

NEW GAME LAWS NOW

Number Important Changes Which Took Effect August 18th.

A number of important changes in the Michigan game laws became effective August 18th, those of most interest in this vicinity being as follows:

Casting and Trolling.—Defined to mean a single line or single rod and line with hook or hooks attached or with a natural or artificial bait, not to exceed six inches in length and one or more hooks or gangs of hooks attached to be used for casting or trolling for fish, and the method of capturing fish shall be by means of fish taking bait or hook in the mouth.

Minnow Seine.—Not more than 20 feet in length may be used for taking chubs, shiners, suckers, dace and stone roller minnows from any of the rivers and streams; not to exceed 30 feet in length and five feet in depth may be used in inland lakes.

Rabbits.—Open season October 15 to December 31, inclusive; number in possession, 7 in one day, 10 at one time, 25 in season. Regulations: Unlawful to use ferrets or other rodents in hunting. Farmers and fruit growers may use ferrets to hunt rabbits on their own lands on permit issued by Director of Conservation.

Squirrel (fox).—Open season October 15 to 31 inclusive; number in possession, 5 in one day, 10 at one time, 15 in season.

Squirrels (black and gray).—Unlawful to hunt and kill until 1924.

Woodcock.—Unlawful to hunt or kill until 1924.

Of Interest to Anglers.

Large and Small Mouth Bass.—June 16 to March 31 inclusive, 10 inches in length, 10 in one day, 10 in possession at any one time. With hook and line only. Unlawful to buy or sell at any time or have in possession during closed season, or to transport excepting as open hand baggage.

Wall-eyed Pike.—May 1 to first day of February, inclusive, 10 inches in length, 10 in one day, 10 in possession at any one time, no limit on number when taken from the connecting waters on Great Lakes. Unlawful to buy or sell at any time or have in

possession during closed season when taken from inland waters.

Blue Gills.—June 16 to March 31, inclusive, 6 inches in length, 21 in one day, 25 in possession at any one time. Unlawful to buy or sell at any time.

White Bass, Catfish Bass, Rock Bass and Crappies.—June 16th to March 31 inclusive, 7 inches in length, 25 of each in one day, 25 in possession at any one time. Unlawful to buy or sell at any time.

Sunfish.—May be caught during any season of the year, 6 inches in length, 25 in one day, 25 in possession at any one time. Unlawful to buy or sell at any time.

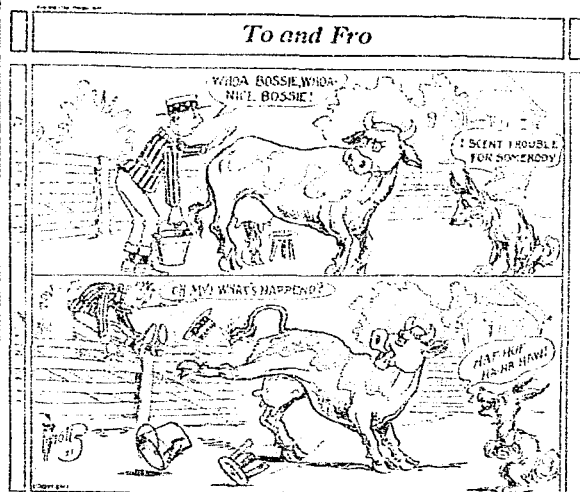

Perch.—May be caught during any season of the year, 7 inches long, 20 in one day, 50 in possession at any one time. Unlimited number in possession when taken in Great Lakes or connecting waters.

Automobiles may be used to transfer hunters to and from hunting grounds, but must not be used in any manner that could be construed to be an act of hunting. Unlawful to have loaded firearms in automobile.

BOATS SHOULD CARRY LIGHTS.

Clark Lake had a near tragedy last Thursday night about eight o'clock when the launch driven by Douglas High crashed into a rowboat in which Mr. and Mrs. Huelker and a young lady friend were crossing the lake. Neither boat carried any lights and the night was dark. The collision occurred at the center of the lake and the sound of the impact of the boats and the screams of the women aroused resorters on both sides of the lake. The side of the rowboat was crushed and the three occupants thrown into the water. The driver of the launch was able to find Mrs. Huelker and grasp her as she came up after being plunged into the water. Mr. Huelker could swim and guided the young lady to the boat, helping to get both of them on board the launch. The parties are all from Cincinnati. The accident has thoroughly alarmed Clark Lake residents who now realize their delinquency in not conforming with the law which requires all boats to carry a light at night.—Brooklyn Express.

OUR NEIGHBORS' DOINGS

What's Happening in Neighboring Towns and Localities.

PINCKNEY.—County Superintendent John Strick of Brighton is chaperoning 15 youths who compose the annual Y encampment at Silver Lake. Mr. Strick states that the attendance is small this year as the dates conflict with the Livingston and Jackson county fairs.—Dispatch.

YPSILANTI.—Charles O. Blashfield, truck gardener of Ypsilanti township, arrested five Detroit boys Thursday afternoon in his melon patch. He fired several shots at them with a shot gun and then brought them to the city hall in his truck. After questioning five of them Chief of Police John F. Connors locked up Walter Pietryk of 525 Cicotte avenue, Detroit, and Ed. Konieczny of 6768 Parkwood, Detroit, on a charge of entering a garden and taking melons. Blashfield signed a complaint and the two were arraigned in justice court Friday afternoon. The other three, who were under 17 years, were released.

BALL SCORES ARE REPEATED.

Six to one seemed to be a hoodoo combination for the Chelsea Independents, Sunday and Monday. Both in the game with the Wanderer Sports of Detroit, Sunday afternoon at Wilkeson Field, and with Stockbridge yesterday in that place, the Independents were defeated 6 to 1. Both games were interesting contests, but the breaks of the game seemed to be against the local lads. The boys were particularly well pleased with the showing they made against Stockbridge, which is unusually strong and which played its strongest men.

Next Sunday, Northville will play the Independents here. Klingler and Collins will be the Chelsea battery.

LABOR DAY FIRE.

Fire in the northeast corner of the roof of A. G. Faust's wagon shop called out the fire department Monday morning and kept the fire laddies fully occupied for about fifteen minutes. The damage is estimated at not less than \$200.

The fire probably caught from a spark from the chimney of the forge shop, a one-story addition at the rear end of the two-story wood shop. The building is of frame construction and the studding in the rear end was badly burned and will probably have to be replaced.

The damage is fully covered by insurance.

JACKSON COUNTY FAIR.

Many people say that the Jackson fair is the best county fair in Michigan, and from the fact of attendance and the general quality and number of exhibits their judgment seems to be well based.

There are three predominant principles carried out by the Jackson fair that considering its size almost puts it into a class by itself.

First, it gives its exhibitors and patrons more for their money than any fair in Michigan. Its departmentments are open to all, with free entries. No membership is required from an exhibitor, and free stalls, pens and space are furnished, as well as straw for bedding. The gate admission is only thirty-five cents.

