

WHY NOT BOY STUDENTS

Are Girls Brighter Than Boys; Or Only More Consistent Workers?

In the class of 1920 of the Chelsea high school all of the honors for high standings have been awarded young women, and to cap the climax, the young woman who has been awarded first honors did the four years work in three years. The boys of the class did not get a look-in on the honors for high scholarship and naturally the query arises—Why? Are the boys of the class less capable than the girls, or what is the reason that not one boy was named as an "honor" student?

Probably the teachers—those who have been associated with the members of the graduating class in their daily work—could answer the question, and we wonder what the answer would be?

Our own observation leads to the belief that the boys are just as bright and capable as the girls, but they are not as consistent or as conscientious workers as the girls. Their ideals are not as high; they are too prone to be contented with "good enough" pre-

parations for recitations instead of the "best of which they are capable" kind.

And, too, there seems to be an under current of indifference to the advantages of an education among the high school boys of Chelsea. Later, those who enter the universities realize too late that their carelessness during high school days has handicapped them in their college work, as one boy now in the University recently told the writer.

Success of any kind means sacrifice and a liberal amount of hard, honest work. The lad who does his best in high school will never have cause to regret it, and to most it will spell the difference between success or failure.

Brief Items of Interest in Chelsea And Vicinity, From Nearby Towns and Localities.

BROOKLYN—At a meeting of the Brooklyn school board on Saturday evening it was decided to raise tuition rates for next year to \$50 for the high school and \$35 for the grades.—Exponent.

ANN ARBOR—Articles of incorporation have been filed with the secretary of state at Lansing for the Ann Arbor Asphalt Construction company, capitalized at \$100,000. J. C. Stewart, R. B. Canfield and C. R. Litchfield are the incorporators.—Times-News.

MASON—Tuesday evening about 8:30 a stranger called at the home of Will Angell in Bunkerhill and said he was sick and would like to stay all night. As Mr. Angell's family had both flu and measles, he was taken to the home of Arlo Angell. Dr. R. H. Nichols was called and it developed that the man had a stroke of apoplexy. He passed away at one o'clock. He had been to Lansing and bought a new Reo automobile and started for Detroit by way of Bunkerhill. Papers found in his pocket proved him to be Charles A. Cron of Titusville, Pa. A long-distance call by phone and his wife and family were located. His father-in-law came to take charge of the remains.—News.

MRS. CHARLES STAPISH.

Mrs. Charles Stapish died Sunday, April 11, 1920, in Ann Arbor, where she had been taking treatment for some time. She had been in failing health for about a year past.

Claudina M. Eskridge was born in South Bend, Indiana, April 5, 1867, her parents being George and Mary (Packson) Eskridge. She resided in Philadelphia for a time and about 25 years ago came to Michigan and lived in Detroit for six years. She was united in marriage with Charles Stapish, January 15, 1901, and for the next eleven years resided on the Stapish farm north of Chelsea. The family had resided in Chelsea for the past eight years.

Mrs. Stapish is survived by her husband; one daughter, Mrs. Pat Lingane of North Sylvan; and by four step-sons, B. C. and George Stapish of Detroit, and Eugene and Alfred Stapish of Chelsea; also by one sister, Miss A. Eskridge of Chicago and one brother, Orta Eskridge of Jackson.

The funeral was held this morning at 10 o'clock from St. Mary church, Rev. Fr. VanDyke conducting the service. Interment at Mt. Olivet cemetery.

IT PAID US TO ADVERTISE.

About two weeks ago the Tribune ran a little advertisement of automobile tools on the Chelsea-Stockbridge road, near the home of Wirt Boyce. We did not miss them until we had reached our destination about 40 miles farther on, and when we came back over the road on the return trip the tools were gone. And so we advertised for them, using both of the Chelsea papers and the Stockbridge paper, also, to make sure of covering thoroughly the territory in which the tools were probably lost. And it paid us about 100% on the investment, even including the two dollar reward which we gave the finder.

AS A TONIC

"Milwaukee, Wis.—For the last twenty years I have used Dr. Pierce's Golden Medical Discovery at times, as a general tonic, with excellent results. One bottle in the spring and one in the fall are usually sufficient. It has given me added strength and endurance and has greatly aided me in following the strenuous life of a freight handler. I have also found Dr. Pierce's Pleasant Pellets very beneficial and mild in action."

