MOTHERS' DAY PROCLAMATION. (By the Governor)

It is a beautiful custom which decrees that one Sunday in the year shall be set apart for the purpose of honoring the memory of the mothers

who have gone from us and of paying a tribute of affection and reverence to those who are still left to us. It is impossible to compute our debt to our mothers. Their devotion and sacrifice guarded and sheltered and cared for us from the cradle up to manhood and womanhood. To them most of us owe whatever there is of sterling character in our make-up. The mother is the heart of the home, and from the hearthstones, around which linger the recollections of our mothers, come inspirations that give hope and courage and steadfastness to fight the battle of life.

Therefore, by virtue of the authority vested in me as governor of the State of Michigan, I do hereby designate and set aside Sunday, May 8, 1921, as Mother's Day, and I call upon our people, both young and old, to gather in their several places of worship and take part in services appropriate to the day.

And let absent sons and daughters take this occasion to visit the mother in the old home, or, where such a visit is impossible, let them send a message of cheer and greeting.

In accordance with a resolution of the Congress of the United States, I further request the people of Michigan on the day aforesaid to display the United States flag in their homes and in other suitable places, as a fitting expression of their desire to pay homage to American motherhood.

Given under my hand and seal and the Great Seal of the State this 22nd day of April, in the year of our Lord one thousand nine hundred and twenty-one, and of the Commonwealth of the eighty-fifth.

Alex. J. Groosbeck,
Governor.

Lafayette grange will meet Thursday evening, May 6th, at I. O. O. F. hall. Impromptu program.

Aboard the U. S. S. Pennsylvania, Hampton Roads, Va.—President Harding served notice upon the whole world that the United States "does not want anything that is not hers by right, but that she does want that which is rightfully her own and, by the eternal, we mean to have it."

When the cheers had died away the president continued:

"I wish you might never be called upon to fire a gun again."

"If every government as ours there would always be peace, but I would not have peace without honor and without consciousness that America is right and is protecting its every interest. I bid you make ours an efficient, conscientious and effective navy, and I pledge you in return the confidence and confidence of 110,000,000 Americans."

"I want to tell you who serve, how deeply interested and thoroughly confident America is in you. America will never ask anything of you that is not in accord with the best conscience of the freest people on earth."

"The United States does not want anything that is not right. It does not want any tribute, but it does want that which is rightfully ours and by the eternal, we mean to have that."

Guns on the neighboring men of war thundered salutes and scores of sightseeing craft circled in and out amidst the great sea fighters as the president boarded the Pennsylvania. The president was taken to the quarter deck where Admiral Wilson presented the officers of the fleet. The president gathered them about him and it was then that he delivered his brief, but emphatic speech.

Gasoline Down to 23 Cents

Detroit.—A drop of three cents in the price of gasoline, the largest in six years, was made effective April 27 by both the Standard Oil Co. and the Sinclair Refining Co. This brings the price of gasoline at filling stations to 22 3/4 a gallon. The tank wagon price is one cent less.

Flint Estate Awarded \$28,000

Buffalo.—The largest damage verdict ever given in this country for the loss of the life of an unemployed woman, was rendered in the courts here when a jury assessed the New York Central railroad \$28,000 for the death in a wreck on that road at South Byron, N. Y., in January, 1919, of Mrs. Patrick Doherty, of Flint, Mich.

Investigate State's Oil Deposits

Lansing.—Dr. W. L. Robinson of the Michigan geologic survey is investigating the possibilities of oil deposits in the upper peninsula. The survey was made by the department last year.

Driver and Auto in Ditch

Marquette, Wis.—Charles E. Fenton, district manager of the Northwestern Mutual Life Insurance Co. of Escanaba for many years, was found dead underneath his automobile a few miles from this city. It is believed he suffered a stroke of heart failure and died while driving his car, plunging into the ditch. He leaves a widow and two daughters.

Pays Debts from Prison Cell

Winston-Salem, N. C.—By making cedar chests in recreation hours at the penitentiary in Richmond, Va., Sinda Allen, serving a 30-year sentence for taking part with the Allen band in shooting up the court at Hillsville, Carroll County, Va., eight years ago, has made sufficient money to pay off every debt he owed. A wagon company offered to release him from a debt as a gift to his family, but the offer was declined, and the debt paid in full, with interest.

STATE TAX RATE SLIGHTLY HIGHER

REGULAR APPROPRIATIONS FOR 1921-22 ARE \$19,059,922; EXPECT REDUCTION IN 1923.

SOLDIERS BONUS NEXT PROBLEM

Special Session Must Provide Means for Taking Care of \$1,250,000 Interest on Bond Issue.

Lansing.—Michigan's total state tax levy will, during the two ensuing years, be slightly larger than for the biennial period just closed. The appropriations of the regular session, show a slight increase over the appropriation of two years ago, but the increased assessed valuation, figured at nearly half a billion, will reduce the rate sufficiently to bring it at or below the figure of the last two years.

