REMEMBER COUE?

How many days since you have thought of Coue? He is almost forgotten. To endure persistently in American memory one must be a baseball player, a prizefighter, a stage or movie star, a theatrical scientist or medical man—or the inventor or marketer of a breakfast food, beauty lotion or some mechanical device that can be sold cheaply.

A reader, one of the wise few who will get permanent good from Coue's system of harnessing the imagination, sends a letter announcing his discovery that the original disciple of the Coue method of treating ailments by autosuggestion was—Socrates! He died 2,322 years ago.

Xenophon, Greek historian and militarist, wrote in his "Memorabilia" that Socrates one day said to him:

"I consider that those live best who study best to become as good as possible; and that those live with most pleasure who feel the most assurance that they are daily growing better and better."

That sounds familiar, strikingly like Coue's "Day by day, in every way, I grow better and better."

Coue, of course, never claimed that he originated the idea, but instead popularized it by giving it a new twist. Hudson had the same idea 31 years ago. So did others, farther back on thru the misty ages. Socrates may have picked it up in the writings of some ancient who died centuries before Socrates was born.

Ten thousand years ago, and more, they probably had epidemics of the Coue idea. The orientals, especially.

Thousands of years from now the Coue idea will be resurrected and have flash in the pan epidemics of popularity.

What a pity that these good ideas cannot stay with us permanently instead of visiting occasionally and departing before they become indelible!

Thru the ages, experience has taught certain lessons which the wise have put in the form of proverbs. Such saws as "A bird in the hand is worth two in the bush," "Honesty is the best policy," "Don't make a mountain out of a molehill."

All this wisdom is available to us, constantly. But, as with the Socrates-Coue idea, we most of the time ignore what was found to be truthful by previous generations who got hard bumps in the finding. "Old foggy" notions, we call them. So did past generations, and so will future.

We forget or ignore the proved wisdom because each generation thinks it's the smartest ever. We take a chance, go contrary to proved wisdom—and land on our heads.

Success and happiness are easy to reach; the rule's simple.

GIFT TO HEALTH.

The Rockefeller foundation, chartered by a special act of the New York legislature 10 years ago, has expended a total of \$76,757,040 during its first decade, according to Edwin R. Embree, secretary of the foundation.

Expenditures are divided as follows: Public health, \$18,188,888; medical education, \$24,716,859; war relief, \$22,208,541; other philanthropic work, \$10,445,628; administration, \$1,107,174.

Mr. Embree's statement discloses that the international health board, established as a part of the foundation in 1913 to demonstrate the methods and costs of controlling certain diseases, has co-operated with 27 American states and 50 foreign governments and has increased its annual expenditures from \$133,237 in 1914 to \$1,842,249 in 1922.

In the development of the foundation there has been increasing concentration upon medical education and health. The foremost scientists and medical men of the world have been and are employed to discover causes and cures and preventatives of disease. If this gift to health is not worth while we know of none that is. We'll take it in preference to anything else within the power of man to confer.

John D. as the world's richest man learned that there is nothing so precious as health and now wishes all of his fellows to come into the treasure. No matter what has been said about him this shows "he cares." And that's the big thing. Some regard for others.

NEW MIGRATION.

Another big scale migration of southern negro farmers to northern industrial centers is reported by field agents of the department of agriculture. In Georgia alone 32,000 have hit the northern trail, nearly a tenth of the state's negro farmers, in less than a year.

When hard times come again, they'll be singing "Dixie." Eventually the negro population will apparently be distributed about equally all over the United States. They're invading the north rapidly.

VOLUME OF TRADE.

The world's international trade (combined exports and imports of all countries) totaled 45 billion dollars last year, says the statistician, O. P. Austin. This compares with only 40 billion dollars in 1918, the prewar boom year, and 75 billions in 1920, the record year.

While the world's countries are buying and selling each other more than before the war, in dollars, the actual amount of business (tons, bushels, etc.) is far below normal, because the dollar buys a lot less than in 1918. The price hoax rises to fool us, at every side.

But patient struggling in the right,
And suffering wrong that right may win,

Achieves the victory final, bright,
O'er foes without and fears within.
It must be so, for right must win,
Since God is God and sin is sin.

