

Thousands of Votes Are Cast In Tribune's Big Campaign

Every One Clipping Votes For Some Contestant.—Public Praises Liberal and Expensive Prizes.—Mrs. Leon Clark Leads In First Count of Votes With Many Close Contenders For the Honor.—All Contestants Should Call Saturday.

Never before in the history of Chelsea has any enterprise been engaged with such universal public interest and approval as that given to the Tribune's Big Automobile and Touring Car Campaign. As soon as the announcement was made nominations commenced to come in, and since the contest was published, the Tribune has shown their interest in the contest and their desire to participate and capture the big prize.—The \$1055 Studebaker Touring Car absolutely free should mean much to you, and no matter where you live you should be here on the above date. Friends of the various contestants are making inquiry daily as to what this or that contestant is doing in the race. Do you appreciate what your friends are doing for you? If you do, then call at The Tribune office on Saturday, Sept. 2. This is very important.

NOTICE TO CONTESTANTS

It is of vital importance that you call at The Tribune office Saturday, Sept. 2. The chance to secure a \$1055 Studebaker Touring Car absolutely free should mean much to you, and no matter where you live you should be here on the above date. Friends of the various contestants are making inquiry daily as to what this or that contestant is doing in the race. Do you appreciate what your friends are doing for you? If you do, then call at The Tribune office on Saturday, Sept. 2. This is very important.

business world. It means more when one considers the small effort required to win, the wonder is why every one in the county is not a candidate. \$1055 in four weeks is almost unbelievable, but it is a fact, and the very one to win may be you.

Big Vote Period Closes Soon
The time of the first vote period—THE BIG VOTE PERIOD—is drawing near an end. On September 16—Just two weeks hence this big opportunity to secure votes rapidly will come to an end.

Right now, while the big vote schedule is in force, is the time to get busy. Every renewal or new subscription secured now will count more votes than later. Very soon now, the vote schedule will be very materially REDUCED. Usually the vote schedule is increased as the election gets along, but in the Tribune election, the schedule is very rapidly REDUCED after the first few weeks. This guarantees a square deal to every participant and prevents anyone coming in at the last moment and winning one of the big prizes. It rewards the workers—the ones who seize the big opportunity offered in the present big vote schedule.

100,000 Extra Free Votes
With \$25 in subscriptions, either new or renewal, to the Tribune you get 100,000 EXTRA FREE VOTES besides the regular number of votes allowed on each subscription. The

SOME ARE SLOW

Some of those who have been nominated have been a little slow to indicate an appreciation of what their friends are doing for them. They however appreciate this interest on the part of their friends and eventually they will wake up and get busy. Some times the one slow to start makes the most successful worker, but the time is now here that all who expect to compete for the prizes must make the start as the end is not far away. Wake up—Be a booster. Show the stuff you are made of and don't let old "Father Time" rob you of an opportunity to secure a \$1055 Studebaker in four weeks. Be riding around in your Studebaker on October 1.

CONSUMERS POWER LOSES WHEN SMALL VOTE IS CAST

A considerable lack of interest in the question of electric lights for the village was apparent by the vote cast at the special election held Tuesday. The question failed to carry by the three-fifths majority that was required and now it behooves the village officials to figure out some new way of relieving the situation.

A total of 302 votes were cast with 151 yes and 151 no, 4 ballots thrown out. Although it was a majority for the change it did not have the three-fifths that was necessary. The people of Chelsea now face a proposition which will mean dollars and cents out of their pockets. The plant cannot continue to operate as it is. A new chimney will have to be put in at the plant. Other fixtures that will amount to a considerable amount are also essential. The election did not show what the people wanted. The light vote cast gave no indication of the majority. But because of its failure to carry the village will have to take steps for an alternative. Whether that will be the installation of a new plant and the bonding of the village, or whether it will just be a case of repairing the existing machinery on hand has yet to be decided.

All Ready But The Horses

DR. COPELAND TO TALK IN DEXTER

Dr. Royal S. Copeland, health commissioner of New York City, returned Saturday, August 26, from a trip to Europe where he investigated health conditions of Poland with special reference to their relation with this country. He will speak on his trip at the Methodist church in Dexter, Sunday evening, September 3 at 7:30 o'clock. Typhus, smallpox and cholera are epidemic in many portions of Europe at present and Dr. Copeland insists that without more rigid supervision of immigration foreigners coming to the parts of the Atlantic coast will cause a distinct peril to the public health of America. Dr. Copeland will also speak of his visit to Obermergau where he witnessed the Passion Play. While in Obermergau, Dr. Copeland and his family stayed at the home of Dr. Anton Lang, an uncle of the Christus in the Passion Play. Dr. Copeland is the son of Mr. and Mrs. R. P. Copeland of Dexter and is a nephew of Mrs. R. D. Walker of this village.

