CONSIDERABLE DAMAGE CAUSED BY STORM

The rain and electric storm here Saturday did considerable damage and the low lands in this vicinity were flooded and many of the cellars about town that never had surface water in them before were well covered with water.

The storm struck here between one and two o'clock and for nearly an hour it appeared to be almost a cloudburst. There was almost a continual flash of lightning and roar of thunder, accompanied by a high wind. During the storm, lightning struck the chimney on the store occupied by A. E. Winans & Son, the electric light wires were burned off on some of the circuits about town and telephone service both in Chelsea and vicinity was badly crippled, and many shade trees were broken more or less. According to reports, several head of live stock throughout the country was killed by lightning.

Some of the onion growers in this vicinity report the loss of their crop. The gardens and corn fields were considerably damaged and the highways that had been worked recently were gullied out and all ditches were filled to their utmost capacity.

It is claimed by many of the oldest residents here that during their experience the rainfall was the heaviest one that they had ever witnessed.

Bacon-Fletcher Wedding.

A very pretty wedding took place in the Congregational church at high noon, on Wednesday, June 22, when Miss Dorothy Lucile Bacon was united in marriage with Mr. Harrison Fletcher, of Coldwater, Michigan. Rev. P. W. Dierberger performed the marriage ceremony, which was witnessed by a large number of guests from Coldwater, South Haven, Detroit, and here.

The couple were attended by Miss Grace Bacon, sister of the bride, and Mr. Foster Fletcher, of Ypsilanti, brother of the bridegroom. Two nephews of the bride, Allan Dewey, of Detroit, and Norman Phelps, of Coldwater, acted as pages, and three of the bride's brothers, Reynolds, of Highland Park, Donald and John, of Chelsea, were the ushers. Dr. Theophilus Hilderbrandt, of Ann Arbor, presided at the organ.

The bride is a graduate of the Chelsea high school and Olivet college, and for the past few years has been a successful music teacher in the schools at South Haven and Coldwater. The bridegroom is a graduate of the Ypsilanti Normal college and the U. of M. and is engaged in the mercantile business at Coldwater.

Following the church services a wedding dinner was served at the home of the bride's parents, Mr. and Mrs. Jabez Bacon, to the immediate members of the families of the young couple.

Dr. and Mrs. S. Schultz and family, and Dr. and Mrs. N. E. Phelps and family, of Coldwater; Mrs. H. C. Schneider and two children, of Beloit, Wisconsin; Mr. and Mrs. F. G. Dewey and children, of Detroit; Mr. and Mrs. Reynolds Bacon and family, of Highland Park; Mr. and Mrs. Geo. Bacon, of Fort Wayne, Ind., and Mr. and Mrs. Benjamin Bacon and son, of Jackson, all relatives of the bride, were present, and a number of the bridegroom's relatives were present.

The couple left on a trip in the East and upon their return will reside in Coldwater.

Sergeant Jay T. Glenn.

The remains of Sergeant Jay T. Glenn, killed in action during the advance of the Americans at Chateau Thierry, August 3, 1918, arrived here last Thursday evening.

Sergeant Glenn enlisted in Company M, Michigan National Guard, in 1915, served on the Mexican border in 1916, and went overseas with Co. F, 126th Infantry. He served in the trenches of Alsace, and later went with his regiment to take part in the attack on Chateau-Thierry. Early in the fighting Serg. Glenn was killed by machine gun bullets while leading his platoon.

Sunday afternoon a large crowd attended the military funeral at Oak Lawn Cemetery, where his remains were laid to rest.

The 126th Infantry Association of Jackson and the American Legion of Stockbridge met the funeral party at the village limits and escorted them to the cemetery, and after the Masonic burial ceremony, "The Star Spangled Banner," sung by Dan Denon of Gregory, and a few remarks by Captain Taylor, the salute was fired and "taps" sounded.—Stockbridge Brief-Sun.

Mr. Glenn's parents, Mr. and Mrs. Emory Glenn, were former residents of North Lake and their home at present is near Gregory.

The Young People's Society of St. Paul's church will hold an ice cream social at the home of G. H. Barbour, at Lima Center, Thursday evening, June 30. Everyone invited.

INTERURBAN WRECK SATURDAY EVENING

Five Persons Were Killed and Thirty Injured in Rear-end Collision.

One of the worst rear-end collisions of the year occurred about 5 o'clock Saturday evening on the D. U. R. switch near the home of Mr. and Mrs. Henry Luick, of Lima, in which five lost their lives and many were injured, several of whom are residents of this place.

Almost immediately after the two cars came together, telephone calls were sent to the Chelsea physicians and they responded immediately and were on the scene fully an hour before help arrived from Ann Arbor. The farmers residing near the wreckage and many of the residents from here rendered assistance, clearing away the wreckage and assisting the injured who were moved in D. U. R. cars as soon as it was possible to do so.

Wooden car No. 7293, the first of a two-section train known as No. 169, run as an extra on Saturdays, left Ann Arbor at 4:45 p. m., with the second section, steel car No. 26, ten minutes behind it. When the first section reached the switch the crew failed to throw the switch shut while they talked to the dispatcher at Ypsilanti relative to meeting an expected eastbound train.

About two minutes later the second section, in charge of Motorman Bert Winchell of Ypsilanti, crashed into the first, telescoping the frail wooden car a third of its distance, the impact sending both cars, locked together, a distance of about 300 feet down the track.

The Dead.

Arthur C. Pierce, Highland Park.
Mrs. Arthur C. Pierce, Highland Park.

Mrs. Emma Scarff, Detroit.
Miss Vina Johnson, Ann Arbor.
Miss Elizabeth Keusch, Chelsea.

Injured Brought to Chelsea.

Mrs. Laura Schoenhals, Chelsea; compound fracture of leg and internal injuries.

Miss Beulah Luick, daughter of Otto Luick, Chelsea; feet badly injured.

John Miller, Chelsea; concussion of brain.

Elmer Koehbe, Detroit; left leg lacerated, left arm injured and internal injuries.

Misses Dorothy and Doris Schumacher, Chelsea; badly bruised and clothing destroyed.

Miss Augusta Samp, Chelsea; legs bruised.

Mrs. Phyllis Guetzel, Chelsea, bruised and nerves shattered.

Miss Loretta Heim, of Detroit, bruised and cut.

Miss Flora Schieferstein, Chelsea; bruised.

Alfred Schneider, Lima; left arm broken at elbow, right arm injured and also both legs.

Mrs. B. B. Turnbull, Chelsea; neck injured.

Harold Storms, Chelsea; bruised.

Philip Hagadon, Ypsilanti; 2 ribs fractured and bruised.

At Ann Arbor Hospitals.

Edwin F. Lee, Hillsdale; serious cuts and bruises.

Wilber Anderson, South Haven; internal injuries.

Unidentified woman at St. Joseph's sanitarium; unconscious, and believed internally injured.

A. L. Degreen, Reading.

Man partly identified as Mr. Hicks. Taken to Jackson.

Mrs. Rachel M. Ward, 263 Wildwood avenue, Jackson.

Simon Verberg, 113 1/2 South East avenue, Jackson; leg bruised and knee injured.

F. R. Summers, R. F. D. 8, Jackson.

L. T. Reed, Detroit.

James E. Kimball, Chicago.

Mrs. Charles Tansford, Detroit.

Charles Citizenover, Detroit.

Clyde M. Dowling, Farmington, formerly of Jackson.

H. W. Upson, Cleveland, Ohio.

Mrs. F. Wilcox, New Haven, Conn.

Mrs. Ada Gardner, Lapeer.

Mr. and Mrs. Carl S. Smith, Detroit.

Mr. Pierce was probably instantly killed and Mrs. Pierce died about 20 minutes after being removed from the wreckage. Miss Keusch and Mrs. Scarff were dead when taken from the car and Miss Johnson died in the hospital at Ann Arbor. Four of the bodies were taken to Staffan's undertaking parlors and Miss Johnson was brought from Ann Arbor to the home of Mr. and Mrs. D. H. Wurster.

The only son of Mr. and Mrs. Pierce, Harold H., accompanied by his cousin, Mr. Reed, both of Highland Park, arrived here Sunday morning.

Mrs. Scarff's body was taken to Detroit, Sunday, by her brother who came here and identified her that morning.

The bodies of Mr. and Mrs. Pierce were removed from Staffan's rooms

Continued on fourth page.

INSTANTLY KILLED ON ELECTRIC TRACK FRIDAY

Weldon Aldrich, aged 26 years, was instantly killed at 7:50 last Friday morning by an eastbound electric freight car on the D. J. & C. electric railway on the crossing near the home of Mr. and Mrs. C. Haefner.

The young man was employed by the D. J. & C. with an extra crew who were setting poles for some new wire that the company is having strung and had been employed about four weeks.

At the time of the accident the young man was standing in the center of the track waving his hands at some tourists who were riding on a passing freight train. From the testimony at the inquest it would appear that the men were trying to call the attention of Aldrich to the approaching freight car as they kept pointing in that direction. None of his fellow workmen seemed to have noticed the danger that he was in.

The young man was born in Paulding County, Ohio. He served one year overseas in the world war, during which time he was gassed and his vision had become impaired from the effects of the gas. He entered the service in Ohio. His parents are residents of Chelsea. Surviving him are his father and mother, four brothers, three of whom reside here, five sisters, three of whom are residents here. His body was taken to Paulding, Ohio, Saturday morning, and the funeral was held Sunday.

Justice of the Peace, Howard P. Brooks, acting as coroner, selected the following as jurors: Adam Eppier, Geo. P. Staffan, Frank Brooks, Roy Dillon, H. D. Witherell and Roy T. Evans, who viewed the body in Staffan's undertaking rooms after which an adjournment was taken until Monday evening to hold an inquest.

The jury met Monday evening in H. D. Witherell's office. After hearing the testimony of several witnesses, returned a verdict exonerating the car crew from blame in causing the death of the deceased.

Double Funeral Services.

A double funeral was conducted in the Chelsea Baptist church at 2 o'clock Tuesday afternoon, for Mr. and Mrs. Arthur C. Pierce, by Rev. Mr. Hawkins, of Detroit, a Christian Scientist reader, conducting the services.

Mr. Pierce was born in Battle Creek, Michigan, September 29, 1859, and his death occurred on Saturday, June 18, 1921.

Miss Josephine Ruck was born in Toronto, Canada, May 24, 1861, and most of her life had been spent in this vicinity. Her death occurred about 20 minutes after the death of Mr. Pierce, both being caused by the wreck on the electric line at Warsaw switch in Lima.

Mr. and Mrs. Pierce were married in Lansing, January 24, 1889. For over 22 years, while residents of Chelsea, they were active in church work and other social functions. Mr. Pierce was also employed most of the time during his residence here, as a foreman in the Glazier Stove Works, and in a similar position by the successors of the Stove Company. The family moved to Highland Park 9 years ago, where Mr. Pierce was a foreman in one of the departments of the Ford Motor Co.

Mr. and Mrs. Pierce were on their way here when the accident happened, to visit at the home of the Misses Miller, who are cousins of Mrs. Pierce.