Second, the cleanliness, the economical charges for meals, the dispatch with which the program and events are conducted, and the general management of the whole fair under the supervision of the superintendent is a wonderment to the public.

Third, the predominant feature of the whole fair's policy is clear education, and the public has come to realize the immense benefit derived each year by attending its educational is immense and far-reaching.

Tribune "liner" ads; five cents the line first insertion, 2½ cents the line each subsequent insertion.

VITAMINES ESSENTIAL FOOD.

It seems that people in the future are going to buy their medicine at the corner grocery store—or at least at a grocery store.

Instead of lettuce, spinach, carrots, cabbage and turnips, we are now advised to buy yeast.

Yeast, it is said, contains an essential food element which is lacking in the average diet.

The name of this element is vitamin. Only within comparatively recent years have scientists known anything about vitamins. Unless we get it in the right quantity we lack energy and become greggy and "run-down."

Vitamine is found in leafy vegetables, spinach being particularly high in this element. Yeast, however, contains four times as much. Most meats and fish contain none, and milk very little. In taking the outside coatings of rice and wheat these foods are robbed of vitamins, it is said.

Three ways are suggested for eating yeast: Dissolved in hot water, or in fruit juice; spread on crackers or bread; or just plain.

One to three cakes a day is said to be the right dose.

"At your grocer's"—as they say in the advertisements.

JOSEPH GOODRICH.

Joseph Goodrich died Friday, Sept. 2, 1921, at the home of his daughter, Mrs. Henry Musbach, of this place. He was born in Wurtemberg, Germany, but had been a well known resident of Sylvan township for many years. He was 78 years of age in March last.

Two daughters, Mrs. Henry Musbach of this place and Mrs. Christian Klingler of Sylvan, and one son, Albert of Detroit, are left to mourn their loss. He is also survived by four grandchildren. Mrs. Goodrich passed away several years ago. The funeral was held Sunday afternoon at two o'clock.

VISITORS FROM FOWLERYVILLE.

Seven or eight automobile loads of good Methodists from Fowlerville, all members of the Sunday school classes of Mrs. G. A. Marsh and George Adams, visited the Methodist Old People's home here Friday, and were served dinner.

Mr. Adams is editor of the Fowlerville Review and was a welcome caller at the Tribune office while in Chelsea, but we couldn't hold him for long as he was too anxious to get up to the "home" for dinner.

How to Find Lost Radium.

A doctor recently threw away a \$6,000 tube of radium, which became mixed up with some bandages which were consigned to the furnace. A radium expert was summoned and he sprinkled zinc sulfide all about the cellar and then turned on the lights. Soon the anxious watchers saw a small glowing patch among the ashes in the furnace and found the tube of radium, which by its action had caused the zinc sulfide to become luminous. The doctor will be more careful in future.—Scientific American.

Automobiles, tractors, threshers and many other varieties of farm and city machinery and mechanical contrivances will form a big feature at the Michigan State Fair in Detroit, September 2 to 11. The leading men of the industrial world appreciate the splendid opportunity afforded by the state fair to demonstrate their creations to all comers and especially to the farmer visitors who are keenly interested in the new mechanical developments intended for use on the farm.

Keep Well and Be Happy.

If you would be happy you must keep your bowels regular. One or two of Chamberlain's Tablets taken immediately after supper will cause a gentle movement of the bowels on the following morning. Adv.

FINGER PRINTS TO CATCH CROOKS

State Police Install New Bureau To Preserve Criminal Records.

Equipment for the new fingerprint identification bureau, being established by the Michigan State Police, is on hand, and preparations are going forward for making the bureau a big factor in checking crime in Michigan and apprehending and convicting criminals. For some time a man detailed from the force of the State Police has been in Detroit studying the system under Charles Carmody, of the Detroit Police Department, who is recognized as one of the country's leading fingerprint identification experts.

The meeting of police chiefs and sheriffs of the state, held in Lansing in August, was hailed by Col. Vandercreek of the Department of Public Safety as an ideal occasion to explain the identification bureau and ask general cooperation with it.

Of course, most city police departments already have fingerprint bureaus and their co-operation with the State Police may be taken for granted. It is Colonel Vandercreek's hope that sheriffs of counties and peace officers of smaller towns may be interested also. Simple outfit for taking fingerprints are not expensive, and great advantages would be obtained if peace officers generally could be induced to buy the simple outfits and take fingerprint records of all their arrests.

FINE!

The finest line
In print or writing.
Is just the phrase;
"The bass are biting!"
—Detroit Free Press

The greatest words
I've heard to date,
Are "Come on, boys,
I've got the bait."
—Hasting (Neb.) Tribune

And listen here—
Oh joy of size—
"The trout are
Jumping at the flies!"

WANT AND FOR SALE ADS

Five cents the line first time, 2½ cents per line each consecutive time.

Minimum charge 15 cents.

TRY A "LINER" AD when you have a want, or something for sale, to rent, lost, found, etc. The cost is trifling.

FOR SALE—Good feeding lambs. Frank Leach, phone 274. 10212

FOR SALE—Tomatoes for canning, delivered to any part of village, 50¢ bushel. Jacob Hummel, telephone 108. 10311

FOR SALE—Osborne corn binder in good condition. Wm. Eisenbeiser, phone 116-F14. 102 2

WANTED—We can use a few more used tires in exchange for new ones. Palmer's Garage. 10212

WANTED—Live poultry and farm produce. Chelsea Greenhouse, telephone 180-F21. 10111

FOR SALE—Good second-hand range Mrs. Frank Gieske, 118 Lincoln St. 10113

FOR RENT—Rooms for housekeeping, 216 Jefferson St., phone 99, Chelsea. 9911

MACHINE OPERATORS wanted at Gehel Garment Co. 9611.

FOR SALE—Cucumbers for pickling, and other purposes. Arthur Young, phone 206-F4. 9816

FURNITURE REPAIRING, upholstering and refinishing; go-carts re-tired, shears sharpened. E. P. Steiner, Chelsea. 9711

PAINTING by the day or job, in town or country. Schanz & Slocum, phone 182, box 415. 9211

SIGNS—Printed signs; No Hunting, No Trespassing, For Sale, For Rent, Rooms, etc., 10 cents each or 3 for 25 cents, at the Tribune office. 1011

FOR SALE—Old newspapers for wrapping, shelves, etc. Large bundle only five cents at the Tribune office.

WANTED—People in this vicinity who have any legal printing required in the settlement of estates, etc., to have it sent to the Chelsea Tribune. The rates are universal in such matters, and to have your notices appear in this paper it is only necessary to ask the probate judge to send them to the Chelsea Tribune.

WHEN YOU GET MONEY for your labor, no matter what your work is, put a part of your earnings in the bank. Leave it there and keep adding to it.

THE MORE MONEY YOU HAVE the more power you have to invest or increase your business and employ others to work for you.

