

FURNITURE PRICES HOLD

Newly Weds Get Little Satisfaction From This News Report.

There can be no immediate reductions in the price of furniture according to a statement made by Jno. L. Young of Cleveland, Ohio, president of the Retail Furniture Dealers' association of the United States.

Reports circulated recently throughout the country that furniture is due for an immediate decrease in price led the association to instruct Mr. Young and the executive committee to go to Grand Rapids and investigate the situation. Following this investigation, President Young authorized the statement that there have been no changes affecting the cost of furniture generally that would indicate any material reduction could take place in the near future without seriously affecting the wages and steady employment of men

engaged in furniture manufacturing. "However," said Mr. Young, "We deem it desirable and for the best interests of the American home that concerted effort be exercised by the manufacturers to reduce manufacturing costs, other than labor, and to reflect these reductions in the finished product as soon as possible. To our best knowledge no general reductions in the price of furniture can possibly take place at this time and that the decline will be gradual and only come with parallel reductions in manufacturing costs."

SCARLET FEVER HERE.

A number of cases of scarlet fever are reported around town, most of them mild cases. Parents are advised to be on the alert and to report promptly in cases where sore throat or a rash are noticed. Unless due care is exercised there is danger of an epidemic of this disease in Chelsea.

NEIGHBORHOOD NEWS

Brief Items of Interest in Chelsea And Vicinity. From Nearby Towns and Localities.

SALINE—The Saline high school athletic association recently canvassed that village for funds to buy uniforms and equipment, says the Observer. The subscriptions totaled to \$225.

MANCHESTER—The Washtenaw County Farm bureau has taken out a membership in the Potato Growers' exchange in order to aid the Manchester celery growers to market their product. They have about 15 carloads of celery which will be ready for shipment from the fields in about two weeks. If this undertaking is successful there probably will be a larger production of celery in the vicinity of Manchester in the future. The crop this year is said to be exceptionally good.

DEXTER—Mrs. H. L. Mersereau and Mrs. T. H. Peatt returned from Grand Rapids, Friday night, where they were in attendance at the annual session of the Grand Chapter, O. E. S. They report a most interesting meeting at which Mrs. Frances Bell Watson of Stanton was elected Worthy Grand Matron and the local chapter, Washtenaw No. 302, was honored by the appointment of Mrs. Mersereau as Grand Esther, this being the first time in its history that Washtenaw chapter had been so honored.—Leader.

FARM BARNS BURNED.

The barns on the Henry Donner farm, in Dexter township north of Four Mile lake, formerly the Schaeffle place, burned early Friday morning about 2:30 o'clock. The stock was all saved, but the farm tools and crops were mostly destroyed. By hard work, neighbors saved the other buildings, including the house, corn crib, chicken coop, hog pen and a new garage. It is said the fire started in the hay in the horse barn.

CLINTON WON FOOTBALL GAME.

Clinton high school football team won from Chelsea high school on Palmer field, here, Friday afternoon, score 6 to 0. Those who have observed the play of the boys say that Chelsea high school has the material for a good team and has several good players, but the team as a whole lacks the coaching and consistent daily practice to put a winning team in the field.

BROKE HER COLLAR BONE.

Miss Agnes Weber was painfully injured Thursday in Ypsilanti, where she is a student, when she fell and broke her collar bone on the right side. Miss Weber and several girl friends were doing "stunts," and she fell, striking on her shoulder, with serious results.

UNADILLA ITEMS.

Wirt Barnum and family spent the week-end in Lansing and Ionia. Ella and Mildred Corser have gone to Detroit to work.

Mr. and Mrs. A. J. May and son Lloyd spent Sunday at A. J. Holmes in Plainfield.

Clarence Cranna fell last Monday at the gravel pit, breaking his right arm at the wrist.

Will Seor has bought the James Hurd property in town.

Mr. and Mrs. Seymour May of Denton spent Sunday at G. A. Pyper's. Grant Kimmel and A. J. May were in Ann Arbor, Saturday.

About 40 friends of Mrs. Austin Gorton gathered at her home Saturday evening and helped her celebrate her 34th birthday. Cake, sandwiches, coffee and sweet cider were served. Mrs. Gorton was presented with an aluminum coffee percolator and a cut glass pickle dish.

BURGLARS RAID COUNTRY.

