

MOTHER'S DAY  
MAY FOURTEENTH

In a proclamation given out by the Governor of Michigan under his seal and the Great Seal of the State he specifies that May 14, will be Mothers Day and he asks the people to remember this in their several places of worship on that day.

The following is the proclamation: "Following the beautiful custom with which we have become familiar in recent years, the time has come to name a day to be known as Mothers' Day, a day whose observance shall honor the memory of our departed mothers and pay tribute of gratitude and affection to those who are still with us. In the watchful, tender care which guided our earliest footsteps, in the constant planning for welfare and our happiness, in the unflinching love that has blessed us all through the years up to manhood and womanhood and that still blesses and cheers us, though it be but a dear memory, in these things we find abundant reason for humble and grateful acknowledgment of the debt we owe our mothers. The very name of mother is a synonym for love and devotion and willing sacrifice.

Therefore, by virtue of the authority vested in me as Governor of the State of Michigan, I do hereby designate and proclaim Sunday, May fourteenth, 1922, as Mothers' Day, and I call upon our people, both old and young, to gather in their several places of worship and take part in services appropriate to the day.

And let absent sons and daughters take this occasion to visit the mother in the old home, or, where such a visit is impossible, let them send a message of cheer and greeting.

In accordance with a resolution of the Congress of the United States, I further request the people of Michigan on the day aforesaid to display the United States flag in their homes and in other suitable places, as a fitting expression of their desire to pay homage to American motherhood.

## OPERATED HOSPITALS

**ILLEGALLY DISCOVERED.**  
Jackson, Mich., May 4.—It has been discovered by the county supervisors that the county has been operating the contagious and tuberculosis hospitals of this city illegally. No records can be found whereby the county ever took over control of the institutions. The cost has been an average of \$70,000 a year, for the last two years. Each bill paid is declared illegal. A resolution was adopted by the supervisors that the county enter into an agreement with the city to operate the hospitals upon a contract.

## LAND CLEARING TRAIN

**RUNS IN MICHIGAN.**  
The most extensive land clearing campaign ever undertaken in Michigan was launched on May 2, when the special land clearing train started from Menominee county for a two months run through the Upper Peninsula.

Later in the summer the "train" transported by motor trucks will cover sections of the northern part of the lower peninsula.

Demonstration of the various methods of removing stumps will be made by the train crew during the campaign. The use of stump pullers, pilers, explosives and all other operations in connection with land clearing work will be illustrated. One-day schools will be held along the route at the different stops made.

L. F. Livingston, land clearing specialist at the Michigan Agricultural college, will be in charge of the train, assisted by a large staff of college and other specialists.

## CITIZENS TRAINING CAMP.

Thomas R. Persol of Ann Arbor has been made the County chairman of the Citizens Training camp and he has appointed E. P. Steiner local chairman. Mr. Steiner will receive applications and will arrange for physical examinations of those who desire to enter the summer training camp at Camp Custer.

Mrs. Carrie Schiller and daughter of Jackson, Mich., and Mrs. Reuben Schiller and family of Stockbridge, Mich., spent Sunday with Mr. and Mrs. Elmer Marsh.

Mr. and Mrs. E. A. Moeckel and Mr. and Mrs. E. A. Moeckel, of Jackson, Mich., spent Sunday with Mr. and Mrs. Elmer Marsh.

Mr. and Mrs. E. A. Moeckel and Mr. and Mrs. E. A. Moeckel, of Jackson, Mich., spent Sunday with Mr. and Mrs. Elmer Marsh.

## REV. KRAUSE RESIGNS

Pastor of St. Paul's Church Will Go To Lansing.

The Rev. G. W. Krause pastor of the St. Paul's Evangelical Church of Chelsea gave his resignation to the church board last week. Rev. Krause has been pastor of the St. Paul's Church for the past two years and his influence and persistent work have made him a strong character in this community. His congregation expresses many regrets that he is to leave.

Rev. Krause came here after leaving the service and took hold of the local church. While in the service he was located at Camp Sherman, connected with the Y.M.C.A. in religious work.

He came here as a stranger and was received with open hands by the people of Chelsea and surrounding community. His welcome made him feel glad that he was in a big and broad minded community. He has built up a large and strong congregation for the church and he states that he has greatly enjoyed the work here. The things in particular that he has built up are a large Sunday School, which has grown a great deal since his pastorate here. Another organization that was started last fall and which is developing into a strong factor in the church is the Women's Auxiliary.

Rev. Krause and family will leave here in July and will go to Lansing where he will take charge of the St. Paul's Evangelical Church of that city. Rev. Krause feels that there are many possibilities in that field and that he can develop them. The new pastor for Chelsea is not known as yet.

