It's Time to Brighten Up

That Piece of Furniture—Those Floors—That Linoleum

The Waterproof Varnish

Positively will not turn white when hot or cold water or other liquids are splashed upon it—it's water-proof.

Dries quickly in practically any weather or temperature—dust-free in two hours and hard in 24 hours.

Dries very hard. It becomes hard enough in 24 hours to handle, and when hard is exceedingly tough, and therefore not easily marred.

Will not chip, crack, peel, or scratch white.

Will stand washing with soap and warm water without injury.

It is the most resistant to the action of hot water, alkalis, acids, oils, etc., making it invaluable for use on drip-boards, around wash-tubs, basins, bath-tubs and in all wet places.

Do not accept something "just as good"

CHELSEA GREENHOUSE

An Accurate Corn Planter Is One of Your Best Friends

There is a big difference between the yield of crops planted with an inaccurate planter and one that is accurate. You use the same amount of seed—but the difference in the crop often amounts to as much as five, six or seven—yes, and more bushels per acre.

JOHN DEERE No. 999 CORN PLANTER

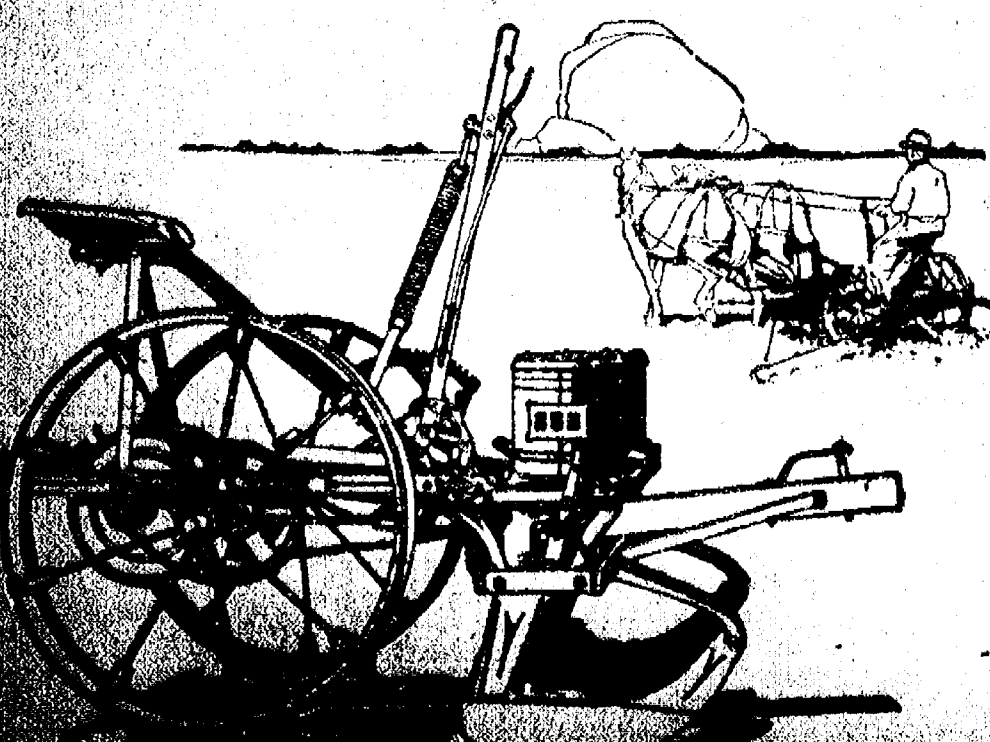

Here is a point we want you to think over: If a planter misses only fifteen kernels in every 100 hills, there is a loss of five bushels per acre in the yield. The accurate planter avoids that loss—it proves to be one of your best friends because it does faithful work and saves your money.

We want to show you the John Deere No. 999 Corn

Planter—a planter that has built a first-class reputation because of its accuracy. It is just as accurate as the human hand. You can plant two, three or four kernels without changing seed plates or stopping the team. You can change from hilling to drilling instantly. You get nine different drilling distances without changing the plates.

We will be glad to have you call and see why this planter has been termed the accurate planter. Putting it into your field this year may save you a lot of money when you gather your crop. Let us show it to you at any rate. We'll be glad to see you, even though you aren't ready to buy now.

HOLMES & WALKER

NEW INDUSTRY MAY MOVE TO CHELSEA

From present indications, the Guy Disc Valve Motor Corporation, incorporated under the laws of Delaware for \$2,000,000, will locate in Chelsea within a few days and will give employment to about 100 men.

The company will locate in building No. 8 of the Lewis Spring & Axle Co.'s plant. The third floor will be used as the paint department, the second floor will be devoted to the body plant and will give employment to a number of metal and wood workers. The first floor will be the chassis and machine shop. The output of the plant will be taxi cabs for New York and Chicago companies.

The present outlook is unusually good and if there is no hitch in the program, the company will probably commence installing their machinery the coming week, which will probably mean employment for a number of the men who formerly worked in the factory here.

Conference Was a Success.

The District Conference of the Epworth League held at the Methodist church Friday and Saturday of last week was a decided success. Every speaker was on hand for his part of the program and each feature was ably presented.

The reports showed the League to be having a nice growth and increasingly active in its departmental work. Plans were discussed and formulated for sending a full delegation from each chapter to the Epworth League Institute to be held in Albion this summer, where 1200 young people will meet to study League methods and work.

Mr. T. O. Huckle was re-elected president and Mr. Evert Benton, of Chelsea, was re-elected 3rd vice president. Pontiac central chapter extended an invitation for the next conference, which was graciously received.

Resolutions were passed, thanking the people of Chelsea for their splendid hospitality. The local chapter also wishes to thank those who so kindly assisted in the entertainment.

Parent-Teacher Association.

The meeting of the Parent-Teacher Association held in the Chelsea high school building Monday evening was unusually well attended by the parents of the pupils and the faculty of the school. A very interesting program was rendered, which was as follows:

Mother Goose Play—By the pupils of the 3rd and 4th grades. This play was rendered in the chapel exercises of the school at the opening Monday morning.

Saxophone solo—Audrey Harris.
Vocal solo—Vern Evans.
Reading—Doris Foster.
Saxophone solo—Earl Updike.
Song—J. I. DeLong.
A Ditty or Two—Steiner and Foster.

Reading—Winnie Gardner.
Vocal solo—Paul Niehaus.
Violin solo—Henry Isham.
Stunts—Messrs. Beatty, Carnes and Krause. Each of the gentlemen carried out their part of the program in a highly pleasing manner.

Building Burned.

The fire department was called out about 11 o'clock Saturday night by a blaze in the wooden shed on the property known as the Chelsea House barn, and recently purchased by L. G. Palmer. The building was used by Mr. Palmer as a storage for empty oil barrels and gasoline tanks and the blaze appears to have started on the interior of the building, which was entirely destroyed. The contents, about 30 barrels and tanks, are also a total loss. The cause of the blaze is unknown. The heat from the blaze melted about 10 feet of the lead cable of the telephone company, and several of the phones on the line were put out of commission.

New Business Firm.

E. J. Claire & Son, of Ann Arbor, have opened up an electrical accessories and authorized Willard battery service station in the store building on North Main street formerly occupied by E. F. Klump. The station will be in charge of O. J. Claire, one of the owners of the station. Besides the battery service, the firm will carry a full line of electrical supplies that are used by automobile owners. The firm is making a number of changes in the interior of the store which when completed will be well adapted to the needs of their business.

Anniversary Services.

The Odd Fellow and Rebekah Lodges of this place attended services in the Methodist church last Sunday morning, going from their lodge rooms in a body and a section of the church auditorium was reserved for them. The occasion was the 103rd anniversary of the order. Rev. H. R. Beatty, delivered a sermon well fitted to the event, and the church choir rendered a fine musical program.

FAVORS PAVING OF SOUTH MAIN STREET

State Highway Commissioner Rogers Met With Chelsea Business Men Saturday and Discussed Plans For The Pavement.

State Highway Commissioner Frank Rogers, of Lansing, Ernest G. Willem, of Ann Arbor, district engineer of the State Highway Department, County Engineer Bailey and County Road Commissioners McCalla and Luick, the Sylvan supervisor, the village president, members of the common council, the highway committee of the Board of Commerce and residents of this place, attended a meeting at 11 o'clock Saturday forenoon in the American Legion rooms, at which time the matter of extending the pavement from the D. U. R. track to M17, territorial trunk line road, was discussed.

Mr. Rogers stated that he was in favor of the street being paved. He said that a driveway 20 feet in width would be what the highway department would build and the road would be built under the Covert Act. The State would, under this Act, pay 75 per cent of the cost, Washtenaw County 12½ per cent, and the remainder of the 12½ per cent would be paid by Sylvan township at large, Chelsea and the abutting property owners.

Of the proposed paved way, the extension from the D. U. R. track to Pierce street Mr. Rogers stated would be 30 feet in width, with curbs along the lot lines and the cost for the extra five feet on either side of the 20-foot paved way would have to be paid for by the adjoining property owners.

In order to have the proposed work done, Mr. Rogers stated that a new petition would have to be prepared and that 60 per cent of the taxpayers who own lands abutting on the street would have to sign the petition, and that where there was a joint ownership of the property the signatures of all interested in the lands would have to be attached to the petition. From the south side of Pierce street the driveway as proposed would be but 20 feet in width and the burden of building the roadway would be far less for the property owners than where the 30 foot strip will be built as at present laid out.

Mr. Rogers said that he would have District Engineer Willem and County Engineer Bailey prepare the necessary Covert Act petition, and give an estimate of the cost of the work, which would be sent to the proper authorities here for circulation. He further stated that until the amount the county owes the state is paid, no roadwork would be done in the county except what has been contracted for, and now under way. That the proposed roadway would have to be sanctioned by the village council and that the State would be able to handle the financial end of the work, from the sale of bonds. That the work could be started in August but that a hearing would be held before any contracts were awarded so that all who own property along the road could be heard for and against the proposed improvement.

A special meeting of the County Board of Supervisors will probably be held some time this month when arrangements will be made to transfer the necessary funds to the state.

At the Saturday meeting County Engineer Bailey stated that the County Road Commissioners were having a sign built to be placed at the intersection of South Main street and the territorial road, which would be ready in about two weeks. He further stated that the village would have to supply the electricity to illuminate it, and the common council will, without a doubt, furnish the electric current.

CHELSEA COMMON COUNCIL CONSIDERING WATER RATES

The Chelsea common council at their meeting Monday evening accepted the resignation of L. P. Vogel as a member of the Electric Light and Water Works Commission, and Howard S. Holmes was appointed to fill the vacancy. Geo. W. Beekwith was appointed to succeed himself.

The trustees at this meeting decided that at their next meeting to act on the matter of leaving the present minimum water rate of 50 cents per month and all over that at a reduction that would not make the rate higher than formerly and by which means the residents would be able to use their garden hose to keep the streets wet down and their water rate would be no higher.

This reduction will result in a saving of \$1000 per year to the taxpayers by doing away with the chloride calcium that cost \$1400 per season and would also improve the water as a fresh supply would be in the water mains at all times. It is to be hoped that the change will be made by the council.

C. G. SPRING COMPANY OPERATING PLANT HERE

The Lewis Spring & Axle Co. spring shop department has been taken over by the C. G. Spring Co., whose principle offices and shops are located in Kalamazoo, and the Chelsea branch is one of several other plants that are operated by this company. The Kalamazoo plant at present is being operated 24 hours per day and they are flooded with orders. Their plant is one of the oldest in the country.

The Chelsea branch is in charge of Mr. O. Douth, who has been with the company for several years. He has a number of Chelsea residents at work getting the shops in shape and the plant will be in full operation in a few days. Workmen will be added to the present force as soon as possible.

All arrangements for the necessary electric power, lights, heat and water are nearly completed. The Standard will be able to enter into full details in its issue next week.

