\$20,000 DAMAGE DONE BY FIRE ON TUESDAY

Large Section of Village Threatened by Flames Which Destroyed Large Warehouse and Barn in Early Evening Blaze.

Fire, of unknown origin, on Tuesday evening completely destroyed the Holmes & Walker warehouse, the Alber Bros. warehouse and a barn on the residence property of Dr. C. C. Lane, West Middle street. For a time the greater part of the business and residence section of the village was threatened with destruction when a driving wind carried flames and embers for a distance of nearly half a mile over the principal sections. Only heroic work of firemen and others prevented further spread of the conflagration.

The fire, which broke out about 6:30 in the evening, is believed to have started in the Holmes & Walker warehouse adjoining the M. C. railroad and stockyards. Reports were heard about the street that it was first seen at the west end of the Alber Bros. warehouse, so that determination of the exact place where the fire originated is considered impossible. When the fire department arrived on the scene the entire Holmes & Walker warehouse was in flames, the Lane barn was rapidly being consumed and the Alber warehouse was partly as fire.

Fear that local firemen would be unable to cope with the blaze led village officials to telephone Jackson and Ann Arbor for help. However, by the time of their arrival 30 minutes later the blaze had been halted and was well under control. The Ann Arbor apparatus is said to have made the run here in 17 minutes and the Jackson outfit in 29. Although their assistance was not needed much appreciation was expressed locally for their ready response at a time when help was thought to be urgently needed.

Estimates of the loss sustained Tuesday evening are variously placed at from \$15,000 to \$20,000. The Walker warehouse was completely filled with farming implements and supplies which were completely destroyed at a loss of approximately \$5,000 on contents and \$3,000 on the building. Partial insurance was carried on both. Loss of the Alber property is said to have been partly covered by insurance. \$1,000 insurance was carried by Dr. Lane on his barn, but nothing on the veterinary surgical instruments and supplies stored there. He estimated the latter loss would amount to more than \$500.

Dr. G. W. Palmer suffered a total loss of approximately 8,000 crates stored in the Alber building, with no insurance to cover. Two hundred and sixty-three window panes were broken in the Lindauer & Fast garage by the heat and force of water being thrown on the fire. The fact that the garage is constructed of fire-proof material is thought to have prevented a large portion of the business section from falling prey to the hungry flames.

Falling embers in the residence section on Park, Orchard and East streets threatened serious damage for more than an hour. Large pieces of burning material dropped continuously necessitating a close lookout for more fires. The residence of W. P. Schenk at the corner of East and Orchard streets caught fire during the evening, as did also the barn of John Haselshwerdt on Park street. Quick work by guards saved these buildings from serious damage.

While damage by the flames is no small amount, yet it is believed that recent rains, damp weather and water-soaked singings were directly responsible for the prevention of loss running into many thousands of dollars. Had the fire occurred after a dry period it is believed nothing could have saved dozens of dwellings and business blocks.

CARD OF THANKS

We desire to express our sincere appreciation of the valiant efforts on the part of firemen and others who assisted in preventing the loss of our home during the fire of Tuesday. Only by a most determined effort could such good results be achieved, and we gratefully thank those who helped. Dr. and Mrs. C. C. Lane.

Geo. P. Staffan Opens New Undertaking Parlors

Geo. P. Staffan is having parlors for an undertaking establishment fitted up over the Rexall Drug store on South Main street, Ann Arbor. Mr. Staffan expects to open the place about May 1st. His son, Frank Staffan, will be in charge of the office and assistant to his father in conducting the business.

CARD OF THANKS

We wish to express our sincere thanks to our many friends and neighbors for their kindness and assistance during the illness and after the death of our husband and uncle, Mrs. Jessie Brown and the nieces and nephews.

MISS FEARLESS & CO. WILL BE PRESENTED HERE

Large Audience Is Expected to Witness Playing of Clever Comedy at St. Marys School Hall on Sunday Evening.

