### TUBERCULOSIS FOUND IN JERSEY HERD

Owing to an inspection for tubercular germs, one of the best Jersey herds in the country has been found to be in a bad condition.

Fred Notten, Jersey dairyman, of Sylvan, requested some time ago that his herd be inspected. The herd was placed under Federal inspection and Inspector McGlaughlin was sent here Thursday, February 3, to examine the herd. Out of the thirty-one head of cattle inspected twenty were found to be reactors. Included in the reactors is Mr. Notten's best cow, which has produced over six hundred pounds of butter per year and valued at \$1,000. Also the herd sire, valued at \$1,000. Mr. Notten has placed fifteen cows in the advanced registry, which requires a record of over 300 pounds of butter per year.

The reactors will be taken to Jackson and slaughtered on Friday, February 11. They will be appraised by both the State and Federal Departments. There is a possibility that Mr. Notten will be allowed \$150 each for the cattle killed. If not rejected, the meat may be sold for beef to government inspected shops in Jackson.

Mr. Notten is a member of the American Jersey Cattle Club and is in touch with the best Jersey breeders in the country. He expects to build up his herd again, which will take some time for his buildings must be disinfected and whitewashed and the remainder of his herd will be inspected in about six months.

The following was taken from the Grand Rapids Press, February 4:  
Miss Belle Looney, 51, for eight years supervisor of the city scarlet fever hospital, died suddenly Thursday morning at her home, 322 State street.

Miss Looney's relatives in Chelsea were notified of her death by Health Officer C. C. Slemmons. Miss Looney went to the scarlet fever hospital soon after it was opened and continued on active duty, aiding in building up this institution, for eight years and three years ago asked to be relieved. "Miss Looney," said Dr. Slemmons, "was one of the most faithful servants the city health department ever has had. It was partly through her untiring efforts that the isolation hospital was made the success it is."

### BOOTLEGGERS ARE CAUGHT AT SALINE

Ann Arbor Times News: Deputy Sheriff George Cook of Saline brought two negroes and 118 quarts of whisky to the County Jail Saturday morning following an arrest made near Saline Friday afternoon.

The two men who, the sheriff says, were caught in the act of transporting intoxicating liquor gave their names as Richard Brown and Walter Strickland of Detroit.

The men were apprehended Friday after they had passed through Saline with what appeared to be a heavily loaded car. Deputy Cook's suspicions were aroused and he followed the car. In the back end of the car were 118 quarts of whisky.

The men stated first they came from Detroit and were bound for Ohio, while in a later statement one of the men claimed the wet goods were headed for Tecumseh.

When arrested neither of the men was armed and they made no resistance. They stated that their boss was proceeding them with another load and intimated that he would be willing to pay a large sum for their release. However, Deputy Cook told the men that money was no object to him and promptly brought them to the county bastille.

Hammond, 210 Everard street, Thursday afternoon at 3 o'clock, when their daughter, Miss Catherine was married to Ernest L. Pierce, Rev. C. L. Owen, pastor of the Wall Street Baptist church, officiating. Rosebuds and sweet peas were used throughout the home forming an artistic setting for the happy occasion, while the ceremony took place in front of the fireplace, which was arranged with rosebuds and sweet peas.

The bride wore a modish suit of broadcloth in taupe shade, trimmed in beaver, while her hat was a smart model of silk and straw braid in henna color, a corsage of violets completing the toilette. The bride and groom were unattended.

After the ceremony, a delectable three-course wedding luncheon was served, the rosebuds and sweet peas adorning the dining room table. Some 20 guests, immediate relatives, were in attendance.

Mr. and Mrs. Pierce left immediately for a honeymoon trip to New York city, and upon their return, will be at home at 501 Union street, after March 1.

Ann Arbor. Plans for the reorganization of the university's naval reserve force were outlined Friday night at the Michigan Union by Lieut. Commander R. T. Brodhead, senior naval reserve officer.

Jackson. Henry Larue, fatally injured Friday morning at 12:30 when his car ran into a passing train at the Stewart avenue crossing, died at the hospital at 7 o'clock Friday morning. Mr. Larue was cashier of the Michigan Central freight office in Jackson.

According to reports \$22,000 worth of stock has been sold within the last twenty-four hours. And the company promises to be operating within 60 days.—Argus.