Several burglaries, all committed on Sunday, October 17th, have been reported during the past week from the country south and southwest of Chelsea. It is presumed that the same men were implicated in each.

At the home of Leo Merkel a new overcoat and a partly worn suit of clothes were taken. Clarence Gage reports a suit of clothes stolen. At the home of Fred Grob, on the Kustor farm, a watch, partly worn suit of clothes and about \$5.00 in cash are missing.

Several men with a Ford touring car are suspected of having done the jobs. They called at other places in the vicinity of the Merkel farm. The method was to size up a farm house and if no one was in sight they would go to the door and knock. When the door was answered they would inquire the road to Ann Arbor or Jackson. When no one answered, it is surmised that they forced the door and helped themselves to whatever they wanted.

AREAS BELOW SEA LEVEL.

All the continents possibly, except South America, include areas of dry land that lie below sea level. According to the United States Geological Survey, the lowest point in North America is one in Death Valley, Calif., that lies 276 feet below sea level, but this depression is slight compared to the basin of the Dead Sea, in Palestine, Asia, where the lowest point on dry land is 1,200 feet below sea level. The lowest point in Africa is one in the Desert of Sahara that lies about 150 feet below sea level. The Sahara as a whole stands above sea level, although until recently the greater part of it was supposed to lie below sea level. The lowest point in Europe at present known is one on the shores of the Caspian Sea that lies 56 feet below sea level. The lowest point in Australia is one at Lake Torrens that lies about 25 feet below sea level.

KILL OWN CHILDREN AT BIRTH

Ariol of Tahiti Look Upon Attempt of One of Their Order to Raise Child as Sin.

Lovers of laughter, song, music, flowers and birds, the Ariol of Tahiti killed their own children at birth, and looked upon the attempt of a member of their order to rear a child as a sin. "While religious causes were given for this by the leaders and, no doubt, believed in the real cause, Frederick O'Brien tells in the Century, was a natural one whereby the species, in preventing over-population of the South sea island, destroyed its own. With perfect health and no enemies, the island would soon have had a hard time finding food.

The Ariol were wandering minstrels, actors, priests and wonder workers to which belonged both men and women. The natives of Tahiti who have escaped the blight of civilization are living proofs that at one time the race was one of the most beautiful in the world's history, while investigators declare that arts and civilization were brought to a high plane hundreds of years ago.

Owosso—Farmers are shipping milk, cream and butter to cities and using oleomargarine themselves. Judge Munn, of New York, told the Michigan Association of Milk Producers, in session here, if farmers would consume as much milk as city people do, Judge Munn said, there would be no surplus, and the slump in milk and cattle prices would be avoided.

Grand Rapids—Makers of "moonshine" in this city are adding to the problems of the city manager. For several days numerous complaints of seizures not functioning properly have been received from the west side. An investigation was ordered, and several sewers were dug up, and found full of "moonshine." The refuse from distillation had plugged one big outlet sewer for more than a block.

Muskegon—More than 200 arrests in 30 days were made by the Michigan state police, working about Muskegon Heights and Muskegon. More than 100 of the arrests were for violation of the liquor laws and, it is said, as a result, the price of moonshine whiskey has been raised in this city to \$18 and \$20 a quart. A number of offenders were turned over to federal officers, especially where stills were seized.

Lansing—The first step in Michigan's new health program was taken when Dr. B. M. Olla, state health commissioner, called into conference nurses and health officials from practically every county in the state. More than 60 nurses attended, and talks were given, as well as exhibits shown and a generous amount of health literature distributed. "In order to remedy weak spots in our public health service," Dr. Olla said, in opening the meeting, "it will be imperative that all active organizations be made to work as one."

DR. THOUGHT HE WAS DEAD

Three Years or More Bronchial Trouble and Bad Cough Did Not Respond to Treatment. Was Given Up.

FEELING FINE NOW.

"For three years or more I had been troubled with bronchial trouble and a very bad cough. I just kept going down hill, my nerves were completely worn out it seemed and I had no appetite and I went down in weight from 140 pounds to 115 pounds and the doctor that treated me for two years just gave me up. I was so weak I couldn't get out of the house and thought I was going to die.

