Address all communications to the Tribune, Chelsea, Michigan

The Chelsea Tribune is mailed to any address in the United States at \$1.50 the year, 75 cents for six months and 40 cents for three months.

PIONEERS.

Dr. A. Hrdlicka, anthropologist of the Smithsonian institution, says the tallest physical types in the world are the descendants of the old American families, "three to eight generations born American."

Adult women of this classification average 5 feet 4 inches tall, adult men 4½ inches taller. Their heads also are of good size, particularly among the women.

Back of this "good stock" are pioneer Americans, made such by superactive endocrine glands. Their thyroids gave them the energy to revolt against old world tyranny and cross the ocean into the wilderness, seeking freedom.

Their adrenal glands gave them reserve energy to endure pioneer hardships. Active pituitary glands, which regulate the size of the skeleton, bred tall descendants.

SWINDLE.

A familiar old rat is dragged into the open again. Congressman Denison, advocating his national "blue sky laws," says Americans lose \$500,000,000 a year on worthless securities. It is a deplorably large sum, and any effort to lessen it is commendable.

However, based on the combined income of all Americans in normal times, \$500,000,000 of plunder yearly means that, on the average, swindlers get only \$1 out of each \$70 of our income.

We are swindled out of many times that much by the trickery of some so-called "legitimate" business transactions. Interest centers on the deliberate swindler because he doesn't give us a run for our money.

HENPECKED SOCIETY.

A secret organization of henpecked husbands has been in existence continuously since the year 3897 B. C., according to a claim set forth on this interesting fraternity's letterhead.

Any husband who feels that he picked a lemon in the garden of love, and wants to join, should write to the Ancient and Honorable International Order of Henpecked Husbands. Its headquarters are at Sowerby, near Bradford, England.

Applications are rigidly probed, to keep the organization exclusive for the superlative hen pecked.

Women might start a similar society. For every henpecked husband there are at least two rooster pecked wives. The joke writers, however, are quiet about that. They are men.

TALK.

Nineteen billion conversations were carried on over American telephone wires last year. Telephone companies, having figured this out, also find that the distance covered by these messages was 45,000,000,000 miles. Six million messenger boys, working nine hours a day, would be required to deliver all the messages that pass over the telephone wires.

Forty-six years ago, there was only one telephone in the world—the original model belonging to Bell, its inventor. It was a crude device, compared with the phone you use today.

Perfection comes rapidly in our age. Do you remember when you had to turn a crank to attract central's attention?

PRICES.

Prices are going to keep on falling gradually for the next 30 years, predicts Charles Henry Mackintosh, international president of the Association Advertising Clubs of the World.

Mackintosh believes that industry, until about 1950, faces the problem of getting business in a falling instead of a rising market.

The minority of leading economists have the same idea, based on past experience. History of prices is an upward movement for 20 years, then down for 30, the cycle repeating.

When it comes to "the new price level," authorities disagree. We don't know where we're going, but we're on our way.

DIKI-DIKI.

Diki-Diki, prince of Ubian island in the Philippines, says he will give his fortune to any girl of his size who will marry him.

Since it's considerable fortune, some young ladies will be interested in his size. Diki-Diki is 3 feet 4 inches tall. He would prefer not being a dwarf.

If he could have been born a generation later, medical science would be able to adjust the pituitary gland in his brain, thus making him of normal height. Giants and dwarfs are pituitary freaks.

The boy who grows so fast he can never get enough to eat is animated by an extremely active pituitary gland.

SAVED.

When labor saving machinery was first introduced, most people opposed it on the ground that it would throw many out of jobs. Many an oldtime sewing machine salesman still carries buckshot in his legs, fired there by "practical" gents who objected to the devilish device that took work from seamstresses.

Today we realize that labor saving devices merely shift work-ers into new industries—and raise the standard of living.

You see this illustrated in the American telephone system that does the work of 6,000,000 messenger boys.

IN CHOHOL.

