### Tenny-Schenk Wedding.

Jackson News: A quiet but lovely wedding took place at the home of Mr. and Mrs. H. N. Beals, 151 Maple avenue, Thursday, April 22, 1920, at 8:30 a. m. when their daughter, Mrs. Ruth Beals Tenny was united in marriage to Sidney Warren Schenk, of Chelsea. Rev. C. H. Berry of the First Baptist church, performed the ceremony, using the ring service.

Only the immediate family was present. The bride was charmingly gowned in blue satin and carried an arm bouquet of bride's roses. Miss Margaret Beaume was bridesmaid and was gowned in blue georgette and carried an arm bouquet of roses. Bert French attended the bridegroom as best man.

A lovely wedding breakfast was served at a daintily appointed table. The centerpiece was a crystal bowl of roses.

Mr. and Mrs. Schenk left immediately for Chicago, and will be at home in Chelsea, after June 1.

Mrs. Schenk has many friends in the city, having been one of its popular girls, and all wish her joy in her new home.

Newberry-Ford Ballots to be Called in County Clerk Smith has received notice that Washtenaw county ballots cast in the election of November 5, 1918, are to be turned over to deputy sergeant-at-arms of the United States senate between 9 and 3 o'clock Tuesday, May 18, in the office of the county clerk.

At that time the township and city clerks will turn over to the senate officials the ballots which have been held in the original ballot boxes or in temporary receptacles. The ballots are to be used in the recount of the senatorial votes cast in the Newberry-Ford senatorial contest.

The ballots cast in Sylvan were taken to the county clerk's office more than a year ago and transferred to a canvas bag and sealed up again, in order that the ballot box could be used again.

Sodalitas Latina.

The Sodalitas Latina met last Monday evening at the home of Harold Storms. Irene's side furnished the entertainment and they certainly did it well. The first thing was a roll call in Latin, followed by a Latin guessing game. The people on Grace's side were called in to see the Roman seat of justice. Their attention was also called to an old Roman calendar and the great triumphal arch.

The big feature of the evening was the Roman day, including morning prayers, the children at school, which was carried on in Latin, the meals of the day, and the combat of two gladiators.

The story of Little Red Riding Hood was read in Latin by Anna Rogers. The story was acted out very cleverly as Anna read.

Refreshments were served in the old Roman style. The low tables set in the form of a rectangle with one side open. The guests reclined during the meal, as did the Romans of old.

After refreshments, a song was sung in Latin. The gathering left early.

### The Coal Situation in Chelsea.

The coal situation, so far as the local yards are concerned, is in nearly an exhausted condition. The Wm. Bacon-Holmes Co. received a carload of hard coal on Tuesday, which to a little extent relieved the situation. Their entire stock had been exhausted several days before, and they have no soft coal on hand at this time. The Chelsea Elevator Co. has a small supply of pea coal on hand, and they are practically out of other kinds of coal. Both companies have coal of various kinds in transit, but owing to the tieup of traffic, it is uncertain when it will get here. In the meantime the weather man is serving up a brand of weather that calls for a constant drain on the coal bin.

The Michigan Portland Cement Co. was forced to close down its plant at Four-Mile Lake last Friday, as their supply of coal was exhausted. On Sunday and Monday the company received twelve carloads of coal, which will supply fuel for about a week's run, and the plant started up again Tuesday morning. The company has a large supply of coal in transit, but it is uncertain when it will arrive at the plant.

The coal on hand at the Municipal light and water plant is getting down to the danger point.

The Washenaw Gas Co. has cut off the supply of gas at the Chelsea plant of the Hoover Steel Ball Co. It has also shut off supply of gas to the factories of Ann Arbor, and the supply to residences has been reduced to a minimum pressure except during the meal hours. The order shutting off the supply of gas went into effect Wednesday. If the company does not soon receive coal, the supply of gas will be shut off entirely.

Arbor and Bird Day May 7.

Governor Sleeper, in designating Friday, May 7, 1920, as Arbor and Bird Day, said:

"Following a custom established more than a half century ago the time has again come to call attention to Arbor Day and its proper observance. Michigan's once splendid forests have largely disappeared, though we still have many thousands of acres of beautiful forest land. It would seem to be the part of wisdom to replant with trees vast areas which have grown little or nothing since the timber was taken off, but this project will require many years for its accomplishment. In the meantime, our cities and villages can add greatly to their attractiveness by planting shade trees along their streets and in their parks and squares. Young trees suitable for this purpose may be obtained at small cost from the Public Domain Commission and the M. A. C. at East Lansing.

Trees, too, constitute the natural home of most of our birds and their preservation is a matter of the greatest moment.

Therefore, I, Albert E. Sleeper, Governor of the State of Michigan, do hereby designate and set aside Friday, May 7 as Arbor and Bird Day, and I request that exercises appropriate to the day be held in all our schools, and that all teachers seek to impress their pupils with the importance of maintaining our shade trees and of protecting our song birds. I further suggest that the boys and girls in school be encouraged to study the characteristics and habits of Michigan birds."

### Olivet College to Reopen.

Olivet college, which has been closed during this school year, will reopen next September. A meeting of the committee appointed by the trustees to secure a new president for the college was held in Chicago, April 15. The man has already been selected and has indicated his acceptance of the position. The recommendation and choice of the committee of the new leader will undoubtedly be approved by formal vote of the trustees later.

There is no question, therefore, regarding the reopening of the college this fall.

Work has already been begun on the repairing and refitting of the college buildings. As soon as possible, announcement of faculty and courses will be issued, and the enrollment of students will be received.

### ANNOUNCEMENTS.

## How much should I give to make this a better world?

A CERTAIN man in New York filled out his income tax report.

It showed an income so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

- less than we spend for daily papers
- less than a local telephone call
- less than a third of the day's car fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America—to you—this week asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're passing through the world just once; how much better will the world be because you passed through?

## BREVITIES

Jackson—Six stills and 400 gallons of mash were seized Friday night and early Saturday morning in raids by the sheriff, policemen and state dairy and food agents. The raids were all in the foreign settlement. Bags of sugar, cracked corn, boxes of raisins, pineapples and yeast were also seized. Eight men were arrested.

Ann Arbor—The annual "Swing Our Day" the day in which the senior students in all the schools and colleges of the University of Michigan don their caps and gowns for the first time, has been set for May 6. A "prom" of the campus walks, and a brief address by President Hutchins will conclude the exercises of the day.

