BILL'S COLUMN

Timely Discussions of various facts that may interest you.

"BILL"

Wonder if times are changing? Sunday we almost had the shock of our lives while in Detroit.

Not so many years ago the horseless carriage was the talk of the country. Now it is the modern means of transportation. And the old horse and buggy has disappeared.

Today we travel so fast we cannot consider the old slow means of getting around.

There was a time though when the bicycle was considered a fine and fast means of travel. But today it is about out of the running.

In suburban districts and smaller communities the bicycle still is a means of cheap transportation but in the congested districts of the larger cities one hardly expects to see them.

Sunday we did see a man riding a bicycle in the downtown district of Detroit.

How he was able to go along and not get killed was almost a miracle. But he seemed to be making good progress although he attracted considerable attention.

Evidently spring is well on its way now. Several persons have informed us that they have seen robins.

It is hard to tell them that others saw them first but the reports were about a week late.

Politics has become a popular issue in the village of late. But then look at Detroit. They are having a great time about who is going to be their next mayor.

The only difference between Chelsea and Detroit on that issue is that in Detroit the persons go out after the job, and in Chelsea the job has to go out after the man.

There are some other differences though that are very material. For instance the salary. In Detroit they get thousands while here you get thanks.

But even at that the job is a good one and requires the energy of a level headed man.

Ice skates would have been almost as satisfactory as rubbers or galoshes yesterday. Ice sidewalks and streets made walking as well as autoing hazardous.

We saw a good many people out chopping Sunday and Monday. The ice did disappear in some places real fast. Did you notice that "Observer"?

And another question "Observer," how did you get along with the ice on your walks?

Hard coal has been at such a premium and so hard to obtain that many persons here have been forced to use soft coal. And to hear the complaints of the housewives have been making out soot and dirt, it is a wonder the folks have not gone to using peat.

ASONS PLAY HIGH SCHOOL TEAM HERE.

The Chelsea High school basketball team defeated the boys and girls teams of Mason Friday night of this week. The game will be played on the local court in the Welfare building.

BILL SAM'S DICTIONARY

COMMITTEE MAKES REPORT AT MEETING

FAIRBANKS-MORSE PROPOSITION NOT WHAT IS WANTED HERE.

Permanent Easements are Satisfactory is Consensus of Opinion at Meeting.

A large representative group of men gathered at the Fireman's hall Monday evening to partake in the mass meeting called for further discussion of the electric light proposition. Because of the absence of the chairman of the previous meeting D. H. Wurster appointed C. Lerman to act as chairman.

The first matter that was brought up for discussion was the case of the Consumers Power Company. B. H. Turnbull inquired about the easements, and this question was then discussed thoroughly.

A suggestion was advanced that it might be more agreeable to the citizens of the village if the Consumers Power Company would agree to work in conjunction with the village council in regard to the spotting of poles etc. J. K. Swanson, manager of the Consumers Power Company said that they would be very willing to work under any such agreement and were it possible to fix up such a contract they would be glad to do so.

Contract Cannot be Changed Now.

The difficulty being that it is too late to change the contract which is to be voted upon. The question of easements seemed to be the main point of discussion. The Consumers Power company are desirous of placing their poles in back lots or at places of vantage. The permanent easements are merely a matter of form which is necessary before the company can operate over a persons property.

The matter was then brought to a head by calling for a vote on the matter of whether or not the people present who were property owners would be willing to grant the permanent easements. The vote of the meeting was strongly in favor of granting the easements.

A man from the State Highway department was to have been at the meeting to report on the sewerage disposal concerning M 92. None of the men were here to make the report and so the matter was passed over.

Committee Makes Report.

The committee which had been appointed to investigate the oil burning engines and especially the Fairbanks-Morse proposition made their report. The committee had gone to Ann Arbor where they had conferred with the engineering department and had obtained facts concerning the engines. Then the committee went to Quincy where one of the Fairbanks-Morse plants, similar to the one that could be used here is now in operation. The committee returned the report that they were unanimous in their decision that the Fairbanks-Morse proposition was not what was wanted in Chelsea.

From their investigation they found that the plant was not considered reliable. At Quincy they found that the rates were high and yet the plant was not making money. Considerable discussion resulted from the statements as to the expenses of the Quincy plant.

L. G. Palmer, who reported for the committee in the absence of the chairman also stated that the full type of Diesel engine looked much better.

