Chelsea High School Foot Ball Team Shows Improvement.

Chelsea high school football team defeated the Stockbridge high team here Friday afternoon, on Palmer field, score 27 to 0. In a previous game played October 8th in Stockbridge, which was the first game of the season for the local eleven, Chelsea lost, 12 to 6. Friday's game indicates that the boys have improved their play considerably since the opening of the season.

Stockbridge had evidently developed a series of end plays for Friday's game, but these were easily stopped by the Chelsea lads. The C. H. S. line shows much improvement, and with a week's more practice the whole team should make a strong showing against Clinton next Friday.

James Monroe, Alber, Mohrlock and Beuerle all played an especially good game, and were the mainstays for the Chelsea team.

The line-up follows:

Stockbridge:	Chelsea:
Pickett	L. G.
Ostrander	L. T.
Hastings	L. E.
Paul	C.
King	R. E.
Hutson	R. T.
Dewey	R. G.
Farrell	Q. B.
Harisulf	J. H.
Brogan	R. H.
Harr	F. B.
	Beuerle
	H. Webb
	D. Beatty
	K. Axtell
	G. Luick
	P. Brooks
	Broesamle
	R. Mohrlock
	J. Monroe
	A. Faist
	Alber

The big game of the season will be

Friday afternoon in Clinton. The boys expect to practice every night this week and will go to Clinton in the pink of condition. Last night they had light practice, learning several new plays, but beginning tonight they will do regular scrimmage work.

Still Adept as Soldiers

These are a few of America's unfortunate war heroes in Uncle Sam's hospitals, for whom the Red Cross is doing everything possible to lighten their load. The picture shows a group of crippled doughboys proving they still are experts at the manual of arms. It was taken at a recent field meet staged by the Red Cross at Ft. Des Moines, Ia.

NO INDIVIDUALISM SAYS PROF. WENLEY

University Man Alleges That State Is Interfering With People.

"When a state official comes to your house and wakes you up in the morning, dresses you, feeds you your porridge and then kicks you out of doors to work, maybe the people will wake up," said Professor Robert M. Wenley, professor of philosophy at the University of Michigan, during a recent lecture, while commenting upon the enlargement of governmental activities.

"Every man for himself and the devil take the hindmost," is an old saying, but follow this in ethics and the devil gets them all. We have gone so far the other way in this country that there is no scope left for private judgement. A legislature in the west considered a bill that required all dentists and physicians to shave. Another legislature had a bill to prevent women from calcimining their faces. When such things come before legislatures, where will it stop? There is a swing away from individual rights. I know much better how to run my house than any blasted state official. 'The public be damned' was the extreme utterance of individualism, but now we are going to the other extreme."

DIPHTHERIA EPIDEMIC THREAT.

With 7,234 cases of diphtheria reported in Michigan from January 1 to November 5, this disease, which was more prevalent in Michigan during 1918 than in any other state in the union or country in the world, now shows an increase of 30 per cent over last year and two and one half times the average for the past 12 years, states Dr. R. M. Olin, state health commissioner.

In testing more than 15,000 cultures from the throats of school children in the past few weeks 155 carriers of virulent diphtheria organisms were found by the Michigan Department of Health. These carriers have been isolated and treated by family physicians, successive tests being made of cultures by the state laboratories to determine when the patients are safe for release.

"Knowing that for every 100 children who contract diphtheria from 7 to 12 will die," said Dr. Olin, "the discovery of these carriers of the disease has not only prevented 155 possible outbreaks and epidemics of diphtheria but has saved the lives of a great many children as well. Culturing of children's throats is being done at a cost of about 15 cents for each child. So we figure that the department is saving the lives of Michigan boys and girls at less than 'two bits' apiece."

"No community should fail to protect itself by neglecting to swab the throats of children in school. While it is true that a portion of the increase in diphtheria is due to better reporting of communicable diseases, it is still evident, even to a casual observer, that the condition is most serious."

HARDING WINS GREAT VICTORY

Republican Avalanche Sweeps Every Northern State.

BREAKS INTO SOLID SOUTH

G. O. P. Gets 404 Electoral Votes in 37 States; Democrats Capture but 127 in 11 States—Tennessee, Oklahoma, Arizona and New Mexico Fail to Turn to Cox—Great Gains in Senate and House—Features of the Tremendous Vote.

By JOHN DICKINSON SHERMAN.

Harding has won a tremendous victory. Here's the story in brief:

Harding carried 37 states with 404 electoral votes; Cox carried 11 with 127 votes.

Republicans have margin of 22 in senate and 150 in house.

In comment, the household word avalanche seems the fittest.

The republican avalanche began at the Canadian border, from Maine to Washington, and swept the country clear to Mason and Dixon's line and broke the Solid South.