Mr. and Mrs. Pierce are survived by their son, Harold H., grandson, daughter-in-law, Mrs. Harold Pierce. Mr. Pierce is also survived by his aged mother, 2 brothers, 2 sisters, and a number of nephews and nieces. Mrs. Pierce is survived by a half brother, a resident of Canada, and the members of the family of the late Mr. and Mrs. Geo. Miller, who are her cousins.

The funeral was attended by a large number of their former associates and friends. Interment in Oak Grove cemetery.

Alumni Banquet.

The 26th annual banquet of the Chelsea High School Alumni Association was held Thursday evening in the Methodist church. Chandler Rogers, of Detroit, was toastmaster. The program follows: "Something to Think about," W. S. McLaren; vocal solo, Margaret Eder; solo, Paul Niehaus; "Our Aim Success, Our Hope to Win," David Batt; music, orchestra; Retrospect, Edith Weber; "Everything in General, Nothing in Particular," Faye Palmer; music, orchestra. Officers for the ensuing year were elected as follows: President, Paul C. Maroney; vice president, Mrs. Carl Rutan. The president and vice president were authorized to appoint a secretary and treasurer.

The North Sylvan Grange will meet at the home of Mr. and Mrs. John Broesamle, on Friday evening of this week.

Foley's
Honey and Tar
COMPOUND
IT IS JUST WHAT CHILDREN
ought to have for feverish colds, coughs,
"sneezes," and that tight, wheezing
breathing. It stops cough, too. It cures
and checks whooping cough, measles
cough and bronchitis coughs.
Every Use: A Friend
"My little son had been having the cough
every few weeks, so I began giving him a few
drops of Foley's Honey and Tar every two or
three hours. That night he slept well, never
coughed any more and next day he was gone."
—Mrs. M. M. Ramsey, Stamford, Conn.
"My three children had a very severe attack
of whooping cough. The first few doses of
Foley's Honey and Tar gave them great relief,
and it did them good." —Mrs. E. C. Hocker,
Grand Island, N.Y.
Foley's Honey and Tar has been used
for more than thirty years in thousands
of homes for relief from coughs, colds,
sneezing, whooping cough, bronchitis,
measles, whooping cough, bronchitis and
the coughs that follow influenza or
flu gripe.

BREVITIES

Jackson—The first heat prostration
of the season occurred in Jackson Fri-
day when A. W. Ward, a farmer in
the city for supplies, experienced a
sun stroke. He recovered soon after
he had received medical attention.
The mercury at 1 p. m. registered 90
degrees in the shade.

Manchester—During the past two
years at least the noxious weeds and
brush along some of the highways
have not been cut and a view of the
road where there are curves or turns
is more or less obstructed. Greater
caution should be observed by auto
drivers to avoid accidents.—Enterprise.

Ann Arbor—L. C. Utberg, sopho-
more engineering student from Re-
public, grew faint while taking an
examination Thursday. He went to
a window, fainted and fell two stories
to the ground. He was taken to the
university hospital, where doc-
tors could not even find a bruise on
his body.

Bridgewater—Theodore L. O'Dell,
13 years old, of South Bridgewater
township, was killed when the auto-
mobile truck which he was driving
stalled on the railroad tracks, Thurs-
day. The boy jumped out but was
caught by the engine and dragged 15
feet, receiving injuries which result-
ed in his death.

Pinekey—W. M. Kennedy, jr., who
has accepted a contract to build the
new reservoir for the fire depart-
ment started the work Monday morn-
ing on the one to be built on Ham-
burg street at Stuart. This will fur-
nish water for the elevator depot,
off station, pickle station, St. Mary's
church and the dwellings in the dis-
trict.—Dispatch.

Ann Arbor—Robert R. Patterson,
son of Prof. and Mrs. G. W. Pat-
terson, has received notice of his ap-
pointment as American vice consul
and will report at the department of
state at Washington D. C. on July 7,
for further instructions. He will
take a course of instruction not to
exceed 20 days and will then know
to what country he will be sent.

Jackson—Another suit has been
started in circuit court as the result
of an accident on the Grass Lake
crossing of the D. U. R., November
13, 1920, when an automobile driven
by Harry Horning was struck by an
interurban. Mr. and Mrs. Horning
have started suits for \$1,500 dam-
ages and Friday Lewis Walker, a
passenger in the Horning auto, filed
suit for \$500 damages.

Brighton—The St. Vincent DePaul
organization for the care of orphans
completed the purchase of the Decker
property at Island Lake last Wed-
nesday and on Tuesday of this week
work was begun on an orphanage
for girls which will, when completed
have a capacity of about 300 girls
who shall be cared for by at least
25 Catholic sisters. The property
consists of between 30 and 40 acres
which includes the Decker home and
Pickering lake near by.—Argus.

Ann Arbor—Prof. Oscar J. Camp-
bell, of the English Department of
the University of Wisconsin, has ac-
cepted a professorship in English at
the University of Michigan, the ap-
pointment to become effective with
the opening of college next fall.
Professor Campbell is a graduate of
Michigan, having taken his A. B. de-
gree in 1900. He received his M. A.
and Ph.D. degrees from Harvard Uni-
versity. He has studied in the Uni-
versities of Copenhagen, Berlin, Paris
London, and Oxford.

Saline—Deputy Sheriff George Cook
of Saline established another record
Friday in catching alleged bootleg-
gers when two were apprehended
during the forenoon and lodged in
the county jail under \$2,000 bail,
bound over to the October term of
the circuit court. Adolph Peterson
of Detroit, was the first alleged
rum runner to drive into Saline and
upon investigation Deputy Cook is
said to have found ten cases of
whisky in the car. Not long after
Peterson had been disposed of, Roy
E. Calvin, of Richmond, Ind., was
caught with whisky in his auto.

Brighton—For the first time in
history, so far as we know, the aero-
plane was used for the purpose of
commerce in Brighton this week.
Claude Solison notified a customer
in Pinekey by phone that he would
deliver a gallon of paint to him im-
mediately, and that he would land
in a certain field. The customer
started immediately for the field and
arrived just in time to see Kyle Pin-
ney's plane appear on the horizon.
Claude descended, delivered his paint
and was back in Brighton again in
ten minutes. They went over in
twelve minutes. We wonder if the
fact that the paint "went up" effec-
tively the price any.—Argus.

Stockbridge—Last Tuesday a man
calling himself L. H. MacBain, of Bay
City, came into town. He professed
to belong to the U. S. Geological
Survey. He claimed to be associated
with Mr. Upton, formerly on the
survey here, and very favorably
known. He obtained credit at the
hotel on the plea that he was about
to begin a survey here. He also
sought loans on the claim that his
expense check had been mislaid, and
then suddenly left and paid no bills.
The fellow had blue prints of geo-
logical surveys, and showed fami-
liarity with that work. He evidently
is a deceiver. Hotel men especially
should be on the watch against him.
—Brief-Sun.

VARIED SHOW AT
72ND STATE FAIR

PROGRAM TO BE HAPPY MING-
LING OF FARM AND CITY
FEATURES

FUN AND ENTERTAINMENT
ALONG WITH INSTRUCTION

Since Gov. Epaphroditus Ransom
established in Michigan 72 years ago
the first state fair held west of the
Allegheny mountains, the citizens of
this commonwealth have witnessed
annually an exhibition designed to
nurture the industries and activities
of the two peninsulas.

In founding the Michigan State
Fair, Gov. Ransom and the farmer-
citizens associated with him dem-
onstrated a progressiveness and an
enterprise which has been characteris-
tic of the state's whole scheme of public
education.

It is well to recall at this time that
the fair was founded by them with
earnest educational ideals; that it
was the first attempt at agricultural
education in the west; and that from
its beginnings spring also the first
agricultural college in the world—the
Michigan Agricultural College at East
Lansing.

Since those historic days Michigan
has undergone great changes. It has
evolved from a forest into thousands
of fertile farms, and from the farms
into a magnificently balanced empire
of agriculture, manufacture and com-
merce.

In our fair this year we shall, there-
fore, attempt to show the whole var-
ied collection of Michigan's activities
—its farms, its factories, its fisheries,
and its homes and inhabitants.

We shall show a bit of Detroit, the
wonder city of the nation; we shall
show the motor industry which in the
last decade and a half has transfor-
med the whole state; we shall show the
first aid to motors—Good Roads. We
shall show how health is maintained
in cities, the art and beauty that may
be put in homes, the fineries of urban
civilization. But in so doing we shall
not forget that the fair must devote
itself conscientiously to encourage
the agricultural interests of the state
and to stimulate them forward to new
efficiency and prosperity.

And thus in our coming seventy-
second fair, we shall hope to mingle
in happy proportions a program which
will show the best of farm life to the
city man and the most modern of city
conveniences to the man who feeds
the world.

With it all will be fun and enter-
tainment, clean in every particular
and of the highest type known to fair
managements anywhere.

To this pot-pourri of instruction and
industry, health and happiness, fun
and farming, the Michigan State Fair
cordially invites the public of Michi-
gan, hoping that the ten days and
nights of activity will leave behind
them memories of royal good times
and a feeling that something of real
usefulness has been accomplished.
GEORGE W. DICKINSON,
Secretary-Manager.

G. W. Dickinson, Secretary-Manager
Michigan State Fair

In connection with the taking over
by the state of the Michigan State
Fair, which will hold its seventy-
second annual exhibition in Detroit
next September 2 to 11, the services
of G. W. Dickinson as secretary-man-
ager of the fair have been retained by
the board of managers. In the eight
years Mr. Dickinson has acted in this
capacity the Michigan State Fair has
grown from a small, money-losing ven-
ture, to the greatest fair in America,
with splendid grounds and buildings of
its own at the northerly limits of De-
troit, and a series of premiums and
prize awards for exhibitors which are
the most attractive anywhere. In ad-
dition, the fair's financial success has
assured still further growth from its
present dimensions.

FACTS ABOUT 1921 STATE FAIR

Dates—Sept. 2-11, inclusive.
Place—State Fair Grounds, Detroit.
Now owned directly by the people
of Michigan.
Highest premium list on record to
reward exhibitors.
Shows all the varied activities of
Michigan farms and cities.
Now ranks as greatest fair in Amer-
ica.

SKEPTICISM OUT OF PLACE

No Announcement of Scientific Dis-
covery May Today Be Looked
Upon as Fantastic.

That the butterfly contains within it-
self what Huxley would have called
the promise and potency of the cure
of tuberculosis and perhaps of other
malignant plagues might seem fantas-
tic proposition were it not for our
memory of its antecedent, remarks the
North American Review. It is now
about 100 years since Pasteur perceived
in the fermentation of beer and wine
the principle which emboldened him
to declare that we should one day learn
to eliminate all communicable diseases
from the world. Biot, Dumas and
other veterans of science were incred-
ulous. But crying "Travaille! tour-
jours travaille!" the young master of
them all proceeded to cure first the
"sickness" of beer and wine, then the
"silkworm disease," then a formidable
poultry pestilence, then one of the
deadliest plagues of cattle.