Whenever Rev. Krause and family may go it is known that he will be successful and although the people of Chelsea hate to lose such a man, they wish him all the success attainable in his new church and feel sure that he will make many friends in his new community.

## RAISIN DEMAND LESS;

**HOME-BREW IS ON THE SKIDS.**

Washington, May 4.—Home brew is on the skids.

That is the conclusion of government authorities drawn from the latest reports of the Department of Agriculture covering the declining demand and price for raisins.

How the juicy grape has shrunk whether desired in its natural state for wines or in its dried condition for putting kick into home brew, is shown by the following figures, which represent the values of grape products on the farms for the last three years:

Year	Value
1919	\$102,500,000
1920	105,000,000
1921	68,500,000

Cheaper raisins were an important factor in this drop for 1921," says the departmental announcement.

Back of cheaper raisins, prohibition authorities state, is the decline in home-brew activities.

"The average home-brew artist found it was too much fuss for a little firewater," it was explained. "They produced more good headaches than good booze."

"To get a good article required too much time and attention, and it didn't take the aspiring but perspiring brewmaster long to get weary of cleaning up the mess he was sure to make."

The result was that the grapes going into raisins and grape juice last year were worth \$30,000,000 as compared more than \$60,000,000 in 1920. Raisin producers are fighting hard to stimulate general use of their product by homebrowsers to offset the loss of demand for homebrew operations.

## LIVESTOCK BURNED.

Two hundred head of livestock were burned to death when the barns in which they were housed on the farm of Simon Kross of Laull were destroyed by fire Monday night. The loss as reported to the state fire marshal included 50 cattle, 100 sheep and 100 lambs. The nature of the fire led to the belief that it was the work of incendiaries. Deputy sheriff Harry Smith was detailed to investigate.

STATE SURVEY  
COMMITTEE

David Friday Will Lead Committee Which Will Gather and Compile Facts.

David Friday, president of the Michigan Agricultural college, has been chosen to head the advisory committee which will have in charge the extensive survey of Michigan's natural resources, it was announced today. The work of all departments co-operating in the survey, will be under direction of John A. Doella, commissioner of agriculture.

The purpose of the survey, according to Commissioner Doella, is to gather and compile information concerning natural resources, so that the agricultural and industrial development, as well as the resort industry, can be given all the aid possible.

The agricultural college, with the co-operation of the department of agriculture, will have charge of the soil work. This will include examination and analysis of soils in each county, together with the determining of necessary fertilization treatment and the most profitable crops.

## POST OFFICE GETS PAINT

People entering the post office of Chelsea received many thrills the last few days. At first there was only the smell of varnish but later came the real smell of paint. Although the local post office may have been in need of some new paint the color scheme on the inside at present is by no means ancient. Just whether the color is a robin's egg blue or a pea green has not been decided by the town gossip but never-the-less it does not contrast to the usual colors of maroon and white as given to most government buildings. Several persons rushing into the office were unfortunate enough to get some of the New paint on their clothes and it is said to be hard to remove light colored paints.

## BOARD OF COMMERCE MEETS.

A regular meeting of the Board of Commerce was held last evening at the Firemen's hall. Discussion centered around the matter of the Guy Motor Co. Mr. Hanover, general manager, was present and answered the questions and gave information regarding the plant. The matter of financing the portion of the deal that will fall upon merchants of Chelsea was reviewed and steps taken to complete the affair. It is expected that by next Tuesday to know definitely how the affair stands and when the plant will come here to take possession. No other business, meeting adjourned.

## LOCAL FORD SALES FOR APRIL.

Palmer Motor Sales report the following sale of new Ford cars and tractors during April: Touring, Ed Weber, Oscar Visel, John Goetz, Ray Franklin, Clair Walz, H. B. Stouffer, Sedan, Mrs. Jacob Hinderer, W. H. Hoeselshwerdt, E. A. Fahrner; Coupelet, Dr. Faye Palmer, Dr. S. G. Bush; Delivery, Mrs. Elvira Clark Visel; Truck, Ed. Frymuth; Tractor, Fred Bahnmiller, Alvin Baldwin. A Lincoln Judkins was delivered to Conrad Lehman.

## DETOUR OF TRAFFIC

**THROUGH CHELSEA**  
Road work has been started on the main highway west of town, and detours are being laid out for traffic. Signs are being put up in town and at road corners to direct traffic. This detour will cause traffic to go through the business district to Middle St. This fact should be of considerable interest to business men. The work on the highway consists of completing the layer of asphalt as a top dressing for the road.