R. C. Paul, sales engineer of the McIntosh and Seymour corporation upon introduction by the chairman told the people of the full type of Diesel engines and what they were doing. His talk was interesting and his proposition was discussed. The costs of the full type Diesel engines would be considerably more, and would be about \$40,000 for the engines.

Gas Committee Needs More Time

The question of the gas franchise and rates was asked and R. B. Turnbull, who is chairman of the committee appointed to investigate the question stated that they were making progress and that the Washtenaw Gas company would be ready to meet with the committee in about 30 days. An appraisal of the property of the company was to be made and they desired to wait for the report.

Superintendent E. Roehm was called upon to report how the motor was proceeding. He reported that so far the motor had been a fine success and that they were producing power cheaper with the use of the motor than they could with their own power. There is a certain amount of loss in the motor and generator and as yet it is not known what the exact costs will be. The meeting adjourned after considerable more discussion.

Mrs. George Rathbun, who has been assisting in the care of her parents, Mr. and Mrs. George Rathbun, returned from a visit to Chelsea, Saturday.

King "Tut" Has a Rival

MRS. JACOB DANCER DIES

Well Known Resident of Sylvan Dies After Long Illness.

Mrs. Jacob Dancer died at her home, Saturday afternoon, February 24th, 1923, after an illness of six years.

Phoebe Coy, daughter of John and Annie Coy, was born in Unadilla, July 26, 1841. When a young girl she came with her parents to Lima and on May 18, 1857, she was united in marriage to Jacob A. Dancer. They commenced housekeeping on the farm in Lima and in 1878 they moved to Lincoln, Nebraska, where they remained for one year. In 1879 they returned to Michigan and settled on the farm in Sylvan on which they made their home for many years. In March 1918 they came to Chelsea.

Mrs. Dancer is survived by her husband, four sons, J. Nelson, Ernest R., Herman, all of Chelsea, and Emmett H. of Lima; two daughters, Mrs. F. E. Cooper and Mrs. Herman Pierce of Lima; 20 grandchildren, two great grandchildren and two brothers, John and Charles Coy of Mason.

Funeral services were held from the residence at 2:30 Monday afternoon. Rev. C. S. Bissley officiated. Interment was made in Oak Grove cemetery.

KEEN INTEREST IN LINCOLN CLUB'S BANQUET SHOWN.

Address by Dr. Rice on Administrative Problems Attracting Many.

That the Lincoln Club banquet which is to be held in the Michigan Union, Ann Arbor, March 8, will be a success in every respect seems assured and the committee in charge is today announcing that the demand for tickets is so great that there is some likelihood that it will be impossible to accommodate every one who desires to attend.

With the announcement that Dr. M. S. Rice of Detroit, has been secured to give the address on this occasion.

Washtenaw county residents are assured that the evening will be a profitable one. Dr. Rice is admittedly one of Detroit's leading pastors and is sought nationally as a speaker. His address deals with administrative improvements which he hopes to see accomplished and is the outcome of no small amount of thoughtful investigation and study on his part.

While the banquet is planned primarily for Washtenaw county residents, Detroit men, prominently connected with political life, are making reservations and the interest in Dr. Rice's address is already keen.

The meeting will be non-partisan. Lincoln club officials state, and an open minded discussion of problems facing the legislature will be taken up.

ICY ROADS MAKE TRAVELLING DIFFICULT.

The thawing and then the rain on Sunday evening made travelling on the paved roads as well as the country roads dangerous. The ice which covered the ground since the last storm was uncovered and the roads were so slippery that cars found that even chains were of little value. One man reports that 14 cars were seen in the ditch between Detroit and Northville. Travellers Sunday night said that they never knew when they would be turned around and headed in the opposite direction. It looks like this will end the snow and ice and then probably heavy weather is due.

TRIBUNE SMILES

Most troubles are imaginary, but not automobile troubles.

The woman who thinks only of her looks always looks it.

It is not impossible for a thin man to make a stout denial.

You may not be able to say, "The same," but you can still say "The same to you."

In a woman's novel the principal ingredients are love, money and matrimony.

As yet the mirror has not been made that will enable man to see himself as others see him.

Hunt the bright side. If Columbus hadn't discovered America we would all be foreigners.

Isn't this singer and minister murder some New Brunswick stew?

CAUSALITY RESULTS FROM BLOWS OF ROLLING PIN.