Having thus worked his way up in
the scale of life, he addressed him-
self by the same methods to the salu-
vation of man from what had been re-
garded as the most hopeless and hor-
rible of diseases, rabies, and thus
opened the way of Lister, of Koch, of
Finlay and Carrell, and to all the un-
speakably beneficent wonders of the
science of bacterial therapeutics. If
thus Pasteur found in an atom of yeast
the cure for rabies, typhoid, cholera,
malaria, yellow fever, diphtheria and
hundreds of plagues, there is no occasion
for skepticism when his disciple, Meta-
skow, suggests that in the larva of a
butterfly may be found the cure
for other pestilences.

TOBACCO USERS NOT IMMUNE

Only Germs of Cholera and Meningitis
Succumb to Smoke or Juice
of Nicotine.

Professor Pontoni of the University
of Rome has performed a series of ex-
periments by way of determining
whether tobacco, smoked or chewed,
would act as a disinfectant against dis-
ease germs. For the purpose he used
Tuscan cigars, Macedonian cigar-
ettes and "very strong chewing to-
bacco." He placed a piece of paper
covered with a saline which contained
the germs of cholera, influenza, dip-
theria, typhoid and meningitis in a
glass jar and then filled the jar with
smoke or covered the paper with to-
bacco juice, says New York Evening
Post.

He has arrived at the depressing con-
clusion that, except in the case of
cholera and meningitis, tobacco is pow-
erless in the presence of germs. As to
typhoid and diphtheria, he exposed the
bacteria to the strongest of smoke from
Tuscan cigars for one hour, and
they were as robust at the end of the
experiment as at the beginning.

As to tuberculosis, Professor Pon-
toni says that the most inveterate
smoker or chewer can hope for no pro-
tection from his indulgence. The el-
ements of tobacco that disinfect in the
case of cholera and meningitis are
tar, nicotine and formaldehyde.

Silk Chemises for Dusky Belles.

Livid purple silk chemises, size 52,
are becoming popular with the dusky
belles along the African Congo, ac-
cording to an announcement by a Chi-
cago mail order house.

The firm's foreign department an-
nounced the notification of safe ar-
rival from Chlet Angogo in the Bel-
gian Congo of a recent order for such
undergarments for 12 of the chief
favorite wives. Because of the color
and size, it was necessary to have
them made to order.

"The results are quite satisfactory,
however," the chief wrote.
With the chemise order came funds
for "shoes with watches in their toes,"
rubber boots with copper toes, pink
silk stockings and several hundred
pounds of beads and brightly-colored
cotton goods.

Twenty Years in Forestry.

The Yale forest school has just
celebrated its second decennial re-
union and the twentieth anniversary
of its founding, says the American
Forestry Magazine. Over one hun-
dred alumni and students, or approx-
imately 20 per cent of those who have
received professional instruction at the
school attended the reunion. Of the
twelve leading forest schools there are
under the direction of Yale men, and
eleven have Yale graduates in their
faculties. In addition, forestry is
taught as a subject at four other in-
stitutions by Yale graduates. In all,
42 men from this institution are en-
gaged in training professional fore-
sters in America.

Motion Pictures in Java.

The motion picture business in Java
appears to be expanding rapidly, ac-
cording to the American consul at Ba-
tavia. American pictures are increas-
ingly popular; the types best liked are
film features, comedy, news and travel
films. No film of less than five reels
makes a great success. The pictures
which attract the native audiences are
those of the action and adventure
type, while the European and Ameri-
can audiences usually prefer well-
acted drama of the type most popular
in America.

Rebuked.

The prospective employer looked the
applicant over carefully.
"And now," he said, "about the sal-
ary; what would you expect?"
"Oh, I couldn't consider less than
\$10,000 a year," said the applicant.
"You don't understand me," said the
employer. "I don't want to buy you;
I only want to rent the use of you."

STATE FAIR TAKES
BIG STEP FORWARD

GIFT OF PROPERTY TO STATE
MAGNIFICENT ONE; MEANS
MORE SUCCESS.

1921 EXHIBIT, SEPT. 2-11,
TO BE AMERICA'S FINEST

Under an arrangement made be-
tween the Michigan State Agricultural
Society and the State of Michigan, the
people of this commonwealth have
just received the most magnificent gift
in their history, in the transfer of the
property of the Michigan State Fair
at Detroit to the people of the state.

Besides landed property and build-
ings, there is more than \$210,000 cash
which goes to the state to be used
for the further building up of the fair.
The Michigan State Agricultural So-
ciety, just before the recent session
of the legislature, offered to turn the
property over to the state in case the
latter would continue to operate it for
the benefit of the people. This offer
was accepted.

The fair has come to prosperity only
in recent years. The turning point
was the year 1913. Up to that time
the enterprise had lost money annu-
ally and had every prospect of continu-
ing to do so. It was then that the
directors of the fair prevailed upon

H. H. Halladay, State Commissioner
of Agriculture, who is Chairman
of Board of Managers, Michi-
gan State Fair.

George W. Dickinson to resign as state
railroad commissioner and become
Secretary-Manager of the fair.

Under his management the fair be-
came much less of a horse-racing and
side-show affair, and devoted its at-
tention to featuring the constructive
activities of Michigan life. This course
has proved financially profitable, as
the public was better satisfied, and
this accounts for the fact that Dickin-
son paid up about \$100,000 in debts,
made many permanent improvements
to the grounds and laid up a cash sur-
plus of \$210,000.

Formal taking over of the fair by
the state is hailed as the most impor-
tant forward step since the inception
of the fair "way back" in 1849. The
scope of its activities now will be
widened extensively and without radi-
cal changes in management.

John S. Haggerty, the Detroit manu-
facturer, former president of the fair,
heads the list of appointments to the
new board, and the state also takes
over the contract of Secretary-Man-
ager Dickinson. The policy of the fair
as a non-profit organization will be
maintained as in the past, all excess
receipts to go towards building up the
fair and increasing premiums and
prize awards.

The new board of managers of the
fair, named by Gov. Grosbeck, repre-
sents all sections of Michigan, upper
peninsula as well as lower, and retains
in its personnel many of the men who
have helped bring the fair to its
present high standing. H. H. Halla-
day, former livestock sanitary com-
missioner, and now state commissioner
of agriculture, is chairman of the
board, whose membership follows:

John S. Haggerty, Detroit; Fred M.
Warner, Farmington; Edward N.
Hines, Detroit; Oscar K. Webber, De-
troit; Andrew J. Crawford, Detroit;
Charles T. Prescott, Tawas City;
Robert N. Wallace, Saginaw; A. E.
Stevenson, Port Huron; Jacob DeGeus,
Allen; Frank Coward, Bronson; H. S.
Newton, Hart; Frank H. Milham, Kala-
mazoo; Clark H. Brody, Three Rivers;
Forrest A. Lord, Mt. Clemens; Perry
F. Powers, Cadillac; Edward A. Hap-
per, Chassell; John A. Miller, Swartz
Creek; Thomas E. Newton, Detroit;
Arthur Peterson, Escanaba; and Wil-
liam H. Oliver, Grand Rapids.

For the coming fair, Sept. 2 to 11,
the biggest on record, arrangements
have been made to broaden the scope
of all existing departments in a way
that will keep pace with the tremen-
dous growth of Michigan in agricul-
ture, breeding, livestock raising, auto-
mobile making, and all other forms
of manufacture.

The cattle exhibition at the state
fair in Detroit September 2 to 11 will
be under the administration of H. W.
Norton, Jr., state livestock sanitary
commissioner, and successor in that
position of H. H. Halladay, who now is
state commissioner of agriculture and
chairman of the board of managers of
the state fair.

Michigan News Tersely Told

Potosky—Charles Hitch, groom of two weeks, was killed when his team ran away, throwing him under the wheels of his wagon.

Escanaba—Police Sergeant Edward Brunelle is under arrest here charged with traffic in "moonshine" whisky. Thomas Fairfield is held with Brunelle.

Detroit—At a special election this village, by a vote of more than 10 to 1, approved a franchise to the Michigan Gas & Electric Co. to supply electricity to the village.

Mackinaw City—Fire which spread from the kitchen stove destroyed the home of Capt. George Nelson. Mrs. Nelson, trapped by flames upstairs, was forced to jump from a window. Loss is over \$3,000.

Cadillac—C. R. Smith of the Chamber of Commerce has received assurance from H. R. Griswold of the Pennsylvania railroad that freight rates on potatoes shipped from Michigan points are being revised.

Pontiac—The life use of all his real and personal property was left to his housekeeper, Mary T. Walsh, in the will of Moses Eisenberg, who died in Ferndale, June 8. The will says she had been the family housekeeper for 24 years.

Grand Rapids—Furniture factory employees here may be given a week's vacation next season as an experiment without loss of pay. The plan is for them to work longer hours during the two weeks just previous to the vacation period.

Mason—While other prisoners were slugging, George Finney, 32, and John Shultz, 21, both of whom were convicted and sentenced for separate offenses, sawed the bars from the window in their cell and escaped from the county jail here.

Pontiac—An appeal to the supreme court is being taken in the case of J. Glenn Toner, of Royal Oak, serving a life sentence in Jackson prison for complicity in the death of Peter Granow, who was beaten to death during a drunken orgy.

Potosky—Thirty northern Michigan cities were represented at the special conference of Salvation Army workers, held here. Brigadier S. Withers, commander of the army in Michigan, and Colonel William Evans, former vice commander in the United States, spoke.

Ann Arbor—Professor W. H. Hobbs of the geology department of the University of Michigan has started on a trip around the world which will extend over 15 months. He will make a study of the origin and growth of the mountains in the islands of the Pacific ocean and South America.

Conklin—Marcus Emmons, 45 years old, is in a serious condition in a Grand Rapids hospital as the result of a put from the fin of a fish. The fish struggled to get away and Emmons seized it, the dorsal fin piercing his hand. Poisoning developed and three fingers were amputated. Emmons' life is now said to be in danger.

Traverse City—The body of Stephen Carroll was exhumed and examined by James McCotter, University of Michigan expert, to determine if Carroll was murdered or if he died as the result of a kick of a horse. A report on McCotter's finding will be made public at the trial of Jesse Braddock, Carroll's stepson who is charged with the murder of his step-father.

West Branch—Harold Holly, aged 20, of Bay City, who was under arrest for larceny, and Charles Jones, aged 60, of Onon, imprisoned on a criminal charge from Arenac county, escaped from the county jail here during the absence of Sheriff Merrill by sawing the bars of the window with a hack saw brought to them by a 12-year-old schoolboy living near the jail.

Alpena—Work on the compass station and buildings at Thunder Bay has been suspended, the nearly-completed buildings boarded up, material stored, and construction crews removed. It is learned that the appropriation for the Thunder Bay Island station has been exhausted, and that the Navy will have no funds with which to complete the work until after the close of the fiscal year, June 30, when new finances are expected to be available.

