

CAVANAUGH GETS FINE LOT OF FISH

10 Cans Received Saturday Night and Put in Lake.

Saturday evening ten cans containing some of the finest fish one would want to see were received here by Geo. P. Staflin to be planted in Cavanaugh Lake. The special car sent out by the state department of conservation brought the fish here early in the evening and they were taken at once to the lake and freed.

The fish ranged in size from about 3 pounds down. They were all big healthy specimens of bass that would make any fisherman's blood jump to have on the end of his line. The fish were taken out of the lake in a large truck as soon as possible and released. Care was taken in every way to save the fish. Because of their size and strength it is thought that they will all survive.

But the thing that would make most anyone want to think that these fine specimens were no sooner put into the lake than some men, who might call themselves sportsmen, were out in boats trying their best to catch one. These fish were weak and not accustomed to the new waters, no doubt they were hungry but why would anyone want to go out and try to catch them right away?

They were put there with the idea of aiding in replenishing the stock of fish in the lake but to what avail will be if they are removed as soon as they are put in? Fishing restrictions on that lake for a time would be a big benefit and then later all would have a better time. But the man that would go out and try to catch even though he did not catch one of those fresh fry that were just put in is no sportsman.

CLOUD BURST AT BASE LAKE

Word from Base lake reports a cloud burst there yesterday afternoon. The rains have been in big demand in this vicinity for some time but the value of such a rain is hard to determine.

Several people had good shocks during the rain. The storm which came up in a big hurry caught two women out on the lake in a canoe. The wind was so strong they were unable to control the canoe and it upset. They were in bathing suits but were given a great deal of trouble before they could reach safety.

CHELSEA ALMOST GOT A REAL SHOWER.

The much sought for rain almost came Sunday evening and again Monday afternoon but all told the rain was by no means enough for the best benefit of the community. Sunday afternoon just as the ball game was over a slow steady rain started to fall. This was just what was needed and had it only continued for several hours it would have done a great deal of good.

Monday afternoon the sky darkened and it looked like we were in for a good hard rain but instead it was only a short shower. The hot dry winds that have been sweeping this country have taken most of the moisture from the ground. Although the people have not been suffering from extreme heat at any time the continued warm spells with the warm winds have dried the ground.

Corn and other crops that are doing so fine are in need of hot weather but also of moisture. The worry of the farmers now is that the rains will come at the wrong season when they are not so much desired.

Mr. and Mrs. Carl Schweikert and sons and Mrs. Fred Clark and daughter visited Sister Ethel Rita and Sister Victorine in Adrian, Sunday.

MANCHESTER BOY IS DROWNED AT RAILROAD BRIDGE

Manchester, Mich., July 17.—The dead body of C. Dennis, 7-year-old son of Mr. and Mrs. Spencer Dennis, was found in the River Raisin near the New York Central railroad bridge, East Manchester, tonight about 10 o'clock, following a search of several hours with boats and lights.

Missing the boy at supper time, the parents started a frantic search for him. It is said the last seen of him was at the bridge by section men, who were passing on a handcar about 5 o'clock.

The body was found by William Chambers.

NEW BAGGAGE MAN, TRUCK AND WAGON.

An office that has been vacant for some time has again been filled. Chelsea has been getting along without a baggage man for several months but last week George Runciman was given this job. His hours are during the day and he will have charge of the baggage and mail.

Two other new additions were made at the depot last week. In the first place a new mail wagon was put into service and the second was a new baggage truck. Both are all painted up fine and made a stately appearance at the depot. The new truck was given a christening Sunday evening when it was used to haul the cans containing the fish fry from the train to the automobile.

ROOSTER INTRUDES ON GRANT DAY CEREMONY; CROW HEARD 30 MILES

The geese whose cackling saved Rome, will please move over and make room in the zoological hall of fame for a rooster which has established a claim to historical recognition by sharing a program with the President of the United States and breaking the long distance crowing record, into the bargain.

