CARD OF THANKS.

We desire to thank the friends and neighbors of the late Mrs. Lena McLaughlin for many kindnesses and words of sympathy; also for the beautiful floral offerings. Frank Lusty, Mrs. G. Weick, Mrs. C. E. Foran.

She States It Mildly.

While suffering with a severe attack of the grip and threatened with pneumonia, Mrs. Annie H. Cooley, of Middlefield, Conn., began using Chamberlain's Cough Remedy and was very much benefited by its use. The pains in the chest soon disappeared, the cough became loose, expectoration easy and in a short time she was as well as ever. Mrs. Cooley says she cannot speak too highly in praise of this remedy.

SUPRISED MRS. COOPER.

A pleasant family party was held Sunday at the Cooper-Wiseman home in Lima in honor of the birthday of Mrs. Frank Cooper, the event being a complete surprise for her. She had been called to Chelsea in the morning to help care for her parents, Mr. and Mrs. Jacob Dancer, and upon her return on the 12:30 car, it was to find the table all set and the guests assembling, 55 being present. The call to Chelsea was a bit of intrigue planned by her daughter and husband, Mr. and Mrs. George Wiseman, in order to make the necessary arrangements and to have the table all set with a big pyramid cake as an attractive centerpiece. Those present from out of town were Mr. and Mrs. Chas. Conklin and Mr. and Mrs. Hiram Pierce, of Jackson.

MILKING MYTH EXPLODED.

Some agricultural myths of long standing have been exploded by the U. S. Department of Agriculture. One of these was the belief that a cow would give more milk if milked at regular times every day than if milked irregularly. This belief was so firmly grounded that the average farmer would sacrifice almost any pleasure or recreation or trip in order to be at home at "milking time." After a series of experiments covering a very long period of time and all sorts of breeds, the Department of Agriculture announces that there is no difference between regular and irregular milking insofar as the amount of milk given is concerned, nor does irregular milking cause a cow to eventually give less milk. The only value of regular milking is that value which pertains to having a system in the routine of farm duties.

OUR NEIGHBORS' DOINGS

What's Happening In Neighboring Towns and Localities.

BRIGHTON—A heavy vote was cast in Brighton for two young vampires who used their "charms" to sell subscriptions to magazines, claiming that they were working for a scholarship to go to college. Argus. Yes, we'll bet a cookie they were the self same damzels who recently worked Chelsea quite successfully—and we understand that, to date, the magazines have not shown up.

DEXTER—The work of putting in the foundation for the pump for the village water system is underway. To do this an excavation 16 feet in depth was necessary. The pump will be located at the east side of the mill, on the bank of the tail race and two feet below the bottom, as the race is to be deepened two feet.—Leader.

SOUTH LYON—The big milk trucks hauling milk from this place to Detroit for the Detroit Creamery Co., have raised particular havoc with the good roads in this section, particularly those recently built and not yet completely settled. They have practically ruined the road in Salem township near Nathan Brokaw's, and have torn up the village streets something fierce. Even the cement crosswalks have not been able to withstand the assault.—Herald.

BROOKLYN—"Tip" Purdy, aged 80 years, living two miles beyond Spring Arbor on the Concord road, was held up in his home and robbed of \$75 by three young men who arrived in a Ford car about seven o'clock Thursday night. The victim lives alone in a farm house and was physically incapable of defending himself and his savings.

BRIDGEWATER—Mrs. Nettie Lowery was among the first in this section to bestir her hens to greater activity in egg production by installing electric lights in her hen house. A clever scheme was devised to have an alarm clock turn on the lights at a time when the hens were thought to have slept long enough and the result has been a good increase of eggs.—Enterprise.

BASKETBALL NEWS.

An exhibition game of basketball was played Sunday between St. Mary Regulars and St. Mary Reserves, the teams expected from Ann Arbor and Detroit failing to show up as the result of some misunderstanding. The Reserves won, score 45 to 28.

