CHELSEA ENJOYS

A NEW DRINK

Would you believe it? You, the people of Chelsea are drinking Irish water. You do not believe nor do you understand. It sounds funny to you to have someone tell you that you are drinking Irish water when you have been used to just thinking of it as common 1120. But such is the case. There really ought to be a little exception taken to this statement.

The big question is, how do you get Irish water? The incident occurred in one of the local cafes. One customer proposed the idea that she did not particularly care for the Irish water. For a moment all stood quiet and no one could quite understand why it should be Irish water. We looked at the glass and asked why it was called Irish water.

The answer came at once. "It's 'Riley'."

A STUDY IN AN AMERICAN

DESERT

One of the driest parts of the United States is what is called the Papago country, a region including about 13,000 square miles in southwestern Arizona, so called because it was long ago inhabited by the nomadic Papago Indians. This broad expanse of desert country, which lies between Gila River and the Mexican boundary, contains many groups of volcanic and other mountains separated by broad alluvial basins, which, though the rainfall is small and the temperature is high, sustain a scant growth of desert plants, including orchard-like groups of strange trees. Here the bold slopes of the mountains, the general absence of watering places, and the peculiar forms of vegetation impress the traveler strongly with the majesty and the mystery of the desert, and excite his wonder as to the origin and history of the natural features.

A report on this region by Kirk Bryan, has just been published by the United States Geological Survey, Department of the Interior, as Bulletin 730-B under the title "Erosion and sedimentation in the Papago country, Arizona." The report describes the geology briefly as a setting for a consideration of the agencies that have produced the forms of the land and presents detailed conclusions as to the mode of origin of the desert landscape. The paper is illustrated with diagrams, views, and maps and should be of interest to all students of topography and physiography, particularly those who are endeavoring to solve problems of erosion by wind and water in desert regions.

Mrs. C. E. Stinson of Detroit called on Chelsea friends, Tuesday afternoon.

SHORT BUT SWEET

PIKE TOURIST DO NOT

STOP AT CHELSEA

The Michigan Pikes Association passed by Chelsea yesterday afternoon on their way to Ann Arbor. About 30 cars filled with business men from various parts of the state and the Ford band made up the party.

The tour around the state started July 7 and was to end last night. No salary is paid any of the men. Each deposited \$50 before starting to meet expenses. The first night we put up at a hotel was in Grand Rapids. We have been rising at 5 o'clock in the morning and speaking at every place we passed through. It has cost Ford \$12,000 to send the Ford band with us on this trip.

"When this association was organized there were no good roads leading into Michigan, only roads where auto drivers got stuck," said Capt. W. S. Gilbreath, manager of the Detroit Auto Club, and president of the Michigan Pike Association; "but now we have a number of good roads. Our idea is to get a road that will circle Lake Michigan, another around Lake Huron and a third that will go around Lake Superior."

The animal was so badly injured that it had to be killed.

Horseshoe Pitchers Title Will Be Decided at Fair; County Contests Started

"There wasn't no horseshoe pitchers in Michigan that could hold a candle to the barnyard champions of Macomb county."

This innocent little boast, falling inconspicuously from the lips of "Spud" Murphy of Macomb county recently, started a fine argument and the finals of the Michigan State championship horseshoe pitching tournament, now being organized under the auspices of The Michigan Business Farmer, will be put on at the State Fair this year.

George W. Dickinson, secretary-manager of the Michigan State Fair, has sanctioned the plan to stage the title rounds of the tournament during the exposition in Detroit, September 1 to 10. Several prizes will be awarded by the State Fair in addition to the beautiful loving cup, the grand prize, presented by the courtesy of the Union Malleable Iron company of Moline, Ill.

The plan of the preliminaries, according to Forrest Lord, editor of the Michigan Business Farmer, is to hold them in conjunction with farmers' picnics in every county. The winners of these county tournaments will play in district contests and these victors will meet in the grand state tournament at the Michigan State Fair.

Everyone is eligible to participate. Entries for the preliminaries should be made to county agents. No time in entering should be lost. All county contests must be played off before the opening of the Michigan State Fair, September 1.

Named to Supervise Fair Running Races

W. J. DOWLING

Of interest to racing followers throughout Michigan is the announcement by G. W. Dickinson, secretary-manager of the Michigan State Fair that W. J. "Bill" Dowling, of Owosso will have charge of the six-day running race meet scheduled for this year's exposition, Detroit, September 1 to 10.

Mr. Dowling has had wide experience in the running horse world and has supervised the races at Bay City, Jackson, Adrian and Grand Rapids fairs in recent years. He is making elaborate preparations for the State Fair meet which will open September 4 and run through the ninth.

The important event of the meeting will be the State Fair Derby, slated for Labor Day. A purse of \$1,000 will go to the winner. Purses for the six-day meet will exceed \$15,000.

FRINGE

Biliousness and Constipation.

"For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Peppin's preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Tablets. The tablets relieve the feeling at once, strengthen the digestive functions, helping the system to do its work naturally," writes Mrs. Rosa Potts, Birmingham, Ala.—Adv.

Mrs. W. M. Backus and son Martin Backus of Jackson were guests at the home of Mr. and Mrs. M. J. Baxter, Monday.

CATARRIAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous membrane of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists. A Splendid Medicine for the Stomach and Liver.

"Chamberlain's Tablets for the stomach and liver are splendid. I never tire of telling my friends and neighbors of their qualities," writes Mrs. William Vollmer, Eastwood, N. Y. When bilious, constipated or troubled with indigestion, give them a trial. They will do you good.—Adv.