From the mountains near Hickory, N. C., comes a story of a young fellow who runs his auto on moonshine. A copper coil takes his fuel as it is needed, exploding the vapor before it comes into liquid form. He carries a reserve supply.

How far off is the day when alcohol will take the place of gasoline? It could be dirt cheap, for it can be made out of anything.

Belongings to corn stalks, as home brewers have found. It has just bought an inventor's formula for it in mind. You may buy it later.

LIVE STOCK

SEVERAL USES FOR ALFALFA

Experts Term It Nearly Perfect Forage—As May It Is Unsurpassed for Feeding.

(Prepared by the United States Department of Agriculture.)

"A nearly perfect forage"—that is the height of praise heaped upon alfalfa by R. A. Oakley and H. L. Westover of the United States Department of Agriculture in a new Farmers' Bulletin, Utilization of Alfalfa, just issued. And when the good qualities of this crop are enumerated it is evident that some such description is warranted. As a hay it is unsurpassed for general feeding; as a pasture it has a high carrying capacity and produces large gains; as a silage crop it is valuable with proper handling; it

Cattle Grazing on Alfalfa.

makes excellent silage; and when ground into meal it is a good and easily handled feed. In addition to these good qualities it is of great value as a soil improver. Attempts have even been made to introduce it as a human food and as a medicine, but it cannot compete with other staples as a food and it has no special medicinal properties.

Although not detailed enough to make laborious reading, each subject from haymaking on through to alfalfa meal manufacture, and a consideration of fake and fad alfalfa products, is treated so fully as to give the reader a thorough understanding of the possibilities of this great crop. Those who are inclined to be too enthusiastic over certain uses will find reason in the collected experience of many growers and feeders to modify their views for alfalfa is not a panacea for all the troubles of the farm and feedlot. Consideration is given to the needs of dairy cattle, beef cattle, hogs, sheep, horses and poultry, and to the uses in various forms, including hay, pasture, silage, straw, rolling feed, tea and meal.

Those who are interested should write to the United States Department of Agriculture, Washington, for Farmers' Bulletin 1229, which will be sent free of charge.

HOW MANY SHEEP TO A FARM?

Plan of Live Stock Production Recommended by the Department of Agriculture.

For 100-acre farms of all-able land a plan of livestock production has been recommended by the United States Department of Agriculture which includes 80 ewes (one ewe to two acres) along with 22 breeding cows and 12 brood sows. Arable land of the best class when used exclusively for sheep, can be made to support from five to eight ewes (with their lambs until marketed) per acre. On pastures suitable for either cattle or sheep five ewes may be considered the equivalent of one cow or steer, and the winter feed required for one breeding cow not in milk would be equivalent to that needed for about eight ewes.

GOOD FEEDS FOR FATTENING

Cane and Beet Molasses Tested at Iowa Experiment Station in Feeding Steers.

Cane and beet molasses are good feeds for fattening steers. The only question, in some cases, is whether it is economical to feed it in competition with cheap corn. Tests at Iowa experiment station, with two-year-old steers, showed a loss on every ration tried, but there was a smaller loss when cane and beet molasses were omitted from the ration in one set of feeding tests. Tests a year ago last winter brought this bit of advice: "Go slowly in purchasing either cane or beet molasses if the price is higher than corn, pounds for pound." If a feeder wants to use a pound or so a day per steer for an appetizer he can afford to pay more for it.

Watch the Ewes Closely. Pregnant ewes should be closely watched and means devised that each member of the flock receive proper care.

Making Money With Hogs. By making small fields and keeping each croppod, hogs may be raised with a minimum of expense.

Excellent Hog Pasture. Dwarf Essex rape makes excellent pasture for hogs. A deep, rich soil is suitable.

Trial by Ordeal. Trial by ordeal still exists in some parts of Japan. If a thief takes place in a household, all the servants are required to write a certain word with the same brush. The conscience is supposed to betray its workings in the waves of the ideograph written. Fruiting an ideograph involves such an effort of muscular directness and undividedness that the thief often leads.