TRY STEALING WATERMELONS BUT FAIL

Watermelons may taste good when they are bought but they taste even better when they are stolen, but—behaves some of the natives of Chelsea to beware when they go out to "swipe" them. Last evening two young ladies and their escorts (we will not divulge their names) went out with the intention of satisfying their tastes for the luscious "fruit" so well known to the southern negro. The watermelon patch was near Sugar Loaf Lake and just as the four were entering the rows they received a sudden shock. It was the report of a shot gun, although pointed the wrong way it had the desired effect and the girls reached the car before the men.

It is a wonderful sport to go out and steal such things and is a stunt every person enjoys when they are young, but a word of warning is only fit. Beware girls when you go out to steal that you are not caught or fooled.

THE HEN CALLS FOR HELP

Finally the food profiteers have locked horns with a real opposition. They face the insurmountable persistence of the great American hen and panic reigns.

Some years ago the American hen gave warning that she might prove a dangerous enemy and bring about fair prices, but the scorned profiteers countered, and when the hen laid in sufficient volume to feed the people the cold storage warehouse was conceived.

Instead of being distributed at prices governed by the law of supply and demand, eggs were stored, kept from the people, and hoisted until uniformly high prices.

It appears, however, that the great American hen has been thinking.

The result is she has again come to the front with a production so overwhelming that the cold storage plants cannot take care of it.

Today, in spite of this, eggs in New York are selling from 60 to 75 cents a dozen.

But the supply is at hand.

If the hen gets a little support from the public and a little sympathy, she will be able to do the job.

It is a very real thing to store eggs, but when it comes to erecting huge and more great steel and concrete structures equipped with the expensive freezing plants to take care of them, then it may be better to sell the present stock at a fair price.

There are now 25,000,000 dozen eggs in storage—more than twice as much as in the United States.

And the great American hen is still on the job.

THE APOTHEOSIS OF HYPOCRISY

"The government goes right on ignoring the prohibition law on sea, while making some ineffective efforts to enforce it on land," remarked August Busch, of Anheuser-Busch, Inc., when he arrived last week from Europe. Mr. Busch further stated that passengers on the George Washington discussed the buying of liquor from the government on board the ship and then inviting the government to arrest and prosecute them when they reached shore.

It would certainly be a nice legal question as to whether the government could use money from the United States Treasury to sell liquor on ships at a profit and then prosecute a purchase for violation of the law.

It is true the government is in an awkward position. The Shipping Board is spending thousands of dollars to stimulate passenger traffic, but much of the money is wasted because a dry ship has a hard time to win travelers.

The majority of the people of the United States may be dry but they don't travel the ocean enough to back up an American Merchant Marine along lines of moral conduct.

Official dignitaries who publicly espouse prohibition have their cellars, the private room at all "successful dinners." Even the offices of some of our Congressmen are said to be storehouses for booze.

Summed up, the country stands today the apotheosis of hypocrisy.

The American Merchant Marine seems to rest in the balance, but hypocrisy will sink the ships quicker than any restriction.

Let us have enforcement or repeal, one thing or the other.

PANAMA CANAL

The Panama canal in the last 12 months paid Uncle Sam an income of \$1,357,000 from ship toll.

This is a return of 3 per cent on the canal's original cost, \$375,291,000, and from the 3 per cent must be deducted expenses of operation and repairs.

A very fair proposition, the canal is not much of a success to the people who paid for it. For national defense—its real purpose—the canal is a sound and wise investment.

CURABLE

In 1750 Emerson, the American philosopher, wrote: "It is said that the world is in a state of bankruptcy, that the world owes the world more than the world can pay, and ought to go into bankruptcy, and be sold."

Many are saying today what Emerson wrote 72 years ago, moved into a golden age of commercial expansion and increasing prosperity in the form of higher standard of living. History always repeats.

AMOK

Thirty were lynched in America in the last six months. Autos killed 12,500 Americans and injured 300,000 in 1921, says Albert W. Whitney, insurance expert.

We have a long way to go before we can claim to be thoroughly civilized and nationally sane.

Lyings are due to mob insanity, auto casualties usually to the insanity of carelessness.

NOT SO BAD

Wealthy Americans are leasing small islands where they can store liquor and guzzle to their hearts' content. This information from Sir Harry Cordeaux, governor general of the Bahamas.

Prohibition is not such a failure, when a souse has to leave the country to gratify his thirst. American tourists who are making pigs of themselves at European bars will admit as much.

The radio set makes more noise than the society set.

Character is built upon responsibility.

Nature takes her time because it's hers.

Something to Think About

By P. A. Walker

ARE YOU WORTHY?

