

ABOUT SCARLET FEVER

Is One of Most Baffling of Diseases;
Children Are Most Susceptible.

Now that it is recognized that Chelsea and vicinity is quite generally "peppered" with scarlet fever, a few facts regarding the disease may not be amiss.

Unlike diphtheria there is no way of telling who is and who is not susceptible to scarlet fever. Though the disease may be contracted at any time in life, less than 5% of all cases occur in persons more than 15 years of age. Children between five and 10 years old are most susceptible.

On the whole scarlet fever is perhaps one of the most baffling of diseases. All we know about it is that it is spread from one person to another by contact. We believe that the discharges of the mouth, nose, ears, and throat carry the contagion. Many children with only a slight fever and a sore throat may have scarlet fever and never be detected. Yet these "mild cases" often give the infection to others who have the disease in the most malignant form.

Scarlet fever's coming is announced by sore throat, headache, fever, and vomiting. The onset is often very sudden, the fever reaching 104.5° F. in the first 24 hours. On noticing the symptoms of the disease a physician should be called immediately and his instructions followed to the minutest detail, for since there is no specific remedy for scarlet fever its control must lie in prevention.

Characteristic Symptoms.

Inflammation of the throat and mouth is a prominent symptom in scarlet fever. The tongue is red at the edges and furred in the center. On the second day or later, after the

first signs of illness, little red spots may be seen through the fur. In a few days the fur disappears, leaving the so-called "strawberry tongue" with a red, rough surface.

One of the most common developments of scarlet fever is the inflammation of the kidneys which may appear in the second or third week. In addition, ear complications are very common. The extension of the throat inflammation to the interior of the ears through the canals which open into the throat cause the ear infections which result in loss of hearing, or dangerous brain complications.

The Duties of Parents.

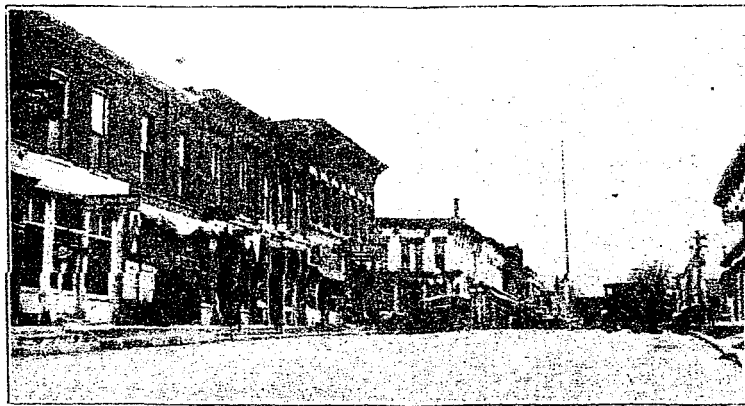

Parents should observe precautions and sanitary rules in regard to scarlet fever that they would for one of the plagues. Children should be kept from mingling with children who may have been exposed. In prevention two things should be remembered: Early recognition of the disease, and immediate quarantine of the sufferer.

Regulations To Be Observed.

Cases must be reported; placard placed on house; quarantine minimum 28 days, or longer, until recovery is complete; head of family may be disinfecting and released; children not ill in the household may be disinfected and quarantined elsewhere for 10 days and then allowed to go to school; patient shall not enter school or other public assemblies until 10 days after quarantine has been raised; complete disinfection of rooms and clothing after death or recovery of patient; dairy products cannot be sold from premises where this disease exists.

CARD OF THANKS.

We take this way of expressing our appreciation, to all, for acts of kindness and sympathy shown us during our recent bereavement. Mr. and Mrs. Joseph Mayer and family.

INCOME TAX RETURNS

Deputy Collector Will Be Here Soon
To Assist in Making Reports.

Deputy Collector of Internal Revenue B. N. Haight will be at the Chelsea postoffice from 2 p. m. of February 9th to 4 p. m. of February 11th to assist taxpayers in filing their 1920 income tax returns.

There is no charge for this service but those who ask for assistance in making their returns should fill out the work sheet to the best of their knowledge and have their figures compiled in shape to save time.

All who filed a return for 1919 will receive a 1920 blank by mail, other blanks will be at the postoffice, the banks, or can be secured by request from John A. Grogan, collector, Detroit.

Who Should File Returns.

"If you are married and living with your wife and the net income of your wife, yourself and dependent minor children is \$2,000 or more you must make a return though you may not be subject to tax."

"If you are single, or not living with your wife, or if you are single and the head of a family and your net income is \$1,000 or more you must file a return though you may not be subject to tax."