MANY OF THE BIG BUSINESS MEN of today owe their success to having started the banking habit early in life and having the means to grasp a good business opportunity when it was offered.

The Kempf Commercial & Savings Bank
Member Federal Reserve Bank. Chelsea, Michigan

To My Patrons and Friends:

Having purchased entire interest in the Mode Hat Shop, will open formally September 15, 16, 17 with a full line of Chicago fall and winter styles.

I have secured the services of Miss Kathryn Hooker as trimmer for the fall and winter season.

Twice-a-Week Tribune --- \$2.00-a-Year

The Twice-a-Week Chelsea Tribune and Michigan Farmer, both one year for \$2.50. A real bargain

STATE NEWS

Lansing—Governor Groesbeck has appointed Dr. Blanche Haines, of Port Huron, and Miss Irene Gibbons, of Flint, members of the state board of registration for nurses.

Monroe—The Michigan State Police at Southfield have been given a motorcycle with a speed of 70 miles an hour to be used in arresting speeders on the State highway.

St. Clair—The Detroit-Clinton, first locomotive in the United States, was exhibited here to a crowd that came for many miles. The locomotive was returned to the east after a Chicago exhibition.

Lansing—William H. Wallace, member of the state board of agriculture, tendered his resignation to Governor Groesbeck. It is understood his wish was to be relieved because of business responsibilities.

Ludington—Hansson Rasmussen, 65, former merchant, died in the baseball park grandstand of apoplexy when the Ludington team drove in seven runs in one inning and won the game against Grand Rapids.

Charlotte—A report filed with Daniel W. Knapp, village clerk, shows that the municipal electric light plant at Sanford is earning about \$55 a month more than its expenses. The income from the plant is expected to retire bonds issued to construct it.

Escanaba—By a vote of 194 to 311, Escanaba elected to come under the city manager plan of government by adopting a new charter prepared by a commission of seven citizens. Escanaba now has a council and a mayor.

Grand Rapids—Dr. C. W. Munger, superintendent of Columbia hospital, Milwaukee, Wis., has been appointed as successor to Dr. Merrill Wells, medical director and superintendent of Hotchkiss Memorial hospital since June 1917. Dr. Wells' resignation becomes effective October 1.

Lapeer—A romance that was born at the Michigan Home and Training school here developed into the marriage of Gertrude Hazel Homan, physical instructor, and Dr. Henry M. Isenhamy, dentist. The ceremony was performed by Rev. Fr. Plamer at the Church of Immaculate Conception.

Downing—A homing pigeon several days ago fell exhausted in the yard of Postmaster Frank Richey. Care restored it to flying strength and it was released, but returned to the Richey residence several hours later. The postmaster is anxious to learn its identity. A red rubber band on the left leg has the lettering "E-296."

Pontiac—Chase Osborn's feat of killing a bear with an axe and his bare hands isn't so much, according to an Oakland county sportsman, just back from the north Wisconsin woods. Guy Folsome, Milwaukee, member of a party in which Ross Thompson, Oakland supervisor, was roughing it, chased and killed a black bear in an automobile, according to Thompson.

St. Clements—Two masked robbers entered the Margolies Inn, notorious lake shore roadhouse, gagged and handcuffed the porter and made away with \$900 in cash from the safe. The pair, well dressed and with handkerchiefs covering their faces, invaded the roadhouse shortly after the big Sunday crowd had left. They commanded Frank Bulivies, night porter, to throw up his hands and remain quiet.

Lansing—Lansing voters turned down a proposal to bond the city for \$200,000 to erect a soldiers' memorial building, but endorsed four other bond issues which will increase the indebtedness of the city by \$2,350,000. The issues which carried were: \$1,650,000 for a municipal power and electric light plant; \$100,000 for water works extension; \$200,000 for sewerage systems; and \$400,000 for paving. The vote was light.

Marquette—Marquette will issue \$50,000 in bonds to provide for the unemployed for the rest of the year. This decision was reached after Merl W. Wiley, attorney-general, ruled that a business depression was as great an emergency as a flood or fire. Under the Home Rule Act a city has authority to issue bonds without a vote of the people. When the budget for 1921 was made, in August last year, the business depression had not developed.

Saginaw—The soldier bones bill will be passed at the December session of congress, is the belief of Congressman Joseph W. Fordney, chairman of the ways and means committee and Republican leader in the lower house. "One of the reasons for this belief is that, deducting what foreign countries owe us, 60 per cent of our debt is due in the next 20 months," said he. "The passage of the bones bill is the only honorable thing to do. The boys deserve it and shall receive it."

Monroe—The Monroe Paper Products company, has started operations in its mammoth mill, the building of which was begun on March 21, 1920. The new company is capitalized at \$1,000,000. Officers are William H. Jarnas, president; W. M. Sawyer, vice president; Thomas L. Higgins, secretary; G. A. Bunn, treasurer; L. J. Moulder, superintendent. All are experienced men in the manufacture of paper. The average output per day of paper folding box board will be 75 tons, in sheets and rolls.

Crystal Falls—A third wage reduction made by the Steel corporation brings the wages of common labor in mines and mills down to a basic wage of \$3 a day.

The Rapids—This city is to get a new armory. A proposition to bond for \$10,000 carried by the necessary two-thirds vote at a special election. The state will contribute \$35,000.

Kalamazoo—A straight jail sentence of 30 days without alternative of fine, was given to Floyd Hargor, of Augusta, after he pleaded guilty to driving his machine while intoxicated.

Ludington—William Medaco, 18 years old, an Indian, was rescued by Edgar Stuart when a barn burned on the farm of Kennedy Johnson in Custer Township after being struck by lightning. Medaco was sleeping in the barn.

Allegan—Six of the eight survivors of Co. 1, 4th Michigan Cavalry, elected S. F. Murphy, of this city, president at the close of their twenty-sixth annual reunion. The company was in the regiment which captured Jefferson Davis at the close of the Civil War.

Lansing—The state health department has been given complete authority over the health divisions of all state institutions. Dr. H. M. Olin, head of the state department of health, will act in a supervisory capacity over the institutional physicians.

Wheeler—Orbie Darling, a teamster working on the paving construction of the main street of this town killed a rattlesnake in the street. Years ago snakes were common about here in swampy places but this is the first rattler seen in this vicinity for several years.

Kalamazoo—George Winslow, head of the Riverside Monument company, and Miss Sarah M. Howard, 47, a veteran Kalamazoo school teacher, eloped to Chicago, where they were just married. Winslow, who is 70 years old, has long been prominently identified with the politics of the city.

Ann Arbor—A total of 60,897 children and adults took part in activities at Ann Arbor's four municipal parks this summer according to announcement by Supervisor L. W. Olds. This is the largest number to receive the benefits of outdoor playgrounds in the city's history.

Allegan—Gene Marcellus, 73 years old, a farmer who lives alone in a shack six miles west of this city, is still in a serious condition as the result of mistreatment at the hands of robbers. When he told the robbers that all his money was in the bank, they clubbed him.

