MICHIGAN FOOT BALL SCHEDULE.

The Michigan football schedule for this fall is as follows: October 6—Case Scientific School at Ann Arbor. October 13—Vanderbilt University at Ann Arbor. October 20—Ohio State at Ann Arbor. October 27—M. A. C. at Ann Arbor. November 10—U. S. Marines at Ann Arbor. November 17—University of Wisconsin at Madison. November 24—University of Minnesota at Ann Arbor.

MAJOR LEAGUE STANDINGS

Table with columns for American League and National League, listing teams like New York, Cleveland, St. Louis, Detroit, Athletics, Chicago, Washington, Boston with their respective wins, losses, and percentages.

Thursday's Results. Detroit 9, New York 2. Chicago 8, Boston 3. Cleveland 3, Washington 2. Philadelphia 1, St. Louis 4.

Table with columns for National League, listing teams like New York, Cincinnati, Pittsburgh, Chicago, Brooklyn, St. Louis, Phillies, Boston with their respective wins, losses, and percentages.

Thursday's Results. Brooklyn 1, Cincinnati 0. St. Louis 3, New York 0. Chicago, Philadelphia 1. Pittsburgh 8, Boston 6.

GRAND CIRCUIT MEETING TO BE HELD AT DEVONSHIRE, WINDSOR, CANADA, AUG. 2 TO 8

Thrilling Finish of Spirited Contest

Huge Crowd of Fans

When it is known that the list of nominations to the early closing stakes—five in number and carrying a total value of nearly \$20,000 at Devonshire (Windsor, Ont.)—something of the class and the importance of the contestants which will parade before the grand stand the weeks of Aug. 2 to 8, may be surmised. "Never since I have been connected with harness horse racing has the outlook been so good for sensational racing as it does at the present time," is what Win Kinnam, general manager of the Devonshire meeting said in reply to a question regarding the general trend of the greatest of all outdoor sports.

Table listing race programs for Thursday, August 2, Friday, August 3, Saturday, August 4, and Monday, August 6, including race names like 'Geers Day' and 'The D. & C.' with their respective times and stakes.

Table listing race programs for Tuesday, August 7, Wednesday, August 8, and Thursday, August 9, including race names like 'The M. & M.' and 'The Blue Ribbon' with their respective times and stakes.

FAMOUS GRAND CIRCUIT TROTTERS AND PACERS MEET AT DEVONSHIRE TRACK, WINDSOR, ONT.

A superb collection of famous horses are staged at Devonshire (Windsor, Ont.) in preparation for the 1923 Grand Circuit meeting Aug. 2 to 8. Mr. Geers will race Sarardo 1:50 1/2. Lilburn Silkwood 2:03 1/4. Leeco Grattan 2:00 1/4 and others. Murphy will no doubt have his favorite in the General Elder stake. McDonald will be seen behind the champion 2 year old trotting colt of 1922—now a 3 year old in all Futurities. Cox will be in action with the largest stable of his long career. Erskine will show the wonderful Robert Hunt, 3 year old pacer, sensation of last season. Valentine

will number twenty with a grand total in money value of over \$30,000. There is no track in the country which can boast a finer plant. Nothing which will add to the comfort and convenience of the campaigning horsemen and the patrons at the gate is ever overlooked no matter what the cost. "The best is none too good" is the Devonshire slogan.

will also show up a wonderful pacer of the same age, Brooke Volo, owned in Detroit. Fred Egan will be in the thick of the turf battles with his wonderful pair of pacers, Johnny Quirk 2:01 1/4 and Netta Patch 2:04 1/4. "Bill" Rosemire, trainer for the Pastime stable,

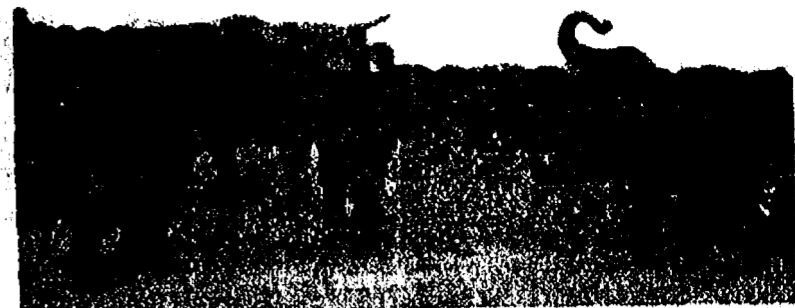

NORTH LAKE NEWS Thursday August 16 is the date set for the annual Sunday School picnic. The L. A. S. will hold an ice cream social in the Eisenbecker Grove, Friday evening, July 20. Every one invited. Saturday afternoon, July 28 is the bake sale of home made goods at the MacMillan cottage on the Vergin there.