Ann Arbor. "Enrollment at the University of Michigan will not be limited to any fixed number of students," said president M. L. Burton, when he was informed that President Hibben, of Princeton University, had announced that the enrollment would be limited to 2,000 at Princeton in order to secure closer contact between instructors and students. "The University of Michigan is a state institution," declared president Burton, "and it is the duty of the institution to admit any student who has the required qualifications."

Northville. Conductor Starkey of the D. U. R. made a fortunate purchase in this village last Sunday night. He went to W. H. Elliot's store to purchase some ice cream to take home, but the supply of cream having been exhausted during the day, he decided to take a pint of oysters. As his good wife was preparing the oysters for their Sunday night lunch, she discovered two "stones" which she took to a jeweler on Monday morning and received an offer of \$150 for them, being assured her discovery were pearls. Mr. Elliot does not sell pearls in every pint of oysters, but he does contend that he is giving his customers more than their money's worth with every purchase made at his store.—Record.

## WHY SUFFER SO?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Chelsea people recommend Doan's Kidney Pills. Ask your neighbor. Could you ask for stronger proof of merit?

Mrs. Chas. H. Hagadon, 425 Congdon St., Chelsea, says: "I know Doan's Kidney Pills can be depended upon for any form of kidney trouble and it is a pleasure for me to recommend them. I used Doan's while living in my old home in New Weston, Michigan. At that time my kidneys were bothering me and backache kept me from getting through with my housework. I would be dizzy by spells and could see little black specks floating before my eyes. My kidneys didn't act regularly and in different ways showed signs of disorder. As Doan's Kidney Pills had been used in the home successfully I decided to send to the druggist and get a box. I was surprised how quickly they helped me. Two boxes cured me of the trouble and I have felt well ever since."

The business of the Nulyne Laboratories was established in 1901, and has developed from a modest beginning to its present large proportions. The company manufactures Private Formula Products, Dentifrices and other preparations and compounds for scientific, medicinal and domestic use.

Nulyne Laboratories originated and manufactures Chlorox Tooth Paste, which is extensively advertised, and which is being sold and distributed by more than 25,000 retail druggists throughout the United States.

Nulyne Laboratories has a manufacturing capacity of 5,000,000 tablets and 300,000 tubes of Chlorox Tooth Paste per day. The margin of profit in the manufacture of private formula products and Chlorox Tooth Paste is probably as great or greater, than any other line of manufactured commodities. The object of the present offering is to provide working capital, and to handle additional large contracts for private formula products.

The Charter of the Company provides that 50% of the Company's net earnings, as reported to the Federal Government, after deduction of taxes, shall be declared and paid in dividends each year. After 8% has been declared on the Preferred and 8% on the Common Stock, the Preferred and Common Stock share equally. (See provisions of Charter and Stock Certificates). The above provisions, in view of the Company's established business and opportunity for profitable operation, make the issue, with its bonus of Common Stock, a most desirable investment.

Most wise investors are buying, right now, all the sound securities they can. They realize that the general market situation has brought about a condition where good, safe investments can be bought on a basis of high yield. If your available cash is low you may be able to take advantage of my time payment plan, or perhaps you may be able to take advantage of this unusual condition by re-investment. Look into your safety deposit box and see if there are not some securities that you could profitably exchange for higher-return (and equally safe with the 50% clause) investments.

## DRESSMAKER MADE WELL

Followed a Neighbor's Advice  
and Took Lydia E. Pinkham's  
Vegetable Compound

Vernon, Tex.—"For three years I suffered untold agony each month with pains in my sides. I found no temporary relief in doctor's medicine or anything else I took until my husband saw an advertisement of Lydia E. Pinkham's Vegetable Compound. I mentioned it to a neighbor and she told me she had taken it with good results and advised me to try it. I was then in bed part of the time and my doctor said I would have to be operated on, but we decided to try the Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am a dressmaker and am now able to go about my work and do my housework besides. You are welcome to use this letter as a testimonial for I am always glad to speak a word for my medicine."—Mrs. W. M. STEPHENS, 1103 N. Commerce St., Vernon, Texas.

Some Real Hunting.

"Well, Joe," said Wilkins, as he met his friend Robinson on the avenue. "Did you get any good hunting up in Maine?"

"How sure did," said Robinson. "We sure that new dog Brown sent you work?"

