

THREE SALINE MURDER SUSPECTS

Bound Over To Circuit Court, Charged
With Killing George Burg And
Hired Man, Henry Fulmer.

Peter Orlando, Sam Morceri, and Tony Spero, of Detroit, charged with the murder of George Burg, wealthy Saline township farmer, and his hired man, Henry Fulmer, on July 15th, were Friday given an examination and bound over to the October term of circuit court.

The men were not placed upon the stand, but extracts from signed statements they have made were read into the record by Sheriff Pack, the statements being in the nature of confessions.

Each defendant, however, mentioned three other men, Spero, the only one of the three being held, who was in the Burg barn at the time of the shooting laid the blame for the shooting on a tall man whose name was not divulged. It was this man, according to Spero, who shot both Burg and Fulmer, when Burg refused to allow the four men to bind his hands with a rope they had brought along for that purpose.

The statements by Morceri and Orlando agreed with that of Spero, their knowledge coming from the conversation between the men after the murder had been committed and while the car was speeding toward Detroit. That robbery and not murder was the motive of the trip to the Burg farm was claimed by all three.

AN AMOROUS BLUE-GILL.

A combination of two pretty Chelsea girls in a canoe proved to be the undoing of a line large Cavanaugh lake blue gill one day recently, when the said b. g. jumped out of the water and tumbled headlong into the canoe. Of course the girls were frightened. 'twas so sudden—but are proud of their unusual piscatorial conquest, nevertheless. Where, but at beautiful, romantic Cavanaugh lake could one catch an amorous blue-gill!

MRS. HENRY WILSON.

Stella Muriel Parks was born in Dallas, Clinton county, Michigan, April 17, 1867, her parents being Morris A. and Helen (Wimple) Parks. She was married to Henry A. Wilson, April 25, 1888, moving to the farm in Lima where she spent her entire married life, excepting the past three months at Salem at the home of her daughter, Mrs. J. C. Clark, where she passed away Wednesday, July 27, 1921.

She leaves besides her husband, two daughters, Mrs. Jay Clark of Salem and Mrs. Walter Crippen of Van Nuys California, four grandchildren, her father, one sister, Mrs. C. D. Monroe of Pittsburgh, Pa., and one nephew; also a host of friends to mourn their loss.

She was a charter member of the O. E. S., and a member of the Methodist church.

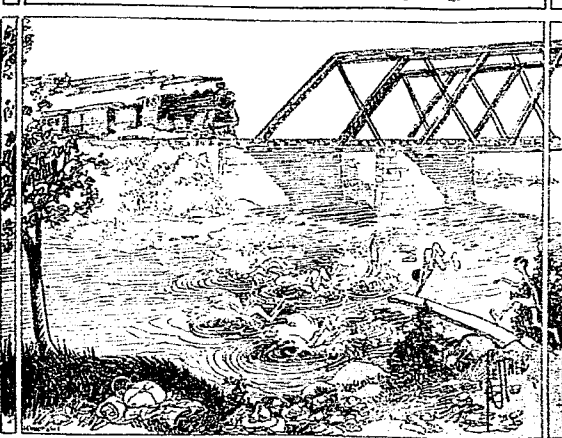

Short funeral services were held from her late home in Lima, Saturday afternoon at 1:30 o'clock, and from the M. E. church in Chelsea at 2:30 o'clock, Rev. Phillip Wittich of Salem officiating. Services at the grave were in charge of the Order of the Eastern Star.

OLD REGULATOR CLOCK.

Take a look at the regulator clock hanging for the past few days in the window of the Winans jewelry store, next time you pass that way—it has a history.

No one seems to know just how long the old clock has ticked away the seconds in Chelsea, and there are no identifying marks upon it, not even the makers name, but it is a certainty that it has been a long time, upwards of 40 years, perhaps longer. For years it hung in the old Glazier drug store, on the corner now occupied by L. P. Vogel, later it was owned by Glazier & Simpson, and subsequently by L. T. Freeman. Then something went wrong with the works and the old clock was taken to Winans' store for repairs, but for some reason it was neglected and hung there covered with dust for several years. Finally, Mr. Freeman having gone out of business, sold it to Mr. Winans, and recently his son, Elmer Winans repaired it and now the old clock is again back on the job ticking away as faithfully as ever, and apparently as good as new.

OUR NEIGHBORS' DOINGS

What's Happening In Neighboring Towns and Localities.

YPSILANTI—Louis Z. Forester, 84 years old, and well known here, died Saturday. He was head of the Forester Brewing Co. for many years.

HOWELL—Anthony Valenti and Singranda Fingo, of Detroit, were convicted Monday of the robbery of the farm house of Miss Christina Schaible, aged 74. More than \$4,000 in securities and cash formed the bulk of the loot. One man remains to be tried in connection with the robbery. He is John Conti, also of Detroit, who demanded a separate trial.

