Subscribed and sworn to before me this 5th day of July, 1924.
John B. Cole, Notary Public.
My commission expires September 10th, 1927.

BREVITIES.

Dexter—Gilbert Madden has just completed a drive well 117 feet in depth at the home of Mr. and Mrs. G. P. Gorman.

Bridgewater—Residents along the Detroit-Chicago pike are becoming disgusted at the delay in completing the portion between Clinton and Saginaw. The road has been in bad shape since it was plowed up and graded, and who can blame them for growling?

Pinckney—G. W. Teeple, who has conducted the Pinckney Exchange Bank for many years has disposed of a portion of his holdings and the bank will be reorganized as a State bank with a capital of \$20,000. Mr. Teeple is one of the principal stockholders.

Manchester—The first Fourth of July celebration held in Manchester that we have an account of was held in 1839, but that was before our time. We have taken part in a great many since we came here and would like to indulge in one more at least.

Grass Lake—The road to Island Heights is being completed and it is expected that in a few more days autos can drive onto the island from the Grass Lake and Waterloo road. Road signs first being put up, directing people to the island and there has already been several inquiries for lots.

Jackson—All signs along state highways must be removed, according to a state law, notice of which has been received by C. K. McAllister, county road commissioner. Employees of the road commission will start work Saturday removing all advertising signs. There is a penalty for posting such signs, either on bill-boards or on trees within such right of way.

Williamston—On July 18, the Kiwanis Clubs of Mason, Eaton Rapids and Williamston will hold a joint picnic at Pleasant Lake. There will be games of indoor base ball, a tug-of-war, quoit pitching, etc., by way of sports. The local club is getting a team in shape to play the Eaton Rapids team which challenged them to a game of indoor base ball. We also understand that the local organization has challenged the latter to a quoit pitching contest.

Ypsilanti—Sunday, two barns on the farm of Ferdinand Palma, one-half mile south of the city, were burned to the ground, with a loss of more than \$50,000. The origin of the fire is not known. It started in the cattle barn, which had just been remodeled at a cost of \$5,000. The barn was plastered and white, enameled, with running water and electric lights. The ice house also was burned and 20 tons of cattle feed destroyed. The city fire department saved four other smaller barns. All the cattle and horses were taken from the burning buildings, unhurt.

Jackson—Edward Blakely, Ann Arbor, was arrested early Friday night by Detective Hall, who caught the young man just as he is alleged to have placed his hand in a man's pocket for no other purpose than to relieve him of his money. The incident took place on a street car. The intended victim's name is E. Rose and he is an instructor at the Industrial school at Lansing. He told Hall that he felt a hand in his pocket and turned quickly and grabbed Blakely, who, it is said, made an effort to get out of a car window. Hall was just a little too quick for him, however.

Ypsilanti—Richard Hudson, who was before Justice Curtis, Monday, charged with publishing a worthless check, was immediately re-arrested and arraigned on a charge of forgery. He waived examination and was bound over to the circuit court under \$1,000 bail. As he could not furnish bail he was remanded to the county jail. Hudson makes claim that he did not write the checks, but that they were written by a companion. As his handwriting compares with the writing on the checks, it is the belief that he committed the forgery, and for this reason the charge against him was changed to that of forgery.

Michigan Center—On Tuesday, July 15th, there will be held in Leont Township a special election for the purpose of confirming the franchise recently granted the Consumers Power company of Jackson, permitting them to transmit electricity through the township. They have for many years had lights in Michigan Center, but have been operating without a franchise. At a meeting of the township board, held June 2, a franchise was granted, but it must be confirmed by the people. The Consumers Power company have deposited with the township treasurer, George W. Young, funds sufficient to cover all expenses of the special election.

Only One Mother
Most of all the other beautiful things in life come by two and threes, by dozens and hundreds. Plenty of roses, daisies and sunsets; brothers and sisters, aunts and cousins, but only one mother. In all the wide world, Kate Douglas Wiggin.

Monster Crabs
King crabs, found mostly off the islands of Japan, measure from three feet to five feet from tip of their foot to the end of their claws. The largest ever caught is recorded as having been nineteen feet from tip to tip.