"Splendid!" was the reply. "Fact is, if it hadn't been for that dog we wouldn't have had any hunting at all. He ran away at the first shot, and we spent four days looking for him."

"Yes."

"I don't think so. He's just the best diplomat I have around here."

"A diplomat. What don't you get it?"

"It's this way. The artful little chap is wise to the game and every time the man he is caddying for makes a poor shot the boy looks sad and apologizes to him for having coughed or moved. That gives the player an excuse for losing the hole and keeps the boy solid in his job."

A STRANGE STORY

Detroit, Mich.—"When I was about twenty-three years of age I suffered from general breakdown, due to worry and overwork. I was also troubled with catarrh. My appetite became erratic, indigestion resulted and constipation followed. After seven months of suffering my wife had me use Dr. Pierce's Golden Medical Discovery, Pleasant Pellets and Dr. Sage's Catarrh Remedy, and in spite of the physicians' predictions, and my own doubts, I gradually began to feel better, and in less than three months I was well."—HARRY VANDERBURG, 213 Euclid Ave.

Germany Says She Will Not Pay  
the Reparations Fixed by  
Supreme Council.

'WOULD ENSLAVE THE NATION'

Putting on Poor Face for Effect—American Unpreparedness Receives Some Blows—Dawes Vigorously Condemns War Management Critics—Latest Cabinet Guesses.

By EDWARD W. PICKARD.

Germany says she neither can nor will pay the total of reparations that was fixed by the supreme council—54 billions in 42 years and a tax of 12 per cent on her exports during the period. Eminent financial and economic experts of the allied countries and America agree that Germany will find it impossible to pay that sum and survive. Nevertheless, it is probable that the German representatives in the forthcoming London conference will sign the agreement laid before them, and that the allies therefore will get from the defeated country as great a proportion of the 54 billions as they can, modifying the terms from time to time.

The official protest of Germany was voiced by Dr. Walter Simons, the foreign minister, and what he said was concurred in by the Reichstag parties through their leaders, with the exception of the ultra radicals, who gloried in the painful position of the government.

Doctor Simons asserted that the obligations thus imposed on the Germans would mean the complete economic enslavement of the people, and particularly of the workers. He said the government would offer counter proposals at the London meeting.

Among the people of France there was satisfaction with the reparations plan, especially because it was expected that the first effective payments by Germany will make available for negotiations or for use as security the French share of the 60,000,000,000 gold marks in bonds already delivered by Germany to the reparations commission. Great Britain has agreed not to utilize her claim on Germany's exports, to raise money to continue the work of reconstruction in northern France.

That tax on German exports is a feature that may cause a lot of trouble. By many it is held to be false economies that will react in the injury of other countries, and in Washington there is talk that our state department may feel called on to make formal protest. Lloyd George says the tax would be easy to collect, and he defends the plan in its entirety. If Germany should absolutely refuse to it, he asserts, "there is nothing for us to do but to apply the treaty literally."

That opinion favoring German claims in the matter may be based on false premises is made clear by the report of the conference of financial experts held in Brussels, in which Germany is shown just how to wipe out the deficit of 70,000,000,000 marks in her 1920 budget. The experts found Germany was deliberately putting on a poor face for the purpose of showing the world her precarious financial condition and her difficult situation. Certain of her expenses were multiplied 75 times over those of 1919, and certain of her taxes vastly below those the people of the allied countries are paying. Furthermore, the budgets of 1919 and 1920 carried a number of credits which were only partly disbursed, such as 16,500,000,000 marks for the allied armies of occupation expenses, of which only 4,600,000,000 marks was spent. The budget for 1920 carried 42,000,000,000

marks for execution of the peace treaty, while only 17,000,000,000 marks had been paid out up to December 1 last.

Disarmament, a small army and other forms of unpreparedness got some hard knocks last week. In the first place the senate naval affairs committee put the snuffer on the Berah resolution for a naval construction holiday, after hearing Admiral Cootz, chief of naval operations, and Admiral Taylor, chief constructor of the navy. Both opposed the plan for a cessation of naval construction for six months. They said it would cost as much to do this as to continue to build, as contractors would be able to collect large damage claims from the government. Furthermore, they see no need for an investigation as to what constitutes a modern navy, being convinced by investigations already made that the capital ship is not obsolete and that the present program of the United States is correct.