"Miss Fearless & Co." a three-act comedy, will be presented at the St. Marys school hall on next Sunday evening, by the Adrian Chapter of the Dominican Alumnae. The play, directed by Miss Margaret Dunn, has met with unusual success in former presentations and it is expected a large audience will gather to witness its performance here.

Of the play the Adrian Telegram prints the following: "Evidence of skilled training, hard work and no little histrionic ability on the part of the cast was given throughout each act of the little comedy. The action moved without a hitch through the entire play and less one might expect the third act when it was pleasantly interrupted, as only home talent shows may be, by the presentation of bouquets to those playing."

The Burg quartette, whose ability is well known here, will furnish several selections during the evening and a program of rare excellence is promised patrons.

COMMENDS PRES. DANIELS FOR CALLING ASSISTANCE

Chelsea Believes Action on Part of Village Officials Deserves Endorsement of Public.

In a communication to the Standard, M. Fridmodig, manager of the office at the cement plant east of town, and a newcomer to Chelsea, publicly commends the action of President Daniels and Fire Chief Brooks in calling the Ann Arbor and Jackson fire departments on Tuesday evening. Comment on the streets has been highly commendatory and it is believed Mr. Fridmodig expresses the sentiment prevailing hereabouts. The communication:

April 23, 1924.

Editor Standard,
Chelsea, Mich.
Dear Sir:

I believe it due the chief of the fire department and president of the village of Chelsea to publicly express commendation of their conduct during the fire of Tuesday evening, and especially the requesting of assistance from Ann Arbor and Jackson. To have waited until the need should have become more imperative would certainly have resulted disastrously and I believe they should be heartily endorsed for their early action in the matter, even though the outside equipment arrived too late to be of material assistance.

H. FRIMODIG.

N. S. POTTER, JR., HEADS NEW FERTILIZER COMPANY

N. S. Potter, Jr., well known here, and head of the Michigan Portland Cement Company, until a few months ago manufacturing cement at the Four Mile Lake Plant, is head of a new company recently organized at Jackson for the purpose of manufacturing fertilizer and lime for agricultural use, from marl. Other officers of the company are: Vice president and general manager, Henry W. Berger; secretary, Charles P. Berger; treasurer, Kennedy L. Potter. H. W. Berger will also be consulting engineer.

According to news dispatches, the Michigan State Farm Bureau is negotiating for the exclusive sale of the company's product, there being no other company in the state producing marl on a quantity basis.

FORMER CHELSEA YOUNG LADY WEDDED LAST FRIDAY

Mr. and Mrs. Myron P. Lighthall, of Detroit, announce the marriage of their only daughter, Mary Ilona, to Mr. Larkin U. Sabiston of Louisville, Ky., at their home, 2236 Concord Ave., on Friday, April 18. Rev. Platte T. Amstutz, pastor of the Presbyterian church of the Covenant officiated at the ceremony which was performed four o'clock in the afternoon.

Mrs. Sabiston is a former resident of Chelsea, having removed from this place some ten years ago, and is well known here by a large circle of friends and acquaintances. The young couple will be at home in Detroit after May 1.

FREEMAN'S STORE ADDS REFRIGERATOR COUNTER

Installation of an up-to-date refrigerator counter at Freeman's store recently in another evidence of effort on the part of its proprietor to give customers the very best in fresh and refrigerated goods. The counter is a combination of the latest sign in that articles stored therein are visible to the customer through a glass case, and the ice container is at the rear, the top of which may be used as counter.

Sanitary, convenient and well looking, the new addition adds much to the interior furnishings of the store.

NEW EQUIPMENT FOR PLANT TO BE INSTALLED

Electrically Driven Siren Will Be Erected on Sylvan Town Hall for Fire Alarm Purposes.

Carrying out the program outlined to village officials some time ago the Chelsea Electric Light and Water Works Commission have ordered new equipment to be installed at the local plant which will result in discontinuance of the steam engine and boilers here. Part of the new machinery has already been received and the balance is on the way.