Shortly before the exercises in commemoration of the anniversary of the birth of Ulysses S. Grant were begun at Point Pleasant, Ohio, on April 27, the chattering in question, no doubt unable to master the feeling of local pride which the other four score inhabitants of the little village were more successful in concealing, mounted to the rostrum and crowed lustily.

The feathered orator's tribute to his honored fellow townsman was heard distinctly in Cincinnati, thirty miles away. It happened that the bird had selected for his unsolicited addition to the program a point directly in front of the transmitter connected by telephone wires with the Bell loud speaking apparatus which enabled a crowd of 20,000 people gathered in Lytle Park to hear the entire program at Point Pleasant.

HOLSTEIN BREEDERS TO HOLD FIELD DAY.

Washtenaw County Holstein breeders have arranged for a field tour of several breeders herds and a picnic dinner at the home of William Austin South of Saline on Saturday, July 29.

The breeders have arranged to assemble in two groups. One group will start from the Huron Hill farm at Belleville at nine o'clock and from there will visit the Bailey herd North-east of Ypsilanti and arrive at Braun Bros. North of Ann Arbor at eleven o'clock where they will be joined by the group of breeders from the Western part of the County.

This group will assemble at the farm of Gay Taylor Gage of Manchester at nine o'clock from there they will visit the farm of R. B. Waltrous and arrive at Braun Bros. at eleven o'clock.

The entire delegation will visit the farm of W. L. Rundell, North of Saline at 11:45 A. M., arriving at the Austin farm at 12:30 P. M. for dinner. The Association is planning an interesting program. They expect to have a representative of the Michigan Agricultural College and the Holstein Breeders Association present. The Agricultural teachers from Milan, Manchester and Ypsilanti are planning to have a judging contest by teams selected from their students.

PLAY PROGRAM.