School Notes.

Frank Hughes, of Detroit, visited school Monday.

The Juniors are getting ready for their Junior Reception.

On Tuesday, May 2, the Chelsea High baseball team played the St. Mary team. The score was 7 to 7.

The Seniors are going to hold a bake sale, Saturday, May 6, at 2 o'clock, at Klingler's Meat Market. Mildred Bradbury was taken to St. Joseph hospital in Ann Arbor Sunday, to have an operation for appendicitis.

The class of 1922 will give a 3-act drama, entitled "Anne of Old Salem," in the near future, the date to be announced later.

Wednesday, April 26, the baseball team of Chelsea High played St. Mary team. The score was 7 to 3 in favor of Chelsea High.

The boys are having base ball practice Tuesday and Friday, and track practice on Monday, Wednesday and Thursday. We have hopes of each being a winning team.

Following is the honor roll for the month of April:

Primary—Catherine Bair, Roger Hinderer, Donald Oesterle, Harriett Belser.

First Grade—Erma Dettling, Frances Fauser, Jennie Scripter, Lisette Widmayer, Lea Weiss, Max Young, Margaret Goetz.

Second Grade—Anna Schneider, Carl Schneider, Eunice Jane Gulde, Mildred Youngs, Donald Adams, Nelson Samp.

Third Grade—Frances Kantlehner, Karl Vogel, Mary Jean Winans, Margaret Heselschwerdt, Clarence Hagadon, Evelyn McManus, Rollin Wilson.

Fourth Grade—Loretta Bahnmiller, Jack Becker, Enid Freeman, Bernadine Moore, Jean Turnbull, Audrey Parrish.

Fifth Grade—Thelma Bahnmiller, Janette Naekel, Dorothea Steiner, Gertrude Young, Raymond Dancer, LaVerne Fauser, Lester Johnson, Claude Rogers, Lawton Steger, Frederick Steiner.

Sixth Grade—Fannie Geisman, Oleta Seitz, Ruth Vogel, Mildred White, Katherine Nicolai, Dolores Goshel, Ruth Freeman.

Seventh Grade—Dean Rogers, Gertrude Weinburg, Arnold Steger, Roland Widmayer, Paul Axtell.

Eighth Grade—Helen Dancer, Helen Lowry, Dorothy Weinman, Dorothy Cavanaugh, Clara Laverock, Anna Mayer, Marguerite Widmayer, Wilhelmina Nicolai, Edith Trolley, Celesta Alber, Howard Faber.

High school honor roll—

5 A—Ruth Dancer.

2 A and 2 B—Dora Chandler, John King, Anne Rogers, Dorothy Dancer.

1 A and 3 B—Vera Harvey, Helen Lambert, Lillian Hathaway, Emily Weinman, Gorton Reithmiller, Florence Schmidt.

1 A and 2 B—Ettie Bowdish, Dorothy Heselschwerdt, Blanche Winkner, Gertrude Eppler, Lucile Broesamle, Gladys Forner.

4 B—Audrey Harris, Florence Turnbull, Oleta Hutzal, Herbert Huehl, Irene Sager, Marie Sager.

Appointed Local Chairman.

Thomas R. Peirsol, of Ann Arbor, chairman of the Washtenaw County Citizens' Military Training Camp, was in Chelsea Wednesday, and appointed E. P. Steiner local chairman of the organization. Last year a number of the young boys from this community made application to go to the camp but for some reason their applications were not acted on. This year the local chairman has assurance that the boys who apply will be allowed to attend the training camp. The camp will be held in August at Camp Custer, Battle Creek.

Card of Thanks.

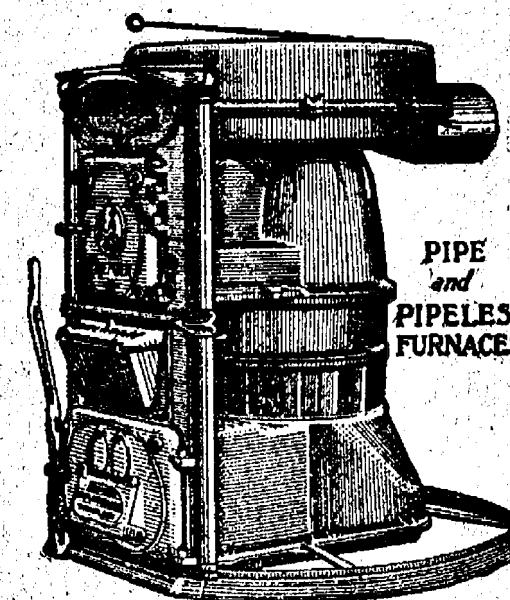

We wish to thank our many friends and neighbors for the kindness and sympathy and flowers rendered during the death of our father. Also Rev. Carnes for the kind words and services. Mr. and Mrs. Herbert Young, Mrs. Ruth Wright and family.

For Handsome Cars

EVERY MOTORIST who is proud of the appearance of his car will be interested in Corduroy Cords.

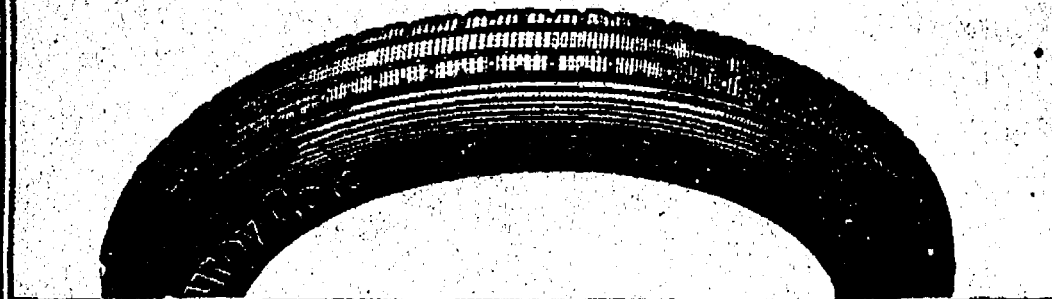

An exceptionally smart and distinctive appearance is given to the tire by the eight graduated corrugations on the sidewall.

At the same time, these corrugations constitute the strongest possible resistance to sidewall wear—that disagreeable condition for which there was no preventative until the advent of Corduroy Cords.

Corduroy Cords are thus doubly attractive—they look well and wear well.

That's what you want in a tire, isn't it? Then be sure to see the Corduroy Cord dealer before buying your next tires.

Grand Rapids Tire & Rubber Corporation
Grand Rapids Michigan

WESTERN CANADA Land of Prosperity

offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by bountiful crops. There is still available on easy terms

Fertile Land at \$15 to \$30 an Acre

Land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying

are sources of income second only to grain growing and stock raising. Attractive of mates, good neighbors, churches, schools, good markets, railroad facilities, rural telephone, etc.

For illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan, Alberta and British Columbia, reduced railway rates, etc., write

150 ACRES FARM LAND WESTERN CANADA FREE

Cost of "Eats."

The people of the United States spend more than \$40,000,000 a day for food or nearly a billion and a half dollars a month. Nearly one-third of the money goes for bread, potatoes, fruits, sugar and other "grub" of a vegetable nature. More than two-thirds is spent for meat, fish, eggs, butter, cheese and lard. The average householder hands over to the butcher more than one-fifth of his income. The people of this country consume in a year two and a half billion eggs and nearly ten and a half billion gallons of milk. But a large part of the milk goes to make 1,800,000,000 pounds of butter, 400,000,000 pounds of cheese and 280,000,000 gallons of ice cream.—Pittsburgh Dispatch.

Revolver on the hip is always in mind; that's unpleasant.

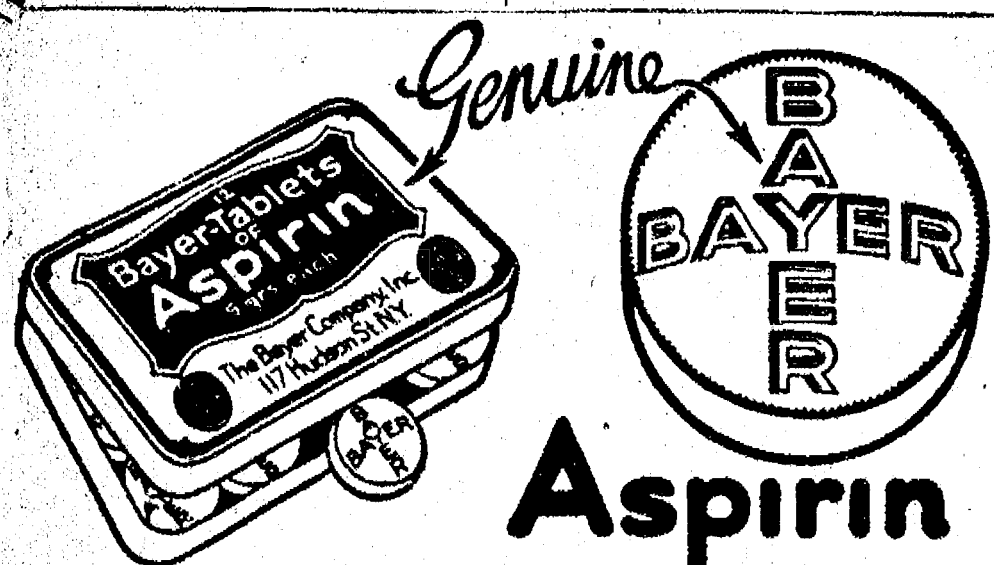

Hardly anybody grows much. If there is nobody to listen.

Golden Pennies.

Sir Robert Horne's forecast of a return of the gold sovereign to common circulation may recall that the first regular gold piece struck in England was a penny! This became part of the currency in 1257, and weighed about 45 grains, being the equivalent of 20 of the contemporary silver pennies. Its prototype was the denarius, a gold piece belonging to Byzantium, which had been current for centuries, but the English penny was a far better executed coin than its original. It appeared but once in our coinage and only two or three examples have survived. No one in England will be sorry for the disappearance of the paper currency of war times.—Montreal Family Herald.

No man knows how to sew—and the laundries find it out.

Easy money is the kind that people let go of too easily.

STEPS TAKEN TO AVOID BEE LOSS

Isle of Wight Disease Cause of Serious Injury to Industry in Parts of Europe.

SPECIALISTS HOLD MEETING

All Feasible Efforts to Be Made to Prevent Introduction of Queen Bees From Foreign Countries, Except Canada.

Prepared by the United States Department of Agriculture.

Serious ravages causing almost complete destruction of the beekeeping industry in parts of Europe by the "Isle of Wight" disease has started determined action by American beekeepers to save their business from similar losses. Thus far the disease has not gained a foothold in this country or in Canada, and it is believed that should the disease become established here beekeepers, queen breeders and manufacturers of bee supplies would quickly be ruined and horticultural interests would be seriously damaged.

As a first step toward preventing this, a meeting was held recently at the bureau of entomology of the United States Department of Agriculture, which was attended by specialists from several states and Canada who are interested in protective measures.

Prevent Introduction of Bees.

The meeting decided to use all feasible efforts to prevent the introduction of queen bees from all foreign countries except Canada, and to discourage the introduction of adult bees into the United States except for experimental and scientific purposes by the United States Department of Agriculture. Since there is no known Isle of Wight disease in Canada and since it is hoped and expected that the Dominion of Canada will establish the same safeguards to the beekeeping industry, it is planned not to establish any quarantine or prohibitions against shipments of bees from and to Canada.

All the men who attended the meeting were of the opinion that the Isle of Wight disease would be such a serious menace to beekeeping on this continent that every possible step should be taken to prevent its introduction.

Swarming Bees.

duction. All importation of queen bees should be stopped, they believed. Pending full legislation in this matter, the conferees are hopeful that beekeepers in both countries will co-operate to the fullest extent by making no attempt to introduce adult bees. Any queen breeder who introduced this disease into the country would be doing a great damage to the beekeeping industry that would be a serious drawback to future business, it was said.