"I have been through Dr. Pierce's 'Incurable' Hotel and Surgical Institute in Buffalo, N. Y., and have found everything as represented. The pictures they give of their buildings are genuine."—JOHN W. ALOIN, 128 Wisconsin St.

COUGH CURED

Mayville, Mich.—"I feel it my duty to write this. Four months ago I was a very sick woman. I could not lie down in bed but had to sit up in my chair night and day, had an awful cough. I had two doctors and they said I must cough like that until spring. But I got some of Dr. Pierce's Golden Medical Discovery and began to take it and I then wrote Dr. Pierce for advice, and, thank the Lord and Dr. Pierce's medicine, I am cured of the cough. In one week after I started to take the medicine I began to raise and the cough soon disappeared. I had gone down to about one hundred and thirty pounds. I now tip the scales at one hundred and sixty-six and one-half pounds. I don't feel the need of any more medicine but I shall always keep the 'Discovery' in the house."—MRS. C. B. GLAZIER.

Cured Inflammatory Rheumatism. Jackson, Mich.—"I feel it my duty to write a testimonial in behalf of Dr. Pierce's Golden Medical Discovery for the cure of suffering humanity. A year ago this past winter I suffered with inflammatory rheumatism. I suffered about five months and then began the use of Dr. Pierce's Golden Medical Discovery. After taking five bottles of the above named medicine, I was completely cured. I have not been troubled with rheumatism since."

"As a blood purifier and for the system generally, I have never found a better medicine."—FRANK GUNN, 1901 E. Main St.

Children Who Are Sickly

"When your child cries at night, tosses restlessly in its sleep, is constipated, feverish or has symptoms of worms, you feel worried. STOMACH TROUBLE AND CONSTIPATION ENDED

Suffered So He Couldn't Work for a Year, but Mr. McCormick Was Cured Promptly.

"I had stomach trouble and constipation for five years. One year of this time I was unable to work, suffering untold agony. I doctored with some of the best physicians, also took many proprietary medicines, but could not find permanent relief. Finally a friend recommended Milks Emulsion. The first few doses relieved me greatly, and three bottles effected a permanent cure."—C. A. McCormick, Anderson, Ind.

Mr. McCormick is only one of many hundreds who have endured torture for years and then found that Milks Emulsion gives blessed relief and rest, lasting benefit. It costs nothing to try. Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy and natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength Milks Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in regaining and restoring the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee: Take six bottles home with you, use it according to directions, and if not satisfied with the results your money will be promptly refunded. Price 50c and \$1.25 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Adv.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success. An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preventive, send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

PUBLIC ROADS

HORN AUTOMATICALLY TOOTS

Device Installed on "Dead Man's Curve" in North Carolina Warns of Approaching Motor.

"Sound your horn!" "Dangerous curve ahead!" The roads are well fortified with these bright red warnings. But you can't see signs by the roadside at night, and you surely don't want to toot your horn continually, waking sleepers in the houses you pass. What then?

The solution lies in the unpretentious oblong piece of metal lying in the road. As your car passes over it a horn a few feet in front of you automatically toots loud and long, letting the people around the curve know that you are coming.

The device is not unlike the light signal system used in the New York subways and that are operated automatically by the trains.

You will notice two trends running lengthwise. As your car passes over the one on the left it will be depressed and an arm extending downward from it will hit a ratchet wheel. This wheel then rotates and carries with it a larger wheel attached to its shaft.

Contacts on the large wheel will fit against electric brushes as it rotates. Wires from the brushes lead to the horn and its motor. When the circuit is thus closed the horn will toot.

But why have this revolving wheel instead of ordinary metal contacts? Because if your automobile is going at the usual rate of 20 miles an hour the tread will be depressed for only about one hundredth part of a second—much too short a time for even starting the motor on the horn. The revolving wheel tends to prolong the contact.

And now for the tread on the right side. This prevents the horn from tooting unnecessarily when a car approaches from the opposite direction where it has already passed the danger.

The right tread likewise has an arm attached to it. But this arm is fixed at an angle so that it almost touches the arm of the left tread. Then, when the right tread is depressed, the right

As the Operating Tread is Depressed, a Contact is Made Through a Revolving Wheel and a Horn on a Post a Few Yards Away Will Toot.

arm swings into the left one and throws it clear of the ratchet wheel. There is no rotation and no consequent tooting.

