

## INTERCHURCH MEETINGS

Schedule Includes Meetings In All Protestant Churches In Chelsea.

A series of Interchurch World Movement meetings will be held in Chelsea during the first three weeks of May, according to an announcement just made, which should attract the attention of the entire community. The schedule of meetings is as follows:

Wednesday evening, May 5, at the Methodist church; Thursday evening, May 13, at St. Paul's church; Tuesday evening, May 18, at the Methodist church; Wednesday evening, May 19, at St. Paul's church; Thursday evening, May 20, at the Congregational church; Friday evening, May 21, at the Baptist church.

There will be a union service on Sunday evening, May 16th, at the Congregational church, and on Sunday evening, May 23, at the Methodist church. It is planned, also, to conduct a community wide visitation under the direction of the churches, concerning which announcement will be made in all the churches next Sunday morning. Let the church-goers rally and help in doing the King's business.

## OLIVE CHAPTER OFFICERS.

Olive Chapter O. E. S. elected officers Wednesday evening as follows: W. M., Mrs. Jane Harris; W. P., Roy Harris; A. M., Mrs. Bertha Freeman; conductress, Mrs. May Luick; secretary, Miss Nellie Maroney; treasurer, Miss Elizabeth Depew; associate conductress, Mrs. Earl Updike.

## ARBOR AND BIRD DAY

Governor's Proclamation Designates Friday, May Seventh As Such.

Governor Albert E. Sleeper has issued a proclamation designating Friday, May 7th, as Arbor and Bird Day, as follows:

"Following a custom established more than a half century ago, the time has again come to call attention to Arbor Day and its proper observance."

"Michigan's once splendid forests have largely disappeared, though we still have many thousands of acres of beautiful forest land. It would seem to be the part of wisdom to replant with trees vast areas which have grown little or nothing since the timber was taken off, but this project will require many years for its accomplishment. In the meantime, our cities and villages can add greatly to their attractiveness by planting shade trees along their streets and squares. Young trees suitable for this purpose may be obtained at small cost from

## TRIO OF OLD BOOKS.

Dog-eared and yellowed with age, but in general good condition, are three old books recently brought to the Tribune office by William Lave- rock. One is a textbook on arithmetic, entitled "The Schoolmasters Assistant," the other two volumes are in narrative form of the adventures of one Roderick Random, a long rambling story of little interest at this time.

The textbook is of interest as compared with present day books on arithmetic. The author is Thomas Dilworth, an English schoolmaster, and the volume was in its twenty-fourth edition, the date of publication being 1792.

The old book is well printed and bound in leather. A noticeable feature is the frequent use of the old style character "s," closely resembling the modern "f," although the modern character "s" appears also. The book was printed and sold by Hugh Gaile, New York.

## JOHNSON-BIRTH.

Miss Helen Johnson of Jackson and Mr. Lloyd Hirth, son of Mr. and Mrs. Simon Hirth of this place, were united in marriage Saturday, April 24, in Detroit, Rev. Dr. Rice officiating.

The groom will graduate from the dental college of the University of Michigan this year, after which he expects to locate in Detroit.

FOR INDIGESTION

### Her Preference.

The man next door had a close-clipped mustache while father's face was smooth. And Mary Ellen looked on the neighbor with something akin to awe. Also a longing came into her heart. And one day she voiced it.

Father was getting ready to shave when Mary Ellen happened to come into the room. She put on a protesting little hand. "Oh, daddy, don't shave," she begged. "I would like to have a whisker daddy."

### URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat fornicates uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is hot you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent urine-water drink.—Adv.

### A Worthwhile Job.

A postcard and an optimist were discussing life from their different viewpoints. "I really believe," said the former, "that I could make a better world myself."

"Sure!" returned the optimist. "That's what we're here for. Now, let us get to work and do it."—Boston Transcript.

## DOESN'T NEED ANY LAXATIVES NOW

Mr. Becker says life is a joy, without constipation or stomach trouble.

"I had catarrh of the stomach and head for three years. My stomach was so bad that every time I ate anything sweet, such as fruit or pastry, the burning hot water would run out of my mouth. I took a laxative every night.

"Since taking Milk's Emulsion my bowels move regularly. I have now taken ten bottles and have gained 100 pounds. All my friends remark how fine I am looking, and it seems a pleasure to live again, without stomach trouble."—Bert Becker, Miami, Ohio.

Physicians usually make slaves out of their users, and weaken the bowels instead of correcting them. Stomach trouble in many cases is directly due to constipation.

Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in restoring and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only soft emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles home with you, use it according to directions, and if not satisfied with the results your money will be promptly refunded. Price six and \$1.50 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by drug stores everywhere.—Adv.

### The Mysterious Fascination.

"I don't approve of some of these popular songs," remarked the severe person.

"You don't have to pay any attention to those you disapprove." "Oh, yes, I do. That's the worst of it. They are the very ones that keep running through my head."

### LIFT OFF CORNS!

Drop Freezone on a touchy corn, then lift that corn off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn. Instantly that corn stops hurting, then you lift it right out. Yes, magic! No humming!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.—Adv.

### Spilling the Beans.

"Now that you have your divorce, I suppose you have no further use for Reno?"

"On the contrary," said the beautiful actress. "I love Reno and propose to make my permanent home here."

And then her mother had to hawl down the sentence: "Dearie, when does the next train leave?"—Louisville Courier-Journal.

## DEWS OF EVE

No More Gentle Than "Cascarets" for the Liver, Bowels

It is just as needless as it is dangerous to take violent or nasty cathartics. Nature provides no shock absorbers for your liver and bowels against calomel, harsh pills, sickening oil and salts. Cascarets give quick relief without injury from constipation, biliousness, indigestion, gases and sick headache. Cascarets work while you sleep, removing the toxins, poisons and sour, indigestible waste without griping or inconvenience. Cascarets regulate by strengthening the bowel muscles. They cost so little too.—Adv.

### The Real Term.

"I wrote up those athletic achievements from some magazine footnotes."

To Have a Clear Sweet Skin. Touch pimples, redness, roughness or itching, if any, with Cuticura Ointment, then bathe with Cuticura Soap and hot water. Rinse, dry gently and dust on a little Cuticura Talcum to leave a fascinating fragrance on skin. Everywhere 25c each.—Adv.

The wise man may be likened to a cat that louches but never changes.

## Graduates Don Filmy Frocks

### For the Younger Girls

A L. the fair procession of youth, lending off with young girls who go to make their first communion, followed by innumerable graduates and finishing with brides in stately wedding garments, go clad in filmy frocks. In graduation frocks, organdies, volles and nets respond to the vogue for airy fabrics and wherever schools do not prescribe the fashion of the costume to be worn, these materials are sure to be represented—to the exclusion of heavier ones—on the sweet girl graduates. Mothers and daughters may consider the merits of these and make a choice, with the certain knowledge that they can not do better so far as material is concerned.

Organdy is easy to work with and very practical. At the same time nothing is daintier or gives better service than this old-time favorite; so that a pretty graduation frock made of it will continue to be useful after its first triumph, when the great day is in the past. It makes a less formal dress than net or georgette and is equally dainty, being in the same class with voile in this respect. Its crispness is an item to be reckoned with. In this respect it differs from other materials and makes possible certain trimming effects that cannot be copied in other cotton goods, as the upstanding plaited frills in the frock pictured will show.

The dress shown above has a straight skirt with a three-inch hem finished at the top with a frill made of the organdy laid in fine side plait. Above this there is a group of one tucks headed with a narrow band of insertion and a frill, and bands of tucks with lace and frills above them extend about the skirt until the hip line is reached. Then there is a wide belt and eon jacket with a collar to correspond. Organdies already tucked and befrilled sell by the yard in the stores, so that the work of making a frock is reduced by more than half. A narrow ribbon sash is tied on over the belt and may add a little touch of color to the otherwise all-white costume.

THERE seems quite a long story about hats for little girls this season, but fully half of it concerns itself only with such aristocratic and simple styles as are grouped together here. Plain hats of straw braid—with mitans in the band—having flashes of good ribbons; these are the choice of people who are discriminating judges of good style in dress for small girls and others up to sixteen years. Although all these hats may be described with the same words, there is a surprising variety in them. It lies in their lines mostly, with color and quality varying each shape several times.

At the top of the group a square crowned hat, with medium wide, drooping brim is found to be becoming to many types of faces and proves a comfortable hat and durable. These substantial straws are soft and not heavy. This model has a band of ribbon folded over at the front under a small flat silk ornament and a box and cash ends at the back. The shape at the right has a brim that droops less and a flash of wider ribbon. The hat at the left reverses the brim lines in the others and displays a rather wide band, rolling up all around, about a round crown. It is the always beautiful Breton sailor and is usually fastened to the face—a great favorite with flappers. For them the hat at the bottom, with crown slightly belled, is a good choice also.

