

BARN IS BURNED AGAIN

Second Mysterious Fire Within Four Years Causes Heavy Loss For John Liebeck and Family.

Fire which broke out about ten o'clock Tuesday evening destroyed the barn on the Jacob Miller farm, about two miles south of town.

The contents of the building, including 60 tons of hay, 800 bushels of oats, wheat and barley, a quantity of fertilizer, a nearly new wagon and smaller tools, were destroyed also.

The building was insured for \$2,500 and the contents for \$1,000, which will not nearly cover the loss.

The barn was practically new, having been built to replace one burned on Monday, October 2, 1916.

MAKING WAR ON DISEASE MENACE

American Red Cross Announces Budget of \$48,200,000 For Current Year.

NEW DISASTER RELIEF PLAN

Continuance of Heavy Work Abroad Deemed Necessary to Protect United States—\$21,000,000 Less Than Last Year.

A program of relief and service to ward which appropriations of \$48,200,000 have been made has been outlined for the American Red Cross for the fiscal year, July 1, 1923, to July 1, 1924, according to official announcement by national headquarters of the organization at Washington. The figures for 1923 are \$21,000,000 below those of 1922, in which \$69,400,000 was spent.

Important among the items of the budget for the present year is the appropriation of \$31,500,000 for relief in foreign lands, which includes \$11,000,000 in purchased supplies on hand and not distributed.

Must Protect United States.

This will enable the American Red Cross to continue its humanitarian effort to aid stricken peoples to re-establish themselves, to fight the disease epidemics which threaten many countries and to clear largely the remaining traces of the blight left by the World War. It is regarded as so vital as well as physical sanitation on a large scale that will have a direct bearing on future conditions in America.

Central Europe, the chief sufferer from the conflict, today is facing another winter of famine, pestilence and war. Typhus decreased much during the summer months when last winter it had its greatest stronghold, but physicians who investigated the situation at the behest of the League of Red Cross Societies have given their unqualified opinion that this coming winter will see a recurrence on an unprecedented scale. The Red Cross feels it must continue preventive measures abroad to keep this and other deadly maladies from the United States.

Millions for Work at Home.

When the disease was sweeping Central Europe last winter the American Red Cross, with the aid of the governments of affected nations, undertook the fight against it. Hospitals were established wherever possible and food and clothing were distributed to the undernourished populations, who by reason of their undernourishment were easy prey to the epidemic. When disorganization continued last year to the great inroads made by the disease and the possession of well established hospital centers, the American Red Cross this year will undertake work with a new confidence.

Including the total of \$11,000,000 in supplies left from the last fiscal year, the \$31,500,000 is \$21,000,000 less than the expenditures for 1922.

Appropriations for domestic activities total \$17,700,000. The largest item of this "home" budget is \$7,800,000 for civilian relief work. This includes service and assistance for families of soldiers, sailors and marines, and work incidental to disaster. Of the total appropriation for civilian relief, \$4,000,000 is held in reserve for the carrying out of actual disaster relief.

Reduced Overhead Expense.

The Red Cross invariably is the first thought of a community visited by calamity. With this in mind, it was determined by the Executive Committee in preparing the budget of 1923 to have a fixed reserve fund from which to draw in these instances.

For assistance to soldiers, sailors and seamen in hospitals and to camps this year \$1,000,000 has been set aside. Four million two hundred thousand dollars has been appropriated for improvement of health and prevention of disease throughout the United States during the current twelve months. The Red Cross is co-operating fully with the United States Health Service in this work and through its Junior Red Cross is doing much to spread among children the principles of sanitation. An appropriation of \$1,000,000 has been made for developing the peace time program of the Red Cross by service to its chapters in all regions.

The appropriation of \$48,200,000 is exclusive of the local expenditures of the 6,000 or more chapters. Administration expenses this year will be \$1,000,000. Last year they were \$1,500,000.

LINER "ADS" EFFECTIVE.

One of the most effective forms of advertising is in the "liner" or classified column where a n investment of a few cents is certain to give prompt results. Tribune liner ads are always run under the heading, "Wants, For Sale, To Rent," in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for the first insertion, 2½ cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.

CONCESSIONS AND FAIRS. Over in Ann Arbor, Mayor Warster announced the first of the week that he would not permit games of chance to be operated on the county fair grounds, but later he was obliged to modify his manifesto when he was informed that such action would "kill the fair" and cause a financial loss to the directors. We had been led to suppose that the purpose of the county fair is to "boost" the agricultural interests of the county, but it begins to look as though the "skin-game" promoters should be more interested in the average fair than the agriculturists, for the latter can manage to run their farms without the fair, while the former cannot exist without it, nor the fair without them according to the report from Ann Arbor. We are not belittling the good that may be accomplished by a real, honest-to-goodness agricultural fair and exhibit, but we do believe that the "midway" and "carnival" features are frequently overdone.
