

### CROSSING ACCIDENT IN GRASS LAKE

Automobile Struck by Interurban Car  
On Same Crossing Where George  
Eisele Was Fatally Injured.

Mrs. Lawrence Walker of Jackson was seriously injured in a crossing accident at Grass Lake late Saturday afternoon when a limited interurban car on the Detroit, Jackson & Chicago line struck a Ford touring car driven by Harry Horning of Grass Lake, throwing Mrs. Walker and her two-year-old child violently to the frozen ground, inflicting a serious scalp wound on Mrs. Walker and slightly injuring the child.

The injured woman was taken to Jackson after a hurried examination by Dr. James McColgan of Grass Lake, who accompanied the victims of the crash to the W. A. Foote Memorial hospital.

The crossing is the same at which George Eisele of Jackson, formerly of Chelsea, was fatally injured early last month in a similar accident when an interurban car struck an automobile driven by Dr. Morley S. Vaughn of Jackson, and in which case a coroner's jury rendered a verdict characterizing the crossing as with out proper protection and a menace to public safety.

### READ-HEIM.

Miss Florence Read of Dexter and Mr. James Heim of Sylvan were united in marriage at eight o'clock this morning at St. Joseph's church, Dexter. They were attended by the bride's sister and by the groom's cousin, James O'Hagen of Detroit. The groom is the son of Mrs. Thomas Heim of Sylvan and has many friends in this vicinity. Following a brief wedding trip to Detroit, Mr. and Mrs. Heim will reside on the farm in Sylvan.

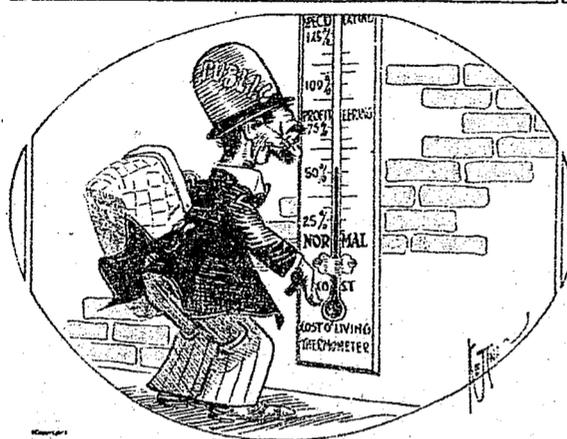

### TOLEDO WAR AND "WILD CAT" MONEY

Incidents of Michigan Pioneer Life  
Mentioned by Harvey Boyd.

Interesting incidents of Michigan pioneer life are mentioned in the Boyd family history, in connection with the life of Harvey C. Boyd, a pioneer resident of Sylvan and Lima townships. Relating some of his early experiences, he said:

"The Toledo War."  
"During the winter of 1835 was one of the most exciting times in Michigan I ever saw. A difficulty arose between the Territorial Government of Michigan and the State of Ohio in regard to the boundary line between the two 'Provinces,' known as the Toledo War. Governor Porter having died July 6, 1834, he was succeeded by Stephen J. Mason, who was secretary under Porter and who became governor in his place. No sooner than

### A Drop in Temperature

this disturbance commenced than Mason made a call to sustain our rights. The Independent Company was soon mustered into service and sent on its way to Toledo, while a draft was ordered on the militia in which I drew a blank. The contest was soon ended and with it many incidents that transpired to the early settlers in what was called the Toledo War."

"Wild Cat" Money.  
"One of the most outstanding events of my life was the coming into use of what was called the 'Wild Cat Money,' which was worse than no money at all. At this time there came into circulation what was called the 'Red Dog bills of St. Joe' and other ones completely flooding the country with these worthless bills that caused silver to become scarce; it was almost impossible to get a silver quarter of a dollar to prepay the postage upon a letter at the post-office."

Editor's note—Harvey C. Boyd died at his home near Sylvan Center, November 13, 1889, aged about 80 years. His widow, Mercy (Peck) Boyd, lived to be 102 years of age, passing away February 19, 1912, at the home of her daughter, Mrs. Mary Boyd of this place.

### CLINTON 14; CHELSEA 0

High School Lads Take Defeat in  
Neighboring Town.

Chelsea high school football team was defeated by the Clinton high team, Friday, in the neighboring village; score 14 to 0. The Chelsea boys made a game fight, but they did not have the necessary skill and pep to win.

In years past Chelsea high was an easy victor over Clinton. Then for several years Chelsea high did not develop a team. Last year the sport was revived; and Clinton won her first victory in many years over a Chelsea team, and has repeated the stunt again this year.

The Chelsea school team has worked at a disadvantage all the season, without a coach and with very little or no encouragement from outside the school. By way of comparison, we are told that Clinton has had the aid of three coaches this season and if that is the case the wonder is that the score against the local team was not even larger.

There is material for a good team in the Chelsea high school, but the best of material needs the coaching of an older and experienced player to develop a winning organization.

### UNADILLA NEWS.

Miss Ruth Watson of Detroit spent the week-end here with her mother. Forest Aseltine and family, of Royal Oak, are visiting his father, Frank Aseltine.

Mr. and Mrs. F. A. Williams, daughter Eva, and John Birnie, of Lansing, and Henry Gilbert and family of North Lake spent Sunday at Ed. Cranna's.

Clyde Purchase and family of Lansing have moved into the Hudson house in town.

The Methodist ladies will hold their fair and chicken pie supper in the church basement, Friday evening, November 19th.

### "SHE DO" AND "DO SHE?"

Rastus Ebenezer was telling a listening circle of chalk-eyed negroes what a wonder his new "gal" was. They followed him closely. "Oh, Lawdy, how dat girl do love!" he finally exclaimed.

One listener, carried away by Rastus' eloquence, shouted: "Ah say she do!" At which Ebenezer raised his razor and turned around.

"What you-all say, niggah?" The little negro, losing much of the ebony of his countenance, hastily gulped: "Ah say, do she?"

### NEIGHBORHOOD NEWS

Brief Items of Interest in Chelsea  
And Vicinity, From Nearby  
Towns and Localities.

TECUMSEH—Floyd Williamson narrowly escaped serious injuries Sunday when his sedan car turned turtle in a stream near here and he was pinned beneath it. Passing motorists rescued him.

EATON RAPIDS—The Patterson company of New York is storing 42 carloads of eight inch gas pipe on the waterworks lot in this city. It took twelve men two weeks to unload the cars and it will take twice as many men to reload it in the same length of time. The pipe is war material bought of the government for a song and is being held for speculation.—Journal.

MASON—Nettie Giles of Lansing lost no time after she was sure of being freed from one husband through the divorce courts before she took another. Last Friday her case was heard in the Lansing courts and a decree ordered. Saturday evening, Mrs. Giles and Charles Baird, also of Lansing, came to the home of Dr. Hartzog in this city and were married. Monday morning Dr. Hartzog took their marriage license to the county clerk's office for recording, where he learned that the divorce decree had preceded the marriage license by only a few minutes.—News.

MILAN—Precinct number one, York township, claims the oldest woman voter in Washtenaw county. Mrs. Wealthy Pope of Saline is the person who gives to York this unique distinction. She is ninety-two years old (and not a bit bashful about telling her age either.) She looked forward with keen interest to casting her ballot and bright and early on November 2nd she cast her first vote for the president of the United States. Although never an ardent suffragist, she is taking an active interest in the affairs of the nation.—Leader.

### THANKSGIVING PROCLAMATION (By the Governor)

"Praise watheth for thee, O God, in Zion; and unto thee shall the vow be performed.  
Thou crownest the year with thy goodness; and thy paths drop fatness.

The pastures are clothed with flocks; the valleys also are covered over with corn; they shout for joy, they also sing."