MANCHESTER—About 75 members of the Eastern Star gathered at the village park Friday to enjoy a picnic supper. The honor guests were Miss Marie Kirchoffer of Hollywood, Cal., Mrs. Henderson of Mt. Clemens, both former worthy matrons of this lodge and Miss Bertha Kirchoffer of Ann Arbor.

MASON—A cyclone Tuesday struck at the Thomas Lang farm, tearing off the barn doors and moving the structure several inches on its foundations. Mr. Lang and son in law were drawing grain and a huge tree was hurled across the road, narrowly missing the two men, while the team was blown into a wire fence and so entangled that the wires had to be cut to free it.

STOCKBRIDGE—The marriage of Miss Genevieve McCreey and Raymond E. Patch of Homer took place at the home of Rev. S. J. Pallock, pastor of the M. E. church, on Tuesday afternoon, July 26th. The bride is a graduate of the Ingham county normal and one of Ingham county's successful teachers, having taught for the past two years. Mr. Patch is a graduate of the Homer high school and is a student at M. A. C. They will be at home after October 1st, in Lansing.

THE HUMAN FORM DIVINE

(Brooklyn Exponent)
Speaking of unrestricted views of the human form divine, no particular limitations in attire can be noted among the male bipeds who are prone to pass remarks about the weaker sex. Out on the public square Monday morning was parading a male gink from some nearby lake. He had some pants on, but above the belt nothing but red hair and lots of it, although he did make a bluff with a B. V. D. Following behind this paragon of proud manly beauty there trailed three boy scouts in assorted sizes. Their costumes looked as though the clothing crop was an entire failure. The khaki pant legs were cut off so close to the top that there was almost no reason for a belt. From there down was a wonderful and fearful expanse of not to clean legs, down to dirty shoes full of feet. They could not have uncovered much more anatomy—not unless they had taken off their shoes. The girls and women who come to town have most of them had to give up summer furs for a few days. They are not exactly smothered in clothes, but in contrast to some of the men, they give quite a fair imitation of wearing them. And yet we have mere males who will stare and comment if the girls turn their stockings down a few rolls below the knee and wear their dresses at the same altitude. Some day a good woman writer is going to take the hide off some of these male critics. That's about all they have left on.

CARD OF THANKS.

To the many friends and neighbors who so kindly assisted us during our recent sad bereavement, we extend our heartfelt thanks. Also for the beautiful floral offerings. Henry A. Wilson, Mrs. J. C. Clark, Mrs. W. H. Crippen, Morris A. Parks, Mrs. C. D. Monroe.

IMPROVING GRADE CROSSINGS.

One fifth of the 8,000 grade crossings in Michigan, over incumbered and steam lines, must be improved before May 1, next year, representatives of the lines and county good roads commissions were told Thursday by the Michigan Utilities commission, at a meeting held in Lansing to discuss provisions of a law passed by the legislature in regular session.

It will be up to the county road commissions to at once designate to the railroad the crossings which are to be improved this year, and the work will start within the next 30 days. Failure of either the county or the railroad to act, will result in an order from the commission as to the crossings which are to be improved.

Under the new law the railroad will be required to place the grade crossings in a condition designated by the commission, and to improve a 25 foot approach on either side. Each county road commission must then improve the road approach to the crossing, and on crossings in cities and villages, the corporate officials will be required to make the necessary improvements to the approaches.

Under the program outlined, all grade crossings in the state will be improved within a period of five years.

LOWE LAKE DRAIN

Proposed Construction Is Abandoned In This County; But Will Be Done In Ingham County.

Ingham county drain commissioners are getting ready to let the contract for the Lowe lake drain clean-out. This marks the end of the long fight on this drain, especially in Livingston county, where had the drain been constructed as originally planned it would have necessitated the tearing out of the power dam that furnishes electric lights to the village of Gregory.

The case was brought to court, and after a hearing in probate court, and circuit court in Livingston county, the latter finally rendered a decision against the construction of the drain in Livingston county.

Landowners in the northwestern corner of Lyndon township, Washtenaw county, would have been assessed for the construction of the drain in the vicinity of the Washtenaw-Livingston county line.

Under the new plan, Ingham county goes on with the plans for the drain, except that it is not carried on into the nearby counties as was first planned.

BANKER'S DUAL LIFE DISCLOSED

AGENTS LOCATE WOMEN ALLEGED TO HAVE BEEN ASSOCIATES OF SPURGIN.

DEPOSITORS WERE "TIPPED OFF"

Grand Jury Investigation Likely to Name Others in Wrecking of Trust Company.

Chicago.—Three women who figured in "the other life" of Warren G. Spurgin, fugitive president of the Michigan Avenue Trust company, who is charged with embezzlement of \$1,500,000 of depositors' funds, have been located by W. C. Burns, who is investigating the case for Lloyd's of London. One of them, a New York woman, is alleged to have received \$10,000 in the stock of a producing oil company, in exchange for a series of endearing letters.