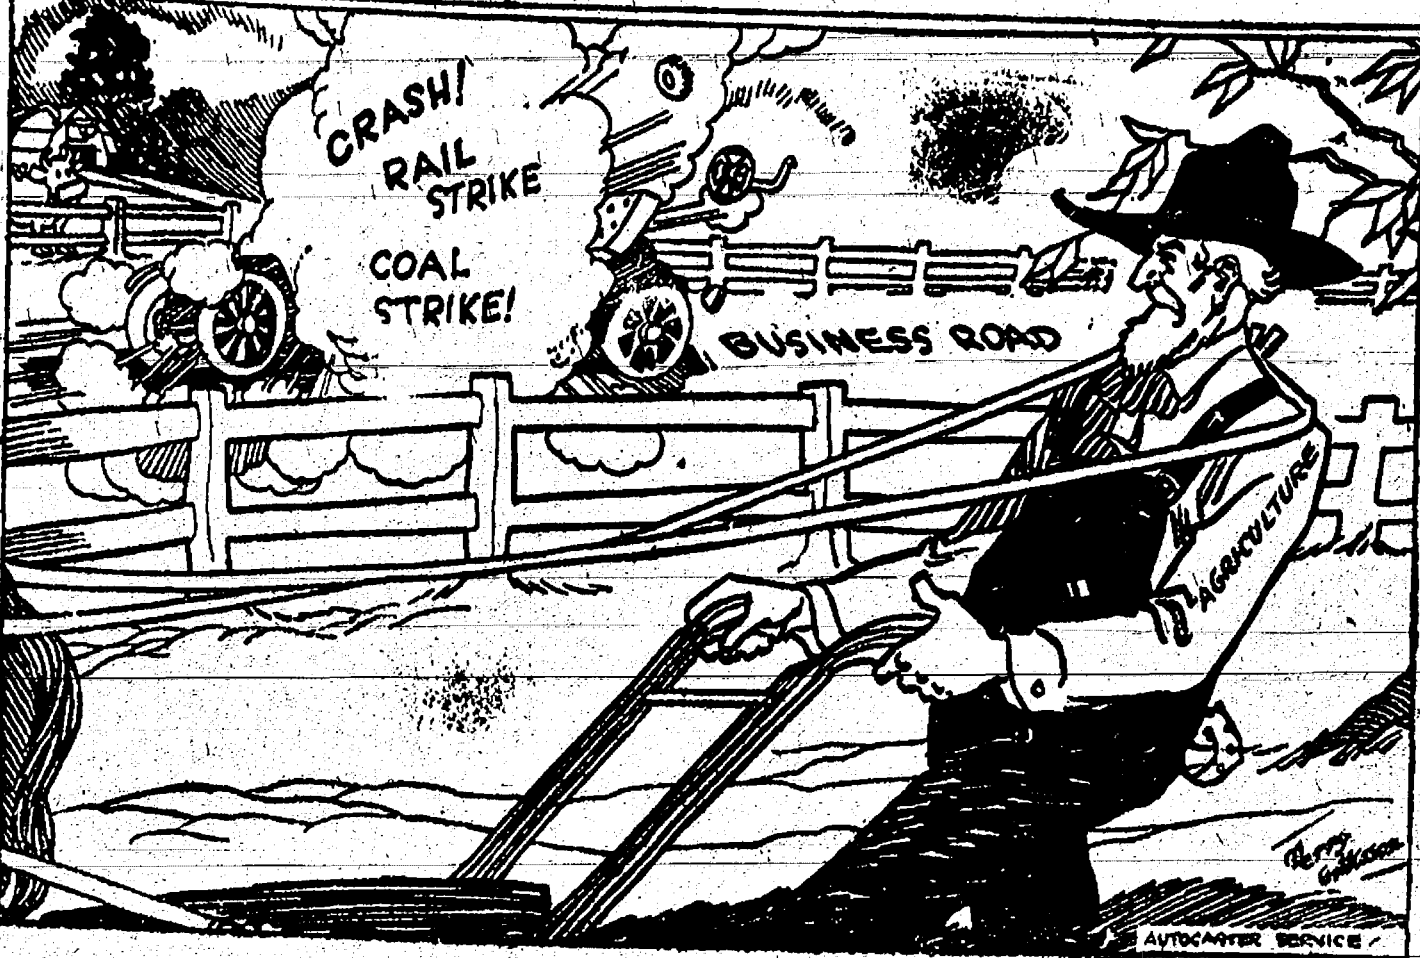

The Thursday evening play program was again a success and the idea is to be continued each Thursday night until further notice. Claire Rowe will have charge of the games for the adults and Miss Marion Schmidt will have charge of the children's games next Thursday evening.

LOSSES MONEY.

J. W. Speer lost a roll of bills Thursday, sometime amounting to about \$50. Mr. Speer drew his pay Wednesday and paid several bills. He did not miss his loss until Thursday.

David and Wayne Beatty visited friends in Williamston Sunday.

No Joy Riding on his Side of the Fence

ACCIDENT ON MANCHESTER ROAD

Harold Klingler, had a narrow escape from serious injury Sunday P. M. while driving south on the Manchester road. After turning the Wilkenson corner Mr. Klingler lost control of his Ford car and ran into a large tree. He was accompanied by Miss Florence Strait who received slight injuries about the head. Mr. Klingler escaped unhurt. The machine was badly wrecked.

Mrs. Louis Dreyer of Plackney is spending some time at the home of her son J. C. Dreyer.

PREMIUM BOOKS NOW READY.

The Washtenaw County Fair Premium Book is now ready for distribution and arrangements have been made to place one in every mail box in the county. Any person not receiving one by July 28 should notify the Fair Office promptly so one can be mailed. Each book contains an entry sheet but those requiring more will be supplied upon request.

Abundance of fun and amusement have been secured for the Fair but amusement is only a small part of the requirements of a successful fair. The first and most important is a large and varied exhibit by the growers and producers of the county, and in preparing the exhibit, special attention should be given to Premium Book and Entry sheet rules.

Those who have not already made plans for an exhibit should do so at once by planning ahead and bringing as many different varieties as possible, quite a little of premium money can be won without a great deal of effort.