Lansing—Sheriffs, chiefs of police and prosecuting attorneys of Michigan will meet here Sept. 20-22, when it is expected that some method will be worked out to provide for co-operation between parole officers and county officials to give information about paroled prisoners.

Alpena—The McLouth steamer Seranton, cement carrier, sank beside the dock at the Huron Cement company's plant, while preparing to leave the dock with 15,000 barrels of cement. Investigation revealed a large hole in the hull of the ship, possible caused by its striking a large stone while at dock.

Pontiac—Needy members of the Quick family are provided for in an unusual will filed here for the late John Quick, Sr., who left an estate of \$9,600. He created a trust fund, the income of which will be used for heirs in straitened circumstances. Friends and employees are given life use of a large farm.

Lansing—"The Crusade Lance" is the name of a new Michigan publication issued by the Detroit Tuberculosis Society. The "Lance" is devoted to the interests of the Modern Health Crusade in Detroit and Wayne County. There are already nearly 150,000 pupils enrolled in the modern health crusade in that county.

Alpena—Plans have been formulated by County Agricultural Agent O. O. T. Scheetz for the utilization of picric acid in land clearing operations in this county. The government recently has placed large supplies of this powerful war explosive on the market at low prices. Cooperative purchases are planned.

Iron Mountain—John Rowe, of Norway, who shot and killed Leo Cant, 12 years old, also of Norway, when he caught him and some other boys in his vegetable garden, had his hearing here and was formally charged with murder. Rowe maintained he only shot to frighten the boys. Rowe is an ex-service man and is 27 years old.

Battle Creek—Dr. Edward Rawson, oldest local physician and longest in practice here, died at Nichols hospital, at the age of 84 years. Dr. Rawson was a prominent Chicago surgeon in his younger days, but his property and offices were wiped out by the great fire in 1871. This experience broke his spirit and he never quite "came back." Dr. Rawson never married and since the death of his sister, several years ago, had lived much like a hermit.

Flint—Suggestion that a new national highway be known as the "Townsend" road, in recognition of good roads work by United States Senator Charles E. Townsend, be constructed from Mackinaw City to Mobile, Ala., was made by J. A. Roundtree, director general of the United States Good Roads association, before the Michigan Good Roads association in convention here. The proposal met with applause from delegates and it was said an effort would be made to adopt a resolution favoring the proposed highway.

GUY U. HARDY

Representative Guy U. Hardy of Colorado is a member of a committee to investigate postage rates and costs. He is editor and publisher of the Canyon City Record and the Colorado Press.

FORD HAS \$54,844,538 CASH
Motor Company's Report Shows Total Assets of \$263,368,195.78.

Lansing—The Ford Motor company, according to a statement filed with the department of state last week, had at the close of business, June 30, \$54,844,538 cash on hand and in the bank.

Its plants including land, buildings and improvements were valued at \$46,926,010; machinery and equipment at \$21,133,990, and good will at \$20,517,985. Its total assets were listed at \$263,368,195.78. Property in Michigan was valued at \$133,025,079. Total capital and surplus were given as \$173,951,172 and the amount of capital and surplus allocable to Michigan \$87,861,254.

D. U. R. DIVIDEND IS REFUSED
Company's Statement Inconsistent, Declares Commission's Report.

Lansing—Permission to issue 2 1/2 per cent stock dividend has been denied the Detroit United railway by the Michigan state public utilities commission.

In the report on the application, written by William W. Potter, of the commission, it was declared that the application which was supported by the statement that the company was financially able to pay the dividend was inconsistent with their showing a short time ago when representatives of the company came before the commission asking to be allowed to issue bonds in the sum of \$5,000,000.

MAY NEED MORE BONUS FUNDS
Fuller Thinks \$30,000,000 May Be \$5,000,000 Under Sum Needed.

Lansing—A third special session of the Legislature and a special state election may be necessary before bonus payments to former service men and women can be completed. At a meeting of the Administrative Board, O. B. Fuller, auditor general, declared that the \$30,000,000 authorized by constitutional amendment will be insufficient to pay all of the Michigan veterans. More than \$3,000,000 has already been expended, he said, and only about 40,000 of the estimated 175,000 veterans have been paid. He estimated that a total of probably \$36,000,000 will be required.

BOARD CLEARS PRISON WARDEN

Catlin Victim of "Spite Work" Governor Declares.

Lansing—Warden Catlin of Marquette prison, indicted in connection with the recent investigation of the institution, was exonerated by the state administrative board last week.

The board went on record as believing that the acts charged against Catlin were "acts of charity" rather than infractions of law. Among other counts he was said to have purchased goods at a store conducted by prison inmates.

Considerable "spite work" entered into the affair, Governor Groesbeck declared.

SILESIA'S FATE IN COMMITTEE

League of Nations Commission to Decide Country's Future.

Genova—The commission of four appointed last week by the council of the League of Nations to deal with the question of Silesia met immediately after the adjournment of the council and has begun its work.

Losses Citizenship by Marriage.
Cleveland.—Mayor William S. Fitzgerald, who recently made belated announcement of his marriage 20 months ago to Miss Margaret Chilton Tucker, may be compelled to renounce his ambition to succeed himself as a result, it was stated by legal authorities here. Lawyers pointed out that Ohio statutes provide that the residence of a married man "shall be that place where his wife resides," Mrs. Fitzgerald has never made her home here.

UNUSUAL HAPPENINGS AND OTHER BRIEF NEWS

Detroit Priest Made Monsignor.

Rome.—The pope has appointed Rev. Father James Gregory Doherty, pastor of St. Vincent's parish, Detroit, Michigan, a monsignor of the papal household.

Court Upholds Oil Claims.

Mexico City.—Officials of the Mexican department of commerce and industry have been enjoined by the supreme court from dominating rights to oil lands held by the Texas Co. prior to May 1, 1917.

Looks After Negroes' Interests.

Washington.—Appointment of Dr. J. R. A. Crossland, Negro, of St. Joseph, Missouri, as a "special expert" in the veterans' bureau to look after the interests of Negro soldiers and sailors entitled to benefits under the relief laws, was announced.

New Haven Gets Big Loan.

Washington.—The interstate commerce commission approved a government loan of \$3,000,000 to the New York, New Haven & Hartford railroad. The money is to be used to meet maturing indebtedness and for improvements.

N. Y. Bonus Act Held Illegal.

Albany, N. Y.—The court of appeals, by a vote of five to three, held the state soldier bonus act invalid on the ground that it violated Article VII, section 1, of the state constitution, which prohibits lending the credit of the state for the benefit of any individual, association or corporation.

13,416 Ships Used Panama Canal.

Washington.—During the seven years of commercial operation of the Panama Canal ended Aug. 14 last, 13,416 commercial vessels made the transit through the isthmus, according to the Panama Canal Record. The aggregate tonnage of these vessels was 45,895,942 and their cargo totaled 51,578,920 tons of 2,240 pounds.

