SIXTEENTH YEAR—NO. 12

CHELSEA, MICHIGAN, FRIDAY, OCTOBER 20, 1922.

\$1.50 THE YEAR

\$10,000 Loss When Fire Destroys Hay Barn in Chelsea

Barn Belonged to D. C. McLaren and Was Completely Destroyed.

Building and Contents Not Fully Covered by Insurance.

A fire which threatened the destruction of several buildings along the railroad track in Chelsea last night started in the D. C. McLaren hay barn. The fire was discovered about 9:15 p. m. but by that time it had gained such a start that all that could be done was to save the other buildings nearby. The hay shed was packed with hay and made a bad fire. The frame building was burned to the ground and everything was a total loss, which is estimated at \$10,000.

When the fire was discovered and the alarm turned in the fire had gained such progress that there was no chance of saving the building or its contents. The fire was noticed by Mr. Brimble and he gave the alarm. At the same time workers in the Central Fiber Products company noticed smoke and upon looking out found the hay barn which is the building next to theirs, was ablaze. Leonard Withersall ran to the power house and just as he got there the alarm was sounded.

Origin Not Known.

How the fire started is not known. Workmen had been in and around the building all day doing repair work. The fire may have been started by spontaneous combustion or it may have been the work of a tramp who had chosen the hay barn as a place for a good night's lodging.

There is another possibility that the fire might have been started from sparks from an engine. A local freight had pulled up beside the building and a rail car was beside the building when the fire started. The freight which was switching here coupled onto the car at once and pulled it away.

The Chelsea fire department was on the scene at once and did fine work. Although it was impossible to do much with the hay barn they were able to save all the surrounding buildings. There was only one stream of water played upon the fire but this was enough to control it.

Sparks Start Other Buildings.

A strong wind from the north fanned the fire and made work hard. When the fire was at its height the flames leaped across the Michigan Central tracks and endangered the warehouse across the tracks. Large volumes of smoke arose from the fire and then burst into flames. This was caused by the large amount of gas given off by the hay. Sparks and burning embers carried by the wind ignited the building across the tracks several times.

The telephone and telegraph lines of the Michigan Central run parallel to the tracks and alongside the buildings. The flames soon burned the insulation from the wires and soon after the copper was melted and the wires fell. This cut off all communication between here and the west and it was necessary to stop all trains. The telegraph poles caught fire and one fell and another was so badly burned that it was dangerous to be near it. The cross arms supporting the wires burned through and fell carrying the wires to the ground. Repair men were sent for and before midnight they were on the scene stretching temporary lines so that communication could be renewed.

Flames Leaped Tracks.

The building was partly filled with hay, there being about 120 tons of baled marsh hay in the east end, about 25 tons of clover and timothy hay and several tons of straw. The central part of the building was cleared where work had just been completed in repairing the floor and supports. The hay when started burned with great intensity, and because of the nature of the marsh hay, great quantities of gas are given off. The large volume of smoke which arose would burst into flames. All colors of smoke and flames seemed to come from the burning mass.

Building Built in 1904.

The building valued at about \$5,000 was built by George Beckwith 18 years ago. The building was owned by D. C. McLaren, president of the Kempf Commercial and Savings Bank of Chelsea, and he had used it as a hay barn for many years. The structure was 180 feet long and 36 feet wide, and repair work had just been completed about 5 o'clock yesterday afternoon. Mr. Beckwith and his men had been working there for the past

two days and had repaired the floors and window sills, also putting in new supports and raising the floor.

A number of tools had been left in the building and after the fire was well under way Reuben Hieber entered the burning building and recovered several articles. Mr. Hieber took a great many chances in entering the building but saved the tools he desired. Just as the fire department came to the scene several people standing on the north side of the barn heard noises as though someone were pounding on the door. Whether it was someone in the burning structure or falling pieces of wood or machinery has not been determined.

The building which Mr. McLaren built in 1904 was insured at that time. The insurance on the building and its contents did not fully cover everything and Mr. McLaren figures that the loss outside of insurance will amount to about at least \$3,000. The building was worth about \$5,000 and the contents which was between 150 and 175 tons of hay, would be worth market prices. The total loss will amount to about \$10,000.

Parties Disturbed by Fire.

When the fire whistle sounded the alarm it seemed as though it would awaken the dead. Many a slumbering person was called from bed. Several card parties and meetings were broken up by the alarm.

The union warehouse and the warehouse west of that which was partly burned by a fire last winter were both ignited by the flying sparks and embers that were carried across the tracks by the wind. The roof of the warehouse of Holmes and Walker will have to be replaced because of the damage done. Firemen remained on the roofs of the buildings with chemical tanks to extinguish any blazes that started.

The fire was so great and bright that the sky was illuminated to such an extent that it could be seen from near Ann Arbor and for many miles in every direction. People who were driving and noticed the sky thought the whole of Chelsea was afire and drove here. There were people from Ann Arbor, Grass Lake and even Jackson.

Wires Repaired at Once.

When the fire reached its height and burned the telephone and telegraph wire so that all communication west of here was cut off, over the Michigan Central wires and no word could be gotten here from the west it was impossible to make much progress in the dispatching of trains. Repairmen were at work though before the fire was even under control putting up new lines so that communication could be made and the train service not delayed.