In the past, many classes that have been open to exhibitors have not been filled, though premium money was offered and could have been had if the class had been filled. Every person who is in position to make an exhibit should realize the obligation and privilege that is his, and by showing what he has, contribute just that much to the success of the fair.

Michigan Happenings

That the life of 16-year-old Nevah Parlee, of Hastings, might be saved four Grand Rapids boys and one girl have given more than 150 inches of their skin for grafting. Nevah, daughter of Mr. and Mrs. Charles Parlee, is a local stranger to them. The first thing she was badly burned last November when, as she was lighting the kitchen fire, a can of kerosene oil exploded and burned the clothes from her body. Since that time she has hovered near death. From one hundred thirty-five pounds, her weight has reduced to sixty-five pounds.

A decree has been entered in the circuit court at Mt. Clemens dissolving the Rungo Farm, Inc., and appointing a receiver. Assets are listed at \$39,000 and liabilities at \$50,000. The organization, composed of nearly 200 farmers of Macomb county, was formed two years ago in a cooperative marketing plan. The organization has been unable to make a profit for some time, and the dissolution suit was brought by the directors. Judson A. Jewell, a director, has been appointed receiver by Judge Willis B. Perkins.

The state military board has been authorized by the state administrative board to receive bids on three proposed new armories. They will be located at Port Huron, South Haven and Ypsilanti. Plans for the armories are now being prepared, and indications are that the board will approve the necessary expenditures when bids are received.

At a special election in the village of Lake Linden, Houghton county, the president and members of the council of the village were recalled by a majority of 88. Over 500 votes were cast. It was alleged in the petition that the president and council had conspired to bring about the appointment of certain men to the offices of president and marshal.

After driving all the way from Quincy, Michigan, with a truckload of fresh eggs, 45 cases, worth about \$400, L. C. Wilcox, of Quincy, stopped at a store at Houghton and Division streets, Detroit, to try and dispose of his cargo. While he was in the store someone drove away with the truck and the eggs. Wilcox reported to the police.

Paul, 12-year-old son of Mr. and Mrs. Merrill Gilman, of Charlotte, was accidentally killed by Lyle Thompson, 10 years old. The Gilman had noticed an old gun in the Thompson home, and while the lads were playing with it, pulled the trigger. The 22-caliber bullet hit just above the heart, killing the lad instantly.

Joseph Rooney, of Hudson, 11 years old, died as the result of injuries received during a severe wind storm, when he was struck by a limb falling from a tree. His skull, collar bone, and one arm were fractured.

Arthur Noble, 45 years old, of Newaygo, was killed instantly when a motorbus went into a ditch, and fell on him as he was trying to escape. The driver and another passenger were but slightly bruised.

The city of Mt. Clemens is facing damage suits aggregating several thousand dollars as the result of used-on-city streets being allowed to run into the river, causing damage to engines of motorboats.

Pontiac firemen, policemen and electrical department employees have circulated petitions addressed to the city commission, asking that a 10 per cent cut in salaries set for August 1 be not put into effect.

Nine lives have been saved by Miss Gladys McCarthy, pretty Ypsilanti Normal college student, who is a guard at the board of education municipal bathing beach at Muskegon.

Europe Greets Former Pres. Taft

Former President Taft made no flamboyant announcement of his trip to Europe this summer, still he is being received with enthusiasm and interest at every center visited. In London he was honored at state affairs and dinners in a way befitting his ability. The fact that he is now chief justice of the United States impresses Europe. The tour is developing into triumphal trip not unlike that tendered other presidents on visits there. Picture shows Mr. and Mrs. Taft arriving in France. It also shows how the former president has lost in weight.

CHELSEA WINS AGAIN SUNDAY 11 TO 7

Detroit Hayes Wheel Team of Jackson in Fast Game.

Chelsea's independent defeated the Jackson Hayes Wheel team Sunday by a score of 11 to 7. At the start of the race it looked like Chelsea, with not her regular line up in the field, might be in for a beating and the game continued that way until the seventh inning. The Jackson team started out in the first and scored but Chelsea was not able to push in a run until the third.