air services will be held in the Eisenbecker Grove. Rev. Leigh Hagle will preach. Special music. At the Sunday school following Miss Dora Hopkins, a member of the Vacation Bible school will tell the story of "Two Chinese Babies." Don't miss this opportunity to worship at the lakeside. Mrs. George Reade spent Monday in Detroit. Mr. and Mrs. B. H. Isham of Chelsea and daughter, Mrs. Erma Rate of Ann Arbor visited at the home of P. J. Neely, Sunday.

Charles McDaniels was a guest of Rev. L. H. Hagle of Unadilla, Saturday and Sunday. Dr. and Mrs. Sherk and son, Joseph of Midland are guests of Mr. and Mrs. Douglas Harper. Mrs. Mary Harper of Jackson is visiting at the home of W. Eisenbecker. Mrs. Jennie Webb was an Ann Arbor visitor, Tuesday. William Appleton of Ann Arbor is spending some time at the home of P. J. Neely.

Elephants Play Ball At "The Awakening"

The Hippodrome elephants, said by many to be the cleverest in the world, are one of the many features to be seen at "The Awakening" which opened at Dexter boulevard and Davison avenue, west, Detroit, on July 16th for a short run. "The Awakening", following the precedent established last year, eclipses in magnitude and splendor any previous outdoor spectacle ever attempted, and it is predicted, will play to more people than ever before assembled to witness such entertainment. Individual chairs for 17,320 people were filled on the opening night and "standing room only" is predicted for many nights to come. One of the most mystifying, and also most beautiful acts of the spectacle is the disappearing "water nymphs"—60 beautiful girls who dance gaily into a huge tank of water descending until they disappear beneath the surface, and do not reappear. "What becomes of those girls?" is the question on thousands of tongues and after the show the 100 foot tank is the object of much curiosity by the crowds. The finest circus acts available are shown on three great stages and two immense circus rings. The three great ballets, given under the direction of Alexander Oumansky, of New York, assisted by Miss Ellen De Lorches, ballerina, late of the Royal opera, Budapest, are among the most admired of all the features. Aside from the assistants to the ballet master, brought from New York, all are Detroit girls and have contributed in a large measure to the beauty of the spectacle. The greatest fireworks spectacle ever seen in America is the closing act of the entertainment.

Chats With Your Gas Man

If you were to let your dishes accumulate for a week, a modern gas water heater would furnish enough hot water to clean up the whole stack at the cost of a newspaper. Or you could wash your dishes day by day and the cost would be about the same.

Running hot water at the faucets guaranteed by gas service, means fresh, clean, rust-free water delivered when and where you want it, without waste or waiting. Thousands of housewives are daily discarding the teakettle and coal method of heating their water and are casting such jobs on the gas companies.

For baby's bath, a big summer day's cleaning, the family wash—for all sorts of personal comforts and household conveniences, you can't equal the economy and convenience assured by heating your water the gas way.

DEXTER TOWNSHIP

James Doody was in Pinckney Sunday to consult the doctor. Mr. and Mrs. Foster Wheeler are entertaining the latter's son and wife, Detroit, this week. Henry Thurston and family attended the funeral of a grandchild last Friday. School District No. eight has had other of its routing school meetings. P. Walsh, the retiring assessor, before the school meeting. Just as the subject of a new school house was being approached the moderator ordered an adjournment motion which carried. Seems queer that non-taxpayers control the tax payers in school matters. Michigan needs a revision of this section of its school laws. Miss Mildred Walsh and party of friends are camping at Silver Lake this week. Our Highway commissioner has a petition for the laying out of a new road from the shores of Portage west

to the Pinckney-Dexter road. This road lets an exsoldier, who has "taken up" a small piece of government land on the west shores of the lake, out on the road without crossing his neighbors farm. Dogs have been playing havoc among the farmers sheep in this vicinity recently. Those whose flocks have been bit up are: Stanley Richards, four died; Wm. Clark, six died; K. H. Wheeler, six died; Edward Devan, six died; Chris. McGinness, several. It looks as though it were the same dogs doing the work for the sheep are all bitten in the face, tearing the skin off the head.