The Reserves will play West Intermediate school of Jackson tonight at St. Mary hall. In a previous contest they defeated this Jackson team by one point in a five minute overtime period. This will probably be the last contest of the season.

The Regulars will close their season Sunday in a game with the Holy Rosary team in Detroit.

FEDERAL OIL GETS SITE.

The Federal Oil Co. is putting in foundations for their storage tanks. They have purchased a site from Conrad Schanz, along the south side of the Michigan Central railroad and north and a little west of the home of Arthur Collins, 310 West Middle street. The site was the property of Mrs. Charles Steinbach until recently, when she sold it to Mr. Schanz. The oil company has arranged for a right-of-way to the east connecting with the road to the stock-yards and cider-mill.

HOME RULE FOR COUNTIES FAILS

MEASURE LACKED THREE VOTES FOR TWO-THIRD MAJORITY IN THE SENATE.

HOUSE PASSES FARM MEASURE

Third of Governor's Reform Bills Adopted; Cabinet to Adjust State's Budget System.

House Staff Correspondent.
Lansing.—The county commission form of government struck a snag in the senate when that body took up final consideration of Senator Phillips' joint resolution to submit a constitutional amendment to a state referendum at the November, 1922, election that would allow counties to vote on adopting a commission plan. Nineteen votes were all that could be mustered for the Phillips resolution and it requires 22, a two-thirds vote of the entire senate, to submit a constitutional amendment. Ten votes were cast against the resolution and three senators were absent.

Cities Would Dominate Counties.
Senator McNaughton, of the rural districts of Kent, the county in which the idea originated, led the fight against the resolution, declaring that it meant counties would be dominated entirely by the cities in all counties like Kent which have large cities. A call of the senate was resorted to in order to keep senators in their seats for what was considered the most important roll call of the session up to that time.

The vote was: Yes, Senators Baker, Holt, Brower, Condon, Eldred, Engel, Forrester, Hamilton, Hayes, Johnson, McArthur, McRae, Penney, Phillips, Knappe, Smith (2nd Dist.), Smith (11th Dist.), Wilcox and Wood—19. No, Senators Amon, Bryant, Clark, Davis, Henry, McNaughton, Osborn, Ross, Sink and Vandenhoeve—10. Absent, Senators Hicks, Lemire and Tufts—3.

Following its failure of adoption the resolution was tabled after a reconsideration and its sponsors will make an effort to corral some more votes for it before endeavoring to take it from the table.

Agricultural Bill Passed.

The bill to create a state department of agriculture, third of the series designed to remodel the conduct of state business, went through the house of representatives the same day that it was reported out from the committee on agriculture, being passed both in committee of the whole and on third reading, under suspension of the rules.

In the new department, the bill provides, there will be consolidated all state bureaus that concern agricultural, livestock and horticultural matters and the state fair will be under its control. The department also is designed to bring closer relations between producer and consumer. The bill now is before the senate committee on agriculture. It is to be followed by two more administration measures, the conservation bill and the labor department measure.

Along the same lines there also is being prepared a measure to wipe out state institutional boards and have their duties transferred to the state administrative board and the departments under which their institutions naturally come. It further is planned to have one master accountant to keep track of the financial affairs of all the institutions and a "state farmer" who will look after the farms and the livestock owned by many of the institutions. Some of these farms now lose money for the state.

To Adjust Budget System.

The budget system that so far has not functioned as it was intended to will be looked after by the state administrative board as well and the service of the budget director will be dispensed with. It is planned to extend the system to include even the state university and agricultural college.

The bill to cover the deficiency budget of the state has been completed and introduced in the senate, cut down from \$2,400,000 to \$1,625,000. Part of the saving is the result of the drop in general market prices, institutional requests for funds all being based on last year's prices. Unauthorized salary raises helped materially to create the deficiency, according to the statement from the administrative board to the legislature. It is thought the present bill will carry the state through this year nicely, but there may be the necessity of a special session of the legislature next January to meet conditions then.