Kalamazoo—Both candidates for congress from the Third Michigan district, which will hold a special election June 28, are in favor of national disarmament, if the rest of the world follows a similar policy. An outline of the views of J. M. C. Smith, of Charlotte, the Republican candidate, and Howard Cavanaugh, of Battle Creek, the Democratic aspirant, was given to the public in response to an inquiry from the Kalamazoo League of Women Voters.

Allegan—The dignity of Hopkins, an Allegan County town, is upset. Mayor John Maloney is nursing a black eye and other injuries. Leo Gibson, a farmer, is spending 35 days in the county jail for assault on the mayor. The citizens are demanding an investigation. The village marshal, it is said, was not on the job, arriving only after the mayor had been assaulted and given a black eye. Mayor Maloney operates a store and there was some difficulty over a cultivator. Mr. Gibson walked in and beat up the mayor.

Big Rapids—Following a consultation with military officers at Lansing by a local delegation, it is announced that a \$35,000 armory is assured here.

Cadillac—The 4-year-old son of Frank Manning was killed here when struck by an automobile driven by George Kimball. The boy dodged in front of the car.

Grand Rapids—Walter A. Shaw, Chicago consulting engineer, has been chosen as the city's representative on the arbitration board which will fix the gas rates here.

Flint—James Ryan, who sued the Pere Marquette Railroad for personal injuries and damage to his automobile, which was struck by a train, was given \$1,500 in Circuit Court.

Alma—O. L. Smith, prosecuting attorney of Gratiot county, has accepted a position as assistant attorney general, in the attorney general's department at Lansing, effective August 1.

Muskegon—Over 1,000 applications for city positions and jobs have been filed with the welfare department of Muskegon, in the last month. A street-paving program, to employ 600, is planned.

Adrian—Robert Darton and E. C. Dersham, connected with the Page Steel & Wire company, recently purchased by the American Chain company, have been transferred to eastern offices of the company.

Saginaw—The first serious accident here resulting from premature celebration of the Fourth of July occurred when Edward, son of William Zeman, was severely burned about the left eye by an exploding firecracker.

Harrietta—All of the village officers recalled at a special election here recently have announced that they will be candidates for re-election. A court contest of the legality of the recall election is predicted.

Cheboygan—The present water rate of the city of Cheboygan was boosted 10 per cent by the city council in order to meet expenses of the present fiscal year. The flat rate per year for a five-room house now is \$40.80.

Kalamazoo—Clemency asked by Harry Pence on the ground that he was the father of 11 children was refused by Judge George Welmer when he sentenced Pence to front one to two years in Jackson State Prison on a charge of violating the prohibition laws.

Muskegon—People who tip city employees will be arrested in the future under a new ordinance. The action followed the suspension of three employees for accepting tips for special favors. The ordinance holds the person giving the tip equally guilty with the employee.

Grand Rapids—The regular 4 per cent interest, up to July 29, will be paid the 15,000 depositors in the Elks bank, closed at the death of George E. Ellis. After that date, Probate Judge Clark E. Higbee believes 5 per cent should be allowed until the claims are paid.

Potosky—Mrs. Joseph Burns and Mrs. Earl Austin are held here on a charge of aiding their husbands in breaking jail. The men sawed bars off a jail window and escaped. They were recaptured in a swamp. Burns and Austin are charged with robbing the Shurtleff general store at Cross village.

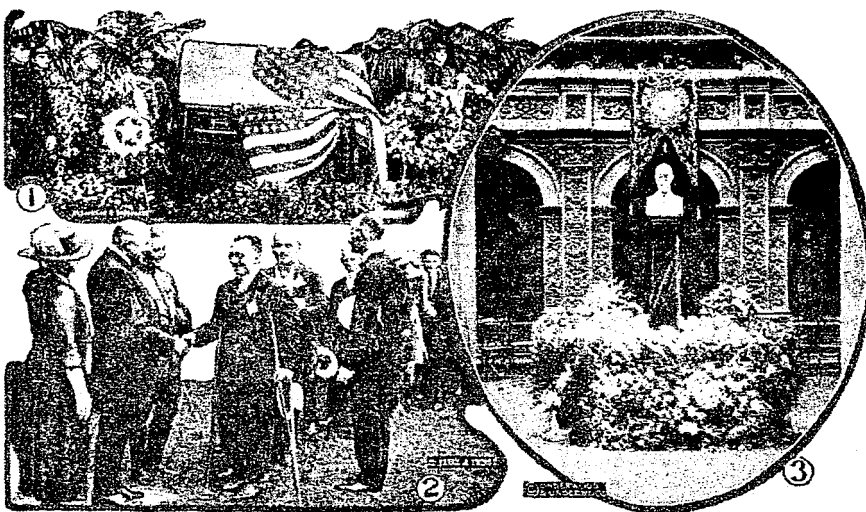

Muskegon—The Evanston (Ill.) Council of Boy Scouts has purchased 100 acres on Duck Lake here for a summer camp, paying \$10,000. The Chicago council owns 150 acres in Muskegon County, and more than 3,000 Boy Scouts, besides the Scoutcrafters at Camp Roosevelt, will spend the summer in Muskegon County.

Frankfort—Masked and shoeless the body of Bert Hammond was found in the home of Mrs. J. Swanson. Olga and Borgell, daughters of Mrs. Swanson, were awakened by heavy breathing. They ran to their mother's room. When she investigated, Hammond was dead. The coroner said heart disease caused death.

Port Huron—Capt. William Forbes, veteran Great Lakes mariner, has secured an injunction in Circuit Court to prevent collection on notes totalling \$10,000 which were given as part payment for stock in a packing company organized in London, Ont. Forbes charges he bought the stock but that the company has not been organized and the men from whom he agreed to purchase it had no authority to sell it.

Ann Arbor—President M. L. Burton of the University of Michigan announces this committee which will have charge of the university building program, to be inaugurated soon: Albert Kahn, Detroit, consulting architect; Professor J. F. Shepherd, head of the department of psychology, supervisor of plans; Williams Clements, Bay City, chairman of ground committee; M. L. Burton, and Secretary Shirley Smith. A separate sub-committee for each new building will also work with the general committee.

Monroe—Maj. Robert C. Knaggs of Evanston, Ill., was re-elected president of the famous Seventh Michigan Volunteer Infantry at the thirty-fifth annual reunion here. Others elected were: H. W. Charter, Salt Lake City, Utah, first vice-president; A. T. Heacock, Dundee, second vice-president; Mrs. Creighton Crawford, secretary-treasurer, succeeding A. P. Glaspie, who died Feb. 14; George Holman, Lapeer, chaplain; Dr. Henry B. Landon, Bay City, surgeon. Next year's reunion will be held here June 16. Six members died last year.

1—Body of Colonel Galbraith, commander of American Legion, lying in state in Musie hall, Cincinnati. 2—Garden party given by President and Mrs. Harding for wounded service men from hospitals near Washington. 3—Bust of Senor Don Nicolas y Muniz, for twenty years editor of the Diario de la Marina de Havana and dean of Spanish-American newspaper men, unveiled in the Spanish-American museum, New York.

NEWS REVIEW OF CURRENT EVENTS

Conditions in Upper Silesia and Turkey Discouraging to the Peace Makers.

GREEKS READY FOR DRIVE

France and Germany Negotiating for an Economic Entente—United States and Japan Approaching a Friendly Settlement of All Their Disputes.

By EDWARD W. PICKARD.

Premier Lloyd George, talking to the Welsh Presbyterian general assembly, admits that he is disappointed because, despite the formation of the League of Nations, some of the peoples of the world insist on fighting, and because the spirit of national hatred, greed and pride is as dominant as ever, notwithstanding the lessons of the late war. He says he is still all for the league, but fears that unless public opinion in all civilized nations is better instructed, the league will become a breeding ground of intrigues and feuds which might lead to the greatest conflict yet witnessed. Some small nations that have been liberated, says the prime minister, seem to have been rendered fiercer by being chained so long, and they apparently do not fear the interference of the league nor have they any respect for its decisions. In this Lloyd George undoubtedly was alluding to the Poles, and the situation in Upper Silesia justifies his feeling. The German defense forces there decline to let go of the ground they hold and reject the plan for a neutral zone unless it be created to territory which the Poles control. The insurgent Poles, though they have been retreating before the advance of the British troops, are said to be leaving a well armed force of civilians in their wake. Great Britain is blaming France for "continued failure to co-operate" in the restoration of order in Silesia. It is admitted in London that the work of clearing up the plebiscite zone is at a standstill, and Berlin learns that the international commission at Oppeln has decided to cease all military operations until the German defense organizations withdraw from the territory east of the Oder, which they recently occupied. Is it any wonder the usually optimistic Lloyd George feels rather despondent?

Moving further east on the world map, one finds equally unpleasant conditions and prospects, both on the Russian border and in Turkey. With the coming of summer Soviet Russia has regained its cockiness. In the councils of the leaders, it is reported, Lenin and others who were inclined to relative conservatism were outvoted and Trotsky and his fellow radicals were given their way. If dispatches from that part of the world are to be believed, their way will lead to another great attempt to invade and sovietize the countries on Russia's western borders, and already huge armies are being massed for the enterprise. These troops are well drilled, often by former German officers, and have ample supplies of arms, ammunition and food. Their morale is said to be fair, owing to the care given them and their families by the government.

In what used to be the Turkish empire, both the Turkish nationalists and the Bolsheviks are so active that the allies are becoming alarmed. This is evidenced by the change of their attitude toward the warfare which the Greeks are carrying on against the Turks. King Constantine, who was being left to do the best he could alone, now is receiving some encouragement and indirect aid. The British, for instance, have taken over a considerable body of Greek troops to take part in the new offensive which will be launched by the Greeks before long. Also the allies have given the

Greeks permission to operate their Bussas front from Gallipoli and to blockade the whole of Asia Minor on the Black sea as far east as Batum. The latter measure has been adopted because of the expectation that the Russians will try to send troops and supplies to the Turks by water. The Bolsheviks have considerable naval forces on the Black sea, and a naval conflict is not unlikely.

The British have notified the Turkish nationalists that if they attempt to capture Constantinople Great Britain will declare war on them. In the Caucasus region General Budenkov and some of his hard-fighting cavalry units are advancing to the assistance of the Turks, passing through Armenia. King Constantine himself has been in Smyrna and made preparations to go into the battle zone.

Kemal Pasha must defeat the Greeks again in order to retain his leadership of the nationalists, according to stories from Turkey. Ever Pasha is his rival and if he can supplant Kemal he will be given full support by the Russian Bolsheviks, since he has promised to set up a soviet state in Turkey, a thing which Kemal has refused to do.

Over in Siberia matters are still rather confused. The anti-Bolsheviks retain control of Vladivostok, and the soviet Russians are threatening Japan because, they assert, the Japanese troops disarmed the Bolsheviks in the city. This Japan explains by asserting that both parties were disarmed because the Japanese commander would tolerate no fighting in the zone of occupation. The Far East republic of Siberia, with headquarters at Chita, has decided to adhere to the soviet government of Russia.