Miss Blain M. West, of Port Huron, will be Michigan's woman member of the associate national committee under the plan recently established by Republican party leaders.

Derk J. Butt, 84 years old, who has lived at Muskegon 36 years, died here last week. He was born in the Netherlands.

RICHARD LLOYD JONES SAYS

Exercise Your Imagination A good many men before Watt observed the steam-laden kettle vibrate on the fire. But it took a man with Watt's imagination to recognize that in that kettle was a power which might be harnessed into service. Others saw the steam engine working, but it took the imagination of a Fulton to believe that paddles propelled by this power could drive a boat ahead and not merely splash the wash. The bromides of Spain laughed at Columbus who had imagination enough to believe that the world was round. Since man was, he had observed lightning with only wondering awe or fear, until Ben Franklin let his imagination fly with a kite in the storm and the possibilities of electricity were introduced to the world. The telegraph and the telephone that day started on their journey to us. The needle observed the change of color on skins exposed to the sun. His imagination brought to us the sun-trading scheme of duplicating drawings. To this Daguerre lent his imagination, and photography came. McCormick was laughed at because he imagined that a horse might operate a sickle that could do the work of several men with scythes. An accident on the Boston and Maine Railroad, costing many lives, called the attention of a man by the name of Westinghouse to the inadequacy of hand power brakes. He put his imagination to work on the power of compressed air. "Foolish," said the wise ones who always know it all, "such a soft cushion can never stop a train." But his air brake made high speed travel safe. The man who would build a palace of stone must first build with thought. Imagination is the ability to build in the mind. It is the architect, blue print, pile-driver and electric crane of the future. It forges, plans, carves, builds. No man can be great who does not use his imagination. But wisdom must always go with imagination. Exercise the imagination. It will some day bring Mars, Venus and Saturn to us and make this little Earth "the front yard of the universe." He who neglects his imagination allows the key to success to rust.

Poem by Uncle John

I like to be modest, regardless of shine I never was vain of my rep. I don't like to brag on productions of mine, no matter how potent their pep. And so, I'm discreet when I happen to write the news of a social affair—an I keep my identity clean out of sight, by signing it, "One Who Was There." I'm often invited to furnish the muse, when festive occasions demand. I can allow dig up some selections to use, that I've been mused over, or canned. An I like to write with nib, just to see 'em in print, and it makes all the frequenters glad, as they read in the paper the per- (uncol) list, etc. "Daily refreshments was had." I like to record it, when Cupid's success brings on the nuptial attack—and I don't overlook, that the bride wore a dress, and the groom "The conventional Mack." I'll say it's a wonder—the bachelors are got, to nibble nibbling the bread—when we wish, with a steady nibbling, that I like to record it, when Cupid's success brings on the nuptial attack—and I don't overlook, that the bride wore a dress, and the groom "The conventional Mack." I'll say it's a wonder—the bachelors are got, to nibble nibbling the bread—when we wish, with a steady nibbling, that

# What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

### Sheet of Water Protects Firemen

Amply protection is afforded the firemen in an eastern city with the adoption of an interesting type of fire-fighting equipment which is mounted on a two-wheeled unit, so that it can be brought up quickly to the place of a fire at close range. The sheet accommodates a fireman who sits on it, and is able to handle a powerful stream of water from a nozzle directly in front of him. A "gusher" pipe is mounted in the cart behind him, which sprays a fan of water all around him, so that a

safty wall of water protects him and keeps him from being blown back by the high velocity stream of water. The nozzle is mounted in a ball socket, so that it can be swung in any direction with equal facility. It can be connected to four, and even six lines of hose, and through a stream of water 125 feet into the air.

### Knock-'Em-Dead" Rat Trap

A mechanical rat killer with a heavy spring and a rotating double hammer which strikes the animal on the head and breaks him from 3 to 5 feet, is the latest traps. This device automatically resets itself for the next blow, and two safety catches prevent accidental discharge. The rat is thrown away at once and leaves no odor to scare away other

### A Simple Derrick for Farm

A handy and efficient derrick is built in a short time from material that is nearly every farm. It consists of a wooden wagon tongue, pivoted on a metal post to revolve freely, and fitted with a simple winch for raising the load. An iron pivot yoke is forged to the end of the wagon tongue, and a hole is drilled in the post.