Besides these plain models there are many hats in which ribbon and braid are combined in making the shape. These are mostly made of braid or

lady, being in the same class with voile in this respect. Its crispness is an item to be reckoned with. In this respect it differs from other materials and makes possible certain trimming effects that cannot be copied in other cotton goods, as the upstanding plaited frills in the frock pictured will show.

inch and a half wide, sewed row on row and of ribbon about two inches wide, of the same color as the braid. The ribbon is used in many ways. Sometimes it makes a top crown, woven in checkerboard pattern, sometimes it forms a brim by means of a series of loops placed side by side, over a wire support or is knitted plaited and laid over a brim of georgette or straw braid.

When flowers are used on children's hats very small blossoms are chosen of garden or field flowers. They are used in small wreaths or tiny clusters. Narrow ribbons also play a pleasing part in the trimmings of little girls' hats. With midsummer we may expect to see little hats of organdy, very frilly and dainty, and there is no question as to leghorns—they have already made their entry.

### Care of Buttons.

When ironing a blouse or other garment with buttons on you can iron the hem under the buttons if you fold a Turkish towel and lay the garment on this with the buttons against the towel. The buttons will sink into the soft fabric and you can easily iron over the backs and get the hem perfectly smooth. This is better than running the iron between the buttons and taking a chance on forcing them off.

## COOKIES and SMALL CAKES

From the NEW ROYAL COOK BOOK

WHEN the children romp in hungry as young bears, here are some wholesome, economical delights that will not only be received with glee, but will satisfy the most ravenous appetite in a most wholesome manner.

### Cookies

1 cup shortening  
1 cup sugar  
1/2 cup milk  
2 eggs  
1 teaspoon grated nutmeg  
1 teaspoon vanilla extract or  
grated rind of 1 lemon  
4 cups flour  
3 teaspoons Royal Baking Powder

Cream shortening and sugar together; add milk to beaten eggs and beat again; add slowly to creamed shortening and sugar; add nutmeg and flavoring; add 3 cups flour sifted with baking powder; add enough more flour to make stiff dough. Roll out very thin on floured board; cut with cookie cutter; sprinkle with sugar, or put a raisin or a piece of citron whole in the center of each. Bake about 12 minutes in hot oven.

### Cocoa Drop Cakes

4 tablespoons shortening  
1 cup sugar  
1 egg  
1/2 cup milk  
1/2 cup flour  
3 teaspoons Royal Baking Powder  
1/2 cup cocoa  
1 teaspoon salt  
1 teaspoon vanilla extract

Cream shortening; add sugar slowly; beating well; add milk a little at a time; then add well-beaten egg; sift flour, baking powder and salt together and add to mixture; add flavoring and grated orange rind; mix well. Bake in greased shallow tin, or individual cake tins, in hot oven 15 to 20 minutes. When cool cover with orange icing.

### NEEDED TO TALK OUT LOUD COUNTRY OF BEE KEEPERS MOST PROLIFIC HYMN WRITER

Doughboy Might Have Had Right Idea, but Surely He Had Never Driven Mules.

Returning soldiers tell a good story of a mule driver in France. He was driving a four-wheeled team hitched to a ration wagon and, as he told the story, he lost his way in the night and mist and drove right through the American trench line, which was not continuous at that point, and started rumbling along an old road which led across No Man's Land. He had gone a few rods when a doughboy jumped out of a listening post and began to signal to him with both hands.

"What's the matter?" shouted the driver.

"Hush!" said the doughboy in a low and agonized whisper. "You're heading straight toward the German lines. For God's sake turn around and don't speak above a whisper."

"Whisper, h—!" boomed the driver. "I've got to turn four miles around."

### Further Information Desired.

"Thomas Carlyle once said," remarked Professor Fate, "that the most marked upon our foreheads, written on our door-posts, channeled in the earth and wafted upon the waves is and must be, 'Labor is honorable and idleness dishonorable.'"

"Well, what is the rest of it?" snapped off Festus Poster. "Didn't he add—'for the other fellow'—or something of the kind?"—Kansas City Star.

### European Army Illiteracy.

Examination of recruits for the army and navy for the leading European countries showed the following percentage of illiteracy: Germany, 0.11; France, 4.90; England, 5.90; Austria, 23.50; Hungary, 28.10; Italy, 38.20; Russia, 61.70. The percentage of illiteracy in the United States army was 7.0.

In Lithuania the Production of Honey Has Become an Important National Industry.

In Lithuania, when a bee stings a man he turns the other cheek.

And almost literally, at that, because it is a sin to kill a bee, and no one ever commits that sin intentionally. As a result of their natural fondness for bees, Lithuanians, with the growth of their economic system, have developed bee raising from a general social custom to an important industry. Thousands of barrels of honey are exported from Lithuania annually.