How to Deal with the Gutter. The gutter is a place of all evils. It is a place of dirt, of oil, of grease, of mud, of snow, of ice, of rain, of wind, of sun, of moon, of stars, of planets, of the universe.

Could You Change Flat Tire On Your Car In 12 Seconds?

INDIANAPOLIS, IND.—A car dashes into the pits, a new tire already mounted on a wheel is slipped on and in the twinkling of an eye the driver is back in the chase for the \$100,000 prize hung up for the 500-mile race on the Indianapolis Motor Speedway. Great rivalry exists annually among the pit crews in the making of changes, and will again be true on Tuesday, May 30. In the illustration is Howard "Nig" Shank, chief pitman for Howdy Wilcox, making a change in 12 seconds. Not always can such skilled workers as "Nig" get the driver away in quick time as a year ago. Jimmy Murphy, the only American to

SHARON

Miss Mabel Washburn who is attending the Normal at Ypsilanti was the guest of her parents over the weekend.

Geo. Lehman and family of Royal Oak spent Sunday at the home of Mrs. Fred Lehman.

Misses Edith and Ethel Breidster and Lena Walker went to Manchester Friday to take the seventh grade examinations.

In the Realm of Society

Grandmother's Party.

The S. P. I. gave a Grandmother's program in St. Paul's church Tuesday evening, May 16, which was greatly enjoyed. The program is as follows:

Piano solo, Mada Faist; prayer, Rev. G. W. Krause; song, "Long, long ago," by the S. P. I., silver shreds among the gold, Paul Niehaus.

A farce entitled "Grandma's Sewing Bee" was given and those who took part were: Hostess, Letitia, Katherine Hoffman; Grandma Grey, Olga Stricker; Grandma Wheat, Cora Feickamp; Grandma Miller, Amanda Koch; Grandma Brown, Lillie Hauser; Grandma Rose, Lillie Wackenhut; Grandma Green, Mary Schneider; Grandma Burke, Milda Nicolai. The farce included the following musical program: "Old Lang Syne, Grandma; violin solo, Grandma Wheat; trio, Love's Old Sweet Song, Grandma Miller; Grandma Brown and Grandma Green. Recitation, Friday p. m. at school, Grandma Rose; piano duet, Grandma Grey and Letitia; song, Bless be the Tie That Binds, Grandmas.

The program was concluded with solo, Little Mother O' Mine, Rev. G. W. Krause; solo, Grandma's Love Letters, Katherine Fletcher; solo, Mother Maihree, Paul Niehaus; prayer, Closing song, Home, Sweet Home.

Surprise Party.

Twenty-six ladies from Chelsea motored to the home of Mrs. Jay Tuttle Wednesday evening and gave her a pleasant surprise. A delicious potluck supper was served. In the evening a musical program was given.

500 Club.

Mrs. B. B. Turnbull entertained the 500 club at six o'clock dinner, Thursday evening.

Bake Sale.

The Ladies Aid society of the Salem Methodist church will hold a bake sale at the Chelsea Hardware store, Saturday, May 20, beginning at 2:30.

Shower for Mrs. Staffan.

The Misses Margery Mitchell and Rhea Yale entertained the teachers of the public schools Monday evening at the home of Mrs. Alice Roedel at a miscellaneous shower in honor of Mrs. Frank Staffan.

Entertained at Dinner.

Mr. and Mrs. H. D. Witherel entertained Mr. and Mrs. J. E. McKune, Mr. and Mrs. Geo. Staffan and Mr. and Mrs. Ford Axtell at six o'clock dinner, Wednesday.

Leaves for New Hampshire.

Lieut. Carl C. Chandler leaves Saturday for Portsmouth, N. H., in connection with the transfer of the U. S. S. Dubuque from that port to Detroit. The U. S. S. Dubuque will be stationed permanently at Detroit as a training ship for the Michigan Naval Reserve.