"I had tried everything there was to try until I saw Hypo-Cod advertised in the Detroit paper, so I sent for two bottles and before I had taken half of one bottle I began to feel better, and by the time I had the first bottle I was able to get out and walk around, so I weighed myself and I had gained five pounds on the first bottle and in a few days I was able to walk down town, and the people that thought I was going to die would ask me what I had taken, and I surely told them Earle's Hypo-Cod. I also met the doctor that had treated me for two years and he said 'Why, I thought you were dead,' but here I am feeling fine, and working every day, and weigh five pounds more than I ever weighed. I know if I had not taken this tonic I would have been dead now, or I believe so anyway. I know Hypo-Cod is the greatest medicine in the world and I cannot say enough for it," declared Mr. B. T. Owen, (pioneer) 511 N. Sylvan St., Lansing, Mich.

You can get the genuine Earle's Hypo-Cod in the famous orange colored carton which has been recommended by thousands of users at your druggists.—Adv.

Ouch! Such Pain!

It takes you right in the back! Sometimes in the arm, hip or foot.

It's all due to an over-abundance of that poison, called uric acid. The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking the advice of Doctor Pierce, which is, "keep the kidneys in good order." Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking 'Anuric.' This can be obtained at any drug store, in tablet form.

Roy River, Minn.—"I have used Dr. Pierce's medicines with good results in my family for years. At two times I was taken with La Grippe and it left me run down and with pains in my hips and back. I took different medicines without getting any benefit. At last I sent and got some Anuric and took it and am feeling well and doing a good day's work. When I commenced taking the Anuric Tablets I could hardly get out of bed, but as though a knife was sticking in my back."—A. C. Bledgett.

Stomach on Strike 20 Years

Eaton's Settled It!

"Eaton's is wonderful," says C. W. Burton. "I had been a sufferer from stomach trouble for 20 years and now I am well."

Eaton's gets right after the cause of stomach troubles by taking up and carrying out the acidity and gases and, of course, when the cause is removed, the sufferer gets well. If you have sourness, belching, indigestion, food repulsing or any other stomach trouble, take Eaton's tablets after each meal and find relief. Big box costs only a trifle with your druggist's guarantee.

3,000 Americans in Russia.

Moscow.—There are at present five Americans in prison in Moscow; numbers are detained for various reasons and others were unable to leave in 1918. They now wish repatriation. The total number of American citizens in Russia is estimated at 3,000, including the families of Russians who are naturalized Americans, many of whom have been separated for six years or more from husbands or fathers without means of communication.

REMARKABLE RECOVERY

Extraordinary Curative Power of Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me. I had organic troubles and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered something terrible and the doctor's medicine did me no good at all—my pains got worse instead of better. I began taking the Vegetable Compound and felt a change from the first. Now I feel fine and advise any one going through the Change of Life to try it, for it cured me after I had given up all hopes of getting better. You can publish this and I will tell any one who writes to me the good it has done me."—Mrs. MARGARET DANZ, 743 N. 25th Street, Phila., Pa.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

AT LEAST IT'S NOT PROBABLE

Judge Was Likely Dead Right When He Told the Elderly Lady About His Gown.

The judges of the Marion county courts recently adopted and published rules relating to formal openings of court sessions, requiring all persons in the courtroom at the time to stand. This and the other requirements are designed to insure dignity and decorum.

An elderly woman employed at the courthouse witnessed one of the judges in the corridors of the building and complimented the bench on its attitude in conducting court.

"In fact, judge," she added, "I think all of you judges ought to do like some of the big Eastern courts and wear gowns."

Without batting an eye the judge replied: "I do wear a gown about one-third of the time."

"Why, I never saw you in one," the woman said.

"And you never will," gravely answered his honor as he proceeded to his courtroom, chuckling to himself.—Indianapolis News.

An Explanation.

"How is it that young men can kiss girls whose faces are so unattractively whitened?"

"Because most of them are ex-soldiers who are not afraid to face powder."

When Coffee Disagrees—Use POSTUM CEREAL

Coffee drinkers, who switch from their accustomed table drink, almost always turn to Postum because of its delicious coffee-like flavor.

There's no harm to health in Postum. Much as it tastes like coffee, there is no coffee in it. Boil Postum a full fifteen minutes, and you develop that rich flavor you so much like.

ADRIATIC PLOT HELD FANCIFUL

ITALIAN CHIEFS DECLARED TO PLAN FIUME-DALMATIA ANTI-YUGOSLAVIC.

ORLANDO-D'ANNUNZIO COMBINE

Former Italian Premier Would Join in Maintenance of Fiume Against Jugoslavia.