### Drills Horizontal Holes Straight

Anyone who has ever used a brace and bit knows that in the drilling of horizontal holes there is a great tendency to raise or lower the brace a trifle while drilling, which, of course, results in the hole being drilled at an angle. To overcome this tendency, slip a large washer that is free from burrs over the bit so that it rests on the smooth shank. As soon as the bit is held at an angle the washer will travel one way or the other, and the workman can correct the fault instantly.

### Bottled Fluid Can Lift Tons

Sinbad's genie flask has been outdone in real life by the invention of an expanding fluid easily carried in steel bottles by a child. The power may be released by a valve and used with jacks or other lifting devices to raise street cars, autos, and heavy weights. It is estimated that the

power of the expanding fluid will raise 20,000 pounds in three seconds if properly applied.

## DOG AND PONY SHOW AT FAIR

MULES ALSO WILL TAKE PART IN GREAT EXHIBITION

OTHER ACTS BEING PLANNED

An entertaining miniature circuit including trained mules, dogs and ponies will be one of the most attractive attractions at the Michigan State Fair, August 31 to September 2, according to Secretary-manager George W. Dickinson.

Dogs will put on the boxing games, leap through burning hoops, walk the tight wire, walk up and down ladders on two reels, roll barrels, juggle, turn somersaults, walk rolling balls and many other clever stunts. The backing mules will furnish a world of comedy while the trained ponies have a program all their own to demonstrate their skill.

"It is one of the best acts of its kind," Mr. Dickinson said, "and should have a strong appeal not only for the children but for adults as well."

Several other acts, showing trained dogs exclusively, are being engaged for exhibition in connection with the big dog show which will be held in the new coliseum.

One of the big features of the dog show will be the exhibition by trained police dogs. They will show how they guard, seek lost articles and capture criminals.

## \$1,000,000 STOCK PARADE FOR FAIR

A \$1,000,000 draft horse and cattle parade will be one of the features of interest to farmers at the \$5,000,000 Michigan State Fair which will be held from August 31 to September 2.

The finest animals that Michigan has produced will appear in this procession, which will be held in the Coliseum four nights.

There will be close to 1,500 cattle and more than 500 draft horses on exhibition during the fair and probably one-fourth of these will be paraded each night for the benefit of visitors.

The object in exhibiting these blooded animals is to encourage farmers to raise better stock, which means progress in meat and dairy industries and better service from horses with resulting better farming.

In the horse department, \$12,500 will be offered in premiums. The personnel includes: John Edickson, committee member in charge; Howard C. Allen of Washington Court House, Ohio, Superintendent; C. F. Curtiss, Iowa State College, judge of draft horses; Henry L. Bell of Bay-side, N. Y., judge of hunters and jumpers; and Walter Palmer of San Jose, Cal., judge of hackney, standard bred, saddle classes, roadsters and ponies.

Horses may compete in any class to which they are eligible. Entries close Saturday, August 11. Exhibits will be released Saturday, September 8.

Plans are being made for the thorough disinfection of all buildings and other precautions will be taken to safeguard all animals.

## BIG ART HELPS AT STATE FAIR

George W. Dickinson, secretary-manager of the Michigan State Fair, announced recently the schedule on "How to Use Your Talent at Home" in connection with the fair's art exhibit.