Beekeepers who see any outbreak of any disease of adult bees are urged to send at once samples for examination and diagnosis to the bureau of entomology, Washington. More detailed information concerning the disease may be obtained by writing to the United States Department of Agriculture, Washington, for a copy of Department Circular 218, entitled "The Occurrence of Diseases of Adult Bees," which is available for free distribution.

Source of Big Loss.

Isle of Wight disease is caused by a parasitic mite in adult bees, and is easily transported by bees shipped from Europe to America as was proved during the past summer when live bees carrying living mites arrived in Washington from Scotland. The disease is evidently a serious source of loss to beekeepers of the British Isles. It was first observed in 1901 in the Isle of Wight, whence came the name, and in succeeding years it has spread with considerable rapidity to all parts of Great Britain.

ALL ANIMALS REQUIRE SALT

Dairy Cows Should Have an Ounce or More Each Day—Permit Animals to Lick at Will.

Salt is required by all animals. The United States Department of Agriculture says that the dairy cow requires an ounce or more a day, and while she should be given all she needs she should not be forced to eat more than she wants. It is best to have a salt lick in the house or in the barn.

RAG DOLL TESTER IS EASILY CONSTRUCTED

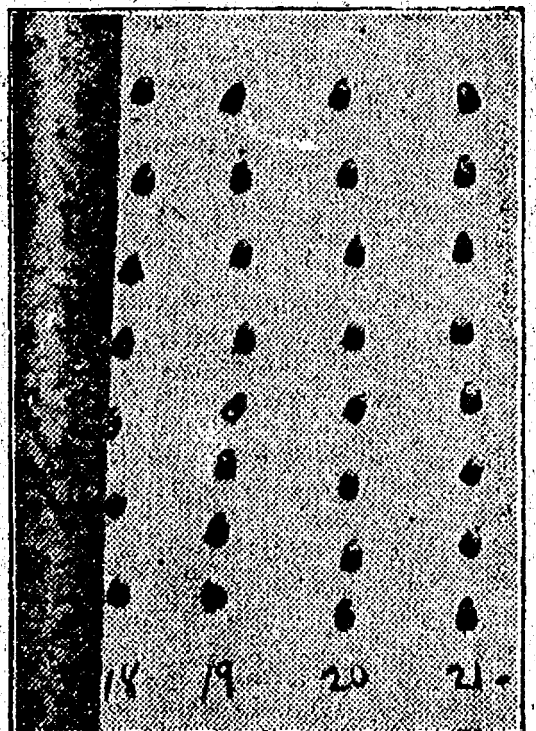

Necessary to Eliminate All Weak or Dead Ears.

Dry Rot Fungus Seriously Weakens Germinating Qualities—Glazed Paper and Strip of Bleached Muslin Needed.

The rag doll tester, which has saved many corn crops by eliminating the poor seed, will have to be brought back into service this spring, according to plant disease experts of the Iowa State college. They say that, due to the large amounts of corn rot fungus in many sections, the seed corn ought to be tested so that the dead or weak ears can be taken out.

Dry rot fungus stays in the ears and cannot be detected in the seed. However, wherever it is present it seriously weakens the germinating qualities, and often destroys them.

A modified rag doll tester is made of glazed paper and muslin. Take a strip of

Modified Rag Doll Tester Partly Rolled, Showing Corn in Place to Be Tested—Each Ear Is in a Row and Rows Are Numbered to Correspond With Ears.

glazed butcher's paper nine or ten inches wide and six feet long and a similar strip of good quality bleached muslin and lay the muslin on the paper. The paper is used to prevent the molds from spreading throughout the roll. With a heavy pencil mark off squares about one inch by one and one-half inches on the cloth, numbering the ends of the columns of squares to correspond to the ears they came from.

To operate the tester, roll the cloth in water and place on the paper. Then place the grains of seed corn, taken at random from the ears, on the damp cloth germ side down. Place the tips of the corn all the same way. Roll up the strip with the kernels of the corn carefully and place the roll on end in a tub or pail which has about a quart of water in it. Place a wet sack over the dolls to prevent their drying out. Keep at a temperature of 80 to 85 degrees F. The corn will germinate rapidly.

Be careful not to place the kernels too close together in the tester as the molds, if present, will spread. Where kernels are weak discard the ear. In using the rag doll tester for second testings be sure and get new paper and to roll the cloth thoroughly so as to remove any molds that might have stayed in the cloth.

USE FORMALDEHYDE ON OATS

Treatment Will Add at Least 10 Per Cent to Yield and 20 Per Cent to Quality.

To prevent smut in oats dissolve one pint or one pound of formalin (formaldehyde) in 40 gallons of water, soak the seed therein for 20 minutes, spread out thin and rake over until dry. Or sprinkle oats with ten gallons of water in which is a pint of formalin, shovel over until wetted, cover with blanket or canvas for two hours to let the gas do its work, then spread out to dry. This simple precaution adds at least 10 per cent to the yield and 20 per cent to the quality of the crop.

BITTING OF YOUNG HORSES

Mouths Are Much More Tender Than Those of Older Animals—Examine Frequently.

Particular attention should be paid to the biting of young horses, as their mouths are much more tender and easily wounded than those of old ones, though the latter are often spoiled by improper bits being forced upon them. A careful examination of the mouth should, therefore, be a matter of frequent occurrence, and not only should the condition of the corners of the mouth be inspected, but also that of the tongue and, in fact, the whole of the interior.

HIGH VALUE OF GARDEN

The value of having a vegetable garden on the farm that will supply the table during the growing season with a bounteous amount of fresh garden produce cannot be estimated. A plot 100 by 100 feet properly planned, planted and cared for, should produce a good supply for table, winter storage and canning.

EXAMPLE OF HIGH FINANCE

Many Who Go Into the Game Come Out of It Feeling Like This Country Boy.

Representative Rosenbloom said at a dinner in Wheeling: "The average man had better leave high finance alone. When the average man goes up against high finance he generally feels like the farm boy. A city boy had a half-dollar and a circus had just come to town; but the cheapest circus ticket cost 75 cents, and this put the city boy in a hole."

"But he was a financier in embryo, and so he went right off to a pawnbroker's and pawned his half-dollar for 40 cents."

"Afterward he waylaid a country boy, displayed his pawn ticket and offered to sell it for 35 cents. A half-dollar for 35 cents! Of course the country boy snapped up that bargain."

"The city boy with his 75 cents then hurried off to the circus. The country boy, after he had worked out this deal of his in high finance to the bitter end, sought a retired place and kicked himself."

Mixed Drinks.

He had made several vain attempts to swallow the mixture; but, somehow or other, he could not get it down. When at last he did manage to catch the waitress' eye he called to her and said:

"There's something funny about this coffee. It tastes like cocoa."

The waitress slipped it, made a wry face, and slipped it again, to make sure. "I'm sorry," she said. "I've given you tea."—Tit-Bits.

Good Things Going to Waste.

A childless couple have a whole yard of pets which are a delight to the children of the neighborhood. Ellisworth, on his return from there the other day, heaved a reminiscent sigh and remarked: "My, that would be a nice thing for some little boy to be born into."

The Sense of Perfection.

"Crimson Gulch isn't improving as fast as I thought it would."

"The town is kind of held back by pride and patriotism," replied Cactus Joe. "Anybody who'd venture to hint that Crimson Gulch needs any improvements would immediately be so unpopular that he'd lose his influence."

Hospitable Soul.

"That's the third time this week the kitchen roof of this boarding house has caught fire," grumbled the chief. "What are you going to do about it?" asked a bystander.

"What can we do about it? The landlady had coffee and sandwiches ready when we arrived."—Birmingham Age-Herald.

Sufficient Indication.

"When I see a man playin' checkers three or four hours every afternoon," said Uncle Eben, "I don't need no credit men's agency to tell me he don't have to pay no surtax on his income."

Sporting Man's Virtues.

To brag little, to show well, to crow gently if in luck—to pay up, to own up, and to shut up, if beaten are the virtues of a sporting man.—Oliver Wendell Holmes.

Not Efficient, However.

"The language you use to that mule is perfectly shocking."

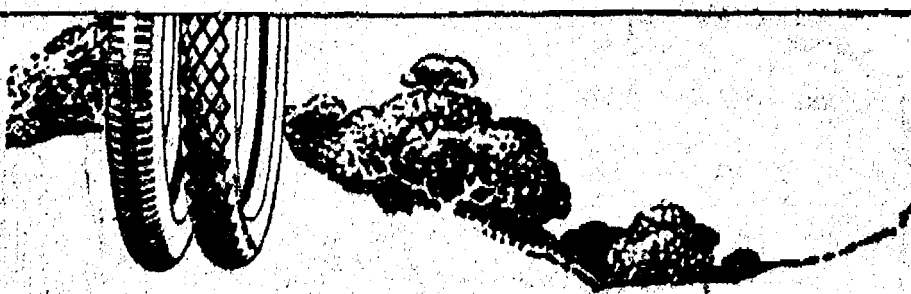

"Yes," replied the driver, "it seems to trouble everybody but the mule."—Edinburgh Scotsman.

"City of Peace."

A former city on the site of Jerusalem was called Salem. An Assyrian inscription has been found calling the place Urusalem which meant "city of peace."

To earn much money a man generally has to earn it the way he likes to.

THIS IS YOUR OPPORTUNITY

If you have been waiting and hoping for the day when you could get better tires for less money, now is your time.

Goodyear Tires are at their best. They are bigger, heavier, and more durable than ever. Their quality is at its highest level.

And these better Goodyear Tires today sell for less money than at any previous time in our history.

The prices listed below established a new low level for Goodyears, averaging more than 60 per cent less than the prices of Goodyear Tires in 1910.

These would be low prices for any good tires. They are almost unbelievably low for Goodyears.

You have never had such an opportunity before to buy fine and lasting tire performance at such low cost. Call on your Goodyear Service Station Dealer, and take advantage of this opportunity today.

GOOD YEAR

HE GOT THE NAMES MIXED

Simple Explanation of American's Reverent Attitude Toward Relics of Great English Past.

John D. Rockefeller, Jr., said in a Y. M. C. A. address: "A guide was showing a party of tourists over Milton's cottage at Chalfont St. Giles."

"This 'ere's 'is chair," said the guide, and an American tiptoed out from the group of tourists and kissed the chair reverently.

"Say, guide," he said, choking a little. "I'd like to buy those two pieces of furniture for a souvenir. What do you ask for them?"

"They ain't for sale, sir."

"Come on now. Name yer price. I'll give you anything in reason."

"No, no, sir. They ain't for sale." And the guide went on. "This is the cane wot the pore blind old man—"

"Blind?" snorted the American. "I wish I had his vision. Blind! Why, you must be crazy, guide."

"Of course Milton was blind," the guide insisted.

"Milton? And the American stamped to the door in disgust. "Milton? Holy smoke, man! I thought you were talking about Lipton."

Chilean Volcanic Disturbances.

The eruptions in Chile last December were attributed to the volcanoes of Cañile and Rincón. They were accompanied by violent earthquakes and it was stated that deep crevices had formed in the mountain sides, from which steam was pouring. Enormous damage was caused to grazing lands on the Argentine side of the frontier, which for 30 leagues was covered with clinders and volcanic ashes from the erupting peaks, which swept across Argentina, obscuring the sun. Ashes were reported to have fallen all the way across to the Atlantic ocean.

Not First Class.

"It takes two to make a quarrel," said the friend. "A small one," admitted Murphy.—American Legion Weekly.

ASPIRIN INTRODUCED BY "BAYER" IN 1900

Look for Name "Bayer" on the Tablets. Then You Need Never Worry.

If you want the true, world-famous Aspirin, as prescribed by physicians for over twenty-one years, you must ask for "Bayer Tablets of Aspirin."

