CHELSEA DROPS FIRST GAME TO MILAN TEAM

Low Ceiling and Limited Practice Hinder Efficient Playing on Part of Chelsea's Sports.

Fighting what was virtually a double battle, with the odds against them, Chelsea's basketball team, Belas's Sports, emerged from a fast and furious "scraps" with Milan, a loser by only two points, in a game played at Milan on Monday evening. While the first and foremost battle was waged with the Milan team as opponents, the "enemy" had a close ally in a low ceiling to which the Chelsea team was not accustomed and had difficulty in overcoming. This feature of the room in which they were playing can be blamed to a great extent for the loss of Monday's game, in spite of the fact that the locals were matching strength and skill with a team known for their speed. With the ceiling only eighteen inches above the baskets and not permitted to touch the ceiling before making a basket, Chelsea sacrificed a large number of points by not being able to drop them in clear of obstruction. However, it is expected that when the Milan team visits Chelsea, conditions will be somewhat reversed.

In that the local playing floor boasts an unusually high ceiling, but lacks the length and smoothness of floor essential to the game.

The score in the Chelsea-Milan game was 20 to 22.

Saline also won in a game with Dexter on Monday evening, the score being 27 to 23.

The first game of the league scheduled to be played on a local floor will be staged next Thursday evening when the Moes Sport Shop team of Ann Arbor will appear in opposition to the local sports. The Moes were winners of the league championship honors last year and it is expected a fast game will be the result next Thursday. More intensive practice on the part of the sports will give them the finishing touches before meeting the Moes, so that a fight to the finish can be expected.

OBITUARY

Mrs. Caroline Egeler died very suddenly of heart failure at 3:30 o'clock p. m. January 2, 1925, at the home of her son, John Egeler, in Lima.

Caroline Bollinger was born December 12, 1854, in the township of Lodi, Washtenaw county, Michigan. At the age of fourteen years she was confirmed at the Zion Lutheran church in the township of Freedom. In 1874 she was united in marriage to George Egeler. To them were born nine children, of whom seven, together with the husband, survive. The living are Mrs. Carrie Smith of Seo, Fred, John and George of Lima, Jacob and Lewis of Seo, and Mrs. Lena Koch of Lima. The deceased were Mrs. Mary Wiesenmiller of Ann Arbor and Barbara, two years old.

There also survive twenty-one grandchildren and three sisters, Mrs. Dora Zahn of Freedom, Mrs. Kate Bohner of Dexter, Mrs. Barbara Haarer of Lima and one brother, Gotlob Bollinger of Dexter.

The funeral services were held at the home of John Egeler at 1:30 p. m. and at St. Andrews church, Dexter, at 2:00 o'clock Monday afternoon. Burial took place at St. Andrew's cemetery with Rev. P. Grabowski officiating.

POMONA GRANGE MEETING

The next meeting of Washtenaw Pomona Grange will be held in the Chamber of Commerce building, Ann Arbor, Tuesday, January 13. By invitation we are joining with them in their luncheon at 12 o'clock after which we will be entertained by them with a short program after which our election and installation will follow. Also a playlet by Ann Arbor Grange members. Members urged to be present. Bill 50c per plate.

A Local Member.

CARD OF THANKS

We wish to thank this opportunity to thank neighbors and friends for their kindnesses during the illness and after the death of our loved one, To Rev. P. H. Grabowski, for his comforting words, and Mrs. G. Gorman for the beautiful singing we are especially grateful. Geo. Egeler, sr., Mr. and Mrs. Sam Smith and family, Mr. and Mrs. Fred Egeler and family, Mr. and Mrs. John Egeler and family.

REBECCA AND WALKER BUY SCHNEBELT BAKERY

Joe Schnebelt consummated a deal the latter part of last week whereby he has sold his baking business to Messrs. Henry Seyfried and Gottlieb Walker, both of Ann Arbor. The new owners took charge of the business on Monday morning of this week.

The new owners are bakery men of long experience. Mr. Seyfried having been in the business more than 22 years, and Mr. Walker, who has been in the United States two years, learned the trade in Germany, so that they have reason to expect a liberal patronage from this vicinity. Producing a quality product at the right price, combined with courteous treatment, are sure to merit them a rapidly growing trade.

Mr. Schnebelt is undecided as to what he will engage in following a vacation automobile trip through the south and west which will take them to Florida, Cuba, and thence west through New Orleans to California and in the spring will return by way of the northern trail. Several months will be necessary to make the trip. Joe has been in business in Chelsea several years and it is hoped that upon his return he will re-engage in local business.

MRS. REBECCA AND PASSES AWAY AT M. E. HOME

Mrs. Rebecca Ard, resident at the Old People's Home, died there on Tuesday, January 6, aged 80 years.

Mrs. Ard was born March 4, 1844, in Canada, and came to the United States in 1851. She was married to George Ard in 1855. The husband passed away in 1886 and Mrs. Ard resided in Ypsilanti until November 8, 1910 when she came to the Home where she has since made her residence. She is survived by grand-nieces in Detroit, beside a large number of friends both here and elsewhere.

Funeral services were held this afternoon at 2 o'clock, Revs. Jones and Oliver officiating. The body was placed in the receiving vault at Oak Hill.

WM. J. HOWLETT PASSED AWAY LAST WEDNESDAY EVENING

William J. Howlett died suddenly from a stroke of apoplexy at his home in Lyndon about six o'clock Wednesday evening, December 31, 1924.

