

FULMINATE CAP EXPLODED SUNDAY

Willard Huston Seriously Injured in
Accident at Cement Plant.

W. D. Huston was wounded in the upper part of his leg Sunday at the plant of the Michigan Portland Cement Co. by the accidental explosion of a fulminate cap, and was taken to a Detroit hospital for treatment.

The accident occurred about nine o'clock Sunday morning. Mr. Huston is employed on the sand digger and was getting warm in a shanty nearby. A "salamander" heater is used in the shanty, and Huston was putting on a shovel of coal. He noticed the cap in the coal as it slipped off from the shovel and dodged back, but too late to avoid being struck by a portion of the cap as it exploded.

Fulminate caps had been used about the plant during the winter to break up rock piles for the clam-shell buckets, and it is supposed one was accidentally dropped in the coal pile, and later taken out to the shanty with a supply of coal.

Mr. Huston was taken to Detroit on the 3:45 car, Sunday afternoon, where it was said that unless blood poisoning set in no serious results are anticipated.

MRS. MARY E. McKUNE.

Mrs. Mary E. (Farrell) McKune, widow of the late H. T. McKune and for many years a well known resident of Lyndon township, died Saturday, March 5, 1921. She was 62 years of age.

Mrs. McKune was born in Lyndon township August 9, 1858, her parents being Mathew and Katherine Farrell. She was united in marriage with H. T. McKune in 1887, in Chelsea. Mr. McKune passed away in March, 1908.

Since last fall Mrs. McKune and son Roland had made their home in Chelsea. Two sons and one daughter: Raymond of Gregory, Roland of Chelsea, and Mrs. Clarence Ulrich of Detroit, are left to mourn their loss. She is survived by a granddaughter and one sister, Mrs. Robert Kollins of Chicago, also. Another daughter, Rachael, died in March, 1908, and the youngest son, Corporal Herbert J. McKune, was killed in action overseas October 4, 1918, the local post American Legion being named in his honor.

IMPORTANCE OF GRASS IN WORLD SCHEME

Wonderful Fact Brought Home By
Magnificent Tribute Uttered Years
Ago By Late Senator Ingalls.

The moment the slumbering grass begins to show a bit greener here and there, where the sun reaches it, all the world is gladdened, because it means that the glorious and always beautiful springtime is approaching for her annual visit.

It is seldom that any one fully appreciates the vital importance of grass in the general plan of nature until they read this magnificent tribute uttered many years ago by the late Senator John J. Ingalls, of Kansas:

"Grass is the forgiveness of Nature—her constant benediction. Fields trampled with battle, saturated with blood, torn with the ruts of cannon, grow green again with the grass, and carnage is forgotten. Streets abandoned by traffic become grass-grown like rural lanes and are obliterated; forests decay, harvests perish, flowers vanish, but grass is immortal. Bequeathed by the sullen hosts of winter, it withdraws into the impenetrable fortress of its subterranean vitality and emerges upon the solicitation of spring. Sown by the winds, by wandering birds, propagated by the subtle horticulture of the elements, which are its ministers and servants, it softens the rude outline of the world. Its tenacious fibres hold the earth in place, and prevent its soluble components from washing into the sea. It invades the solitude of deserts, climbs the inaccessible slopes and forbidding pinnacles of mountains, modifies climates, and determines the history, character and destiny of nations. Unobtrusive and patient, it has immortal vigor and aggression. Banished from the thoroughfare of the field, it hides its time to return, and when vigilance is relaxed, or the dynasty has perished, it silently resumes its throne, from which it has been expelled but which it never abdicates. It bears no blazonry of bloom to charm the senses with fragrance or splendor, but its homely hue is more enchanting than the lily or the rose. It yields no fruit in earth or air, and yet should its harvest fail for a single year famine would depopulate the world."

FIRST RIDE WAS EXPENSIVE.

Ralph Axtell, 15 years of age, was arrested in justice court yesterday afternoon charged with riding a bicycle with a motor-wheel attachment on the sidewalk contrary to the village ordinance, and sentenced to pay costs totalling \$5. It was the first time he had ridden the machine, which he purchased second-hand some time ago, and had since been overhauling.

OUR NEIGHBORS' DOINGS

What's Happening in Neighboring Towns and Localities.

DEXTER—Charles Tiedora, who is preparing to open a fruit store and ice cream parlor in the building owned by D. E. Hocy, east of Henes Bros., has moved here from Chelsea and will occupy the flat over the store.—Leader.

HOWELL—Monday the Livingston county board of road commissioners let 12 miles of trunk line road to be built in this county next summer. Eight miles going north from Grand River road on the township line between Howell and Handy townships and between Cohoctah and Conway on the county line. The price on this section was \$10,284.00 per mile. Three miles in Oceola on the Parshallville road was let at \$6,506.22.—Republican.