For several innings the game was one of a pitchers battle than anything else. But it was going one way too much because in each inning Jackson was able to get in at least one run and these were counting. Finally Chelsea scored and then again and made the score 7 and 4 until the seventh.

When Woodburn walked three men in succession and forced Dillon in and then Dunn knocked a three bagger and then got home making five runs for that inning before they could be brought to a stop. In the eighth three more runs brought Chelsea's score to 11. Jackson tried hard for a rally in the ninth and succeeded in bringing in two runs but with the rain starting to fall and not much hope the game ended with a score of 11 to 7.

FAKERS.

Frank M. Davis, Chicago postoffice inspector, ran across a letter that offered: "Genuine Canadian rye, \$8 a quart. Only a limited supply. Sent by registered mail."

Davis sent \$8—and got a quart of rye grain.

The two ambitious gentlemen who sent the letter were taken in custody, charged with using the mails to defraud. They must be praying that the jury will have sense of humor.

This is the "best graft" since the fakers who advertised a genuine steel engraving of George Washington for \$5—and filled orders with two cent stamps.

Clever brains like these could get rich quickly in legitimate pursuits. Unfortunately, they are too impatient.

AIRPLANES.

The next big movement in science and engineering will be a popularizing of the airplane. This is inevitable, now that planes are being made cheaply and a way has been found in England to raise or lower them in a straight line instead of requiring a big landing field.

A few more fool proof devices, like gyroscopes, are needed. Then some bright morning we'll awaken to find the airplane coming into general use. When it starts, it will come as fast as the radio craze.

Look for the airplane to change the whole structure of civilization.

CLOWN.

Chew Chew, a health clown, makes the rounds of New York city schools, spreading the gospel of fresh air, proper food and cleanliness.

With him is his little dog, Creamo, whose stunts include pawing his face as if washing when asked what he does in the morning.

The school children are going wild about Chew Chew and Creamo. They are absorbing health facts, because the presentation is made in an interesting way. And they will remember the health clown and what he taught, in their old age.

Making school interesting is the greatest problem of education. People in this boresome civilization remember interesting things, but forget the uninteresting.

BIRTHS.

France is alarmed at her decline of births so far in 1922. Mortality experts compare the birth trend with deaths, and predict that in another generation the French population will be diminishing 200,000 a year.

When France and Germany went to war in 1870, they had about equal populations—40,000,000 apiece. In 1914 France had the same, but Germany had moved up to 70,000,000.

Modern war has wonderful weapons, but none of them is equal to the old standby, cannon fodder. It may have occurred to you, that the war has been over nearly four years and that the process of boys growing to manhood has almost replaced the cannon fodder lost by Germany during the war.

SKILL.

Rudolph Blaschka, the only man in the world who can make perfect glass models of flowers and grass, is "doing" a collection of his works of skill for Harvard's botanical museum.

Blaschka can make an orchid out of glass, perfect even to the delicate colorings. His art was passed on to him by its discoverer, his father.

If you can figure out what put the notion of making glass flowers into the brain of the elder Blaschka, you will know what makes one man want to be a machinist, another a lawyer. Some guiding force is back of it all, keeping a rough balance.

WEALTH.

Do you find it hard to save? Solution is simple. You have noticed that, when you owe a bill, somehow you manage to pay it.

Why not consider yourself in debt to the individual you will be 20 years from now, and make regular payments into a savings account, gradually clearing the debt? Buying a home on the installment plan is a good way.

Jim Hill, the railroad king, got rich by borrowing. He used to say that he never had a dollar of his own, was always in debt. Maybe he didn't have the cash, but he was steadily accumulating wealth.

AGED.

George W. Sherman, 83 years old, cuts out for himself the interesting job of walking 614 miles in 31 days, to join his old comrades at the reunion of Confederate veterans in Richmond, Va. Pictures of the white bearded patriarch look as if, in a pinch, he might cover the distance in two weeks.

Do you think you will be able to walk 20 miles a day for 31 successive days; when you are 83?

Could you do it now?