So much for the warlike aspects. Now for the other side. Two nations that have been deadly enemies, and two that many have feared might become such, are moving toward a friendly adjustment of their differences. The first case is that of France and Germany, and though it may be too much to expect that they soon will love each other, at least it appears they are moving toward a friendly adjustment of their differences. The result of a conference at Versailles between M. Loucheur, French minister of liberated regions, and Dr. Walter Rathenau, German minister of reconstruction. Both these men are exceedingly wealthy industrial magnates, and they debated for three days over an economic entente between their countries. They finally reached an agreement, for submission to their respective governments, the main points of which are that Germany undertake, and France permit, the rebuilding of the destroyed areas in France, and that France undertake to provide the German industrial system with adequate supplies of iron from the Briey basin now occupied by French troops.

Nearly nine-tenths of the iron deposits of the old German empire are in the Briey basin, and the Germans expect, if they can get the ore from there, that they can get the ore from the Ruhr and elsewhere will be reopened and that they will soon be able to fill the markets of the world with goods of German make offered at low prices. This of course would be most painful to British trade, and it is said the prospect of a rapprochement between France and Germany on the terms stated is viewed with alarm in Great Britain.

Diplomatic settlement of the various questions pending between the United States and Japan, without the necessity of submitting any of them to the council of the League of Nations or any other international body, is near at hand, according to Washington dispatches. Secretary of State Hughes and Ambassador Shideham have been negotiating to this end, treating the disputes as an integral problem. If an agreement is reached, it is understood, the cable privileges on Yap will be internationalized, though Japan may still control the island under her mandate. The basis for settlement of the immigration issue probably will be that of a strict exclusion of the Japanese laboring class and adequate protection for Japanese property rights already acquired in the United States. It is believed Japan will promise to get out

of the province of Shanung, China, as soon as practicable. What her attitude may be concerning Siberia and the northern half of Saghalien is not yet known.

The British Imperial conference, which is in session in London this week, planned to take up almost the first thing the matter of renewing the Anglo-Japanese treaty. Prime Minister Lloyd George and Massey of New Zealand all have declared publicly that the pact must not be renewed unless it is agreeable to the United States. Premier Melban of Canada, if he is in accord with public opinion in the Dominion, will oppose any renewal of the treaty. It is believed in London diplomatic circles that the question may be finally solved by the formation of a Pacific triple entente—Great Britain, the United States and Japan.

The house of representatives, as was expected, adopted the Porter resolution declaring war with Germany and Austria terminated. The vote was 305 to 61, 49 Democrats joining the Republicans on the final roll call. The senate absolutely refused to accept this substitute for the Knox resolution, and the prospects were excellent for a long deadlock in conference. It may well be that such a delay would quite suit the plans of the administration, but President Harding is taking no part in the dispute. The objection of the house to the senate resolution is that to repeal the declaration of war might be taken to mean that congress repudiated the action of the government in entering the war. The senators take the position that the constitutionality of the Porter resolution may be questioned and that this might open the way to ceaseless litigation. They assert that the power of congress to assume the functions of a treaty-making body and declare the war at an end may be open to attack in the courts.

Despite charges that the house bill for regulation of the packing industry was drafted by attorneys for the packers, the senate, by a vote of 37 to 34, substituted that measure for the more drastic bill recommended by the senate committee on agriculture. The house bill vests the secretary of agriculture with authority to administer the measure, while the senate bill creates under the department of agriculture a federal live stock commissioner, appointed by the president and subject to confirmation by the senate, to regulate the packers.

Of more than local interest and importance was the arrest in Chicago of "Big Tim" Murphy, powerful labor leader, and some of his proteges, for implication in a number of big postal robberies there and elsewhere. Confessions of some of the minor figures in the band were followed by recovery of part of the loot. The postal authorities and Department of Justice officers believe the gang which Murphy is accused of directing committed the million-dollar robbery in Toledo last February as well as those in Pullman and at the Polk street station in Chicago.

Roy A. Haynes, the new "mop"—in other words, national prohibition commissioner—is now in office. Though he is rotund and genial to the point of jollity, he declares he will enforce the dry law to the full extent of his power, and he appeals to all good Americans to help him. He has not yet made up his mind concerning the dispensing of real beer for medicinal purposes.

The death roll of the week includes the name of William E. Mason of Chicago, congressman-at-large for Illinois. He had been prominent in political life for many years, and his personal friends were numerous, though he alienated many by his course just before our entry into the war and by his bitter attacks on the draft.

The American Legion elected Maj. J. C. Emory of Michigan its national commander to succeed the late Colonel Galbraith. Like his predecessor, he has an excellent war record. He saw much of the fighting in which the American troops participated and was wounded during the Meuse-Argonne drive.

EXPLORER FINDS NEW CONTINENT

DR. COPE'S EXPEDITION TO BOTTOM OF WORLD REPORTS
DISCOVERY OF LAND.

SHIP RETURNING FOR SUPPLIES

Party Equipped With Every Modern Means for Travel Through Antarctic Region.

Vancouver, B. C.—Details of a new continent in the Antarctic region, described as rich in oils, minerals and furs, are given in a cable from Sydney, N. S. W., quoting the Sydney Morning Herald, which announces findings of the British Antarctic expedition headed by Dr. Cope.

Strange birds of immense size, seals, sea leopards and gorgeous emperor penguins inhabit the land, lying beyond Terra del Fuego, the area of which has not yet been compiled, according to brief dispatches reaching Sydney from the "bottom of the world."

Dr. Cope left England early in 1920 with a party of geologists to report upon the hidden wealth of the Antarctic country, landing January 12 on the west coast of Graham's land, latitude 64.50 south, longitude 62.40 west.

The land touched is said to be an extraordinarily inhospitable part of the globe. No human inhabitants were met by the explorers, the last traces of human habitation being found upon the coast of Terra Del Fuego.

Scott, Shackleton, Amundsen and other explorers have penetrated the Ross sea sector of the Antarctic. Dr. Charcot, a French explorer, in 1909 is said to have merely touched the fringe of the land which has now been explored by the British doctor.

Cope and his party are equipped with every modern means of travel in the Antarctic. His boat, the "Terra Nova," has left the party on Graham's Land for the winter and is returning to civilization to replenish supplies. She will re-visit, perhaps at Buenos Aires, and sail south again at the end of this year.

BRITAIN WON'T CRIPPLE FLEET

Lloyd George Declares Empire's Life Is Built on Sea Power.

London—Co-operation with the United States is a "cardinal principle" with Great Britain, declared Prime Minister Lloyd George to the imperial conference here. "We are ready," he said, "to discuss with American statesmen any proposal for limitation of armaments which they wish to set out, and we can undertake that no such overture will find lack of willingness on our part to meet them."

"In the meantime we cannot forget the very life of the United Kingdom, as also of Australia and New Zealand and indeed of the whole empire, has been built upon sea power, and that sea power necessarily is the basis of the whole empire's existence. We have, therefore, to look to measures which our security requires. We aim at nothing more; we cannot possibly be content with less."

COMMISSION BARS STOCK SALE

Disapproves Sale of Shares in "Grocer Co-Operators."

Lansing—The securities commission has issued an order refusing approval of the shares of the Michigan Grocery Co-operators of America for sale in this state, declaring that "the sale of its certificates would work a fraud upon purchasers."

This is the fourth of a series of common law trusts organized by Harrison Parker of Chicago. It is claimed that efforts have been made to sell its benefit certificates, which are issued in lieu of shares, in and around Grand Rapids.

DE VALERA RE-ELECTED BY IRISH

Election Results in "Republic" Announced by Secretary Boland.

New York.—Eamonn de Valera has been re-elected president of the "Irish Republic" it was announced by his secretary, Harry Boland. He also stated that Sean (James) O'Connell, former Irish "envoy" to Paris, has been elected speaker of Dail Eireann, legislative body of the Irish Republic.

O'Connell is president of the Gaelic league and belongs to the moderate wing of Sinn Fein.

ONTARIO DRY LAW IS SIGNED

Importation of Liquor in Province Prohibited After July 17.

Ottawa, Ont.—The Duke of Devonshire, re-igning governor-general of Canada, in his last official act in Ottawa, signed an order-in-council which will result in a dry Ontario on July 15. Sir George Foster, acting prime minister, announced that importations of liquor into Ontario would be illegal after midnight July 17.

One on Hubby.
Mr. Wiseman (surveying new draperies in parlor)—My dear, you certainly have wretched taste.
His Wife—Yes, that's what every one said when I married you.

GREAT SAVING.
"There's one thing I never cease to congratulate myself about."
"What is that?"
"You don't need tires for the steering wheel."

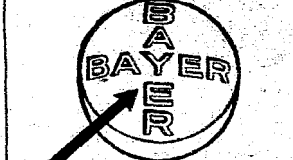

Quite an Art.
There's really quite an art, you know, in bringing up the young.
We teach the baby first to talk.
And then to hold his tongue.

Shave, Bathe and Shampoo with one Soap.—Cuticura

Out of Favor.
"Run and call Fido, dear."
"But, my dear, I'm not speaking to Fido since he broke my dolly."

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetacidester of Salicylic acid.

Never Judge the merit of a joke by the laugh of a woman with dimples and pretty teeth.

Important to Mothers
Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Fletch*

In Use for Over 30 Years.
Children Cry for Fletcher's Castoria

A word to the wise is sufficient; the difficulty lies in finding out who are.

A man's prosperity shows in his wife's clothes.

Dr. and Mrs. E. Koebbe, of Great Lakes, Ill., are guests at the home of their parents here this week. They were accompanied by Paymaster Gault and family who spent Tuesday and Wednesday here before resuming their journey to New York.

INTERURBAN WRECK SATURDAY EVENING

Continued from first page.

to the home of Mrs. C. E. Whitaker, Sunday.

The funeral of Miss Keusch, who was employed in Ann Arbor, was held in St. Mary church, Tuesday morning, Rev. Fr. VanDyke conducting the services. She is survived by two brothers and one sister. The remains were taken to her former home at Westphalia, for burial.

The funeral of Miss Johnson, aged 67 years, was held at the home of Mr. and Mrs. S. D. Davis in Ann Arbor, at 2 o'clock Tuesday afternoon. Miss Johnson was on her way here for a week-end visit at the home of Mr. and Mrs. D. H. Wurster. She is survived by two brothers and one sister. Burial in Webster.

The following jury has been impaneled by Justice of the Peace, Howard F. Brooks, acting coroner: D. E. Beach, John Frymuth, O. T. Hoover, Don Riley, John Finkbeiner, M. L. Burkhardt, who viewed the bodies of Mr. and Mrs. Pierce, after which an adjournment was taken until 2 o'clock Friday afternoon, when an inquest will be held in the Sylvan town hall.

Investigation of the wreck on the interurban line Saturday night, in which five persons were killed and 20 injured, resulted Tuesday in the dismissal of two D. U. R. employees, officials of the company announced. The wreck occurred as a result of one car crashing into another waiting at a switch.

Conductor George E. Fletcher, in charge of the first car, was dismissed for violation of the rules of the company, which forbid a conductor leaving a switch open without providing some one to guard it. According to the officials of the company, Fletcher left the switch open and went to telephone, while his car stood on the switch.