The republican avalanche swept Tennessee, Oklahoma, New Mexico and Arizona. In Kentucky Richard J. Ernst, Republican, is elected to the senate over J. C. W. Beckham. For the first time in history several counties in Alabama went Republican, and several precincts in the sixth Mississippi district did the same almost unbelievable thing. Harding carried St. Petersburg, Orlando, Daytona and other towns in Florida; nine counties in northern Georgia and a dozen parties in the sugar belt of Louisiana. The G. O. P. picked up a congressman in Texas; Harry M. Wurzbach defeated Carlos Bee, brother-in-law of Postmaster General Burleson.

President-elect Harding, whatever else he does, is going to take a rest. He's already off on a real vacation of a month. His immediate destination is Point Isabel, Tex., via San Antonio and Brownsville. Point Isabel is on the Gulf, 20 miles from Brownsville and six miles from the Mexican line. It has a population of 100 whites and 150 Mexicans. There, golf, bathing, fishing and hunting are right at hand.

Col. F. E. Scooby, now of San Antonio and formerly sheriff of Marion county, Ohio, made him promise to go, win or lose, the night he was nominated. Mr. B. Cressler, a San Antonio banker, who seconded his nomination at Chicago, has turned over his cottage. Of course, the poor man will be guarded by secret service operatives and pestered by newspaper men and photographers, but he will have a goodly company of golf buddies and other intimate friends along. And politics and visitors will be barred.

Mr. Harding is planning to go to the Canal Zone, after a fortnight at Point Isabel. He has been preaching that the new American merchant marine should pass free through the Panama canal and he wants first-hand information on conditions. Return is set for December 6. He plans to resign his seat as senator January 10, when Governor-elect Davis of Ohio will be inaugurated and Senator-elect Willis will be appointed Mr. Harding's successor.

Alfred E. Smith, Democratic governor of New York, earned a new title in the election—"Miracle Man of American Politics." Why, he almost effected himself in the face of a Harding majority of more than a million.

The presidential vote was about this: Harding, 1,842,222; Cox, 752,033. The gubernatorial vote was about this: Miller, 1,319,586; Smith, 1,234,311. Republicans and Democrats alike say the feat is unprecedented. "Al," as everybody calls him, has come up from an orphan newsboy. Now he is spoken of as the logical candidate for the presidency in 1924.

By-products of the election are many and interesting. Harding shatters a tradition that no sitting senator can be elevated to the White House. Coolidge, who violates every principle of politics laid down by the practical politicians, wins his seventeenth successive candidacy.

Oklahoma elects Alice M. Robertson of Muskogee, Republican, aged sixty-six, to congress; she went to Indian Territory by prairie schooner, has taught in Indian schools most of her life, would not be soldier or sailor pay in her cafeterias and is a heaven-born cook.

California overwhelmingly indorses the anti-labor law recently adopted by the state legislature. Massachusetts approves the act to legalize the manufacture and sale of beer and wines of 2.75 alcoholic content. Wisconsin approves 2.5 per cent lower. New York approves a bonus for soldiers by the issue of bonds not to exceed \$45,000,000.

Favor Beers and Wines.
The voters of Massachusetts on Tuesday gave a majority of 10,000 in favor of legalizing the sale of 2.75 per cent beers and wines. With 16 towns failing to report, the indicated results are: Rep. 430,572; no. 417,276.

The Victory in Ohio.
With only 23 precincts to be heard from the Republican national ticket has a plurality of 395,109 in Ohio, thus hearing out Senator Harding's prediction that it would be nearly 400,000.

ORIGIN OF "INDIAN SUMMER."

"Indian Summer" owes its name not to any poetic fancy, but to the painful experiences of early frontier settlement. During the long-continued Indian wars the settlers enjoyed no peace except during the winter, when the Indians were unable to make any raids. The coming of winter was therefore hailed with delight by the backwoodsmen, who until then had been cooped up in their uncomfortable forts. They removed to their cabins on the farms with the exhilaration of prisoners released from confinement. Sometimes, however, it happened that after the apparent beginning of winter the weather became warm again. This was the "Indian summer," because it afforded the Indians another opportunity of visiting the settlements with their destructive warfare. In his "Notes on the Settlement and Indian Wars of the Western Parts of Virginia and Pennsylvania," published in 1824, the Rev. J. Doddridge remarks that in his own day a backwoodsman seldom heard the expression "Indian summer" without feeling a chill of horror, because it brought to his mind the painful recollection of its original sense.

After a wedding breakfast at the home of Mrs. Young, 1182 Virginia park, they left for a short trip, after which they will occupy their new home at 4265 West Jefferson Ave., Ecorse.—Dexter Leader.

LINER "ADS" EFFECTIVE.

One of the most effective forms of advertising is in the "liner" or classified column where a n investment of a few cents is certain to give prompt

results. Tribune liner ads are always run under the heading, "Wants, For Sale, To Rent," in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for the first insertion, 2½ cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.