Our generation is a lot weaker, physically, than the one before us. The schedule points to a race of weaklings a half century hence.

June weddings will boost the rice business.

Don't tell everything you know or you won't be able to come back for the encore.

Most of us know better but few of us do better.

If you must throw, use stones; words are dangerous.

LIVE STOCK NEWS

PUREBRED FEMALES GAINING

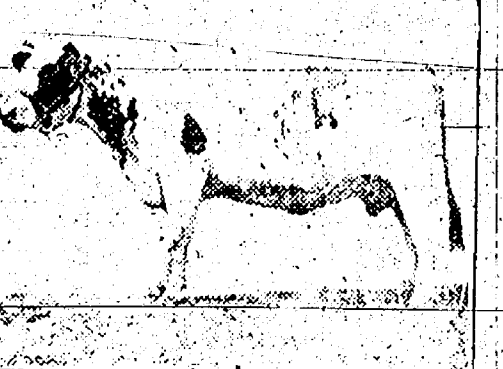

Striking Development in Federal State Campaign for Live Stock Improvement.

(Prepared by the United States Department of Agriculture)

Newsworthy progress during the last three months in the federal-state campaign for live-stock improvement is reported by the bureau of animal industry, United States Department of Agriculture. The most striking development is the increasing tendency for purebred sire users to acquire purebred female stock as well. In the period of January 1 to March 31 of this year, 970 persons filed with the department signed enrollment blanks, indicating by so doing their intention of using of purebred sires exclusively for all classes of live stock kept. This number is an increase of 254 over the previous three months and is nearly three times as many as for the same period in 1921.

Although the department has stressed chiefly the use of purebred sires, records of the "Better Stock, Better Stock" campaign show a gradual rise in the proportion of purebred female animals, including cattle, horses, swine, sheep, goats and poultry. The proportion of purebreds to the total of female animals kept now exceeds 85 per cent. A decline in the proportion of scrub females in herds headed by purebred sires accompanied the rise in purebreds.

The greatest activity during the quarter was in Ohio where 532 persons were enrolled—more than half of the total. Nebraska came second with 185 enrollments, Washington third with 120 and Kentucky fourth with 124. A new state, Michigan, entered the campaign actively. Virginia has been the pioneer state since the beginning of the campaign from the standpoint of persons participating. Nebraska occupies first place in number of animals being bred to purebred sires. Ohio, which at the beginning of the year occupied third place, is now second and is fast approaching the leader. The returns from 150 counties

A Purebred Dairy Cow.

ty, Ohio, show a unique result. There were 180 persons enrolled. The live stock owned totaled 17,220 and among these there was but one scrub, a sow. There was an abundance, however, of grades and crossbreeds, indicating widespread use of purebred sires in the county. Among the ten counties in the United States highest in number of purebred-sire enrollments four are in Ohio. One of them, Hardin county, is second only to Pulaski county, Virginia.

The most active counties during the three months' period were Hancock and Green counties, Ohio, Kirtland county, Washington, Oklahoma county, Kentucky, Dodge county, Nebraska, and Hardin county, Ohio. Comments received by the department from live-stock users show an increasing appreciation of the value of purebreds. Numerous disposals of grade sires to be replaced by purebreds are reported.

GOOD TREATMENT PAYS BEST

Most Profitable Beef Animal is One That Has Capacity to Eat and Produce Meat.

W. H. Peters, professor of animal husbandry at University farm, explains the fact that the most profitable beef animal is the one that has the capacity to eat and manufacture into beef the greatest amount of feed, and not the one that can subsist on the least and poorest ration.

"There are thousands of two and three-year-old beef cattle that can eat plenty of feed," he says, "but many of them are not able to manufacture much beef out of it, largely because their growth was stunted, their vitality weakened, and their beefy conformation lost through lack of proper and sufficient feed when they were calves."

"Present high prices for cattle and feed," says Mr. Peters, "make it more clear than ever before that there are two ways of securing a profit from beef cattle: through the production of a good, well-grown beefy type of animal, and by keeping down the cost of production to the minimum consistent with full development."