East bound train No. 14 came through here only a little late. A freight from the west had to be held up on the siding at the M. E. Home. Also a west bound freight had to take the siding here. To get communication through it was necessary to send the work in a round about way. Due to the time of the fire there was no considerable delay in the train service.

The Western Union had no men here at the time but some American Telephone and Telegraph men and the Michigan State Bell Telephone men were on the job at once with all the equipment they could get. About 11:30 the first wire was stretched and communication started.

Fewed Central Fiber Products Building.

The fire in the east end of the building was what caused the most worry. The Central Fiber Products building which was only 10 feet east of the hay barn was in the most danger. The east end of the hay barn was stacked full of baled marsh hay and it was feared that when the building fell it might fall against the Central Fiber Products building and ignite it. But by continued soaking and supporting of the building, and then when it was ready to fall, by pushing it over the dangers were prevented to a certain extent.

Firemen remained at the scene of the fire all night and will be there for some time yet. The baled hay being so compact burns like wood or coal and the large pile of hay will burn for many hours yet.

Had the wind been in any other di-

rection than the way it was the entire lot of buildings along the track to Main street would no doubt have been destroyed. All the buildings are frame structures and the lumber yard and sheds would have been easily kindled.

The large crowd that gathered at the fire found that although the night was cold, the fire furnished plenty of heat to keep them warm. The fire is still burning with a good intensity and from the way the bales of hay burn and the amount that there is they the fire will last for many hours.

"FIRE LIGHTS"

Reflections of the fire last night illuminated the sky to such an extent that people came from the surrounding country six miles and more away thinking that the whole of Chelsea was on fire.

Many Ann Arbor people drove up to see the blaze as they thought that the fire in the peat marsh had again broken out.

During the fire the attention of several people was attracted to a flock of ducks flying in an easterly direction, which were outlined in bold relief against the sky.

Reuben Hieber braved the intense heat, flames and smoke to enter the building to rescue a set of tools given him by Mr. McLaren.

The Western Union are to be congratulated upon their quick repair service. One line was up before the fire was barely under control.

A number of local business and professional men were given an unexpected shower bath.

The rails of the M. C. R. R. became so hot that it was impossible to touch them.

A road crew were kept busy putting the fire out on the ties.

Some of Chelsea's business men who were out of town when the alarm was given lost no time reaching the scene when the sky was illuminated.

Someone said that all the firemen saved was the ground the building was on, but that belonged to the M. C. R. R. and who cared about that.

Wonder where the plain clothes detective dropped from in such notice so that he was on the scene at once.

Many people bemoaned the fact that the large amount of heat lost could not be bottled and saved until winter. Why worry the heat went into the air and that is where it all goes, we can't lose it.

If the onion warehouse had caught afire someone suggested buying a few pounds of hamburger and having a meal. Most people like their onions raw in those cases.

Too bad the euchre tournament had to be broken up, but what's a game of cards when there is a big fire. Maybe some other attractions might have been more interesting.

FARM HOUSE COMPLETELY DESTROYED BY FIRE

The farm home of Louis Lambert, north of Francisco was destroyed by fire, Wednesday afternoon. The fire started on the second floor and when it was discovered had gained such headway that it was impossible to save the home. Due to the intense heat and the high wind all efforts to save many of the household goods were in vain.

MRS. MARTIN LAMMERS DIES

Louis Hindelang received word early this afternoon of the death of Mrs. Martin Lammers of Jackson, which occurred in that city late this morning. Funeral services will be in Jackson on Monday morning, October 23. Interment will be made in Jackson.

Mr. and Mrs. E. D. Brown and son Keith are spending a two weeks vacation visiting relatives in Mosherville and North Adams.

Soon to Be Bride of Kaiser

An exclusive announcement of the wedding of the Princess Schoenich-Catharina, daughter of the late Kaiser, to Prince Wilhelm, shown here with his bride, the Princess, will take place in the living and where the ceremony will be performed, inasmuch as the former monarch cannot be present to see his new bride. The Princess went to Paris recently for some of her wedding clothes.

OBITUARY

MRS. HERMAN HUDSON DIES

Mrs. Herman Hudson died at her home at North Lake Wednesday morning, October 18, 1922, at eleven o'clock after a five day illness.

Mrs. Adella Hudson, daughter of Mr. and Mrs. Joseph Hopkins was born in Lyndon township, November 9, 1864. She was united in marriage to Herman Hudson, July 5, 1884 and with the exception of the first two years of their married life they have resided on their farm at North Lake.

Mrs. Hudson is survived by her husband, two daughters, Mrs. Daniel Reilly of Pinckney and Miss Laura Hudson at home, four sons Herbert, Frederick, Ernest and Norman all at home, one sister, Mrs. William Marshall of Vanadilla, William Hopkins of Fowlerville and George Hopkins of Stockbridge.

Funeral services will be held from the residence Saturday afternoon at two o'clock. Rev. Leigh Hagle will officiate. Burial at the North Lake cemetery.

Mrs. John Moeckel.