Following the custom established by our fathers nearly three hundred years ago, it is entirely fitting that we should set apart one day in the year as Thanksgiving Day.

We have gathered this year a most abundant harvest. We have enough and to spare. Our own people will be fed, and out of our abundance we shall help satisfy the world's hunger. For this and other blessings, for peace at home and abroad, for the general spirit of content, for work to do and the will to do it, the people of Michigan may well give thanks and make solemn and public acknowledgment of their debt to the Most High. Therefore, I, Albert E. Sleeper, Governor of the State of Michigan, do hereby join the President of the United States in designating Thursday, the 25th day of November next, as a day of Thanksgiving and Prayer.

### ITALIAN DEPORTED.

Angelo Mowero, the Italian who started to shoot up Ann Arbor last May, and who was found guilty of carrying concealed weapons, in the circuit court the past week, is scheduled for deportation to Italy on the next ship on which passage can be engaged. Sheriff A. C. Pack was notified of that effect by the commissioner of immigration in Detroit in a letter received Saturday.

Tribune "liner" ads; five cents the line first insertion, 2 1/2 cents the line each subsequent insertion.

### WHEN "ROUGHNECKS" RULED.

In days of old when "roughnecks" bled were bosses of creation, it was the knight who best could fight who ran his roughneck nation. The men of wit could only sit and tend the bully's babies, it was huge frames and not smart brains that charmed the stone-age ladies. But those old ways passed with those days—passed with the clubs and lances, and now it's brains that wins the games and fickle Fortune's glances. Some little guy just five feet high can cuss the loafing diggers because his dome is not pure bone but calculates and figgers. Some hunch-back hires, some cripple fires the rough and hardened sinner, the skinny man has his sedan, the big brute walks to dinner. The submarine and air machine both conquered the wild ocean, the German hordes with guns and swords were stopped by French devotion. Yes, mind today has its own way in the old scrap with matter, it brings content and merriment, it makes your pay-roll fatter.

Phone your news items to the Tribune; call 190-W.

### WANT AND FOR SALE ADS

WANTED—Wood choppers, by cord or shares. E. R. Bradley. Waterloo phone. 1912

FOR SALE—Sow and 8 six-weeks-old pigs; also 15 Plymouth Rock pullets and 20 year-old Plymouth Rock hens. Phone 285. 1912

### MOTHER'S DREAM

ALL through the years of washing drudgery she has dreamed of an abundance of clean clothes for every one of the family. Plenty of rompers and shirts for the boys and dainty white things for the girls — with an ever ready supply of snow white linen for the table and bedroom.

The answer to Mother's Dream is —

### THE CRYSTAL WASHER

Running smoothly in one direction, The Crystal zinc cylinder sends the rich bubbling suds through the meshes of the cloth, quickly loosening the dirt and washing it away, leaving the clothes spotless and clean.

Let Us Demonstrate a Crystal to You

## The Chelsea Hardware Co.

### "Sincerely Yours"

IT doesn't take much courage to ask for a picture, but my, how men dislike to do it.

Make it easier for *him*.

Let us put all of your personality into a portrait. It will need no other message than "Sincerely Yours."

We aim to produce even more than a perfect portrait and are usually successful.

### The McManus Studio

STATE NEWS

Laguna—A wildcat was killed on the farm of Frank Wisterman, near here. This is believed to be the first wildcat killed in Michigan in several years.

Rogers—Nearly 3,000 bushels of oats were harvested from a 29-acre field on the Lobdell farm in Presque Isle county. This is said to be a record.

Ann Arbor—Dexter Bour mill and saw site and Huron River power rights were sold by Mrs. H. Wirt Newkirk, of Ann Arbor, to Henry Ford and son.

Iron Mountain—An order has been issued for the vaccination of all school children in the city. Several cases of smallpox have developed, including one teacher.

Kalamazoo—Spanish War Veterans from Detroit, Kalamazoo, Battle Creek, Albion, Jackson, Three Rivers and Sturgis will hold a conference in Battle Creek, Nov. 16.

Charlotte—The hog cholera epidemic in Eaton county, which started near Vermontville, is spreading throughout the county, according to Roy K. Decker, Eaton county agricultural agent.

Pontiac—The new city commission is considering 35 applications for the position of manager of the city of Pontiac. Among the applicants are many holding similar positions elsewhere, many in southern cities.

Lansing—Fifty-eight of 183 persons arrested in October by the Michigan state police were accused of violating the liquor law, Lt. J. H. Marmon reports. Sixty arrests were on charges of violating the motor vehicle laws.

Holland—Prof. D. B. Yntema, 69 years old, superintendent of schools at St. Johns for 15 years and professor of physics and chemistry at Hope College for 23 years, is dead. He promoted the Holland Sugar Co.

Grand Rapids—Mitchell J. Friedman, a former Washington attorney, but now a public accountant in this city, has obtained a patent on a perpetual calendar. This device functions without mathematical tables and mental calculations.

Iron Mountain—Game Wardens rounded up four offenders at Channing and arrested them for having deer in their possession out of season. They paid fines and costs amounting to \$270. Two were fined \$105 each, and the others \$29.50 each.

Grand Rapids—Maps of Kent county will no longer bear the name of 19 former villages which have been abandoned during the last 20 years. They are: Perrins, Spencer, Mill, Griswold, Nettwick, Slayton, Eardly, Whiteville, North Byron, Lyman and Downe.

MI. Clemens—Gov. elect Alex J. Groesbeck received a majority of 6,578 over Woodbridge N. Ferris in Macomb county, the official election returns show. Hardly a majority over Cox in Macomb county was 6,716. This is Mr. Groesbeck's home county. His total vote was 9,955.

MI. Clemens—Appeal of Lloyd Proved for a new trial will be heard at the December term of the circuit court, said Lynn M. Johnston, prosecuting attorney. Proved was convicted of the murder of J. Stanley Brown, near here last December, and is now serving a life sentence in Jackson prison.

Marionette—Fleeing their whines and tugs at his coat, Fred Monios followed two hunting dogs belonging to his father for five miles to a small lake, where he found the body of the elder Monios lying in shallow water near the shore. Monios had been fishing, and is thought to have fallen into the lake from his boat.

Baginaw—Perry Ward, eight-year-old Vassar boy who was stabbed by an alleged demented man when he went to the home to sell tickets for a school entertainment, died in the Woman's hospital, Guy Johnson, who is alleged to have stabbed the boy twice in the abdomen with a pair of shears, is being held in the Tuscola county jail at Caro.

Owosso—One-half a cent per ton added to the freight rate by a Detroit iron pipe company lost that firm a contract for \$28,000 worth of winter mains here. The freight rate was \$75.50 1-2 a ton, and this company added one-half cent to it and put in a bid at \$79.50 per ton for the pipe. A Chicago firm lopped off the half cent and got the contract.

Kalamazoo—Scrutiny of a curious world drove Katherine Askins back to the Fairmount hotel, from which she had escaped, clad only in light underwear and a bathrobe. The girl went to the interurban station, where she proved the center of attraction, having no money to purchase a ticket to her home in Jackson, she concluded to return to the hospital until regularly discharged.

Baginaw—Holding that increased rates for electric light and power which the Consumers Power company put into effect October 1 cannot be annulled, the council instructed City Attorney H. J. Vincent to take necessary legal steps to prevent collection of the increased rates and at the same time advised users of light and power to refuse to pay at the new rates. Bills charging the new rates for October service have been sent to all customers of the company, and November 10 was the last day on which discount was allowed.

Owosso—There are 64 divorce cases on the calendar of the November term of Circuit Court.

Adrian—Mrs. Winifred S. Clark, 44, was fatally injured in a fall down stairs at her home here.