Charles' Stay Is Extended.

Berne.—Upon the request of the Spanish government the Swiss government has decided to extend its permission for former Emperor Charles of Austria to remain in Switzerland until October. Under the original permission of the Swiss government the former Austrian monarch was to have left the country by September 1.

Police Nab Naked Woman.

Detroit.—Clad only in a sheet, Margaret Middleton was arrested in a garage at Gratiot avenue and Beaubien street. She fled from her room at a hotel with only the sheet about her and did not stop until she reached the sheltering walls of the garage. Margaret is held for investigation, Police believing she is wanted in Toledo on the charge of peddling "dope."

No Wedding Bells for Dancers.

Chicago.—Art and matrimony will not mix for the Duncan sisters, musical comedy stars, for at least 10 years. The sisters have signed a new contract with Charles Dillingham, New York impresario, which contains a clause forbidding them to marry in the next 10 years. It's a matter of business with the twins. They declare marriage would interfere with their art.

Bergdoll Sub's Body Greeted.

Philadelphia, Pa.—The body of Russell Gross, who was drafted in place of Grover Bergdoll, the slacker, was brought here. Crowds at the railway terminal stood bareheaded as the flag draped coffin was borne away to be taken to his home. Gross was 25 years old, son of Mr. and Mrs. Henry C. Gross of this city. He was killed in action Oct. 26, 1918, after having been in nine battles.

Own Invention Traps Burglar.

Minneapolis.—Des Moines authorities identified the body of a man shot and killed by a patrolman in an attempted robbery as Henry "Hank" Hankins, notorious safe blower. Hankins was the inventor of an electric burglar alarm system that is installed in virtually all Iowa state offices, and manufactured the invention before he went "bad." It was one of his alarms that gave him away to local police.

Accident Mars Honeymoon Trip.

Cleveland, O.—The honeymoon trip of Mr. and Mrs. Edwin C. Simpson, each 22 years of age, of Cleveland, was ended abruptly when their automobile was demolished by a southbound Cleveland Southwestern interurban near Chippewa lake. Mrs. Simpson was killed instantly and her husband died a few minutes later. They were married August 2 and were touring the state on their honeymoon.

Blitz Conductor After Argument.

Pittsburgh.—Miss Inez Hatch, 40, of Toledo, O., created much commotion on a cross town car. When the conductor refused to give her a transfer before she paid her fare she sank her teeth right into the conductor's arm. Loud guffaws from the men and giggles from the women passengers greeted Miss Hatch's action. The conductor locked the door until a patrol wagon came and took the woman to police headquarters where she is held on a technical charge.

GRIEF IS CAUSE OF GIRL'S SUICIDE

UNABLE TO WED COUSIN, AND MOURNING LOSS OF MOTHER, FATAL SHOT FIRED.

HAPPINESS IS ENDED FOR HER

"There Was Nothing More for Which I Might Live," She Tells Sister After Shot.

Detroit.—Separated by fate from two whom she "loved more than any one else in the world"—her mother and her sweetheart—Miss Barr Roberts, 18 years old, of River Rouge, committed suicide by shooting herself above the heart.

Only a few hours before she had pressed the barrel of her brother-in-law's army revolver to her breast, she and Roy Fortner, her sweetheart, had agreed they must not love. They were first cousins.

Through the night Miss Roberts studied over this decision, and at 7:30 o'clock in the morning, as she sat in her nightgown on her bed, she shot herself.

"There was nothing more for which I might live," she told her sister, Mrs. Jesse Baker, when the latter hurried to the room. Mrs. Baker had been in the basement of their home when she heard the shot. She believed she said, that intruders had fired.

The girl was conscious when they found her. Stretched across her bed, she begged to be allowed to die. "With mother and Roy taken from me, I cannot bear to live," she is quoted as saying.

She died in Delray industrial hospital two hours later. Before her death she gave a statement to Walter Hancock, of the River Rouge police department.

She told how she had come here two years ago, from North Carolina, and her mother, and of the happiness they had known in their little home in River Rouge. She sobbed heartbrokenly when she told of her mother's death.

Then she told of the romance shattered by the kinship of her sweetheart. For two years, she said, she had loved Roy Fortner, and he had loved her.

Then came a day when Fortner believed he must look facts squarely in the face. He told her they must not be sweethearts longer; that they could not marry, because of their relationship.

Fortner was grief-stricken when he learned of the act of Barr. He told police he had done only what he thought was right, that he had tried to explain to her, to tell her of the bright future ahead of her.

Miss Roberts made her home, after the death of her mother, with her sister, Mrs. Jesse Baker, of 135 South Dearborn street, River Rouge.

SECOND WARRANT FOR HAAN

Lawmaker Fails to Return to Face Charges, As Agreed.

Grand Rapids.—For the second time in his difficulties here, the bond of State Representative William A. Haan has been forfeited and a bench warrant has been issued for his arrest. This action was taken Sept. 1 by Police Judge Frank A. Hess. Similar action was taken the week previous in justice court when Haan failed to appear for examination. Haan, who had been taken to Detroit to answer to charges of obtaining money under false pretenses, was to have returned here last week.

OBREGON HITS PACT WITH U. S.

Says Treaty Impossible, Unnecessary and Is Not Wanted.

Mexico City.—The signing of a treaty with the United States is "neither possible, convenient nor necessary, and is contrary to Mexican constitutional precepts, in that it creates special privileges for Americans," according to that portion of President Obregon's message to congress dealing with foreign relations, which was read in the house.

\$520,000 DAILY SALVAGE SALE

Army Disposes of 60,000 Surplus Blankets at \$141,000.

Washington.—Army salvage sales have averaged \$520,000 per day since January 1, according to the director of sales. In a sale at New York recently \$141,000 was received for 60,000 surplus blankets. In all 300,000 surplus blankets are to be disposed of by the army.

Trolley Trouble in N. Y., Too.

New York.—Commissioner of Accounts Herchfield denied that he immediately would begin an inquiry into the motives behind the two applications for a receiver for the Interborough Rapid Transit company. He said he had examined a witness who testified that the strike of Interborough employees in 1919 was ordered by officials of the company as a weapon to force Mayor Hylan to allow a fare above five cents on the subway, elevated and surface lines.

Secretarial School: First of Its Kind

W.D. SCOTT

UNIVERSITY HALL AND HARRIS HALL

NATIONAL School for Commercial Secretaries, under the auspices of the Chamber of Commerce of the United States, the National Association of Secretaries and Administrators, and the National Association of Secretaries and Administrators, is now in session at University Hall and Harris Hall.

Isn't there something new under the sun, in spite of the proverb? Anyway, that is the sort of school that has been going on at Evanston, Ill., right in the vacation days of summer.