Mrs. John Moeckel died at her home in Waterloo early Thursday morning, October 19. Mrs. Moeckel had been ill for sometime but the past week she failed rapidly. Funeral services will be held Sunday at one o'clock at the residence and one-thirty at the Brethren church. Rev. E. E. Rhoads will officiate.

FRUIT GROWERS PLAN U. S. SALES AGENCY

Chicago. Plans for a national sales agency to open Jan. 2, 1923, were to be discussed here by the board of directors of the Federated Fruit Growers Inc., which met to complete such plans and to perfect organization. J. R. Howard of Clemmons, Ia. president of the American Farm Bureau federation, is one of the directors.

"We do not desire to raise the retail price of fruit," said C. H. Durst, secretary of the fruit growers. "We believe that the price is now too high to permit the moving of the entire group. The fruit growers recognize that the consumers' interests and theirs coincide. We do not hope to simplify the system of distribution. It will co-ordinate the work of district exchanges and will operate on a strictly co-operative basis."

Arthur R. Rule of New York will be manager of the corporation.

DAIRY HERDS PASS TUBERCULIN TEST

A tuberculin test of the herd of 23 cattle belonging to E. J. Weinberg has just been completed and the representative making the test reported that the entire herd was immune of tuberculosis.

Mr. Weinberg who has been in the dairy business here about a year has a herd of 23 Jersey cattle and he had a federal tester test his cattle. The test started Monday and was completed yesterday morning. All the cattle responding to the test. Mr. Weinberg expresses a great deal of satisfaction in knowing that his herd has been and is free from this dread disease. He has been delivering milk to customers here for some time.

A herd of 25 head belonging to E. L. Hoppe were also tested and found to be free of tuberculosis. The practical means of eradicating tuberculosis in animals originated in the discovery of a scientific test by which the presence of the disease is revealed. The use of this test makes possible the elimination of this dread disease. To begin with it was used by a limited number of breeders of pure-bred stock who desired to free their herds from disease. Then a plan for cooperation by the Federal Government, the States, and the owners of cattle was worked out by which all the cattle of a community might be tested and the diseased ones eliminated.

Several other herds around Chelsea have been tested and the diseased animals if any have been killed. When one thinks of the danger that can exist in the only single complete food, it can easily be seen what it means to have tested cattle.

LEGION DANCE NEXT FRIDAY NIGHT

A week from tonight is the opening dance of the season given by the American Legion. Friday October 27 at the St. Mary Hall is the time and place and Peters 5 piece orchestra will furnish the music.

The Legion have laid plans for a series of dances this winter that should interest everyone. The dates are about all completed and in the near future will be announced.

The first dance should be a fine success from the enthusiasm that has been shown by people here. Every effort possible is being made to make the dances the best ever, and good crowds are expected.

FRANCISCO

The Cavanaugh Lake Grange will meet in the church basement Tuesday evening October 14th.

Verna and Millard Harvey are ill with sore throat.

Ralph Loveland of Ann Arbor spent the weekend with his parents.

Mr. and Mrs. Herman Hauer and Mr. and Mrs. Floyd Clum and son Lawrence of Hastings who attended the Natten-Heininger wedding, returned to their homes Saturday.

Mr. Otis Havens of Grass Lake is spending a few days in this vicinity.

Miss Mae Schroeder of Hoboken, N. J. who has been visiting relatives here returned home Friday.

Hazel Wahl entertained the Standard Bearers at her home Saturday afternoon.

The Epworth League of the Salem M. E. Church will give a social, Tuesday evening October 31.

Mr. and Mrs. Emmet Dancer and family spent Sunday at the home of Erle Notten.

Patronize Tribune Advertisers.

M. E. HOME NEWS

Mrs. M. H. Mills of Ann Arbor, spent Tuesday P. M. with her aunt, Mrs. Miranda McKnight.

Mrs. S. M. Gilchese and Rev. and Mrs. Walker of Grass Lake, have gone to Tecumseh to attend the foreign missionary convention.

Miss Mary Snedeker of Tecumseh, returned to the Home Wednesday to special the case of Miss Blount who is suffering of plural pneumonia.

Mrs. Nixon and daughter Mrs. C. L. Church of Detroit, spent Wednesday with their aunts Miss Sherman and Mrs. Kemp.

The Epworth League of Grass Lake have planned to give a service Sunday P. M. at the Home.

Mr. Brosius has purchased a piano for use in the Home. It will be highly appreciated.

Mrs. Iris Craig and son, Keith of Washington, D. C., spent Sunday with their great grand mother, Mrs. Mary VanBuskirk.

Mr. Hollis Johnson called to see his sister, Miss Doris, Tuesday evening.

Mr. and Mrs. Brosius were in Ann Arbor Thursday.

Rev. Myron Walker and wife of South Lyons, spent Thursday at the Home.

LOCAL BREVITIES

Our Phone No. 103

Mrs. B. C. Whitaker will entertain Mrs. Frank Glazier of Ann Arbor, over the weekend.

Mr. and Mrs. J. Raymond Steele of Detroit are guests of her parents, Mr. and Mrs. Jacob Hummel, this week.

Mrs. John Riker of Pontiac is visiting at the home of her son, D. A. Riker.