Rome—Revelations published by the socialist organ *Avanti* regarding the future status of Fiume and Dalmatia are described by the *Giornale d'Italia* as embracing a plot "which seems like a fairy tale."

According to *Avanti*, former Premier Orlando, Gabriel d'Annunzio Vice Admiral Thaon di Revel, former chief of the naval staff; Rear Admiral Millo, commander of the Dalmatian occupation forces; General Girardini, member of the supreme war council; General Cavaglia, former minister of war; General Badoglio, and several deputies, among them former Minister Nava, have agreed to maintain the status quo of Fiume and Dalmatia for two or three generations rather than make any concessions to Jugoslavia.

If these views are opposed, according to the *Travanti*, the plotters will have recourse to force, using Zara, Pola and Trieste as headquarters, and having 100,000 men. The action, says the newspaper, will be contemporaneously anti-bolshevik, with centers at Milan, Bologna and Rome.

The *Giornale d'Italia*, commenting on the revelations, declares the plot is "fantastic and absurd, but the government must not renounce what Italy is entitled to have in the Adriatic."

MUSKEGON BUS LINES STOPPED

Traction Company Gets New Car and City Orders Autos to Quit.

Muskegon—Nearly all bus lines in the city were ordered to cease operations by City Engineer I. R. Ellison following the Muskegon Traction company's importation of a street car from Grand Haven, making it possible for the first time in a decade for the car company to handle the city transportation problem.

Manager Ellison held the \$100,000 bond of the Muskegon Jitney Bus corporation to be worthless. With the exception of a handful of busses, the railway has no competition. Officials of the traction company admitted shortly after the action took effect, that their increase in fares had exceeded all past records.

Previous negotiations, pending dissolution of the bus company, carried on with City Attorney Farmer by representatives of the bus men, were set at naught by the order of Ellison, who claims his authority is backed by Acting Mayor H. E. Langeland.

IAPS RUSH TO SOUTH AMERICA

Brazil Contracts for 20,000 Coolies for Coffee Plantations.

Buenos Aires—Japanese immigrants are flocking to the five largest republics of South America—Argentina, Brazil, Chile, Peru and Uruguay.

The Japanese colonization syndicate is delivering coolies into Brazil monthly on a contract calling for 20,000 within a specified time to work the coffee plantations of San Paulo state, where it is estimated there already are 60,000 Japanese. These mostly are of the lowest class of coolies gathered from the outlying Japanese islands.

In Peru and Chile some trades already are almost exclusively in the hands of the Japanese and coolies occupy whole sections in the Chilean nitrate ports, whence Japan has been shipping nitrate heavily three years.

This immigration has been facilitated by the recent Japanese subsidizing of two lines of Japanese steamers, one feeding Brazil from the east coast and the other from the west.

BRITISH STRIKE CRISIS PASSED

Cordial Conferences Give Hope Way Found Out of Deadlock.

London—Hopeful progress toward settlement of the coal miners' strike was made at a meeting between the strikers' representative and the government. Beyond this statement all that was given out was the fact that no definite decision had been reached. It is understood that Lloyd George proposed to grant at once the demand of the miners for a two shillings per shift increase in wages on the stipulation that the miners arrange immediately to meet with the mine owners to work out a plan for increased production.

King Company Asks Receiver.

Detroit—Directors of the King Motor Car Co., of Detroit, have filed petition in circuit court asking dissolution of the company and appointment of a temporary receiver. Lack of working capital to continue the business and ill health of A. Ward, Jr., president, are given as the reasons for the company's proposed suspension. The company lists assets of \$1,835,772 and liabilities of \$1,097,070. Authorized capital is \$700,000 of common stock.

MILLIONS SAVED TO PRODUCERS THROUGH IMPROVED MARKETING

Marketing Representative Addressing Group of Farmers in Field.

Five and a half million dollars. That is the amount of savings and increased profits estimated to have been secured by producers through the assistance of the United States bureau of markets' field representatives in marketing, working in co-operation with state marketing agencies in 11 states during the year ended June 30, 1929. This figure is made up of hundreds of individual items of savings and additional profits estimated by growers, shippers and marketing agencies concerned and reported to the United States bureau of markets.

State co-operative work in marketing is carried on by the United States department of agriculture in 31 states, but information regarding the total savings effected in all of them is not yet available.