CHELSEA'S CHAUTAUQUA

Red Crown

The High Grade Gasoline

Is Its Own Best Salesman

THE proof of Red Crown's more and better mileage is in the fact that "once a Red Crown user, always a Red Crown customer."

Red Crown extra mileage is dependable. Wherever you get Red Crown the quality is the same. The extra miles come from complete combustion.

Every drop of Red Crown is converted into power, because the chain of boiling point fractions is unbroken and combustion is perfect. There is no waste to Red Crown.

The perfect combustibility of Red Crown not only produces an unbroken flow of smooth, rhythmic power and extra mileage, but it gives added flexibility. That's why the engine responds to the throttle with superlative smoothness and zest with Red Crown in the tank.

In fact, Red Crown sums up the service ideals of the Standard Oil Company (Indiana). It is as reliable in bad weather as in good; on a grade as on the level; in mud as along a boulevard; and you can get it every few blocks in the city and every few miles in the country—everywhere, throughout the Middle West.

Northern Hot Springs

That ancient volcanoes had something to do with the "lay-out" of western America is evident not only from the wonderful display of mountain scenery in the Rockies and minor ranges. Springs that send out hot water in unrelenting volume and temperature indicate that there is still some lively action away down inside, and they occur not in one locality alone, but at very considerable distances.

Two Tones

A young man who had reached the stage at which his voice was changing went into a grocery store. In a deep bass voice he demanded "a sack of flour"; then his voice suddenly changing to a high pitch, he added "and a pound of coffee." "Just a minute, please," said the clerk; "it can't wait on both of you at once."

Exhibit the Bumpers

The holidays are the busiest times of the year, and the bumper cars are the most popular attraction to prevent the long wait from being injured by the sharp, jagged edges of ice floes.

Dads and Sons All Scouts

For almost eight years Scoutmaster Max Brown has worked and played to scouting's ranks through Troop 500 Stock Yards district, Chicago, and with him have been his three sons, now his assistant scoutmasters. The quartette all have their veteran pins, as have eight other assistant scoutmasters who started their scout careers in Troop 600 and are now carrying on the work in the interests of boys elsewhere.

Eye to Business

Just kidding friend on comment—No person done told us this morning about a wife held turned to a pillow of salt. Rudus. But not say, it do age or minutes want part an' gone. And has just temper some day an' ask do. Looked for turn mine into a week's groceries. Boston Transcript.

No Need to Be Drag

I may be unable to lend a helping hand to those who direct the state, but I should be ashamed to make my self one of a noisy multitude to bolster and lighten their idle doubtful and dangerous course. —Burke.

Nation's Coal Resources

It is claimed that at the present rate of consumption 300,000,000 metric tons a year, the coal resources of the United States will last over four years. As estimated by the Coal Trade Journal the total metric tonnage of all coals is now 8,335,000,000,000. These figures, it is said, do not include the recently discovered Alaskan coal fields which can supply the Pacific states for 1,000 years or the deep lying coal deposits in Colorado, New Mexico, Arizona and the Rocky mountains which cannot be profitably mined. Also, the United States is now supplying half of the world's coal. The necessity for this large output may soon be reduced because of newly discovered mines in Siberia, Japan, China, India, Australia and New Zealand.

The Wise Man

A wise man will desire no more than what he can get. He will, however, distribute cheerfully and leave contentedly. —Benjamin Franklin.

Indolence Tires

Time with all its celerity, moves slowly on to him whose whole employment is to watch its flight. —Johnson.

Palm Sunday

The real reason for planting yew trees in churchyards is indicated in an excerpt from *John's Festival*, printed by Saxton in 1483, which reads as follows: "But for reason that we have no olive that bears green leaf, we take yew instead of palm and olive and carry it in procession, and so is this day called Palm Sunday."

King's Unlucky Day

May 1 is the anniversary of Charles I's order restraining emigration from England in 1668. On board boats ready to sail were Oliver Cromwell and John Hampden. To these two men Charles owed the loss of his life and his kingdom.

Down to Fine Points

Tungsten filaments used in electric light bulbs and radio vacuum tubes are made of almost invisible wire only one thousandth of an inch thick, wound on a core of steel or brass only four or five thousandths of an inch through. —Popular Science Monthly.