Sows Need Exercise.

In order that the sow may come to farrowing time in proper thrift, it is necessary that she have plenty of exercise.

Save the Little Pigs.

Save the little piglets. A little piglet will grow into a \$20 porker by October.

Feeds for Growing Pigs.

A good plan is to provide a creep in which the pigs may have access to shelled corn, ground oats and tankage.

Protests against the \$63,800,000 appraisal put on Pere Marquette property by the engineer of the Interstate Commerce commission have been made by the Michigan public utilities commission. The state commission seeks a lower appraisal with the view of cutting state railroad rates.

New gas mains with a length of nearly one mile have been built in the Spring section of Albion within the past few weeks.

Michigan Happenings

Daily air travel between Detroit and Cleveland has now been established. According to the original schedule, given out by C. F. Rodien, president of the Aeromarine Airways, Inc., planes will leave Detroit and Cleveland simultaneously at 9 a. m. daily, and return at 5 p. m. The flying time is 90 minutes. The fare is \$40 for one way of \$75 for the round trip. Mr. Rodien expressed no fear but that patronage will justify the continuance of the daily service, even at prices which are higher than any other form of transportation. Five hydroplanes complete the fleet.

While shocking oats on his farm at Iron Mountain four years ago, the dog Schultz lost his silver watch. A few days ago, while working in a potato patch, his foot struck an object covered with dirt, which proved to be the watch. Every year when Schultz plowed this field he has been on the lookout for the watch. The case was black when he found it, having been subjected to four years of snow, flood, plowing, dragging and cultivating, but the works were in good condition. Schultz wound the watch and it resumed ticking.

Mrs. Margaret Waken has filed four suits in circuit court at Pontiac for \$50,000 damages each, against the Standard Oil Co. of Indiana. Mrs. Waken is the widow of Victor Waken, who with his four children and three other children was burned to death Dec. 13 last when the Waken home, 10-mile road, was destroyed by fire. The fire was caused by the explosion of kerosene that had been placed with gasoline in a Royal Oak employe of the company.

Detroit voters at the primary election on Sept. 12 will have an opportunity to vote on acquiring a tract of 100 acres of land for zoological purposes. More than 12,000 signatures have been obtained to petitions favoring the park-see plan, according to Richard E. Follett, secretary of the Detroit Zoological society. The society offers the city 100 acres at the Ten mile road and Woodward avenue.

In the Realm of Society

Birthday Party.

Mrs. Nina Wiseman and Mrs. Fred Hoffman entertained 12 little folks at the latter's home Monday afternoon, July 17, in honor of Irene Hoffman who was 9 years old and Wayne Wiseman who was 7 years old. The afternoon was spent in playing games and a dainty lunch was served at five o'clock. The table was prettily decorated with Geraniums and Nasturtiums and a birthday cake at each end of the table. They both received many pretty gifts.

Loyal Circle.

The Loyal Circle of the Methodist church will meet with Mrs. Edwin Koebbe at her Cavanaugh Lake home, Wednesday afternoon, July 19. Scrub lunch and please bring dishes. All members are urged to be present and bring a friend.

St. Paul's Auxillary.

St. Paul's Auxillary will meet Friday afternoon with Mrs. Albert Koch. All ladies are requested to meet at the church at 1:30. Bring spoon, cup and saucer.

Willing Workers.

The Willing Workers of St. Paul's church will meet with Miss Dorothy Hietmeier Wednesday afternoon, July 19.

Ice Cream Social.

The men of the A. O. O. G. will give an ice cream social at the Gleaner hall in Waterloo Wednesday evening, July 19. Come and see the men wait table and wash dishes.

Go Fishing.

Rev. H. R. Beatty and S. P. Foster left Sunday on a motor trip to Fishing. Monday morning, accompanied by Edwin Beatty they left for Sage Lake where they will spend the next ten days or two weeks trying their skill with the hook and line.

Entertains.