Almost everyone in Lithuania has at least one bee hive. Sometimes they have swarms of thousands. But it is common even in the cities to have a man serve you mules that is made from the honey gathered in his garden hive. Midus, the national drink of Lithuania, is made from fermented honey.

### Star-Spangled British Product.

It came recently to the attention of the American chamber of commerce in London that a British firm was using the American flag and words and phrases indicating American origin for the advertising, container and bottle labels of a wholly British preparation. Communication of this fact to the British board of trade saw all traditions of departmental red tape shattered when the board of trade rang up by telephone instead of following the usual formal tortuous channels of communication. After obtaining further particulars the firm concerned was called to account and has agreed to refrain from the objectionable practice in future.—The Nation's Business.

### Its Condition.

"Why do they allude to a baseball as 'a sphere'?" "I suppose because it is the whirled."

Fanny Crosby Credited With the Composition of More Than 6,000 Popular Religious Lyrics.

Fanny Crosby, the blind writer of more than 6,000 hymns, and an interesting if uneventful career, according to a recent sketch in "Along Broadway," musical magazine. She lost her eyesight when only six years old and 12 years later, at the New York Institute for the Blind, she met and fell in love with the blind musician, Alexander Van Alstyne. They were married and lived happily. Mrs. Van Alstyne afterward becoming a teacher at the institute.

Many of Fanny Crosby's best known hymns are to be found in the popular Moody and Sankey gospel hymn books. The simple earnestness and true religious spirit of her hymns make them as popular as ever. Some of the best, including "Jesus is Calling," "Only a Step to Jesus," "Come, Great Deliverer," and others have been sung by great artists and recorded for the phonograph.

### Grasshopper Bait.

A year ago the grasshopper ate up nearly \$100,000,000 worth of our winter wheat. Science at once set about devising some scheme to control this pest. They mixed a concoction, on an enormous scale, known as "grasshopper bait," making 4,565 tons of it, or enough to fill 181 large railroad cars. To mix this bait they used 500,000 tons, eighty-three tons of white arsenic and other ingredients in similar proportion. The bait was then scattered over a great area in Kansas. The grasshoppers ate it freely, with the expected result. This year there are no grasshoppers in Kansas.—Boys' Life.

Prosperity brings with it an intoxication which inferior natures never resist.—Balzac.

How Diphtheria is Contracted.

One often hears the expression,  
 "My child caught a severe cold which  
 developed into diphtheria," when the  
 fact is that the cold had simply left  
 the little one particularly susceptible  
 to the wandering diphtheria germ. If  
 your child has a cold when diphtheria  
 is prevalent you should take him out  
 of school and keep him off the street  
 until fully recovered, as there is a  
 hundred times more danger of his  
 taking diphtheria when he has a cold.  
 When Chamberlain's Cough Remedy  
 is given it quickly cures the cold and  
 lessens the danger of diphtheria or  
 any other germ disease being con-  
 tracted.

## HERMAN J. DANCER

## How much should I give to make this a better world?

A CERTAIN man in New York filled out his  
 income tax report.

It showed an income so large that his tax was  
 53%. And his total gifts to church and char-  
 ity for the year were \$148.

Think of it—thousands spent for luxuries and  
 pleasure for himself; and \$148 to leave the world  
 a little better than he found it!

Most of us do better than that; but not so very  
 much better.

Our average daily gift for all church causes is

—less than we spend for daily papers

—less than a local telephone call

—less than a third of the day's car fare

—less than 3 cents a day

No wonder that 80% of the ministers of America  
 are paid less than \$20 a week. No wonder that  
 the church hospitals turn away thousands of sick  
 people a year. No wonder that China has only  
 one doctor for every 400,000 people. No wonder  
 that every church board and charity society is  
 forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we  
 don't want to help. It's just because no one has ever put  
 up a great big program to us, and asked us to think of the  
 work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united  
 program of thirty denominations. They have surveyed  
 their whole task, no business could have done it better.

They have budgeted their needs; no business could have  
 a more scientific budget. They have united to prevent the  
 possibility of waste and duplication. At least a million dol-  
 lars will be saved by the fact that thirty individual cam-  
 paigns are joined in one united effort.

And they come to the men or women who love America  
 —to you—this week asking you to use them as the chan-  
 nel through which a certain definite part of your income  
 can be applied to make this a better world.

Only you can determine what part of your income that  
 should be.

It's a good time right now to answer that question.  
 We're passing through the world just once; how much  
 better will the world be because you passed through?