General Pershing appeared before the house naval committee and gave a warning against unpreparedness and pacifism. He expressed approval of a world conference on disarmament, but said the United States should proceed with its present army and navy programs until at least five great powers have entered into a definite agreement.

On the other hand, the house foreign affairs committee reported favorably a resolution authorizing the President to invite the nations of the world to send delegates to a conference to provide for disarmament.

In the house, the fight to prevent reduction of the regular army below 175,000, was opened by Chairman Kahn of the military affairs committee. He said President-elect Harding told him recently at Marion that he favored an army of 175,000 men, but that he hoped some day it could be cut down to 150,000. Mr. Kahn also disclosed Mr. Harding's belief that congress should enact legislation providing voluntary military training for 150,000 men annually.

Meanwhile economy of the most rigid sort is being forced on our regular army by great deficiencies in funds for the remainder of the fiscal year. The shortage in the quarter-master corps alone is said to be \$94,000,000. In order to reduce the prospective deficits to the lowest possible minimum, the War department ordered reduction of 40 to 60 per cent in the number of civilian employees in the army; reduction of the consumption of gasoline and lubricants by 50 per cent; allowance of clothing, equipment and supplies cut to the lowest possible limit; repaired shoes and salvaged uniforms to be issued wherever possible; substitution of canned food for fresh wherever possible, and expenses for transportation, communication and fuel cut to the bone. Much of the vocational training, upon which the recruiting campaign was based, must now be abandoned, as all the teaching will have to be done by army officers.

Gen. Charles G. Dawes of Chicago, former chief of supply procurement for the American army in France, made lively and interesting two sessions of the house war investigating committee. Severely condemning what he characterized as political attempts to discredit the people who won the war, he defended the work of his department and of the army in general, and denied that there was waste and extravagance in the liquidation of American accounts in France and the sale of surplus stocks to the French government. As to the alleged payment of excessive prices for equipment and material, he said this was necessary to get the job done quickly and was justified by the fact that the army did the job. General Dawes did not mince his language, and what he had to say of our "pink" diplomats in Europe who delayed matters with their old tape was tonic in its harshness. The discussion at one time turned on Great Britain, and the general shouted:

"I am no more ashamed to stand up here for Great Britain than for the United States. It seems to be fashionable in American politics to attack

Great Britain. I am not in politics, and I am not going to be. And I thank God that in a crisis like we had there were no bickerings between the English-speaking people. Great Britain took over 40 per cent of our troops. Of course General Pershing gave them five divisions, but it had to be done to save the allies' line."

In these remarks Mr. Dawes, who has been a leading probability for the place of secretary of the treasury in the Harding cabinet, seemed to remove himself from the lists. Certainly what he said so frankly will not make him very acceptable to the professional Irishmen of America who are mainly responsible for the anti-British propaganda. However, at this writing he is still among the cabinet possibilities. The latest list, as reported by the correspondents with Mr. Harding in Florida, is:

Secretary of State—Charles E. Hughes of New York.

Secretary of the Treasury—Charles G. Dawes of Illinois or A. W. Mellon of Pennsylvania.

Secretary of War—John W. Weeks of Massachusetts.

Secretary of the Navy—Frank O. Lowden of Illinois.

Attorney General—Harry M. Daugherty of Ohio.

Postmaster General—Will H. Hays of Indiana.

Secretary of Agriculture—Henry C. Wallace of Iowa.

Secretary of Labor—John J. Davis of Pennsylvania.

Secretary of the Interior—Albert B. Fall of New Mexico.

Secretary of Commerce—Still vacant.

Mr. Davis, stated for the labor portfolio, was formerly a steel worker and is now director general of the Loyal Order of Moose.

The fight over wages, between the railway executives and the railroad brotherhoods, is on before the railway labor board, and accusations have been flying thick and fast. The executives asked permission to arbitrate the national wage agreements entered into during the war, which would mean the lowering of the present wage scale. The brotherhood leaders immediately entered vigorous protest, asserting that the rail chiefs have conspired to overthrow the railroad labor board and to crush, once for all, the existing labor organizations. They said they could show that if the bankers who are responsible for the fiscal needs of the railroads since their return to private ownership will perform their duty, the roads could be adequately financed and their solvency maintained.

A veiled threat was found in the statement of Grand President Grable of the maintenance of way employees, who said: "The whole thing simmers down to a question of whether the employees are to secure their rights by justice and the proper local avenues or by the use of economic force. This is the question which is now up for answer, as much as that of whether wages are to stay up or go down."