Ann Arbor—Increases in salaries for both grade and high school teachers of Ann Arbor were ordered last week by the school board, following presentation of a report from a committee of teachers here, which showed them working under a deficit of approximately 150 per cent. The boosts cover an advance in salaries of between \$150 and \$500.

Jlilan—Stores here closed Monday, and people turned out to aid families who were stricken in the the storm of last Thursday. Sightseers who came to view the wreckage contributed \$10,000 toward the fund for the victims. Highways were blocked with autos, and at times the procession was three miles long. The Red Cross is serving lunches to homeless people.

Ypsilanti—When Warren Lewis was conducting the Moose auction sale Friday, such a crowd gathered in the building at the corner of Washington and Congress streets that the floor began to crack. Mr. Lewis made a quick sale of the chair he had and announced that the sale would be postponed. The people dispersed and all was over in such a quiet way that many did not know what had happened.—Ypsilanti Record.

Ann Arbor—A district office of the Michigan State Highway department has been opened on the ground floor of the Press building on Maynard building on Maynard street. E. G. Willemis district engineer is the state's representative for the seven southeastern counties of which Washtenaw is approximately the center. Mr. Willemis will have general direction of road construction and maintenance of state trunk lines within the district and also much other roads and drainage work in which the state may be interested.—Ann Arbor Times News.

## Cured of Dropsy, Bronchitis and Erysipelas

Bronchitis, Mich.—"I wish to acknowledge the great benefit I have received from the use of Dr. Pierce's Golden Medical Discovery, thinking some one else may try it and be cured as I have been. In 1917, I was so badly afflicted with bronchitis, dropsy and erysipelas that my doctor gave up hope of helping me. I was cured by a friend to try the 'Golden Medical Discovery' and after taking it for some time I was entirely cured of all my ailments, and am very grateful."—MRS. MAGGIE A. DEEDS, Route 6.

## Lame-Back and Liver Trouble

Eagle, Mich.—"I gladly say I have been cured of my lameness and liver trouble by the use of Dr. Pierce's Favorite Prescription. I had been a physician and he gave me some medicine but he did not help me. I took Golden Medical Discovery and it helped me so I started for home, which was Grand Lodge, Mich. I have taken Dr. Pierce's medicine several times since, especially while going through middle life, and always got relief. Then last spring I was taken with a lame back, didn't bother me in day-time but I could hardly stand it to lie in bed all night; it was something new to me. I never had the backache. I got a bottle of the 'Favorite Prescription' and a bottle of 'Golden Medical Discovery' and after taking them a few days the backache left me and I haven't felt any more of it.

"I recommended the 'Prescription' to my mother and she has taken it and says it helps her."

"I know Dr. Pierce's medicines are all true, they always help me."—MRS. J. P. KANER, R. 2, N. Y.

## Constipation and Bad-Blood

Adrian, Mich.—"I have used Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Pleasant Pellets. I used the 'Golden Medical Discovery' for a very bad case of constipation, which had troubled me for a long time. They cured me, so I am never bothered any more. I used the 'Golden Medical Discovery' for my blood, and found it a splendid medicine as well. I can highly recommend Dr. Pierce's medicines."—MRS. JULIA BECKS, 610 Chestnut St., N. Y.

Warthrop & Lyman Co., Inc., Buffalo, N. Y.

World's Sleepiest Tramp. A widely known character, one Jules Mercier, called "the sleeping tramp," has been arrested in Vermilion, according to the Manchester Guardian. This occasion he is charged with the theft of rabbits.

The morning before his arrest he was found on the Grand route by a carter in a deep sleep, from which all efforts of the latter failed to wake him. In the police station he woke up for a few minutes, then fell asleep again. It was found absolutely impossible to arouse him from slumber, and he was sent to a hospital, where he continues in the same state.

Neither drunkenness nor lethargic soporifics have anything to do with this curious case of one who must take high rank among the tired fraternity.

Her "Ami."

A little Muncie boy of three has been spending the winter in Florida with his parents, and the family has spent much of the time motoring to the coast towns. One day the mother said to Bobby: "Today I believe you and papa and I will go to see Miami." "Fore I go," said Bobbie, "I'd like to know what your Ami looks like."

## Why That Backache?

Why be miserable with a bad back? You can't be happy if every bad day brings lameness; sharp, shooting pains and a dull, nagging ache. Likely the cause is weak kidneys. You may have headaches and dizzy spells, too, with a weak, tired feeling. Don't delay. Try Doan's Kidney Pills. They have done wonders in thousands of such cases. Ask your neighbor!

## A Michigan Case

Mrs. H. Winhal, 57 Little St., Harbor Beach, Mich., says: "My back felt as though it were breaking from a dragging, heavy ache. It kept me awake at night and mornings I felt tired. My feet swelled and things were right around before me. Two boxes of Doan's Kidney Pills drove away the lame feeling in my back and put my kidneys in good shape."

## Michigan News Tersely Told

Hartford—A Commercial club has been organized here.

Detroit—As a coal conservation measure, the Pere Marquette canceled about 40 passenger trains throughout the state.

Muskegon—Doctors have raised fees to \$3 for a day call, \$5 for a night call and a minimum of \$25 for each obstetric case.

Owosso—The first house built in Owosso is being torn down for a gasoline filling station. It was originally a log cabin.

Detroit—The D. U. R. has notified the street railway commission that it will finish five extensions and expend \$3,500,000 for new cars.

Kalamazoo—The Court House was placed on Eastern Time by the county board of supervisors. The city already is operating on Eastern Time.

Bay City—The first overalls club was formed here by the druggists in the office of the Lewis Manufacturing Co. The girls are forming a gingham apron club.

Detroit—Thomas J. Burns, superintendent of the Michigan Central railroad company's rolling stock, and one of the best known railroad men in the United States, is dead.

Owosso—Local automobile owners are experimenting with kerosene as the result of the gas shortage here due to the strike. Gas can be purchased only for commercial purposes.

Grand Rapids—When a Port Marquette gas tank on which he was playing exploded, Clifford Lowell, 14, son of James Lowell, a laborer, was thrown 20 feet in the air and fatally injured.

Hillsdale—Berkshire swine breeders of Hillsdale County have organized. The plan of organizing pig, calf and lamb clubs among the boys and girls of the county is being advocated.

Mt. Clemens—Hundreds of Macomb County cattle are being sold to Detroit packers because of the switchmen's strike. Many farmers also are selling their milk cows. It is said, because of the drop in milk prices.

Grand Rapids—To spread some of the education he has acquired in America and to impart the doctrines of the Adventist church Jonas Freeman, Abyssinian Negro, a porter at the Peninsula club, has decided to return to his native land.