The name "Bayer" is stamped on each tablet and appears on each package for your protection against imitations.—Advertisement.

RATHER PUT MAMMA IN BAD

Her Offspring Had Chosen Decidedly Unpropitious Moment for "Fixin' Billy's Teef."

My fussy guest was getting ready to make her departure. She was in a hurry, but took time to comment on life in general and mine in particular. "Children are all right, I suppose, but so meddlesome. They snatch this and that and spoil everything."

"Not mine," I averred indignantly. "My children have a proper respect for others' property. They never touch anything that doesn't belong to them."

"Where's my dental floss?" panted my guest. "It was here a moment ago."

A frantic search ensued, ending in the kitchen. On the floor were yards and yards of dental floss, and at the end of the floss was my youngest child, her puppy held between her knees. "Fixin' Billy's teef, mummy!"—Chicago Tribune.

To keep a secret—forget it.

At What Age Should You Take Needless Risks With Your Health?

Is that a queer question?

Then many people are doing a queer thing—and often it turns out to be a serious thing.

The Federal Bureau of Education says in its rules for the health of school children that children should not drink coffee or tea.

This rule is based on the well-known fact that the drug element in coffee and tea whips up the nerves, and that serious ills often follow.

If it's a good rule for children to keep away from the harm of nerve-stimulation, isn't it a good rule for everybody?

Think it over.

Granted that your body may stand more, can your judgment afford to risk more? Any doctor

can tell you what coffee and tea often do to the health of adults as well as children.

There's no sacrifice in being safe. Postum is a delightful, satisfying mealtime beverage, wholesome and pleasant alike for adults and children. Postum has no age limits!

Your grocer has both forms of Postum: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for fully 20 minutes.

Postum for Health—"There's a Reason"

Made by Postum Cereal Co., Inc., Battle Creek, Mich.

Card of Thanks.

We desire to extend our heartfelt thanks to our neighbors and friends for their kind expression of sympathy shown us during our sad bereavement, and Rev. Krause for his comforting words. Also the choir for singing and the beautiful floral offerings. Christ Klein and family.

In loving memory of our dear wife and mother:

We miss thee from our home, dear one,

We miss thee from thy place,

A shadow o'er our life is cast,

We miss the sunshine of thy face,

We miss thy kind and loving hand,

Thy fond and earnest care;

Our home is dark without thee,

We miss thee everywhere.

"There never was a buyer's strike. 'Buyer's strike' was a clever term, but what really happened was that the individual stopped to think, saying, 'Prices are falling fast; they will probably reach the bottom in a couple of months,' and put off buying until the bottom was reached. The best message you can send out to your customers is 'If you people are going to stop buying until prices reach the bottom, you are going to stop living, because the price line will go down for thirty years. You might just as well start buying right now.'"—Charles Henry Mackintosh, International President of the Associated Advertising Clubs of the World.

THE fleeting charm of golden youth has been captured and made permanent in this delightful knicker dress. Boncel knit fabric makes it as practical as it is smart, and as every Betty Wales dress, it is unconditionally guaranteed.

G. Ackley, who has been spending the winter at the home of his nephew, P. C. Cooper, is now visiting friends at Lansing.

The Young People's Society of the Lutheran church was entertained Saturday evening, April 29, at the home of Miss Helen Kendall.

Large Gift to the University.

At the meeting of the board of regents on Friday, the formal acceptance of the largest private donation ever made to the University of Michigan.

The gift is to take the form of a building to be known as the Lawyer's club, which will provide a headquarters for a club to be organized and to be made up of graduates of the law school and of other lawyers who may be elected to membership, and of students in the law school.

The building will also contain bedrooms and studies for about 150 students and a beautiful dining hall to accommodate 300 or more. This gift is from a graduate of the law school and of the College of Literature, Science and the Arts of the university. The name of the donor is not announced.

The donor, in his letter to the regents, said: "If agreeable to you, I will erect on the two blocks on South University avenue, between South State street and Tappan avenue, a law students' combined club and dormitory building, with the same advantages as you have extended to other buildings, namely, the university to furnish free heat, light and power."

"The building is to be known as the Lawyer's club, to be governed by five governors, consisting of the dean of the law faculty (who will be president), and four other governors to be selected by the board of regents from the law faculty."

"All members of the law school are to be eligible to membership in the proposed club, subject to such conditions as the club authorities may prescribe. All lawyers, whether previously connected with the university or not, shall be eligible to membership, subject to being elected by the governors."

"All occupants of the building shall be members of the club and shall pay such annual dues as the governors may determine, and are to be selected by the dean of the law school from the senior law class. Members of the club not living in the building shall also pay such annual dues as the governors may determine. Going prices shall be charged for rooms and board."

Pontiac Woman Gathers Relics.

When future historians of the United States need information concerning happenings of the long ago in the land of Chief Pontiac it is to the records and collection of Mrs. Lillian Drake Avery that they surely will turn for enlightenment.

For years Mrs. Avery has been gathering relics of the past, and keeping up current history of her state by means of great scrapbooks filled with newspaper and magazine clippings and personal jottings. Her home contains probably the largest collection of material in existence bearing on the story of Michigan.

During the war she was on the lookout for every scrap of information relating to doings of the Michigan troops and her war history of the state is said to be unrivaled in completeness.

Mrs. Avery is a Daughter of the American Revolution and an officer in various local and state pioneer societies. Her work as an unofficial chronicler has the highest value from a historical standpoint.

Mrs. Lillian Drake Avery was a teacher in the Chelsea public schools under Superintendent Brown, and many of her former pupils will remember her best as Miss Lillian Drake.

Clubs Weld Great Power.

The appointment of school nurses in eight villages in a single Michigan county largely through the pressure brought to bear by women's clubs shows how great an influence the women's clubs of the state may become in advancing public health work, according to the Michigan Tuberculosis association. The eight villages are in Wayne county, school nurses having been appointed recently in Grosse Pointe, Ecorse, Dearborn, Redford, Northville, Plymouth, Springwells and Monguagon.

In connection with getting these local communities to assume financial responsibility for school nurses, in every place but one the women were actively back of the movement for a public health nurse. An otherwise uninterested township supervisor would often look quite interested when certain more or less influential groups of women in his community were mentioned as being interested in working for a nurse. And the result of these tactics was astonishing.

And women's clubs all over Michigan, the state tuberculosis association points out, can make their influence felt in a similar way and can help to secure for Michigan counties the public health nurses that are badly needed.

Will Open Season.

Jackson, last year known as the Briscoe's, will play their first game of the season with the fast Roger Parks of Chicago, Sunday at the Jackson Fair Grounds. A big crowd will witness this game as it will be "Booster Day" for which tickets will be disposed of for one dollar. The reason for asking one dollar is to raise sufficient funds to carry the team through the season.

Following are the players who will represent Jackson: Brannegan and Liebrook, c.; Olmstead, Collomore, Standish and Phelps, p.; Dunkle, Tooley, Mac Elligott, Loney, infield; Guy Kuhn, Streeter, Cahill, outfield.

Long Distance Service Restored

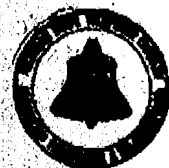

EVERY important point in Michigan can again be reached by Long Distance. Poles and wires crushed by storm have been replaced sufficiently to meet demands of business.

It was an appalling task. Nearly 20,000 poles and 6,500 miles of circuits were destroyed, with tremendous losses in money.

But the people of the Telephone Company realized the dependence of the industrial and social welfare of every community on the wires and made every effort to restore service. Not a minute, night or day, did they relax their efforts.

Today, therefore, their first task—that of establishing emergency circuits—is finished. And they appreciate the patience and understanding of their difficulties shown by users of the Toll wires.

We are pleased to announce that Long Distance is again at your service.

AWARDED VAIL MEDAL FOR 1921

Exemplifying the high ideals of service typical of the life and work of Theodore N. Vail, late head of the Bell system, in prompt and courageous action in emergency, these three men have been awarded the Vail bronze medal for last year by the Michigan State Telephone company. They are: Ralph W. Smith, of Detroit; Michael J. Clark, of London, Ont.; and Joseph Bowen, of Lansing. Each saved a human life during 1921.

BREVITIES

Ann Arbor—Mayor Geo. E. Lewis has issued a proclamation setting aside this week as clean-up week.

Manchester—August 16 will be the homecoming celebration date for the former residents and those who reside here.

Ann Arbor—Judge Sample on Friday dismissed the jurors for the March term of the Washtenaw County circuit court.

Manchester—Albert Gumpfer discovered a hard substance in a sponge he had purchased and on removing it found it was a petrified angleworm.—Enterprise.

Ann Arbor—Members of the Students' Christian Association selling tags here Thursday raised \$200 more than the \$1500 set as a quota toward financing the second fresh air camp of the U. of M. near Port Huron.

Gregory—The Civil Service Commission of the United States announced an examination to be held May 13, 1922 to supply the vacancy in the postoffice at Gregory, salary \$1,000. The vacancy occurs July 1.

Ann Arbor—Louis Hoffman, arraigned Saturday afternoon on a serious charge preferred by Miss Electa Butts of Ypsilanti, waived examination and was bound over to the May term of court under nominal bail.

Ann Arbor—The first week of the campaign workers for a \$30,000 Salvation Army citadel in this city, brought the fund up to approximately \$10,000. The workers will make a desperate effort to raise the balance of the funds this week.

Jackson—Plans to use Michigan state prison convicts on construction work at Camp Custer, as recently announced, were carried into effect Monday when 40 men who have served their minimum terms were taken to Battle Creek.—News.

Milan—The local Post of the American Legion have just completed a deal whereby they took possession of their new hall on May 1. They leased from Charles Gauntlett the hall over Steidles' Shoe Store and the Gauntlett Clothing Co. This is the hall formerly occupied by the Maccabees.—Leader.

Howell—The Howell Manufacturing Company, of which William Wenk is manager, has purchased the Byron Water Power Mill, taking possession last Monday morning. Mr. Wenk informed our reporter it is the plan to move the Howell factory to Byron in the near future, where there is power sufficient to operate both plants.—Democrat.

Ann Arbor—Graf-O'Hara post of the Veterans of Foreign Wars will be the host to a number of delegates to the convention of Michigan Veterans of Foreign War posts to be held in Ann Arbor May 5 and 6. Extensive plans have been formulated by the committee in charge for the entertainment of the ex-soldiers during their stay in the city.

Stockbridge—On May 10th, the Ingham County Road Commissioners will let approximately five miles of road, the roads being the Leslie-Onondaga road, No. 3 and No. 4, Stockbridge and Bunker hill road No. 10, Williamston Center road and the East Bellevue Street pavement in Leslie. The bids will be opened at 1:30 o'clock in the afternoon of May 20.—Brief-Sun.

Ann Arbor—The jurors for the May term reported at circuit court Tuesday morning in readiness for what promises to be a severe term. Judge George W. Sample addressed the jurors and thanked them for their attendance. He excused the following four men: R. L. Smith, Pittsford township; William Foster, Ypsilanti township; E. R. Beal, first district, Ypsilanti, and C. F. Beck, second district, Ypsilanti.

Ypsilanti—Justice D. Z. Curtis stated Monday that the movement to beautify the county home grounds around the buildings is progressing very rapidly. At a recent meeting of the Board of Supervisors the matter was commented upon very favorably and Supervisor George M. Gaudy spoke in favor of the proposition. Justice Curtis donated \$500 to be placed on the grounds.

Primary Election Date.

Due largely to complaints that a great number of people are away on their vacations during August, the last legislature changed the date of holding the primary elections from August to September.

The department of state, taking time by the forelock, has issued the following set of instructions for candidates, those who are thinking of becoming candidates, and those who may want to induce friends to become candidates for office in the general primaries which will be held Tuesday, September 12:

The last day for filing nominating petitions is Saturday, August 12.