A COMMON and frequent complaint nowadays among self-exalted young men and women is that they are not making satisfactory progress. With more or less persistence they declare that their incomes are not sufficient to keep them in the style in which they want to live.

Instead of being compelled to depend on popular shops for their necessities, they want to be in position to patronize high-priced tailors and dressmakers, and thus in their false estimation keep step with the rich by making repeated shows of fine garments.

The Jewish atmosphere in which these impulsive youngsters are surrounded is a most depressing one.

Any real effort to improve their mental qualifications is a part from the question, and contrary to their utmost wishes.

Through apoplexy of latter, devotees of empty pleasures and devoid of discipline at the shrine of prodigality, these disgruntled young men and women openly blame the world for their imagined plight, often condemning their employers for holding them down, when as a matter of fact their employers have nothing whatever to do with it.

The man or woman who is really desirous of rising to the surface where he or she can swim with head above water must pull a hard, continuous stroke, quite regardless of what others are doing.

It is the only way to keep at the top and keep moving ahead.

Drifting is perilous to everybody who indulges in it, certain in the end to lead to disaster by wrecking the fondest hopes and highest aspirations.

In spite of our vaunted pride of progress, drifting is becoming a national habit, particularly among the pampered who bend their knee to the god of gold rather than to the god of wisdom.

Every good thing in life is measured by such persons with the tape bearing the dollar mark and its decimals, even morality, friendship and love.

Yet these handlers of this iniquitous tape line perforce lament their position in life and condemn the irresponsible for faults and failures that are their own.

To make yourself worthy in any calling it is necessary to prove your worthiness.

And this cannot be done except by honest endeavor, long hours of hard work and a manifest willingness always to put personal industry above personal indulgence.

Uncommon Sense

By JOHN BLAKE

BE A GOOD LOSER

IF WE all liked to lose, this would be a shiftless and an aimless life.

It is natural to want to win in any competition, business or athletic.

Any self-respecting man would like to feel that he can outstep the other fellow in any race he enters.

But if he amounts to anything he does not show it.

To win, to lose your temper to invent excuses, to show jealousy if you lose, is poor sportsmanship and poor judgment.

You may feel badly because you have lost and you ought to, but remember that you, and no one else, are responsible. For if the competition was one in which you had no chance of winning you shouldn't have entered it.

If you did have a chance, it was your fault that you did not improve it.

Be a good loser, therefore, and generous to your opponent. But don't lose too often.

Don't be so little concerned about losing that you never try to win.

Don't feel that it makes no difference how the race goes. When it is over, have a quiet little conversation with yourself, and give general instructions not to let the same thing happen again.

There is such a thing as being a good loser that you like to lose. And there are no competitions run off in this world which you can afford to enter merely for the pleasure of telling some other man win.

You are perfectly justified in feeling bad when you have lost. You are justified in taking yourself into a corner for a lecture on the folly of losing. The continual loser will in the end have to part with his self-respect and his courage, and become a mere counter of the earth.

Try to win as hard as you can. If you lose next time make up your mind that you will win the next. Determine that you will win often more than you lose and that you will win as nearly 100 per cent as possible.

Then when you do lose, you can bear it with a better grace, for you will know that such a thing is not going to happen very frequently.

By laws proposed by the trustees of Highland Park, the fashionable resort of Grand Haven, have caused a protest. The board of control proposes to assess cottage owners, who rent their places, \$25 a year extra and also assess those who sell their homes \$100. The question is to be decided by the membership of the association as Highland Park is located in a part of the city operating under a special grant. The park is ruled by a board of control.

Claude H. Dunn, Dundee telegraph operator, is free on \$500 bond pending trial in the circuit court on a charge of perjury. He is alleged to have persuaded 15-year-old Rita Getty, also of Dundee, to stoop with him, and to have given her age as 19 in obtaining the marriage license. A minister at Midland performed the ceremony Aug. 13th.

Margaret Slay of Flint was given a divorce from Julius Slay after testifying before Judge Fred W. Brennan that the only place of furniture her husband ever purchased during their married life of two years was an ice box. She charged non-support.

The Lake Superior Mining Institute held its first meeting since 1917 in Houghton, Aug. 24, 25 and 30. The institute is composed of mining men from the copper and iron mining districts of Michigan, Wisconsin and Minnesota.

A. L. Johnson, performing a medicine dance at his home, near Houghton, slipped and fell, striking his head against the iron leg of a sewing machine in such a way that he died within a few hours. His skull had been fractured.

Before You Invest—Investigate

BEFORE you invest your hard-earned dollars in Stocks and Securities of any kind, would it not be well to investigate thoroughly?

If the Securities offered to you by strange stock salesmen will not stand the searchlight of an unbiased investigation the chances are they are not the kind of investments that you should make.