Ypsilanti—The Apex Motor Co. is erecting an addition adding 30,000 square feet to its manufacturing space.

Hillsdale—The late Mrs. Augusta Murdock bequeathed \$7,500 of her \$12,552 estate to the Hillsdale public schools.

Boysie City—Mrs. Lena Tebo, 51 years old, is dead of burns received Oct. 26 when she attempted to start a fire with kerosene.

Kalamazoo—Dr. Marion LeRoy Hurton, president of the University of Michigan, will address the Kalamazoo Michigan Alumni Jan. 21.

MI. Clemens—Moses Suay, a lifelong resident of this city and a Civil War veteran, was found dead in his bed by relatives who went to rouse him.

Cadillac—The health department has started a crusade for pure food. Four slaughter houses have been condemned and two others ordered repaired.

East Jordan—James Boyd suffered five fractured ribs when he backed his automobile off the bridge here, the car landing bottom side up in five feet of water.

Traverse City—Potatoes are being held in storage here by the growers of this region, who have declared a strike against the present price of \$1.25 per 100 pounds.

Charlotte—E. I. Past, undertaker here was fatally stricken with paralysis while waiting at the station to receive the body of Lewis Ross being returned from Europe.

Flint—John Steediff, Bulgarian section hand, was robbed of \$2,043 by three men on the eve of his departure for his homeland. The money stolen was his savings of 10 years.

Eaton Rapids—After buying the team of city fire horses here, A. Higginson has asked the city to take them back, or refund him \$25 because his son, Dan, 15, is unable to harness them.

Grand Rapids—Louis R. Stocum, 20, has arrived from a 14,500 mile bicycle trip which included a coast to coast journey. He left this city in August, 1918, and carried a 50-pound pack which contained his complete outfit.

Muskegon—The Continental Motors corporation, of this city, after a shut-down of three weeks, started to hire men here. No announcement was made officially, but it was understood and rumored that the factory would be back to normal within a month.

Kalamazoo—J. C. Ball, a Kalamazoo grocer, was changing an automobile tire when the tire blew out, scattering sand and small gravel in his face and eyeballs, as if from a gun. Although nearly blinded, he picked his way back to the city.

Owosso—Bruce Robinson was elected county surveyor and Guy Cole and William Cornford, chosen coroners of Shiawassee county by the smallest vote ever polled in the county for an office. Robinson received two votes, Cornford three and Cole nine.

Cadillac—Mrs. Besale Linniger, principal in the Lake City murder case who was acquitted of a charge of poisoning her husband, and Peter Vis, whose infatuation for her was claimed by the state to have been the motive for the alleged killing of Linniger, were married here recently.

Grand Rapids—As a result of an investigation by Superior Court Judge M. L. Dunham, warrants for the arrest of three companions of Herman Hunderman, have been issued. The latter met death July 2, after drinking moonshine whiskey. Each of the trio is charged with violation of the liquor laws.

Pontiac—Rather than be made a party to a trial for damages, W. A. Peterson, of Flint, automobile manufacturer and the Aetna Life Insurance company have settled for the death of Lester Crosby, who died after he had been run over by Peterson's automobile October 5. David Crosby, the boy's father agreed to a settlement of \$1,800.

Boysie City—Ninety-two acres of land with a frontage upon a lake, have been given to the city by C. von Mison and Adolph Youur to be used as a state park. An additional 15 acres has been purchased by business men in order to make the park site accessible to a highway. It is expected the state will start improving the property in the spring.

Monroe—Charged with having stolen a lantern belonging to the state on the Dixie Highway, Frank Scymanski, 34, truck driver, of New York city, pleaded guilty before Justice William J. Dams and was sentenced to serve 65 days in the Detroit house of correction. In sentencing the prisoner, the judge stated that stealing of lanterns must stop. Thus far at least 100 have been stolen, making it dangerous for the public to travel.

Lansing—The state athletic board of control prohibited issuance of complimentary tickets to Michigan's legalized prize fights at state expense. The giving away of 67 complimentary tickets to the Dempsey-Muske fight at Boston Harbor on Sept. 6 by Thomas W. Biggar, state athletic commissioner, and his payment for them out of the 10 per cent gross receipts received by the state, was the cause of this ban. The state's 10 per cent share from that "show" was \$12,246, and out of that sum Mr. Biggar paid \$2,046 for the 67 "free" tickets.

LEAGUE SPLIT ON FOE'S ADMISSION

FRANCE AND BELGIUM ARE CHIEF OPPONENTS OF GERMAN'S ENTRANCE

AUSTRIA-BULGARIA UNOPPOSED

League Leaders Anxious to Avoid Controversy and Action May Be Deferred to Next Session.

Geneva—Lord Robert Cecil, one of the chief authors of the League of Nations covenant, who is coming to the assembly of the league as a delegate from South Africa, will support the proposed immediate admission to the league of former enemy states, it is expected here.

Italy, Switzerland, the Scandinavian states and some of the South American nations are understood to be favorable to such a plan.

France, Belgium, Rumania, Yugoslavia and Czechoslovakia will resist the admission of Germany and Hungary, although they are not unfavorable to Austria and Bulgaria. There are indications in circles that the drift toward admission of former enemy countries is strong and likely to reach the necessary two-thirds of the members unless a compromise is effected.

The sentiment is growing that, whatever may be the merits of the case, the discussion the assembly is likely to develop a sharp controversy, which the leading members of the league desire to avoid. At the first session it is probable the immediate admission of Austria and Bulgaria will be proposed and an effort made to have action in the case of Germany postponed to another meeting of the assembly, probably in the spring.

NAVAL HONORS TO N. C. 4 CREW

Detroit Man On First Trans-Atlantic Flight Receives Naval Cross.

Panama, Fla.—The crew of the N. C. 4, first seaplane to make the trans-Atlantic flight, now stationed at the naval air station here, were among the recipients of naval honors, the award of which was announced by Secretary of War Daniels.

Lieutenant Commander Albert G. Read, who commanded the ship, was awarded a distinguished service medal, while Lieutenant Herbert C. Rodd, of Detroit, his radio officer in the night, and Chief Machinist's Mate E. G. Rhoades, who handled the motors, were given navy crosses.

Captain H. H. Christy, commandant of the station, who commanded vessels in European waters during the war, was also awarded the medal.

U. S. FIRM GETS RFD CONTRACT

Syndicate Headed by Vanderlip to Sell Soviet Billion in Merchandise

Moscow—The Soviet government of Russia has contracted to purchase \$1,000,000 worth of merchandise in the United States through the syndicate headed by Washington Vanderlip, banker of Los Angeles, Calif. It was announced here by Mr. Vanderlip before his departure for Kiev in a special train. The American financier said he was well satisfied with the result of his negotiations with the Soviet government.

AMUNDSEN HAS PAY TROUBLE

Arctic Explorer Forced to Sail from Nome With Three Men.

Copenhagen—Captain Ronald Amundsen, Arctic explorer, has sent the following telegram to the Berlinke Tidende from East Cape, Siberia, bearing date of August 12:

"We sailed from Nome immediately after my wife of August 8 with only three men, as the others claimed wages of 300 pounds sterling monthly. The following day we were held up by the pack ice in Behring sea. All aboard well."

REPUBLICAN DEFICIT \$1,350,000

Total Expense of Campaign Was \$2,416,000 Treasurer Reports

French Lpk. Ind.—The Republican National Campaign cost \$2,416,000, according to figures given out here by Fred W. Upham, treasurer of the Republican national committee.

He stated that the deficit amounted to \$1,350,000.

Treasurer Upham said that he had just completed his report and that the deficit was after all bills had been paid.

Miners Enjoyed From Organizing.