Grand Rapids—Alleging that his son, Crocchia Russo, 7, is not receiving proper education and training in Italy under the protection of the boy's grandfather, Giuseppe Russo has filed a petition in probate court for the appointment of himself as guardian.

Muskegon—Data is being gathered here by the Muskegon Heights Board of Trade in connection with rent gouging. Many tenants have reported that body that their rents have been increased 100 per cent in the last year and that landlords are threatening new raises.

Lansing—Four new schools in Michigan have obtained federal and state approval and are now entitled to federal aid for teaching agriculture, under terms of the Smith-Hughes act. The new schools are at Vassar, Standish, Onaway and Buckley. Fowlerville expects approval soon.

Benton Harbor—Albert Baushke, one of the leading business men of this city and leader of the House of David cult, is dead. He was once head of a wealthy family of wagon makers here, but turned his wealth over to Benjamin and Mary upon the establishment of their colony.

Ludington—The first court house built for Mason county, a brick veneer structure built in 1873 and abandoned as a court house in 1894, is being razed. The excellent lumber used in the building erected here when lumber was plentiful and cheap, makes all such buildings desirable for salvage.

Kalamazoo—Whether the farmers' sheds, the county's green produce market, and a landmark, are to be torn down as a fire menace depends on the decision of Judge Guy Chester, of Hillsdale. He is hearing an appeal by the owner against an order of the state fire marshal condemning the property.

Detroit—More comprehensive legislation for handling cases of involuntary manslaughter growing out of automobile accidents will be sought by the Committee of Public Safety. Out of several hundred cases in the last five years in which death resulted from motor car accidents there have been fewer than 10 convictions.

Hillsdale—Five school districts in and around Cambridge Village have voted on consolidation and there are five more to vote before it is decided if that part of the county will consolidate. Three districts—Cambridge Village and the Willis and Lane schools—voted favorably; two schools, Divine and Adams, voted against it.

Detroit—With the object of protecting renters of the east side from the greed of profiteering landlords, more than 500 persons met and completed preliminary steps toward the organization of a Jewish tenants' league. A returned actor acted as chairman of the meeting, which was held under auspices of the Workmen's circle and the Jewish branch of the Socialist party. Speakers were interrupted with several excited outbursts on the part of landlords who took exception to criticism of Jewish rent profiteers.

## Big Rapids—The school at Paris has been closed because of a scarlet fever epidemic.

Caro—William G. King, 89 years old, of Almer Township, is dead after living 64 years on the same farm.

Cadillac—This county has added five and one-quarter miles to the road building program, fixed at 20 miles last fall.

Saginaw—A number of city officials have joined the "overall club" in an effort to bring down the high price of clothes.

Monroe—The deepening and widening of Ottawa lake outlet drain has been declared a public necessity. Work will cost upwards of \$100,000.

Grand Rapids—Fifty recruits enlisted in the army through the local recruiting station, within a period of two weeks, according to the officer in charge.

Kalamazoo—The Sutherland Paper Co. will erect a paper mill this summer. It will be used for the manufacture of paper board for the company's box plant.

Houghton—Within two weeks 50 cars of potatoes have been shipped from Houghton County. It contained 98,423 pounds and cost here \$5.08. A Chicago firm was the buyer.

Pontiac—When an ammonia pipe burst in the plant of the Pontiac Packing company, the city engineer was compelled to shut off gas masks in order to enter and shut off the fumes.

Traverse City—What will be one of the largest orcharding concerns in Northern Michigan was perfected here with incorporation for \$100,000 of which \$77,000 has been paid in.

Flint—Less than 24 hours were required for 200 business men to complete their canvass in the Boy Scout fund campaign, whereby \$33,000 yearly was assured for the next three years.

Detroit—A school of citizenship offering free instruction to all women will be opened in May by the League of Women Voters. Speakers will give instruction in politics, economics, social problems and other subjects.

Grand Haven—The government is beginning its spring activities in this port. Work begins shortly on concrete extensions to the south pier. The survey steamer Hancock has started its spring survey of the east shore.

Pontiac—All bids received by the city on three issues of bonds totalling more than \$300,000 were rejected because the bidders wanted more than the rate of interest authorized or requested a premium for handling. New bids will be asked.

Iron Mountain—When a detachment of the State Police reported at the Court House to destroy 50 barrels containing 2,750 gallons of illicit Italian wine, sheriff intervened and refused to permit them to touch the wine until a court order had been issued.

Kalamazoo—Charles Palmer fell asleep in his bed while smoking and reading. The cigar ignited the bed clothes and Palmer was rescued by firemen who beat down the door. He was badly burned after the smoke and fumes had rendered him unconscious.

Mt. Clemens—Mary A. Kibbie, administratrix of the estate of William R. Kibbie, who died here recently, has filed in Probate Court an accounting which estimates the value of the estate at approximately \$150,000. Mr. Kibbie was the owner of the "Uncle Tom's Cabin" show rights in this country.

Kalamazoo—A commission appointed by the mayor has been authorized to investigate all complaints of profiteering laid before it and to summon witnesses. The commission has been left without power to prescribe penalties, but has been directed that full publicity be given all transactions which constitute profiteering.

Detroit—Woman office workers have held a meeting and established the following maximum prices they would pay for wearing apparel: Hats, \$10; suits, \$50; shoes, \$10; coats, \$50; dresses, \$35; hose, \$2.50; gloves, \$2. They unanimously pledged themselves to limit their expenditures to the prices fixed until prices are reduced.

Lansing—Mrs. Minnie Kerr, who succeeded her husband as treasurer of Vernonia township, Huron county, after he had held the office for the two term limit, may hold office, according to a ruling by the attorney general's department, which decided the ties of matrimony do not mean that the man and wife are one insofar as holding any elective or appointive office in the state is concerned. Mrs. Gilbert, defeated candidate for the office, made application for the ruling.

Detroit—For the treatment of crippled and deformed persons a new clinic has been opened which is being conducted by the board of health. Expenses are being paid by the Sigma Gamma society and members of that organization are serving as clinical assistants. This clinic will treat 1,349 crippled children in Detroit under 15 years of age, of whom 569 are suffering from infantile paralysis. Treatment which has been found successful in military hospitals, such as gymnastics, massage, electro-therapy and hydro-therapy will be available.

## URGE U. S. TAKE ARMENIA MANDATE

FRANCE TO CONTROL SYRIA; BRITAIN GETS PROTECTORATE OF PALESTINE.