This bank has made arrangements to furnish you with accurate information on all kinds of securities, having access to the reports of several reliable agencies and also the use of a large statistical library on investment securities.

STATES HELPING TO ELIMINATE MENACE OF RAILWAY CROSSINGS

Reported by the United States Department of Agriculture.

That can be done when a community can be induced to build a bridge over a railroad grade crossing is shown by the plans for a federal-aid bridge to be constructed in Alabama between Arton and Clayton. In a distance of about 25 miles the old road crossed the railroad 14 times. By good engineering 13 of these crossings have been eliminated, the remaining one being a small town of Clio, where there are only three trains a day, and the road moves at slow speed as they approach the station.

Some months ago the bureau of the roads of the United States Department of Agriculture announced that grade crossings would be eliminated on all federal-aid highways wherever practicable. Officials of the bureau are receiving hearty cooperation from state highway departments and the general approval of the public.

It has been found possible to remove many plans, keeping the road entirely on one side of the track or finding a suitable place where the road can cross beneath or above the track.

In some states the highway departments on account of existing legislation are having difficulty in inducing the railroad companies to share the cost of placing the highway above or under the track.

LIVE STOCK

PREPARING STOCK FOR SHOW

Improvement in Breeding Is Made Possible by Comparing Animals in Ring.

Reported by the United States Department of Agriculture.

There are many of the elements of improvement in breeding of live stock for the ring and in competing with other breeders for prizes, and showing animals at fairs and expositions is no exception they have the same end in view. The value of the animal is not in the ring, but in the show. Much of the improvement in the various breeds of animals in this country, says the United States Department of Agriculture, has been due to the comparison made possible by bringing animals together in competition. Not only the breeders who compete reap a benefit, but also every farmer and stock raiser who attends the show as a spectator. Many a man marks the best of his success from the time he sees a livestock show where he was right to a realization of the value of the stock on his farm.

Good illustration of the value of the live stock as a livestock improver is shown in a state in the Middle West. A bill providing for the appropriation of \$50,000 to build a hog barn at the state fair grounds was up before the legislature where it was being considered. Much opposition because the comparatively large expenditure planned and the short time the building would be used, each year. Finally, one legislator, a small town farmer who had never made a speech before the floor and in a few minutes convinced his hearers that the bill would be well spent. He told them that the list of depositors in the bank with the idea of finding which were breeders of purebred

animal in the belief that they were getting a good one. By making his selection at the fair of a successful breeder or at a show where many excellent animals can be observed, the chances of getting the right sort of stock are greatly increased.

This country has four-ninths of the world's gold; but then we need it for golf trophies.

Charity always goes farther than it is sent.

GET IN AND OUT OF AUTOMOBILE

Many People Do Not Seem to Realize What a Moment's Forethought Will Do.

PROPOSITION QUITE SIMPLE

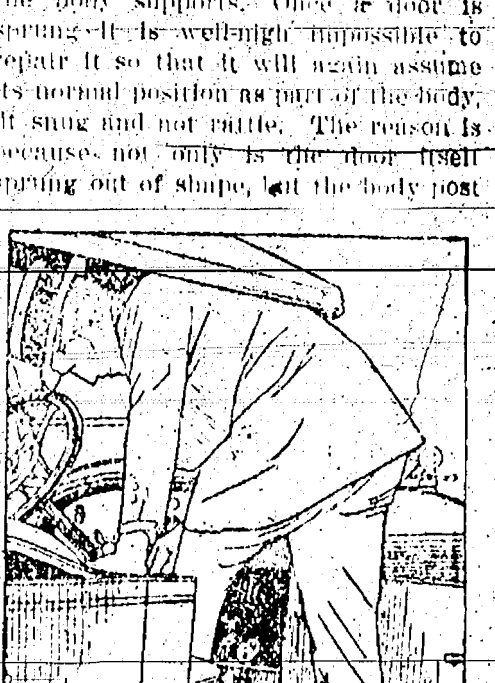

Doors Were Made to Enter and Leave Through and Not Bear Weight of Person—Hinges Are Made Comparatively Frail.

Getting in or out of an automobile is an awkward job for most people. They do not seem to realize that with but a moment's forethought that it can be made a very simple proposition, says Washington Post. To begin with

Getting into a Motor Car.

the average person, when about to get into a machine, proceeds to put the right hand, if entering from the curb side, well out on the door and to lean upon this hand and arm. Doors were made to enter and leave through, not to carry the weight of a person. They are supported to the side of the body by comparatively frail hinges secured to its upright post that forms one of the body supports. Once the door is sprung it is well-nigh impossible to repair it so that it will again assume its normal position as part of the body. It sags and rattles. The reason is because, not only is the door itself sprung out of shape, but the body post

likewise has been sprung and it is impossible to remedy this without rebuilding body posts and sills.