PEGGY'S CORNER

I have another recipe today from a reader, but she did not even sign her initials. It is for:

Gold Cake

One-third cup butter, three-fourths cup sugar, four yolks of eggs (beat well) one-third cup milk, one and one-half cups flour, one and one-half teaspoonsful baking powder, one teaspoonful of orange extract juice salt.

Mix ingredients in order named, sifting the baking powder and flour together and bake in a moderate oven. This makes a loaf cake and may be iced as preferred.

If the lettuce is wilted, tear the leaves apart, wash and drain—then wrap in oiled paper or else place in air tight receptacle and set in a cool place. Thirty minutes should restore it to crispness.

Cream Cheese and jelly make a delicious sandwich filling. If you use but bread so much the better.

Good Form—A man does not offer his arm to a woman unless she is infirm or elderly, or actually needs his help. It is bad taste for a man to grasp a woman's elbow and he should never thrust his hand thru her arm.

Hamburger Steak.—If you will add bread crumbs to your hamburger steak it will make it tender.

Emery Powder and sweet oil will keep your steel kitchenware in excellent condition.

Baked Apple stuffed with chopped nuts and raisins or dates make the common baked apple a rare treat.

Undoubtedly the reason why more women do not entertain is because they do not realize that true hospitality lies in simplicity as well as because they find "getting ready for company" a great task. The most perplexing problem is usually that which deals with the preparation of the meals or refreshments as the case may be, what to have and how to serve it being an ever present worry.

However, if you will not try to be elaborate, and plan before hand and do not have any last minute cookery, you will find it easier perhaps. Never apologize for waiting on the table yourself if there is no waitress. Do it gracefully and a friend can assist you.

FLAG DAY PROCLAMATION.

There is a disposition in some quarters to sneer at the homage we pay the flag of our country, but we reverence and honor the flag not for what it is in itself but for what it symbolizes. It is a visible token of those great principles upon which the Republic was founded, and unless we are ready to uphold those principles at any cost, this nation with its free institutions cannot long endure.

Flag Day, then, is to remind us of the real significance of our national emblem.

Therefore, by virtue of the authority vested in me as Governor of the State of Michigan, I hereby proclaim Thursday, June 14, 1923, Flag Day.

Let flags be displayed on both public and private buildings and let community exercises appropriate to the day be held wherever practicable.

Given under my hand and the Great Seal of the State this thirteenth day of May in the year of our Lord one thousand nine hundred and twenty-three, and of the Commonwealth the eighty-seventh.

HE only ship that comes to those who sit down and wait is a receiver-SHIP.

DON'T WAIT

To young husbands and their June brides we pen these lines in the effort to render service and prove our good-will and sincere friendship.

Waiting for your ship to come is in reality time wasted. If your home is to be happy and successful it will be necessary to start the very first day to make it so.

There is peace and happiness in the voyage on the sea of matrimony if young people will heed and profit by the experiences of those who know best how to steer the good ship "Home" during the hours of storm.

New responsibilities are now yours. It is necessary you have the vision to prepare during the days of smooth sailing for the days of storm. You can do this in one way only and that by creating a surplus in material ways.

You know your income. Let your outgo be less. Bank the difference—maybe in a saving account which will draw three per cent interest. It's a simple rule, isn't it? It insures a peaceful voyage. Try it.

Michigan Happenings

If the Detroit Trust Co., receiver of the Detroit, Bay City and Western Railroad, is permitted to discontinue the operation of this road, and that seems probable now, for the bond holders refuse to furnish any funds for further operation and the receiver has no means of providing the money to keep the road going at a loss, business men, chiefly elevator owners along the road, stand to lose hundreds of thousands of dollars, for without railroad service their elevators and hay sheds will be of little value.

"There are only a few of us left, not over 35 or 40 here, I believe," following this remark to a newspaper man, George H. Keating of Bay City, swung into his saddle to take his place as marshal in the annual Memorial day parade. A few minutes later he fell dead from his mount to the pavement. Heart failure was the cause. Keating, 78 years old, was the most prominent and active member of the O. A. R. and had just returned from New York.