## ITALY RENOUNCES DALMATIA

Settlement of Adriatic Dispute to Accord With Plan of President Wilson.

San Remo.—The supreme council has sent a formal request to President Wilson that the United States government take the mandate for Armenia. The council is leaving to President Wilson the arbitration of the differences over the boundaries of the new republic.

There seemed to be division on the part of the council as to whether the region of Erzerum and its vicinity should be included in the territory of the Armenian republic. The Turkish nationalists are strongly claiming Erzerum for themselves.

The council awarded a mandate for Mesopotamia and Palestine to Great Britain and a mandate for Syria to France.

In placing Palestine under British mandate the council established within the ancient limits of Holy Land what is called "the national home for the Jews."

The terms of the mandate protect the national rights of Jewish citizens of other countries. That is to say, a Jew of American, British, French or other nationality may retain his nationality, although he is also a citizen of the state of Palestine. The rights of Arabs also are protected, there being 600,000 in Palestine and 100,000 Jews.

The Adriatic question will be settled by the San Remo council in accord with President Wilson's note, the Italian premier, Francesco Nitti said.

The settlement arrived at by Premier Nitti and Anton Trumbich, the Yugoslav foreign minister, provide that the region of Valdesta shall form part of the buffer state of Fiume; Zara will be made a free city with power to appoint diplomatic representatives; Italy renounces her claims to Dalmatia but acquires a protectorate over Albania.

## PONTIAC PHONE GIRL SLAIN

Body Found on Porch of Vacant House—Bloodhounds Hunt Murderer.

Pontiac, Mich.—With knotted handkerchiefs wound tightly about her throat, the body of pretty 19-year-old Vera Schneider, night information operator of the Bell telephone exchange here, was found Saturday night on the porch of a vacant house, under construction, at 25 Douglas street, on the east side, near one of the best residential districts of the city.

Hopeful that tracks left on a newly plowed field could lead to the apprehension of her slayer, the Oakland county sheriff's department Monday morning used a pack of bloodhounds brought here from Manchester, Ohio, in the man hunt.

The Schneider girl came to Pontiac last August from her home in Elkton, Mich.

## RAIL CLERKS REMAIN AT WORK

Decide Not to Join Striking Switchmen—Await Board Decision.

Chicago—At a mass meeting Sunday representatives of 36,000 railroad clerks and freight handlers decided to await action by the railroad labor board on their demands for wage increases. Although strike action was discussed, the men voted to remain at work after their leaders had urged them to await the board's decision.

John Grunau, head of the Chicago Yardmen's association, following his arrangement with 41 other strike leaders before United States Commissioner Mason, said no more meetings would be called and no further attempts made to end the strike. The strikers would be content to "sit tight at home," he said, until their demands were granted.

The Baltimore & Ohio Chicago Terminal railroad announced that strikers who did not return Monday lose seniority rights.

## CONGRESSMAN NICHOLS DEAD

Representative From Detroit Stricken At Dinner Table.

Washington.—Rep. Charles A. Nichols of Detroit, collapsed at his home here Sunday night, while at dinner with his mother and died within a few minutes. Death was said to have been due to heart failure.

Mr. Nichols was first elected to congress from the thirteenth Michigan district in 1914, having previously served as secretary of the Detroit police department for several years. He was unmarried and 44 years of age.

Husband Makes Hit As Milliner.

Big Rapids.—Mrs. Peter Theleson caused a stir in local circles when she announced at a party that her husband trimmed her hat, which took first prize in a contest.

## The DAIRY

## INSPECTION AIDS EXPORTER

Federal Certificates of Importance as They Guarantee Shipments Meet Requirements.

An illustration of the important service which inspectors of perishable food, representing the bureau of markets, United States department of agriculture, are able to render exporters, is found in the work recently done in connection with the shipment abroad of 4,000,000 pounds of butter. This butter was destined for one of the European countries, but because previous uninspected shipments had not come up to specifications, the exporting house, to protect itself against further complaints, requested United States government inspection. This insured delivery of butter of the quality called for in its contracts. The bureau of markets inspectors were called on to certify the grade of the butter which was held in Minneapolis, Chicago, Boston, Philadelphia and New York warehouses. These are the points at which butter inspectors are regularly stationed.

The inspections were made as requested, and such lots as did not come up to the stipulated score were withheld, while the rest was started on its way. From this incident it appears that federal inspection certificates are proving of value to exporters, since they guarantee that the shipments concerned fully meet specific requirements—an important factor in promoting foreign trade relations.

## COWS REPAY GENEROUS FEED

Animals Take Raw Materials and Work Them Over Into Milk—Disposal of Shirkers.

The cow must be regarded as a sort of living machine. She takes the raw materials given her in the form of feed and works them over into milk. If the supply of proper materials is small, the output will be small. The cow that will not repay generous feeding should be disposed of and one bought that will. There are, of course, certain inbred characteristics or natural qualities which even liberal feeding cannot overcome.

## BALANCED RATION FOR COWS

New York Farmers Feed Oats, Gluten, Bran and Cottonseed Meal in Combination.

A balanced ration for dairy cows, used largely by New York farmers who feed silage, hay and some corn fodder for roughage, consists of 200 pounds ground oats, 200 pounds gluten, 100 pounds bran and 100 pounds cottonseed meal. Considering nutritive value it is about the cheapest ration a farmer can buy.

## TAKING CREAM TO CREAMERY

Should Be Done Early in Morning and Not Less Than Three Times a Week in Summer.

Deliver the cream to the creamery or cream station early in the morning, and not less than three times a week during the summer, and twice a week during the winter. Protect the cans of cream from the sun by covering with canvas or with a wet sack while en route.

## CREDIT IS GIVEN DAIRY COW

Food Value of Milk in One Animal Equal to That in Bodies of Five Heavy Steers.

Professor Haecker and Professor Eekies of the station, after years of work upon this problem, report that the food value in the milk of a good dairy cow in one year is equal to the food value in the bodies of five steers weighing 1,100 pounds each.

## WRIGLEYS

The children love Wrigley's—and it's good for them.

Made under conditions of absolute cleanliness and brought to them in Wrigley's sealed sanitary package.

Satisfies the craving for sweets, aids digestion, sweetens breath, allays thirst and helps keep teeth clean.

Costs little, benefits much.

## THE FLAVOR LASTS

Removes Red Ink Stains. To remove red ink stains from table linen spread freshly made mustard over the stain and leave about one-half hour. Then sponge off and all trace of ink will have gone.