Getting into an Auto.

As illustrated in the first drawing the matter of getting into a motor car

is simple enough if one will but put the right foot on the running board, grasping the body of the car, the hand on each side of the door and

XIII. AMMETERS

Ammeters are instruments designed to measure the flow of electricity through the wires and are often very essential parts of a radio outfit. They consist, as far as exterior appearance goes, of a dial marked with figures and a hand or needle. Although they are not high priced and it is not advisable to try to make them, still there is nothing mysterious or complicated about them and the amateur, who likes to experiment with home-made instruments, can readily construct an ammeter which will work and is fairly reliable. This instrument is known as a "hot-wire ammeter" (Fig. 29).

Daylight saving in Mexico City has effected a greater saving in electric power.

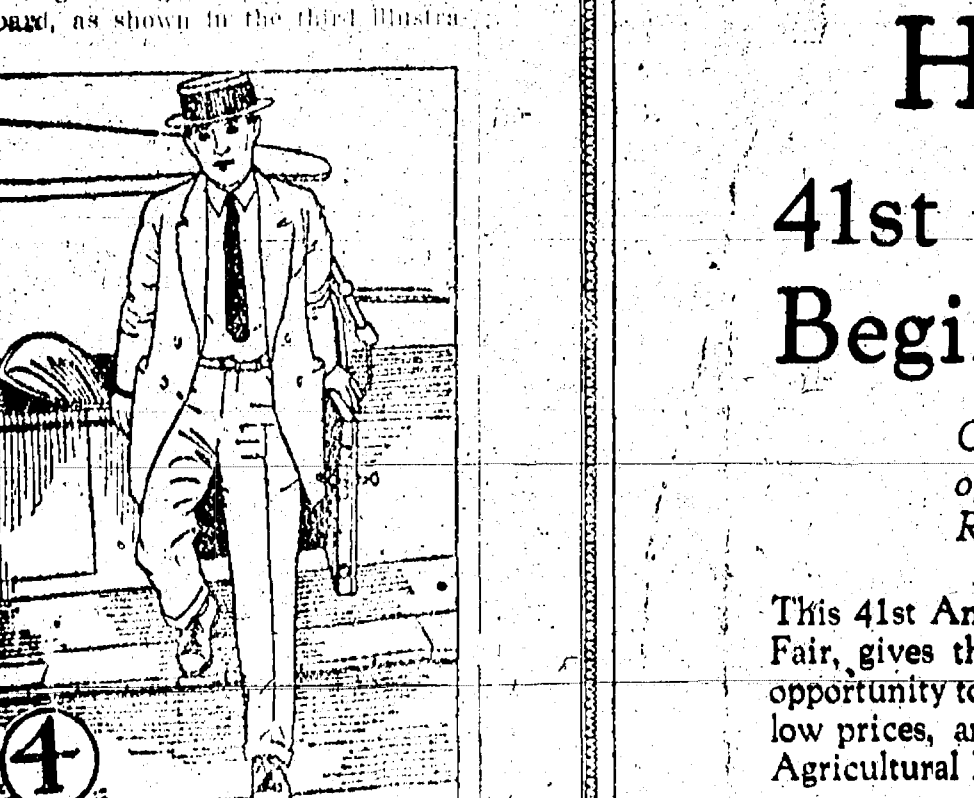

Getting Out of a Car.

as the weight is put upon the right foot exert a slight forward pulling motion with the hands and arms, at the same time lifting the left leg clear of the running board and placing it on the floor of the car as illustrated in the second drawing. With the body in this position as the right foot is drawn into the car the body can easily and naturally be turned about the left foot as a pivot and in a sitting position on the seat of the car, drawn without awkwardness or inconvenience, and likewise without bumping one's head against the top of the machine.

Getting Out.

In getting out of a machine if one will but grasp the side of the body with the right hand, at the same time placing the right foot on the running board, as shown in the third illustration,

Exit From Car Completed.

tion, their body is in such a position that it is but a simple matter when the weight is put on the right foot, the hand extended beyond the line of the top, to reach over and grasp the other side of the door opening with the left hand, at the same time putting the weight of the body on the right foot and two hands and arms, bringing the left foot out of the car and to the curb, as shown in the fourth drawing.

Disengaged Clutch.

The clutch is disengaged before each shifting of transmission gears to allow easy movement of gears and shifting lever and prevent grating and possible breaking of gear teeth while the shift is attempted. It is possible to change gears without first disengaging the clutch, but considerable practice and familiarity with them is necessary, and danger of stripping the teeth and strain on the entire driving system is greatly increased.

NORTHCLIFFE'S YARN.