"Every partnership must file a return though a partnership pays no tax."

There are penalties for failure to file in any of the above cases.

Mr. Haight will assist only individuals and partnerships at this time. A revenue agent will be assigned at this time, or later, to assist corporations. Dates will be given as soon as possible.

JOHN L. STAPISH.

John L. Stapish, formerly of Lyndon township and well known to many in Chelsea and vicinity, died Sunday, January 23, 1921, at his home in Flushing. He was 58 years of age. His widow, two sons and two daughters, all of Flushing; one brother, Charles Stapish of this place, and two sisters, Mrs. E. H. Doran and Miss Agnes Stapish of Detroit, are left to mourn their loss.

The funeral will be held Wednesday morning at ten o'clock from St. Mary church, Chelsea.

STUDENT SHOT IN ANN ARBOR.

August Conrad Muehlhauser of Sandusky, Ohio, was shot and seriously wounded by Policeman Robert Clark of Ann Arbor, early Sunday morning. The wounded man and a party of friends were intoxicated and creating a disturbance on South Ingalls street and resisted arrest when the officers were called. Muehlhauser attempted to run away, and Clark is alleged to have shot him in the back.

HONORS THE VETERANS.

An impressive scene was enacted in the state legislature in Lansing, recently, in the election of house officers when a postmaster was elected and Speaker Warner delegated two members of the house to escort him to the front; not only the postmaster, but also the two members escorting him were veterans of the Civil war and when they passed towards the front every member rose to his feet and cheered them long and loud, which proves that their work has not been forgotten.

SCHOOLS CLOSED THIS WEEK.

Chelsea schools are closed this week on account of the scarlet fever epidemic, but other public meetings have not been closed as yet. The movies will be allowed to operate, excepting that children shall not be allowed to enter; and a similar restriction has been placed on other public gatherings.

Tribune job printing pleases particular people.

PLANS FOR COUNTY PAGEANT.

A county pageant based on the history and development of Washtenaw county has been proposed by the county community board. The scene of the different episodes would depict not only the periods of occupation by the Indians, the coming of the early settlers and different stages of industrial and educational development of this county, but would reproduce, also, some of the interesting events as related by the oldest settlers now living.

The school children would participate through writing the history of their community or township, or in interviewing pioneers and reproducing the facts that cannot be found in histories. The adult groups of the different communities would select the chapter of Washtenaw history they wish to portray, rehearse it locally then give it as one scene in the greater picture in the big out-of-door celebration.

An open meeting to hear details of the proposed historical pageant will be held Friday evening, February 4th in the circuit court room of the Court House in Ann Arbor, at 7:30 o'clock, central time.

All rural, village and city organizations are invited to send representatives. Opportunity for suggestions and discussion will be given so that all parts of the county may be heard from.

REDUCED RATES TO E. LANSING

Farm bureau members attending the annual convention of the State Farm Bureau and Farmers' week at East Lansing may do so for one and one-half fare, according to a statement received by H. S. Osler, county agent, from the State Farm Bureau.

To get this reduced fare the member will secure an identification certificate from Mr. Osler which will be honored by the railway agents.

The delegates who will attend from Washtenaw county are George McCalla, George Gage, Walter Rawson, William Hoover. Many others from the county are planning to go for all or part of the week. At least five thousand persons are expected to be in East Lansing between January 31 and February 4th, the dates of Farmers' week. Twelve state farmers' organizations will hold their conventions simultaneously. A group of the best speakers in the country will be present. An exhibit by the departments of M. A. C. and a grand pageant are among the special features.

There is a tendency for compasses on boats to vary when the vessels are rounding the tip of the Keweenaw peninsula.

PREDICTS CUT OF BILLION IN U.S. TAX

OHIO CONGRESSMAN SAYS BIG REDUCTION IN FEDERAL EXPENSES LOOMS.

CRITICISES EXCESS PROFITS TAX

Short Period of Deflation is All That Stands In Way of Period of Prosperity.

Detroit—"The present congress is going to cut charges on the government treasury to the very bone," declared Congressman, Simeon D. Fess of Ohio, principal speaker at the 30th annual banquet of the Detroit Real Estate board.

"Four billions, the estimate made by the secretary of treasury as necessary to be raised by taxation during the year, should be cut down a billion dollars by reducing the cost of government," said Mr. Fess. "The reduction of the army to a reasonable size, the discontinuance of a naval program that contemplates dreadnoughts costing \$10,000,000 and the elimination of superfluous jobholders in Washington will make this possible."