Mr. and Mrs. H. V. Watts of North Lake View farm entertained on Sunday, Miss Marjory Welkenbach of Wyandotte, Mr. and Mrs. Wm. Baird, Mr. and Mrs. Frank Leach, Mr. and Mrs. Lorenz Bagge and daughter Fay, Mr. and Mrs. Wilbur VanKipper and daughter, Virginia, Miss Florence VanKipper, Mr. and Mrs. A. E. Johnson, Mrs. Edith Contant and daughter Arleen of Chelsea and Mr. and Mrs. Louis Chamberlain of Webster.

Nichaus Recital.

A large and appreciative audience was present at St. Paul's church Friday evening, July 14, to hear the song recital given by Julius Nichaus of Chicago, who gave a varied and interesting program. Mr. Nichaus has been studying for some time has a very powerful voice and during the concert demonstrated his wonderful control and great strength of voice to his many friends. Miss Doris Schmidt ably accompanied Mr. Nichaus in his varied program. The program was a fine treat to the people of Chelsea. Such musicals are seldom obtained except at big costs and when given to the people so that all may take advantage it is fine. Chelsea can be proud to say that such a singer is from their town.

A Son.

Mr. and Mrs. Harry Lyons are the parents of a son born July 18, 1922.

"REPORTED MISSING"

During the extended run of "Reported Missing" at the New Capitol Theatre, Detroit, the Detroit Free Press had the following to say in regard to this picture which will be shown at the Princess next Wednesday night.

"Comedy, drama, burlesque, thrills and mystery are only a few of the ingredients which make 'Reported Missing' this week's feature on the Capitol screen one of the most entertaining pictures shown in weeks."

"So swiftly does thrill follow thrill, and so infectious is the humor of the piece that Sunday's dignified audience forgot its Sunday manners and cheered just as does any enthusiastic small boy at the screening of a wild west holdup. At times the house fairly rocked with laughter, which gave way a second later to a gasp of astonishment at some unexpected stunt or twist in the story."

"One of the most realistic bits of 'business' in the unfolding of the story is the automobile race in which real autos are used. Although the machines really stand still, their wheels whirling on rollers, the effect of speed is gained through the movement of the scenery, giving one all the sensations of witnessing a thrilling race on a speedway."

"'Reported Missing' is not an offering to tax the intellect, but it is excellent shot-weather fun, cleverly acted and lavishly produced. The thrill include a shipwreck, a race between a speed boat and an aeroplane, which finishes in autos as described above. 'Owen Moore and Pauline Carson are seen in the leading roles, but the honors of this hilarious comedy-drama go to big Tom Wilson, well remembered for his work with Charlie Chaplin in 'The Kid' and other comedies. Wilson's antics kept Sunday's audience convulsed throughout the screening and at times the laughter com-

A Daughter.

Word from Arizona.

The following is a letter received from West Helena, Ark. by the Tribune: Miss Grace Buchanan and Oliver Williams entertained with a surprise miscellaneous shower Monday evening at the attractive West side home of Dr. and Mrs. Lee in honor of Mr. and Mrs. Bruce Truax. Mrs. Truax will be remembered by her many friends as Miss Winnie Gardner, a former high school teacher of this city. The evening was pleasantly spent in playing five hundred, Mr. and Mrs. Truax were the recipients of many lovely and useful gifts from their numerous friends.

Mrs. Truax was a very popular young lady with the old people as well as with the young of West Helena and she has been eagerly welcomed back among us.

Motoring to the East.

Hon. Chas. S. Winans of Prague accompanied by their daughter Clarice and Mrs. Florence Howlett left Monday on a motor trip through the east. Mr. and Mrs. Winans sail from New York July 29th on their return trip to Europe and upon arriving in Belgium will drive their car to Prague. Mrs. Morgan Emmet of Detroit was a weekend guest at the home of Mr. and Mrs. John Spiegelberg.

Rev. E. A. Carnes is spending this week at Camp Birkett at Silver Lake.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. But being the case he can not be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars.—Adv.

CATARRHAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE gets through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists.