Lord Northcliffe, whose voyage to America was delayed by fog said at a dinner in New York:

"I gave a prize of three guineas for a fog story when I started 'Answers,' my penny weekly, in my youth. It was about a London merchant who received one foggy morning a telephone message from his clerk. 'I'm sorry, sir,' the clerk said, 'but I can't come down to the office this morning on account of the fog. I have not yet arrived home yesterday!'"

"EVERYBODY WILL WIN"

IN THE CHELSEA TRIBUNE'S BIG PRIZE DISTRIBUTION \$3000.00 IN PRIZES FREE!

\$1055.00 Studebaker Light Six and Cash Prizes Given Away

The Chelsea Tribune, in conducting this Mammoth Grand Prize Distribution, guarantees absolutely fair and square treatment to all who participate. Without a doubt, this is the largest prize distribution ever made by a newspaper in Chelsea. Extraordinarily valuable prizes of hundreds of dollars and this beautiful \$1055 Studebaker Light Six Touring Car are to be given absolutely FREE to our own folks. Any man, woman, boy or girl, is eligible to become a candidate and it is not even necessary that you be a subscriber to The Chelsea Tribune. Remember—"EVERYBODY WINS." Clip the Nomination Blank on page 1 of this issue and send it in for yourself or friend today—be riding in your own car on October 1.

Vote getting in The Chelsea Tribune's "EVERYBODY WINS" \$3,000.00 Grand Prize Campaign is easy and pleasant and you'll be mighty well paid for every minute of your spare time—the IMPORTANT thing is to START AT ONCE. You'll be surprised at how quickly the votes pile up for you after you become a candidate—your friends will all save their votes for you and they will

give you their subscriptions. Begin collecting votes at once.

Just one yearly subscription starts you off with over 30,000 votes—a flying start toward getting this dandy \$1055.00 STUDEBAKER LIGHT SIX TOURING CAR for your very own. You'll know it's an old saying that "The Early Bird Catches the Worm." You begin at once—clip the other fellow is just sitting around with his hands folded. Nominate yourself TODAY in the \$3,000.00 "EVERYBODY WINS" campaign. Start at once and before long you will be riding around in your own auto that did not cost you one cent.

You will notice that the vote schedule is arranged that those who make the early start will get more for their efforts. That is vitally important. Ask your friends and relatives to save their coupons for you and have them give you their subscription to The Chelsea Tribune. Begin gathering in the votes at once. The Nominating Blank is on page 1—clip it out and nominate yourself or a friend TODAY. Think what it means to get this fine, big \$1055 STUDEBAKER LIGHT SIX TOURING CAR as a present for collecting votes.

How To Enter and Plan To Win

The object of this big distribution of rewards is two-fold: Primarily it is to increase the already large circulation of The Chelsea Tribune, and secondly, to afford our friends and readers an unparalleled opportunity to profit in a big way through their spare time in the next few weeks. So it is a plan that works both ways and for the good of all concerned.

The first step, in order to share in this mammoth distribution of costly awards is to clip and mail the Nomination Blank on Page 1 of this issue. Fill in your name and address, and mail or deliver to the Campaign Department of The Chelsea Tribune. The coupon entitles you or the person you nominate to 5,000 votes. These votes are given you as a starter and speed you on your way to win.

The next step is to call on, phone or write the Campaign Department for a free outfit, consisting of a special receipt book, sample copies of the paper and other information relative to the campaign.

Thus equipped, you have but to go to your friends and neighbors, relatives and acquaintances and have them clip the free coupons from their papers. Pay up a subscription to The Chelsea Tribune, through you. That's All There is To It. However, you must make the start. Anything worth having is worth striving for. So, plan your campaign—get busy at once and let no one discourage you. A few short weeks and you may be riding around in your own car.

It takes votes to win, and votes are secured in two ways. First, by clipping the coupons in each issue of The Chelsea Tribune. Begin gathering them now. Very soon these coupons will be reduced to a lesser number of votes. The only restriction on the voting coupons is that they must be voted at Campaign Headquarters before the expiration date printed thereon. Get your friends to save these coupons for you—they all count.

The other and faster way to get votes is by securing new and renewal subscriptions to The Chelsea Tribune. On each subscription turned in a certain number of votes are issued the number depending on the amount paid and during which "period" the subscriptions are received. (See Schedule of Votes below.) So you see, the more subscriptions you secure and the quicker you get them the more you will get and the better your chances are for capturing the Grand Capital Prize Automobile.