Congressman Fess characterized the excess profits tax as the "most foolish piece of legislation ever drawn." He advocated its repeal and the elimination of high ranges in the income tax suggesting instead an increase in the corporation tax from 10 to 15 per cent, an increased tax on tobacco and cigars, increased postage, a stamp tax and restoration of import duties similar to those in the Aldrich bill.

A short period of deflation is all that stands between the country and a period of prosperity ahead, he said. Slowly deflating prices, better relationship between labor and capital, and increased production revealed a healthy trend.

Triest—Gabriele D'Annunzio left Fiume in an automobile. His departure was pathetic. The poet made a long speech in the council hall, and Dr. Grossich, the provisional governor, replied. The stores were closed and there was a great public demonstration.

Sears, Roebuck Pays Dividend.

Chicago—Directors of Sears, Roebuck & Co. declared a 2 per cent scrip quarterly dividend payable February 16, to stock of record January 31. The scrip is redeemable August 15, 1921, with interest at 5 per cent. This is the same as previous dividends except that it is in scrip instead of cash.

Ku Klux Klan Lawful

Atlanta—A reward of \$100 is offered by Col. William J. Simmons, imperator wizard of the Knights of the Ku Klux Klan, for the conviction of "any person, anywhere, who uses the name Ku Klux Klan in a unlawful manner or in connection with any purpose or movement not sanctioned by law."

Dividend Paid By Nash Motors.

Kenosha, Wis.—The annual statement of the Nash Motors company, for 1920 shows a net profit of \$7,097,947 after deducting all charges. This equals, after deduction of \$315,000 preferred dividends, \$322.49 a share on the 54,500 shares of common stock. This earnings compares with \$95.06 a share in 1919.

Buried Wrong Husband.

Grantville, W. Va.—Mrs. George Willis is happy over the return of her husband. But she is mourning the expenses of a funeral of a man who was believed to have been her spouse. Willis was reported dead. The wife identified the body and paid the funeral costs. Then George returned from his job in the northern part of the state.

McMillen to Return to Pole.

Wheeling, W. Va.—Donald B. McMillen, who accompanied Peary, discoverer of the North Pole, on his expedition in 1907, announced here that he would leave again for the arctic regions July 6, for the purpose of further bringing back to the United States new discoveries in science, geology, zoology and botany. He will sail from Boston harbor on the schooner Bowdoin, which is named after McMillen's alma mater at Bowdoin, Maine.

LANSING LETTER

FIRST STEPS TAKEN FOR CREATION OF NEW BOARD

Early Enactment of Reform Legislation Looked For; Would Repeal Primary Law.

Both branches of the legislature adjourned late last week but before voting the three-day adjournment, steps toward obtaining immediate action on Governor Groesbeck's plan for reorganization of the state government were taken. Gov. Groesbeck in conference with Lieut-Gov. Thomas Reed and Fred L. Warner, speaker of the house, decided to abandon plans for a steering committee made up of members of both houses, and bills were presented providing legislation to work out the changes as outlined in the governor's inaugural message.

CENTRALIZED POWER

As now proposed, the bill to create the administrative board would abolish the budget commission, the office of budget director, the office of state purchasing agent and provide for a state architect to supervise the construction and repairing of state buildings. The bill for the auditing of the state's accounts provides that the auditor-general shall be the auditor of all accounts pertaining to state institutions.

Under the plan outlined, the administrative board would be composed of the governor, who shall act as chairman, the secretary of state, state treasurer, auditor general, highway commissioner and superintendent of public instruction. In this way administration of state affairs will be centralized in the executive officers. In both houses, the bills have been referred to the committee on state affairs. A two-thirds vote is necessary for passage of the measures, and both become effective upon passage and approval.

STATE CONTROL OF FAIR

The board of directors of the Michigan State Agricultural Society at a meeting held in Detroit last week, voted unanimously in favor of state management and control of the State Fair and John S. Haggerty was named as chairman of a committee of five to open negotiations with the Legislature to formulate arrangements. The Detroit meeting of the board of directors was attended by 20 of the 24 directors. Gov. Groesbeck recommended in his message that the state take over the State Fair and operate it for the best interests of the state.

It is generally accepted that the governor's proposed department of agriculture, besides absorbing the duties of other state agencies, will also take over the State Fair and make it a true exhibition of the state's standing and progress in agricultural pursuits. The transfer to the state will involve real estate assessed at \$2,000,000 and buildings valued at \$1,000,000. Many new additions are also looked for under state control.