Judge Landis has definitely consented to speak at the Michigan state convention of the American Legion at Ironwood next August, according to word received. Theodore Roosevelt, assistant secretary of the navy, will be here and General Pershing will come providing he is in the middle west when the convention convenes. Governors of three states have been invited to take part in the big program.

John H. Sneathon, 35 years old, manager of the Shaw-Walker company, Detroit, plunged to his death from the twenty-second story of the Dime Bank building last week, striking the roof of the Peninsular bank building, and though thousands of persons swarmed the streets in the heart of the financial district where the tragedy occurred only one man was a witness.

Bishop Henry St. George Tucker has declined to become bishop of the Protestant Episcopal Diocese of Michigan, to which position he was elected May 16 to succeed the late Rt. Rev. Charles D. Williams. A brief cablegram from Bishop Tucker, announcing his decision not to come, was received last week by Charles O. Ford, secretary of the diocese.

Preliminary plans were made at Kalamazoo last week for the launching next year of a campaign to raise \$500,000 in Michigan for the support of the 50 or more superannuated ministers and their widows in the Michigan Methodist Conference. The Rev. W. T. Puffer, was made chairman of the committee which will have charge of the campaign.

Harvey Berthner, 15 years old, of Pontiac, was instantly killed in Aradla last week when he climbed one of the new poles of the Edison company, not knowing the current had been turned on, and came in contact with a high tension wire. The boy was an orphan and made his home with his sister, Mrs. Ashley Smith.

Forest fires were raging last week in Vilna county, Wisconsin, and Gogebic county, Michigan, large areas of cut-over land were burned and the spreading flames threatened valuable timber tracts between Lac Vieux desert and Waterman. Hot ashes fell in those towns, which are several miles from the scene of the fires.

The civil service commission announced that postoffice inspectors have been directed to make investigations with a view to the appointment of a postmaster at Sand Creek, Lenawee county, Mich., and that notice will be given when the examination will be held.

The student senate of Albion college elected the following officers for the first semester of next year: President, Max McKone, Jackson; vice-president, Miss Elizabeth Blair, Albion; secretary, Miss Anna Nye, Lansing; treasurer, Miss Lillian Moyness, Detroit.

Joseph Cleary, 12 years old, of Cadillac, was drowned in one of the little lakes near the cemetery. Cleary was playing with a number of other boys with a raft. He rolled off and

his companions were unable to reach him.

James S. Gorman, 73 years old, who died in a Sanatorium, last week, was until a year ago, a resident of Chelsea, 15 miles from here, and a prominent figure in politics in Washtenaw county.

More than 250 students will receive diplomas from Michigan Agricultural college at the graduation exercises next month. Diplomas will be granted to those finishing the agricultural home economics, engineering, forestry, science and veterinary science courses.

William J. Lewis, 70 years old, lifelong Democrat and for years chairman of the county organization, died at Petoskey. Lewis had lived in Boyne City 40 years and in 1901 he was publisher of the Charlevoix County Democrat.

Ted Dayharsh, 17 years old, eldest son of Postmaster I. B. Dayharsh, of Hart, last week passed the Annapolis naval academy examination with an average of 347.

Chats With Your Gas Man

THE kitchen does not need mirrors to reflect the head of the household and her personal characteristics. Every modern bride knows this and when she steps into a new home of her own she is careful to see that her kitchen is strictly up-to-date and in keeping with the standards maintained in other parts of the house.

All kitchens cannot be large these days, but every kitchen can be complete and attractive in its equipment and furnishings. A white enameled gas range containing the latest scientific improvements is an article of beauty and durability. Such a type of range has not been made to appeal to a passing fancy, but has been demanded by housewives who will have no other kind. If you want to see the type of gas range that is in style today—and that will continue in style—visit our office and look over our attractive display.

The Home of the Soul.

In olden times it was believed that the seat of the soul was the stomach, most likely for the reason that a man is never so completely used up as when his stomach is out of order. For the cure of ordinary stomach troubles, there is nothing quite so prompt and satisfactory as Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. Give them a trial. They only cost a quarter.—Adv.