Death was the result of a trap set by several conspirators some time ago. The causality occurred last week when the victim was caught in the latest trap set for him.

For weeks the home on E. Middle street had been molested by the unwelcome guest. Every means of capture that was possible was used but to no avail. Rifles, poison, traps and detectives were all on the trail.

Finally the trap was all set. The victim was caught and the head detective called for his wife. She answered the appeals of her husband, bringing with her the rolling pin.

The instrument of death was applied and ruined. But the rat which was the victim was killed. A kind friend has sent another rolling pin to the lady to replace the destroyed one.

Mrs. E. E. Smith and daughter, Miss Georgia Russell, were in Salline, Monday to attend the funeral of Mrs. Smith's nephew, Lamare Ewing. The lad was accidentally shot and fatally wounded last Thursday afternoon at the home of a school friend in Pontiac.

AUCTION ADVERTISING

Farmers who are contemplating holding auction sales this spring will be well repaid for using advertising in the Tribune.

An advertisement in the Tribune reaches the people you want, and newspaper advertising has become the best form of telling the greatest number of people know what you have for sale.

The Tribune will take your ads to those who are interested. Don't fail to use them.

Chelsea Tribune
ALWAYS AHEAD

THIRD MUSICAL MEMORY CONCERT THURSDAY

The third concert in the Music Memory Contest will be held in the Congregational church, Thursday evening, March 1, at 8 o'clock. This will be a splendid concert. Mrs. Harry Bacher of Ann Arbor, will bring a group of young people from that city to give the program. Owing to the unusual amount of sickness it was impossible to hold these concerts the past two weeks, but Thursday evening all the numbers including this weeks group will be given. A large attendance is anticipated.

KELLY GREEN'S WIN FROM ST. JOHN'S

The Kelly Greens met and defeated the St. John's Juniors of Jackson here last evening. The game was played in the St. Mary gym. At the end of the first half the score was 12-8 and 8. During the second half the Kelly Greens checked up on their guarding and allowed but one point for the Jackson team, while they rolled in six baskets.

The game ended with a score of 20 to 10. Summary: Kelly Greens (20) Pos. St. John's (10) Tuttle RF. Riley Wheeler LF. Kuhn Conk C. Kennedy Eder RG. McIntosh F. E. Campbell Keusch LG. Campbell Substitutes: Policht for Keusch, Hagen for Riley, Brady for Kuhn. Baskets: Conk 4, Tuttle 2, Wheeler 2, Keusch 1, Policht 1, Hagen 2, Brady 1, Kennedy 1. Free throws, Kennedy 2.

GRASS LAKE LOSES ON THEIR OWN COURT

Chelsea Boys Win 10 to 5.

The Chelsea boys had a hard game with Grass Lake on the foreign court. The Grass Lake team have only been defeated a few times on their own court. The small score indicates that the game was hotly contested and was either teams game until the final whistle.

Chelsea was not accustomed to playing on such a small court and this handicapped the boys with their passing work. Brooks and DePont scored two baskets each which were the only field goals made by the Chelsea team. The close guarding of Vogel and Buehler held the Grass Lake team to 5 baskets.

Summary: Chelsea (19) Pos. Grass Lake (5) Mayer RF. Walker Risley LF. Knickerbocker Brooks C. Webb Vogel RG. McCumsey Duchler LG. Jones Substitutes: DePont for Mayer. Baskets: Brooks 2, DePont 2, Walker 1, Webb 1. Free throws, Brooks 2 out of 6, Walker 1 out of 8.

The Chelsea girls played at Mason on Friday night and defeated the Mason High girls by a score of 11 to 10.

JACKSON MIDGETS HAVE TIN. The Kelly Greens will play the Memorial Baptist basketball team of Jackson here Thursday night in the St. Mary Hall.

RESIDENT OF LIMA FOR 56 YEARS DIES

Mrs. Geo. Barles Succumbs After Short Illness.

Mrs. George Barles, Sr. of Lima Township died Sunday evening, February 25, 1923, after a short illness.

Caroline Magdalen Schneider was born in Wurtemberg, Germany, on October 28, 1846. She came to America in April 1868. She made her home with relatives in Philadelphia and Washington until she came to Michigan in 1887 at the time of her marriage to George J. Barles. Mr. and Mrs. Barles began housekeeping on the farm in Lima on which they have made their home for the past 56 years. She is survived by her husband, two sons and four daughters, they are Jacob B. of Chelsea, George J. of Lima, Eva Catherine McIntosh of Flint, and Clara and Amanda of Detroit, 13 grandchildren and five great grandchildren and two brothers and four sisters living in the east.