President Wilson was appealed to by both sides, but decided. It was said, to take no hand in the fight.

The Fordney emergency tariff bill took up a lot of the senate's time, but there was little prospect of getting it to a final vote. An attempt to apply cloture was defeated by the Democrats, who then embarrassed the Republicans by consenting to have a showdown on the measure about February 16. The Democrats asserted the Republican leaders had been bluffing about their desire to pass the bill and were buncing the farmers.

Prohibition Commissioner Kramer put an awful dent in the illicit booze industry last week by an order for bidding further withdrawals from bonded warehouses of any liquor except industrial alcohol wines for recreational purposes, and liquor for retail druggists, who will be permitted to withdraw not more than five cases under each authorization. He also ceased issuing permits for wholesale liquor dealers. Having clamped down this lid, certain of the chief's leading aids were sent to the Canadian border to try to stop the smuggling of liquor there.

MRS. ALICE GRESHAM DODD, mother of the first American soldier killed in France, who gives entire credit for recovery of her health to the well-known medicine Tanlac.

The following remarkable endorsement of Tanlac was given recently by Mrs. Alice Gresham Dodd, at the Gresham Memorial Home, Gavin Park, Evansville, Ind., which home was presented to her by the patriotic people of Indiana, as evidence of their appreciation of the services rendered to his country by her son, Corporal James B. Gresham, the first American soldier killed in France. Expressions of sympathy were received by Mrs. Dodd from all parts of the United States, and the newspapers of the country carried the story of the first "war mother."

The shock of her son's death resulted in the serious breakdown of Mrs. Dodd's health, but everyone will learn with interest and pleasure that she is now in splendid health again. When seen at her home recently she made the following statement, giving the entire credit for her recovery to the well-known medicine, Tanlac.

"After my dear boy's death I had a general breakdown in health," said Mrs. Dodd. "At first it was just indigestion. My food used to upset me and I had to diet myself very carefully, which wasn't much hardship, as I lost all desire to eat. Then I had an attack of rheumatism, with severe pains in my shoulders, back and arms. Sometimes I used to suffer a great deal, and my joints would get all swollen up and stiff. I was able to do very little about the house, and at times couldn't even cook a meal. I got very nervous and restless, and at night would lay awake for hours, and lost many a night's sleep as a consequence."

"A friend of mine had received a great deal of help from Tanlac, and it was she who advised me to try it. I am so glad I did for it proved the best medicine I have ever taken. It soon gave me a good appetite and seemed to settle my stomach so that I was no longer troubled with indigestion. I don't know what it is to have rheumatic pains now, the swelling and stiffness has all gone out of my joints and I am able to do the work of the house with the greatest ease. My nerves are now steady and strong. I sleep fine at night and I feel better in health than ever before in my life. I shall always be grateful for what Tanlac has done for me, and shall recommend it every chance I get."

Tanlac is sold by leading druggists everywhere.—Adv.

UNIVERSITY HAS COIN COLLECTION WORTH \$15,000

Ann Arbor Times News: The University of Michigan owns a valuable collection of about 10,000 copper, silver and gold coins, which is inaccessible to the public at present due to the lack of a safe display and storage cases, according to Librarian Bishop. These coins have been carefully stored in the library, where particular caution has been taken against loss by fire or robbery.

"Of approximately 10,000 coins, coming from America, Europe and Africa, about 8,000 are of copper and 2,000 are of silver and gold," stated Mr. Bishop. "This collection, worth about \$15,000, is the result of a number of donations to the university, the most important of which is a collection from Ptolemaic Egypt considered the most complete assortment of this period in the world."

"The proposed new museum will provide for a room where these coins, which are essential to the study of history, fine arts and archaeology, may be examined. The museum will also provide for the exhibition of many other valuable collections now held in storage, including portraits which illustrate the history of American portrait painters, and the famous Chinese portraits donated by the Chinese government."

Ann Arbor Michigan ranks third among the universities of the United States in the number of students enrolled as full time students at one time, according to Dean E. H. Kraus of the summer session. Figures given out by a Lehigh university official, placing Michigan sixth included both summer session and part time students. Taking students actually enrolled in classes as regular students November 1, last, California leads with 11,071, Columbia is next with 8,388, and Michigan is third with 8,158, according to Dean Kraus. Illinois is fourth with 8,250. Times News.