## MILLION DOLLAR GIFT

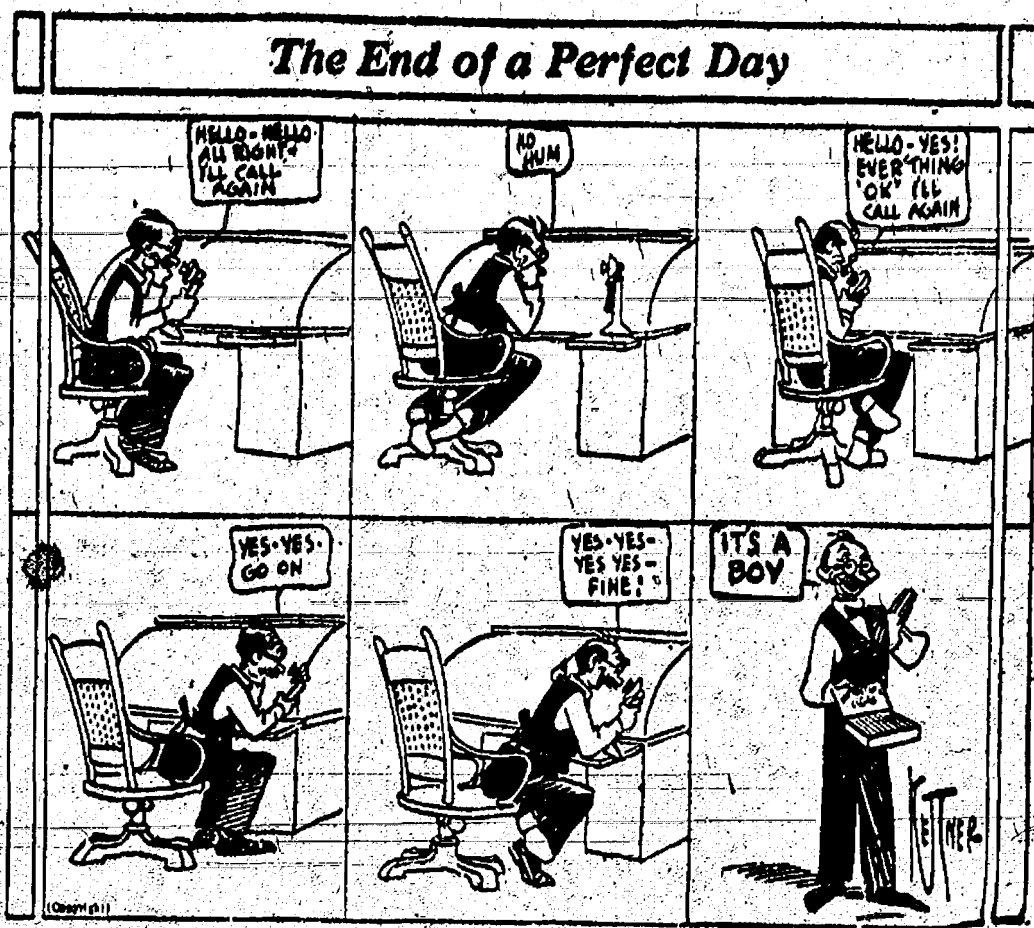

**TO THE U. OF M. BY AN UNNAMED DONOR.**

An unnamed donor has presented the U. of M. with a Lawyer's club building, the cost of which will run into the hundreds of thousands of dollars, if not the millions. At a meeting of the regents, held Friday, the gift was accepted and it is expected that its erection will begin in a short time.

It will occupy two blocks on South University street and Tappan avenue, will contain bedrooms and studios for some 150 law students, and a dining room that will accommodate 800.

Dues and profit from the operation of the building are to be used exclusively for law research work. It will be controlled by five trustees selected from the law faculty of the university.

Plans for the building have already been prepared by New York City architects. It is of a gothic type of architecture and all the details have been worked over with great care. Contracts will be let as soon as the detailed drawings are finished, though it is said that perhaps only a portion of the building will be erected this year.

## TRIBUNE HAS LATEST

## MARKET REPORT.

People of this community will be interested to know that The Tribune is making another change. Starting with this issue The Tribune will publish every Friday a market report giving the latest market facts and quotations. These figures will be the latest that can be obtained up to the time of printing. We feel sure that this will be of interest to many of our readers. If there are any other features of any kind that readers of The Tribune would like to see published just drop us a line and we will do all in our power to obtain such features.

## TWO BONUS PLANS GO

## TO HARDING.

Chairman McCumber of the senate finance committee was authorized formally Thursday by the majority of that committee to present his soldiers' bonus plan, with the bank loan provision, to President Harding as the committee plan.

Senator Smoot, Republican, Utah, however, informed the committee he also would lay before the president his bonus plan, which contemplates a 20 years' endowment life insurance plan without specific provisions for loans to be made to veterans.

Chairman McCumber will be accompanied to the White House by several other members of the committee majority. He will ask Mr. Harding to approve the committee draft of the bonus, which differs little from the house measure except the so-called reclamation provision is eliminated.