Discontinuance of the steam power has also necessitated the purchase of a new electric siren to warn in case of fire, which has been received and will be installed at once on the top of the town hall. This spot was chosen rather than the light plant, because of its central location and its elevation. From this point it is believed the siren can be heard for a much greater distance than at present. Control wires will be run to the plant office and it is possible that alarm wires will also be extended to the local telephone office where operators may manipulate the button should they be unable to call the plant.

In addition to the siren, one 350-gal. electric pump and one 125-gal. duplicate pump have been received and will be installed as soon as possible. A 500-gal. gasoline engine and pump have been ordered and are on their way. This latter equipment will be used only in case of emergency when electric power might be shut off, although any or all of them may be pressed into service should the occasion arise. When completed it is believed Chelsea will be second to none with regard to their water supply. Dismantling and sale of present steam equipment will follow and within a year generation of power at the local plant will cease and "juice" from the Consumers Power Company line will be purchased and retailed by the village at a nice margin of profit.

NEW REGISTRATION OF VOTERS REQUIRED

A general new registration of all voters will be held throughout Michigan for the September primary election and the November election, starting June 1st and ending about August 31.

Under the registration laws of Michigan every elector, male and female, will have to make application to be re-registered to the township clerk or city clerk or at the time the boards of registration hold their meetings for the fall election.

The Sylvan clerk has received new registration books for both precincts and will begin registering the names of all electors who make application after June 1st.

HEAR PRES. COOLIDGE IN RADIO ADDRESS

A number of local persons "listened in" over the radio on Tuesday afternoon and heard President Coolidge address members of the Associated Press at the Waldorf Hotel, New York. At the Palmer Motor Sales the president's message was heard with exceptional clearness. President Frank J. Noyes, of the Associated Press, introduced the president to his audience of approximately 2500 at the Waldorf and thousands numbered among his invisible audience.

MRS. KATE MEYERS

Mrs. Kate Meyers, aged 82 years, for many years a resident of Chelsea, died Friday morning, April 18, 1924, at the home of her son in Battle Creek with whom she has made her home for the past few years.

She was a sister of the late Hubert Schwickerath. Her husband, John Meyers, died several years ago. She is survived by one daughter, Mrs. Timothy Maloney, one son, Chas. Meyers of Battle Creek, three grandchildren and several nephews and nieces.

The funeral was held Monday morning in St. Marys church, Rev. Fr. Fallon conducting the services. Burial Mt. Olivet cemetery.

CARD OF THANKS

Having sold our interest in the dairy business to A. Rushlow, we wish to thank our neighbors, friends and patrons for their liberal patronage during the past six years. The business will be conducted as heretofore and solicit a continuation of your patronage. Mr. and Mrs. E. Adams.

Mrs. Wm. Wheeler and children were in Jackson Friday.

At the session of the board of supervisors in Ann Arbor Tuesday, Geo. S. Osborn of Augusta was chosen as chairman and Bert Lowry of Manchester as chairman pro tem. The subject of receiving title to personal property was discussed by members of the board and a resolution was adopted.

Sharon and Freedom Contribute Essays In Contest

Henry Buss, student in the 8th grade, Freedom, No. 2, and 13 years of age, carried off first honors in the recent essay contest in Sharon and Freedom townships. Miss Elsie Heylandt is teacher in the school. The essay follows:

"IN THE HOUR OF TRIAL"

This is the story of George Washington at Valley Forge and the final victory at Yorktown which came as a reward for their suffering and death. During the Revolutionary War, soon after the surrender of Burgoyne at Saratoga in 1777, a terrible winter set in with uncommon severity. Howe the British general made his winter quarters at Philadelphia and lived in plenty and also had warm places to sleep. Washington made his winter quarters at Valley Forge fourteen miles southwest of Philadelphia, from here he could protect Congress at York and his stores at Reading. When the army reached Valley Forge, they all gathered around a fire and the chaplain issued a proclamation of thanksgiving and prayer thanking God for their safe arrival. Not very far off stood the house of Isaac Potts, which served as Washington's headquarters and also as a hospital for sick soldiers. The chaplain's name was Peter Muhlenberg.