SOUTH LYON—Salaries and expenses to the amount of \$142,898 paid the officers of the Michigan State Farm Bureau, look rather large to Representative H. J. Coleman, who is planning a legislative fight on the bureau. But what can he expect. Men capable of getting \$18,000 a year for three years out of Oakland county farmers alone are exceptional men and should command exceptional salaries, whether they know anything about the real problems of the farmer or not.—Herald.

CLINTON—Thursday morning while the local section men were working at Hogan's siding, about three miles north of town, the motor car used by them decided to run away. The car had been started and the foreman, who was the only one with it at the time, got off to open a switch. In so doing the machine got away from him and came down the track at a lively rate of speed. As it neared the depot the crew of a northbound freight saw it coming and tried to get their train out of the way, but were not quite successful, the motor car striking the engine a glancing blow. The former was thrown from the track and badly wrecked.—Local.

MILAN—In the stillness of the night two strangers entered the home of William Sikki, 89 years old, living six miles east of Milan, Monday night, and finding the aged man alone, bound and gagged him and robbed him of everything in the house. They secured his watch and about fifty dollars in cash. The culprits entered the house about nine o'clock and it was not until about eight o'clock the next morning that the victim was able to get loose and call for help from the neighbors. The men were traced as far as Milan, but no definite description of them can be secured. They took the old man's horse and buggy and drove into Milan. From here they evidently boarded a train for parts unknown.—Leader.

SYLVAN REPUBLICAN CAUCUS.

The Republicans of Sylvan township, Washtenaw county, will meet in caucus in the town hall in the Village of Chelsea on Saturday, the 12th day of March A. D. 1921 at two o'clock p. m. of said day for the purpose of placing in nomination a township ticket to be voted on at the annual election to be held in the Township of Sylvan, Washtenaw county, Chelsea, Michigan, on April 4th, 1921, and for the transaction of such other business as may properly come before said meeting.

OVER THIRTY YEARS AGO

Chelsea Paper Published Nov. 28, 1890
By William Emmert.

Mrs. Guy Hulce of Lima recently found a package of old newspapers published in Chelsea in years past and kindly left them at the Tribune office. The oldest was published on November 28, 1890, by William Emmert, whose office was over Knapp's hardware store, "upstairs—turn to the left."

The paper is eight pages, five columns, and carries very little advertising and not very much local news according to modern standards. The principal advertisers are: H. S. Holmes & Co., Chelsea Roller Mills, W. J. Knapp, William Caspary and E. E. Shaver. Professional cards were run by H. L. William, dentist; Palmer & Wright, physicians; and G. W. Turnbull, lawyer. Some of the most interesting local items follow:

W. E. Stocking will attend the state grange meeting in Lansing, December ninth.

An eleven pound boy was born to Mr. and Mrs. J. H. Osborne, Wednesday last. It's now grandpa Noyes, with a big "G."

Married in Ann Arbor, at the M. E. parsonage, by Rev. R. H. Rust, Mr. Eugene West and Miss Bertha Congdon, both of Sylvan.

The infant son of Mr. and Mrs. J. Bacon is seriously ill with lung troubles.

Dr. Thomas Holmes has been conducting revival meetings at North Leoni the past week with grand results.

The total receipts of the fair given by the German church last week, were \$299.63, netting that society about \$275. During the past year it has paid an indebtedness of \$700, being now free from debt.

Some of the market prices were as follows: Eggs 20 cents, butter 12, potatoes 70; wheat, red 90, white 88; corn 50, oats 45.

Hear the 20 men sing Friday night at the M. E. church.

This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. Why Colds Are Dangerous.
It is the serious diseases that colds lead to that makes them dangerous. They prepare the system for the reception and development of the germs of influenza, pneumonia, tuberculosis, diphtheria, scarlet fever, whooping cough and measles. You are much more likely to contract these diseases when you have a cold. For that reason you should get rid of a cold as quickly as possible. Chamberlain's Cough Remedy will help you. It is widely known as a cure for bad colds. Adv.

Protecting Your Electric Service When There is a Storm

WHEN the first lightning-flash, or the first snow-flurry, is noted near any station of the Consumers Power Company system, word flashes along the wire from station operator to load-dispatcher: "Storm's on the way!"

The load-dispatcher rushes reserve plants into action. An extra turbine is started. Boiler rooms get ready to protect the service. At each station in the path of an electric storm, lightning-arrestors are arcing and spitting with each lightning flash—relieving strain on the apparatus. Trained men are using every resource of science to protect your lights and power.