Best of All Patients
A doctor who had taken up as his specialty the treatment of skin diseases, was asked by a friend how he happened to select that branch of medicine. "There were three perfectly good reasons," replied the physician. "My patients never get me out of bed at night; they never die, and they never get well."—Chicago Blade.

Good for Tender Feet
From London comes the report of a new invention that promises to add more than a mile to the comfort of humanity. CONFIRMED PROOF

Residents of Chelsea Cannot Doubt What Has Been Twice Proved.

In gratitude for relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Don's Pills. Residents of Chelsea, who so testified years ago, now say the results were permanent. This testimony doubly proves the worth of Don's Pills to Chelsea kidney sufferers.

Chas. Hoyer, Madison street, Chelsea, says: "I was a sufferer from aches and pains and twinges, blurring vision through my kidneys. I had been a sufferer for a long time and I could hardly strengthen myself. I was a friend who had used Don's Pills and had been told to try them. I was told that they were a good remedy. I took them and I am now a confirmed proof of their worth."

Mr. Hoyer gave the above statement March 1, 1924 and on April 1, 1924, he added: "I am glad to confirm my former statement. The cure Don's made for me has remained permanent."

TELEPHONE MESSAGES

Removal of the federal tax on toll and long distance telephone messages, effective at midnight, July 2, is resulting already in greater use of that service, according to C. H. Adler, Manager here for the Michigan Bell Telephone Company.

This is particularly true of the use of the circuits to nearby points, he states.

Repeal of the federal tax on telephone messages was contained in the 1924 revenue act, recently signed by President Coolidge.

The Government tax on telephone toll traffic was felt to a greater extent by users of "short haul" messages—those to nearby points—than by users of the longer circuits. That was due to the fact that the tax on messages costing from 15 to 50 cents was five cents, while on messages costing more than fifty cents the tax was 10 cents, which was the maximum imposed.

The proportion of the tax charged on messages over the short circuits, therefore, was considerably the greater.

Records of the Michigan Bell Company show that the greater number of toll calls from the local exchange are made to nearby points. That means that the removal of the federal tax will affect a considerable saving on toll messages costing more than 15 cents.

To a person or firm making considerable use of the toll wires, the removal of the federal tax is a large item, Mr. C. H. Adler says. The tax was assessed in addition to the regular federal, state and other taxes paid by the telephone company, and was charged as provided by the law, direct to the user of the service.

The Michigan Bell company, anticipating increased use of the toll wires with the removal of the federal tax July 2, has prepared, both with equipment and personnel, to care for the added call upon its service.

Orange Oil Industry

The orange oil industry in Jamaica is proving of great value, and is a means of getting money from oranges which would otherwise go to waste.

Expressive Phrase
The phrase, "Aye, aye, sir," is a heritage handed down from English-speaking mariners of past centuries. There is no other phrase that belongs so wholly and completely to the navy and to the sea.

By saying "Aye, aye, sir," when receiving the command of a superior, you express not only courtesy but you also made it known that you understand your duty.—Detroit News.

Cornelian "Cure"

Cornelian is often used as a charm. In China it is supposed to cure indigestion. Greeks have worn it to get rid of neuralgia and rheumatism, and it is generally regarded as one of evil's antidotes. Cornelian is plentiful around the Norfolk (Eng.) coast, but it has little commercial value.

Duty

Duty is one of those things that can be discerned much more clearly in another man's lot than in our own. There is a mental farsightedness that enables us to discover it knocking at our neighbor's door, even when it has paused at our own unseen.

The Michigan Mutual Savings Association

Consisting of many members multiplies the strength, effectiveness and resources of each individual member. The many payments of the members, no one of which may be large in itself, taken together enables the company to finance the building of many homes.

Theodore Roosevelt said: "This country must always remain a good country for all of us to live in or it will not remain a good country for any of us to live in. A citizen is a better citizen when he owns his own home. The saving of money strengthens character, brightens the energies, and makes for successful life."

The Michigan Mutual Savings Association invites you to become a member and welcomes your close personal investigation of its methods. The local association board of directors invites you to become a member on the same terms under which each person of the board became a member. This associate board of directors assures you that all the funds entered on your pass book, will be available as far as possible for the building of homes and the improvement of property in your district. The funds will be kept active in loans to you, to your neighbors and friends in making your town, your city, a better place in which to live.—Come in and talk it over.