Bluefield, W. Va.—An injunction sought to check the campaign of the United Mine Workers to organize the miners of the Red Jacket Consolidated Coal & Coke company and the Pond Creek Coal company was granted by Judge Edmund Waddell, Jr., of the United States district court. The injunction enjoins John L. Lewis, president of the United Mine Workers, officials, agents and members from interfering with the employees of the two coal companies.

ALASKA TO FURNISH DEER MEAT TO U. S. MARKETS, NEXT YEAR

Seattle, Wash.—Meat packers at Nome, Alaska will be prepared to ship at least 5,000 reindeer carcasses to American markets through Seattle next year, according to Carl J. Lomen, of Nome.

Nome interests are building two additional refrigerating plants at Egvik and Gotovia, near Nome and plan to establish a string of such plants along the coast of Alaska.

The reindeer herd owned by one company in the vicinity of Nome numbers more than 35,000 animals, Mr. Lomen said.

EXPECT BOMB PLOT SOLUTION

Shoes of Horse Which Drew Explosion Cart Identify Owner.

New York—The blacksmith who shod the horse which hauled the wagonload of explosives that caused the Wall street disaster Sept. 16, in which 39 persons were killed and scores injured, has been identified.

Acting Inspector Coughlin, head of the police detective bureau, made this announcement. He said his men also have identified the man who took the animal to be shod. He apparently has vanished. It was said.

The statement of Inspector Coughlin followed closely upon the publication by the New York Evening World of a three-page article, declaring the mystery "solved" and charging responsibility for the explosion to individual laboring men or sympathizers who considered they had been injured by the alleged "building graft" now under investigation.

OPPOSE LAKES-TO-OCEAN ROUTE

New York Association Says State Would Pay 30 Per Cent of Cost.

Buffalo—The New York State Waterways association, in convention here, expressed "unalterable opposition" to the proposal for a lakes-to-ocean waterway via the Welland canal and the St. Lawrence river.

Speakers at the day's sessions attacked the Canadian canal project as economically unsound, and urged congress to refuse to appropriate United States funds for use in the project.

George C. Eaton, Buffalo, told the convention that New York state would pay 30 per cent of this country's share of the cost of the canal, the middle, Atlantic and southern states about 50 per cent, "while the 14 states which are agitating for the canal, will pay less than 10 per cent."

MALT AND HOPS SALE BANNED

Dry Officials Rule Only Bakers and Confectioners May Purchase.

Washington—Prohibition enforcement officers throughout the country have been instructed to prevent the sale of malt and hops to others than bakers and confectioners.

In the absence of Commissioner Kramer, officials at the prohibition enforcement bureau, said that the sale of hops and malt as component parts of home-made beer had been ruled to be in violation of the Volstead act. They would not discuss, however, details of the new order, which is said to have resulted from a construction placed on the law nearly two months ago.

WILL KEEP HANDS OFF STATES

I. C. C. Not Disposed to Interfere in Local Problems, Chairman Says.

Washington—The interstate commerce commission has no disposition to interfere with state regulatory bodies in administration of local traffic problems, Chairman Clark, of the federal body, said at the conference of the National Association of Railway and Utility commissioners. In replying to a question from Chairman Lewis, of the Indiana commission, Clark said that if a state body promulgated a rule governing intrastate distribution of cars and so complainant came to the federal body "certainly we would not interfere with it."

PEACE AND FRIENDSHIP, AIM

President-Elect Harding Outlines Aims in First Prepared Speech

Brownsville—Facing a border crowd in which were many citizens of Mexico and several officials of the Mexican government, President-Elect Harding proposed a foreign policy to build peace and friendship but demanding always full protection of Americans wherever they may go.

Unitarian Campaign Under Way.

Boston—The assertion that the Unitarian Church campaign for a \$3,000,000 fund was not intended to proselytize or to win people from other churches, but to bring religion to those whom other churches may not be able to influence, was made by William H. Taft, former President, in an address in the First Church, opening the campaign. He said the time had come for "affirmative and militant methods against the inertia and indifference of irreligion."

Plays Love Song, Shoots Wife.

Baltimore—Murder and suicide was revealed by the police investigation into the death of John Kostkan, 36, a Bohemian artist, and his three-month-old bride, Mrs. Atella Kostkan, aged 19. The couple had been estranged, but Kostkan telephoned his wife to come home. She did so, Kostkan put a love song record on the phonograph, and as the last note died away, he shot his wife in the head and then turned the revolver upon himself.

UNUSUAL HAPPENINGS AND OTHER BRIEF NEWS

Red Cross Workers Slain.

London—Capt. Emmet Kilpatrick, representative of the American Red Cross in South Russia, and two nurses were brutally killed during a bolshevik raid on Sakhovo station, says a Sebastopol dispatch.

Women To Run Oregon City.

Yoncalla, Ore.—Yoncalla has been voted strictly a woman's town. In spirit and in fact women are the town's leaders since the voters elected a woman mayor and a woman to every other place in the city government.

Dempsey-Carpenter Sign Contract.

New York—Jack Dempsey, world's heavyweight boxing champion, and Georges Carpentier, European title holder, signed a contract here binding them to meet next March or between May 29 and July 4 to decide the championship of the world.

307 Republicans in 67th Congress.

Washington—Official reports of election returns received by William T. Page, clerk of the house of representatives, show that the makeup of the sixty-seventh congress will consist of 307 Republicans, 127 Democrats and one Socialist.

Want Army Tents For Dwellings.

Los Angeles—Loan of 5,000 army tents to be used by Los Angeles as temporary dwellings was asked of Secretary of War Baker by the city council. The resolution declared "a state of emergency" existed in the housing situation.

Wilson and Cox Honored.

New York—The National Democratic Club's board has elected President Wilson and Gov. Cox honorary life members "for conspicuous service rendered to the world." This election is the first of its kind since that of Grover Cleveland.

8-Cent Fare For Chicago Approved.

Chicago—The public utilities commission sustained the 8-cent car fare in Chicago and made it permanent. Valuation of the surface lines was fixed at \$159,113,114. The city fought the 8-cent rate and insisted the franchise rate of 5 cents be restored.

9,836,852 Tons, Unfilled Orders.

New York—The monthly tonnage of the United States Steel corporation, made public here today, showed 9,836,852 tons of unfilled orders on hand October 31. This is a decrease of 537,552 tons from last month's unfilled orders, which totalled 10,374,805 tons.

Can't Collect for Border Horses.

Washington—New York state lost its effort to collect \$234,141 from the federal government as a rental for 4,523 horses and mules which went to the Mexican border during the 1916 National Guard mobilization. The animals were held to be part of the equipment of the state's guard division.

Arinstein Released on Parole.

New York—Julius (Nicky) Arinstein was paroled in custody of his counsel by Federal Judge Julius M. Mayer, pending a rehearing before the United States supreme court of contempt proceedings instituted against him in connection with his alleged implication in New York's \$5,000,000 bond theft plot.

British Study Chemical Warfare.

London—The British War Office is establishing a committee to develop use of chemicals in warfare, including poison gas, both for offense and defense, the Daily News announced. Prof. Soddy, Oxford, one of the foremost chemists in Great Britain, declined a place on the committee, the paper says.

Sun's Rays Start Forest Fires.

White Cloud—The sun's rays, focused through glass tossed into dry leaves, cause 40 per cent of the Michigan forest fires, says Al J. Titus, deputy game warden. The warden has issued a general request that sportsmen and others passing through the woods be more careful about disposal of broken glass refuse.

Germany Pays Ten Billions.

London—Germany has delivered to the reparations commission bonds to the amount of 60,000,000,000 gold marks, the value of which is approximately \$10,000,000,000 at the present rate of exchange. The delivery of the bonds is in accordance with the Peace Treaty, and the commission proposes to hold them as security for, and in acknowledgment of Germany's debt.