Important to Mothers. Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of Dr. J. C. Williams. In Use for Over 80 Years. Children Cry for Fletcher's Castoria.

Fitting Action. "What did they do when the speaker caught fire?" "Sent in a still alarm."

## DON'T think that because your stomach can digest food you are proof against indigestion. The most important digestive work is done by the bowels, liver and kidneys. Unless these are active and work in harmony, you are in danger of self-poisoning.

## ECZEMA!

THIS isn't one of those fake free treatment offers you have seen so many times. We don't offer to give you something for nothing—but we do guarantee that you can try this wonderful treatment, entirely at our risk, and this guarantee is backed by your local druggist.

This makes the offer one which you can absolutely depend upon, because the druggist with whom you have been trading would not stand behind the guarantee if he did not know it to be an honest and legitimate one.

Hunt's Salve, formerly called Hunt's Cure, has been sold under absolute money back guarantee for more than thirty years. It is especially compounded for the treatment of Eczema, Itch, Ring Worm, Tetter, and other itching skin diseases.

Thousands of letters testify to its curative properties. M. Timmerin, a reputable dry goods dealer in Durant, Oklahoma, says: "I suffered with Eczema for ten years, and spent \$1,000.00 for doctors' treatments, without result. One box of Hunt's Cure entirely cured me."

Don't fail to give Hunt's Salve a trial—price 75 cents, from your local druggist, or direct by mail if he does not handle it.

William Doll has been confined to his home several days of this week by illness.

Mrs. Mary Faught and children have moved into the residence on Congdon street, owned by L. T. Freeman.

Last week, three Chelsea boys, whose parents reside within the same block on Orchard street, wedded Jackson girls.

Dr. and Mrs. H. M. Armour were in Hillsdale Thursday and Friday of last week, where the Doctor conducted a large furniture sale for a dealer.

Mrs. Charles Martin was in Dexter Tuesday evening where she acted as marshal at the installation of the officers of the O. E. S. of that village.

The Chelsea Co-operative Association made a shipment of stock to Detroit Tuesday. This was the first shipment that has been made from this station since the strike went into effect.

Final canvass of the vote on the proposition to bond the county for the purchase of a fair ground show that the bonding proposition lost by 952 votes. The total vote was 4,413 for the proposition and 5,365 against.

The Wm. Bacon-Holmes Co. has the foundations in for their new elevators. As soon as the contractors can get a carload of equipment here from the Michigan Central yards at Jackson, they will push the building operations forward rapidly.

Mr. and Mrs. R. D. Walker and daughters spent Sunday in Seio, where they visited Mr. and Mrs. Fred Peters and daughters, who had just arrived there from their home in Australia. They expect to spend the summer in this vicinity.

Lewis Compton has been engaged as head miller by the Wm. Bacon-Holmes Co. in the Chelsea Roller Mills. Mr. Compton has had considerable experience in some of the largest flouring mills in the country, and is also an expert rye miller.

A number of the members of Columbian Hive, L. O. T. M., of Chelsea, were in Ann Arbor Tuesday, where they attended the county association meeting of the order, at which two delegates were elected to attend the bi-ennial meeting of the Great Hive which will be held in Lansing in June.

The Ninth District convention of the Pythian Sisters was held in Jackson, Monday. Fourteen of the past grand officers were present. The work of the order was exemplified by the officers of the Eaton Rapids Council. Mrs. H. M. Armour and Mrs. A. E. Johnson were the representatives from Chelsea.

A total eclipse of the moon Sunday, May 2, will be visible in Chelsea, if it is a clear night. The eclipse will take place at 7 p. m. and will end at 10:41. During the eclipse the earth comes between the sun and the moon and the earth's shadow when it completely covers the satellite, gives it a brick red color.

A miscellaneous hower was given recently at the home of Mr. and Mrs. M. Schiller in honor of Mr. and Mrs. Leon Eschelbach, who were recently married. The evening was spent in playing cards, after which refreshments were served to about fifty guests. Mr. and Mrs. Eschelbach received many beautiful and useful gifts.

The Chelsea merchants are up against a hard problem to solve, the supply of potatoes and sugar. There are a few potatoes being brought in by the farmers, but the demand is far greater than the supply. Sugar seems to be a hard article to get from the wholesalers, and there is constant talk of the price going still higher.

The marriage of Miss Helen Johnson, of Jackson, and Mr. Lloyd Hirth of Chelsea, took place in Detroit Saturday, April 25, the ceremony being performed by Rev. Dr. Rice. Mr. Hirth is the son of Mr. and Mrs. Simon Hirth, a graduate of the Chelsea high school, and will be graduated from the dental college of the University of Michigan in June.

## SIX MONTHS I COULD NOT WORK

Lydia E. Pinkham's Vegetable Compound Made Me Strong and Able to Work—I Recommend It To All My Friends.

Bayonne, N. J.—"I had pains in back and legs so that I could not stand caused by female trouble. I felt so tired all the time, had bad headaches, and for six months I could not work. I was treated by a physician and took other remedies but got no relief. A friend told me about Lydia E. Pinkham's Vegetable Compound and I had a bottle of it. I am well and strong and now able to do my work. I cannot thank you enough and I recommend your medicine to my friends who are sick."—Mrs. SUSIE SACATANSKY, 25 East 17th St., Bayonne, N. J.

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for over forty years, and today hold a record for such wonderful success as does Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

"I had stomach trouble over ten years; kept getting worse. I tried everything for relief but it came back worse than ever. Last fall I got awfully bad; could only eat light loaf bread and tea. In January I got so bad that what I would eat would sour and boil, my teeth would be like chalk. I suffered terribly. I prayed every day for something to cure me. One day I read about EATONIC and told my wife to get me a box at the drug store as I was going to work at 4 p. m. I took one-third of it and began to feel relief; when it was three-fourths gone, I felt fine and when it was used up I had no pains. Wife got me another box but I have felt the pain but twice. I used five tablets out of the new box and I have no more stomach trouble. Now I write to tell you how thankful I am that I heard of EATONIC. I feel like a new man; I eat what I like, drink plenty of water, and it never hurts me at all."

A Well-Arranged Garden—By Providing Supports for Certain Crops Almost Twice the Number of Plants Can Be Grown on a Given Area.

## VALUABLE HINTS HELP IN GARDEN

Labor Saving Facilities May Be Provided Without Much Additional Expense.

### SUPPORTS HELP SOME CROPS

Certain Plants Do Better and Give Larger Yield if Furnished Something to Climb Upon—Some May Be Trained to Fence.

(Prepared by the United States Department of Agriculture.)