INSPECTION TRIPS MADE

Informal announcement has been made of the resignations of I. Roy Waterbury and William H. Wallace from the board of agriculture. The terms of both expire next December and should their resignations be accepted, it will mean the naming of their successors in next spring's election. Nominees will be named at the Republican State convention to be held Feb. 17 in Detroit. The upper peninsula is making a bid for a place on the board for John A. Doelle, Maitland, secretary-manager of the Upper Peninsula Development Bureau. Others mentioned are T. F. Marston, Bay City and C. B. Cook, county agent for Oakland.

During the adjournment period many of the committees were away on inspectional trips, and with the reconvening of the session this week, the legislature was faced with much legislation to provide for changes recommended. Senator John W. Smith, chairman of the committee on penal institutions, has a plan for a complete revision of the system for handling men and women in the state prisons. Sen. Smith's plan has the approval of Gov. Groesbeck.

WOULD ABOLISH PRIMARY

Senator Arthur E. Woods, Detroit, will introduce a bill asking the repeal of the Michigan presidential preference primary act. Immediate abolition of the Michigan Community council, regardless of whether the legislature investigates its affairs, is urged in the senate by Senator Herbert Baker and in the house by Representative Charles Culver, both of Detroit.

Senator Wood's bill to repeal the presidential primary has already been introduced in the senate and is expected to result in a long discussion. Governor Groesbeck will appoint a committee of three members to negotiate with the federal government towards retention of Camp Custer, according to a resolution by the senate. Quick action is necessary if the state is to succeed, as announcement was made last week by Secretary of War Baker that the federal government would not postpone the sale as it was

now costing \$7,500 a day. Michigan's bank account is "white" just \$8,792,715.05, according to official figures in the office of Auditor General C. B. Fuller, a deficit which he points out can only be made up by direct taxation.

ASK AID FOR MOTHERS

Gov. Groesbeck appointed Attorney Joseph A. Moynihan as Wayne County Circuit Judge to fill the unexpired term of George P. Codd. On groesman-elect. The Governor was visited by a committee of Detroit women interested in legislation providing aid for dependent mothers, and he instructed them to see that a bill is properly drawn up and submitted to the attorney-general and then to the legislature and assured them of his hearty co-operation in the matter.

The justices of the supreme court have filed protests against the proposed removal of the state law library to the new office building, claiming it will be inconvenient. The Michigan Farm Bureau has invited its members to give their views on the proposed soldiers' \$30,000,000 bonus bill, also the state income tax.

New bills are not going into the legislative hopper very rapidly this far. The most discussed new measure of the first week was Rep. Peter Leeson's bill to prohibit aliens from owning firearms. The intent of the bill is to prevent foreigners of criminal tendencies from possessing sawed-off shotguns. Flint, which is in Rep. Leeson's district, has had considerable trouble with such foreigners. It is questioned, though, whether the constitutionality of the bill would be sustained if it is enacted.

"FULL CREW" BILL UP

The railroad workers again have had their "full crew" bill presented to the legislature. Senator Byron Hicks introduced it. Under the terms of the bill freight trains of fifty cars or more must have a full crew of all men. The provisions add one flagman to the crew now operating such trains. When a freight train is composed of less than fifty cars, a crew of five men would be allowed. On passenger trains the bill fixes the number of the crew at five. Flagmen must have at least a year's experience in railroad work before being permitted to work on passenger trains.

Rep. Strom, of Kent county, has introduced a moving picture censorship bill, to provide for a board of three censors with an office in Detroit. The bill is similar to that which failed of passage in the last legislature. Moving picture interests are preparing to combat the bill. Notice will be placed on all pictures shown in movie houses that the films have been censored by the Detroit officer assigned to that duty. The battle over a state censorship gives promise of surpassing that of the last session in bitterness and also is more likely of final passage because of the number of women who are backing the proposal and who now are voters.

DEPENDENT ALIENS CONSIDERED

Rep. G. Oliver Frick, of Detroit, who used to be the federal immigration inspector in Detroit, has introduced a bill providing for the investigation and deportation of aliens now being supported in public and semi-public institutions of the state. Rep. Frick declares that the measure, if made law, will save the taxpayers of Michigan hundreds of thousands of dollars a year. The bill would require the heads of state institutions to make and file with the auditor general a report showing all aliens under their charge, which information can be turned over to the federal immigration officials for action.

Immediate reforms in the handling of state money are needed, it has been decided at a meeting of members of the house ways and means committee, with Gov. Groesbeck. It is proposed to put an end to the practice of institutions going into debt on the ground that emergencies demand it, the state then having to make up a deficit. If the plan is followed out it will be necessary for the institutions to present the "emergency" to the state officials before they are allowed to make expenditures. The big deficit now existing in the state funds is blamed on the failure of the last legislature to make provision for certain running expenses of institutions, the theory being that the new budget commission would be able to take care of them. But the debt to the general fund that existed was not wiped

"A NATION SAVED BY AMERICA," SAYS CLEVELAND H. DODGE

New York Business Man Describes Vast Armenian Work of Near East Relief.