Mrs. Charles Messner and daughter Norma were Jackson visitors Wednesday.

Mrs. Fred Genter and daughter, Miss Lottie, spent Tuesday in Jackson.

Mrs. Elva Fisk of Kalamazoo was a guest at the home of Mr. and Mrs. W. K. Guerin, Wednesday.

Rev. E. A. Carnes and Mrs. Carnes and children spent several days of this week with relatives in Bloomington.

Mr. and Mrs. Perry Palmer of Detroit were guests of Dr. and Mrs. G. W. Palmer, Thursday.

Miss Fressa Conlan of Grass Lake spent the weekend with her sister Mrs. Eugene McKernan.

GOVERNMENT OFFERS NEW

100 BABY BONDS

Ten million dollars worth of new U. S. Treasury Certificates dated September 30th are now in the hands of postmasters in the Seventh Federal Reserve District. These certificates are issued in denominations of \$25, \$100, \$1,000, and are offered to the public on a discount basis for \$20.50, \$82.00 and \$820.00 respectively. Each certificate is protected against all forms of loss by registration and money invested in them increases about 22% in five years.

Secretary Mellon of the Treasury Department expects that this new issue of Baby Bonds will prove popular with millions of small investors and hopes to build up a large army of regular monthly buyers. The new certificates differ from other government securities in that the owner may demand the return of his investment at any time.

Postmasters are authorized to accept investments ranging from \$20.50 to \$1,000, from any individual, firm or corporation. Subscriptions also may be sent direct to the Federal Reserve Bank of Chicago.

CHELSEA BOY ON U. S. GLEE CLUB

Chelsea is represented in the University Glee Club at the University of Michigan by Harold A. Storms who was one of the 48 chosen for this year's club. Storms is one of the first ten singers. From the many who tried out, it is considered an honor to be chosen to sing.

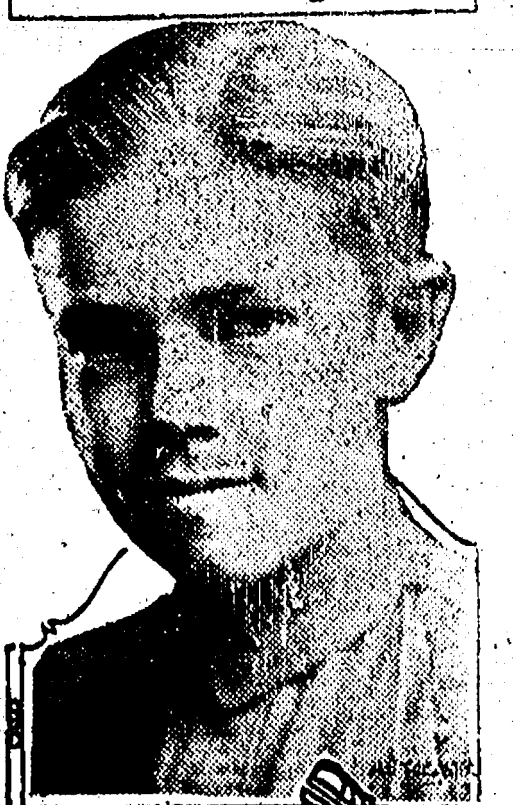

CARD OF THANKS

We wish to thank our many friends and neighbors for the beautiful floral offerings and the assistance during our recent bereavement and death of our father, also Rev. Bishop for his comforting words and Mrs. Palmer for her beautiful songs.

Mr. and Mrs. Harry Foster Mr. and Mrs. Eugene Foster Mr. and Mrs. Earl Foster Mr. and Mrs. Leeland Foster

Knitted gifts, both in wool and silk, as well as the fall season advances. The ladies seem to be the most popular colors, and frequently show hat and gloves are out the same time.

Essay Wins Trip to Washington

Stanley Newcomb, 14 years old, of San Diego, Calif., is the boy scout who wrote an essay on "How I Can Make Highways More Safe," winning over 400,000 competitors. He gets a gold watch and a trip to Washington, from the National Automobile Chamber of Commerce.

THE RADIO MYSTERY.

Have you been able to figure out why people will sit all evening and far into the night, listening over the wireless to music that would not interest them if they heard exactly the same thing on a phonograph?

Start playing a child's phonograph. Most people feel like stuffing their ears with cotton or walking out of the room.

But let that same music travel a few hundred miles thru the air—and people will thrill with delight when they hear it.

There never was a stronger proof that the quickest way to succeed is to do "the old stuff" in a new way.

What the radio fans really are interested in, is the mysterious wireless itself, rather than what they hear by Hertzian waves. The wireless has a basic and universal appeal because it is closely allied with the supernatural, even the uncanny.

The history of wireless began 70 or 80 years ago with the experiments in electro magnetic induction by Faraday, Englishman, by trade a bookbinder.

Heinrich Hertz, German Professor, came along later and in 1886 made amazing discoveries about an electric spark bridging a gap or break in a wire.

Scientific minds immediately began working on the problem of making the electric wave jump thousands of miles instead of an inch or so.

People discussed the sanity of Sir William Crookes when, in 1892, he predicted the coming of actual communication by wireless.