### Open Winter Has Not Hurt Crops.

The open winter has been favorable to farmers in Michigan, according to the report of Verne H. Church, agricultural statistician of the co-operative crop reporting service for the first two weeks in January. The report follows:

"No material damage to wheat and rye has been reported from any section. While there has been little snow during the past two weeks, no severe weather has been encountered and much of the time temperatures have been unusually mild. Live stock is in excellent condition with respect to healthfulness, and grain for feeding purposes is relatively plentiful. Hay is scarce and high in price in the Peninsula, owing to light crops there. Other small local areas report a similar condition. The open winter has permitted some plowing recently, and has been favorable for other out-door work. The demand for farm products continues very light and many are unable to find a market at present.

The county sheriff announces that all unlicensed dogs will be reported and killed if the tax is not paid by June 15. No excuses will be accepted.

## DOG TAX NOTICE

Dog taxes are now payable to the COUNTY TREASURER. Dog owners are notified that they should attend to this matter at once. Each Township Supervisor (or City Assessor) is required to list all dogs in his township (or City) and furnish such list to the County Treasurer. ON JUNE 15th, the Treasurer is required to give the names of all delinquent dog owners to the Sheriff. The Sheriff is then required to have all untaxed dogs killed.

As this law was new last year, the Sheriff sent all delinquents a notice, quoting the law and giving them extra time to pay up. Deputies were allowed to collect and turn in the fee instead of killing the dog. THIS WILL NOT BE DONE THIS YEAR. ALL PEOPLE ARE NOW SUPPOSED TO BE FAMILIAR WITH IT. WHEN THE DEPUTY COMES IN JUNE THIS YEAR, he will not accept tax money but WILL KILL THE DOG.

### TRAILS ABOUND IN ROMANCE

Written Testimonial of the Trials and Triumphs of the Men Who Fashioned Them.

Nothing is more romantic than the trail, remarks a writer in the Los Angeles Times. It is the artery of trade and life itself. On land it moves about the bases of the mountains, out of the lowlands, winding through the chaparral, along the easy grades of the cañons, never forcing its way, but delicately avoiding the slippery rock face and the poison oak; upward into the fresh air that breathes through the pines; on, through the pass and into the unknown beyond, into the valley of heart's desire it carries the laden mule and the traveler with his pack.

Across the great deserts the trail is a caravan route, seeking the shades of cliff and avoiding the shifting dunes; stretching unerringly toward the next water hole. It is the written testimony of the trials and triumphs of the men who have gone before. It is the only pathway of the devout pilgrim, as of the warlike Redoubt. Every habitation of man that has ever dominated one of these great trails has made history and has been in its day a treasure house.

The Comparison.  
"Can you imagine anything more thin than that singer's tones?"  
"Hardly, unless it is a skeleton's articulation."

### FELT SOMETHING WAS WRONG

Youngster's Experience Made Him Doubt Whether His Prayers Were Really Acceptable.

In the smoky room of La France, on a cool, rough, windy day, George Gould said:  
"These winter passages are unpleasant, but they're never dangerous. One bleak December day I was sitting, wrapped up in furs and rugs, in a sheltered corner of the promenade deck of a Cunarder. The seas were mountains high. The good old boat seemed to stand on her head one minute, and the next she reared right up on her hind legs."

"A tiny tot of a boy made his way cautiously to the young and pretty matron seated next me. He stoddied himself against her deck chair and said:  
"Mamma, is it wrong to pray that we get home safe?"  
"Of course not, darling."  
"Well," he went on, "I've been kneeling on a locker trying to pray that we arrive safe in port, and each time I begin the ship heaves up and throws me on the deck."

Skyscrapers Amazed Chris.  
"Begorry!" said an Irishman who was watching another go thru some exercises, "ye kape yer mouth as wide open as if ye were Columbus the first time he saw New York."—Boston Transcript.

## LINCOLN THE MAN

ographers because his high place is the most fully recorded of them all—although there is no single book about him that seems so sure to persist as the "Life of Scott," by Scott's son-in-law, Lockhart.