To make the state administrative board still more like a governor's cabinet, Rep. Dunn, of Highland Park, introduced a bill in the house to have the secretary of state, the state treasurer and the attorney general appointed by the governor, instead of elected.

Real Supervision Lacking.

One of the reasons for the movement to abolish institutional boards of control is found in the frequent investigations by legislators into conditions under present methods of management. Investigations into the conduct of the boys' industrial school of the state pardon board and of the building of the new state office building all are going forward right now and legislators declare that too much state business is allowed to go on

without real supervision by those who are supposed to supervise.

The senate has passed a bill to have the governor name a commission of seven persons to cooperate with federal authorities in furthering the cause of a lake-to-the-ocean deep waterway. The senate also has passed a bill to have the state pay half the cost of killing off grasshoppers in places where they become a pest.

The governor has signed the acts raising the city school district tax to nine mills for school maintenance and six mills for new schools; and to provide for annual June meetings of the state board of equalization.

May Adjourn April 14.

A resolution has been introduced in the house by Rep. Frank, of Detroit, to set April 14 as the earliest business adjournment of this session, with final adjournment May 3. General opinion is that unless many matters now in committee are dropped entirely the latter date will be about the earliest on which business adjournment can be taken.

Leading all topics of conversation in the legislative halls since the opening of the session of 1921 has been the proposal of Rep. Hart, of Detroit, to establish the death penalty for murder. For a few days it was thought that adverse sentiment expressed at public hearings had effectually stopped the measure for the session, but then along came the house committee that had the bill in charge and decided to report it out to the floor of the house.

The measure came out of committee without recommendation, but it was out. "The house will kill it in a hurry. Why should we hold it back?" was the gist of statements by committee members. But their report started all over again the whole argument as to life imprisonment or the death penalty for the crime of murder. The result still is to be recorded.

Manufacturers Oppose Tax.

Next in point of discussion comes the income tax proposals. The idea of Senator Penney of asking the federal government to whack up with the states on what it gets on its income tax returns meeting with the objection in many quarters that there is small chance of the federal government agreeing to do so. Farmers are demanding that some way be found to relieve the tax burden on land, and manufacturers are complaining that they are overburdened with taxes now and that a state income tax will merely be an extra levy on them.

Thus far the argument seems to be between the farmer and the manufacturer, with the salaried man still to be heard from. Statistics are being produced in the capitol regarding state income taxes in other commonwealths. They exist now in ten states, Connecticut, Delaware, New York, Massachusetts, Minnesota, Oklahoma, Texas, Virginia, West Virginia and Wisconsin and range all the way from a direct tax of our half of one percent on all incomes, to taxes with exemptions similar to those of the federal government and to taxes on corporation profits alone. Definite action of some sort by the senate and house committees is expected to follow public hearings at which all corners will be heard on the whole subject.

Women Active at Capital.

Influence of women's organizations is being felt more in the present session than ever before. This is natural, of course, now that women have the vote, but it is interesting to observe that matters with which women petitioners concern themselves now are principally those which women failed previously to get enacted. But no one is disposed to ignore them now. The bills on which petitions of women voters largely are based to date, include the bill to raise the age of consent to eighteen years; the bill to enlarge the benefits under the workers' pension act; the censorship of moving pictures; and the so-called "engines bill." There is the usual battle on every one of these measures, all of which have been up in previous legislatures, but the chances of all are enhanced appreciably by the force of the women behind them now.

Whether by accident or by design the present body of lawmakers has set a record for coming legislatures to shoot at. Fewer bills have been introduced up to the crucial time of mid-March than ever before. From this time on it is not to be expected that any bill, except it is of great public moment, will be shoved ahead of those already in committee, and thus will have small chance of getting on the floor of either house in time for enactment. And to date there have been less than 300 house bills and less than 150 senate bills introduced, where there were more than 600 in the two houses combined in the last legislature, which ran at about the average for the time since the new constitution was adopted in 1905.

Would Abolish Prison Boards.

