old Government—Large Sums Squandered on Harem and Palaces.

Constantinople.—American experts who have investigated the financial condition of the former Ottoman empire say they are convinced that it is fundamentally sound. Several considerations are advanced to support this conclusion. "First, it is stated that the popular point of view that Turkey was bankrupt before the war was partly created artificially for the benefit of foreign financial interests with the object of frightening other would-be investors, and for political reasons of establishing spheres of influence. "The fact that Turkey was always able to secure loans is cited as evidence of her financial soundness, though against this may be advanced the observation that she was a political center coveted by many powers who were played, the one against the other, and that financial considerations were sometimes subordinated to political purposes. Turkey Did Not Default. It is pointed out that Turkey did not default on her indebtedness in recent years, but funds for the payment of interest and amortization were continually increasing and doubling at the rate of every 15 years. The revenues of the country as a whole were increasing at the normal natural rate of other prosperous countries in Europe. An enormous percentage of revenue never reached the treasury, the loss being estimated by some as high as 50 per cent. This was partly ascribed to the system of farming out the taxes by districts, collectors paying in advance a certain sum and then collecting what they could. For Americans who are considering the mandate question or of doing business here under whatever government is established, it is pointed out that the above facts show revenues already adequate to conduct the old government, and that with good government the old Ottoman empire would have been financially strong. Before the war foreign investments amounted to the equivalent of \$1,078,000,000, of which \$783,200,000 was in the public debt or loans to the government, the difference in private enterprises and concessions. The bulk of these investments was in loans to the government. What was done with this money? Many of the loans were issued below par, so that all of the money never reached the treasury. Enormous commissions are believed to have been paid to European bankers and in "gratifications" to various local ministers to get their support for the loans. Sums that did reach the treasury are said to have been squandered on palaces, harems and in other unproductive ways. So the loans did not, on the whole, create sources of new revenue, and therefore the public debt continually increased. Spheres of Influence. The object of such loans, it is stated,

WOMEN HOOK MONSTER FISH

Record for Big Catches in Pacific Waters This Year Goes to Fair Sex. Avalon, Cal.—News that women are coming into their own must have reached the depths of the deep blue, judging from the way sea monsters are gallantly hauling themselves up to dry on the hooks of fair anglers here this season. Marlin swordfish are the prized trophies of "men fishermen" hereabouts, and up to the present season it has been unknown for a mere woman to bring in one of these sea tigers, as they have the reputation of being the hardest fighters in the ocean, (we mean the fish, of course). However, it remained for Mrs. A. Koch, governess in the household of Zane Grey, the famous author, to inaugurate the run of luck for women by bringing in a 172 pound marlin swordfish, the first

Sect Established on Islands Years Ago and Now Owns Property Worth Many Millions of Dollars—Joseph Smith a Missionary.

Honolulu, Hawaii.—Completed at a cost of approximately \$150,000, the magnificent new Mormon temple at Laie, 40 miles from Honolulu, on this island, Cuba, stands a monument to seventy years of effective work by the Church of Jesus Christ of Latter Day Saints in Hawaii. On December 12, 1850, only three years after the great migration of the Mormons to Utah, the first party of Mormon missionaries landed in Hawaii, a little more than thirty years later than the first Christian missionaries from Boston. In this first Mormon party was Elder George Q. Cannon, lately a counselor to the first presidency of the church in Salt Lake City. He remained in the islands a number of years, learned the native language and translated the Book of Mormon into Hawaiian. Joseph F. Smith, the late president of the church, came to Hawaii in 1854 as a missionary, being but sixteen years old at that time. He remained in the islands four years and returned in 1858 for a stay of two years, during which his son, Elias Wesley Smith, now residing here as president of the Hawaiian mission, was born. Twenty years ago President Smith made his last visit to Hawaii.

Caruso Still Leads.

New York.—His desire to show that he could "sing better than Caruso" landed Peter Johnson, a stonemason, in jail. Johnson smashed a plate glass window in a music store by beating time with his arm. Indian Soldier Selected. Washington.—Otis W. Leader, a Choctaw Indian, of Cavalry Order, who was with the artillery force which fired the first American shot in the world war, and who after having engaged in the major operations of Chateau Thierry, St. Mihiel and the Argonne was still "present and accounted for" when the last guns of the war were fired, has been selected as a model by the French artist Dewarroux, for a portrait of a typical American soldier.