M. Y. Veterans to Get Bonus.

New York—Soldiers from the state of New York who served in the world war will get a cash bonus from the state if the mandate of the pulls is carried out. Almost complete returns showed the bonus complete carried by about 2 to 1. The bonus proposition, as voted upon, calls for issuance of bonds not to exceed \$45,000,000 to provide funds. Update counties returned substantial majorities in favor of the issue and the Metropolitan districts favored it strongly.

WANT \$8,600,000 FOR UNIVERSITY

SPECIAL APPROPRIATION URGED TO MEET ACCUMULATED AND FUTURE NEEDS.

PRESTIGE OF SCHOOL AT STAKE

But Little Building At State's Expense During Last 20 Years; Alumni Subscribed the Funds.

Ann Arbor—The University of Michigan will ask the state legislature at its coming session for a special appropriation of \$8,600,000 for new and greatly needed buildings and additions to buildings already on the campus. President M. L. Burton submitted this building program to the state budget commission.

Even as this budget was announced President Burton said: "It must be clearly understood now that the accumulated needs of the university indicate that it will be necessary to ask the legislatures of 1923 and 1925 each for \$5,000,000 for additional buildings. Unless this financial aid is given to the university by the state, the school must sacrifice its prestige, and frankly concede that it cannot rank with other leading state universities in the west and mid-west."

During the last 10 years of Dr. Angell's presidency, there was little building done on the campus. Alumni Memorial building was erected, but it cost the state of Michigan nothing, for alumni and friends of the university subscribed the funds. The university ran with its old equipment on its own momentum.

In the 10 years of Dr. Hutchins's presidency some splendid buildings were erected, but with few exceptions these were gifts of alumni. The notable exceptions were the new science building, the new chemistry building and the new library, power plant and the first hospital units.

The rest, Hill auditorium, Martha Cook building, Helen Newberry residence, Betsy Harbour house, and the splendid Michigan Union were all gifts of alumni and friends of the university, involving no cost to the state.

WRANGEL'S ARMY WIPED OUT

Sebastopol Lost; American War Vessels Rescue Officers and Families.

Constantinople—The army of General Wrangel, anti-bolshevik leader in South Russia, has been wiped out and a number of his generals have killed themselves. A mob in Sebastopol has pillaged the American Red Cross stores.

The American torpedo boat destroyers at Sebastopol are evacuating officers and their families. The American destroyer Humphreys has gone to Yalta to take off Red Cross supplies.

The United States transport Farraly has arrived here with 300 sick and wounded, who were cared for by the American Red Cross. It is said the reds were joined by some Ukrainians in spreading terror among the populace in the Crimea.

LARGE TRADE DEBT TO U. S.

Europe Owes Nearly \$3,500,000,000 On Exports Since Armistice.

Washington—Europe's debt to the United States, incurred since the armistice, in private commercial transactions, now exceeds \$3,500,000,000 and closely approaches \$5,000,000,000, it was revealed by revised estimates of the federal reserve board.

Exports to Europe upon an unprecedented scale, officials said, account for some of this unfunded balance, which is entirely apart from Europe's debt to America on account of government loans. Board officials said that most of the obligations due the United States are being carried upon the books of foreign banks and business houses.

PLANE LOST NEAR MUSKEGON

Debris Strewn Along Shore; Seek Trace of Three Missing Flyers.

Muskegon—All hope for the three officers of the United States navy who started from Great Lakes naval training station was dispelled when coast guards from Muskegon and Whitehall found pieces of wreckage from the plane strewn along the shore.

The only chance the three men could have had of being saved would have been to have been picked up by a tramp steamer without wireless.

The wreckage was discovered by Edward Nedeau, of the coast guard.

The crew members were Edwin M. Clark, Peoria, Ill.; Harry C. Barr, Lake Forest, Ill., and Frank J. Caesar, of Hollywood, Ill.

M. Y. Veterans to Get Bonus.

New York—Soldiers from the state of New York who served in the world war will get a cash bonus from the state if the mandate of the pulls is carried out. Almost complete returns showed the bonus complete carried by about 2 to 1. The bonus proposition, as voted upon, calls for issuance of bonds not to exceed \$45,000,000 to provide funds. Update counties returned substantial majorities in favor of the issue and the Metropolitan districts favored it strongly.

# The TURKEY: America's Gift to the World

**TURKEY for Thanksgiving!** Well, rather. Why, otherwise it wouldn't seem like a Thanksgiving dinner. And don't let's have too much else—and mighty little ahead of it. Just a simple dinner, you know—turkey with dressing and gravy, mashed potatoes, cranberries, pumpkin or mince pie with Herkimer county cheese and cider. Let it go at that. Enough is as good as a feast.

Which reminds us that no king or haughty potentate of any kind, even in prewar days when they were many, could by any human possibility have a more toothsome feast. They aren't made, you know.

Which also reminds us that the turkey is America's gift to the world. The turkey is truly an American bird. It existed on the continent with the Indians before Columbus landed. Only a few years ago among the caves of Arizona the mummified remains of a turkey were found. Practically every cave once occupied by the cliff dwellers of that region contained the bones or feathers of the turkey, but this specimen is intact. Its age is a matter of speculation among the scientists of the National museum, where the specimen is on exhibition.

Another interesting fact in this same connection resulted from a scientific expedition which Dr. C. Hart Merriam made among the mountains of Arizona; he came across a living species of bird identical with the one found mummified—and which is known to the scientific world by his name.

Another recent discovery in connection with the turkey was a Maya hieroglyphic. This piece of parchment shows a grocer's account in which is mentioned, with other things, ten turkeys and five turkey cocks. The distinction between the two is quite apparent in the crude drawings. This is thought to be the first record of the turkey in this country and antedates the expedition of Cortes to Mexico in 1519.

But the turkey goes back further among the Indians than even the probable date at which the specimen found in the cave existed. Among the Zunis, for instance, there exist many legends handed down from time immemorial, which have for their subject the turkey.

Perhaps none is more interesting than the one which tells why his tall feathers are dark, showing, as it does, not only the place he held in the estimation of the Indians, but also a noticeable similarity to the flood story from our Bible.

Once upon a time, so the legend runs, there was a flood and the face of the world was covered with water. And the turkey, weary of continually flying, decided to seek some spot on which he might light and rest. But the other birds and animals advised him not to; and the very gods themselves warned him.

He refused, however, to heed either advice or warnings and set out in search of land. After much effort he discovered a single spot not covered by water and alighted. But he found it only deep mud. So he decided to hunt further for some dry place on which to rest. But, alas, when he came to fly, he found his tail feathers stuck fast in the mud.

He pulled and pulled, but could not get them loose. Finally, however, after a gigantic tug, he managed to free himself. But bits of mud stuck to the end of the tail feathers. And to this day turkeys have dark spots there—a sign of their disobedience to divine command.

The turkey plays a more important part in the life of the Indian than in his legends alone. Not only is it regarded as a choice article of food, but in many tribes it is held sacred. In the parts of the country where curious devotion to animals characterizes different stages in the development of civilization—it was never eaten except when other food was unobtainable.

Turkey feathers rank next in importance to those of the eagle with all tribes, while the Apaches, the Pamunkeys and Cheyennes chose the turkey's feathers for all ceremonial headaddresses and ornaments. The Pamunkey tribe also used turkey feathers for ornamental purposes on their clothing, as well as for their headpieces. To this day, when they don their native costumes, the turkey feather is preferred as an ornament.

If Benjamin Franklin's words had been heeded, the turkey would have been the national bird of the United States. The eagle is a first cousin to the species known of old in the eastern hemisphere. Furthermore, it has appeared upon the banners of many nations. It was a symbol of the Roman empire. It was known in China for ages, and today it appears upon the banners of Russia, Germany and several other nations.