One of the new bills to carry out the idea of reforming state administration generally has been introduced by Rep. Wells, of Cass county. It would place all prisons of the state under a board of three members, each of whom would devote his time to the work at a salary of \$3,500 a year. The wardens would be named by and be subject to this board. The present boards of control would be abolished. The application of city traffic laws to suburban and township conditions is the objective of several motor and vehicular bills that have been tossed into the legislative grist mill. One bill would require that all motor trucks, whether traveling in the city or country, be provided with mirrors to observe traffic following them.

PRISON MANAGER EMBEZZLED FUNDS

MARQUETTE PRISON OFFICIAL ADMITS DEFALCATION OF \$12,000. CLAIM.

NOW HELD UNDER \$10,000 BAIL

Legislative Committee Will Conduct Investigation of Muddled Condition of Accounts.

Marquette, Mich.—Alfred West, bookkeeper and manager of the industrial department of the Marquette prison since 1905, waived examination before Municipal Judge Burton, when given a hearing last week on a charge of embezzling prison funds.

West was arrested on a complaint signed by T. H. Catlin, prison warden, who formally charged West with misappropriating \$10,000, more or less.

West confessed to defalcation of approximately \$12,000, it is asserted.

Bail was set at \$10,000 and West was placed in custody of the sheriff. He will be tried in circuit court in May.

The disclosures made last week are the first fruits of the audit of the prison books which has been in progress for the past six weeks under the supervision of J. J. Higgins, of Chicago and two assistants. West has been kept on the job while the audit was in progress, as the accounts of the institution were found to be in such a muddle that no one but he could find the beginning or end to the mass of jumbled figures.

One of the things which aroused the suspicions of the legislative committee that there was something wrong with the finances of the institution was that there had been no posting of the general ledger for nearly two years, when the committee visited the institution in January.

The auditors also have discovered that many of the vouchers and other memoranda which should form part of the files of the bookkeeping department of the prison are missing.

A legislative committee will conduct a searching inquiry into the financial and contractual affairs of the institution.

CHILD FALLS INTO MANHOLE

Body Swept Away By Rushing Water, Four Feet Deep.

Montreal, Mich.—Mrs. Joseph Manning was crossing St. James street with her two little daughters when the elder, Lily, 5 years old, stumbled and fell into an open manhole.

The child plunged head first into the sewer and was swept away by the rushing water, four feet deep at the spot. A man who saw the accident ran to the next manhole, a short distance away, climbed down and waited to snatch the child if she swept by, but his efforts were in vain.

BAKER KILLED IN DOUGH MIXER

Employee Drawn Into Heavy Rolls and Body Broken in Two.

Pontiac.—Walter Black, 35, first assistant baker at the state hospital here, was instantly killed when his body was drawn into a dough mixer used in the bakery plant at the institution.

His body was crushed and broken in two across the chest. George Robertson, a helper, witnessed the tragedy, but was unable to assist Black.

FUME SPURNS U. S. CONSUL

America Must First Recognize Country As Sovereign State.

Triest.—Wilbur Kehltinger, American consul to Fiume, left that city for Triest to await instructions from Washington, after having been refused recognition by the Fiume government. In its note, the provisional government says:

"We, as a sovereign state, cannot recognize an American consul until the United States formally recognizes Fiume as a nation."

POND NOW COVERS ROAD BED

Engineers Puzzled By Disappearance of 175-Foot Strip of Road.

Grand Rapids.—County engineers are puzzled over the disappearance of 175 feet of roadbed on the Grand Rapids-Lowell road. A pond now covers ground over which automobiles formerly passed. Muck, forced upward when the road sank, has forced fences and trees out of the earth nearby. One theory is that the original pioneer roadbed of corduroy has rotted away.

Protest Pardon of Woman.

Flint.—Flint merchants have taken part with the Michigan Retail Drygoods association the matter of a protest to Governor Greenback against the pardon of Mrs. Alma Matheson, convicted shoplifter who was released from the Detroit house of correction after serving only three months of a two and one-half to five-year sentence. Testimony at the trial showed that she had beaten her 10-year-old daughter to compel her to steal merchandise from the stores.