Mrs. Barles, in her younger days cheerfully responded to the calls of sickness among her neighbors and many friends and she will long be remembered for her kindness to all.

Funeral services will be held from the residence, Wednesday afternoon, at 12 o'clock and from the Zion Lutheran church at Rogers Corners at 1 o'clock. Rev. E. Thoma will officiate. Interment will be made in the Zion cemetery.

REGULARS WIN FROM ROSARY 5-OF DETROIT

Rally in Last Quarter Gives Victory To Chelsea.

The St. Mary Regulars had a close game Sunday afternoon in Detroit with the Rosary Shamrocks. At the end of the first half the Detroit team led by a score of 10 to 9.

The third quarter told a different story, the boys went in to win but were met at almost every turn. The pace they set though was too much for the Detroit team. During the fourth quarter they cut loose and evened the score and then took a 5 point lead which they maintained until the final whistle.

During the last quarter the Chelsea forwards both scored two baskets and Brooks caged 3 and 3 free throws. McDonough the Detroit center is credited with 13 of the 21 points made by Detroit. The game ended with the score 26 to 21.

Summary: Chelsea (26) Pos. Detroit (21) Munroe RF. Licht Kaercher LF. Bourke Brooks C. McDonough Schoenhals RG. Thomas Gannon LG. Guarnieri Substitutes: Delaney for Licht, John for Thomas, Thomas for Delaney. Baskets: Chelsea, Brooks 6, Kaercher 3, Munroe 2. Free throws, Brooks 4. Baskets, Detroit: McDonough 5, Bourke 2, Thomas 1. Free throws, McDonough 3, Bourke 1, Delaney 1. Referee, Masterson.

RESERVES WIN FROM DETROIT TEAM 86 TO 6

Local Team Has Easy Game Sunday.

The St. Mary Reserves had an easy time Sunday afternoon defeating the Soda Test Lightning five of Detroit. The Reserves made a good practice game of it, caging baskets at liberty and perfecting their pass work. They were able to take the ball from one end of the court to the other with little trouble.

When they were covered near their own basket they would take the ball back down the floor and start over again. Baskets were made at liberty and in such rapid succession that the score keepers were kept busy.

At the end of the first half the score was 41 to 3 in favor of the Reserves. During the second half the Hoffman brothers changed off and evened up their baskets. Just three times were the Detroit players able to find the basket.

Summary: Reserves (86) Pos. Detroit (6) Phil Hoffman RF. Spick Paul Hoffman LF. McNeil J. Eder C. Schilling E. Eder RG. Schoenfeld Conlan LG. Preston Substitutes: M. Hoffman for Phil Hoffman, Phil Hoffman for J. Eder, Reider for Conlan.

Baskets, Chelsea: Phil Hoffman 17, Phil Hoffman 17, M. Hoffman 4, E. Eder 3, Reider 1. Free throws, Phil Hoffman 1, Paul Hoffman 1.

Baskets, Detroit: Spick 1, McNeil 1, Schoenfeld 1.

Chelsea Tribune is mailed to any address in the United States for \$1.50 the year, 75 cents for six months and 40 cents for three months.

OUR POLICIES

We all got together for a bigger and better Chelsea. We have a sewerage system for Chelsea. We have an electric current that is standard. We have a building program that is bound to build.

SUN AND THE WEATHER.

The sun, which supplies us with most of our light and heat, is up again after several weeks "on the warpath." Terrific storms took place on the sun during late December and early January.

These cyclones are visible to astronomers in the form of "sun spots." Some of these spots were larger than our earth. Astronomers are explaining these solar cyclones for the severe and disruptive weather experienced recently in various parts of the earth, including the United States and the British Isles and other parts of the world. They may also be responsible for "uncertain" weather.

The sun is accompanied by rapidly whirling clouds of flaming material on the sun's surface, increasing its activity. Some of the torrent of flames travel out into space as far as the earth. These flames produce magnetic storms, says Sir Oliver Lodge.

The activity of the sun rises and falls with regularity in a period of 11 years. It has been steadily declining since 1917, and almost reached bottom. And the recent big sunspots may be "turning of the tide"—the start of another period of increased activity by the sun.