The turkey, however, is indigenous to America. When the early European adventurers and settlers arrived they beheld great flocks of turkeys, and it soon became known that they were a favorite food among the Indians. After a while turkeys were proudly sent home as trophies of the chase. In this way the turkey became practically a world-favorite as a food.

When Cortes in 1519 ascended to the plateau of Mexico he found a social life developed to a high degree of refinement. He was entertained with oriental magnificence. All the delicacies to be found within the empire were set before him, and though game was abundant, the turkey held the place of honor among the fowl. This was the first time that the Spaniards had eaten turkey.

North of the Rio Grande the turkey was equally well known and treasured. The celebrated expedition of Coronado, between 1527 and 1547, penetrated this unexplored region west of the Missis-

## MAKES PLEA FOR FRIENDSHIP

Mexican President Elect Holds Out Hand of Fellowship to the United States.

El Paso, Tex.—Gen. Alvaro Obregón, president elect of Mexico, at a dinner given in his honor by the International exposition management, said: "The war era is over and I here call upon my good American friends to unite with me in abolishing the very word 'guerra,' and to eliminate

all friction between friends which has made the war cloud lower.

"Mexico does not underestimate the importance of this hour and moment and now that the time is opportune to accept your friendship we are going to make the most of it. We are constantly striving to bring a better economic situation. We extend the hand of fellowship to you."

Gen. Obregón arrived here on the first train from Mexico to enter the Union station in ten years.

Agustine Calderon, Mexican high

commissioner to the United States with rank of ambassador, in an interview explained the reasons for his decision, approved by President de la Huerta, to return to Mexico to the other members of his mission. The embassy will not be closed, Manuel C. Telles, secretary, having been nominated charge d'affaires.

Valuable Mahogany Log.

One of the largest mahogany logs ever marketed turned out 17,000 feet of solid wood.

## GOOD ROADS

### QUALITY OF ROAD MATERIALS

Bureau of Public Roads Seeking Information of Especial Value to Highway Engineers.

Such important questions as how hard a heavy motor truck pounds a pavement when going at 5 miles an hour and at 15 miles an hour are being answered by investigators for the bureau of public roads, United States Department of Agriculture, in a series of scientific experiments, which, when completed, promise to be of great value to highway engineers. Already sufficient tests have been made to show that increased speed of a vehicle equipped with hard rubber tires tremendously increases the impact which its wheels make on the roadway where there is any unevenness. On the other hand, where pneumatic tires are used increased speed adds comparatively little to the impact. It has been suggested that these tests will be of great value not only in settling questions of design but may also lead to a rational basis for determining license fees for motor vehicles.

Trucks have been used in these tests varying in size from a 1-ton truck up to a 7½-ton truck carrying an excess load. Each truck was run over a special recording device embedded in a roadway and the impact made by a 2-inch drop from a ledge built in the surface caused the deformation of specially prepared copper cylinders forming part of the apparatus. The magnitude of the blow was accurately ascertained in pounds by measuring the extent to which the cylinder had been forced out of shape.

Recent tests were made with a 3-ton truck loaded with a 4½-ton load so that the total weight on each rear wheel was 7,000 pounds, the unsprung portion (that not supported by the springs) being 1,700 pounds and the

Army Truck Remodeled by the Post-office Department for Rural Service—Pneumatic Tires Are Used.

spring portion (that portion supported by the springs) 5,300 pounds. The truck was equipped first with an old solid tire that had been worn down to a thickness of 1 inch. Then, with exactly the same load on the truck, a wheel was used fitted with a new tire 2½ inches in thickness. And finally the truck was equipped with pneumatic tires 42 by 9 inches and blown up to a pressure of 142 pounds per square inch. The test demonstrated very clearly the bad effects on old tires it is likely to have on a road surface and the greatly lessened impact produced by trucks when they are equipped with pneumatic tires. The tests show that as the vehicle's speed increased the impact from the old hard rubber tire increased greatly. The impact from the new hard rubber tire was somewhat less.

## BUILDING PERMANENT ROADS

Eventually Highways Will Be Made Suitable for Bearing Burdens of All Vehicles.

Only cardinal roads can be made of expensive material at great cost in money and labor, yet every road should, and will, eventually be made suitable for bearing the burdens in proportion to the number and weight of the vehicles that use them.

## HELP APPEARANCE OF ROADS

Trees and Shrubby Should Be Planted at Various Places Without Obstructing Traffic.

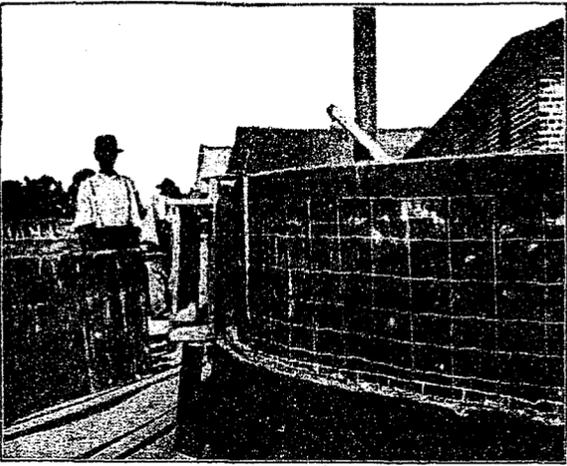

Now is a good time to give some attention to the appearance of public highways in the community. There should be trees and some plantings of shrubbery at places where they will not interfere with traffic.

Obstacles in Road Building. The building of improved roads to meet the traffic requirements is fraught with almost as many obstacles at the present day as that of half a century ago.

Best to Improve Roads. It is better to improve the roads than to pay an indirect tax for bad ones.

Highways Are Favored. Highways in place of railways are favored in Great Britain.

## MOST IMPORTANT THAT GREATER USE BE MADE OF CHEAPER FEEDS

Ordinary Wire Fencing Used to Reinforce Concrete Construction of a Silo.

To assist farmers and stockmen in feeding beef cattle economically during the coming winter, specialists of the United States Department of Agriculture point out the need for a liberal use of roughage. The meat situation in the United States requires a maximum of efficiency in feeding if production is to be maintained in the face of high costs for feed and labor. Recommendations of the department follow:

Economy should be the keynote in production. However, discretion must be used so that economy will be consistent with good gains. A ration might be so economical as to merely maintain the animal, but this would not be economy, when gain in weight was the object sought.

Greater Use of Cheaper Feeds. At the present time, when grain and concentrates are so expensive, it is all the more important that a greater use be made of cheaper feeds. The cheaper feeds are those raised on the farm and consist primarily of roughages. Then, greater economy will depend upon a greater use of roughages, properly balanced with some grain or protein concentrate.

It should be borne in mind that a balanced ration is not necessarily the most economical. A ration having a nutritive ration of 1.6 might produce the greatest daily gains on a two-year-old steer, yet, it might show better judgment and more profit to feed a ration with a ratio of 1.8, produced by utilization of a greater amount of cheaper roughages, and a lesser amount of high-priced concentrates.

The practice of feeding high-priced feeds, and not making a full use of roughages, is quite general throughout the corn belt. In some of the middle western states, very little straw is used for feed, but practically all for bedding. Quite often the cattle are allowed to run around the straw stack, resulting in a waste of at least 50 per cent of the straw. Straw, as dry roughage, forms a very prominent place in a ration for cattle, either in the fattening lot or when fed to stockers and feeders.

In some sections of Indiana oat and wheat straw make up the entire dry roughage for the greater part of the feeding period. In certain parts of Nebraska, where alfalfa is produced abundantly, the straw is used only for bedding. Even where alfalfa hay is fed, cattle will eat more or less of good straw, if they have access to it. It is a good idea to keep some straw before them. Let the cattle pick it over and use what is left for bedding.