Candidates for the office of United States senator, governor, lieutenant governor or congressman-at-large must file with the secretary of state nominating petitions signed by a number of registered voters equal to not less than 2 per cent nor more than 4 per cent of the number of votes cast for secretary of state at the last election.

Candidates for district offices must file petitions bearing not less than 2 nor more than 4 per cent of the number of votes cast by their party for secretary of state in the district.

Candidates for county offices must file petitions containing not less than 2 nor more than 4 per cent of the number of votes cast for their party in the county.

The residence, street number and date of signing of each elector must be shown on the petition.

It is unlawful to sign more than one petition for the same office.

No affidavit of party affiliations is required with nominating petitions. To avoid confusion and insure the placing of candidate's name upon the ballots, petitions should be filed early.

New Citizen's Day.

Independence Day is to have a deeper significance in Michigan this year than has been the case in recent years, through efforts of Women's clubs generally to make the occasion a "New Citizen's Day," according to Mrs. W. R. Alvord, of Detroit, president of the Michigan Federation of Women's clubs.

The program in each city will be arranged by local clubs and the various observances will vary in minor details. The underlying idea, however, is to recognize aliens who have become American citizens during the preceding twelve months, as well as American young men and women who have attained their majorities during that period.

Pineknay—An Athletic Association was formed Saturday at a meeting of the superintendents of the five Livingston county high schools for the purpose of promoting an annual county scholastic track meet. Supt. Hough of Fowlerville was elected president, Supt. Courter of Howell, secretary; Supt. Doyle of Pineknay, treasurer. The last Friday in May was set for the track meet for this year, and it is expected that it will be held in Howell. Such a meet was held at Howell last year and proved a signal success.—Dispatch.

DAYS OF DIZZINESS

Come to Hundreds of Chelsea People. There are days of dizziness; Spells of headache, languor, backache; Sometimes rheumatic pains; Often urinary disorders. Doan's Kidney Pills are especially for kidney ills. Endorsed in Chelsea by grateful friends and neighbors. Ask your neighbor.

Mrs. Chas. H. Hagadon, 425 Congdon street, Chelsea, says: "My kidneys were bothering me and backache kept me from getting through with my housework. I had dizzy spells when black specks floated before my eyes and my kidneys didn't act regularly and in various ways showed signs of disorder. As Doan's Kidney Pills had been used in the home successfully I decided to try them. I was surprised how quickly Doan's helped me for two boxes cured me of the trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hagadon had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

First Publication April 13; Last May 4.

To the Owners of Any and all Interests in or Liens Upon the Land Herein Described:

Take Notice, That sale has been lawfully made of the following described land for unpaid taxes thereon, and that the undersigned has title thereto under tax deed or deeds issued therefor, and that you are entitled to a re-conveyance thereof at any time within six months after return of service of this notice upon payment to the undersigned or to the register in chancery of the county in which the lands lie, of all sums paid upon such purchase, together with one hundred per centum additional thereto, and the fees of the sheriff for the service or cost of publication of this notice, to be computed as upon personal service of a declaration as commencement of suit, and the further sum of five dollars for each description, without other additional cost or charges. If payment as aforesaid is not made, the undersigned will institute proceedings for possession of the land. State of Michigan, County of Washtenaw.

Description of land: Lot 14, Block 7, Hamilton, Rose and Sheehan's Addition, City of Ann Arbor, according to plat thereof, amount paid \$7.62 taxes for year of 1917; amount necessary to redeem, \$20.24, to which must be added the fees of the Sheriff.

GRACE LEIGHTON,
Lansing, Michigan.

Order of Publication.

STATE OF MICHIGAN, County of Washtenaw. At a session of the Probate Court for the county of Washtenaw, held at the Probate Office in the city of Ann Arbor, on the 13th day of April, in the year one thousand nine hundred and twenty-two.

Present, Emory E. Leland, Judge of Probate. In the matter of the estate of Francis G. Sprague, deceased.

O. C. Burkhardt having filed in said court a final administration account and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is Ordered, that the 12th day of May next, at ten o'clock in the forenoon, at said Probate Office be appointed for hearing said petition, and it is further ordered, that a copy of this order be published three successive weeks previous to said time of hearing, in the Chelsea Standard a newspaper printed and circulated in said county of Washtenaw.

EMORY E. LELAND, Judge of Probate. (A true copy.) Dorena C. Donegan, Register. 41

Notice of Mortgage Sale.

Whereas, Cynthia C. Wallace and Alfred Wallace, husband and wife, of the Township of Lyndon, County of Washtenaw, and State of Michigan, made and executed a certain mortgage, bearing date the fifth day of August, A. D. 1892, to Charles H. Kempf, of the Village of Chelsea, County of Washtenaw and State of Michigan, which was recorded in the office of the register of deeds of the County of Washtenaw, on the first day of October, A. D. 1892, at 8:45 o'clock in the forenoon, in Liber 80 of Mortgages on page 310;

And whereas, the said mortgage has been duly assigned by Clarence J. Chandler, Executor of the estate of Charles H. Kempf, deceased, to Clarence J. Chandler and John Kalmbach, Trustees for Lina Kempf and Kate Kempf, by assignment bearing date the first day of August, A. D. 1917, and recorded in the office of the register of deeds, County of Washtenaw, State of Michigan, on the first day of September, A. D. 1917, at 11 o'clock in the forenoon, in Liber 17 of Assignments, on page 642, whereby the said mortgage is now owned by the said Clarence J. Chandler and John Kalmbach, as Trustees for Lina Kempf and Kate Kempf;

And whereas, the amount claimed to be due upon said mortgage the sum of \$2,700.00, and no suit or proceedings has been instituted by law to recover the debt now remaining secured thereby, or any part thereof;

And whereas, default has been made in the payment of the money secured by said mortgage, whereby the power of sale contained therein has become operative;

Now therefore, notice is hereby given that, by virtue of said power of sale, and in pursuance thereof, and of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the mortgaged premises, at public vendue, to the highest bidder, at the south front door of the court house, at the City of Ann Arbor, in said County of Washtenaw, that being the place of holding the circuit court within said County, on Monday, the 12th day of June, A. D. 1922, at 10 o'clock in the forenoon; the description of which said premises contained said mortgage is as follows, to-wit: All that certain piece or parcel of land, situated and being in the Township of Lyndon, in the County of Washtenaw and State of Michigan, and described as follows, to-wit: The south-east quarter of the north-west quarter of Section nine (9) containing forty acres of land, be the same more or less.

Dated March 15, 1922.

CLARENCE J. CHANDLER,

JOHN KALMBACH,

Assignees in Trust.

LOCAL HAPPENINGS.

W. D. Huston was confined to his home on East Middle street several days of this week by illness.

W. D. Caswell left Monday for Detroit, where he has accepted a position with the Hudson Motor Co.

The street committee of the Chelsea common council has had West Summit street given a fresh coat of gravel.

Mr. and Mrs. John Slane and family have moved into the residence of Mr. and Mrs. E. E. Smith on Wilkinson street.

Mr. and Mrs. Elmer Smith and children have moved from their home on Wilkinson street to Mr. Smith's farm in Lima.

Miss Jessie Clark began work in the Chelsea postoffice Monday, taking the place of Miss Beryl McNamara, who resigned the position.

Geo. W. Webb, of North Lake, shipped a carload of hay that he raised on his farm, to Detroit buyers, on Tuesday of this week.

Mrs. J. J. Rafferty and A. W. Wilkinson have sold the store building owned by them and occupied by the Standard office, to M. W. McClure.

Mr. and Mrs. Stanton Klink and family, who have resided on Elmer E. Smith's farm in Lima for several years, have left the farm and moved to Jackson.

Mrs. A. N. Morton, who has been spending the winter with her daughter in Torrington, Conn., has returned to her Chelsea home for the summer months.

The cherry and plum trees in Chelsea seem to be heavily loaded with blossoms and at the present time the prospects for a bumper crop seem to be good.

Postmaster Hoover during the past week has been riding with the mail carriers, making his semi-annual inspection of the four rural routes from the Chelsea postoffice.

Mrs. Geo. P. Staffan entertained at her home on Park street Monday afternoon, a number of friends at a bridge tea, in honor of Mrs. Earl Hoch, of Slaterville, W. Virginia.

The veterans of foreign wars have headed a movement for the wearing of the inter-allied memorial flower, the Flanders poppy, on Memorial Day and everybody will endorse it.

Dr. and Mrs. J. T. Woods will entertain Rural Arbor of Gleaners and their families in Macabee hall this evening. The regular business meeting will be followed by a social hour and refreshments.

Several of the Chelsea fishermen were out early Monday forenoon whipping some of the spring brook streams in this vicinity for brook trout. So far, they have not made any report of their luck.

Udike & Harris will open a branch store on West Washington street in Ann Arbor, the coming week. The firm has sold a large number of furnaces in Ann Arbor, that will be installed from their place of business in that city.

The auto bus of the Michigan Portland Cement Co. and the auto of Albert Forner came together in front of Loeffler's Market early Monday. The car of Mr. Forner had the running board broken and slightly damaged otherwise.

The Washtenaw County Association Order of Eastern Star will be entertained by the Manchester Chapter on Friday afternoon and evening, May 26. The Chapters in Chelsea, Dexter, Ann Arbor, Ypsilanti, Milan and Saline will be represented.

One of the teams of Evert Benton, used in his ice business, ran away Monday and the only damage done was the scattering of the load of ice. The team started in the alley back of Vogel & Wurster's store and were stopped at the corner of Main and Middle streets.

The county road commissioners have a force of men and teams at work on the territorial trunk line road, building the earth shoulders on each side of the cement driveway and repairing the poor spots in the west section of Sylvan, where the cement foundation has given away.

E. F. Klump has sold his stock of accessories and vacated the store that he has occupied on North Main street. He will continue the sales agency of the Studebaker cars, and has opened a service station and salesroom in the basement of the building known as the Chelsea House barn on Jackson street.

Mr. and Mrs. R. D. Cheesman, who have been residents of Chelsea for the past four years, have moved from here to take up their residence elsewhere. Mrs. Cheesman and daughter left Thursday for Hagerstown, Md., where they will visit relatives. Mr. Cheesman will spend some of his time here for two weeks.

F. R. Belcher has completed a job of welding for the asphalt plant at Four Mile Lake, that required the use of a patch weighing 200 pounds, 12,000 pounds of oxygen gas, 600 pounds of acetylene gas, and 33 pounds of welding wire. This was a job that would make the large welding shops in the large cities sit up and take notice.

Palmer Motor Sales report the following April deliveries of new Ford cars and tractors: touring, Ed. Weber, Oscar Visel, John Goetz, Ray Franklin, Clair Walz, H. B. Stouffer, sedan, Mrs. Jacob Rinderer, W. H. Heselichwerdt, E. A. Fahrner; coupelet, Dr. Faye Palmer, Dr. S. G. Bush; delivery, Elvira Clark Visel; truck, Ed. Frymuth; tractor, Fred Bahmiller, Alvin Baldwin; Lincoln Judson, Conrad Lehman.

The porch at St. Paul's church parsonage has been screened in.

The interior of the Chelsea postoffice is being redecorated.

Louis Hindelang erected a fine monument for Wm. Collins, of Lyndon, this week.

Fred Hinderer is making arrangements to build a new barn on his farm in Sylvan.

S. W. Rose has had the barn at his residence on South street fitted up for a garage.

Mrs. Chas. Koebbe is having an extensive addition built to her residence on Washington street.

R. D. Walker is in Detroit today on business. His daughter, Miss Josephine, accompanied him.

Mrs. M. J. Dunkel was called to Detroit last week by the illness of her mother, Mrs. Walter Appleton.

Harold Klingler is reported to be very ill with pneumonia at the home of his parents, Mr. and Mrs. C. Klingler, of Sylvan.