Where the garden is handled in an intensive manner, there are a number of facilities that may be provided without much extra cost, but which reduce the work of caring for the crops.

For instance, by providing supports for certain crops about double the number of plants can be grown on a given area, it is pointed out by specialists of the United States department of agriculture.

Certain varieties of early peas do not necessarily have to be provided with brush or any kind of support to climb upon, but they will do better and yield more if given support. With the later peas of the telephone or tail-growing variety, it is essential that they be given something to climb upon. Brush, if brush can be procured for this purpose, should be on hand and ready for use when the peas are planted.

#### Substitutes for Brush.

As a rule, brush cannot be secured in town, so it will be necessary to use some other form of support. Wire poultry netting 18 to 24 inches in width probably is the most desirable support that can be procured, but it is expensive, and a very satisfactory support can be made of cheap twine and a few stakes to string it on. In the case of one of the boys' club gardens, the boys did not have the money to buy netting, so they went to a place where refuse from the city was dumped and secured a number of broom handles and enough discarded tele wire to form a very satisfactory trellis upon which the peas were trained.

Tomatoes trained to a single stem and tied to stakes not only ripen their fruits earlier than those left upon the ground, but the fruits themselves are of better flavor; and, because they are held off the ground, they are cleaner and more convenient for gathering. By pruning and tying to stakes a much larger number of plants can be placed on a given area. Also plants, such as lettuce, early cabbage, radishes and beans, can be grown in the spaces between the tomato plants.

Many people prefer the bush type of Lima beans to the pole varieties, because no poles are required for the bush kinds. It has been found, however, that under most circumstances the pole Lima beans are preferable, because they can be trained on strings or wires attached to a fence, or, in case the fence is of wire, the beans can be trained on the fence itself. By the use of poles or a trellis of strings or wire the beans are carried up off the ground and occupy less space than do those of the bush varieties. The same is true of a number of garden crops.

#### Vine Crops on Fences.

If the garden is small and there is not room to grow the vine crops on the ground, they may be trained to the south side of a fence or even upon the side of a building, so that they really occupy very little of the actual garden space. Where it is desired to have some kind of a screen or shades over the back porch, there is nothing better than pole Lima beans, as they form a perfect screen that will last throughout the summer and at the same time give a supply of fresh beans for the table. A little study of the habits of the various crops will enable one to so arrange the garden as to get the maximum production without sacrificing quality or convenience in its utilization.

By proper arrangement of rows and by grouping together of crops of similar nature, the work of caring for

the garden is greatly reduced. For instance, all such crops as carrots, parsnips, radishes, onions, beets and turnips that require very little space between the rows should be given an other place and those that cast considerable shade should be placed at the north side of the garden, where they will not shade the small crops.

#### Making Watering Easy.

Another special facility for the garden consists of a line of perforated pipe that may be attached to the hose and used to irrigate the crops. Where the land is nearly level, watering can be done very conveniently by discharging the hose into small furrows along side rows and irrigating the crops by the flooding or furrow system. Wherever the land is steep or uneven, the line of perforated pipe will distribute the water to better advantage. This can be used where a water supply is available, and it is doubtful if it would pay where special pumping arrangements are necessary in order to provide the water. In sections where irrigation must be depended upon entirely for growing crops, special arrangements for getting water upon the garden must be made. Last year, great many farmers of the irrigated sections provided special facilities for watering their gardens.

### SELL DIRECT TO CONSUMERS

Good Possibilities Offered to Farmers Having Farm Produce to Dispose Of.

Making a personal canvass among city persons and soliciting their trade offers good possibilities for one having farm produce to sell to obtain regular customers. Success will depend largely on the personality of the person making the canvass, according to the United States Department of Agriculture. It may be necessary, also, to solicit a large number of families in order to obtain a few customers. Various other methods of obtaining customers have been tried. Whatever the method used, it usually requires painstaking work and considerable effort to get a number of reliable customers.

Consumers often have difficulty in getting in touch with reliable producers. As many farmers will not market direct, it is necessary to seek producers in localities without a good market for farm produce.

### RATION FOR LITTLE CALVES

Three Parts Oats, One Part Corn and One of Oil Meal Is Excellent for Youngsters.

An excellent grain ration for little calves is three parts of oats, one part of corn and one part of oil meal. Keep the grain fresh. Do not spill milk in it and have a sour manger. Let the calves have free access to fresh and clean water, and also to salt. The common idea that calves will drink too much water is a mistake. During the first four months calves should not, however, eat too much grain.

### POULTRY NOTES

Cleanliness is an enemy of disease.

Feed fowls well but better have them a little hungry than overfed.

Charred corn occasionally makes a good feed, especially in cold weather.

The hen that cackles loudest and longest doesn't always lay the most eggs.

Poultry soon become accustomed to regular hours of feeding. Don't disappoint them.

Pullets and cockerels should be at least nine months old before they are used for breeding purposes.

One objection to using very much sloppy food is that it often leads to dirt and unsanitary conditions.

While ducks require plenty of water in the daytime, they should be provided with dry quarters at night. No other fowls are more quickly injured by dampness.

## The KITCHEN CABINET

Hail, sweet May morn! I hear the bells ringing to usher thee in, for surely thou art to be a glad day for somebody.

### SAUCES FOR VARIOUS DISHES.

The white sauce is so well known and used that it seems unnecessary to mention it.

White sauce varies as to the amount of butter and flour, the milk being the same. The thicker sauce is used for croquettes.

that not so thick for souffles and the common sauce used for so many sautéed dishes, which calls for two tablespoons each of flour and butter. This amount is increased up to four which is for the croquette sauce.

Mushroom Sauce.—Melt one tablespoonful of butter. Add one tablespoonful of flour and when bubbling hot stir in one cupful of rich milk. Stir until smooth and slightly thick. Season with salt, cayenne and celery salt. Add one-half can of mushrooms, chopped, when hot serve on beef loaf.

Poquette Sauce.—Take two tablespoonfuls each of butter and flour, one-fourth of a cupful of sweet cream, one cupful of chicken or other white stock, one egg yolk, salt, pepper, nutmeg and lemon juice to season. Cook the sauce, using the stock, then add the cream, and just before serving the lemon juice. This is especially acceptable with veal or warmed-over chicken.

Olive Sauce.—Chop fine eight good-sized olives and just before serving add to the following:

Brown Sauce.—Melt two tablespoonfuls of butter, add two tablespoonfuls of flour and a slice of minced onion, cook until dark in color. Add one cupful of brown stock; cook one minute and strain. A few drops of kitchen bouquet will add to the flavor and deepen the color.