It is in the very variety and extent of the studies of Lincoln's character that the strength of his hold on the imagination of the world is shown. Fifty-six years have passed since he met his tragic death. Through all that period the interpretations of his character—historical, analytical, poetical—have steadily increased in number. The bare facts of his unique, yet strangely typical and significant career, arranged themselves in perspective like the acts of a great uplifting tragedy. If he had lived in the days when myths were made, it is easy to imagine that in the process of time he would have grown into a great mythical figure, a King Arthur of the New World, a half-divine hero like those that we associate with the most distant antiquity.

But he belonged to no such period. His age is one of the most amply recorded in all history, and the records of his life are so intertwined with those of men and events quite without poetic or heroic suggestion, that his feet can never be wholly removed from the earth. Indeed, it is much better that no such possibility exists. We need to know that out of our common life can spring so extraordinary an example of the development of which our human nature is capable. When all is said and done, when his wisdom, his patience, his sacrifice are fully remembered, we shall delight pre-eminently to recall him as the friendly, humorous, accessible lover of mankind.—Youth's Companion.

Lincoln and Sumner.  
Lincoln was modestly proud of his stature and of the effect of the physical man, especially when actuated by noble sentiments. He used to speak of his height to every tall man he met, and to those of less stature, another guileless habit of self-gratification. The only refusal he is known to have received was from Charles Sumner, who was also tall and proud of his height. Sumner was worrying the President, as he often did, about some perplexing matter, when Lincoln abruptly challenged him to measure. "Sumner declined," said Lincoln, "making a fine speech about this being the time for uniting our fronts against the enemy, and not our backs. But I guess he was afraid, though he is a good piece of a man. I have never had much to do with bishops where I live, but, do you know, Sumner is my idea of a bishop."—Harper's Weekly.

Appreciation of the Bible.  
In regard to the great Book, I have only to say that it is the best gift God ever has given to man. All the good from the Savior of the world is communicated to us through this Book. But for this Book we could not know right from wrong.—In acknowledgment of a Bible presented by a committee of negroes from Baltimore, as reported in the Washington Chronicle September 5, 1864.

Lincoln's First Publicity.  
It will interest Lincoln lovers to learn that as far as known, probably the first time that Abraham Lincoln's name was mentioned in print was in the United States Biennial Register for 1837. It was in the Postoffice department, as "Postmaster at New Salem, Ill., Abraham Lincoln, 1 quar., 10-10-48." The Register contained the names of every officer and employee for that year.

Lincoln Memorial.  
Work on the construction of the Lincoln memorial was commenced on Lincoln's birthday, February 12, 1914, when the first sod was turned by the special resident commissioner, ex-Senator Blackburn. The foundation was completed and the cornerstone laid February 12, 1915. By act of congress February 28, 1916, the limit of cost was increased to \$2,500,000 to include the approaches.

Two Principles Involved.  
It is an eternal struggle between these two principles, right and wrong, throughout the world. They are the two principles that have stood face to face from the beginning of time. The one is the common right of humanity, the other the divine right of kings.—Abraham Lincoln.

ERA OF HEALTHY PROGRESS FORECASTED BY CURRENCY CHIEF IN ANNUAL REPORT.

### ASKS FOR NEW BANKING LAWS

Would Establish Good Securities to Protect Solvent Banks in Cases of Unexpected Runs.

Washington.—The nation today is upon a sounder basis, financially and economically, than it has been in many years and will enter upon an era of healthy progress when prices of commodities are further stabilized. Comptroller of the Currency Williams said in his annual report to congress.

Comptroller Williams told congress there is urgent need in the readjustment period to stamp out profiteers in money and commodities. While the banking situation is growing more secure, Williams recommended that congress should add to this security by enacting laws that will improve the banking system and increase security of bank depositors.

Among the main recommendations for new legislation made by Williams is one to enable solvent banks to meet runs or other sudden emergencies by the use with Federal Reserve banks, of good securities that are not now available for such purposes. He also urges congress to enact a bank guaranty law, by which all deposit balances of \$5,000 and less would be guaranteed. The effect of such a law, he said, would be to bring hundreds of millions of dollars out of hiding and into productive use.

The police said they found a silver table knife protruding from the girl's sleeve.

## BAD COLDS AND KIDNEY TROUBLE KEEP HIM UP AND AWAKE ALL NIGHT

Always Had Cold and Cough—Had Kidney Trouble Years.