Mrs. H. E. Fletcher has had a cement driveway built from the street to the garage in the rear of her residence on South street.

Mrs. Mary Doody, who has been at St. Joseph sanitarium for the past four weeks, has returned to her home here, very much improved in health.

Mrs. H. W. Schmidt was given a surprise party by the Chat'n-Seau Club at her home, Tuesday evening. The affair was a very enjoyable one.

Mr. and Mrs. Henry Polk, of Brandon, Iowa, are spending some time with Mr. and Mrs. Verne Evans and family. Mrs. Polk is a sister of Mrs. Evans.

Mr. Weber, who recently purchased the Wm. Long farm in Sylvan, is having the dwelling remodeled and extensive improvements made to the other buildings on the farm.

Wm. Bahnmiller, aged about ten years, underwent an operation for appendicitis Wednesday afternoon, at the home of his parents, Mr. and Mrs. Fred Bahnmiller, of Lima.

Thursday evening, May 4, the Sunday school classes of Rev. Carnes and Mrs. Axtell are going to hike to the home of Alice Baldwin. A very enjoyable time is expected by all.

Mr. and Mrs. Reuben Heber received a card announcing the birth of a 9-pound boy, Wallace Donald, to Mr. and Mrs. W. S. Marriott, of 5715 Forsythe, Detroit, April 25.

Chas. Bycraft has purchased the interest of A. A. Riedel in the business conducted by Riedel & Bycraft, and will continue the business in the same location on South Main street.

Mae Wood Greenlaw, elocutionist, and Albert E. Greenlaw, basso, will give a concert at the Congregational church Monday evening, May 15, under the auspices of the Brotherhood.

Mr. and Mrs. A. J. Munn and family, who have been residents of Chelsea for several years, are moving to Crystal. Their daughter will remain here until the close of the school.

Mr. and Mrs. John Koch entertained at their home on Adams street, Sunday, Misses Ricka and Hilda Gruner, of Jackson, and Mr. and Mrs. W. A. Keubler and family, of Manchester.

Mr. and Mrs. C. W. Maroney and grandson returned to their home Friday, from Omaha, Nebraska, where they made an extended visit at the home of Mr. and Mrs. Karl Vogel and family.

Gov. Groesbeck has issued a proclamation designating Sunday, May 14, as Mothers' Day. He urges that sons and daughters visit their mother on that day and that the U. S. flag be displayed in their homes.

Rev. G. W. Krause, pastor of St. Paul's Evangelical church, of Chelsea, has tendered his resignation to the board of trustees, to take effect July 1. Rev. Krtause has been pastor of the church for the past two years.

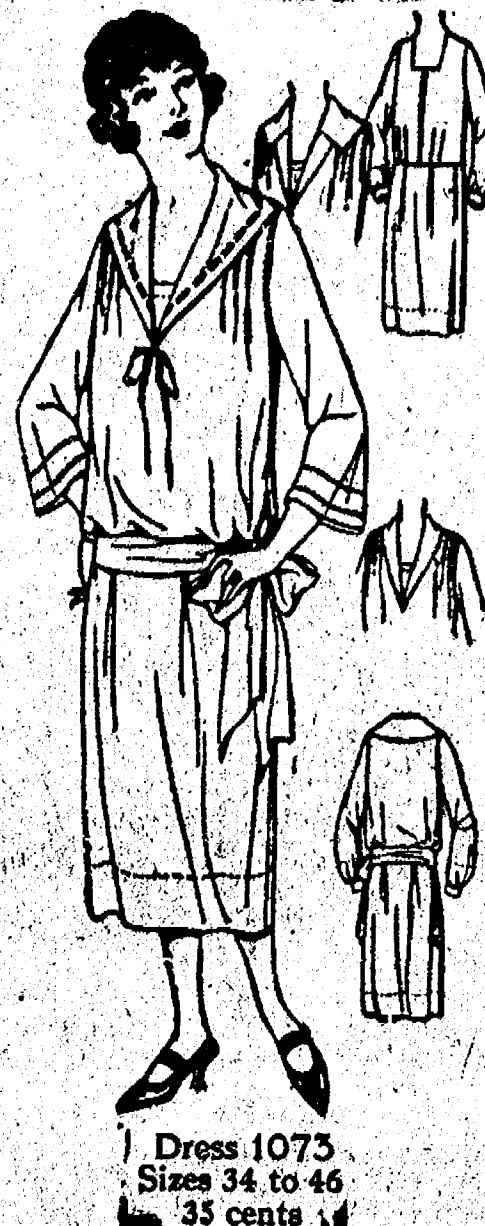

The Chelsea band will play at the morning services here Decoration Day, and at Grass Lake in the afternoon. The boys are rehearsing every week and expect to have a very appropriate program for the Decoration Day exercises.

R. M. Winn, who confessed to taking four cameras, valued at \$150, from the store of Chauncey Freeman, and has been held by the authorities in Ann Arbor since his arrest, on the charge of grand larceny, returned to his home here Tuesday.

A pleasant evening was enjoyed Thursday at the Methodist home, when Mrs. I. B. Brosius, matron of the home, gave a birthday party in honor of all the members whose birthdays occurred in the months of February, March and April. Lunch was served, after which the company gathered in the parlors, where a fine program was rendered.

The members of the Masonic Order here attended services in a body at the Congregational church Sunday evening, and the auditorium of the church was filled to its capacity. Special music was furnished by an octet from the First Congregational church of Ann Arbor. Rev. E. A. Carnes delivered the sermon, using for his topic, "The Secret of Solomon's Power."

A veteran of the world war, who was both gassed and had lost both legs while in the U. S. army overseas, left the last electric car Sunday night and wandered about the street until morning. He claimed that he was a member of the American Legion, and that he was running away from the hospital where he had been and was on his way to his sister who resides in Chicago. He said that the artificial legs he was wearing were but temporary affairs and that the physicians told him that he had but a short time to live. He had a small amount of cash with him.

Why Pay 50 or 45 Cents for Other Patterns When You Can Get

Pictorial Review Dress Patterns

The best, most stylish and most economical of all patterns, at

20c to 35c

None Higher

Summer Frocks

Youthful of line and simple in conception, the smart Summer Frock relies for its effectiveness chiefly upon the charm of new materials. And not without reason, for this year the makers of Summer fabrics have outdone themselves in creating designs of unusual chic. Gingham, particularly, show the widest variety of modish patterns, and swisses, linens and cotton sponges are most attractive.

You save from $\frac{1}{2}$ to 1-4 yard of material with Pictorial Review Patterns, thereby saving from 50c to \$10.00 on each garment.

WASHINGTON SIDELIGHTS

To Mix Efficiency With Civil Service

WASHINGTON.—Part of the bureau of engraving and printing, which was reorganized under an executive order by President Harding, removing James L. Wilmett, its director, and other high officials, was ordered closed later by Secretary Mellon for an inventory of the stock, valued at many millions of dollars.

Mr. Mellon's order applied only to the divisions of the bureau which handle the paper used in making bank notes, stamps and government securities, it being explained that a quicker and more accurate checking could be made by a temporary shutdown of all paper work.

About 1,500 employees of the bureau force of 6,000 would ordinarily be af-

fected by the order, officials said, but about six hundred would be used as counters and all others having annual leave to their credit will be given the benefit of it.

Secretary Mellon in a formal statement said: "The statements to the effect that a vast volume of duplicate bonds and other securities have been fraudulently issued and are in circulation are wholly without foundation. There has been no evidence developed of any such situation either in the bureau of engraving and printing or elsewhere in the treasury department."

Following President Harding's declaration that the administration is conducting no drive on the civil service but is driving for greater government efficiency through the civil service, it was learned that some influential administration leaders plan to take many of the higher paid positions out of the ironclad jurisdiction of civil service regulations.

All positions paying \$3,000 or \$4,000 or over, positions of an administrative nature, would be placed in one group. Employees below the higher figures would be in the same position they occupy today.

Blanton of Texas Unpopular in House

THOMAS BLANTON, a Democratic representative from Texas, does not seem to be exactly popular with either side of the house. Representative Garner, Democrat of Texas, declared in the house the other day that if permitted by the rules to speak what was in the minds of 434 of the 435 house members he would say that Representative Blanton of that state "is a disgrace to this house and ought to be kicked out."

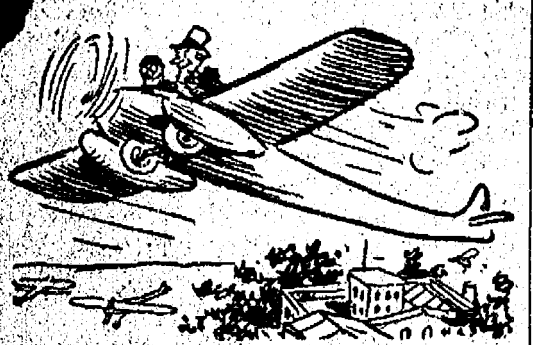

At the outset of his speech Garner said that in this world there "are all kinds of liars, the artistic liar, the inartistic liar and the common liar."

Representative Blanton, sitting a few feet away jumped to his feet and exclaimed: "And I will hold you personally responsible if you call me a liar."

Garner did not notice the interruption, but Representative Summers, of Texas, sitting nearby jumped to his feet and shouted "liar" at Mr. Blanton, at the same time starting in direction.

As at this point that the sergeant-at-arms rushed in and Blanton from the chamber. Then there was a cry from the Democratic side of the house for a cry of "throw him out."

America Up in the Air Over Aviation

WE WILL—and we won't—in aviation. The senate passed a resolution the other day which contains the following:

"Whereas immediate and adequate consideration and development of the science of aeronautics is vital to the commercial and industrial expansion and to the protection and prosperity of the United States; and

"Whereas it daily becomes more evident that if the United States is not to be completely outdistanced in the field of aeronautics, and is not therefore to be left defenseless, a separate school of aeronautics should be created and maintained or separate schools of aeronautics should be established in the United States Military academy and in the United States Naval academy; Therefore be it

"Resolved that the secretary of war and the secretary of the navy are directed to report to congress (1) whether or not it is feasible and advisable to establish a school of aeronautics, to be known as the United States Academy for Aeronautics, with buildings, grounds, and equipment necessary for instructing and training cadets; (2) whether or not it is practicable to use a part of the buildings and grounds of the United States Military academy and of the United States Naval academy for separate schools in aeronautics, to the end that young men desirous of qualifying for commissions in the United States army service may be appointed as cadets to such separate aeronautical schools in the same manner as cadets are now appointed to qualify for commissions in the United States army and the United States navy; and (3) whether or not it is feasible to take over one of the existing navy yards or arsenals for the purpose of converting the same into a government plant for the development and manufacture of aircraft of various kinds suitable for national, commercial, and defense purposes."

The cause of the rumpus was several speeches by Blanton denouncing the stationary and mileage allowances of members as graft.

"But I have in mind an individual—not a man—a creature who is the commonest, the biggest liar that ever spoke a word of English in this country. I have in mind a creature who would go to the stationery room and make inquiry about a whisky flask and then ask the superintendent to get him one from Philadelphia that he might parade it in Texas as an evidence of what congressmen get."

The cause of the rumpus was several speeches by Blanton denouncing the stationary and mileage allowances of members as graft.

"Whereas immediate and adequate consideration and development of the science of aeronautics is vital to the commercial and industrial expansion and to the protection and prosperity of the United States; and

which was picked up by other Democrats, and for a moment there was great confusion. Mr. Garner waited until quiet had been restored to proceed with his speech.

"But I have in mind an individual—not a man—a creature who is the commonest, the biggest liar that ever spoke a word of English in this country. I have in mind a creature who would go to the stationery room and make inquiry about a whisky flask and then ask the superintendent to get him one from Philadelphia that he might parade it in Texas as an evidence of what congressmen get."