Drawn Butter Sauce.—Melt four tablespoonfuls of butter, add two tablespoonfuls of flour, salt, pepper and cayenne to taste. Add one cupful of water and cook until thick. Half of the butter may be reserved and beaten into the sauce very slowly. This takes more time but it improves the sauce. To serve with fish add a tablespoonful or two of capers, or a few chopped pickles.

Potato flour used in the same proportion makes more delicate sauces and does not need as long cooking.

I know not why, but I am sure that that and place in some great fabric to endure. Past time and race. My threads will have. —Helen Hunt Jackson.

### MORE GOOD THINGS.

The following is a good way to use stale bread, and not at all common:

Toast Pudding.—Take five or six slices of bread, cut half an inch thick. Mix one beaten egg with one cupful of milk; add one-quarter teaspoonful of salt and soak the bread in this for 15 minutes. Brown in hot butter on a griddle and serve with—

Raisin Sauce.—Boil one-third of a cupful of raisins in one and one-half cupfuls of water for 15 minutes; add one-quarter of a cupful of brown sugar and boil for 15 minutes longer. Thicken with one teaspoonful of flour, add salt and nutmeg to taste. Stir well and serve.

Cream Puffs—Popovers.—Take any popovers left from breakfast and make an opening in the side large enough to neatly fill the center. For six popovers take half a cupful of cream, sweetened with two tablespoonfuls of sugar and flavored with vanilla and lemon juice. Add a little salt and whip the cream. Stir in one tablespoonful of softened gelatine and set on ice to chill. When ready to serve, stir in half a cupful of any kind of fruit that has been well sugared and drained. Fill the popovers and serve at once.

Warm-Over Beans.—Put into a hot frying pan some of the pork cooked with the beans. When the fat is melted and hot pour in the beans; add a little hot water and set back where the beans will heat slowly. Fold over like an omelet and serve with savory tomato sauce or tomato catsup. Garnish with parsley.

Graham Cracker Sandwiches.—Mix together chopped nuts, raisins and lemon juice; beat through, cool and spread on graham crackers. Press lightly together and crisp in a moderate oven.

Egg Sauce.—Cook two eggs until hard in the shell. Shell and chop and add to the above white sauce, using one tablespoonful each of flour and butter. Add a bit of onion juice and chopped parsley.

Corn and Tomatoes Scalloped.—Put a layer of corn into a buttered baking dish, add a tablespoonful of minced onion, which has been cooked in fat until brown, cover with a layer of cooked tomato; add salt and pepper after each layer. Repeat until the dish is full. Cover with buttered crumbs and bake.

## COOKIES and SMALL CAKES

From the NEW ROYAL COOK BOOK

WHEN the children romp in hungry as young bears, here are some wholesome, economical delights that will not only be received with glee, but will satisfy the most ravenous appetite in a most wholesome manner.

Cookies  
4 cup shortening  
2 cups sugar  
1 cup milk  
2 eggs  
1 teaspoon grated nutmeg  
1 teaspoon vanilla extract or  
grated rind of 1 lemon  
4 cups flour  
3 teaspoons Royal Baking Powder

Cream shortening and sugar together; add milk to beaten eggs and beat again; add slowly to creamed shortening and sugar; add nutmeg and flavoring; add 2 cups flour sifted with baking powder; add enough more flour to make stiff dough. Roll out very thin on floured board; cut with cookie cutter, sprinkle with sugar, or put a raisin or a piece of English walnut in the center of each. Bake about 12 minutes in hot oven.

Cocoa Drop Cakes  
4 table-spoons shortening  
1 cup sugar  
1 egg  
1 cup milk  
1 1/2 cups flour  
3 teaspoons Royal Baking Powder  
1/4 cup cocoa  
1/2 teaspoon salt  
1 teaspoon vanilla extract

Cream shortening; add sugar and well-beaten egg; beat well and add milk slowly; sift flour, baking powder, salt and cocoa into mixture; stir until smooth; add vanilla. Put one tablespoon of batter into each greased muffin tin and bake in moderate oven about 20 minutes. Cover with boiled icing.

Orange Cakes  
4 table-spoons shortening  
1 cup sugar  
1/2 cup milk  
1 egg  
1 cup flour  
3 teaspoons Royal Baking Powder  
1/2 teaspoon salt  
1 teaspoon orange extract  
grated rind of 1 orange

Cream shortening; add sugar slowly, beating well; add milk a little at a time; then add well-beaten egg; sift flour, baking powder and salt together and add to mixture; add flavoring and grated orange rind; mix well. Bake in greased shallow tin, or individual cake tins, in hot oven 15 to 20 minutes. When cool cover with orange icing.

### NEEDED TO TALK OUT LOUD COUNTRY OF BEE KEEPERS MOST PROLIFIC HYMN WRITER

Doughboy Might Have Had Right Idea, but Surely He Had Never Driven Mules.

Returning soldiers tell a good story of a mule driver in France. He was driving a four-mile team hitched to a ration wagon and, as he told the story, he lost his way in the night and mist and drove right through the American trench line, which was not continuous at that point, and started rumbling along an old road which led across No Man's Land. He had gone a few rods when a doughboy jumped out of a listening post and began to signal to him with both hands.

"What's the matter?" shouted the driver.

"Hush!" said the doughboy in a low and agonized whisper. "You're headed straight toward the German lines. For God's sake turn around and don't speak above a whisper."

"Whisper, h—!" boomed the driver. "I've got to turn four miles around."

#### European Army Illiteracy.

Examination of recruits for the army and navy for the leading European countries showed the following percentage of illiteracy: Germany, 0.11; France, 4.90; England, 5.50; Austria, 23.80; Hungary, 25.10; Italy, 38.30; Russia, 61.70. The percentage of illiteracy in the United States army was 7.6.

In Lithuania the Production of Honey Has Become an Important National Industry.

In Lithuania, when a bee stings a man he turns the other cheek.

And almost literally, at that, because it is a sin to kill a bee, and no one ever commits that sin intentionally. As a result of their natural fondness for bees, Lithuanians, with the growth of their economic system, have developed bee raising from a general social custom to an important industry. Thousands of barrels of honey are exported from Lithuania annually.

Almost everyone in Lithuania has at least one bee hive. Sometimes they have swarms of thousands. But it is common even in the cities to have a man serve you mules that is made from the honey gathered in his garden hive. Mielus, the national drink of Lithuania, is made from fermented honey.