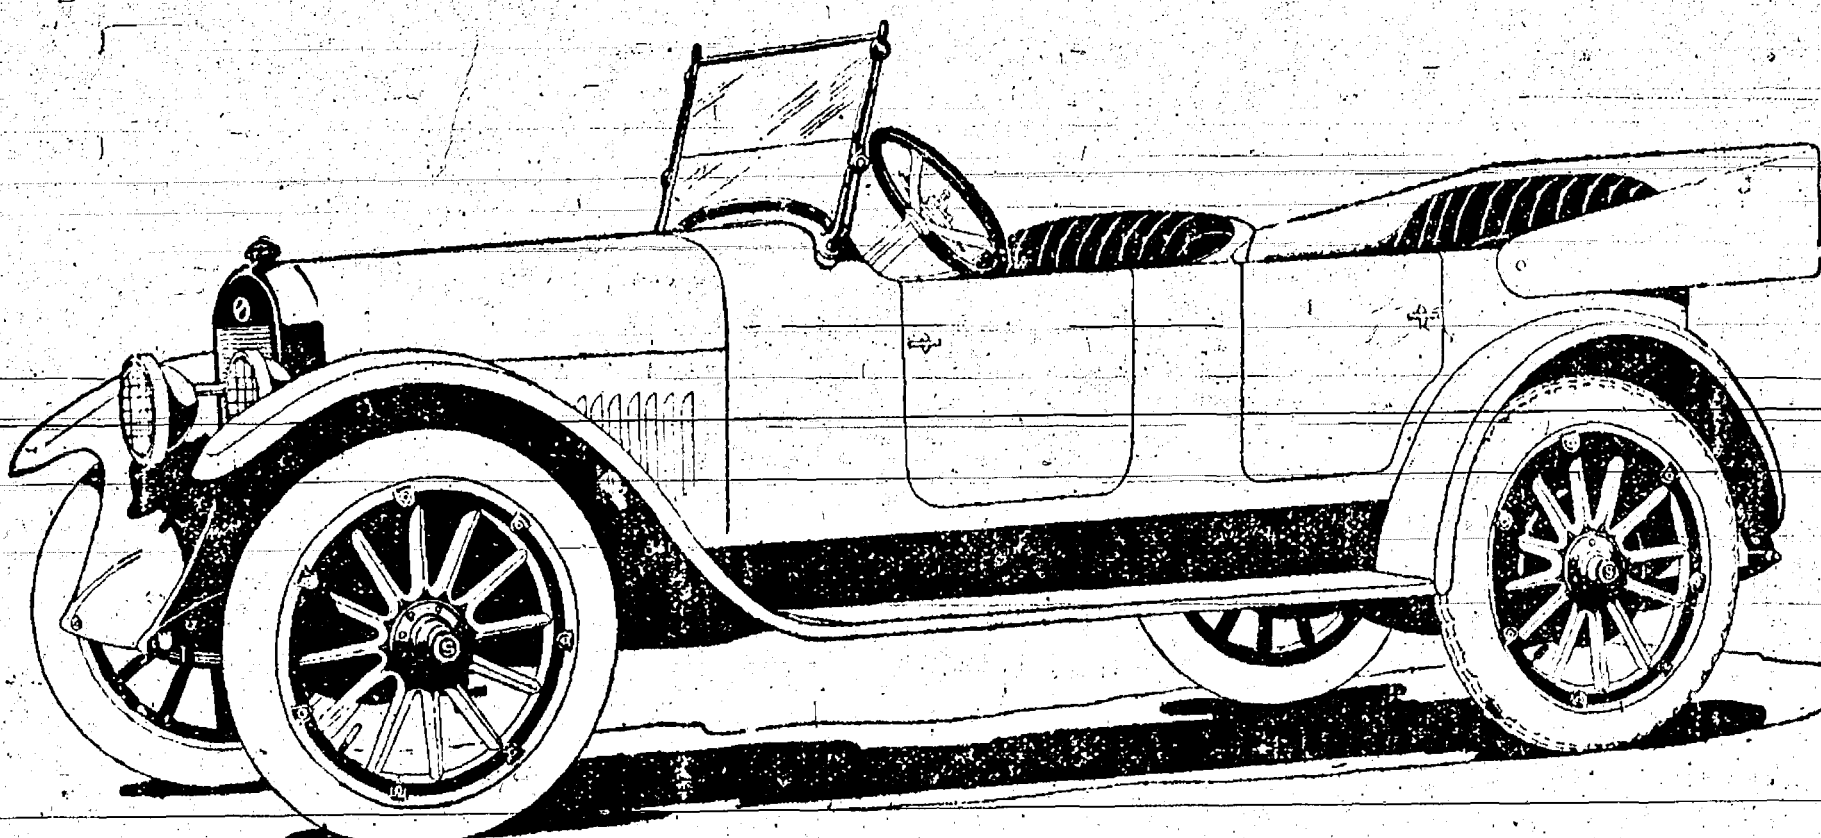

The advantages of the early start are apparent. Not only do you have the FIVE FULL WEEKS in which to secure the winning votes, but from now up until Sept. 16 you will receive the greatest number of votes for every subscription you secure. Then, too, the first in the field will get the "cream" of the votes and subscriptions, while those who put off entering will have to take what is left.