Improvement in methods of marketing and distributing farm products is the object of this marketing work. Investigations of grading, packing, loading, shipping and marketing are made and visual demonstrations given producers to familiarize them with the best marketing methods. Thus, some 200 demonstrations of approved practices of preparing farm products for market and over 750 talks relative to packing, grading, handling, storing and selling farm products and the formation of associations for co-operative activity were given. In one state alone two co-operative livestock shipping associations with a membership of 3,000 shippers were formed, and an estimated saving of \$73,548 secured through the co-operative shipping of 337 cars of cattle, hogs and sheep from 39 counties.

Aid Marketing Organizations. While complete figures are not available, those at hand show that the field men were instrumental in the formation of 183 marketing organizations, including 50 live-stock shipping associations and 57 fruit or vegetable associations. They also assisted in the organization of 12 credit unions and 10 federations of existing associations, most of which are statewide in scope. One hundred and sixty-six wool pools handling over 10,000,000 pounds of wool were given assistance in organization and grading. In a number of states the field men, through state agencies, secured the adoption of federal standards for farm products and containers. One hundred and thirty-eight groups of producers were assisted in making co-operative sales. One sale included 417 head of cattle, which sold for \$2,503.97 above the prices quoted by local buyers on the day of sale. Instruction in the marketing of

FARM ACCOUNTS AID TO BETTER PROFITS

Quite Essential to Any Well-Thought-Out Plan.

Farmer Enabled to Meet Conditions in Way That Will Give Him Greater Net Returns on Various Crops He Produces.

Farming is a business, and, to be successful it must be conducted in a businesslike manner. It involves the production and sale of commodities, just as does manufacturing. The business man, whether in factory or on farm, should be constantly considering two questions:

1. What profit is my business making?
2. How can that profit be increased?

The first of these must be answered before an intelligent effort can be made to answer the second. Proper accounting leads directly to the answer to the first question, and hence it is essential to any well-thought-out plan to increase profits. The problem of the farmer is to meet conditions on his own farm in a way that will give him the greatest net returns, year in and year out, for the use of his capital, his labor, and his managerial ability. Before he can be considered a successful farm operator he must produce results that will cover the value of all these. Capital can earn interest without labor on the part of its owner, and labor can earn wages without owning any capital. The farmer, utilizing both in the conduct of his business, should secure returns that will cover both interest and wages. Not until both of these have been more than covered can any profit be credited to the farming operations. Nothing but return in excess of interest and wages can properly be considered as net profit.

sweet potatoes was given producers and shippers in the Southern states. In one state plans and specifications for 39 sweet-potato storage houses were furnished and in another state 53 storage houses constructed from plans furnished by the United States bureau of markets. A sweet-potato exhibit car was arranged and moved 1,100 miles over four railroads involving 31 points in the sweet-potato producing sections. The exhibit included a miniature model storage house, working plans, and specifications for storage houses, pictures, charts, and slides showing approved methods of production, harvesting, storing, grading and packing.

Demonstrates Approved Methods. Exhibits illustrating approved marketing practices were conducted in six states. In most instances these exhibits were in connection with state or district fairs or at expositions of more than state importance. Colorado's potato shipments run from 9,000 to 13,500 cars a year. Of this quantity, 40 per cent is moved during the winter months when there is great danger of frost damage in transit. To stimulate interest among Colorado potato growers and shippers in better marketing conditions, an exhibit of a full-sized freight car was produced in the Denver Auditorium at the Western potato show this year to show by actual demonstration proper methods of lining and loading cars of potatoes to prevent loss from freezing in transit, and of sewing sacks to prevent loss of potatoes slipping through the tops of sacks. Some 3,000 people attended the exhibit, and it is confidently believed that a greater number of cars will be loaded properly.

Twenty-five short instruction courses relative to various phases of marketing were given in six states. In one state a course of lectures covering 12 weeks was given in a school of commerce. Co-operative enterprises in accounting problems. The collection and dissemination of information relative to quantity, quality and price of local produce offered for sale was arranged for at 11 points in four states. The United States bureau of markets' report of the work of its field agents in marketing shows that the accomplishments were greater in number and of more value to producers and consumers during the year ended June 30, 1929, than in any previous year. It is felt that work of this character should make possible the development of a consistent national policy in improving marketing methods.