#### Star-Spangled British Product.

It came recently to the attention of the American chamber of commerce in London that a British firm was using the American flag and words and phrases indicating American origin for the advertising, container and bottle labels of a wholly British preparation. Communication of this fact to the British board of trade saw all traditions of departmental red tape shattered when the board of trade rang up by telephone instead of following the usual formal tortuous channels of communication. After obtaining further particulars the firm concerned was called to account and has agreed to refrain from the objectionable practice in future.—The Nation's Business.

#### Its Condition.

"Why do they allude to a baseball as a sphere?" "I suppose because it is the whirled."

Fanny Crosby Credited With the Composition of More Than 6,000 Popular Religious Lyrics.

Fanny Crosby, the blind writer of more than 6,000 hymns, and an interesting if uneventful career, according to a recent sketch in "Along Broadway," musical magazine. She lost her eyesight when only six years old and 12 years later, at the New York Institute for the Blind, she met and fell in love with the blind musician, Alexander Van Alstyne. They were married and lived happily. Mrs. Van Alstyne afterward becoming a teacher at the Institute.

Many of Fanny Crosby's best known hymns are to be found in the popular Moody and Sankey gospel hymn books. The simple earnestness and true religious spirit of her hymns make them as popular as ever. Some of the best, including "Jesus Is Calling," "Only a Step to Jesus," "Come, Great Deliverer" and others have been sung by great artists and recorded for the phonograph.

#### Grasshopper Bait.

A year ago the grasshopper ate up nearly \$100,000,000 worth of our winter wheat. Science at once set about devising some scheme to control this pest. They mixed a concoction, on an enormous scale, known as "grasshopper bait," making 4,500 tons of it, or enough to fill 183 large railroad cars. To mix this bait they used 500,000 tons, eighty-three tons of white arsenic and other ingredients in similar proportion. The bait was then scattered over a great area in Kansas. The grasshoppers ate it freely, with the expected result. This year there are no grasshoppers in Kansas.—Boys' Life.

Prosperity brings with it an intoxication which inferior natures never resist.—Balzac.

When You  
Can't Sleep  
for Coughing—

YOU CAN GET RID OF the  
annoying, distressing cough  
that results from constant effort  
to clear a "tickling" throat—or even  
the deep, heavy, wrenching cough that  
accompanies a bad cold—you can relieve spas-  
modic croup, whooping cough, la grippe and  
bronchial coughs by taking

**Foley's  
Honey and Tar  
COMPOUND**

Do not accept a substitute. The  
curative influence of pine tar and the  
balm, laxative effect of honey are so well  
known that there are many imitations of  
the genuine Foley's Honey and Tar Com-  
pound on the market, but imitations lack the  
scientific blending and other healing ingredi-  
ents found exclusively in Foley's.

The First Dose Gave Relief  
C. E. Summers, Holdrege, Neb., writes: "Some  
time ago I contracted a very severe cough and cold  
due to exposure. My cough got so bad I could hardly sleep  
for two or three nights. A friend of mine recommended  
Foley's Honey and Tar Compound, and I cut a 10c tablet.  
The very first dose relieved me. I took a second dose  
before going to bed and can truthfully say I did not  
cough once all night. By using as directed the next two  
days my cough was entirely gone, and I give Foley's  
Honey and Tar full credit for my speedy and permanent  
recovery."

Prompt steps should be taken to check  
coughing at night. It not only weakens the  
sufferer, but it is troublesome to other mem-  
bers of the family. Loss of sleep and nervous  
strain quickly wear out the afflicted one, and  
he or she soon is in no condition to ward off  
attacks of more dangerous sickness.

## The Product of Experience

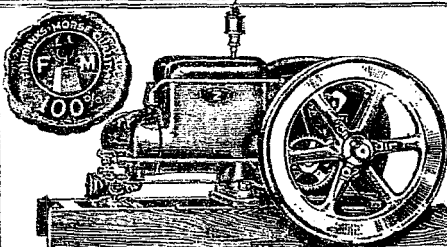

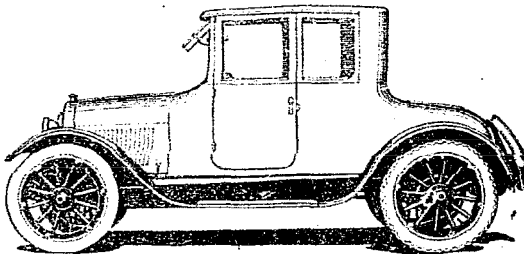

THE charm of the Chevrolet  
"FB 30" Coupe is due to its  
many features.

It is as convenient to handle  
in traffic or on the open road as a  
light open car. Yet it has all  
the protected comfort and refined  
luxury of the high priced lim-  
ousine.

Ample capacity for four pas-  
sengers and luggage, grace of line  
and proportion, completeness of  
equipment, and power that in-  
spires confidence—these insure  
efficiency in the Chevrolet "FB30"

### As Clean Cut as a Thoroughbred

The clean-cut businesslike design of the "Z" Engine  
results from efficiency in manufacture. A farm engine,  
to be efficient, must be properly designed—may also have  
graceful lines—free from geegaws.

Immensely strong in every part—weight where weight is  
needed. Every strain foreseen—every contact part case  
hardened—all parts carefully, precisely made by accurate  
machine work—therefore interchangeable.

Looks like a thoroughbred—is one. Delivers a steady flow  
of power—runs smoothly—operates economically. Unit  
assembly, precision methods, and efficient design make it  
the perfect farm engine. A mighty pleasing engine to  
look at. Come in and see it today.

Other "Z" features are: Runs on kerosene, coal oil, tops,  
as well as gasoline; built in Bosch high tension oscillating  
magneto; more than rated power; every part interchange-  
able; long-lived endurance.

WE MUST HAVE  
YOUR SUPPORT  
IF YOU ARE  
TO HAVE THE  
TELEPHONE

Your entire telephone system is equipped with Mich-  
igan wrought material from your Michigan mines,  
fields, and forests. The copper and steel and iron wire  
and parts, the wood, the poles, the crossarms, are  
Michigan products, while Michigan labor built and  
is maintaining and expanding the system.  
Michigan products, both raw material and finished  
equipment, have increased in cost and continue to in-  
crease, just the same as elsewhere. Labor is paid more in Michigan than in  
most other states.  
Your telephone company employs Michigan people and uses Michigan  
material which you, perhaps, help produce at these advanced prices. Every-  
thing costs us more. Much of our equipment has doubled in price, just as  
have the clothing and food you buy and the rent that you, perhaps, pay.
