

## ROAD BUILDING PLANS MAY BE HELD UP

State's Inability To Dispose of Road Bonds At Rate of Five Per Cent Interest Is The Reason.

Inability to sell Michigan bonds bearing 5 per cent interest, the maximum allowed under Michigan law, may force the state to abandon a good portion of its road building program for 1920, is reported from Lansing.

The highway improvement loan board met Tuesday morning to consider what will be done in the future. Highway Commissioner Frank E. Rogers, who has asked that the meeting be called, will present to the board, a financial statement showing the exact condition of road funds of the state.

Mr. Rogers stated Monday morning "it looks like we are about at the end of our rope. It is a question of inability to sell bonds. Under the law we cannot pay more than 5 per cent interest. This cannot be changed unless the legislature meets and raises the rate. But until they do it looks like we are about at the end of our rope."

It is hoped by Mr. Rogers that the state will be able to complete the contracts which have been let. This will probably be done. One suggestion which was laid before the board, was that the board by resolution authorize abandonment of the 1920 program, with the exception of work contracted for and possibly the closing of some of the more important gaps in the trunk line system.

## FARM WIFE ANSWERS FREE PRESS EDITORIAL

Mrs. R. B. Waltrous Resents Field Work Suggestion in Letter Published Friday.

The Tribune recently published an article regarding an editorial in the Detroit Free Press, which suggested that farm women might help in the fields, and so drew the matter to the attention of Mrs. R. B. Waltrous of Sylvan township, who wrote to the Free Press. Her letter was published in the issue of Friday, May 7th, as follows:

To the Editor: The editorial regarding farm women, which appeared in your paper some time ago, has just been brought to my attention. It certainly is a slam on farm women. These whom you think might help in the fields are already overworked.

They get up at 4:30 or 5 o'clock, get breakfast and we do not have any of most of us these days with the scarcity of help have to bring in our own wood and are lucky if our husbands have time to split it so we do not have to do that, and it is something more than a dish of prepared breakfast food and coffee, but the beds in airing, wash the separator and the milk pails, and I will say right here that it is more than the equivalent of the dishes of some of our city sisters do in a week and this has to be done every day, then the dishes, then the beds, straighten the house, dust, prepare dinner and in the afternoon mend and do the family sewing and perhaps the better clothes too, then supper at 6 o'clock.

In the summer when our city editor would like us to go into the fields, there is the garden to tend, fruit to pick and can, or sell, chickens to raise and any time a year there is butter to make, which few of you know the labor connected with. Some of course have a gasoline engine to do the washing and churning, but the great majority have to do it by hand and most of the ladies do their own work. The average farm family in this vicinity is six; but I suppose we might have a few hours after 7 o'clock at night, if it were moonlight, to go into the fields and work, while our city editor and city sisters were at the theater or parks enjoying themselves.

## IN WORDS THAT APPEARED

Poetically Expressed Offer of Needed  
Assistance Touched Elderly Spin-  
ster's Romantic Heart.

After the "personally conducted"  
tour abroad a band of English travel-  
ers were crossing the channel home.  
It was very rough, and the mood of  
the ladies retired to the cabin. Only one  
—an elderly little spinster—stayed on  
deck.

As the vessel pitched and tossed,  
and heavy showers of spray drenched  
everything, a fellow tourist came to  
her.

"Excuse me, Miss Black, but I  
thought perhaps you feel the need of  
a strong arm to lean on—something to  
support you, you know?"

"Oh, Mr. Black!" sighed the lady,  
as she looked toward him and handed  
her hand on his shoulder. "How  
expected and romantically you have ex-  
pressed it!"

She Came Through Clean.

Mrs. Black—And your daughter,  
Mrs. Black—the one that was going  
in for nursing—how is she? Well, I  
hope?

Mrs. Black—Splendid, thank you,  
sir. Last we heard from her she was  
going up for her final examinations.

Honest, now, doesn't it tickle you  
to have other men try your hat  
and find it too large for them?