Moreover, this National Secretarial school is believed to be a project of far-reaching importance in the business and civic life of the country. John Hilder, manager of the civic development department of the Chamber of Commerce of the United States, speaking for himself and for President Joseph H. DeLoe, puts the situation like this:

"The American business man today stands in a position of greater responsibility and greater opportunity than ever before in our history, for we are becoming predominantly an urban and a business nation. His responsibility cannot be discharged, his opportunity met by individuals acting separately—they must organize. The character and purpose of the business man's organizations therefore are of first importance to the nation. Not only must they be public-spirited and propose to serve constantly and definitely the common interests of their community, but in order that they may so serve they must know that good intentions alone never produce results.

"The effectiveness of a commercial or trade association depends in large measure on the secretary. As he increases in knowledge and understanding, not only of his own business technique and of his local field, but of the general principles that underlie and affect all business and civic interests, he will become increasingly valuable to his organization and to American business generally.

"The National School for Commercial Secretaries will give to these men in a short time what it would take years for them to learn individually, and will in addition give them a sense of their common problems and responsibilities which can be secured only by a group of men representing many communities studying their problems impersonally and under able leadership.

President R. B. Bench of the National Association of Commercial Organization Secretaries sees in the attendance of nearly 200 a real demand and a real field of service for the training course. He says:

"It will create a sound, practical basis for chamber of commerce service as a result of which the chambers of commerce of this country may expect the highest efficiency and competency in business administration and in the execution of their varied activities."

President Walter Dill Scott of Northwestern University is a man of many parts. He is a graduate of Northwestern (A. B., 1895) and of McCormick Theological Seminary (1898). He is a Ph. D. (Leipzig, 1900). Probably he is best known as a psychologist.

He was a colonel, U. S. A., 1917-9, and was awarded D. S. M. for "distinguishing himself and supervising the personnel system in the U. S. army." He is primarily interested

Ostracism.

At one period in the history of ancient Greece the people of Athens possessed the power of removing from the state, without making a definite charge, any leader of the people likely to overthrow the government. This was so abused that in time it became the right to drive into exile any person who had become unpopular without much regard to the cause of his loss of popularity. The decision was

JOSEPH H. DELOE

in the benefit the country will receive through the increased efficiency of the secretaries. He says:

"The students at our summer school session for commercial secretaries are mature men of unusual ability and leaders in their communities. The effect of the summer school on these men will be to strengthen their faith in the modern, practical, scientific method of dealing with their problems and to strengthen them in their faith in the necessity of analyzing all local problems in terms of wider experience.

"I am particularly interested in this session of the summer school, not primarily for what those who attend will receive, but for the added service they will be able to render their communities upon their return. In this period of reconstruction and readjustment, our progress is dependent upon our application of science and our profiting by experience wherever available. I feel, therefore, that this school will be of inestimable value because of the increased value these secretaries will be able to render their communities."

This secretarial school is, in brief, an intensive course of two weeks in secretarial problems and methods. That there is need of this school is shown by the registration of the first year, which surprised even the officials of the three organizations back of it. This registration of 200 men was representative of every section of the United States, including Hawaii. Canada sent its quota and Cuba was represented. Several women attended.

While most of those in attendance were registered as secretaries of chambers of commerce, the list shows others in considerable variety.

The study was of two kinds, fundamental and technical. The instructors in the former were educators of national prominence and in the latter leading authorities in the secretarial ranks. Harris Hall was used as a classroom. Two hours a day was devoted to fundamentals and three and a half hours to technical subjects. Munson Havens, secretary of the Cleveland Chamber of Commerce, lectured on "The Secretary, His Relation to the Varied Forms of Service, What Is Expected of Him and What He Should Expect of Himself."

The technical studies and the groups of secretaries who directed the study of them are:

Organization (What It Is), J. A. McKibben, general secretary, Boston Chamber of Commerce, assisted by John Wood, secretary, Ronoke (Va.) Chamber of Commerce, and Colin H. Brown, chief organization service bureau, civic department, United States Chamber of Commerce.

Program (What to Do), George E. Foss, general secretary, Pennsylvania State Chamber of Commerce, assisted by Robert B. Bench, business manager, Chicago Association of Commerce, and John E. Northway, secretary of the Hamilton (O.) Chamber of Commerce.

Meetings (How It Is Done), John M. Guild, general secretary, Kansas City (Mo.) Chamber of Commerce, assisted by J. S. Cady, secretary, Minneapolis Civic and Commerce Association, and J. T. Daniels, secretary of the Columbus (O.) Chamber of Commerce.

BY THE LAKE

Membership, C. F. Holland, secretary, Jackson (Mich.) Chamber of Commerce, assisted by Paul V. Bunn, general secretary, St. Louis Chamber of Commerce, and Roy S. Smith, secretary, Albany (N. Y.) Chamber of Commerce.

Finance, J. D. Larson, commissioner, Omaha Chamber of Commerce, assisted by Arthur J. Dodge, business manager, Denver Civic and Commercial Association.

Publicity, Ralph H. Faxon, general secretary, Des Moines Chamber of Commerce, assisted by F. Roger Miller, secretary, Mason (Ga.) Chamber of Commerce, and Merle Thorpe, editor of The Nation's Business.

Office Organization, S. C. Mead, secretary, Merchants' Association, New York, assisted by G. W. Lemon, secretary, Troy (N. Y.) Chamber of Commerce, and F. D. E. Babcock, general secretary, Worcester (Mass.) Chamber of Commerce.

Specific Departmental Activities: 1. Commercial, Lee H. Blier, secretary, Grand Rapids (Mich.) Association of Commerce, assisted by John B. Reynolds, general secretary, Indianapolis Chamber of Commerce, and Warren R. Jackson, secretary, Harrisburg (Pa.) Chamber of Commerce.

2. Industrial, Walker Parker, general manager, New Orleans Association of Commerce, assisted by Emmett Hay Naylor, secretary, Writing Paper Manufacturers' Association, New York, and W. S. Mulliner, secretary, Wilkes-Barre (Pa.) Board of Trade.

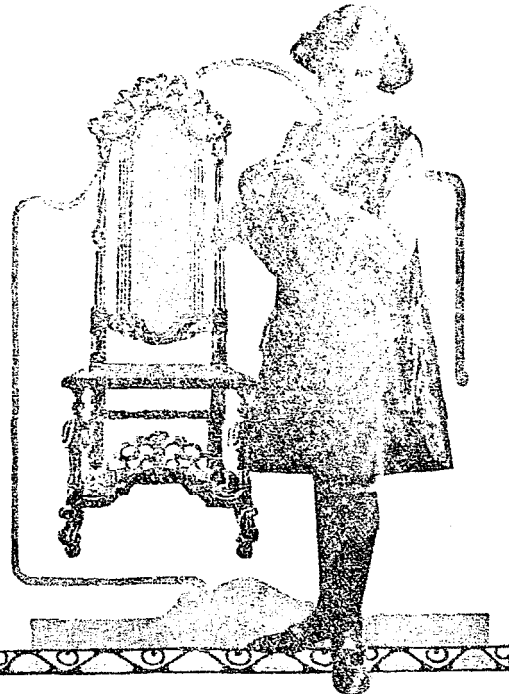

3. Civic, Roland B. Woodward, secretary, Rochester Chamber of Commerce, assisted by Harry Welch, Phoenix Chamber of Commerce, and John Hilder, manager, civic development department, United States Chamber of Commerce.