Everything else—a period of rest is inevitable between periods of activity. Everything is in cycles, contrasts.

Dr. Deslandres, director of Paris Physical Astronomical Observatory, says it is now definitely known that rays of great penetrating power, including X-rays and radiations of high frequency emitted by the sun and stars.

Deslandres suggests that these rays may make the signals picked up occasionally by the wireless and which have baffled the electrical experts.

The "radio messages from people on Mars" may be merely signals from the sun.

The more scientists study the sun, the more of a mystery it becomes. Unquestionably it has something to do with regulating our earth.

Without it life on our earth would be impossible. It is a force that apparently has most to do with perpetuating life, and even believe it is the source of life.

We can never control the sun, but we can—as time goes on—learn about how it controls us. After all, that's about all that science is—learning more concerning the things we're in. We are constantly improving in a gigantic building, feverishly rushing and inspecting the building.

DOWN FROM TAX MAN.

Money, to dodge taxation, hides in tax exempt bonds. About \$100 million dollars worth of tax exempt bonds have been issued in the last 12 years by cities, counties, states, etc. A constitutional amendment, now being considered by congress, would stop tax exempt attraction.

Can you explain why the average individual or business would pay a dollar on taxes than anything else? At the bottom of our hearts, do we believe in government as much as we claim? If not, we are philosophical anarchists when the tax man shows up. If not that we have the excuse "everybody's doing it."

OVER DEATH RATE.

Only 88 American and Canadians died last year, out of every 100 of the total population. It was the lowest death rate of any year on record except 1921. The figures are furnished by Louis B. Hill, statistics expert of Metropolitan Life Insurance company.

Had it not been for an outbreak of flu, the death rate in 1922 would have been lower than the year before. Rockefeller's scientists, fortunately, have made the first real step toward the control of flu, by isolating the germ. If this leads to a preventive, probably will, a still lower death rate lies ahead.

The low death rate is good news. Even the people who wallow in the miseries of life do not seem anxious to leave.

STORES INCREASE.

The four leading chain store organizations announce that sales in 1922 exceeded 280 million dollars, compared with less than \$100 million in 1913, a prewar normal year.

Even allowing for higher prices, which make a big difference in the increase in sales of actual goods, it is evident that chain store business has at least doubled since before the war. It barely entered the period of big organization.

YELLOW PERIL.

Japan's population now is 57,653,000, reports census headquarter at Tokio. This is nearly half as many people as live in the comparatively large territory of continental United States. And Japan is smaller than California.

The Japanese population is increasing one person every 43 seconds. That is the real Yellow Peril. And it's decidedly more dangerous to Japan than to others.

Aurora Borealis cut off the electric current in Louisville, Ky. This is the north pole came south for the winter.

Efforts to eliminate strange words from menus. Nothing to do with the strange prices.

WHISPERS

Sunshine is free but you can't help yourself to it when the clouds have the visible supply wrapped up.

NOTICE OF ELECTION

Notice is hereby given to the qualified electors of the Village of Chelsea, State of Michigan, that the next ensuing Annual Election will be held at the Sylvan Town Hall, within the Village, on Monday March 12th, A. D. 1923, at which election the following officers are to be elected, viz: 1 Village President; 1 Village Clerk; 1 Village Treasurer; 3 Village Trustees for 2 years; 1 Assessor.

Also for the purpose of voting upon the following propositions:
To The Electors of the Village of Chelsea:

Notice is hereby given, that at the annual Village Election to be held upon Monday, the 12th day of March, 1923, the purpose of submitting to the electors of said Village, for their action and approval of a certain public utility franchise granted by ordinance adopted by the Village Council of said Village, at its regular meeting held on the 5th day of February, 1923, which said ordinance is entitled as follows:

An Ordinance granting to Consumers Power Company, its successors and assigns, the right, power and authority to construct, maintain and use electric lines consisting of poles, masts, towers, cross arms, guys, braces, feeders, transmission and distribution wires, transformers and other electric appliances on, along and across the streets, alleys and other public places in the Village of Chelsea, Washtenaw County, Michigan, for a period of thirty (30) years. That at said annual election there shall also be submitted to the vote of the electors, the question of the ratification and approval of a resolution of said Village Council duly adopted at its meeting held on the 5th day of February, 1923, providing for the sale of the distribution system and its appurtenances in said Village of Chelsea, to Consumers Power Company.

WOMEN ELECTORS.—All women who possess the qualifications of male electors are now entitled to vote at all elections providing their names have been duly registered.