Washington.—The rivers and har-  
bors bill passed the senate after it had  
been amended so as to make the total  
\$24,000,000 as against the \$12,000,000  
in the house bill and \$20,000,000 re-  
commended by the senate commerce  
committee. A second effort to increase  
the bill's total was successful, the  
enate adopting 34 to 22, an amend-

## If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why  
it is that so many products that are  
intensively advertised, all at once drop out  
of sight and are soon forgotten? The  
reason is plain—the article did not fulfill  
the promise of the manufacturer. This  
applies more particularly to a medicine.  
A medicinal preparation that has real  
curative value almost sells itself. Like  
an endless chain system the remedy is  
recommended by those who have been  
benefitted, to those who are in need of it.  
A prominent druggist says "Take for  
example, Dr. Kilmer's Swamp-Root, a  
preparation I have sold for many years  
and never hesitate to recommend, for in  
almost every case it shows excellent re-  
sults, as many of my customers testify.  
No other kidney remedy has so large a  
sale."

According to sworn statements and  
verified testimony of thousands who have  
used the preparation, the success of Dr.  
Kilmer's Swamp-Root is due to the fact,  
so many people claim, that it fulfills al-  
most every wish in overcoming kidney,  
liver and bladder ailments; corrects ur-  
inary troubles and neutralizes the uric  
acid which causes rheumatism.  
You may receive a sample bottle of  
Swamp-Root by parcels Post. Address  
Dr. Kilmer & Co., Binghamton, N. Y.,  
and enclose ten cents; also mention this  
paper. Large and medium size bottles  
for sale at all drug stores.—Adv.

Keeping Up With H. C. L.  
Bert asked his grandpa for a job and  
was told he could throw down hay for  
the horses. For this chore he had al-  
ways received a nickel, but as the  
candy bar he was in the habit of buy-  
ing had advanced in price, he coolly  
informed his grandpa that he would  
have to have a raise in wages.  
"How much?" asked grandpa.  
"Anus," replied the little inheritor,  
"enough to keep up with the high cost  
of candy."

## COUGHED FOR 2 YEARS ORDERED TO DENVER

Doctor said she couldn't get well in  
Illinois, but she did.

"I had a very bad cough for two years,  
all the time, day and night. Could sleep  
but little. Finally my doctor said he  
could do nothing for me, that I had bet-  
ter go to Denver, as couldn't live in  
Illinois. Then I tried Milla's Emulsion.  
From the very first it helped me. By  
the time I had taken 12 bottles my cough  
left me entirely. I have gained in strength  
and flesh and am now in perfect health."  
—Mrs. Alice M. Huntley, 182 No. Pearl  
St., Galesburg, Ill.

Build up your system and give it a  
chance to fight off disease. Milla's Emul-  
sion costs nothing to try and it has done  
the work for thousands of others.

Milla's Emulsion is a pleasant, nutri-  
tious food and a corrective medicine. It  
restores healthy vitality and action,  
doing away with all need of pills and  
physics. It promotes appetite and quickly  
puts the digestive organs in shape to as-  
similate food. As a builder of flesh and  
strength Milla's Emulsion is strongly re-  
commended to those whose sickness has  
weakened it and is a powerful aid in re-  
sisting and repairing the effects of wast-  
ing diseases. Chronic stomach trouble,  
and constipation are promptly relieved—  
usually in one day.

This is the only solid emulsion made,  
and so palatable that it is eaten with a  
spoon like ice cream. Truly wonderful  
for weak, sickly children.

No matter how severe your case, you  
are urged to try Milla's Emulsion under  
this guarantee—Take six bottles home  
with you, use it according to directions,  
and if not satisfied with the results your  
money will be promptly refunded. Price  
50c and \$1.00 per bottle. The Milla Emul-  
sion Co., Terre Haute, Ind. Sold by drug-  
gists everywhere.—Adv.

It sends its harmful acids and gases all  
over the body, instead of health and  
strength. Day and night this ceaseless dam-  
age goes on. No matter how strong, its  
victim cannot long withstand the health-  
destroying effects of an acid stomach.

Good news for millions of sufferers.  
Chemists have found a "sure remedy"—one  
that takes the acid up and carries it out  
of the body; of course, when the cause is  
removed, the sufferer gets well.

Bloating, indigestion, sour, acid, gassy  
stomach miseries all removed. This is  
proven by over half a million ailing fol-  
lowers who have taken EATONIC with won-  
derful benefits. It can be obtained from any  
druggist, who will cheerfully refund its  
trifling cost if not entirely satisfactory.  
Everyone should enjoy its benefits. Pre-  
sently the first tablet gives relief.
