ROAD WORK NEWS.

Cement laying on the Federal Aid road job has reached Emmett Dancer's, just west of Lima Center, and the mixer has been moved to the town hall just east of the "Center," and is working east from that point. Another mixer has been started from Parker road west. The three miles between Lima Center and Parker road and the gap left at the "Center" should be finished by the middle of August, according to Engineer John Cox, who is in charge of the work. The machines will then start west from Chelsea.

Gravel for the job west of Chelsea will be shipped in over the Michigan Central and to that end a piece of land extending north from the north end of Wilkinson street to the M. C. tracks has been purchased by the road commission and unloading bins will be built at that point. Eventually the land will furnish a right of way for the extension of Wilkinson street north on the proposed Stockbridge-Chelsea road, making a grade separation with the Michigan Central.

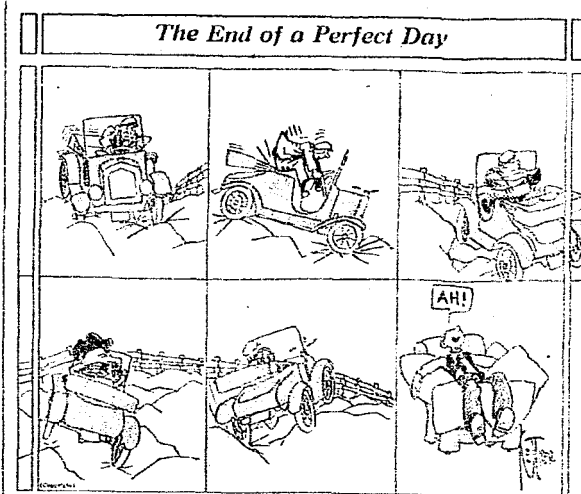

HEAT CAUSES THREE
DEATHS IN COUNTY

Lodi Township Reports Two, Saline Village One Victim, As Result Of Past Week's Hot Wave.

The torrid heat of the past week was indirectly the cause of at least three deaths in Washtenaw county, as follows:

Joseph Roehm, 45, Lodi township, Joseph Pfeife, 56, Lodi township, Herman Kappler, 48, Saline village.

Mr. Roehm died Wednesday afternoon while working in the hay field on the Alfred Rentschler farm in Lo-

di, about six miles southwest of Ann Arbor. He is survived by two brothers.

Mr. Pfeife was overcome by the heat about five o'clock Thursday afternoon while unloading hay on the farm of his brother, Frederick Pfeife of Lodi. His brother and one sister survive him.

Mr. Kappler was the proprietor of a confectionary store in Saline, and passed away about one o'clock Friday morning from the effects of the heat. He had taken an automobile ride the previous evening and was taken ill soon after retiring for the night.

Tuesday Was Hottest Day.

Tuesday was probably the hottest day of the series of hot ones. At 10 o'clock Tuesday morning one thermometer on Main street registered 125°. It was, of course, exposed to the reflected heat from the pavement. A thermometer in a store on the east side of Main street registered 110° Tuesday afternoon, and it was at the rear of the store at that time.

Relief Came Friday Afternoon.

A shower Wednesday evening tempered the excessive heat a bit, but the hot weather continued Thursday and Friday until about three o'clock Friday afternoon when a high wind of near cyclonic velocity, brought a cooling breeze and so tempered the atmosphere that sleep was easily won Friday night for the first time in a week.

Accompanying the hot weather myriads of mosquitoes have added to the general discomfort. The little-winged imps of torture have been more numerous than for many previous years.

It was on this finding that the commission has issued an order to its engineering department to make a survey of the Manchester plant, without expense to the village, and submit recommendations as to the advisability of the city extending its lines to rural communities, and also as to the advisability of increasing the height of the power dam, which is used in generating the current of the utility.

Fifty quarts of whisky were confiscated.

Colon — Fred Teadt, escaping from officers who sought to arrest him, fled into a swamp where he fell into a quagmire and was rapidly sinking in the soft ooze when rescued by pursuers. It required the efforts of several 15 minutes to extricate him from the engulfing mire. Teadt is charged with driving two automobiles with but one set of license plates.

Both bodies were recovered.

MURDER Baffles POLICE OFFICERS

500, O.N.T. FARMER IS SHOT TO DEATH BY MEN WHO ENTER HOME DURING NIGHT.

WIFE FLEES, CALLS NEIGHBORS

Assailants Fire Upon Woman and Bullet Grazes Arm as She Jumps Through Window.