The others are Chicago women, one of whom, a brunette, figured with Spurgin in the wild night life of the north side. The other, a blonde, without any visible means of support, lived at a fashionable south side hotel, maintained a costly limousine, a Pomeranian dog and other appurtenances supposed to indicate the possession of abundant wealth. This woman disappeared immediately following the bank crash, but is believed to be in hiding somewhere in Chicago.

Rumors persist that a grand jury investigation will involve others besides Spurgin, in the wrecking of the trust company. The state attorney's office has received so many "tips" to this effect that it is planned to make a thorough investigation. It is said that certain depositors had been given a hint in ample time to permit them to withdraw their funds.

According to information in the hands of the assistant state's attorney, three days before the crash came, a number of large withdrawals were made from the bank. One of them it is charged, was "tipped off" as to the shaky condition of the institution by the chauffeur of one of the directors. This depositor who is in the automobile business, drew out \$16,000, his entire deposit. Another check for \$18,000 is said to have been presented the evening before the bank closed. He was asked to "wait until tomorrow morning." He is still waiting.

Spurgin's wife and daughter, it is believed, have told all they know of the case. They have been released from custody but are under surveillance of a police woman.

MUST PAY CORPORATION TAX

Attorney General Rules Law Effective Pending Court Action.

Lansing.—Attorney General Meritt Wiley has mailed a letter to a large Detroit manufacturing firm notifying it that the new state corporation law is effective, and will be held effective until some decision on the suit of the Union Steam Pump Sales company, of Battle Creek, to test the validity of the new law, is handed down by the supreme court.

The letter is generally accepted as a warning to all corporations that failure to comply with the provisions of the corporation law will make them liable to the full penalties prescribed in that statute.

FORD'S RATE SLASH PROTESTED

Coal Reduction Hurts Business, I. C. C. Told By Mine Owner.

Washington.—The Consolidation Coal company of Baltimore has protested to the interstate commerce commission against the reduction of rates on coal from the Ohio river to Detroit, proposed by Mr. Ford's road. The company owns mines in Kentucky and West Virginia and in its complaint said the proposed reductions would be prejudicial to the rates it has to pay on coal to the same points. The reduction proposed by the Detroit, Toledo and Ironton amount to 72 cents a ton on coal.

Taubert tried to turn back for a quick landing when he noticed the trouble.

The Fellowship carries with it transportation expenses and an annuity of \$1,000 during the three-year course.

DIES TRYING TO RESCUE WIFE

Dr. Stone, Purdue University Head, Loses Life in Rockies.

Bozeman, Alberta.—Dr. W. E. Stone, president of Purdue university, at Lafayette, Indiana, gave his life in the solitary fastness of Mount Eamon in an effort to save his wife, who had fallen to a narrow ledge on the face of a deep crevice. With Mrs. Stone in his arms, he was attempting to scale the almost perpendicular side of the cliff when he lost his footing and hurtled to the bottom of the chasm.

Mrs. Stone, who slid back to her former position far above the body of her husband, will recover from her injuries and the effects of being virtually without food for eight days and nights, according to the rescuing party.

Mr. and Mrs. Stone left Bozeman on July 25 to attempt the ascent of Mount Eamon. Both were experienced mountain climbers.

MAY RE-EXAMINE 4,500,000 VETS

Insurance Bureau Chief Would Cut Out "Army Red Tape."

Washington.—Re-examination of the 4,500,000 former service men, and the elimination of the statutory red tape was suggested by Colonel Charles R. Forbes, director of the war risk insurance bureau, as the best solution of the soldier relief problem. AMERICAN PRISONERS SET FREE

Senator France After Extended Trip Through Soviet Land Favors Trade Agreement.

Washington.—Complete resumption of trade relations between the United States and Russia is forecast by the promise of Russia to release American prisoners, according to the opinion expressed by Republican senators. Senators who were entertained at dinner by the president during the past week disclosed that the chief executive had stated that he expected the release of the Americans very shortly and had expressed a desire for early settlement of the entire Russian question.

Senator France Favors Pact.

Riga.—Soviet Russia has agreed to release American prisoners and to accept famine aid from the American Relief association just at the moment that United States Senator Joseph I. France of Maryland has returned to Riga from Moscow determined to advocate renewal of trade relations, and perhaps diplomatic relations, between Russia and the United States, and bringing with him one of the prisoners, Mrs. Marguerite E. Harrison of Baltimore, who was enthusiastic over his efforts at Moscow.

Senator France, who entered Russia several weeks ago skeptical of the advantage of immediate diplomatic relations with the Soviets, but believing that trade relations were advisable, has returned an ardent enthusiast for both.

The senator talked with both Lenin and Trotsky and was impressed by them.

"I found that the Russian government is handling the situation in a statesmanlike way," he said. "Lenin is much interested in American relations. The Russian factories have not all ceased operating; many are working well. They are short of raw material, but that is not their fault. The peasants are working the land and the farms are prosperous where they are not in the famine and drought belt."

"I am convinced that Russia will carry out any guarantee or concessions made in return for credit," the senator declared.

Describing his visit, he said he was free to move about and see what he liked, and the officials frankly admitted bad conditions where they existed.