AMERICAN CLERGYMAN CREATED A CARDINAL

REV. DENNIS J. DOUGHERTY

Rome.—At the secret consistory held here last week, the Most Rev. Dennis J. Dougherty, archbishop of Philadelphia, was created a cardinal.

FORDNEY HAS NEW BONUS BILL

Measure to Be Presented As Soon As Special Session Convenes.

Washington.—Legislation providing for the granting of a bonus to the veterans of the world war will be introduced in the House on the day it reconvenes in special session by Rep. Fordney, Republican, Michigan, chairman of the House Ways and Means committee.

Chairman Fordney was leader of the bonus forces in the last congress and was successful in having the bill passed by the House. It died in the senate.

The new Fordney bill will be practically the same as the one passed previously except that the tax and appropriation features will be eliminated.

JUDGE IS BURNED IN EFFIGY

People Displeased With Lenient Sentence By Judge Davis.

Coral, Mich.—As a protest against the action of Judge Frank D. M. Davis of the Ionia-Montcalm circuit, for imposing what was termed a lenient sentence on J. Skeek, convicted of a statutory crime, 200 persons burned the judge in effigy on the main street.

A "dummy," labelled "Judge Davis," was first hanged from a telephone pole while the crowd, composed partly of prominent women of the village, hoisted. The form was then cut down, placed in a barrel and set on fire.

Petitions are being circulated throughout Montcalm county, asking Governor Greenback to remove Judge Davis from office.

POSTAL DEPOSITS INCREASED

Ironwood, Mich., Among Eight Cities Showing Gain For February.

Washington.—Despite financial conditions described as "disturbed," postal savings deposits last month amounted to more than \$10,000,000. The Postoffice Department announces.

Total deposits on March 1 were approximately \$162,350,000. Seven post-offices reported gains in deposits of \$20,000 and over for February, as follows: New York, Boston, Seattle, Brooklyn, Tacoma, Roslyn, Wash., and Ironwood, Mich.

TROOPS MUST OBSERVE CURFEW

British Forces Threatened By "Irish Republican Army."

Dublin.—Notices establishing the "curfew for crown forces" have been posted by the military authorities in a number of places throughout Dublin. These notices, which were signed "Irish Republican Army," give warning that any soldiers or policemen seen on the streets after 9 o'clock in the evening were liable to be shot.

HOME BREW STILL BRINGS NICKEL

Moonsilver Outfit Disposed of By Sheriff At Public Auction.

Titusville, Fla.—Haunting, thirsty memories of \$5,000 worth of moonshine liquor it had produced clung around a captured still sold here at public auction. Yet it was knocked down completely by the sheriff to the lone bidder at 5 cents to enter on a non-beverage career.

Millions Involved in Case.

Wilmington.—A bill of complaint has been filed in the United States district court here against the Atlantic Refining Co., a Pennsylvania concern, and the Superior Oil Co., a Delaware corporation, charging that the former, by reason of its control of the offices of the latter, had succeeded in obtaining transfer of many shares of stock of the Superior company at a price below its real value. The case, which involves several million dollars, is scheduled for March 25.

Items Of Interest in World's News

Finnish Officials Resign.

Helsingfors.—The Finnish government has resigned owing to the refusal of Parliament to sanction an increase in the pay of civil servants. The ministry was headed by Dr. R. Rafti Erich.

May Increase Power Rate.

Grand Rapids.—The Consumers' Power Co. has threatened to enforce a straight rate of 8 cents a kilowatt for power if the city commission rejects an ordinance granting an increased rate.

Three Injured by Train.

Kalkaska.—Wilson Maxon, 50, was instantly killed, his son, Roy, 22, and Ford Wilson, 20, all of Brutus, were fatally hurt when their car was demolished two miles north of Kalamazoo by the afternoon G. R. & I. passenger train.

Caught on Limb, Chokes.