As it was the middle of December, Washington sent his men to work to build huts for the accommodation of themselves. There were 11,000 in the army, they were divided into parties of twelve. Each was to build their own hut, it was to be fourteen by sixteen feet, with walls six and a half feet high and were built with logs lined with clay. Each hut had a rude chimney.

Not far away stood the house of General Greene and Lafayette, while the men were at work the weather turned bitterly cold, and suffering among them was intense. They were dressed very poor, and looked wan, thin and hungry. Some of them had no shoes or coats. They could be tracked in the snow from their bleeding feet. Their whole appearance was that of men forsaken and neglected. But the power of Washington or Congress had no way to provide them with clothing. Sometimes they had nothing to eat for a day but Washington always secured food again for them. The horses died of starvation and the army was also on the very verge of starvation. The men hitched themselves to carts and drew provisions from storehouse to camp.

Benjamin Franklin, our minister at Paris, obtained a treaty by which the French King pledged himself to send us men, ships and money for war. The King soon sent what he had promised.

About the first of March when the greater part of the winter had passed, Baron Steuben, a trained Prussian officer, joined the army as a volunteer. He trained the army and converted it into a well drilled soldiery. That the men were kept together during the terrible winter, reflects the highest credit upon Washington, both for the fertility of his resources and for the combined firmness and sympathy, which he displayed, winning the entire respect and confidence of men.

In 1781, four years after the hard winter at Valley Forge, came the Crowning Victory of the War, which came as a reward for their suffering at Valley Forge. It was the battle at Yorktown, this was the last battle of the Revolution. In it we gained our Independence from Great Britain. It was arranged so that the Americans were to attack Cornwallis by combined American and French forces. This was going to be a costly move. So Robert Morris secured a million and a half which helped very much. Washington by a feint on New York, kept Clinton dark regarding his plans until he was far on his way south with the Continental army. On the twenty-eighth of September the joint forces, sixteen thousand strong, took up their position before Yorktown, they fought very hard for more than a week and then Cornwallis surrendered. He marched out October the 19th, 1781, to the tune of "The World's Upside Down."

First Reduction of Spring

Whether one parades the boulevards, the fair-green, or Main Street, one must be consistent with Fashion and sufficiently original to be smartly superior

Some of the latest effects with a decided preference for godets and flares, reach the height of radiant perfection in our new Spring array of cloaks and gowns. Particularly apt, Betty Wales creates several distinctive models suitable alike to the dew-freshness of youth as well as the poised calmness of maturity.

Save on your Spring Rugs Cost HERE

You can save some on the cost of any rug from our stock. We bought lots of these rugs at a decided reduction from regular price and are passing along this benefit to our customers. The surplus rug stock of the Alexander Smith Co. was sold at auction late this season and prices were decidedly lower than regular wholesale costs.

We were able to take quite a lot of these rugs and our prices are decidedly to our customers' advantage.

Largest assortment of room size rugs ever shown in Chelsea now on display.

Buy genuine Linoleum rugs in room sizes instead of felt back rugs at the same prices. We believe they much more serviceable.

VOGEL & WURSTER

Everett Lyon of Selo, died Wednesday morning from the effects of burns that resulted from the explosion of a can of gasoline at his home last Thursday. He was removed from his home to a hospital in Ann Arbor. At the time of the explosion, Mr. Lyon was starting a fire in a chicken brooder. Mrs. Lyon was a former Sharon resident and was a daughter of the late Mr. and Mrs. H. J. Reno.

So great was the interest and enthusiasm of patrons of "Always in Trouble," staged by the Young People's League of St. Paul's church that still another performance was found to be necessary and tonight at the town hall the cast, assisted by the Capitol Grand orchestra and Criminal male quartette, and Julius Nishaus, soloist, will for the third time entertain folks with a presentation of the play.