Sault Ste. Marie, Mich. — The bloody imprint of a human hand on a farm fence rail is the principal clue being followed by Canadian mounted police and Dominion constables following the murder of Albert Gough in his bedroom at his farm home near here on the morning of July 7. Another clue is the fact that two strange men hired a heavy rig prior to the murder, promising to return it shortly, and the horse returned alone in the morning.

One of the men had used a flash light while helping hitch up the horse, and this flash light is thought to be the same one which was used in the Gough home when the murder took place.

Mr. Gough was shot to death by three bullets fired from a 38-caliber gun which was equipped with a silencer, and Mrs. Gough, who was sleeping with her husband, was shot through the arm as she fled through a window to neighbors, where she summoned help. The circumstances of the shooting are not very clear, but Mrs. Gough, who was not seriously hurt, was able to tell a fairly connected story of the events of the night.

"Our house is a one-story brick building," Mrs. Gough said. "We went to bed at 11 o'clock. It must have been about two o'clock when something awoke me. I don't know what it was. I could hear a lot of whispering, keeping up continually. We always close the bedroom door before going to sleep and when I awoke it seemed to me that the door was open. I sat up in bed alarmed and put my hand on the railing at the foot of the bed, and my fingers touched the hand of a man, whose face I could not see in the dark. I immediately awoke my husband crying 'Albert!' He jumped out of bed at once. I then saw the light of a flashlight in one corner of the room. My husband and a man were scuffling. After a few moments, almost immediately it seemed, I heard a click, as though from a revolver and perhaps two clicks. I suspected what had happened and went out through the window to get help from neighbors. I believe it was while going out the window that I, myself, was shot. The bullet went through the muscle of my left arm and grazed my side. I ran to Alex Henderson's place. Then other neighbors collected. When we returned to the house my husband was on the floor in a sitting position, dead."

Detroit — The General Motors corporation has begun suit in federal court here to recover approximately \$490,000 from Edward VerLinden, Lansing, who until his dismissal last May, was general manager of the Olds Motor works division of General Motors.

He has just returned from an inspection tour of the more popular summer resort places which were surveyed last year by the state's traveling laboratory truck. His report described all the resorts as in "satisfactory condition."

Airedale Saves Kitten's Life.

Gloucester, N. J. — Mrs. Bessie Hepburn has an airedale dog named "Jersey," which is going to receive a medal for saving the life of "Henry," a kitten which belongs to Mrs. Hepburn. The dog and kitten play together and the latter was lying in the center of the street when two autos approached. The dog grabbed the kitten and carried it to safety. Lieut. Henry I. Edwards, United States Navy, and others declare they are having a medal made for "Jersey."

HARDING INVITES WORLD TO DISARM

WAY TO END FUTURE WARS IS POINTED OUT BY PRESIDENT TO WORLD POWERS

WASHINGTON SCENE OF ACTION

If Proposal Is Accepted, National Capital May Be Scene of New World Congress.

Washington. — President Harding has made an armament reduction proposal to the great powers so broad in its scope that it constitutes a move toward a new order of world affairs.

The state department has announced that the president has proposed to Great Britain, France, Italy and Japan a conference in Washington not only on the "limitation of armaments," but on a settlement of the Pacific and far eastern problems.

If the proposal is accepted, Washington will be the scene of a new world congress, rivaling in importance that of Paris in 1919.

The conference, as proposed by the president, would consider not only a settlement of the issues which might precipitate war between the United States and Japan, but a re-shaping of the policies and relations of all the nations bordering the Pacific ocean, upon which Mr. Harding deems a permanent reduction of armament largely dependent.

Out of this conference, if held, may come a new international understanding on affairs in the Pacific and far east which will obviate any necessity of a renewal of the Anglo-Japanese alliance, a question now embarrassing the British government. So prominent is this possibility that the question is raised whether the British government has not already approved, if it did not originate, the suggestion that the far eastern and Pacific problems be considered by the conference on reduction of armament.

Out of the conference also may come President Harding's plan for an association of nations to preserve world peace and promote the Pacific adjudication of international disputes. Altogether, the step taken by the president is not only the most important since he assumed office, but one of the most important moves in the realm of foreign relations in the history of the republic.

JEALOUSY CAUSE OF SHOOTING

Fireman Killed by Sweetheart Who Believes Him Unfaithful.