In 1901 Marconi, brilliant young Italian, sent the first wireless message across the Atlantic—the letter "S," in code.

Many readers will recall the wireless telegraph craze that followed among boys—also their antiquated equipment, including the coherer and de-coherer, which few youthful radio fans of 1922 ever heard of. Radio equipment now in use will be just as obsolete, 21 years hence.

Today nearly every lad knows the wireless secrets that Faraday groped for 70 or 80 years ago. But radio itself is just as mysterious and uncanny as it was in Faraday's time.

The more we learn about nature's mysteries, the less we know. Education is merely the process of extending our horizon—increasing our conception of the infinite mysteries that surround us.

The system is one of mysteries within mysteries—like the Japanese boxes within boxes.

MEMORY.

How is your memory? Is it a valuable thing? Does it make your path any easier?

The man who has not a good memory for names is often placed in an embarrassing position especially if he is in politics. The gracious woman could "just die of mortification" when she can't recall the name of some person who she liked on first meeting and in turn wished to make a good impression upon.

However as a rule the person who can't remember faces isn't out much unless to recollect is part of his job. This is because so few of the people whom you meet care whether you remember them. And many others are not worth the effort.

What we need even more than memory training is a system to enable us to forget some of the misinformation that clutters up the average mind. The brain much as it will absorb has its limits.

THE BOOZE CURB.

The "bootleggers' curb market" in New York City, where hooch is dispensed in cise lots or ship loads, moves from its old location on Mulberry Bend to somewhere in the vicinity of Broadway and West Fourth St. Rum sleuths are seeking the exact address.

A bootlegger in a West Virginia oil town figured out a system that made it unnecessary for him to move for some time. When he sold a drink he made the customer buy two and sell one back. Then the customer automatically became a bootlegger, revenue officer or not. So he thought. The courts thought otherwise.

CHANGE.

The philosopher who said that nothing is eternal except change would be interested in this:

England, like Uncle Sam, keeps standards or models of weights and measures, supposedly absolutely accurate. Now it discovers that the standard British yard, stored in a sealed box for 30 years, has grown a ten thousandth of an inch.

Vibrations caused the change, say scientists. But they are unable to explain why the standard British pound, made of platinum, has gained nearly three grains in weight.

IN DAYS OF OLD.

New York city in 1926 will celebrate the three hundredth anniversary of its founding. Peter Minuit in 1626 bought Manhattan island from the Indians for \$26. The same land, for taxation purposes, now has an assessed valuation of \$6,000,000,000.

Many other changes. Crime, for instance. Shortly after its founding, New York city (then known as New Amsterdam) had a population of 252, yet in one morning 38 women appeared in police court, also a small mob of men. On a population basis, that would be equivalent now to about a million showing up before the judge daily.

No wonder girls learn to swim more easily than men. Who wants to teach a man to swim?

Confession is good for the soul. Edison admits he invented a cigar lighter in his youth.

There are only 2,700 Eskimos left. Where will we get our janitors next winter.

Late Style Accessory is Made of Bits of Old Shawls.

Black Moire Most Satisfactory All Around Material; Beaded Models Have Passed Away.

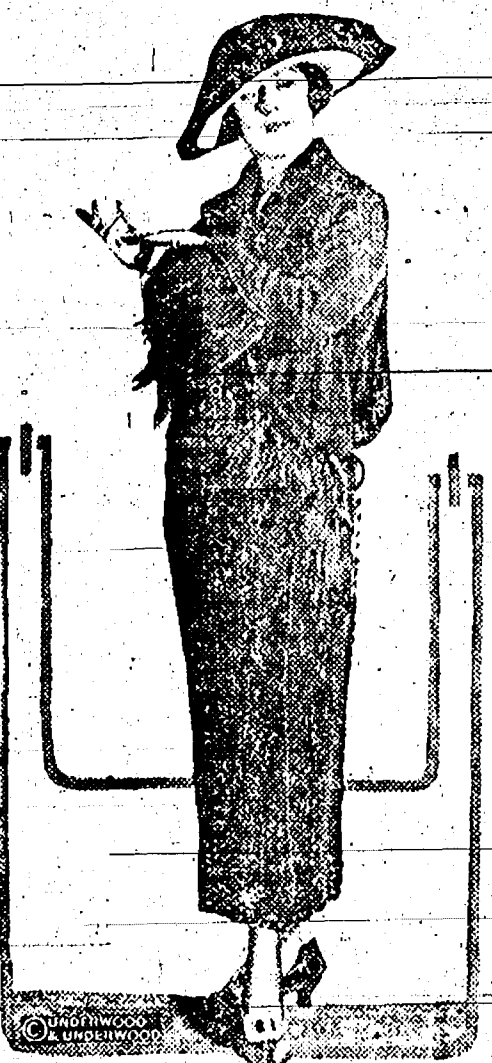

The little hand bags are so numerous that they confront one at every turn, and yet many of them are unbecomingly ugly. One has to hunt and hunt before coming upon anything wholly pleasing and satisfactory. Either they are too beautiful to be efficient or they are too efficient to be classed among the beautiful. Is there anything worse than one of those lumpy bags, crowded with too much material and looking like a badly wrapped bundle?