Motorman Bert Winchell, of the second car, was dismissed for not having his car under control. Winchell drove his car at rapid speed into the car in front, evidently not noticing that the switch was open.

According to officials of the company, Winchell maintained that the brakes on his car were defective and failed to work. Investigation by engineers showed the brakes in perfect condition, the officials said.

Church Circles.

METHODIST EPISCOPAL

H. R. Beatty, Preacher.

The subject for Sunday morning sermon will be "Peter and the Kingdom Keys."

Bible school at 11:15. Union service at the Congregational church in the evening. This will be a farewell service to Rev. Dierberger. Let us show our appreciation of having had this minister with us, by being present.

CONGREGATIONAL

Everybody welcome.

Whale Bones for Buildings.

The scarcity of building material is not worrying Avalon, Calif., residents. For twenty years several huge whale ribs have been bleaching in the sun in front of the Avalon Tuna club. An enterprising contractor sought the owner of the historic bones. He didn't want them for a museum, but they would make the supports for a "whale of a bungalow," he explained.

Canvases, wallboard and flooring have been added to the bones and the popular Little Catalina Island city has acquired a new shelter for its many visitors.

AT SEA.

First Passenger—Sir, I fancy your mother over there has a touch of sea-sickness; perhaps you'd better look after her.

Second Passenger—The lady is my mother-in-law.

First Passenger—a thousand pardons.

HERMAN J. DANCER

CLOTHIER FOR MEN AND BOYS.

LOCAL HAPPENINGS.

Born, on Saturday, June 18, 1921, to Mr. and Mrs. Ernest Diable, of Lima, a son.

Born, on Tuesday, June 21, to Mr. and Mrs. John Greiza, of West Middle street, a son.

Born, on Saturday, June 18, 1921, to Mr. and Mrs. W. R. Daniels, of South street, a son.

The machinery has been moved from the Dancer gravel pit to the gravel bed on the farm of George Bareis, in Lima, which adjoins the Dancer farm.

Mrs. Kate Cray has purchased the residence of Mrs. Mary Hammond, on Orchard street, and has moved from her former home in Ann Arbor to this place.

Misses Gladys Mapes, Margaret Vogel and Ida Keusch, who have been teaching in the schools at Detroit for the past year, returned to their homes here Friday, for the summer.

Mr. and Mrs. S. B. Tichenor, Mr. and Mrs. Don Southworth and daughter, Betty, and Mr. and Mrs. James Dodds, of Lansing, were guests of Mr. and Mrs. O. T. Hoover Tuesday.

The wool pool here, on Monday, graded 18,000 pounds of wool and have 5,000 pounds on hand to be graded. The wool is to be shipped to one of the Farm Bureau warehouses.

W. E. Beebe, editor of the Parma News, was a caller at the Standard office Saturday. Mr. Beebe and three business men of Parma spent several days of last week camping at Sugar Leaf Lake.

Two of the Sunday school classes of the M. E. church, the Sunshine Class, taught by Mrs. H. D. Litteral and the Carry-On Class, taught by S. P. Foster, held a picnic at Cavanaugh Lake, Wednesday.

The Baccalaureate Address to the graduating classes at the University of Michigan will be delivered in Hill Auditorium on Sunday, June 26, by President Marion LeRoy Burton. Thirty-two classes will hold reunions this year.

Roy T. Evans has taken a contract for wiring two cottages at Base Lake for Paul W. Voorhies, prosecuting attorney of Wayne county. The current will be supplied by the Eastern Michigan Edison Company's Dexter-Pinckney transmission line.

The marriage of Miss Mildred Louise Ives and Mr. Edwin J. Gaunt, of Detroit, will take place this evening at the home of the bride's mother, Mrs. H. G. Ives. The young couple will be at home to their friends, in Detroit, after July 15.

The Chelsea relatives and friends of Miss Margaret F. Lambert have received invitations to attend the graduating exercises of the Homeopathic Training School for Nurses, which will be held in Hill Auditorium, Ann Arbor, on Thursday, June 30.

Mr. and Mrs. J. E. Weber, Miss Dorothy Cavanaugh, and C. H. Penn were in Ypsilanti, Wednesday, where they attended the graduating exercises at the Normal college. Miss Agnes Weber graduated from the Physical Education department of the college.

Forty-three members of the Chateau Club of this place were guests at the home of Mr. and Mrs. C. W. Glenn, of Stockbridge, Monday afternoon of this week. The party made the trip from here in eight automobiles and a very merry time is reported.

Prof. Thos. A. BeGole died in St. Joseph's sanitarium at Ann Arbor, Friday night. He had been a professor in the law department of the U. of M. for 24 years, retiring in 1918 on account of poor health. Prof. BeGole was a frequent Chelsea visitor in years gone by.

Those who donated to the fund for purchasing uniforms for the Chelsea Independent baseball team, amounting to \$131, have paid their subscriptions and the members of the team wish to thank them for their contributions. The money was used to assist in purchasing the new uniforms which cost \$166.95.

William H. Schatz returned home last Friday after a year's travel in the west. He toured the states of Kansas, Oklahoma, Texas, Arizona, New Mexico, California and Washington, visiting his uncles in Fresno, California and Seattle, Washington. Also the family of E. A. Williams at Galt, California. The Williams' were formerly Chelsea residents.

Last week 197 young men and women received diplomas of graduation at the 63d annual commencement of the Michigan Agricultural college. The senior class was a small one because of the fact that it started its college course in the fall of 1917, a war year. The M. A. C. summer school, featuring special courses for rural teachers in addition to the regular college work offered in all divisions, opens its six weeks' session on Monday, June 20.

Mr. and Mrs. E. J. Sullivan and son James, of Fenton, spent from Saturday until Tuesday at the home of her parents, Mr. and Mrs. John McKernan.

During the rain and electrical storm Saturday, the residence of Mr. and Mrs. Ed Riemenschneider was considerably damaged by lightning. A large hole was torn in the roof and the ceiling. The lights and motor were put out of commission. Mrs. Riemenschneider was at home alone, in the dining room and the lightning entered the bedroom above but fortunately she escaped without being injured.

Mr. and Mrs. Reuben Grieb, of Sylvan, had a narrow escape from a serious accident Sunday noon. They were returning home from church and at the Main street crossing of the D. J. & C. electric line they barely escaped being struck by an electric car. By a quick move on the part of Mr. Grieb, he swung his car to the east and over the curb and through the fence, landing in the shrubs on the west lawn at the station. The car was somewhat damaged. It is claimed that the alarm bells were out of commission and the approaching car could not be seen until it was on the crossing.

Brace Up Chelsea.

Grass Lake defeated the Chelsea Independents by a score of 12 to 5, at Wilkinson field, last Sunday. Following is the score:

Saturday, June 25, Chelsea will play the United Commercial Travelers at Wilkinson field. Game called at 3 p. m.

Sunday, June 26, Chelsea will play the Pleasant Lake team at Wilkinson field. Game called at 3 p. m.

Annual Outing.

Contrary to rumors to the effect that the Dexter Sun Fish Club would discontinue its annual picnic, the event took place Saturday, June 18, at Cedar Lake.

The following members were present, and started promptly at 6:30 a. m. from Mrs. Leander Easton's home: Mr. and Mrs. Chauncey Coy and family; Mr. and Mrs. Wm. Finkbeiner and family; Mr. and Mrs. Leland Bradbury and family; Mrs. Mack Bradbury and family; Mrs. Leander Easton; Mr. and Mrs. Lawrence Sawyer; Mr. Ralph Stoffer; Mr. Harold Klinger.

A short business meeting resulted in the re-election of Mr. Chauncey Coy as president and Mrs. Leland Easton as secretary-treasurer.

A fitting program had been arranged, but, unfortunately, due to the inclement weather, was postponed. However, all had a good time and proved themselves worthy "sun fishers."

Announcements.

The B. V. R. C. will hold its annual picnic with Mrs. Robinson at her home in Dexter, Monday p. m., June 27.

The Young People's Society of St. Paul's church will hold an ice cream social at the home of G. H. Barbour, at Lima Center, Thursday evening, June 30. Everyone invited.

Cradle Roll and Beginner's party of St. Paul's Sunday school will be held on the church lawn, June 29. Come babies large, come babies small, come mothers and grandmothers, one and all, to our Cradle Roll party on Wednesday at two, a welcome most hearty, is waiting for, Lillie Wackenhut, Cradle Roll Supt.

Harmony Chapter of the Congregational church will hold a farewell party at the home of Mr. and Mrs. Alvin Baldwin, on Tuesday, June 28, for one of the members, Mrs. Dierberger. Scrub lunch supper at 6:30, following which a program will be given. Ice cream will be sold and there will also be a fish pond. All friends of the pastor and wife are cordially invited. Everybody bring dishes. Autos will be at the home of D. H. Wurster to convey parties to the party.

BARGAINS

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promise of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example, Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.

Recalled From Memories.
The director, who has a reputation for being rather harsh and overbearing in his methods, was giving his leading man a tongue lashing that fairly turned the atmosphere blue.

Through it all, however, the victim leaned gracefully against the wall and smiled happily.

"What the deuce are you grinning about?" barked the director. "Do you like to be cursed?"

"Why, yes, I rather enjoy it," chuckled the actor. "It recalls the good old days, you know, when I played Uncle Tom and was beaten to death every night by Simon Legree."—Film Fun.

Quite In Order.
W. B. Triller, who has been living in southern Spain for the last year or two, said the other day:

"Life is very abundant and profitable over there, especially insect life. There was a typographical error in one of my stories recently, but this error would have escaped notice in Andalusia, though it excited a lot of disgust here at home."

"The error was in the quotation of a hymn, my heroine being made to sing:

"Just as I am without one sin,"
"A hymn would like that would be quite in order in Spain."

Workings of Lie Detector.
When your husband comes home rather late and tells you he had an important business engagement all you have to do is to try it on the sphynxometer.

The sphynxometer is an invention by William H. Munson of Harvard, by which he asserts a lie can be detected. Professor Munson says that when a person tells a lie, especially if he is under oath, there is an emotional reaction, affecting the breathing and the blood pressure.

The breathing of married men is seldom affected by a mechanical lie.—Syracuse Herald.

The Bellhop.
The negro bellhop had found the colored free and open-handed for services rendered, but this day things were slow. When the colored entered the lobby he was met by a broad chocolate-colored smile and a greeting.

"Good-even, knome! Is dey anythin' I kin do for you in de bellhoppin' line dis evenin'?"

"The colonel handed him a coin and said:—

"Yes, you can shut up." "He understands perfectly, knome! His head quarter done close my mouf wid er spring."—Judge.

Definition of Flatterer.
Young Miss Betty, like all youngsters, had found a new word and it had to be put into service immediately.

"Daddy," she said. "What does the word flatterer mean?"

"Flatterer? You want to know what flatterer means?"

"Yes."

"Well, Betty, let's see—if I told your brother he was good looking, what would that be?"