Smut-Resisting Wheat

Smut-resisting wheat has been developed by the Department of Agriculture through crossing Florence and Turkey varieties, the former a smut-resistant spring wheat from Australia. It is more adapted to the humid regions than for semi-arid regions.

America's First Post Office

Delves into historic lore have ascertained that America's first post office was established in the house of Richard Fairbanks, in what is now Boston, on November 5, 1639, but strangely enough, this first post office, although not called by that name, was for the reception and distribution of foreign mail. It was not called a post office until 1700, when the man in charge was classically called "postmaster."

Long Life of Stored Cotton

Cotton is an imperishable commodity and may be warehoused for years with only slight deterioration in color and strength. There are authenticated instances of cotton stored for 80 years having been brought out and sold in competition with a current crop.

Dad's Guess

The father of a college youth inquired about the item, "Charity, \$50." In his son's expense account and received a very hesitating and unsatisfactory answer. "I conclude," he remarked, "that it is one of those instances where 'charity covers a multitude of sins.'"

Mad as March Hare

There is no such animal as a "March" hare. The common expression should be "mad as a March hare." Hares that live in marshes are usually very wild and ungovernable, hence when one is unduly excited, he is as mad (or as wild) as a March hare. However, the March hare has become an established figure of speech.

Who Was Caliban?

In Shakespeare's "Tempest" Caliban is a savage, deformed slave—half beast, half man—in the service of Prospero, the magician. He was the offspring of Sycorax, a fiend hatched from Argier (or Algiers) to the enchanted island, afterwards inhabited by Prospero. The word Caliban is sometimes used to denote anything new or strange. The allusion is, of course, to Caliban, in the "Tempest," a character in which Shakespeare has blended qualities both hideous and repulsive.

NORMA TALMADGE IN "WITHIN THE LAW"

Norma Talmadge's screen version of Bayard Veiller's "Within the Law," the most successful play in stage history, is the feature production de luxe that will be shown at the Princess, Wednesday and Thursday April 30 and May 1.

The picture, which was made under the direction of Frank Lloyd, is described as being by far the most dramatic thing of its kind Miss Talmadge has yet done for the screen.

Surrounded by a cast of unusual distinction, she portrays the stellar role of Mary Turner, made famous on the stage by Jane Cowl.

The part gives Miss Talmadge an extraordinary chance to demonstrate her exceptional ability as an emotional actress.

The heroine is a shop girl who is sent to prison for a theft she did not commit. In demanding that she get the limit, Edward Gilder, department store owner, explains that he wants to make an example of Mary.

On her release, vowing vengeance, she joins a gang of blackmailers on condition that she operate only "within the law." Her specialty is breach of promise suits. How she takes advantage of an opportunity that presents itself when she meets Dick Gilder, son of her arch enemy, becomes involved in an extraordinary romance and a police frame-up, squares herself with the world and finally finds true happiness, is unfolded vividly on the screen.

Jack Mullan plays opposite Miss Talmadge as Dick Gilder, while Lew Cody is to be seen as Joe Garson, the forger. Other important parts are taken by Eileen Percy, DeWitt Jennings, Lincoln Plummer, Joseph Kington, Helen Ferguson, Ward Crane, Lionel Belmore, Catherine Murphy and Thomas Ricketts.

Because of change in size of the Standard today columns have been increased from 20 to 22 inches—some delay was encountered in making the necessary adjustments. Need of additional space prompted the change. This explains the delay in getting the papers into the mails.

For the past month about every other night some one has entered the woodhouse at the home of Mr. and Mrs. Reuben Hieber on West Middle street and helped themselves to a quantity of coal each trip. Mr. Hieber has fixed a weight over the door so that the parties who visit the premises again in the night will probably meet a severe crack on their head.

LOYALTY DAY PARADE

FRIDAY AFTERNOON, MAY 1

Following is a letter sent out by School Commissioner Essary to school teachers of this county:

No doubt you have read that the week beginning April 27 to May 3 is to be given over to the boys, the world over.

