Just What She Needed.

"I used a bottle of Chamberlain's Tablets some time ago and they proved to be just what I needed," writes Mrs. Valta Bankson, Chillicothe, Mo. They not only relieved me of indigestion but toned up my liver and rid me of backache and dizziness that I had been subject to for some time. They did me a world of good and I will always speak a good word for them."

George Staffan reports that his committee has already secured a big line of concessions for the day and likewise every other department points to a better and larger celebration than was held here last year.

BEUERLE FAMILY REUNION.

The members of the Beuerle family held their annual reunion Sunday, September 12th, at the home of Mr. and Mrs. William Beuerle of Rogers Corners. The man was so weak that he could say nothing and all of the identification on him was in a foreign language and illegible. He was taken to Howell where a doctor said he had pneumonia, then he was rushed to a hospital in Ann Arbor. No one knows where he came from or anything about him, and nothing has been learned about him yet—Argus.

SALINE—A very interesting relic of business necessity of an earlier day is being exhibited at the Citizens bank. It is a bronze balance for detecting spurious light weight gold coins and was really an essential part of the big business man's equipment before the present elaborate and convenient system of checks and sound paper money was perfected. In those days it was not an uncommon to find gold coins that had had the edges shaved off just a little or had been drilled and the gold shavings replaced with lead or glass and this balance quickly detected any such tampering. The scale is the property of W. D. Mead and was used by his father when in business in New Orleans—Observer.

STOCK JUDGING CONTEST.

A live stock judging contest to be carried on under supervision of Prof. Walpole of the Ypsilanti high school at the Washtenaw county fair, will afford an opportunity for boys and girls to distinguish the desirable from the undesirable points in an animal, and, having once learned how to select the best they will never be satisfied to own anything else. Realizing this fact the Washtenaw County Farm Bureau, County Breeders' association, bankers and others who have been carrying out a program for the promotion of the livestock club project and in line with this program are putting on the judging contest at the fair. Prizes will be given as follows: 1st, \$40 for a trip to the International Live Stock Exposition; 2nd, \$35 towards defraying expenses of the same trip; third and fourth, ribbons.

BOMB EXPLOSION IN WALL STREET

MORE THAN 30 KILLED AND OVER 200 INJURED BY BLAST IN FINANCIAL DISTRICT.

\$1,000,000 PROPERTY DAMAGE

Police Believes Clue Is Unearthed With Discovery of Shortage of Stock Explosive.

New York.—A mysterious explosion in Wall Street, near Bond, believed by trained department of justice and police investigators to have been caused by an infernal machine, rocked the heart of New York's financial district, leaving death and destruction in its wake.

At least 32 persons were killed, more than 200 were injured, the banking house of J. P. Morgan & company, the substructure and the assay office were partially wrecked and property damage estimated in excess of \$1,000,000 was caused by the blast.

New York.—A clue to the source of the explosive which rocked New York's financial district was unearthed by the fire department after a three day search of all establishments carrying explosives as a stock in trade.

The location and name of the establishment was not made public. A fire department official made the simple announcement that "a suspicious shortage of explosives had been found and that there was no explanation of where it went."

It was further stated that all the facts had been put in possession of department of justice and police officials.

EXTENSION GRANTED NEWBERRY

Has Until October 18 to File Record in Appeal.

Washington.—A second extension of time, to Oct. 18, for filing the record in the appeal of Truman H. Newberry and co-defendants from the verdict of the Federal District Court of Eastern Michigan has been granted by the Supreme Court.

Only the record is required to be filed on the date set. The briefs of the appellants and the government will not be filed until later. It is considered doubtful if the case will be argued at the coming winter term.

Since Mr. Newberry has indicated his intention not to try to resume his seat in the Senate pending final decision of the case, Michigan seems likely to be without its allotted representation during the entire short session of Congress, convening in December.

The appeal for additional time for preparation of the case was made by Charles E. Hughes, who has obtained Martin W. Littleton as chief counsel for the defendant.

SEN. JOHNSON TO "STUMP" EAST

Hiram, Plans On Coming to Indiana On Speaking Tour.

Chicago.—Senator Hiram Johnson expects to come east and speak in the campaign and may include Indiana in his itinerary, especially the great industrial district about Gary, where the iron and steel mills are located.

Senator Johnson has written a letter to C. G. Kingwill of Hammond, in which he says:

"My plans are still vague, but I am hoping to come to Indiana in behalf of the Republican ticket. If I do come into your state, I shall be more than delighted to come into Lake county. I want to explain to your people there my appreciation of their very great kindness to me in the presidential primary."