SWAMP-ROOT FOR KIDNEY AILMENTS

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys, liver and bladder. Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound. Start treatment at once. Sold at all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Client Was Somewhat Peevish. The visitor to the lawyer's office stood in amazement. "I say, old man!" he exclaimed. "Whatever has happened to you? Had a motor smash, or what?" The lawyer shook his head wearily as he gingerly touched his bruised and bandaged face. "No. You remember that case the other day when I defended a man charged with assault? Well, I made a strong plea for him on the ground that he was a fool rather than a criminal." "Yes; but—"

"I did so well that he was acquitted, and he waited for me outside the court." "Cold in the Head" is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. All Druggists Sell. Testimonials free. \$10.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure. F. J. Cheney & Co., Toledo, Ohio.

Tales of Bum Chow.

Anita was still a "rookie" cook when her husband invited me over to dinner. Everything went well, but the meat had evidently been cooked in a slow oven and it was tough. After a little struggle with a piece of meat, I said, without thinking: "This reminds me of the 'dark days' in the army, when we used to have artillery horse and ammunition train mules." And I went on telling imaginative tales of bum "chow." John, her husband, enjoyed the stories, but when I looked at Anita there were big tears running down her cheeks. Needless to say that I felt like a half a cent.—Chicago Tribune.

Important to Mothers.

Examined carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Watson* In Use for Over 40 Years. Children Cry for Fletcher's Castoria. Qualified. "Would you say Galspur is a credit to his home town?" "The people in his home town must think so." "Why?" "They don't seem able to organize a reception committee without talking Galspur chairman, although that may be because he is the only man in Chilleville who owns a silk hat and a long-tailed coat."—Birmingham Age-Herald.

Cuticura for Pimples.

To remove pimples and blackheads clear them up with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water. Once clear keep your skin clear by using them for daily toilet purposes. Don't fail to include Cuticura Talcum.—Adv.

AND WHO THE—ARE YOU?
 Some of these hard boiled guys who are clamoring for a six-hour day and a five-day week might dig out an object lesson from the following, which we find in McGill's magazine:
 A gentleman in the engraving business on Broadway, New York, was greatly annoyed by the tardiness of one of his skilled engravers. Calling him into the office one morning he said, "Mr. Brown, I get here at 8:30 every morning and look over my mail; at nine o'clock I look out of the window and see Mr. Rockefeller on his way to the office; at 9:30 Mr. J. P. Morgan passes on his way to his office; at 10:10 see Mr. Vanderbilt going by; at 10:30 Mr. Taft passes on his way to his office; at 11 you come in. Who the are you?"

The Best Cough Medicine.
 When a druggist finds that his customers all speak well of a certain preparation, he forms a good opinion of it and when in need of such a medicine is almost certain to use it himself and in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy. J. B. Jones, a well known druggist of Columbus, Ky., says, "I have used Chamberlain's Cough Remedy in my family for the past seven years, and have found it to be the best cough medicine I have ever known." Miss Sylvia Runciman spent Saturday in Detroit at the home of her brother, J. W. Runciman and family.

Olive Lodge No. 140 R. A. M. will hold a special meeting Friday evening January 9th. Work in mark master degree.

Mr. and Mrs. Homer Boyd of Sylvan Center left last evening for Santa Rosa, California, where they expect to spend the winter, returning some time in March.

A paper is being circulated among the business men to raise a fund to employ a basket ball coach for the high school team. Let's all help the boys to develop another winning team this year.

Misses Helene and Charlotte Steinbach and Frieda Frohofer of Cleveland, Ohio, and Miss Emelie Steinbach of New York city left for their homes Sunday after spending the holidays with their parents, Mr. and Mrs. C. Steinbach.

Temperatures Monday morning hit the record low mark for the season, ranging from 10° to 2° or 3° below zero. The weather moderated considerably yesterday afternoon and the thermometer this morning registered about 20° above zero.

Edgar Steinbach is taking treatment at St. Joseph's hospital, Ann Arbor, for trouble with his nose, which was broken in a base ball game, years ago, and which has recently been giving him some trouble. Mr. and Mrs. C. Steinbach and Mrs. Edgar Steinbach visited him Sunday and found him doing nicely.

According to figures published by the department of agriculture, the man in the city eats two-thirds more beef, veal and mutton than the man in the country; but the man in the country eats two thirds more pork than the man in the city and one half more poultry. The Northerner eats more beef, veal and poultry than the Southerner; the Southerner eats more pork than the Northerner; the Westerner eats more beef and mutton and less poultry than either of the others.

Several Chelsea checker experts attended the state tournament in Ypsilanti the last of the week, and one Chelsea player very nearly defeated the state champion, the score standing two to one in favor of the Chelsea player. Winning a third game would have turned the trick. The state championship was won by a Mr. Cooper of Detroit, who had spent seven hours a day for the past three months preparing for the contest. Second place was won by Fred O'Mealey of Hillsdale, who had held the championship for the past four years.