RELATIVE TO OPENING AND CLOSING OF THE POLLS.—

Sec. 1 on the day of any election the polls shall be opened at 7:00 in the forenoon, or as soon thereafter as may be, and shall be continued open until 5:00 o'clock in the afternoon and no longer: PROVIDED, that in Townships the board of inspectors of election may, in its discretion adjourn the polls at 12:00 o'clock noon, for one hour, and that the township in townships, and the legislative body in cities and villages may, by resolution adopted fifteen days prior to election and published with the notice of election, provide that the polls shall be opened at 6:00 o'clock in the forenoon, and may also provide that the polls shall be kept open not later than 8:00 o'clock in the evening of the same day.

THE POLLS of said election will be opened at 7:00 o'clock A. M. and will remain open until 5:00 o'clock P. M. of said day of election.

Dated this 3rd day of February, A. D. 1923.

G. W. Wadsworth,
Clerk of said Village

TOBACCO

What About Your Garden?

Doubtless these long winter evenings you have been planning what you will grow this summer. A good share of it you can start by seed in the spring. But to be first on the market you will need some Greenhouse grown plants. Now how many are you going to need and what varieties do you prefer? Come out and talk it over so that when planting time comes you will not be disappointed.

by the fire-side still
The light is shining,
The children's arms
Round the parents twining,
How love is sweet,
O who would roam?
Be it ever so lonely,
Home is home.
—Muback.

HOME building is the most worthy effort in all of man's activities. It's an unselfish building of shelter, a haven, comforts, luxury—for others—those held most dear. The home builders are in truth the backbone of all nations, states, towns or community.

Building a home calls for vision—courage and faith. Every man who resolves to build and own a home of his own is deserving of encouragement and support of all the community.

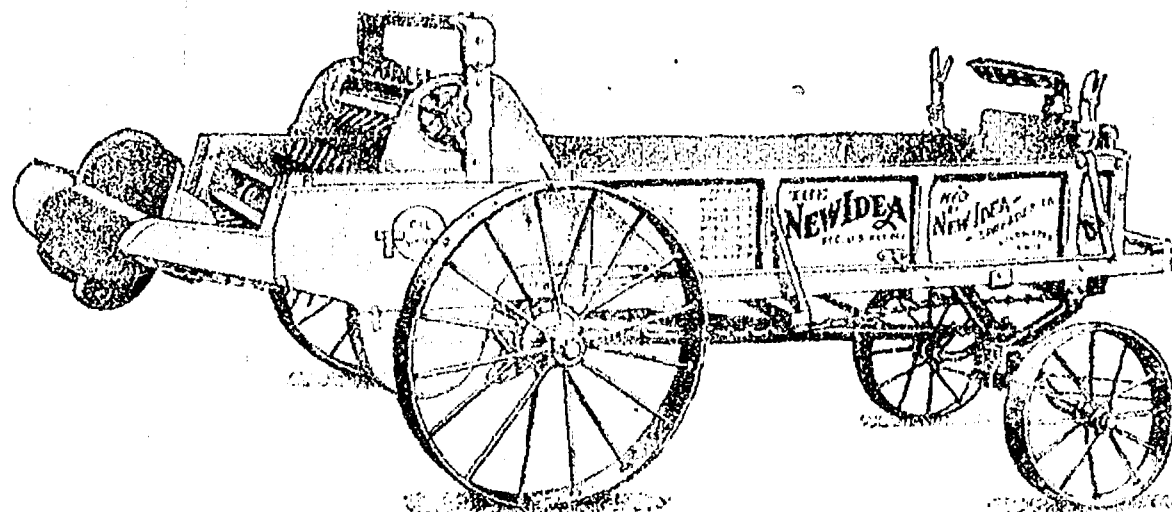

It is an established fact that 95 per cent of the homes built are financed through loans. Even when interest rates on loans are highest it is thrifty to buy and build. Interest rates are low now.

This bank is in position to help home builders in Chelsea carry out their plans.

When your new home or improvements on the old place is financed through an institution of this standing it is an insurance of resources unattainable in any other way.

WE SELL THE

New Idea Manure Spreader

It is the original wide spreading spreader, easily loaded, and with a light draft. Shreds the manure perfectly and spreads it in a wide thin blanket. Built for years of steady service. Unquestionably the most efficient and longest wearing spreader made.