OUSTED SOCIALISTS REELECTED

Five Assemblymen Who Were Denied Seats Defeat Fusion Candidates

New York.—The five socialist assemblymen who were expelled from the state legislature last spring on charges of disloyalty, were re-elected at special elections held here.

The vote in the five districts where the ousted assemblymen ran was light compared with that when they were chosen at the general election last November. In the eighth district New York county, Louis Waldman, Socialist, was elected over Morris B. Reiss, the Fusion candidate, by a vote of 3,068 to 2,222.

Samuel A. Dawitt defeated the Fusion candidate, Milton Altshuler, in the third Bronx district, 3,805 to 2,310.

Japs Control "Isle of Thieves."

San Francisco.—The passing of Magellan's "Isle of the Thieves," the Ladrone, from German to Japanese control, marks the third time within a generation that the inhabitants have been subjected to a change in official language. The Germans in 1899 made German the official language. Now, as a result of the war, German control of the Marianne Islands, with the Marshall and Caroline groups, went to Japan and Japanese is the official language.

DESCHANEL RESIGNS AS PRESIDENT OF FRANCE

M. PAUL DESCHANEL

Paris.—Paul Deschanel, president of France, has presented Premier Millerand with a letter of resignation, and his presidential message which accompanied it has been read to the Senate and the Chamber of Deputies.

The resignation of M. Deschanel comes at the end of almost 45 years of active political life during which he rose from a cabinet officer's secretary and finally to the post of chief citizen of France to which office he was elected January 7, last.

In the early morning of May 27, just five months after his election, M. Deschanel fell from a moving train while en route from Paris to Montbrison to dedicate a monument. His fall to the ground was believed to be the reason for his resignation.

STATE CLAIMS BORDER ERROR

Boundary Commission May File Suit Against Wisconsin.

Lansing.—Members of the Michigan Boundary Commission, created by the last Legislature, were in Lansing to arrange with Alex J. Groesbeck, attorney-general, for filing a suit in the United States Supreme Court to compel Wisconsin to relinquish 490 square miles of land which the commission says their investigations have proved belong to Michigan.

One Capt. Cram, in 1841, made a mistake in a survey, the commission declares, with the result that Wisconsin for three-quarters of a century has been administering the law and collecting the taxes on lands which rightfully belong to this state. The territory in controversy includes Hurley, Wis., once famous for having the most saloons per capita of population of any village in the country. It also includes several islands in the Menominee River, on one of which stands a statue of Isaac Stephenson, former United States senator from Wisconsin.

AVIATOR HURT BY PROPELLOR

McLoughlin, Who Appeared At Recent Michigan Fair, Injured in N. Y.

Syracuse.—Five hundred feet in the air, in view of 80,000 visitors at the State Fair, "Tex" McLoughlin, aviator, was badly injured, when struck by the propeller of the higher airplane to which he had transferred himself in mid-air.

He clung to the rope ladder of the machine until it reached the ground, blood dripping over the spectators as the machine circled in descending, partially out of control. McLoughlin was still conscious when reached, though he had been dragged more than 100 feet on the ground. He is in the Crouse-Hospital and will recover.

McLoughlin was one of the stunt aviators appearing at the Michigan State Fair, at Detroit, held recently.

U. S. CHARGES PRISON CRUELTY

Federal Prisoners in Maryland State Penitentiary Ordered Removed

Washington.—All federal prisoners in the Maryland state penitentiary will have to be moved to another institution as a result of an investigation of charges of brutality practiced there, it was announced at the department of justice. Assistant Attorney General Adams has approved the report of federal inspectors recommending the removal of the prisoners, it was stated, but none of the details of the conditions found to exist in the penitentiary were made public.

669 Ships Added During 1920.

Washington.—Shipping under American registration increased by 669 vessels and 3,416,713 gross tons during the fiscal year of 1920, the Department of Commerce announced. On June 30 registered shipping consisted of 28,182 vessels, totaling 16,324,013 gross tons, as against 27,513 vessels of 12,907,300 gross tons on June 30, 1919. Of the year's increase nearly 90 per cent consisted of seagoing ships of 1,000 gross tons or over owned by the Shipping Board.

Thieves Gain Entrance By Trick.

Columbus, O.—After gaining entrance to the residence of John J. Joyce, politician and real estate dealer, two men stole \$15,400 worth of jewelry and cash from Mrs. Sarah L. Roberts, a sister-in-law of Mr. Joyce. She admitted the men when they said Mr. Joyce sent them for "some papers."

Church Has Baptism of Fire.