"Foolin' him," Betty flashed back.

The Test.
"How do you get along with Mr. Grumpson?"

"Well, I've been acquainted with him for some time, but I don't know yet whether he is a superficial grinch or a confirmed misanthrope."

"How do you propose to find out?"

"I've invited him to join me in a game of golf with nothing in my locker."—Birmingham Age-Herald.

More to See.
Bill—We certainly see more how legs now than we used to.

Phil—Well, we see more straight ones too, as far as that goes.—New York Sun.

Try This.
To prevent the gloss coming off of your white paint wash it with milk and a little soap. That will be much cheaper than repainting and is effective.

Why, of Course Not!
Master (to butler)—But why do you want to get married, Jones?

Jones—Well, sir, I don't want my name to die out.—Punch (London).

What a glorious world this would be if the human world only delivered up its secrets to the world.

OUTDOORING HATS FOR ALL OCCASIONS

WHAT has been classed in past seasons as a sports hat grew into something that requires a broader title, hence we have with us today "outdooring hats"—hats that are suited to sports or travel or street. They have a smart, casual style that women have learned to appreciate, and may be generally described as adaptable, having soft crowns, flexible brims, and as being medium in size. Only the sailor shapes are more or less stiff. These we have always with us, and the same is true of fine panamas and fine bangkoks.

Crepes-de-chine having invaded every other field of apparel, appears among these hats for summer wear. In white and colors, it is displayed in shapes much like those pictured here, having the body of the hat covered with the crepe laid in half-inch tucks, rim with heavy embroidery silk, and often a facing of hemp or other soft straw.

rather or other silk, quilted in rows or crossbars, is a favorite for these hats, and yarn or embroidery silk accounts in numberless ways for their decoration. A quilted hat in the picture makes good use of embroidery silk, and small dark pearl buttons for a finish, while yarn provides the elaborate needlework on the crepe-de-chine hat next to it.

Narrow ribbon stitched row on row or placed in overlapping scant frills makes very beautiful outdooring hats. It is often used with narrow braid, and sewed in alternating rows. A high luster ribbon in rows joined by piping braid provides the covering for a soft crown in the hat, with millan brim at the lower left of the group. At the right a fine Panama with band of figured silk is pictured in the regulation shape and reasserts its claim to the most beautiful of straws.

**ADDING CHARMS
TO SUMMER DRESS**

THE importance of dress accessories is emphasized in summer time when there are so many lovely furbelows made to wear with summer frocks. Often it seems as if the accessory is more important than the dress itself—it so tones up the costume and defines its character. One may make the same frock answer for many functions with edifice appropriateness, by bringing to its aid neckwear, footwear, gloves, sashes, corsage ornaments and the like, that lend it the wanted flavor.

Among the attractive things the shops are showing, neckwear, including scarfs, ostrich feather and other feather bows and vester sets, is of first importance, followed by gloves and sashes and corsage flowers. Then come veils and parasols, bags and trinkets—all the niceties that spoil charm and reveal beautiful care in making a toilette that will please the eyes of others.

Only two of these efficient aids to dress are pictured here, an airy sun umbrella and a rich sash of broad ribbon, but everywhere in the stores pretty neckwear, corsage flow-

ers, and ribbon-made accessories inspire women to indulge in these little splendors.

The sash shown in the picture is a very splendid affair in brilliant colorings, that becomes the most important item of the toilette when it is in company with an afternoon frock. It has long fringed ends, falling from a knot at one side and a loop and end at the other and is equal to state occasions. Other sashes are made of wide, plain satin ribbon, usually decorated with ribbon flowers on the fringe and at the ends, and still others are made of several lengths of narrow faille ribbon, often in two colors and these are especially pretty on lace and tulle.

In under-las taffeta silk has proved a favorite in pink and in black and white. Among the pink ones there are a few covered with ruffles of the taffeta fringed at one end.

LEGION MAN OBTAINS PATENT

Twice Wounded, Engineer While Confined to Hospital, Works Out Bronze Tablet

Wounded by the explosion of a high explosive shell in the Vosges mountains, Private R. G. Quail, 318th Engineers, lay on a hard cot in a hospital and wondered about his chances of getting home. He recovered, however, went into action, and on November 2, was again wounded.

Brought back to America and placed in the base hospital at Camp Lewis, Wash., Quail worked out the details for a bronze memorial tablet. While awaiting his discharge he drew up the plans, and in civilian life again, he has obtained a patent on an invention which he calls the individual war memorial.

It is a plaque of bronze with the figure of a private in war uniform. Around the plaque in raised letters are the names of the allied countries. A plate to be engraved with the service record is in the center. Orders are pouring in so rapidly that he has been forced to enlarge his working force.

SHOULD FILE CLAIM AT ONCE

Disability Demands Required on War Risk Insurance Forms to Gain Attention.

"If you have a disability which you feel is due to your military or naval service during the war, you should as a matter of duty to yourself and your country immediately file a claim for disability," reads an article in the American Legion Weekly.

"To make the claim, obtain from your local post, the National Service Division of the Legion, or the Bureau of War Risk Insurance the following forms: Numbers 320, 330 and 343. In addition, make a detailed statement of your condition and occupation prior to service, injury or sickness during service, where treated, and physical condition since discharge. Obtain a like statement from one or more persons who were with you and knew of your disability during service. Get a statement also from one or two persons who have known you since discharge, particularly your employers and other disinterested persons.

"Last and most important, get statements from all the doctors who treated your case and from the hospitals where you were confined. These must all be sworn to before a notary public and forwarded to the Bureau of War Risk Insurance, where, after consideration of your health record, your military record and your present condition, an award should either be made or disallowed.

"If you are among the 100,000 whose claims are hanging fire, the National Service Division of the American Legion will make it its personal business to get a decision on your claim."

LIGGETT FRIEND OF LEGION

California Major General Snapped in Act of Working on Post's New Club Rooms.

During the Argonne-Meuse offensive, Maj. Gen. Hunter Liggett commanded all American forces in the greatest battle in the history of the United States.

With the return of peace, Maj. Gen. Liggett is working for the American Legion. An active member of a San

Maj. Gen. Hunter Liggett.

Francisco post, he was caught by the photographer at work on remodeling his new clubroom.

What would have happened if, not many months ago, doughboys had seen a real live general wrestling with a refractory nail during a session of fatigue detail?

Bogus "Funds"

Declaring that there have been many funds started which were said to be for the benefit of ex-service men and women and which were used illegitimately, the Los Angeles, Cal., Advertising club has voted to withhold contributions and interference from any future campaign until the local American Legion posts have investigated.

DAIRY FACTS

DISPOSING OF MILK SURPLUS

Conditions Likely to Exist in Well-Developed Dairy Districts During Summer.

(Prepared by the United States Department of Agriculture.)

For the first time since the beginning of the World war there is developing in this country a surplus of milk, according to reports recently received by the United States Department of Agriculture. Specialists of the department state that this condition probably will be only temporary during the "flush" of the season, and that it is most apparent in well-developed dairy districts. It may continue during the summer months, but is expected to adjust itself by fall, when demand will overtake the surplus of supply. The situation is largely due to the falling off in the demand for milk in the manufacture of condensed products, milk powders, casein, and similar products, for which there was a large export outlet.

The department points out the advisability of using as much milk as possible, in fluid form and otherwise, as a human food. Within the last generation an increased knowledge of the value of milk in the diet has resulted in an almost doubled per capita consumption of milk, and consumers who purchase milk freely thereby encourage production. This is believed to be the best safeguard against a milk shortage and high prices resulting from the withdrawal of dairymen from the business during periods of large production and low farm prices for milk.

But when the limit of human utilization is reached dairy producers necessarily must decide how to dispose of the remainder. In many cases this will be a decision between selling whole milk, selling cream, or even to use a moderate quantity of whole milk for feeding, especially to young animals. In any event, a more liberal use of milk on farms should reduce the surplus, even though not solving the problem entirely.

As a guide to persons deciding to utilize surplus milk as a live stock feed, the department makes the following recommendations, which may be supplemented with literature issued by the department:

Milk from a dairy herd which is not definitely known to be free from tuberculosis should be scalded before being fed. An ordinary feed cooker is a practical means for scalding milk. This process is approximately equivalent to pasteurization, which most large cities require as a safeguard to public health. Metal pails that can be kept clean by washing and scalding are preferable to wooden containers or others that are difficult to clean.

In calf feeding it usually pays well to feed one pound of whole milk for each ten pounds that the calf weighs, for a period of two weeks, and at the end of that time to change gradually to an equal amount of skim milk. The skim milk should be gradually increased as the calf grows until about 15 pounds per day is fed at the end of three months. Feed the milk warm and regulate the quantity according to size and vigor of the calf.

For pigs three weeks old or more, three parts of skim milk mixed with one part of shorts, is useful in keeping them growing. Skim milk may be fed with corn and other hog feeds in various practical combinations.

In poultry feeding both skim milk and buttermilk are excellent feeds, and can now also be purchased as a nonperishable commercial feed, which is sold in large barrels as semisolid buttermilk. Skim milk and buttermilk may be fed alone or mixed with other feeds, but feeders should observe their flocks carefully to avoid giving too much milk, or bowel trouble may result. This is caused principally by fowls eating spoiled clabbered milk remaining from a previous feeding.

While to live stock owners unnecessary it may appear somewhat expensive, there are advantages which milk feeders quickly recognize. In addition to utilizing the surplus milk that would otherwise be wasted, young stock generally make a very rapid growth. This means early maturity and early usefulness, compared with stock that have developed more slowly. At least as a temporary measure there is a real opportunity to improve farm live stock, in addition to relieving a local milk surplus, by using skim milk rather liberally in proper combination with other feeds.

HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's Vegetable Compound a Trial First

Chicago, Ill.—"I was in bed with female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6324 St. Lawrence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E. Pinkham's Vegetable Compound, after it had been decided an operation was necessary:

Burlington, Vt.—"I suffered with female trouble, and had a number of doctors who said that I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound and it certainly has helped me wonderfully. I keep house and do my work and have a small child. I have recommended Vegetable Compound to a number of my friends and you may publish my testimonial."—Mrs. H. R. SHARON, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women who are there for surgical operations, and there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful. It is very true that female troubles may through neglect reach a stage where an operation is the only recourse, but most of the common ailments of women are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

NOT HARD TO MAKE CHOICE HER LOVE DREAM SHATTERED

Probably Lester Could Have Determined Without the Appeal to His Physical Feelings.

Two men passed away. One had been born, and in due course admitted to the bar, soon ran for office, was elected a continuous lion, until at last he went to his reward, such as it was. And the local paper gave him an obituary as long as your arm.

The other man followed in the footsteps of his brawny sire, and became a maker of harrows. He was industrious and honest, and for years the Hillgrove harrows which he whacked out by hand were known nearly all over the country as reliable utensils.

By-and-by he, too, passed on. The paper announced his demise in a few lines and spelled his name wrong.

Now, tell me, Lester, which of those men would you rather have been? Do not say the former, or I'll slap your jaws for you and not let you go to the picture show, either.—Kansas City Star.