Don't lose valuable time waiting to see what the "other fellow" is going to do. Pitch right in NOW and show the "other fellow" how to do it. Be sure that your nomination is in RIGHT AWAY.

Winners of automobile and other prizes will be selected on their accredited votes, said votes being represented by ballots issued on subscriptions and coupons clipped from the paper. In the event of prizes identical in character with those above, will be given to each of those tying.

One-fifth of every subscription you collect goes into your pocket if you fail to win one of the Capital Prizes. This arrangement assures a compensation to all candidates and it means there will be no losers; "EVERYBODY WINS." Could anything be fairer or more liberal than this?

ADVISORY BOARD

It is the sincere aim of this newspaper to conduct this election, from start to finish, in a fair, honorable and impartial manner. Every precaution has been taken to safeguard the interest of the participants and absolute honesty in all dealings is guaranteed. For that reason an Advisory Board has been decided upon whose functions shall be to decide any question of sufficient moment that might arise during the competition and from which a committee shall be selected to act as judges and count the votes the last night of the election. The personnel of the board is as follows:

J. L. FLETCHER, Cashier Kempf Commercial & Savings Bank.
H. D. WURSTER, President of the Village of Chelsea.
J. M. BAXTER, Merchant Tailor.
KENT WALWORTH, Merchant.
E. E. WINANS, Jeweler.

All of these gentlemen are well known to every man or woman in Chelsea and surrounding territory and the final results, as given out by them, will be beyond dispute.

CHELSEA WOMEN IN CHARGE OF BAKERY DEPARTMENT AT FAIR.

Was mother of 50 years ago a better cook than the mother of today? One glimpse of the tempting array of bread, cake and doughnuts, pies and cookies exhibited at the Washtenaw County Fair, Ann Arbor, September 19 to 23, will change your mind if you think so. Loaves of bread of varying size and quality were made 10 or more years ago. There were round and square loaves, flat loaves and tall loaves, little loaves, made and baked in a thousand different ways. Visitors to the fair will find that an entirely different kind of a loaf is being baked today. The modern loaf weighs about one pound and is baked in a tin standard-size. Housewives are all using practically the same recipes. Experts say that bread made in this way is far superior.

Styles in pies, cookies, doughnuts and cake have changed just as much in recent years as in the case of bread. Improved recipes have been worked out in every field by students of cooking, and adopted by the housewife. In fact, judges assert that there isn't a single thing entered in the baking exhibit of a fair today which does not score higher than it did a few years ago. The Washtenaw County Fair is devoting much attention to women's activities. Liberal premiums are being offered for sewing and canning as well as baking. Mrs. N. W. Laird, of Chelsea, is in charge of the baking department.

Hunger, the Best Sauce.
Sauce is used to create an appetite or relish for the food. The right way is to look to your digestion. When you have good digestion you are certain to relish your food. Chamberlain's Tablets improve the digestion, create a healthy appetite and cause a gentle movement of the bowels.—Ad.

Eastern Stockmen Trying Beef Herds

Stockmen and breeders have discovered that their hillside timber lands are ideal for beef herd development and as a this week staging a national beef breed show at Wilmington.

Richard Lloyd Jones Says We Must Unbend Backs

Hanging heavily about his neck, the sack of seed bowed down the ancient sower. Today, without weight, he only holds the reins that drive the faithful team that haul around his harrowed field, the modern seeder. Today we no longer have to walk in the furrow of the plow. We can mount the seat on the sulky and till vast acres where once we turned the soil of patches. Once we used to bend our backs to drop the kernels of corn and finger over the soil that covered them. Today we ride the planter that does the bigger job in the better and easier way. We used to tether hay by hand but now we tether by horse. Maud Miller had to walk the stubbed field where she raked the new-mown hay. Today a loader lifts it on the rack and a harpoon throws it on the stack. Millet, the great French painter of peasants, pictured the harvester bending low to swing his sickle. This came the cradle. At last a Cyrus McCormick found a reaper which in its turn became the harvester, cutting and binding the ripened grain. Threshing once done by flaying the floor is now done by the threshing machine without which the great fields of grain we now sow could never gathered in huge elevators. We have made more work possible by making work easier. We let the wind lift our water. The tractor has come to release the horse. The inventor is the great farm helper. The machinist has multiplied both the muscle and the skill of the

Hall's Catarrh Medicine
Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. Tonic and acts through the blood upon the mucous surface of the body, thus reducing the inflammation and assisting Nature in restoring normal conditions. Hall's Catarrh Medicine is sold by all Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.