There is reason to believe that many farmers, owing to a lack of proper records, do not know what returns they actually receive, nor how these compare with what they should receive for their work and the use of their capital. Doubtless many are living on the interest of their capital, making small wages or none, and no net profits.

Write the United States department of agriculture, Washington, D. C., for Farmers' bulletin, 511, "Farm Book-keeping," which may be had upon request.

PAINT FOR INSIDE OF SILOS

Specially Prepared Mixtures Are Put Up by Firms Which Build Huge Receptacles.

Some of the firms putting up concrete silos have specially prepared mixtures to use in painting the inside. A wash of pure cement is often used to fill the pores of the silo walls. Prof. J. B. Fitch, head of the dairy department of the Kansas State Agricultural college, states that he prefers to use warm tar or hot paraffine to coat the inside of concrete silos. He says: "If you can keep the tar warm and put it on when thin it will make a good inside coat. The same is true of melted paraffine. I have had good results from using both of these."

EXCELLENT EMERGENCY CROP

Soy Beans When Cut and Cured Properly Compare Favorably With Alfalfa for Stock.

Soy beans make an excellent emergency hay crop when cut and cured properly and the hay compares very favorably with alfalfa hay for sheep and cattle. It is rich in digestible protein, averaging about 12 per cent, while alfalfa averages 11 per cent and timothy 3 per cent. The yields of air-dried hay on the co-operative test fields last year varied from 1,750 to 3,000 pounds per acre.

"A GOOD PROVIDER."

When it comes to being "a good provider," no man could pride himself on furnishing trash liberally for his family. The family is entitled to good, wholesome food that helps growth.

It is the same with reading. Good reading pleases and creates its own hunger for more good reading. The Youth's Companion is the best of reading for all—every member—every age.

And it comes every week—crowded with the best. Let us prove it with a sample.

The Youth's Companion has long since ceased to be a "Youth" alone. It has become the favorite all-family weekly of America. Its name is a misnomer, but is retained for the sentiment it has generated in American homes through its service to every age.

Still \$2.50 for a year of 52 issues, but this price not guaranteed beyond January 1, next.

New subscribers for 1921 will receive:

1. The Youth's Companion—51 issues in 1921.

2. All remaining weekly 1920 issues.

3. The Companion Home Calendar for 1921.

All the above for \$2.50.

4. McCall's magazine for 1921, \$1.50—the monthly authority. Both publications for only \$3.50.

Proposed Amendments to the Constitution.

To Amend Article 13 of the Constitution of the State of Michigan, to provide for the condemnation and taking of the fee to more land and property than is needed for the acquiring, opening and widening of parks, boulevards, public places, streets, alleys or for any public use by municipalities of the State.

This amendment, if adopted, will

empower the legislature to authorize municipalities of the State to condemn and to take the fee to excess property for parks, boulevards, etc.

To Amend Section 1 of Article 3 of the Constitution, relative to the qualifications of electors.

The effect of this proposed amendment, if adopted, will be to grant to persons engaged in teaching in the public schools of the State, and the immediate family of any member of the legislature during any session of the legislature the privilege accorded absent electors.

To Amend Section 21 of Article 6 of the State Constitution providing annual salaries of five thousand dollars (\$5,000) for the Governor and Attorney General, and that the Secretary of State, State Treasurer and Auditor General shall each receive such annual salaries as may be prescribed by law. They shall receive no fees or perquisites whatever for the performance of any duties connected with the office.

This proposed amendment, if adopted, will empower the legislature to determine the compensation of the Secretary of State, the State Treasurer and Auditor General.

To Amend Section 29 of Article 5 of the State Constitution giving the legislature the power to enact laws relative to the hours and conditions under which men, women and children may be employed.

This proposed amendment, if adopted, will empower the legislature to enact laws relative to the hours and conditions under which men, women and children may be employed.

To Amend Article 11, of the Constitution, by adding two sections thereto providing that "All residents of the State of Michigan between the ages of five and sixteen years shall attend the public school in their respective districts until they have graduated from the eighth grade; provided that in the districts where the grades do not reach the eighth,

Chamberlain's Cough Remedy.

This remedy is intended especially for coughs, colds, croup and whooping cough. From a small beginning its sale and use has extended to all parts of the United States and to many foreign countries. This alone is enough to convince one that it is a medicine of more than ordinary merit. Give it a trial and you will find this to be the case.