The cause of the rumpus was several speeches by Blanton denouncing the stationary and mileage allowances of members as graft.

"Whereas immediate and adequate consideration and development of the science of aeronautics is vital to the commercial and industrial expansion and to the protection and prosperity of the United States; and

"Whereas it daily becomes more evident that if the United States is not to be completely outdistanced in the field of aeronautics, and is not therefore to be left defenseless, a separate school of aeronautics should be created and maintained or separate schools of aeronautics should be established in the United States Military academy and in the United States Naval academy; Therefore be it

"Resolved that the secretary of war and the secretary of the navy are directed to report to congress (1) whether or not it is feasible and advisable to establish a school of aeronautics, to be known as the United States Academy for Aeronautics, with buildings, grounds, and equipment necessary for instructing and training cadets; (2) whether or not it is practicable to use a part of the buildings and grounds of the United States Military academy and of the United States Naval academy for separate schools in aeronautics, to the end that young men desirous of qualifying for commissions in the United States army service may be appointed as cadets to such separate aeronautical schools in the same manner as cadets are now appointed to qualify for commissions in the United States army and the United States navy; and (3) whether or not it is feasible to take over one of the existing navy yards or arsenals for the purpose of converting the same into a government plant for the development and manufacture of aircraft of various kinds suitable for national, commercial, and defense purposes."

RADIO

MARCONI REALLY FATHER OF RADIO

Story of the Gifted Italian's Work in Development of Air Communication.

While experiments along the line of radio really started as far back as 1827 and hundreds of scientists were interested in solving the problems involved for many years, it was not until 1890 when Senatore Guglielmo Marconi took out his first patent that the mastery of air communication got its first great impetus. His life history is to all practical intents the history of radio communication.

Senatore Guglielmo Marconi, G. C. V. O., L. L. D., D. Sc. M. I. E. E., was born in Bologna, Italy, April 25, 1874. His mother was Irish, while his father was of a family whose mechanical ability was marked. After an education at Leghorn and Bologna, the young man interested himself in the problem of wireless telegraphy, starting his research in 1895. He went to England and in 1896 took out the first patent ever granted for a practical system of wireless telegraphy, by the use of electric waves. His early experiments in England were made at Westbourne Park. Shortly afterward Marconi saw W. H. Preece and at his request made some experiments for officials of the postoffice. Some further experiments were made in May, 1897, in the Bristol channel, wireless communication being established between Lavernock and Brean Down, a distance of nine miles.

On the invitation of the Italian government Marconi afterward went to Spezia, where a lighthouse was erected, which was kept in constant communication with two Italian battleships working from a distance of 12 miles. For this success the Italian government conferred upon Marconi the honor of knighthood. After a return to England further experiments were conducted and on July 20, 1897, the first radio company was formed and two permanent stations erected. In 1898 wireless reports of yacht races in Kingston were made and proved the usefulness and adaptability to which the system lends it-

self to commercial purposes. In December, 1898, Marconi installed apparatus to provide communication between the South Foreland lighthouse and a lighthouse on the south coast. In 1899 Marconi read a paper on "Wireless Telegraphy" before the Institution of Electrical Engineers in London.

Early in 1901 telegraphic communication was established between two points more than 250 miles distant and at the end of that year Marconi transmitted signals from Poldhu, in Cornwall to St. Johns, Newfoundland. In 1902 he received on board the steamship Philadelphia in the presence of the officers, good messages on the tape when at a distance of over 1,500 miles from the transmitting station and signals at over 2,000 miles. In December, 1902, the station established at Cape Breton, Nova Scotia, under a contract with the Canadian government for transatlantic wireless telegraphy, was put into communication with the Cornwall station at Poldhu and inaugural messages were transmitted to the King of England, the King of Italy and to the London Times. In October, 1903, the steamship Lancia published a daily wireless bulletin from messages received from the Marconi stations. A powerful station at Clifden on the west coast of Ireland was opened early in 1907 for the establishment of commercial relations with the American continent at Glace Bay.

Mr. Marconi's work has been recognized by many governments and awards of learning; he has been decorated by the King of Italy and the late ex-Czar of Russia as an honorary doctor of many universities, including Oxford, Glasgow, Aberdeen, Liverpool and Pennsylvania, besides having received the freedom of the principal Italian cities. In 1914 he was elected a senator in the Italian parliament. He also holds various other honors.

services at the disposal of King Victor and was given the rank of lieutenant in the Italian army. He was employed on important military missions to England by the Italian government and after this service was transferred as temporary commander in the Italian navy. Marconi visited the United States in 1917 as member of the official mission sent by Italy. In 1919 Marconi was appointed plenipotentiary delegate to the peace conference at Paris, and in this capacity signed the peace treaties with Austria and Bulgaria. He was afterward awarded the Italian military cross.

This very important figure in the wireless world, who has received about all the honors possible for the scientific world to bestow upon him,

including the Nobel prize, has not given up active work, but is even now engaged in radio telephone experiments.

Radio enthusiasts have increased tenfold within the last few months, it appears from a survey conducted by the Associated Press and covering the central west, Kentucky and Texas. At virtually all points from which reports have been received, there are thousands of radio sets, particularly for purposes of telephony, where at most there were hundreds before.

While the sets are used chiefly for pleasure and experience, they are being put to practical uses in many cases. Numerous farmers are receiv-

ing market and weather reports, and police are receiving bulletins. Sermons, concerts, health talks and style talks are transmitted. Universities and professional operators are co-operating.

Approximate figures are reported from various states and centers indicating the present number of radio sets. According to A. L. Benson of St. Louis, division manager of the American Radio Relay league, about 90,000 radiophones are used in four states as follows: Iowa, 23,000; Missouri, 25,000; Nebraska, 22,000; Kansas, 20,000. In St. Louis alone there are some 2,200. The radiophones chiefly carry concert music, but in many localities farmers have installed them to receive market reports.

Correspondence from Texas reports 203 stations in Dallas, ranging in size from 1/4 K. W. to 20 watts, and almost equal numbers in other cities of the state.

Cleveland, Ohio, reports probably 15,000 radio enthusiasts, 1,000 sending stations in greater Cleveland, virtually all amateur, and 10,000 receiving sets used almost nightly. These estimates exclude commercial sets. Cincinnati reports 500 sets.

Indiana has 4,500 amateur radio sets and Indianapolis 1,000 radiophones. Wisconsin has nearly 1,500 stations, and the number is said by Malcolm P. Hanson, University of Wisconsin operator, to be increasing at the rate of five a day. Nearly 1,000 sets are reported in Milwaukee and vicinity.

North Dakota has a number of receiving stations and a few fairly powerful telegraph and telephone sending stations. The North Dakota Agricultural college is planning to install a 100-watt service for farmers. The vacuum tube is displacing older equipment in the state.

Marked growth is reported at Omaha, Neb., by two radio clubs, which have been in existence only six months. The University of Nebraska has a station, and the Wesleyan, co-operating with the University of Nebraska, South Omaha, and Kansas.

DAIRY HINTS

REDUCE EXTENT OF DISEASE

Testing Cattle for Tuberculosis and Cleaning Up Infected Herds Having Effect.

(Prepared by the United States Department of Agriculture.)

That testing cattle for tuberculosis and the cleaning up of infected herds are having a permanent effect in reducing the extent of the disease is shown conclusively by figures recently collected by the United States Department of Agriculture from inspectors in charge of the eradication work in various parts of the country. The inspectors were asked to supply figures on the results of three or more tests on badly diseased herds, those that had not less than 10 per cent of reactors on the first test. The first test on more than 58,000 cattle in these bad herds showed that 26 per cent had tuberculosis. Another test six months later on the same herds, from which the reactors had been removed, showed only 6.9 per cent of the disease. By another six months the percentage had gone down to 2.8. A fourth test on more than 25,000 of these cattle showed only 1.8 per cent of tuberculosis.

The reports from which these figures were taken show that under normal conditions herds very badly diseased may be established as relatively free in a short time. They also show that eradication work can be carried on without destroying the cattle industry as is sometimes thought. Erratic results were obtained on a very few of the 1882 herds tested, the list of this class containing less than 100. Out of the 126,668 herds under

A Dairy Herd Certified by the Department of Agriculture as Free From Tuberculosis.

observation December 1, 1921, there were only a very few that had not shown satisfactory improvement as a result of testing.

COWS REQUIRE MUCH WATER

It Should Be 20 Degrees Above Freezing Point and Same Temperature Every Day.

During the winter, when cows are stable the greater part of the time, they should be watered two or three times a day, say specialists of the United States Department of Agriculture, unless arrangements have been made to keep water before them at all times. The water should, if possible, be 15 degrees or 20 degrees above the freezing point, and should be supplied at practically the same temperature every day. When water well above freezing temperature is stored in tanks and piped directly to the cow, there is probably little occasion for facilities to warm it. When it stands in a tank on which ice often forms, it usually pays well to warm it slightly. This can be done by a tank heater, by live steam, or by hot water from a boiler. If a boiler is used for running a separator or for heating water to wash and sterilize utensils, steam from it can readily and cheaply be used to warm the water.

CREAMERY TAKES SAFE MILK

Vermont Association Accepts Product Only From Herds That Have Been Tested.

Increasing interest in the tuberculosis testing of cattle is evident from reports received by the United States Department of Agriculture from many parts of the country. This tendency applies not only to milk used directly, but to manufactured dairy products. A co-operative creamery association at Barre, Vt., accepts milk and cream only from herds that have been tuberculosis tested under federal and state supervision.

The products of the association's dairy plant are butter, cheese, ice cream, milk and cream, the products being sold both wholesale and retail. Specialists in the bureau of animal industry regard the increasing interest in tuberculosis eradication as an important development in the dairy manufacturing industry.

Warm Quarters for Cows. Cows in winter should have access to warm quarters during stormy weather although they require exercise and should not be stabled all the time. Warm water is a great help in keeping the animals in good winter condition.

Cow Needs Vacation. After a season of steady, high-pressure work, the dairy cow needs a six or eight week's vacation—not at the shore or in the mountains, but out in the quiet of the back pasture.

PEKIN DECLARES MARTIAL LAW

ARMIES OF OPPOSING LEADERS WAGE WARFARE ON OUT- SKIRTS OF CAPITAL.

FIRING CONTINUES FOR 36 HOURS

American Legation Requests Washington to Send Another Warship to Protect U. S. Interests.

Pekin—Martial law was declared in Peking Sunday.

The armies of General Chang Tso Lin and General Wu Pei Fu fought continuously throughout Sunday. The fighting centered around Changhsien, 12 miles distant. A government communique says Chang Tso Lin was victorious in fighting at Mahang.

The American legation has requested Washington to send another warship to Tientsin.

Commander Charles T. Hutchins, American naval attaché at the legation here, returned Sunday from the battle field. The automobile he used flew the American flag.

He reported that firing had not ceased during the last 36 hours. President Hsu Shih Chang, in consequence of the hostilities, Sunday issued three proclamations calling attention to the serious consequences to China which might result from the jeopardizing of foreign interests.

The first proclamation said the Chinese people were terrified, that merchants were suffering losses and the industry of the nation was demoralized. It was commanded that Chang Tso Lin and Wu Pei Fu immediately withdraw their armies.

The second proclamation declared that as Peking was the capital of the nation peace and order must prevail. The commander in chief of the metropolitan area must take adequate measures.

Emphasis was laid in the third proclamation on the necessity to protect the lives and property of foreigners and for compliance with treaties with the powers. It was added that the Chinese railroad administration had sent a protest to the government asserting that the railroads of the country face bankruptcy in consequence of the suspension of traffic and that this fact involves foreign obligation.

DEATH COMES TO DESCHANEL

Former President of France Dies of Illness From Pneumonia.

Paris—Paul Eugene Deschanel, former president of France, died April 28.