Some of the newer bags are made of Paisley bits of the old shawls—and they are most satisfactory. They are lovely bits of color, to begin with, and then they are made so that they have spacious enough interiors to make them feasible carry-alls for the woman who must have some pocket in which to put the helpful appliances for her outdoor makeup. Some of these Paisley bags are headed along the outlines of their patterns with rows of steel beads and the effect of that extra touch of work is a charming addition. There will be a steel beaded string with which to carry a bag of this sort, and often a steel tassel or two is used for a finish at the point where the shape of the bag ends.

The black moire bags are perhaps the most satisfactory all around and they are chiefly notable for the frames upon which they are mounted and the ivory or jeweled clasps used to snap them together. The one big value of a black bag is that it goes with everything.

Beaded bags, unless they are extraordinarily handsome, have passed away as a strong asset to the toils of a smart woman. Of course, there are those finely woven purses of beads without hangings which are so extremely colorful that they will often be chosen to help out a costume just because of the shining touch which they are capable of adding. But the head bag that was so prominent has faded away altogether, leaving in its place only the slither ones by which it is possible to add color to a gown.

COLLAR WHICH ENDS AT HIP

Showing a black trelaine coat dress which fastens on the left hip with an ornament in brilliant red. Drooping monkey fur calls attention to the tight sleeves and outlines the collar which ends at the left hip.

OLD-STYLE TRIMMINGS JACK

Fine Soutaching, Bands, Buttons and Belts Again in Favor for Milady's Wear.

If trimmings, a marked revival of interest in the old-fashioned passe-montre motifs stands out as the chief note to signal. Fine soutaching and an extensive use of flat braids in plain and fancy weaves is noted. Fancy metal bands and metal run or metal head braids figure among the favorites.

Buttons are used chiefly as ornaments. They are very large, in brilliant colors and are elaborately carved. Many bequeathed buttons ornamented with gilt figures in Chinese designs are shown.

Round buttons, fabric covered embroidered buttons and small, cut jet and steel buttons, are the chief types used for jackets.

Large ornamental plaques in carved composition, or in steel are used on tailored dresses.

Belts are used much less this season than during the preceding season.

Steel beaded leather belts appear as the chief novelties. The general trend is for belts which are simple and inconspicuous. Dry Goods Economist.

Pretty Red Flock.

A picturesque little flock for a small girl seen recently was of red cashmere, cross-stitched in black to form a yoke design that extended slightly down the front in panel effect.

LEAVIN'S

Dedbrooke (roused by his wife—"What's that you say, a burglar?") Mrs. Dedbrooke—"Yes, Fancy a burglar calling on us."

Dedbrooke—"Let him climb in; then I'll give a yell and it may make him drop something he's stolen elsewhere."

Any pretty woman's tears are worth their salt.

How to Make and Use It

By A. HYATT VERRILL

Copyright by Harper & Brothers

XX. REGENERATIVE RECEIVING SET

A regenerative set is one in which the wireless waves or oscillations entering from the aerial are regenerated and increased by means of the vacuum bulb and for this reason, as well as on account of others, it is far superior to any style of crystal set. Roughly, a vacuum bulb or tube detector is about thirty times as efficient as the best crystal detector and moreover, with such sets, one or more stages of amplification may be used, thus increasing the sounds to almost any extent. One of the great advantages of regenerative sets is that they will permit of tuning out interference and the better the set and the more efficient the various units, the clearer and better the results obtained. I have already described how to set up a small regenerative set under "Bells," but there are various other methods of arranging or assembling regenerative sets. One of the best is the set used with a vario-coupler and vario-meters, which is illustrated in Fig. 55. It is using two vario-meters and a vario-coupler as shown, great selectivity of the circuit is obtained and by looking on amplifiers and using a loud speaker phone, music, songs, speeches, etc., may be reproduced as loudly as a good phonograph.

The only objection to such a set is that there are several adjustments to be made in tuning as there are the three knobs to look after. In making this set it is not advisable to attempt to make either the vario-coupler or the vario-meters, for while these instruments look simple, special tools and long practice and skill are required to construct them properly. Also, when purchasing these select those in which the coils are not varnished or shellacked as these coverings invariably decrease the efficiency of a coil. The other parts required, aside from ordinary insulated electric bell wire, binding posts and a panel or base, are the vacuum bulb or tube detector; the socket for the tube, a grid-leak and condenser (which you can readily make yourself if desired); the rheostat, a variable condenser of 5000 mfd.; the six coil storage battery; B-batteries and a pair of 2000 ohm receivers.

By studying the diagram, you will easily see how the set should be arranged and hooked up, but, if you desire, the wires may be altered to run at other angles or directions, the main thing being to keep them as short and direct as possible and to avoid running them parallel or crossing them. The aerial A is led in and connected to the primary of the vario-coupler B, the other terminal of the vario-coupler being connected with the variable condenser C, and the latter being connected with the ground-wire D. From the secondary coil of the vario-coupler E, one wire is led to the phone or receivers, F, a connection being made at G with the storage battery H and the rheostat I. The other wire from E, is led to the grid-variometer J, thence to the grid-leak and condenser K, then to the vacuum-tube grid L. The plate-connection of the tube M, is wired to the plate-variometer N, and from here the wire runs to the B-battery O, the other terminal of which leads to the phone-receivers, F.