## OFFICER VIOLATES

## DRY LAW, FINED.

Flint, Mich., May 4.—William V. Brown, former policeman, arrested several weeks ago, charged with having liquor in his automobile, pleaded guilty before Judge Fred W. Brennan, Thursday. He paid a \$50 fine rather than spend six months to a year in the Ionia reformatory. Walter King was fined \$100 or 65 days in the Detroit House of Correction for a like offense.

## TEACHERS PAY

## RAISED IN FLINT.

The board of education of Flint, Michigan, have decided to increase the salaries of teachers there next year. The National Educational association salary scale, providing a maximum \$2,225 a year and \$1,400 as a minimum. Flint has been at the bottom of the list and because of this it has been hard to hold competent instructors.

Fact that the world's diamond supply has been cornered will make a fine alibi for June grooms.

## NINE DEAD

## THIRTY INJURED

## Terrific Tornado sweeps Texas.

## Property Loss Reported

## \$400,000.

A tornado swept across Texas yesterday killing 9 and injuring 8, and doing property damage estimated at \$400,000.

Reports today said the storm which struck Austin extended across a path seven miles wide and reached about equally on either side of the city. Lockhart, thirty miles south of Austin, reported an electrical disturbance but no wind.

Wire connections are badly crippled in the vicinity of Austin. Telegraph companies have reported crippled wire service to San Antonio.

Reports indicate that the storm almost encircled Austin. South Austin felt the force greatly, limbs of trees being torn loose and hurled high into the air. Telephone and telegraph wires south are reported out.

The tornado was followed by a heavy rain and hail almost as large as hen eggs. The extent of damage from hail has not been determined but may be high.

STATE WOLF TRAPPERS HITTING STRIDE.

U. S. Predatory Animal Inspector Completes Organization.

Lansing, Mich., May 1.—The organization of professional wolf trappers under the direction of the U. S. Biological Survey, operating in the Upper Peninsula is about completed.

There are 26 of such trappers under the personal supervision of J. Stokley Ligon, U. S. Predatory Animal Inspector. These trappers are paid out of funds secured through the extra \$1 received from the sale of deer hunter's licenses. Their salaries and expenses are not in any way met by the taxpayers. This is an improvement on the old bounty system, wherein the taxpayers were asked to appropriate large sums to pay for bounties upon noxious and predatory animals and vermin.

The report covering the operations of this branch of the Conservation Department's activities will be ready sometime in July, at which time the trappers will have completed one year of service. At this time, it will be extremely easy to judge as to the efficiency of this new idea and there seems to be no doubt that some very interesting facts will be available at that time.

The trappers do not endeavor to catch or hear animals but confine their efforts to the extermination of wolves, coyotes, fox, bobcats, lynx and other injurious animals and birds.

One trapper, alone, has sent in 48 wolves since he has been operating in less than nine months.

Some of us just leave it to the side and we have our side.

## DEPOT BURGLARIZED

The Ann Arbor depot in Howell was broken into Saturday night, April 29, and ten dollars in money was taken and possibly some tickets, which were of no value to the thieves. Entrance was gained through a window and with a sledge hammer the combination plate of the safe was broken and the lock picked.

Rev. H. R. Beatty was in Grass Lake last Thursday where he preached the funeral sermon of a former parishioner, C. S. Bradley. Mr. Bradley was an old soldier and was a mail carrier. He was a Mason for 40 years.

Miss Frieda Schmidt was in Jackson Wednesday.

## CATARRHAL DEAFNESS

is greatly relieved by a constitutional remedy. CATARRHAL DEAFNESS is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous surfaces of the Eustachian tube. When this tube is inflamed you have a running sound or humming in the ears and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRHAL MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists. F. J. Cheney & Co., Toledo, Ohio.

## Cultivates Thoroughly—Easy to Operate

The John Deere Walking Cultivator is the "Old Reliable" of this section. Satisfactory use over a long period has gained for it recognition as the standard for good work and ease of operation.

## JOHN DEERE WALKING CULTIVATOR

The sign on this cultivator swing level in all positions and at all depths. This makes it exceptionally easy to swing the gangs, and insures uniform cultivation which brings maximum results. And you can adjust the depth of cultivator accurately for all conditions of ground by means of a tail bar which takes only an instant to adjust. The hanging device is another exclusive feature—when hitched, it is raised by a crop the tendency of the sign to swing to or from the row is entirely overcome by changing the location of the lifting spring in the yoke. This is a feature that you will appreciate fully. You can make this adjustment in a minute. The hanging device is easy, the sign is a permanent position, the lifting spring is just as easy as the hanging device. Another point—you can swing the cultivator to the width of rows. This makes it do good work in all rows.

You will like the John Deere Machine when you see Samples are set up for your inspection. Come.