Waste No Straw. Now is a good time to look at your straw stack. Trim up the stack by raking down the sides and properly turning so as to shed the fall rains. By spending a day on your straw stacks now you will save many a ton of straw which can be used in replacing considerable expensive hay next winter.

In some states most of the corn is cut, shocked, and husked out by hand later in the season. Why not let a shredder do the husking and have a roughage left, the greater part of which will be relished by the cattle? The shredded fodder, which is refused by the cattle, makes one of the very best bedding materials.

Corn fodder, while it is a good roughage, is not an economical one. There is a very large waste in handling. A large percentage of the leaves are lost, and the corn itself is about all the cattle get from the entire corn plant. Run your fodder through a shredder, feed the ear corn separately, and the greater part of the corn plant will be utilized. Corn fodder, however, can be used advantageously at the beginning of the feeding period in the fall or early winter. Range cattle that have never seen corn or grain of any kind can be put on feed more rapidly by starting on green or cured corn fodder. This kind of cattle will begin nibbling at the leaves and gradually get to eating the corn. On the other hand, if ear corn was placed before them it would be days before they would begin to eat it.

The use of legume hays, where grown on the farm, will obviate the use of high-priced protein concentrates. Good hay, however, is high priced and should be fed in such a way as to avoid any waste.

Corn stalks in the field, after the corn has been removed, should be utilized by turning a sufficient number of

cattle on them to clear them up completely before severe winter and snows come.

Protect Contents of Silo. The most important roughage, so far as economical beef production is concerned, is yet to be mentioned, and that is silage. Silage is no longer a cheap feed, but in the strictest sense of the word there is no cheap feed. Silage is worth at the present time from \$10 to \$13 a ton, depending upon local labor conditions and upon the quality and yield of corn. Even at these prices it makes one of the most economical cattle feeds. More cattle can be handled on a given farm area where the silo furnishes the bulk of the roughage. More feed can be stored per cubic foot of space than by any other means. Cattle can be fattened on silage, supplemented with a small amount of a highly concentrated protein feed, such as cottonseed or linseed meal, and a little dry roughage, such as oat straw. Stockers and feeders can be wintered on silage alone.

## LARGE VALUE OF OAT STRAW

Superior to Timothy Hay for Feeding Dairy Cows Because of Larger Amount of Protein.

According to average analyses, 100 pounds of oat hay will contain the following digestible nutrients; 4.5 pounds of protein, 33.1 pounds of carbohydrates, and 1.7 pounds of fat; or a total of 46.4 pounds of digestible nutrients. This hay will be superior to timothy for feeding dairy cows because it contains over one-third more protein. This will hold particularly true where protein feeds are high in price and difficult to secure. Ordinarily carbohydrate feeds, such as corn and barley, are relatively cheaper in price than protein feeds, such as gluten and oil meal, which are necessary to supplement rations of corn silage and timothy hay.

Clover and alfalfa hay are superior to oat hay, but mixed timothy and clover is practically the same in feeding value as oat hay.

To obtain the best quality of hay, the oats should be cut when in the flower or when the grain is in the early milk stage. If left until a later stage, the stems and leaves become somewhat more indigestible and are less palatable. Also the protein content is somewhat less where the grain is allowed to practically reach maturity.

## SUCCESS WITH SUDAN GRASS

Crop Can Be Grown in Nearly All Sections of Country—It Is Important as Catch Crop.

Sudan grass is being successfully grown in nearly all parts of the United States. It does not serve well either as a "mooey crop" or a soil improver, hence it may never find a permanent place in regular crop rotations. It has, nevertheless, a very important place in the farmer's second line of defense as a catch crop which can be planted to give satisfactory returns when conditions have brought failure to other hay crops.

Sudan grass is replacing millet as the premier catch crop in many localities because of its ability to produce a fair yield and a high quality of hay under conditions of low rainfall, its rather short growing season, and its ability to thrive on a wide range of soil types. Large yields of Sudan grass are obtained only on good soils, but the grass fails completely only on cold, poorly drained land.

## BIG CROP OF POTATOES

- To grow big crop of potatoes—
- 1. Have well-drained, fertile soil.
- 2. Prepare a deep seedbed.
- 3. Plant seed free from disease.
- 4. Plant seed improved by selection.
- 5. Keep seed from sprouting until planted.
- 6. Treat all seed for disease.
- 7. Cultivate thoroughly.
- 8. Spray for bugs and blight.
- 9. Rotate crops with legumes.
- Don't plant potatoes after potatoes.

## Uncle Walt's Story

### CLEANING THE DOG

"THIS is the most wonderful soap ever offered the public," explained the voluble agent, as he opened his grip. "It will clean anything under the sun. It will remove grease spots, polish tinware—"

"Oh, I have no doubt it will restore hair to bald heads and make chickens lay eggs," said Mrs. Curfew, sarcastically. "I feel quite satisfied it's made of barks and buds and healing herbs, but I don't want any of your marvelous soap, having had experience with other marvels of the same kind. Last fall an agent came along, selling a soap that would do everything you can think of, from beautifying the female complexion to chasing the cows out of the corn. The agent talked as though he had eight-day works in him, like our old grandfather's clock, and he didn't make any impression until he said the soap would heal all skin diseases of man or beast. It happened at that period that Mr. Curfew had an imitation bird dog that he traded a good watch for, and gave a dollar to boot, said dollar having been extracted from my private savings, and never returned.

"This dog had the mange or some disagreeable disease that caused him to itch in the most reprehensible manner. He was always scratching and rubbing against everything he could find, first and last. One day he upset my parlor table and broke all my best china, which I had placed on the table a few minutes before. He also upset the sewing machine and the churn, and I don't know what else.

"So when Mr. Curfew heard that the agent's soap would cure skin diseases, he insisted upon buying a cake, and after he had gone he began to wash the dog with that marvelous soap. I don't know what ingredients said soap contained, but after it was rubbed into the dog's skin that unfortunate animal became frantic and acted as though its reason tottered on its throne. Mr. Curfew tried to hold the beast, and it reached around and bit his ear almost off, and of course he released it then, and the uproar he made, as he danced around the house, holding his ear with one hand, and summoning the police with the other was simply scandalous.

"Meanwhile the dog ran off, entirely demoralized. Mrs. Turpentine was crossing the road pushing her baby buggy, when the animal collided with said vehicle, and spilled her offspring into the mud. I am willing to admit that such an experience was aggravating, but I don't think it was ladylike in Mrs. Turpentine to come over to my house with her muddy infant under her arm, and sluke her fist under my nose, and tell me that for five cents she'd pull all my hair out.

"Old Mr. Poppinjay was standing on the corner, leaning on his cane, waiting for a street car, when the crazy dog ran against his cane and he took a header into the gutter, and I really felt sorry for him when I saw him going home ten minutes later, dripping slush and mud like a searpernt, but I couldn't sympathize with him so very much when he picked up a brick as he was passing our place and smashed a panel in our front door.

"For two days people were coming here claiming that you ought to reimburse them for damages done by that dog. It seemed that the unfortunate animal made a circuit of the town, and left a trail of desolation behind him. He upset six pans of milk for Mrs. Trumpeter, and scared Smith's family horse so it ran away and injured several members of the family, and killed eight prize chickens for Mr. Dippy, and I don't know what else. In view of which, I think we can struggle along without any of your marvelous soap."

An Intellectual.

"You often hear it said that Mrs. Gillyher has all the brains in the Gillyher family."

"But Mr. Gillyher is a successful business man."