Entertains Mysterious Night.

Miss Margaret Miller will entertain the Mysterious Night club at her home on Summit street this evening. The evening will be spent in playing bridge after which light refreshments will be served.

S. P. I. Meet.

The S. P. I. will meet Monday evening, May 22, with Miss Amanda Koch. A patriotic program will be given.

A number of Chelsea people are attending the May Festival concerts in Ann Arbor this week.

Thursday with a few prime selling at \$12, and bulk of sales as follows:

Best \$11.50
Others 5.00@10.50

Goat Mothers Puppies.

An interesting fact was learned at Tulsa, Okla., when a mother goat on the ranch of a millionaire oil man was discovered with eleven registered Airedale puppies she had adopted. The mother of the pups became suddenly ill after the birth, and at the same time a mother goat lost its kid, so the rancher placed the pups to nurse standing up. However, after a week elapsed, the foster mother lay down and allowed her puppy family to enjoy their meals at all hours in a natural position.

HENS CORNER FOX.

Guinea hens have never been classed among the predatory wild animals but they should be, judging from the flock owned by John Hunter of Mid-dletown, N. Y. Mr. Hunter awoke to a terrific racket in his hen yard, rushed downstairs to find that the fowls had cornered a fox and were giving it the battle of its life. He killed the fox.

Just about the time man decides he has conquered the air you hear of him falling down again.

Evils of Constipation.

Perhaps the most serious of the diseases caused by constipation is appendicitis. If you would avoid this dangerous disease, keep your bowels regular. For this purpose Chamberlain's Tablets are excellent, easy to take and mild and gentle in effect.—Adv't.

The mines of the Oliver Iron Mining Co. in Iron Mountain, New York and Stambaugh resumed full time operations May 8 after being idle since last June except for part-time operations in the last two months. About 1,075 men in the district, including 550 at the Chapin mine here, 350 at the Aragon in Norway and 175 at the River-ton in Stambaugh, were given work. No change was made in the present scale of wages. The mines will operate six days a week with night shifts.

The shortest case ever tried in the Calhoun County Circuit Court was heard by Judge Walter H. Smith, at Marshall, when Mike Vulpe, of Battle Creek, charged with violating the prohibition law, was found guilty. A jury was secured and sworn, the prosecutor made his opening statement to the jury and the defendant made the testimony of three witnesses. The testimony of the witnesses made the judge's charge given and the verdict reached in 57 minutes.

Mrs. William Robbins obtained a divorce from her husband at almost exactly the same hour that he lost his life in Grand river. City park Jackson, while trying to keep Mrs. Robbins outland from drowning. Robbins alleged infatuation for the woman and alleged cruel treatment of his wife were the grounds on which the divorce was granted by Judge George Welmer.

Not until after the funeral did Big Rapids neighbors of Mrs. Jane Atmitt know that she was the famed "Dolly," the world's fattest girl of circus fame, hence several years ago. She weighed more than 400 pounds a few days before she died. She did not receive callers and had lived with her daughter at Big Rapids several years.

CATARRHAL DEAFNESS

Is greatly relieved by constitutional treatment. HALL'S CATARRHAL MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRHAL MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists. J. J. Cheney & Co., Toledo, Ohio.

Gosh, Ain't It Grand, Pa!

Wasn't that jazz band we heard over our wireless great! And the singing and bedtime stories! Don't have to make me stay in at night. I just naturally want to!

Parents will find a radio set the shortest way to a live boy's heart. Besides being the greatest educational medium in the world, it affords all kinds of amusement to members of the family. And the best part of it is that the broadcasting service is sent absolutely without cost to the receiver.

Every night the air carries concerts, singing lectures, sporting events, agricultural reports, and other timely matter of interest.

Crystal Radio Receiving Sets \$15 to \$25
Vacuum Tube Receiving Sets \$36 to \$135