Pontiac.—Caught by the sleeve of his jacket when he slipped and fell from the limb of an apple tree on his father's farm near Amy, Oakland county, Rowland Taylor, 4, son of Mr. and Mrs. Clyde Taylor, was choked to death.

Gasoline Reduced Two Cents.

New York.—Reduction of two cents a gallon wholesale in the price of gasoline was announced by the Standard Oil company of New Jersey. The new price, 24½ cents a gallon, will affect New Jersey and Baltimore, Md.

Land Given to University.

Oakland.—One hundred and one acres of land in Alameda, Cal., valued at \$250,000, were deeded to the University of California as a part of the \$1,000,000 bequest to the university by the late Dennis Searles, New York millionaire.

To Publish Evaders' Names.

Washington.—Publication of lists of draft deserters will be begun shortly. Secretary Weeks has announced. Lists of men who have been found guilty of draft desertion will be made public by the War Department according to former draft districts.

Sawyer Named Harding's Physician.

Washington.—Dr. C. E. Sawyer, the Harding family doctor, has been chosen as the president's physician and will be nominated as a brigadier general in the medical reserve corps. It was announced by Secretary Weeks of the war department.

To Build Another Tunnel.

New York.—April 16 has been set as the date for the ceremony in connection with the breaking of ground for the New Jersey entrance of the vehicular tunnel to New York under the Hudson river. The ground will be broken in Jersey City.

May Renew Immigration Ban.

Ottawa.—The cabinet is considering renewing the regulation of the department of immigration and colonization which provides that an immigrant must have at least \$250 when he enters Canada. This regulation automatically expires March 31.

Limit Full Collision Risks.

New York.—Carelessness of automobile drivers in Greater New York has driven two large insurance companies to discontinue the writing of full collision policies. The companies announced that hereafter they will only accept risks under the \$50 and \$100 deductible forms.

Don't Want U. S. Rule.

Kingston, Jamaica.—A majority of Jamaicans are not in favor of the suggested sale of the island to the United States. As a counter blast, a resolution was introduced in the legislature urging confederation of the entire group of the British West Indies with a uniform tariff.

Baker Commissioned Colonel.

Washington.—Former Secretary of War Newton D. Baker has been commissioned a colonel in the judge advocate's department of the officers' reserve corps. In a letter to Mr. Baker, Secretary of War Weeks said that he hoped the former secretary would be a "material factor" in building up the reserve corps and would not be "a passive member."

Men Turning to Army.

Washington.—The high price of recruits went down in common with other falling markets in 1920, says a war department announcement. It cost an average of \$86.75 each to get 138,040 men to the colors that year as compared with \$127 in 1913. In February, 1920, the cost was \$192.36 each, however, against \$42.79 in December of the same year.

Holds Torpedo, Saves 50 Lives.

Brockenridge, Texas.—Catching a 20-quart nitroglycerine torpedo as it was blown from the casing by an unexpected flow of gas, Powell Wright, held it until 50 persons and 200 quarts of the explosive on a wagon reached safety. He then dropped it back into the hole with the cooing gas and escaped. The derrick was wrecked by the impact and the well clogged fire when the torpedo was lifted to the crown block by a recurrence of gas in the hole.

STATE NEWS

Michigan, which the special election less than three weeks away there are no candidates for mayor.

Flint.—Dismissal of three detective and a patrolman for conduct unbecoming officers was announced by the police commission.

Lodington.—The body of Emory Christensen, 26 years old, drowned last October while trying to cross Port Marquette Lake in a canoe, was found on the beach at Butterville.

Frankfort.—The Point Bridge eastward station has been reopened after being closed three months. Capt. A. Wessell is in charge. The Frankfort station has been open all winter.

Pontiac.—G. L. Jenner, superintendent of schools, says he will put in effect next September a system where by children may be graded according to their intellects rather than according to their age.

Muskegon.—A balance of more than \$20,000 in the Muskegon War Chest will be the nucleus of a memorial to soldiers of the World War. War Chest members have authorized this disposition of the fund.