"Oh, yes. However, he merely makes money. While sipping tea and smoking a perfumed cigarette, Mrs. Gillyher can discuss more abstruse questions that have nothing to do with housework, or the upbringing of the Gillyher twins than any other woman in her set."—Birmingham Age-Herald.

Blocks Easily Removed.

A prominent tradesman in south-west London expostulated with a gang of road repairers regarding a small mountain of wood blocks dumped in front of his premises.

The protest being ignored, he superstitiously stuck a card, bearing the inscription: "Please take one," on the offending heap.

The philanthropic suggestion was quickly acted on by passers-by, and more than half the blocks had disappeared before a vigilant policeman removed the card.—London Express.

Miss Minnie Schaefele and Mr. Earl Bertke, both of Manchester, were united in marriage on Saturday, November 6, 1920. The groom formerly lived in Chelsea and has many friends here.

**"Cold in the Head"**

is an acute attack of Nasal Catarrh. These subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh.

HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.

All Druggists. Circulars free.

F. J. Cheney & Co., Toledo, Ohio.

**Order of Publication.**

State of Michigan, County of Washtenaw, ss. At a session of the Probate Court for said County of Washtenaw, held at the Probate Office in the City of Ann Arbor, on the 4th day of November, in the year one thousand nine hundred and twenty.

Present, Emory E. Leland, Judge of Probate.

In the matter of the estate of Herman E. Fletcher, deceased.

On reading and filing the duly verified petition of Anna C. Fletcher, widow, praying that a certain will in writing and now on file in this court, purporting to be the last will and testament of Herman E. Fletcher, be admitted to probate, and that Anna C. Fletcher or some other suitable person be appointed executor thereof and appraisers and commissioners be appointed.

It is ordered, that the 1st day of December next, at ten o'clock in the forenoon, at said Probate Office, be appointed for hearing said petition.

And it is further ordered, that a copy of this order be published three successive weeks previous to said time of hearing, in the Chelsea Tribune, a newspaper printed and circulated in said County of Washtenaw.

Emory E. Leland, Judge of Probate.

[A true copy] Horace C. Inougan, Register, Nov. 9-16-23.

Henry Fox and Eliner Roberts of district No. 4 school, Lyndon, were neither tardy nor absent this month; and had a perfect record for last month also.

The Young Ladies chapter of the Congregational church will meet Friday, November 19th, with Mrs. Ed. Pymouth. Scrub lunch supper at 6:30 o'clock.

Lafayette grange will meet Thursday, October 18th, at the home of Edwin Pellemier. The question for discussion will be, "The pay as you go road policy."

The Ladies Aid society of St. Paul's church will meet with Mrs. Ed. Fahrner, Friday afternoon. The program will be in English. All members and friends are invited.

Mr. and Mrs. J. W. Moilanen of Calumet are the parents of a son, born Friday, November 12th, 1920. Mrs. Moilanen was formerly Miss Phila Winslow of this place.

Mr. and Mrs. Will Hammond received a barrel of sweet potatoes from their son, Blaine Barch of Atlanta, Georgia, a few days ago. Will says he never before knew how good a real, honest-to-goodness, sweet potato could be.

The box social given by the Pumpkin College school at the William Fritz home in Lyndon drew a large crowd. There was \$26 clear from expenses. The school wishes to thank neighbors, friends and all, for their aid and attendance.

The weather continues cold generally from the Rocky Mountains eastward to the Atlantic coast with unusually high pressure. No rise in temperature is indicated in this section during the next 24 hours, but warmer weather is expected by the middle of the week. The weather will continue mostly cloudy, but no precipitation of consequence is indicated.

A Reliable Remedy for Colds and Croup.

It would surprise you to know the number of people who use and recommend Chamberlain's Cough Remedy.

Mrs. J. N. Rose, Verona, Pa., writes "Chamberlain's Cough Remedy has been used by myself and husband for a number of years for coughs and colds. I also gave it to my little granddaughter three and a half years of age when she had croup last winter. It broke up the attack at once. I have recommended this remedy to many of my friends and neighbors who have also used it with good results."

**Nature's Own Limitless Power Guarantees the Consumers Power Company**

Junction Dam on the Manistee River

**Its Preferred Stock at \$95 Per Share Yields 7.37%**

CONSUMERS POWER COMPANY practically controls the water power resources of lower Michigan. Only one-third of these resources have been developed. Junction Dam (pictured) on the Manistee River is but one of a number of great projects already completed. Undeveloped facilities include 60,000 acres of land, with 28 dam sites along the Au Sable, Manistee, Grand, Muskegon and Kalamazoo Rivers—capable of producing 200,000 additional horse power.

**Help Us Develop Needed Additional Electric Power**

The industrial necessities of Southern Michigan are pressing hard upon Consumers Power Company. More electric power is needed by local manufacturers. Nature has abundantly provided this territory with streams to develop electric power. Consumers Power Company is ready with the men who know how to make the streams serve the community. All that is lacking is money.

**Home Ownership of Stock is Best**

We offer the people of Southern Michigan the opportunity of investing in 7% Cumulative Preferred Stock of Consumers Power Company at \$95 per share and dividends. All the money raised from the sale of this stock stays in Michigan—goes right back into the communities from which it comes in new and larger facilities. We have hitherto raised money for development in the great financial centers of the United States. Sound economics recommends this other course.

**Invest in Michigan's Prosperity**

Our recent investigation indicated that about 500,000 customer-citizens in the United States hold public utility securities with a market value of above \$100,000,000. Why should you not be one of these prosperous citizens? Southern Michigan is one of the richest sections in the United States—why not invest in its prosperity? Consumers Power Company seeks the partnership of citizens in its own territory.

**Dividends Are Paid Quarterly**

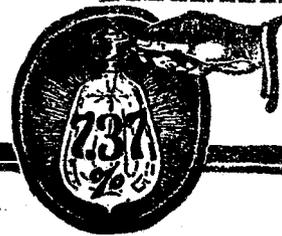

Four dividend checks a year, one every three months, will reach you promptly through the mail. Whether your salary stops or continues, the dividend checks keep coming. Remember, also, that these dividends are on Preferred Stock, which adds to the security of your investment, for Preferred dividends must be paid before any dividends may be paid on the common stock.

For further information ask any of our employees — or fill in the coupon.

**Consumers Power Company**

Chelsea, Michigan

**It Earns as It Burns**

**Read These Easy Terms of Offering**

**Plan No. 1 (Cash Payment)** Under this plan we offer the 7% Cumulative Preferred Stock of Consumers Power Company at \$95 per share and accrued dividend to date of payment for stock.

—OR—

**Plan No. 2 (Time Payment)** Under this plan we offer the 7% Cumulative Preferred Stock of Consumers Power Company at \$95 per share on a time payment plan; \$10 per share payable at the time of purchase; \$10 per share each month for seven months and \$15 for the final payment. We agree to pay interest at the rate of 7% per annum on the monthly installments paid to us, this interest to be credited to the purchaser on the books of the Company. Dividends from the first dividend date prior to the final payment will be charged to the purchaser and an adjustment made. No more than 25 shares may be purchased by any person under this time offering.

Purchasers under this plan have the option of withdrawing all partial payments at any time prior to the date of final payment for the stock, on 10 days' notice, and in the event of such withdrawal, the Company agrees to pay 3% interest on the amounts paid in up to date of notice of withdrawal.

**You Need Pay Only \$10 Per Share Down and the Balance Monthly**

While you draw interest at 7 per cent on money you pay until you own the stock. Ask any of our employees to tell you about this Preferred Stock issue of Consumers Power Company. They will give you details.

**Consumers Power Company**

Gentlemen:—Please send me full information regarding your 7% Cumulative Preferred Stock. It is understood that this request places me under no obligation to purchase.