4. Research, John M. Redpath, manager research department, United States Chamber of Commerce, assisted by Don E. Mowry, secretary, Madison (Wis.) Chamber of Commerce, and Joseph E. Calne, secretary, Oakland (Cal.) Chamber of Commerce.

5. Research, John M. Redpath, manager research department, United States Chamber of Commerce, assisted by Don E. Mowry, secretary, Madison (Wis.) Chamber of Commerce, and Joseph E. Calne, secretary, Oakland (Cal.) Chamber of Commerce.

first. Hatters' guilds began to appear in England, and apprentices were taught the art of making felt hats and decorating them. Nine cents a day was then a hatter's wages. In the sixteenth century the first hat stores began to do business and hats, therefore as widely decorated as poetic fancy, began to be standardized. In other words—style began to rule. By 1600 styles were very much in evidence, but were very changeable. Shakespeare's plays speak of varied types of hats then worn.

EVEN FOR LITTLE WOMEN FASHION APPROVES BLACK

NOW that mothers are busy getting their young daughters outfitted for fall, along comes some new things in dress-up clothes that are sure to please their youthful wearers. There is much joy in a new frock, but it is at least doubled when this frock follows the lead of grown-ups, and appropriates a fad of theirs for its own. This is what has happened—even the tiniest little girl is quite likely to find herself clad in a black dress or coat when she is particularly dressed up this fall, for fashion has decreed that black shall be shared with the children.

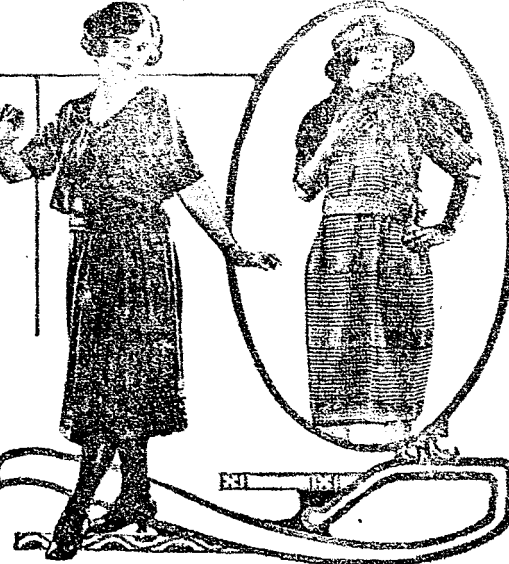

A good many dresses for girls from seven to fourteen—or thereabout—are made with bodies of black taffeta and skirts in plaids that embody black with colors. Decorations on the waists of feather stitching, French knots or other stitchery are done in the color predominating in the skirt, and the waists and skirts are joined under several clever belt and sash or giraffe arrangements.

The frock shown in the picture dis-

penses with a waistline, being made in the slip-over style, of black taffeta. It has the flaring skirt lines approved in children's frocks, and is worn over a blouse of black and white checked taffeta. Frills of the check finish the neck of the slip and the sleeves of the blouse. Black and white silk cords suspended from small ornaments and finished with tassels are tied in hanging loops and ends at each side.

Black, or dark blue, with ornamentation in bright red, appeals to designers of school dresses; the red introduced in simple needlework, narrow braids or narrow grosgrain ribbon, and not much of any of these used. A lighter blue on navy or other dark blues is a favored color combination. In these frocks lines remain straight or flaring, like those in the dress pictured, whether they are cut with bodice and skirt or in one piece. On dressy frocks narrow bands of krummer fur, headed by embroidery, make a handsome decoration.

BOTH STYLE AND COMFORT IN AUTUMN SCHOOL FROCKS

FOR young women in school, frocks must be comfortable and practical; but these two requisites must put themselves in the company of smart style, or the younger set won't be able to see them at all. It amounts to almost a tragedy in the life of a flapper when she finds herself compelled to wear clothes that are merely sensible, although some of the best schools condemn her to a uniform. Either she discovers that the uniform has a style of its own, or the school undertakes to keep her so busy that she forgets it, and thus the bitterness departs from her days.

But specialists, whose business is the clothing of youth, have succeeded in introducing all sorts of captivating touches on frocks for both the younger and older school girls. Two models, that are sure to please the college girl, combine style with comfort in simple dresses that will meet the approval of even the most critical of elders. One of them as shown above is a wool frock in shepherd's plaid, on which yarn has been cleverly employed for bandings about the skirt and on the belt. It is put on in the simplest stitches and the loose belt fastens under a smart big buckle. Yarn in other varieties of stitchery and in fringes is destined to play an important part in clothes for young people. Worn

with a moilish felt hat and with a scarf—especially one of fur—this frock might provoke the envy of many an older sister.

An indoor dress, shown at the left, is less definitely youthful, especially as it is developed in crepe, de chine. But it is innocent of ornament except for a group of tucks about the bottom of the skirt. They are interrupted at each side by a straight panel. A band of plain, solid embroidery about the neck and part way down the front is supplemented by a few crochet buttons at each side of the front. The soft grille is made of the same material as the dress. This is a very adaptable dress and a versatile and resourceful girl will make much of it, for it can be much furnished up with pretty accessories.

When Filling Cake Pans.
When filling cake pans let the mixture come well to the sides of the pan, leaving a slight depression in the center. The cake will then be level when baked.

MOTOR-BUNGALOW PUTS REAL JOY IN TOURS AND CAMP LIFE

The motor-bungalow is being widely used by society folk for beach parties, week ends to the mountains and country, and for transcontinental tours. The motor-bungalow shown in the photograph is the folding type, containing two full-sized beds, with springs and mattresses, kitchenette, ice box, water tank, supply and clothes closets.

It accommodates four adults, with room for children, chairs and other camp supplies. It can be attached as a trailer behind any automobile.

MOIST COLD AIR ASSISTS ENGINE

Hot Dry Air Causes Frequent
Skipping and Loss of Power
During Season.

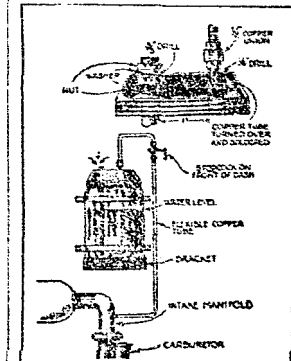

HUMIDIFIER IS EASILY MADE

Mason Preserving Jar of Quart Size
Placed on Back of Dash Underneath Hood Will Supply
Moisture Needed.