Detroit. — Edward Malowski, fireman at engine house No. 25, on Michigan avenue, near Military, was shot and killed early Sunday morning by Louise Elizabeth Sulezek, 23 years old, his sweetheart, as he attempted to embrace her, according to place.

They had been keeping company three years. The woman then turned the weapon on herself, the police say. Hospital authorities say she will recover.

THREE APPLICANTS FOR EACH JOB

Federal Government to Relieve Situation by Opening Offices.

Chicago. — For every job open in Chicago, there are three applicants. In some lines of work the proportion is greater, but this is the average announced by the general advisory board of the Illinois free employment service, which maintains 13 offices in 11 cities of the state.

The federal government has stepped in to do what it can to relieve the situation. It has divided the country into nine districts and opened employment offices in each district. The one of which Chicago is the center covers Illinois, Indiana, Ohio, Michigan and Wisconsin.

PLANE CRASHES INTO HOUSES

Five Killed and 50 Injured by Explosion Which Follows.

Moundville, W. Va. — Five persons are known to have been killed and approximately 50 injured at Langlin field here late Sunday when a Martin bombing plane crashed into a group of automobiles parked on the grounds. An explosion followed, setting fire to the machines. The dead were all spectators. Lieutenant C. R. McVie, pilot, and Lieutenant T. H. Duntun, assistant pilot, were rescued by Carl Miller, coach of Bethany college.

Coal Miners Return to Jobs.

London. — There has been general resumption of work throughout the coal fields. Many pits, however, are in bad condition and some are likely to be closed permanently. Many thousands of workers will be idle while the mines are being placed in working order. The Board of Trade has announced immediate removal of the restrictions on export of coal and coke. Normal service is being resumed generally on the railways according to the announcement.

MARKET REPORT

PUBLISHED BY U. S. BUREAU OF MARKETS, WASHINGTON, D. C.

Grain

Prices declined during the week, although without definite trend. The market was stronger on short covering and good clearing of new harvest. Exporting business returns from slow, in demand, Illinois, Iowa and Missouri, and private report indicating Missouri wheat crop around 21,000,000 bushels had no noticeable effect. Export demand shows little offering, only fair cover, country offering to arrive light. Continued but weather causing some apprehension in corn market but reports thus far are favorable.

Sylvan's Natural Park

One of the privileges of living in Chelsea and in Sylvan township is Cavanaugh lake, which is rapidly developing into a sort of community park where vacation signs are unknown and all may enjoy the beautiful scenery and bathing beaches without interference. So many inland lakes have been commercialized during the past few years that it is a relief to the average citizen to know that the shores of one of the most beautiful lakes in the vicinity are free to all.

And the reason that Cavanaugh is still free to all citizens is found in the fact that years ago some one laid out a road around the south, east and north shores of the lake so that those shores are controlled by the township and are public property—none may close them and a beautiful natural park has thus been conserved for all time to the people of Sylvan township.

STATE FAIR LIKE GREAT UNIVERSITY

HAS SOMETHING TO TEACH ALL BY DISPLAYING BEST OF ALL PRODUCTS.

GIVES TRUE REFLECTION OF MICHIGAN'S PROGRESS

Few universities are enabled to disseminate as much knowledge along the lines of all of life's activities as does the Michigan State Fair, which will hold its 72nd annual exhibition in Detroit, Sept. 2-11. For the people of the state generally the annual state fair is a font of information about the things they are most concerned with in their everyday existence.

The state fair exhibits show the best that is produced in agriculture, livestock, dairying, poultry, automotive trades, machinery, industrial work of varied sorts, road building, arts and sciences, city and country school work, home work, such as needlework, handicraft work, garment-making, canning and numerous other sorts of endeavor. No matter in what line or variety of line any person is interested he can find much of an instructive nature among the fair exhibits.

Michigan's state fair has taken rank as the best in the whole of America. Its coming show will be greater in scope and size and pay more in premiums than any ever held before. It will be the most instructive exposition of its kind to date.

"More than ever the state fair of today has become a leading educational institution," said Secretary-Manager G. W. Dickinson, of the state fair, discussing this feature. "It shows better than any other way can show how the state is developing and what it is accomplishing. It brings the people of the state together—the farmer, the manufacturer, the business man, the professional man, the woman interested in industrial or domestic matters, and the children who are just becoming interested in some line of life's activities."

"It shows to each one the best that is being accomplished in what he is most concerned with, and it gives to each one the opportunity to see what others are doing. The fair is a great mirror of the state's progress and this year it will have more such progress to reflect than ever before in its history."