The immediate cause of death, according to physicians was pneumonia. M. Deschanel, who was 76 years of age, was twice president of the chamber of deputies, before becoming president of France in 1920. He served only a short term, resigning because of illness. An attack caused him to fall from a train on one occasion and he accented a pedestrian on a country road, announcing to the man's amazement, that he was the president of France. He was a famous boulevardier.

SUGGEST FARM CREDITS CHANGE

Director of Finance Corporation Also Asks Time Extension.

Washington—Legislation to provide six permanent remedies for defects in the agricultural credit system of the country was recommended to President Harding Sunday by Eugene Meyer, Jr., managing director of the war finance corporation, in a report based upon his recent survey of conditions in the West.

Pending enactment of the proposed legislation and the erection of required machinery for its administration, Mr. Meyer recommended that the period during which the corporation might make loans be extended to January 1, 1923.

CROKER WILL IGNORE CHILDREN

Former Tammany Hall Boss Leaves Fortune to Young Widow.

New York—Richard Croker cut off his four children without a cent. An estate valued at more than \$3,000,000 will go to the young Indian princess, widow of the former leader of Tammany hall.

Richard Croker, Jr., eldest of the Croker children, in announcing this Sunday at his home here, added that when his father died at Glencairn, Ireland, April 29, all his property had passed into the control of the young woman he married in 1914, six weeks after the death in Austria of the mother of his children.

Semenoff Defies U. S. Court.

New York—General Gregorio Semenoff, former Ataman of the Cossacks, got into more trouble with American courts when he refused to answer questions before Bankruptcy Referee Olney. David W. Kahn, counsel for creditors of the Youravoto Home and Foreign Trading company, moved that he be held in contempt of court. The general was being asked about deposits of money in Japan and China, Siberia, when his attorney advised him not to answer.

WHY THAT

Caesar's Sickness and Other Chronic Ailments

Thursday Health Talk No. 16,
by H. H. Beatty, Chiropractor

Julius Caesar's ailment, epilepsy, or the falling sickness as it was known in Caesar's day, and a number of other chronic ailments are of a character and quality to clearly indicate that if chiropractic spinal adjustments are tried, there is an even chance the victim may get well.

There are but three methods of healing—the mental, the medical and the mechanical—and in every disease that has become chronic it may be assumed that the mental and the medical have been pretty thoroughly tested out. Chiropractic spinal adjustments are mechanical corrections of the alignment of spinal joints. The other methods have not touched this mechanical condition in any way, because not directed in any way to its correction. Of course when the spinal bones are realigned the cause of the ailment is removed, and the victim gets well.

Return of Epilepsy in Three Years

I am thirty-eight years old and I suffered from epileptic attacks beginning about the age of thirty. In July 1919 I turned to chiropractic. The night before my first chiropractic spinal adjustment I had a severe attack. It was my last one. I was adjusted over a period of time, but since the first adjustment to this date I have had any return of the trouble or any indication of it."—J. M. Campbell, Chiropractic Research Bureau Sworn Statement No. 1311H.

NEIGHBORING

SUGAR LOAF LAKE

A. J. Boyce, of Stockbridge, was in this vicinity Tuesday, buying wool. Mr. and Mrs. Orson Beeman spent Sunday with Ben Barber and family. Margaret Guinan took the teachers' examination at Ann Arbor last week.

Mr. and Mrs. Ed Cooper called on Mr. and Mrs. Charles Runciman, Sunday. Howard Arts, teacher in the McIntee district, is entertaining the nuns this week.

Mr. and Mrs. Milton Barber spent Sunday with the latter's parents, Mr. and Mrs. N. D. Prentice.

Mr. and Mrs. John Dykema and Mr. and Mrs. George Dykema spent Sunday with Mr. and Mrs. George Beeman.

Mr. and Mrs. Frank Polk, of Iowa, are spending this week at the home of George Bearbower. Mrs. Polk is a sister of Mrs. Bearbower.

WATERLOO.

Mr. and Mrs. W. Vicary motored to Plymouth on Saturday.

Kenneth Vicary, of Jackson, spent Tuesday in the neighborhood.

Mr. and Mrs. Emory Runciman and sister, Ethel, spent Wednesday in Jackson.

Miss Ethel Runciman spent Tuesday with Mrs. Mary Runciman in Chelsea.

Mrs. Martha Runciman and daughter, Ethel, were guests at the home of Mr. and Mrs. Geo. Beeman, on Sunday.

Mr. and Mrs. Fred Schlosser and daughter, Thelma, of New Baltimore, spent the week-end with Mr. and Mrs. W. Vicary.

Each Sunday in May will be known as "Go to church Sunday." Everyone come and help make these Sundays interesting. Rev. Rhoads will give an illustration on next Sunday, entitled, "The good little bad boy."

LIMA NEWS.

Mr. and Mrs. John Schanz entertained friends from Ann Arbor, Sunday.

Miss Ida Dettling spent Sunday at the home of her parents, Mr. and Mrs. John Schanz.

Mr. and Mrs. Henry Englehart, Mrs. Mata Lucht and Christ Klein spent Sunday with friends in Freedom.

Miss Ella Finkbeiner, accompanied by her friend, Miss Mae Stoffer, of Ann Arbor, spent the week-end with friends in Lansing.

Ralph Stoffer spent Sunday in Ann Arbor, with his brother, William, at St. Joseph sanitarium, who underwent an operation for appendicitis, Sunday forenoon.

Miss Mildred Bradbury underwent an operation in St. Joseph sanitarium Sunday, for appendicitis. At last reports she was doing as well as could be expected.

Mrs. Olive Miller, wife of O. D. Miller of Fowlerville, died at an Ann Arbor hospital Sunday. Mrs. Miller was born in Lima township, Washtenaw county, March 24, 1898, the daughter of Mr. and Mrs. Charles Curtis of Lima. She is survived by her husband, her father, one sister, Mrs. Howard Stearns of Fowlerville, and two brothers, George Curtis of Cleveland, O., and Lewis Curtis of Lima. Funeral services were held in Ann Arbor Wednesday at 2 o'clock at Muehl's funeral parlor. Burial at Lima Center.

NORTH LAKE.

Mrs. Arthur Van Horn, of Jackson, spent part of last week at the home of Mrs. Mary Gilbert.

Mr. and Mrs. John Hinchey and family are enjoying a new piano that they purchased last week.

William Leach, of Abilene, spent Saturday and Sunday at the home of Mr. and Mrs. E. W. Danfels.

Mr. and Mrs. Alonzo Crane, of Detroit, were Sunday guests at the home of Mr. and Mrs. P. E. Noah.

Mr. and Mrs. C. J. Tremmel, of Ann Arbor, spent Sunday at the home of Mr. and Mrs. R. S. Whallan.

R. Vergin was in Ann Arbor, where he purchased a complete stock of groceries to place in his store at the lake.

Mr. and Mrs. Edward Moulton, of Addison, were week-end visitors at the home of Mr. and Mrs. George Fuller.

Mrs. Ella Burkhardt and daughter, Flora, who have been spending the winter in Chelsea, moved to their home on their farm here Monday.

Dr. Leeson, district superintendent, of Ann Arbor, and Rev. Leigh Hazle, were guests at the home of Mr. and Mrs. E. W. Daniels, Sunday.

About forty ladies from this vicinity and Unadilla, met at the home of Mrs. Allen, Friday afternoon, and gave her a surprise in honor of her birthday.

Mr. and Mrs. George Webb entertained at their home Sunday, Mr. and Mrs. J. Morris, Mr. and Mrs. Fred Jenks and daughter, and Raymond Webb, of Ann Arbor.

-NOTTEN ROAD

Several from here attended the I. O. O. F. services at Chelsea Sunday. Mr. Peters, of Chelsea, has moved in the Geo. Rank house here.

Henry Kalmbach and family spent Sunday with Mr. and Mrs. Truman Lehman.

Mr. and Mrs. Henry Gieske spent Sunday with E. J. Notten and wife, of Chelsea.

Mr. and Mrs. Elmer Schweinfurth, of Jackson, called on his father, Philip Schweinfurth, Sunday.

Mr. and Mrs. Adam Kalmbach and grandson, Donald Brown, of Detroit, took dinner with Mr. and Mrs. F. W. Notten Sunday. In the afternoon they visited the Probert farm south of Jackson.

Word has been received that the work of eradication of tuberculosis will be started soon. This has been brought about largely through the efforts of the granges.

The Grange met in the basement of the church Tuesday evening. They decided to put on a special program for the next meeting and invite some of the neighboring granges to attend.

The Epworth League will give an ice cream social in the basement of the church on Tuesday evening. Rev. Bauman, a missionary returned from South America, will give a lecture on that country at the same date.

Mrs. Mary Schenk, who has been ill for the past few days, has improved so she is able to be up and about the house again. Mrs. Harry Litteral, of Chelsea, has been caring for her and Miss Ida Oesterle is attending to the house work during the absence of Mrs. Koss.

Ford Sales Show Rapid Increase.

Ford retail sales showed a rapid increase in volume during March, says a report from the Ford Motor Company, Detroit, and have necessitated the building of 101,164 Ford cars and trucks in April in order to meet the requirements.

This is the largest output of Ford cars ever scheduled for April, being 10,000 above the same month of a year ago. It also marks an early opening of the spring and summer buying and seems to indicate that even more Ford cars and trucks will be sold in 1922 than in 1921, which was a banner year.

Orders for Ford cars and trucks have already exceeded the supply in many parts of the country and purchasers are finding it necessary to accept deferred delivery. The Ford factory at Detroit is getting into capacity production as fast as possible, with the hope of preventing a similar shortage when the spring and summer rush begins.

Ford dealers throughout the United States are urging Ford customers to place their orders early and thus prevent the possibility of having to wait for delivery.

Good News for Radio Fans.

The Standard this week begins publication of a Radio department which will be continued from week to week. The article in this issue gives the early history of the Radio, the newest marvel of this marvelous age.

Subsequent articles will deal with the latest developments in radio science, how to construct an efficient receiving set at small cost and other interesting news for the Radio fans.

Interest in the Radio has spread rapidly during the past few months until today hundreds of thousands all over the country have seized the advantage to keep in touch with the outside world. Farmers through its use can now get the latest market reports; ships receive the weather bulletins; and even the family with the radio can gather around the fireside and "listen in" on the concerts and other entertainments being broadcasted from every important city.

You may not have a radio now but you will want one later, everyone will, so profit now by reading the new feature in the Standard.

Fair Promising Success.

Exceedingly elaborate preparations are being made for the Labor Temple Fair, to fatten the building fund, to be held in the Labor Temple, South Main street, Ann Arbor, May 6 to 13.

Among the attractions will be 14 beautifully decorated booths, some presided over by men and some by women. One booth in particular will attract attention—the fancy work booth, most of the articles to be exhibited having been made by the wives and daughters of the members.

The prizes are numerous. First there comes a \$2,200 automobile. Then there is a first-class piano. After these come a refrigerator, a gas range, a gramophone, and a chest of silver.

The children are not forgotten. For the younger there will be tricycles and bicycles given away, and for the older ones regular bicycles. And the children will have a fish pond, too.

Among the booths will be a "real country store." If you don't see what you want, ask for it.

Refreshments, of course. Hot coffee and chocolate as well as cooling drinks, and a light lunch that will just fit the occasion.

The Fair will be open evenings only, with the exception of the last Saturday afternoon which will be exclusively for children.—Adv.

A LADY IN IOWA

Writes about the "DURO"
as follows:

"The 'DURO' Pump works fine, is no trouble and I get plenty of pressure all over the house and my bill for electric current has never been over one dollar and five cents per month for pumping and light together."

Do you know of any modern convenience so necessary as plenty of water at the turn of a faucet, that you can get for so little cost?

We sell complete "DURO" outfits for pumping from wells, cisterns, springs, lakes or streams. We are always glad to have you call and ask us about "DURO" Residence Water Systems.