The whole affair, when finally connected and mounted on a neat bakelite or fibre base, should be enclosed in a neat case with a hinged cover in order to protect the instruments from dust and disturbance and yet allow inspection or adjustment. Of course the adjusting or tuning knobs and the outside connections for aerial, ground and batteries should be led through the case or box to binding posts on the exterior. If the whole set is arranged compactly and neatly and you make an attractive, well finished case, the set will be the equal in appearance, as well as in efficiency, of any ready-made set costing several times as much.

High Grade Securities

It is very seldom, if ever, that stock salesmen make an effort to sell you securities in old, time tested companies, with a history of satisfactory earnings covering a period of years.

Here is the reason: If they sold you securities of an old established public utility, industrial or railroad company, their commission would only be about \$1.50 on each \$1,000. On doubtful new promotion and wild cat stocks the salesman's commission often runs as high as \$100 or perhaps \$150 on each \$1,000. That is why they can camp on your trail for days and even weeks to sell you worthless stocks. Have this bank investigate thoroughly before purchasing.

In the Realm of Society

Birthday Party Thursday at M. E. Home.

A very pleasant evening was spent at the Home Thursday. The matron, Mrs. Brosius, planned a party for all those whose birthdays came in August, September and October, the following celebrating: Miss Ellen Steere, aged 73, Mrs. Annie Black 75, Mrs. Jennie Wood 75, Mr. Frank Ford 77, Mrs. Florence Jones 75, Miss Laura Mount 80, Mrs. Mary Stocking 81, Mrs. Martha Goddes 82, Mrs. Ruth Armstrong 82, Mrs. Eliza Kemp 82, Mrs. Rebecca Robbins 83, Mrs. Samantha Seelye 84, Miss Jennie Sherman 85, Mrs. Mary Parham 85, Mrs. Pruella Converse 86, Mrs. Jennie Weller 86. All those able to come to the parlor enjoyed a lunch there after which a program was given. Rev. E. A. Carnes acting as toastmaster.

Singing by all.
Prayer by Rev. T. O. Jones.
Singing by all.
Remarks by Rev. Carnes.

Solo by Mr. Paul Neihaus, accompanied by Miss Faust on the piano. Remarks by Rev. Risley.

Solo by Mrs. A. A. Palmer, accompanied by Mrs. P. M. Brosius.

Trads were tendered, these celebrating and responses given.
A vote of thanks given to the kind friends who entertained so nicely by Mr. Brosius. Mr. Snyder gave a short talk and presented every one present with a box of chocolates. "Blest be the tie that binds," was sung. Rev. Risley closed with prayer. The guests were Rev. Carnes, Rev. Risley, wife and son Carl, Mrs. A. A. Palmer, Miss Faust, Mrs. Brosius, Mr. and Mrs. Schneider, Mr. Paul Neihaus.

Birthday Party
Mrs. Emmett, Dancer, entertained some girls, Tuesday evening, October 17, in honor of her daughter, Nadene's thirteenth birthday. The evening was spent in playing games. The table was beautifully decorated with myrtle and a large birthday cake with candles centered the table. The place cards were black cats. Dainty refreshments were served.

Box Social
There will be a box social at the home of Mr. and Mrs. John Brosius, Friday evening, October 27, 1922, for the benefit of School District No. 10 of Sylvan. A prize will be given for the most attractive box. Everyone come.

Surprise Party.
The friends and neighbors of Mrs. Henry Gieske gave her a delightful surprise Friday afternoon, October 20, in honor of her birthday. A delicious pot-luck supper was served.

Olive Lodge.
Special meeting of Olive Lodge Tuesday evening, October 24. Work in the third degree. Lunch.

Entertains.
The Mysterious Eight club was delightfully entertained at the home of Mrs. Sebastian Grits of Bunker Hill Wednesday, October 11. A delicious five course luncheon was served at one o'clock. The afternoon was spent in playing bridge.

Reception
About 150 attended the reception at the Methodist church, Thursday evening, which was given in honor of Rev. C. S. Risley and Mrs. Risley and family. The following program was given:
Address of Welcome—O. C. Barkhart.
Response—Rev. C. S. Risley.
Solo—Mrs. A. A. Palmer.
Welcome from the Congregational church—George W. Webster.
Reading—Doris Foster.
Solo—George Atkinson.
Ice cream and cake were served.

Surprise Party

The Summit street Neighborhood club pleasantly surprised Herbert Snyder and W. H. Parsons, in honor of their birthday anniversaries, Tuesday evening, October 17. Cards were the diversion of the evening. Delicious refreshments were served. Mr. Snyder and Mr. Parsons were presented with birthday cakes.

Pythian Sisters.
Regular meeting of the Pythian Sisters Friday evening October 20.

Literature Club
The Current Literature club will meet with Mrs. Jabez Bacon Monday evening, October 23.