Newago.—George W. Shepherd, 16 years county clerk, has been asked by the board of supervisors to resign for alleged neglect of duty. He has refused. The board presented the case to Gov. Greenback.

Potosky.—Wilson Maxin and David Willis are dead and Maxin's son, T. is critically injured as the result of a collision between their automobile and a Grand Rapids & Indiana railroad train near Kalamazoo.

Albion.—The city council has ordered materials for all sewers, water mains, sidewalks and similar improvements to be delivered at once the work may be started at the earliest possible moment.

Cadillac.—Several pupils were injured, two girls seriously, when a plaster fell from the ceiling of the eighth grade room in high school building. Girls badly hurt are: Gladys Bennett and Bertha Brehm.

Ann Arbor.—That Ann Arbor be the site for the Federal hospital for soldiers which is to be located in the "Great Lakes region," was the prediction of Col. Guy M. Wilson, president of the state department of the American Legion.

Kalamazoo.—When officers went to the home of Vincent Niezwiedzki, a Comstock township farmer, and located a still, they could not find the cover to the metal tank. It was discovered in the baby's cradle, where it had been hidden.

Ferndale.—William Simpson has announced that he will be a candidate for the presidency of the village to replace the commissioners who have been removed from office. It is probable all of the commissioners recalled will be candidates.

Owosso.—Mayor A. T. Wright says he will ask passage of an ordinance requiring that all cows from which milk is sold be tested for tuberculosis. Protests are being made against the proposed ordinance prohibiting the sale of unpasteurized milk.

Ionia.—Three more members of the staff at the Michigan Reformatory here have resigned. James Collins, superintendent of mails; Cyrus Mendenhall, chaplain, and Guy Conner, institution farmer, are the latest to go. Collins and Mendenhall have been office 27 years.

Ann Arbor.—The trial of Harry St. Louis, a Detroit university medical student, and Harry Harper, a barber, of the charge of murder in the second degree has been set for the last of March in the circuit court here. It charged they caused the death of Ethel McGuire, Traverse City nurse.

Muskegon.—The Muskegon Traction and Lighting Co. has petitioned the State Public Utilities Commission for a franchise to operate a street car line in Muskegon. The company says with buses eliminated it could reduce the 10-cent fare to 5 cents.

Ann Arbor.—Seven graduates and one undergraduate of the University of Michigan department of agriculture have been honored by the first annual American Congress of Architects session at Montevideo, Uruguay, according to word received here. A large received a gold medal for the design of a cathedral.

Pontiac.—Warren Hamfield, 11 years old, who accidentally wounded his brother Claire, 9, and then shot and killed him, "to put him out of misery," was taken to the State Psychopathic Hospital at Ann Arbor of a Probate Court order. He will be there for 35 days for observation. Physicians who examined him here said they found him normal.

Grand Rapids.—The city commission has ordered the submission of a charter amendment to the voters at a special election to prevent and punish fraud in the signing of petitions for the nomination of city officials. Many petitions filed at the March 3 election were fraudulent. Names of two candidates were removed from the primary ballot because of these frauds.

Reed City.—Reed City is in dark mood and many of the industries are without power owing to the breaking of the dam of the Osceola Light and Power company. The loss is estimated between \$25,000 and \$35,000. The rains and the breaking of the dam chains from the water pressure caused an overflow due to closed gates. Rushing waters soon filled the water power building. Foundations of the building and the flume were undermined and soon a big portion of the dam had given way and cement caved in.

LINER "ADS" EFFECTIVE.

One of the most effective forms of advertising is in the "liner" or classified column where a few cents will give prompt results. Tribune liner ads are always run under the heading, "Wants, For Sale, To Rent," in the same position on the front page where they are easy to find and invariably catch the eye. Only five cents the line for the first insertion, 2 1/2 cents the line for each subsequent insertion. Next time you want to buy something, or have something for sale or rent, try a Tribune liner.

Dated March 4, 1921.

GEORGE S. DAVIS, Township Clerk.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a tonic and blood purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.