Almost every man who owns or has run an automobile has noticed that his engine actually runs better in the very early morning or late at night, just after the dew has fallen. This is due to the amount of moisture in the air. Why contend with the frequent skipping of the engine and the loss of power due to the hot dry air of a summer day, when with a few hours' time and a little expense you can manufacture an apparatus which will give you the moist cold air that gives life to your engine?

Preserving Jar Is Useful.
A mason preserving jar of the quart size should be mounted on the back of the dash underneath the hood of the engine. This may be done by the use of an oil-can holder for a shelf and a couple of band iron straps to hold the glass jar in place. In the metal top, about one inch apart, drill two holes, one with a quarter-inch drill and one with a three-eighths-inch drill.

Solder into the quarter-inch hole a small nipple having on its end a small

Iron Straps Fasten the Humidifier to the Dash Beneath the Hood—A Copper Pipe Runs From It to the Carburetor.

union joint such as is used with flexible copper tubing.

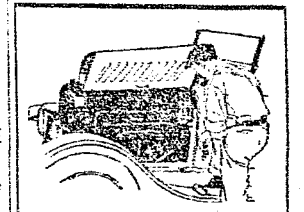

A piece of one-eighth-inch brass or iron pipe one-half inch shorter than the height of the jar should be threaded at one end for about three-eighths of an inch. On this thread place one nut and one washer and thread through the cover of the jar, placing another washer and nut on the outside, tightening the two nuts until the cover is held tight, and when mounted on the jar allows the pipe to extend downward to within one-half inch from the bottom.

A one-eighth-inch copper tubing extends from the nipple soldered in the jar-top through the dashboard to a stopcock, and continues on back through the dash, and is tapped into the intake manifold just above the carburetor.

The jar is then filled to about three-quarters of its height with water, by opening the stopcock so the air may escape, and pouring the water down the tube in the top.

Engine Sucks Air.
When the engine is running, open the stopcock on the dash, which is within reach of the operator, and the engine will suck the air from the top of the water in the jar, this tending to cause a vacuum, and air will conse-

quently enter the pipe and be delivered at the bottom of the water. As the air bubbles up through the water it is not only cooled but is saturated with moisture. This moist air passes into the intake manifold and gives the

This Shows the Complete Device as It Appears When Mounted.

same result as if the car were driven at night along the side of a river. A bit of shellac applied with a tiny brush will help to make the joints airtight.

As the water evaporates the jar may be again refilled by pouring water down the air inlet tube. No water will enter, however, unless the stopcock on the dash is open to allow the enclosed air to escape.—Popular Science Monthly.

Tire Economics.

Keep your tires properly inflated at all times.

Be sure to repair the little cuts regularly.

Prevent blowouts by avoiding severe jolts and by maintaining full pressure.

Have the mud holes cleaned out and repacked at once.

Be careful when inserting tubes.

Avoid sudden stops, quick starts and skidding.

Keep the front wheels in alignment.

Use tube in the casing, but don't use too much.

Avoid ruts and save the side walls.

Apply chains properly and use them only when necessary.

AUTOMOBILE NEWS

Canada imported 2,265 automobiles from the United States in 1920, as compared with 1,730 in 1919.

Throughout the United States there are 184,000 automobile dealers, charging stations, garages and repair shops.

As much money is spent annually in the United States for tires as is spent for the maintenance and construction of roads.

Roping steers from automobiles is now applied on ranches at Marfa, Tex. The car has taken the place of the splitbred broncho.

Automobiles and other vehicular accident attain their maximum percentage of fatalities among children from five to nine years of age.

The annual expenditures for automobile transportation in the United States is \$8,167,830,000, or an average cost per mile of 12.91 cents.

The Department of Labor figures show that the automobile industry employed 322 per cent more in the month of March than in February.

Motoring enthusiasts in Leamington, England, have organized a motor caravan club. The new club has a large assembly of caravans and trailers.

The 45-horsepower Daimler used by General Pershing when commanding the American expeditionary forces, was recently advertised for sale in France.

DAREDEVIL AIR STUNTS

GLORIE AT STATE FAIR

The world famous aviator, Al Wilson, the Jersey Knight Aerial Circus, and "The Rivals", balloonists and parachute jumpers, will join in far-dashing stunts at the State Fair in Detroit, Sept. 2 to 11, with thrills that will hold them breathless.

The airplane stunt will include looping the loop, while standing upright on top of the plane, walking on wings of the plane while in flight, changing from plane to plane in mid-air, racing with motor cars around the mile track, picking up passengers from motor cars by airplane, parachute jumps from airplanes and numerous other death-defying acts that require both consummate skill in the handling of the air craft and intrepidity as well as nerves of steel on the part of the stunt artists.

Another spectacular airplane stunt that is as beautiful as well as thrilling is night flying with fireworks. This will feature the evening programs at the fair grounds.

Balloon ascensions, always of intense interest, will be featured this year by "The Rivals" special act, a triple parachute jump from a balloon more than a mile up in the air. If you like thrills, you'll get them in heap- ing measures at the state fair.

Quite Ready.

The case of Caliban vs. Ophelia was called for trial in a municipal court of a western city. A big Irishman arose and shouted, "Ready for the defendant?"

"Where's the defendant?" asked the court.

"In the plaintiff," said the Celt.

"Then why do you answer Ready for the defendant?"

"Because, your honor," said Caliban, "I am ready for the defendant. If he shows up I'll knock his head off!"

Talcum Powder Killed Baby.

The ten-month-old daughter of a Middletown (N. Y.) couple is dead from a fatal powder in her throat. While at the home of her grandmother, at Roxbury, the child filled its mouth with talcum powder from a box she was playing with. Some of the powder lodged in her bronchial tubes, and, owing to a slight throat trouble with which she suffered, the irritation caused by the powder could not be overcome.

Calf Queerly Misformed.

A calf was born in Nova Scotia recently with its eyeballs side by side, having no skin between them. A short calf, about two inches long, growing out of the middle of the forehead, hung down over the eyes. For the upper jaw it had only skin hanging down to its lower jaw. The nostrils were missing and the ears were round. The calf lived only a short time.

NECESSITY VS. LAW

"Necessity knows no law."
"He'd be right at home among the practitioners in my court," said the old Judge.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circular free. F. J. Cheney & Co., Toledo, Ohio.

L. B. Lawrence & Sons are exhibiting six head of VonHonyers Rambouillet sheep at the State Fair. They were taken into the city by motor truck Saturday night.

A Grateful Letter.

It is in trying conditions like that related below by Mrs. Geo. L. North of Naples, N. Y., that proves the worth of Chamberlain's Colic and Diarrhoea Remedy. "Two years ago last summer" she says "our little boy had dysentery. At that time we were living in the country eight miles from a doctor. Our son was taken ill suddenly and was about the sickest child I ever saw. He was in terrible pain all the time and passed from one convulsion into another. I sent my husband for the doctor and after he was gone thought of a bottle of Chamberlain's Colic and Diarrhoea Remedy in the cupboard. I gave him some of it and he began to improve at once. By the time the doctor arrived he was out of danger." Adv.