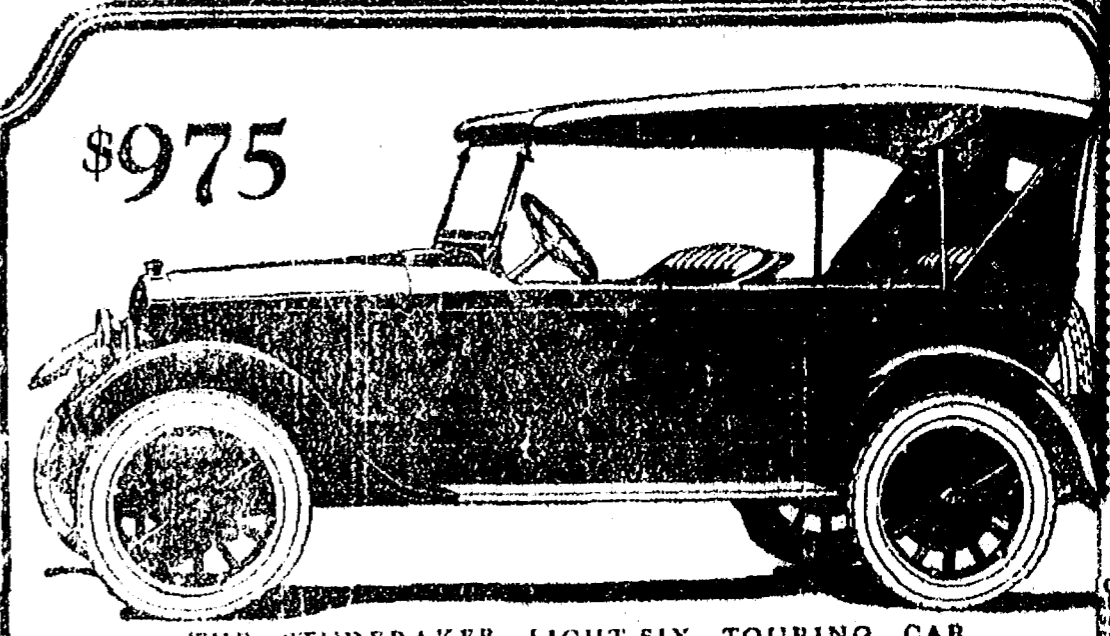

The schedule was prepared by H. M. Kurtzworth, head of the Kansas City Art Institute, and director of the fair's art department.

"This special series of demonstrations by practical craftsmen and designers is planned to help all talented persons," Mr. Dickinson said. "It will help them discover and see their talent for creating beautiful and useful things in the home, which may later lead them to use their ability in drawing and painting."

The schedule follows: Friday, Aug. 31—"Lead Glass Work." Saturday, Sept. 1—"How To Do Stenciling on Cloth." Sunday, Sept. 2—"How To Paint Parchment Lamp Shades." Monday, Sept. 3—"How To Tie and Dye" Dresses, etc."

Tuesday, Sept. 4—"How To Weave Baskets." Wednesday, Sept. 5—"How To Do Battle on Silk." Thursday, Sept. 6—"How To Do Carving." Friday, Sept. 7—"How To Do Gesso Decorating." Saturday, Sept. 8—"How To Block Print Costumes, etc." Sunday, Sept. 9—"How To Enamel Tin and Wood."

Capt. William Coleman, 80 years old, who started sailing on the Great Lakes 36 years ago, and who was said to be Michigan's oldest lake captain, died at his home at Muskegon.

### THE STUDEBAKER LIGHT-SIX TOURING CAR

## A Real Achievement in Dollar-for-dollar Value

The thousands of Studebaker Light-Sixes in daily use are the best possible assurance of what may be expected next year—or several years hence—of the Light-Six you buy today.

For after all, the best way to judge a new motor car is by what it has done—how it has stood up in service—the satisfaction it has delivered.

We sincerely believe that the Light-Six Touring Car, with its improved all-steel body, is the sturdiest, handiest, most comfortable, most dependable and economical low-priced car built.

The machining of all surfaces of the crankshaft and connecting rods, to which is largely due its practical absence of vibration, is a practice used by Studebaker exclusively on cars at this price and is found only on a few other

cars whose selling prices are from three to ten times as high as the Light-Six.

The one-piece, rain-proof windshield with parking lights set in the base, is a joy to the driver—nothing to mar his view of the road ahead. Deep, fat cushions are upholstered in genuine leather. Curtains, bound on three sides by steel rods, open with the doors and provide closed car coziness in bad weather.

The most seasoned driver will find a new thrill in the smooth, quiet, steady performance of the Light-Six—and in its ease of handling, and in the way it performs in high gear at low speeds—eliminating constant gear shifting.

The name Studebaker has stood for high grade transportation, quality, value and integrity for 71 years.

### THIS IS A STUDEBAKER YEAR

### SUNDAY SCHOOLS WILL HOLD JOINT PICNIC

Date Set For August 3, For 1:30 Time at North Lake.