Los Angeles.—To make the baptism of church members more "comfortable" the pastor of the Broadway Christian Church had the water for the baptism heated. As his first subject was about to be lowered the pipes blew up. Instead of the ceremony the congregation had to watch the fire department at work.

Hydro-Plane Lost in Alps.

Geneva.—A large hydro-airplane, which was last seen over the Alps near St. Gothard, is being searched for. The machine is believed to have fallen into an abyss. It was on its way from Italy to Finland, piloted by an Italian aviator and with a Finnish officer and a passenger, having been bought for the Finnish army.

Would Starve, Rather Than Beg.

Los Angeles.—"I'd rather starve to death than beg. I've not eaten a meal in 12 days, but I'd go along until the end before I'd beg from anybody." That is what 80-year-old Patrick Dempsey told the Santa Monica police. He was found under the shelter of the Palisades, where he had built a fire by which he was heated.

Mexico Orders 37 New Ships.

Ottawa.—The new government of Princes Rupert Drydock Co. to build Mexico has placed an order with 37 ships, mostly oil tankers. The contracts have been handed to the minister of marine for indorsement, the company applying for the government guaranty as provided in the shipping legislation passed at the last session of Parliament.

Teamsters Would Debate Issue.

New York.—The strike committee of Van Teamsters' Union, Local 273, has challenged the Van Owners' Association to debate the issues of the teamsters' strike, in Madison Square Garden. The teamsters suggested that two-thirds of the Garden be allotted equally to friends of the contending parties and the remaining third thrown open to the public.

Circus Elephant On Rampage.

Salina, Kas.—It required three rounds from five army rifles to kill Snyder, a trained elephant belonging to a circus showing here. The animal had gone mad just as the circus was about to open and hundreds of persons massed about the animal tent. Before being killed the elephant upset many cages containing other animals and threw one cage with four lions inside 30 feet.

Petain, Defender of Verdun, Weds.

Paris.—Marshal Henri Philippe Petain, commander in chief of French armies during the latter years of the great war and whose work at Verdun made him a national figure, was married to Madame Haddon. The marriage is a realization of a lifelong dream of the marshal, who knew the bride when she was a very young girl. He always cherished a tender memory of her and hoped that, some day, circumstances would enable him to marry her.

Bolshevik Gold Turned Down.

London.—The board of directors of the Daily Herald will not accept the Russian soviet government's offer of 75,000 pounds. The directors deny that the money had been offered. The Daily Herald, the radical laborite organ, recently frankly asked its readers whether it should accept 75,000 pounds from Russian sympathizers. Without the support of this money, it added, it would be compelled to double its price. Mr. Mayne, who made the offer, resigned from the board.

THAT SMALL BROTHER AGAIN

This Time It Really Seems That He Has Cooked Sister Evelyn's Goose for Good.

Some things do fall out awkwardly, don't they?

One evening the fair Evelyn was expecting her latest admirer to call and her mother hadn't come back from shopping. So, while Evelyn slipped upstairs to don her best blouse and some powder on her nose, the young brother was left on guard.

The expected visitor arrived, and was ushered into the parlor by William Edward, who promptly began to ask questions, as small boys always do.

"Mr. Showcombe," he said, "what's a popinjay?"

"A popinjay, my boy," repeated the young man, thinking hard. "Why—er—it's a rare bird."

"Are you a bird, Mr. Showcombe?"

"Of course not! Ha, ha!" squirmed his victim.

"Well, that's funny!" mused William Edward. "Last night, after you'd gone, ma said you were a jay, and father said there was no doubt about that but there didn't seem much popin' the question about you. And now you say you're not a bird at all!"

THE KIND.

"I understand the candidate you speak of is a climber in politics."

"Yes; a front-porch climber."

Small Boy Satisfied That the Bill for His Three Days Fun Was Not Exorbitant.

At last little Freddy was allowed to visit grandpa all alone. They were great friends, and had long waited for the great day.

Freddy had the time of his life. Grandpa saw that he wanted for nothing. The small boy ate more cream buns in those three days than he would otherwise have done in three years, while his pockets bulged all the time with candies.

But there comes an end to everything, and Freddy went home again, pale yellow of complexion, and languid and feverish. Mother promptly sent for the doctor, who ordered him to bed, and sent him some very unpleasant, but doubtless healing medicine.

Grandpa came next day and was permitted to creep upstairs to see how the sufferer was faring. He found the small boy lying wan and pale on his pillow, but received a watery smile as a welcome.

"Oh, grandpa," said the weak little voice, "I've been awfully bad—but it was worth it."

Giving Him Every Opportunity.

"We're going to move to Ohio."

"What's the idea?"

"Want to give my young son a chance to become president some day."