R. A. M. Meets
The R. A. M. will meet Friday evening. Work in the Past Masters degree.

Birthday Party
Mrs. Harris Fletcher entertained six little girls and boys Wednesday afternoon, October 18 at a birthday party in honor of her daughter's, Mary, sixth birthday. The afternoon was spent in playing games. Dainty refreshments were served. For favors each little guest was given an individual cake with a candle on it. The small hostess received many fine gifts.

Lafayette Grange.
Lafayette Grange held a most enjoyable meeting at the home of Mr. and Mrs. John Liebeck, Thursday evening, October 19. The answer to roll call, "Irish Witticisms" were clever and amusing.
Topic for discussion, "Which is the most profitable, selling cream or making butter?" The child and the pocket book, resulted in the decisions that selling cream was the better, although some of the men were in favor of feeding the milk to the hogs. The majority favored allowances for children over five years of age as it would teach the child the value of money.

Halloween Party
The members of the Eastern Star will give a Halloween party Wednesday October 25 at the club rooms. All members of the order, their families, and friends are invited. Cards and dancing and other amusements will be features of the evening. Refreshments will be served. It will not be a costume party.

S. P. I.
The S. P. I. will meet with Mrs. Edwin Pielmeier Monday evening, October 23.

Farmers Club Meets.
The Western Washtenaw Farmers Club will meet Friday October 20 with Mr. and Mrs. E. E. Smith. The program will be as follows:
Song by Club.
Prayer.
Roll Call, - Current Events.
Reading, Mrs. Ella Foster.
Original Poem, C. W. Saunders.
A Talk on the "Flower Farm," Mrs. E. A. Carnes.
Discussion, How can we get reliable information regarding men running for office, J. H. Boyd.
Question Box.

Halloween Party
The members of the Eastern Star will give a Halloween party Wednesday October 25th at the club rooms. All members of the order, their families, and friends are invited. Cards and dancing will be the features of the evening.

Ladies Guild.
The Ladies guild of the Congregational church will hold a rummage sale in the church parlors, November 7, 8, and 9.

CARD OF THANKS
We wish to thank our many friends and neighbors for the beautiful floral offerings and kindly sympathy shown us during our recent bereavement; also many thanks to the K. O. T. M., American Legion and the Masonic Lodge. Mrs. Charles Steinbach and family

Call phone 1200 for that next order of job printing.

ODDER OF PUBLICATION.
State of Michigan, County of Washtenaw, ss.
At a session of the Probate Court for said County of Washtenaw, held at the Probate Office in the City of Ann Arbor, on the 4th day of October, in the year one thousand nine hundred and twenty-two, present, EMORY E. (LELAND), Judge of Probate. In the Matter of the Estate of

Katharine Richards, deceased, John L. Pletcher, administrator, having filed in said Court his final Administration account, and a petition praying for the allowance thereof and for the Assignment and Distribution of the Residue of said estate.
It is Ordered, That the 1st day of November next, at ten o'clock in the forenoon, at said Probate Office, be appointed for hearing said account. And it is further Ordered, That a copy of this order be published three successive weeks previous to said time of hearing, in the Chelsea Tribune, a newspaper printed and circulated in said County of Washtenaw.
JUDGE OF PROBATE,
DORCUS C. DONEGAN, Register. 813

A Good Physic.
When you want a physic that is mild and gentle in effect, easy to take and certain to act, take Chamberlain's Tablets. They are excellent.—Adv.

Miss Cynthia Knight of Ann Arbor was a pleasant caller at the home of Mr. and Mrs. C. E. Bowen, Wednesday afternoon.

CONGREGATIONAL

Rev. E. A. Carnes, Pastor.
Morning service at 10 o'clock. Topic: "The Church and Finance." Sunday School at 11:15. Evening Service 7:30.

ST. PAUL'S CHURCH.

P. H. Grabowski, Pastor.
Conforming with a beautiful custom of long standing we will again celebrate our annual Harvest Home Festival with a special service in our church next Sunday morning October 22. In this service we will be reminded anew of the manifold blessings that our Lord and Savior has bestowed upon us during the past few months. Result should be the awakening of a new gratitude towards the giver of all good and precious gifts and a greater consecration to the cause of our souls' salvation.
In connection with this service we will also celebrate the Lord's supper. Certainly this day is a most appropriate day for taking advantage of God's grace offered to us in the Holy sacrament. Come with penitent and believing hearts and the Lord vouchsafes to you the forgiveness of all your sins. Both services will be conducted in the German language and will commence at the usual hour. Service at 10:00 o'clock and the Lord's supper at 11:15. Come early if you desire a good seat. Sunday School will not commence at the usual hour but at 9:15.

"Behold the Bride"

The greatest day of her life deserves to be recorded in a really good photograph.
But it's only when it's the work of a true artist—with the skill and taste to reflect personality—that such a portrait will give lasting satisfaction and be cherished through the years to come.
Operating hours 9:30 a. m. to 3:00 p. m.

McManus Studio
CHELSEA, MICHIGAN.

ducted in the German language and will commence at the usual hour. Service at 10:00 o'clock and the Lord's supper at 11:15. Come early if you desire a good seat. Sunday School will not commence at the usual hour but at 9:15.