MORGENTHAU PLEADS FOR HELPING HAND IN THE NEAR EAST

Former Ambassador to Turkey Says America Should Not Let Armenian Allies Starve.

By HENRY MORGENTHAU, Former Ambassador to Turkey and Leader in Near East Relief.

If they were good enough to fight and die for us when we needed their help so sorely, they are good enough now to share some meager little crumbs from our plenty when they have nothing, when hundreds of thousands of them are homeless, unclad, foodless and threatened with extermination by their enemies and our own.

Not far from a million Christians have been murdered by their Turkish oppressors. Hunger, terror stricken hundreds of thousands of refugees now look to the United States for succor.

Have Trust in America. We cannot refuse. Next to their faith in God is their trust in the disinterested good will and generosity of

Copyright by Underwood & Underwood. HENRY MORGENTHAU.

the American people. They look to us as the human agency to extricate them from the frightful situation in which they have been left as a consequence of the war.

If we should fail to aid them, starvation and the winter's cold would go far to completing the work done by the unspeakable Turk.

I have not seen with my own eyes the misery in which the Armenians now exist. I have been spared that. But the reports which have been brought in by agents of the Near East Relief and by representatives of the Peace Conference paint a picture of wretchedness inconceivable to those who have not a first hand impression of the savagery of the Mussulman.

Exiled From Homes. Since the beginning of the war the Turkish Armenians have been largely refugees from their homes. A simple agricultural people, they have been exiles from their farms, deprived of all opportunity to support themselves. Year by year their sufferings have increased. Now, a year after fighting has ceased, they are still living the life of nomads, able to continue to keep alive only by virtue of American philanthropy.

These homeless people—"Blithely Infidels" to the Turk—were good enough to exert their poor might in our behalf while the war was still in the balance. Massacres of a half century had not so broken their spirit that they dared not fight for right and for democracy when justice was the issue. We accepted their aid then. Surely we shall not pass them by without compassion now.

The day has passed when any self respecting man dares permit absorption in his own personal affairs to exclude consideration of his neighbor's well being. No honorable man can knowingly allow his neighbor to hunger or to go unclad. The Christian peoples of the Near East are our neighbors. The money needed to relieve them can be spared without causing any man, woman or child in the United States to suffer.

Must Not Rest on Past. In other years of our own free will we sent missionaries to Turkey. Our schools and colleges and hospitals have played a wonderful role in humanizing that dark spot in the world. Our ideas, our educational resources, our material equipment, have been taken to the Near East. Because we have done so in times past we have this great opportunity for the present.

The Armenians have been treated as perhaps no people in history have been treated because they are the spiritual brothers of western races.

Will America help them? There can be but one answer. Their necessity is dire, but our power is great. We are wealthy. We are a member of the family of nations. Our brothers call us. Food, clothes, money, are immediately wanted. If ever unmerciful suffering called for succor the plight of the Armenians should be heeded now. A few months more and it may be relief will be too late for thousands whom only we can save.

shall not fall them.

LINER "ADS" EFFECTIVE.

One of the most effective forms of advertising is in the "liner" or classified column where a n investment of a few cents is certain to give prompt results. Tribune liner ads are always run under the heading, "Wants, For Sale, To Rent," in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for the first insertion, 2 1/2 cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.

The Floral Salute. On the outer edge of the crowd which awaited the coming of Edith Cavell at Victoria station, London, stood a tall, elderly lady in deep, quiet black. Aloft in her hand she raised a bunch of tall white lilies, holding them as high as an officer salutes with his sword.

Five, ten, fifteen minutes, through half an hour of waiting the lilies were held unflatteringly aloft in expectant homage. It was only at the last moment as the cortege came into view that civilians bared their heads and soldiers came to the salute, but throughout the long, slow waiting the white lilies were upborne without rest or faltering by that fragile hand.

Don't You Forget It. Bear in mind that Chamberlain's Tablets, not only move the bowels but improve the appetite and strengthen the digestion. They contain no peppin or other digestive ferment, but strengthen the stomach and enable it to perform its functions naturally.

Labor the Limitation
 Telephone management and operation never stand still. They cannot stand still. The dependency upon them of every important factor in our commercial, industrial and social life precludes any relaxation or suspension of activity.
 The Great War caused the demand to overtake the reserve facilities and equipment of the Bell System and for a time it was nip and tuck between demand and supply. Now that the War is ended the Michigan State Telephone Company is planning to spend for new construction in the next two years whatever amount of money the available labor and material supply permits in an effort once more to get ahead of the immediate needs of the public and back to its former position of Ready to Serve.
 Rates must be charged to meet present cost scales. But these rates are charged the public for the benefit of the public. Telephone service is a public service and must be maintained at the maximum of efficiency and comprehensiveness at any cost.