### "THEN I FOUND A QUICK, SURE REMEDY"

"For several years I suffered with weak kidneys and would be forced to get up often during the night. I did like everybody else and tried all sorts of medicines. Still I didn't get relief, and then for one solid year I had a very bad cough and throat trouble. It seemed like I had a cold and cough all the time. I would cough so at night that I couldn't sleep, and then every little while I'd have to get up on account of my kidneys. Then several months ago I saw Hypo-Cod advertised. I saw where the druggists were saying it was the "last word" in modern medicine, so I got a bottle. The first bottle took right hold, and I was amazed the way it worked. I took three bottles altogether and since then my kidneys haven't troubled me at all. The cough began fading away and in no time I was going to bed and resting fine throughout the night. Just

ask the lady I board with how I feel. She said—"For the sake of the grocery bill stop taking Hypo-Cod." I couldn't possibly be better pleased, and I can't praise Earle's Hypo-Cod too high," declared Arthur H. Carrier, 252 N. Van Buren St., Bay City, Mich.

Just as soon as you get the system toned up and in good shape all those minor troubles disappear. Nature throws off such troubles like water off a duck's back. The trouble with most people is—they are run down and too weak to ward off or throw off the minor troubles.

Earle's Hypo-Cod has worked wonders for thousands. There is no reason why it should not do it for everybody. It is nice to take. It is powerful, palatable, and more modern. Results come days and weeks sooner. The formula is approved by leading physicians in this country (see label). The name, Earle Chemical Co., is a guarantee of finest quality in medicine. Why anybody should linger along any longer nobody knows.

Drop in at the nearest high class drug store. The cost shouldn't make a person suffer a single day. Your druggist has genuine Earle's Hypo-Cod. Get a bottle tonight.—Adv.

### Important to all Women

Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be dependent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Adv.

The coming man doesn't really amount to much unless he makes a go of it.

Matrimony has destroyed many sweet and pleasant delusions.

### Eatonic Works Magic

"I have taken only two boxes of Eatonic and feel like a new man. It has done me more good than anything else," writes C. O. Frappier.

Eatonic is the modern remedy for acid stomach, bloating, food repeating and indigestion. It quickly takes up and carries out the acidity and gas and enables the stomach to digest the food naturally. That means not only relief from pain and discomfort but you get the full strength from the food you eat. Big box only costs a little with your druggist's guarantee.

## MICHIGAN MEN AND WOMEN

**WOULD PAY POLL TAX**

Every man and woman in the state between the ages of 21 and 50 years may be required to pay an annual poll tax of \$10 to the state, according to the terms of a bill expected to be introduced into the state legislature soon.

Such a measure would provide an annual estimated income to the state of \$12,000,000.

While the proposed tax is aimed at those who now pay no taxes of any kind to the state, it would effect everybody including taxpayers and non-taxpayers.

Proponents of the bill declare that there are thousands of men and also women who are working in the state who would be glad to pay this tax and help share the responsibilities of government. State institutions and the state itself are growing so rapidly that additional revenue must be secured at once.

Persons coming into the state would come under the tax from the date of their arrival in Michigan.

The Michigan Central during the past week laid off about 200 firemen running out of Jackson and set back an equal number of engineers to act as firemen.

## With Clean Hands

"Give us cheaper food," the consumers cry. Farmers have responded, in the face of discouraging difficulties. Yet the consumers still cry out against the high cost of foodstuffs, and against the farmers. The National Grange demands that the complaint be lodged against those who are truly to blame—against food manipulators and wasteful distributors. *And the distributor is the city man's neighbor; food distribution is the city man's problem.* Not until the consumers clear themselves of responsibility for high prices can they come with clean hands to criticize or even help the producers.

The hands of the Grange are clean. All its acts have been for the benefit of producer and consumer alike. Because it has helped the farmer to do his share in producing, it can fittingly say to the city consumer: "Yours and yours only is the task of remedying food distribution evils." On the score of its clean record for service the Grange merits your support. And it urges, too, your support for the work of THE COUNTRY GENTLEMAN, which has stood with

the farmer in his cleanly-fought fight for a decent living—has thrown light on what happens between the producer and the consumer. It will keep you informed of the newest methods in the management of your farm business and provide wholesome entertainment for your whole family. If you already subscribe, tell your friends that our secretary will order for them the next 52 issues for just \$1.00. If you are not a subscriber, send in your dollar today.