A NOVEL OF THE FOOTHILLS

by Robert Stead

AUTHOR OF
"THE COW PUNCHER"
"THE HOMESTEADERS"
"NEIGHBORS" ETC

COPYRIGHT BY ROBERT STEAD

A story of thrill and charm, dealing with a present-day section of the Canadian West that still retains a number of frontier characteristics. It brings us into intimate acquaintance with a typical, attractive daughter of the region. The principal male character is very unusual to western fiction—an easterner who brought some startling, but none the less interesting, ideas into a new country.

The story is strong and absorbing, and its people are living and endearing; a tale that will appeal straight to men and women today.

ORDER OF PUBLICATION

STATE OF MICHIGAN
In the Circuit Court for the County of Washtenaw, In Chancery.
Ambrose Bennett, Jesse Bennett, Henry D. Bennett and Henry D. Bennett, Defendants,
vs.
Ann Arbor, Plaintiff.

At a session of said court, held at the Court House in the City of Ann Arbor on the 16th day of June, A. D. 1924.

Present: Hon. George W. Sample, Circuit Judge.
In this cause it appearing by the bill of complaint duly verified presented and filed and to the satisfaction of the court that Ambrose Bennett, Jesse Bennett, Henry D. Bennett and Henry D. Bennett and their unknown heirs, devisees, legatees and assigns, are necessary and the proper parties to the above entitled cause and are interested in the subject matter involved therein and whose names appear in the office of the Register of Deeds for the County of Washtenaw as having at some time claimed a right, title, interest or estate in the subject matter of said cause, or some portion of it, or as having a lien or charge thereon without having conveyed or released the same, and who might at any time, under the provisions of legal effect of such instruments of record claimed or attempt to claim or be entitled to claim benefits thereunder, and it further appearing to the satisfaction of the court that said above named parties are dead or their whereabouts unknown to said plaintiffs, and after diligent search and inquiry they have been unable to ascertain the same or where any of them or their heirs reside or whether such interest as they may or might have therein has been disposed of by will or otherwise, and that such defendants cannot be personally served with process, therefore, on motion of Cavanaugh & Burke, attorneys for said plaintiff, it is Ordered that the appearance of the said defendants and each and all of them be entered in this cause within three months from the date of this order, and that in case of their appearance they cause their answer to the bill of complaint to be filed and a copy thereof served on the attorneys for the plaintiffs within fifteen days after service upon them or their attorneys of a copy of said bill of complaint, and that in default thereof said bill be taken as confessed by each of said defendants, and it is further Ordered that the plaintiff shall cause a copy of this order to be published in the Chelsea Standard, a newspaper printed and published in said county of Washtenaw and circulated therein, within forty days from this date, and that such publication be continued therein once in each week for at least six successive weeks, or that said plaintiff cause a copy of this order to be personally served upon said defendants and upon each of them at least twenty days before the time prescribed for their appearance.

Geo. W. Sample,
Circuit Judge.

CLAFAMON L. PRAY,

Odd Experience

While shopping in my home town, writes a correspondent of the Chicago Journal, I was suddenly caught in the arms of an old lady who cried, "Edna, Edna, why did you leave John? Come back to him John, here's Edna," she screamed. John took me in his arms and tried to kiss me, I and my face. The clerk had known me for years, and came to my rescue. They were hard on my conscience that I had not found out after seeking and meeting my old friend with puzzled looks on their faces.

Romans and Roses

The Romans were great lovers of roses and their brightest emperor showed huge masses of them about their banquet halls when some great feast was in progress. Nero showered roses on his guests, and rose perfume ran in streams through his palace during his luxurious festivity.

Ailanthus Wood

The forest products laboratory says that recent experiments have shown that the wood of ailanthus can be made into a good grade of book paper. The wood gives a high yield of pulp, bleaches easily and can be used for book, lithograph and writing paper. The ailanthus, otherwise known as the tree of heaven, grows rapidly. In some places it is said to produce tons of wood to the acre every three years.

Most Valuable Gem

Probably the most expensive stone in the world is the synthetic sapphire. It is really a synthetic gemstone, but its properties are such that it is almost indistinguishable from the natural stone and is all of the same composition. There are only a few of these synthetic sapphire stones in the world and these are valued at high prices.