We are particularly interested in the boys of our own nation, state and county. They are the coming men who will direct the destiny of this Nation in the near future. It is a part of our obligation to them to show them the ideals of citizenship that shall continue to dominate this country.

There are influences at work that look forward to destroying the ideals established by the Fathers and held today by every true American—whether native born or American by naturalization.

Friday afternoon, May 1st, there will be a Loyalty Day Parade in Ann Arbor and also in Ypsilanti. It is hoped that you and your Board will look upon this as one of the essentials in training for citizenship. It is for this reason that I think it will be for the interest of the boys that they should be allowed to go to one of the places mentioned and get into the parade. The boys of Ann Arbor and Ypsilanti will parade; why not the rural school boys?

I realize that in most instances that the boys will come accompanied by their parents or other members of their family.

EASTER EXERCISES AT THE METHODIST CHURCH

Although Easter Sunday opened with a cloudy sky and snow fall the church was filled with eager listeners to the exercises. A splendid program of recitations, music, songs, etc., was rendered. Following the program, Rev. Risley conducted baptismal services. Five were baptized and twenty-three united with the church.

The Easter breakfast at 7 o'clock was well attended, about 40 being present. A brief devotional service was held before serving breakfast. The day closed with an unusual large attendance at the evening services. The pastor took as his theme "Is This All of Life?" for the Easter sermon. Setting forth the old doctrine of the soul's immortality. This life is not all. This world is not one vast sepulchre, but "it is a garden in which God has planted and is developing immortality." It was a good day with us.

The Easter offering amounted to something over \$25. Our Methodist Home sent in about \$40 as their Easter offering of joy and gratitude.

Chats With Your Gas Man

WHY are some gas bills higher than they should be?

Because the housewife uses the giant burner on her range, when a smaller one would do.

She lights two burners at a time, and then lets one of them wait while she is getting food ready.

She takes food off the fire and leaves the burner lighted.

She buys so-called gas-saving devices, without finding out whether they really save gas, although the gas company would tell her.

She uses the gas oven to heat the kitchen and to dry damp clothes.

She allows water and foods to boil furiously, instead of turning down the flame.

She uses a worn-out range, with burners out of adjustment.

She never cleans the burners of her range.

She uses larger cooking utensils than she needs.

She uses open vessels, which consume five times as much gas as closed vessels of the same size.

STABILITY

Strength and stability are two of the prime characteristics of this organization. The men back of it, local men, whom you all know, are assurance of the permanence of this institution in Ann Arbor. Conservation is our watchword.

You are receiving a safe return on your investment. We hold out no alluring, hazy notions of sudden wealth and riches. All the resources of this association are invested in the best real estate holdings in this locality. Invested in the shape of first mortgages. Real estate! Is there anything more tangible or stable?

Mutual savings and participation in the benefits are the keynotes of your investment. Mutual, because each share receives the same return. No matter if you hold one share or hundreds you are assured of a safe 7 per cent return on your money. Furthermore your money will stay right here in Ann Arbor, and will help many people, who would not otherwise be able to do so, own their own homes.

"Under State Supervision." This phrase means much to the initiated few. It means that our operations are carefully supervised by the State, in the same way and by the same commission which inspects, supervises and examines every bank in the State of Michigan. We operate under the banking laws of the State and are subject to State control. Let the phrase, "Under State Supervision," guide your future investments.

ALL NATION MARCHING TO ARMAGEDDON

Thinking in all the walks of life are waiting for the coming of the great crisis is impending, expressing their opinions in no uncertain terms. "These are days of great perplexity. The next war will be more disastrous than the last." "Civilization trembles in the balance"—this is the import of their words.

Are we nearing the end of the world? might be asked of the Christian. His answer is, "That he does not know, but that he thinks the end will come sometime. The world has often passed through very troublous times, but the conditions today are quite complex as compared with former times. There is an intertwining of earth's interests—political, financial, social and religious—unparalleled in history. What is the remedy? Some have suggested that the remedy is found in prophecy.