The Congregational and Methodist Sunday Schools will hold a joint picnic on Friday, August 3rd. The picnic festivities will be held in the Eisenhower Grove at North Lake, where a basket lunch will be held.

Arrangements have been made so that conveyances will be on hand at both churches to take care of all who wish to go and a large number are expected.

There will be all kinds of games and sports for both young and old, and the affair promises to be a most enjoyable one for all.

The committees, as appointed are: General arrangements and ice cream—Messrs. Geo. Webster, O. C. Burkhardt, Ed. Guntner, Theo. Bahnmiller, D. H. Wurster, A. B. McClure. Conveyance and selection and preparations of picnic grounds—Messrs. Henry Musbach, R. D. Walker, Schuyler Foster, Verne Evans.

Fuel, fire and water—Messrs. W. S. Baird, Guy Kimbell, J. N. Dancer, Edw. Koebbe.

Lemonade—Messdames A. L. Steger, Davis, Geo. Runciman, Baxter, E. E. Hammond, Luick. Dinner and tables—Managers, Messdames E. E. Smith, E. E. Koebbe, Geo. Webster, Tkinson, Mrs. Alfred Kuercher, Atkinson. Assistants, Congregational: Chat-N-Seau, Priscilla, and Brotherhood, Methodist, Women's Bible class, Unity class, Fellowship club.

Sports: Recreational Sports—Mrs. Wilbur Riemenschneider, Mrs. Harris. Supervisors of sports: Group 1—Primary children: Mrs. O. Hinderer, Mrs. Theo. Bahnmiller. Group 2—Junior girls: Miss Izora Foster, Miss Marian Schmidt. Group 3—Junior boys: Verne Evans, E. P. Steiner. Group 4—Intermediate girls: Mrs. Verne Evans, Mrs. M. W. McClure. Group 5—Intermediate boys: Theo. Bahnmiller, Howard Boyd. Group 6—Young people: Dr. Brock, Schuyler Foster, Mrs. Ada Litteral, Mrs. E. Uplikke. Group 7—Adults: Prof. Clark, Mrs. J. N. Dancer, Rev. C. S. Risley, Mrs. Brock.

Baseball—Captain, Paul Graber, Cong.; Capt. Paul Risley, M. E. Asst. Clarence Vogel, Ray Knickerbocker, Floyd Gensler, Ralph Kinner. Prizes—Supts. Mrs. J. Bacon and Mrs. A. Houck. All committees are requested to meet at once and complete arrangements for their part, also to the securing of prizes.

### How Silhouettes Came Into Vogue.

Silhouettes were much in vogue before the introduction of photography, and have been revived in recent years. They were called after Etienne de Silhouette, the French minister of finance in 1758. His extreme parsimony in all matters of finance was caricatured everywhere and any cheap mode of fashion was sarcastically called by his name. About that time these profile pictures cut from paper were introduced. They were made by means of the light of a candle, the shadow of a hand or object being traced on the paper. Because they were cheap, they too were called by the name of the minister and silhouettes they have been ever since.

### President Harding in a T. R. Role

President Harding at Cedar City, Utah, on his Alaskan trip, donning cowboy attire, recalling G. West's Roosevelt's great liking for "roughing it" out in the West. The President rode through the Zion National Park, which covers 1,000,000 acres, to the most wonderful of the great West. The massive "Angel Landing" rock can be seen in the picture back of the President.

### He'll Be At The State Fair

Here is one of the famous Hindu elephants, in all his princely glory, as he appears in the big fireworks spectacle "India" which will be one of the features of the Michigan State Fair, August 31 to September 2. The trappings of these elephants are of all the colors of the rainbow. Each one has a certain religious significance in the old Hindu ceremonies which feature part of the spectacle.

## OUT-OF-DATE

**Y**ARDS that measure only 35 inches and 15-ounce pounds are out of date. Advertising has put them clear out of business.

Manufacturers who advertise must give value, because they have a good name to protect. Manufacturers of well known products and the merchants who sell these products often value the names at millions of dollars. They cannot afford to jeopardize the worth of these names by selling any but good goods of full measure and fair prices.

A merchant or manufacturer cannot afford to advertise merchandise that will not give service. The penalty of such tactics is too heavy.

You can bank on this. Advertised goods must be as advertised. That is why it pays to deal with advertisers and to buy advertised products. The advertising is your protection.