But there is still the special session to come, with an almost certain appropriation of \$1,250,000 for each year for interest and sinking fund on the soldiers' bonus bonds. The special session might pass a few other appropriation bills, so, until its business is done, exact tax rates will not be known, but they will be in the neighborhood of \$4 per thousand of valuation, as against \$3.87 last year.

In the year 1922, however, the tax will be lowered about 60 cents per thousand, as the regular legislative appropriations for that year are approximately three millions less than those for 1921 collection.

The situation will contain an unprecedented element in that business year, the state will collect its first corporation tax. It is estimated to produce \$6,000,000 annually, and out of this money, plus three million fees annually, it is expected to do all the state building. The regular tax levy contains no building appropriation except \$1,107,000 to complete the state office building and less than \$100,000 for a new cell block at Marquette prison.

The regular appropriations for 1921-22 are \$19,059,922 and for the following year \$16,591,78. These include the mill taxes of three million each year for the University of Michigan and \$1,000,000 each year for the Michigan Agricultural College. These institutions get no other state moneys except the conditional building appropriations out of the corporation tax and fees. These figures in the last two years were \$17,432,512 and \$17,329,241. The totals thus show \$639,148 more this session than last with the soldiers' bonus to come.

Adoption by the house of the declaratory peace measure is not expected before next week. The Knox resolution was adopted last Saturday by the senate by vote of 49 to 23.

The indictments were returned under the Dyer act, which prohibits interstate commerce in stolen automobiles. The men indicted are William Beville, Chicago, and his brother, Seth, of Dayton, O.; Ray Rapp, Fred Soback and Fred Snyder, all of Chicago, and William Price, of Dayton, O.

THE AMERICAN LEGION

(Copyright by The American Legion, Inc., 1921)

ONE OF LEGION'S FOUNDERS

Col. Milton Foreman's Connection Dates Back to the Original Paris Caucus.

Col. Milton J. Foreman, national executive committee member of the Illinois department of the American Legion, is a Chicago lawyer, who for many years has been active in public and military affairs. His connection with the Legion dates back to the original Paris caucus at which time the idea of forming a Legion was conceived. At that meeting he was named chairman of the temporary executive committee.

Returning to the United States, he was elected commander of the Illinois department. In 13 months the membership in Illinois increased from 12,000 to more than 65,000, and the number of posts from 220 to 682.

While serving with the First Illinois cavalry, in 1891, Mr. Foreman acquired an active interest in military affairs. He served with that organization during the Spanish American war and rose to the rank of captain. After the war Mr. Foreman began the practice of law in Chicago, and became major in the First cavalry. In 1914 he was promoted to lieutenant colonel, and two years later commissioned colonel of the regiment. He was in command of that organization during the border troubles.

With the outbreak of the World war, Colonel Foreman requested the transfer of his regiment to field artillery, which was effected in June, 1917. Colonel Foreman took the regiment to France in 1917 and commanded it throughout the war. He received three citations for gallantry and was awarded the Distinguished Service Medal for achievements in the St. Mihiel and Meuse-Argonne offensives.

While not in the military service, Mr. Foreman practiced law in Chicago and took an active interest in public affairs throughout the state. In 1899 he was elected to the Chicago city council and served six consecutive terms. He was chairman of the Chicago charter convention whose work has become a model for planners of new city charters.

HIKE TO NATIONAL CAPITAL

Plan Suggested by Kansas Committee-man to Tell Lawmakers What Legion Men Need.

"Join the army and walk around the world." Do you remember that slogan? It was a slogan of the

committee of the American Legion. "Let's walk to Washington and tell them what the Legion wants for its disabled and for its whole membership."

According to Mr. Kurtz' plan, delegates from each state department of the Legion would hike overland to the nation's capital, arranging their schedules so as to meet on the White House steps on the same day. However, he would permit representatives from the other side of the Rockies to ride the cushions across to this side.

Legion posts along the way would lead and shelter the hikers. "If I lead the way, and outwalk anyone in the Legion," the Kansas pedestrian declares.

C. O. D.

An old dandy visited a doctor and received instructions as to what he should do. Shaking his head, he was about to leave the office, when the doctor called out:

"Pay me, uncle, you forgot to pay me."

"For my advice?"

"Nossuh, boss, I've contemplated it from all angles and decided not to take it." American Legion Weekly.

Second Hand.

"I want two sheets of fly paper," said the lady entering the corner general store.

The none too brilliant clerk extracted two sheets from the window.

About Digestion.

It is claimed that only half as
much food is required when it is thor-
oughly masticated. Digestion begins
in the mouth and a thorough masti-
cation of the food is of the greatest
importance. When needed, take
Chamberlain's Tablets to strengthen
the digestion and insure a regular
movement of the bowels. Adv.Albert Webb of Ann Arbor visited

Periodic Bilious Attacks

Persons subject to bilious attacks at
regular intervals know about when to
expect an attack. They find that
they have no desire for food when an
attack is due but usually eat because
it is meal time. Skip one meal and
take three of Chamberlain's Tablets
and you may be able to avoid the at-
tack. Persons subject to periodic
bilious attacks should not drink tea
or coffee at any time. Adv.