A careful examination of the prophecies discloses the fact that all great crises have been foretold. So, the kingdom of Israel was overthrown, but not without warning; the handwriting was on the wall at the feast of Belshazzar; the Noahian flood was preached for over one hundred years before it came; and the breaking up of the present order of things and the manner of the introduction of the new order are clearly portrayed in prophecy.

The World war, the pestilence which followed, the effort to establish universal peace through a League of Nations, and its failure, were marked in prophecy; and the signs of the times in the light of prophecy, need not necessarily bring forebodings of the burning of the world, but rather the collapse of unrighteous and unjust corporations and systems which dominate the many in the interest of the few.

A lecture on "All Nations Marching to Armageddon," given by Dr. H. H. Harkness of Jackson, Michigan, under the auspices of the International Bible Students Association, will throw a flood of light on the meaning of the prophecies which have application in the present distressing times through which we are passing.

The lecture will restore confidence, give a hope for the future, and lead to a greater reverence for the Bible. It will be given at 8 o'clock Sunday, April 27th. The Princess Theatre has been engaged for the occasion.

FROM CITY OF BOMBAY, INDIA

A letter to his brother, Dr. G. W. Palmer and wife, has been received from Levi Palmer, who is enjoying a cruise around the world in the Canadian Pacific steamer, Empress of Canada, was mailed at Bombay, India, where the party was visiting at the time of writing the letter. Thirty-one days were required for the letter to reach Chelsea relatives.

Postcards showing typical scenes on the streets of Bombay were also enclosed.

Interesting scenes as witnessed by Mr. Palmer are related in the letter which follows:

I am well and happy as though I was in my right mind. I have only had two letters from Anna and Perry and one from Gladys, one from H. A. Foreman, Jackson, Mich., so you see my mail is not much. I expect more mail at Colombo and Calcutta. Bombay is a large city of over two millions and the city is on an island (and connected to main land by a bridge).

It's dry and dirty at this time of the year and I imagine scarcity of water as very little street sprinkling is done and my eyes smart yet from dirt and dust. It is wonderful to see the variety of costumes worn by India people, from silks and diamonds to just a string around their waste. The poor are very poor and just as dirty as they are poor. The expression that they are born in the streets, always lived in the streets and die in the streets and that is true. Yes, I have seen thousands sleeping in the streets everywhere and in the dirt and filth not fit for an American hog.

Their dress consists of yards of cloth wound around them to the limit of old burlaps and a string. Modesty is not known—lots of naked children and some grownups might as well be. Women work building R. R. beside the men and all work done by man power, not machinery. The sacred ox and the cart in Christ's time is here yet and doing business. I never saw so many cripples and such hideous creatures. I should think they would or should kill off a lot of them. Leprosy is quite in evidence here and disease no end to it. One religious sect here have 5 big cement (soup bowls) they call them towers of silence where they take all clothes off their beloved dead and put them on a bench or something, go away and leave them in these towers for the vultures to eat the flesh off the bones and they can do it in 2 or 3 hours, then they sweep the bones into a pot of lime and ashes to complete the job. Thousands of these birds live there continuously. They put the corpse one or a dozen at a time at 10 a. m. and 4 p. m. and hold their religious services as the birds feast on the corpse. Then in another place and another religious sect they put the dead babies on a rack of iron pile wood on and around them in the open and the priest and mourners march around the corpse and when the wood is all piled on and around the priest or mourners set fire to the wood and stay 2 or 3 hours until it is all burned up. They burn or cremate here any hour out of the 24 just any time they come, and the ashes of all these bodies are put into the river.

English government is in control here. Some nice homes but most of them occupied by the English. I would not care to live here. Street car fare one anna or 2 pils and six transfers if you want them but service is poor. Not much speed. Can get on and off anywhere. Barber shops are on the ground in the streets. I shaved myself if shaving was only 2 cents.

I have very little time to write to anyone. Best wishes to all, as ever, Levi Palmer.