The device was invented by Charles E. Lyman of Asheville, N. C., and the first one was installed on "Dead Man's Curve" in Buncombe county near the building of a casket company.—Popular Science Monthly.

ROAD TESTS IN CALIFORNIA

Concrete on Sides With Oiled Macadam in Middle Is Being Tried on County Highway.

An experiment in road construction over adobe land is being made in a section of the county highway between Baypoint and Pittsburg, Cal.

Experience has shown that concrete roads built over adobe land results in the cracking and disintegrating of the road in a few seasons and in an effort to overcome this trouble County Surveyor Arnold is having the link of the county highway constructed in a manner tried in several eastern states and proved successful.

The concrete is laid in two separate sections, each eight feet wide, with a two-foot strip through the center. In this strip is placed oil macadam, which is placed level to the surface of the concrete and the entire surface is faced with a topping.

POOR ROADS WORK HARDSHIP

Continuity and Value of District School Work Impaired Where Children Cannot Attend.

Bad roads inflict twofold hardships on the one-room district school. Where the school is on a poor road, a common practice in severe weather is to keep the children at home. The attendance is thus, at times, almost entirely depleted, and the continuity and value of school work are much impaired.

A Michigan Case

John H. Ingles, carpenter, W. G. O. Mich., says: "I had an attack of lumbago, a sharp pain across the small of my back and at times it hurt so much I couldn't sleep. Morning when I got up I wasn't fit to do my day's work. When I stooped over sharp pains would pierce me in the small of my back. I had headaches and suffered from dizzy spells. My wife took Doan's Kidney Pills and the dizzy spells left me and my lumbago was gone."

SALTS IF BACKACHE AND KIDNEYS HURT

Stop Eating Meat for a While If Your Bladder Is Troubling You.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water acids and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Adv.

Jimmie Know.

A teacher was instructing a class in English and called on a small boy named Jimmy Brown.

"James," she said, "write on the board 'Richard can ride the mule if he wants to.'"

"Now," continued the teacher when Jimmy had finished writing, "can you give a better form for that sentence?"

"Yes, ma'am, I think I can," was the prompt answer. "Richard can ride the mule if the mule wants him to."—Boys' Life.

LIFT OFF CORNS WITH FINGERS

Doesn't hurt a bit and costs only few cents

Magie! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift the corn off with the fingers! Truly! No humbug!

Try Freezone! Your druggist sells a tiny bottle for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the discovery of a noted Cincinnati genius.—Adv.

Spanish Women Advancing.

Miss Chrystal Macmillan, British suffragist leader, who recently returned to England from Madrid, says the woman suffrage movement is making rapid progress in Spain. A number of women hold important educational positions and others are working as journalists on leading newspapers, but as yet there are comparatively few women physicians. The women of four Spanish nations, Spain, Argentina, Uruguay and Cuba, have now applied for affiliation with the International Women's Suffrage alliance.

Guiffer—"Not at all; you can tell the wife that you were detained at the 'office' without any pricking of conscience."

It's a pity a man can't put a plaster on his conscience when it hurts him.

A Matter of Rings.

Kenneth Jeffries, who was graduated from Technical high school in January, 1918, was selected as one of the marines to escort President Wilson on the trip to France. One day when the liner was plowing through the middle of the Atlantic, Jeffries was viewing the water from the deck. Another marine, approaching him, inquired about the Tech graduating ring on his finger.

"I have a right to wear that," answered Jeffries. "I'm from Technical high school."

"I have one to match that," answered the other, and produced a similar ring. He was a member of the first Tech graduating class of 1912.—Indianapolis News.

A WORLD REBUILT
By the Golden Rule
not by the rule of Gold

THIRTY denominations of the Church are uniting in a simultaneous campaign in the week of April 25th-May 2nd.

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste.

These churches know that the world needs many things; but it needs Faith most of all.

They know that there can be no final solution of our economic problems that is not a spiritual solution, based on the teachings of Jesus Christ and His Golden Rule.

They have had the courage to survey the whole task, and to ask for a budget large enough to sustain (1) the work abroad, (2) the work at home including the church's part in the huge task of Americanization, (3) the colleges and (4) hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers.

The budget is large in the aggregate; yet if each person who loves America would increase his contribution by only a few dollars the whole amount would be easily subscribed.

We face the task of rebuilding the world. Let the cornerstone be a strong and vital church in every American community; and the measuring rod by which the builders build must be the Golden Rule.