Cleveland H. Dodge, New York banker and business man, director of the National City Bank, and treasurer of The Russell Sage Foundation and of the Near East Relief, declares that "a nation has been saved by American philanthropy, and the generosity of the American people through the Near East Relief, in its work for the Armenians."

"The lowest official estimate indicates that one million persons are living today who would not be alive had it not been for this relief," Mr. Dodge continued. "I have an autograph letter from Dr. H. Ohundjanian, president of the Armenian Republic, in which he writes: 'America literally saved us from starvation.'"

"Wholly aside from adults who have been saved from starvation, we today

CLEVELAND H. DODGE.

have in orphanages and elsewhere under our care 110,000 homeless, fatherless or motherless children who are absolutely dependent upon us. This is exclusive of 63 hospitals with 6,552 beds, 128 clinics, rescue homes for girls and unnumbered thousands of refugees who are being helped through our industrial relief and in other ways.

"The Near East Relief has during the last four or five years commissioned and sent to the Near East more than 1,000 American relief workers, of whom 700 are still in the field, all of them working at great financial sacrifice—the standard of salary being \$50 per month and maintenance—and many of them facing great personal danger and hardship in the performance of their life-saving service. A score of them have died from typhus or other diseases more or less related to their faithfulness in the performance of relief service.

"Nor is that all. We have raised and disbursed during war times and in a war-torn area, in large measure under enemy control, more than \$11,000,000 in cash, and including flour, Red Cross and other supplies administered by our agents, a total of cash and supplies in excess of \$50,000,000. The official reports show that on June 30, 1920, we had in orphanages 54,000 children, and that we are partially supporting outside of the orphanages 55,000 children, making a total of 110,000 boys and girls now under the care of the Near East Relief."

Mr. Dodge considers the work of the Near East Relief one of the most stupendous undertakings of disinterested philanthropy the world has ever seen.

"It countries whose population totals more than 20,000,000, American idealism exemplified by the work of the Near East Relief constitutes today a torch of enlightenment and an influence for peace throughout the whole Near East," he maintains. "Our American ideal of liberty, industry and helpfulness has brought us as a people happiness, prosperity and fulfillment. Out of the fulness of this heritage we are furnishing a faithful and undaunted Christ in a people's brotherly aid which will enable them to reach the same fulfillment that God has given us."

"It is an achievement of which every American may well be proud."

For a Persistent Cough.

Some years ago H. P. Burbridge, a student at law in Greenville, S. C. had been troubled for a long time with a persistent cough which he says "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Having seen Chamberlain's Cough Remedy advertised he concluded to try it. "I soon felt a remarkable change after using two bottles of the small size was permanently cured."

CITIZENS WORK FOR COUNTY HOME RULE IN MICHIGAN

PLAN IS TO ASK LEGISLATURE TO PASS CONSTITUTIONAL AMENDMENT AT THIS SESSION.

WOULD ENABLE COUNTIES TO CHOOSE FORM OF GOVERNMENT

If Amendment Is Passed Each County, By Popular Vote, Could Do Away With Wasteful Systems Now In Force.

Following a meeting at Lansing to confer with state officials, including members of the legislature, the governor, and the attorney general, on the question of county home rule for Michigan, a statement was given out by Secretary C. Roy Hutton of the state committee of citizens regarding the object and plan of the project.

"Since this idea was first launched about a year ago," says the statement, "it has been discussed in many parts of the state. It is unfortunate that we have had no plan of fixed nature to advocate, but have waited till all possible views and opinions might be expressed before framing the measure for the legislature. We followed this method so that everybody might have a chance to express an opinion, but as a result some false notions of the proposal have gotten out and have been given circulation."

"This is a plan for securing county home rule in government by constitutional amendment and subsequent action of the legislature. It absolutely is not an effort to give control of any county to the largest city, in that county. It is not limited to the commission plan of government for counties. It is not a personal attack on any county officials as such, and instead of being a new and novel idea, it has already been tried in California and some other states, with much satisfaction."

"It happens that the glaring defects of the ancient county system, or lack of system, show up strongly where a modern city government stands in contrast with that of the county. Hence in Wayne, Genesee, Bay, Kent, and similar counties, the idea of county reform has started with vim. But in none of these cities."