If Knighthood Were in Flower.
The Maiden—in God's name, hasten, Sir Knight! Save me!

Sir Laurenceot—Not so fast, my good girl. The reporters have not yet arrived; besides, there are the serial rights and the motion picture royalties to be considered.—From Life.

English Mercy for Criminals.
In England a sentence of life imprisonment is always reviewed at the end of 15 years, and if the prisoner's conduct has been uniformly good, he is usually released. This is particularly the case where a prisoner has been sentenced for murder, for murderers are said to be usually well-behaved prisoners.

her.

SIARON.

Miss Lena Ordway, of Chelsea, was
a week-end guest of her parents.

Born, on Friday, June 17, to Mr.
and Mrs. Reuben Haselschwerdt, a
son.

Mr. and Mrs. Wm. Gage, of Grass
Lake, spent Sunday at the home of
C. C. Dorr.

Roy Raymond and family, of Grass
Lake, spent Sunday at the home of
P. C. Cooper.

Carl Ashfal and family, of Dexter,
spent Sunday at the home of Mrs.
Geo. Klumpp.

Mr. Gross, of Detroit, was here
last Wednesday, selling stock for the
Popcorn Company at Brooklyn.

Mrs. John Landwehr and daughter,
of near Manchester, spent Sunday
afternoon with Mrs. George Klumpp.

Dr. and Mrs. Ira Lehman, of High-
land Park, spent the week-end at the
home of his parents, Mr. and Mrs.
Fred Lehman.

A social gathering will be held
Friday evening, June 24, at the home
of Max Irwin. Ice cream and cake
will be served.

Mrs. Murch, who was taken to the
hospital at Jackson some time ago,
does not improve as rapidly as her
friends hoped for.

Mr. and Mrs. Verne Leeman, of
Shafterburg, and Mr. and Mrs. Martin
Lehman, of Williamston, are spending
the week with relatives here.

Mrs. Mittie O'Neil, who has been
spending the past three years in
California, has been the guest of her
daughter, Mrs. C. Curtis and other
relatives the past week.

Jackson County Fair.

Bigger and Better Each Year, is
the slogan of the Jackson County
Fair, and each year they have ful-
filled the promise to the public.

Last years fair was many times
larger in attendance, exhibits, at-
tractions and general benefit, than
any previous year, and in compari-
son of exhibits, the quality was far
ahead of any fair ever held by the
Association.

The general public is fast learn-
ing the wonderful value of a good
fair, from both the standpoint of
general education received, as well
as its value to advertise products.

When it is realized that 150,000
people inspect the acres and acres
of live stock, agricultural products,
machinery, art, merchandise, to
say nothing of the amusement fea-
tures which are the best money can
procure. Better this year than ever
before. You cannot wonder that the
Fair grows from year to year in
leaps and bounds, and this year
promises even more in every way
than any past year, and the general
public will be astounded at the hun-
dreds of thousands of dollars that
will exchange hands at this years
Fair, in the legitimate purchase and
exchange of live stock, seed, machi-
nery, merchandise, autos, poultry,
and other investments that make for
a bigger and better community to
live in by improved production.

Anyone failing to exhibit or at-
tend the Jackson County Fair, not
only loses a good business oppor-
tunity but neglects a big chance for
educational development, and this
one week of the Fair is a week of
research, education, and business
opportunity that no progressive citi-
zen can overlook as it has a big de-
veloping influence to our citizen-
ship, and reaches every interest from
childhood to old age.

Card of Thanks.

We wish by this means to thank
all of the friends who in any way
rendered assistance and many acts
of kindness to us during the death
of our father and mother, and also
for the floral tributes. Mr. and Mrs.
Harold H. Pierce.

We wish to thank our many friends
and neighbors for their many acts of
kindness and assistance during our
sorrow and bereavement, and Rev. Thieme
for his comforting words and also
the choir for their songs. Mrs. Fred
Zahn and children.

Notice.

The Chelsea Co-Operative Associ-
ation has ordered a carload of
threshing coal. All patrons who
will be able to get the coal from
the car, notify G. W. Coe, Manager,
and he will notify purchaser when
car arrives.

An All Cast Iron Heater With Real Casing Capacity

Direct Draft
Dampers
Eliminates smoke trouble
when firing.

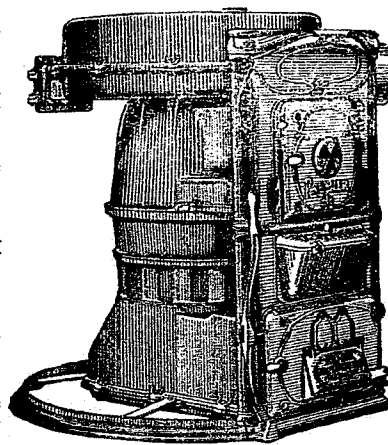

Feed Section
Deeper and heavier Pro-
visions made for water heat-
er on either side.

Fire Door
Two doors—fitted and drilled
to stay tight. No bent hinge
pins.

Humidifier
Five gallon capacity. Evap-
orates 9 to 12 gallons of water
every 24 hours.

Lever for
Shaking Grates
See Front View. A child can
operate it. No ash dust in
your face.

Ash Pit
Larger ash capacity. Holds
water. Eliminates dust and
ash combustion. Has square
corners at the back.

WEIGHT WHERE WEIGHT BELONGS

EARL UPDIKE THE FURNACE MAN

SPORT ADORER BY FILIPINOS

Cock Fighting the One Occupation That
Appeals to the Heart of the
Brown Brothers.

In every one of the larger cities of
the Philippines and throughout every
one of the thousands of little barrios—
from northern Luzon to southern Min-
dano—little barrios that fringe the
ocean's edge or nestle among the hills,
there is but one universal and adored
sport, but one game that is pre-em-
inently popular from the mountain
fastnesses of the headhunters to the
southern shores of Moroland, and that
is cock fighting.

Every Sunday morning—for Sunday
is the great day for the sport—at the
first crack of dawn along the roads
and trails that lead into the little set-
tlements and on the streets that twist
through the smelly and ramshackle bar-
rios, will be met numbers of Filipinos
walking with a quick, jaunty step, an-
ticipation written plainly upon their
brown faces and an unusual light in
their dark eyes. Each carries his fa-
vorite game cock under his arm, and
all are converging upon the cockpit.

"Lost" Lincoln a Mystery.

An oil painting of Abraham Lincoln,
25 by 35 inches in size, rescued sev-
eral years ago from a pile of supposed-
ly worthless furniture taken from the
old Red Lion Inn in Philadelphia, to-
day forms a mystery over which there
is much discussion by artists. After
its rescue the picture was hung in a
Philadelphia residence where a paint-
er, Baruch M. Feldman, happened upon
it and purchased it. He began the
work of reclaiming it, and after the
dirt had been removed the portrait
stood out, clear and well defined in all
its features.

Artists who have seen the picture
are agreed that the character of the
portrait is such that the suggestion
that it might have been painted from
a photograph is rendered absurd. Who
painted the "lost" Lincoln is a mys-
tery, and there is no mark or sign to
give those studying it a clue that
might lead to its identification.

Shows Kindergarten's Value.

The importance of the kindergarten
as an Americanizing influence was
urged by Maj. Bradley Martin, pres-
ident of the National Kindergarten as-
sociation, at the recent regional citi-
zens' conference in New York.
"The kindergarten," said Major
Martin, "is obviously the ideal means
of Americanizing the family through
the child; as the child through sing-
ing patriotic songs and playing games
with other children and receiving
moral and ethical instruction, not
only learns our language, but also
adopts our point of view and becomes
a patriotic citizen; and through
mothers' meetings and home visits the
family is assisted by the kindergarten
teacher in the difficult task of adapt-
ing itself to the economic and social
conditions that it finds in this coun-
try."

May Discover Earth's Secret.

On the shores of Lough Neagh, in
Ireland, mysterious explosions, gen-
erally occurring in warm and fine
weather, have long been known as
"water guns."
The most plausible theory to ac-
count for these strange noises is that
they are caused by movements of
rocks—settling, perhaps—deep down
in the earth's crust. It has been sug-
gested that they might be profitably
studied with the help of the newly
invented listening devices, by which
even the smallest sounds transmitted
through the ground can be heard.—
Philadelphia Ledger

Arrested for Speeding.

The village council and the presi-
dent of the village are determined
to eliminate the speeding of automo-
biles on the streets of Milan. A
motorcycle cop will be on duty here
at various times during the summer
and auto drivers will have to be on
the lookout continually for fear he
may be lurking in some unseen cor-
ner ready to grab the first machine
that comes along that is going more
than ten miles an hour in the busi-
ness district and more than fifteen
miles an hour in the residence sec-
tion.

The first to fall victim of the new
rigid enforcement of the law was
one of the prominent contractors of
Washtenaw county, C. R. Letchfield,
of the firm of Litchfield and Stewart,
paying contractors who were re-sur-
facing the Wabash pavement last
week was pinched last Friday after-
noon and taken before Justice Dela-
force. He pleaded guilty of driving
his car thru the streets at the rate
of 33 miles per hour and paid a fine
of \$10 and costs.

Motorists have been warned several
times that the speeding must be
stopped and the council again warns
them that no more warnings will be
given, but that the Justice of the
Peace will do his worst and inflict
the limit of fines and jail sentences
to all who come before him. Signs
have been placed at all entrances in-
to Milan, giving the speed limit and
all tourists as well as drivers from
this vicinity will be arrested.—Milan
Leader.

A. J. Callaghan, President, and H.
H. Ragle, General Mgr., of the Fed-
eral Petroleum Company, of Jackson,
Michigan, visited Chelsea today.
They are on a trip of inspection of
their several plants and made sev-
eral calls while they were in the city.
They reported much progress is be-
ing made by their local representa-
tive, Mr. I. H. Weiss, in building up
the business and upon inquiry they
find the trade is well pleased with
the quality of Federal Gasoline, Oils
and Greases and the service rendered
the trade. Mr. Callaghan is also
President and General Manager of the
American Oil Corporation.—Adv.

TAKE IT IN TIME

Just as Scores of Chelsea People
Have.

Waiting doesn't pay.
If you neglect kidney backache,
Urinary troubles often follow.
Donn's Kidney Pills are for kidney
backache, and for other kidney ills.
Ask your neighbor. Chelsea citizens
endorse them.

O. J. Leech, barber, corner McKin-
ley & Railroad streets, Chelsea, says:
"I know Donn's Kidney Pills can be
depended upon for I have used them
for a disordered condition of my
kidneys and attacks of backache and
they have never failed to do me
good. I have to be on my feet long
hours at a stretch and I blame that
for my trouble. I always go to
Vogel's Drug Store and get a box of
Donn's when I feel any of these
symptoms coming on. I take them
for a few days and they soon straight-
en me up."
Price 60c. at all dealers. Don't
simply ask for a kidney remedy—get
Donn's Kidney Pills—the same that
Mr. Leech had. Foster-Milburn
Co., Mfrs. Buffalo, N. Y.