He had but a few moments before he passed away returned to his residence from the barn where he had finished caring for his live stock for the night, and was standing near the stove when he was stricken. Wm. Hand, of Ann Arbor, who was at the home, caught the deceased before he fell to the floor.

Mr. Howlett was the son of William and Mary Bates Howlett. He was born in Lincolnshire, England, August 9, 1848. He was united in marriage with Miss Betty Goodwin, June 12, 1878, and for many years they have resided in the home in Lyndon where he passed away.

The surviving members of the family are the widow, one son, Dr. G. A. Howlett of Ann Arbor, one sister, Mrs. William Norgate of Ann Arbor, two brothers, Spencer Howlett of Waterloo and James Howlett of Lyndon.

The funeral was held from the home at 2 o'clock Saturday afternoon, Rev. Adams conducting the services. Burial Mt. Hope cemetery, Waterloo.

ATTRACTIONS ANNOUNCED FOR LYCEUM COURSE

The committee in charge of securing attractions for the local Lyceum course, announces that it has been fortunate in contracting for a group of attractions that rank among the very best in the entire Lyceum field. With such an especially strong course there is no question but that the sale of season tickets will be unusually large.

A Lyceum course is essentially a community-building influence. It offers good clean entertainment features and lectures which are informative and inspirational. So universal is recognized is the worth of such courses that they are found in almost every community throughout the United States and Canada.

The fact that the attractions on the local course have all been secured from the Redpath Bureau, the founder of the modern American Lyceum, is in itself a guarantee of their excellence.

RECREATION CLUB ELECTS OFFICERS

The Recreation club of St. Mary's Parish held their annual meeting Tuesday evening. Officers for the ensuing year were elected as follows:

Vice President—J. V. Burg.
Secretary—Herman Weber.
Treasurer—H. H. Lyons.
Entertainment Comm.—W. Werner, C. Bycraft, Ed Kusch, John Liebeck, J. Tuttle, Wm. Kolb, F. Gieske, Paul Conlan.

Lunch and smokes was enjoyed by all.

ESSAY CONTEST WILL BE FEATURED BY KEMPF BANK

Increased Interest on Part of School Pupils Promise Success in Both Town and Rural Schools.

Believing that anything which proves a mutual benefit to all concerned is worth repeating, officers of the Kempf Commercial & Savings Bank, yesterday announced plans for repeating the essay contest so successfully carried out last year when scores of pupils in rural and Chelsea public and parochial schools participated. That more pupils will submit papers this year than last is evidenced by the intense interest being manifested throughout the schools, say officials of the bank who have left no detail unattended which might add to last year's contest.

The subject on which pupils will be asked to write is "Laying the Foundation of American Prosperity," and already boys and girls are getting ready to qualify.

This contest should appeal to all patriotic citizens. Kempf Commercial & Savings Bank who projected this essay plan deserves praise for choosing a subject of such importance—to say nothing of its great interest.

The main inspiration for the writing of this essay is the beautiful picture-calendar now hanging in every school room of our city and surrounding country, a gift of Kempf Commercial & Savings Bank. The picture is a reproduction in color from the new painting of J. H. Hintermeister, the renowned Swiss artist who, being Americanized, is much interested in our country's traditions.

The scene is laid in one of the simple but elegant rooms of President Washington's Philadelphia residence. This house was owned by Robert Morris, the great philanthropist, who offered his entire fortune to help the cause of freedom.

It is inspiring to look at the picture of these distinguished statesmen shown in the group. There is Alexander Hamilton, Secretary of Treasury, presenting to President Washington his reasons for establishing a strong bank. Beside him is Robert Morris, Minister of Finance, his friend and advisor. There is a back view of Henry Knox, Secretary of War, dressed in his revolutionary uniform. At either side of the long table, Jefferson in a red coat and Randolph in a green one, each with papers, are opposing the Hamilton plan from beginning to end. They honestly believed that the establishment of a bank, as suggested by Hamilton and Morris, would be nothing less than a calamity.

But wait and hear what our public school essayists have to say on the subject.

In awarding these prizes the rural schools in the territory surrounding Chelsea has been divided into four districts as follows:

No. 1. Rural schools of Lyndon township and the southwest corner of Dexter township.

No. 2. All the rural schools of Sylvan township, including the Waterloo school, Jackson county.

No. 3. All the rural schools of Lima township.

No. 4. Rural schools in the north half of both Sharon and Freedom townships.

Prizes will be awarded in each of the above districts as follows:

First prize, \$5; second prize, \$3; third prize, \$2.

Pupils of any district will not be competing with pupils of other districts in this contest. Each district is a contest in itself.

The above division gives about the same number of schools in each of the four districts.

In the public schools of the village, classes have been divided as follows: 11 and 12, 9 and 10, 7 and 8, 5 and 6.

In the parochial school they have been divided as follows: 9, 10, 11 and 12, 7 and 8, 4, 5 and 6.

INVESTIGATING LAW

ENFORCEMENT
Senator James H. Couzens of Michigan is going through with the investigation of the prohibition unit of the U. S. Government. Commissioner Haynes of the Department of Internal Revenue has announced that he will cooperate heartily in the investigation, and that he believes the bill now before congress to take prohibition enforcement out of the Department of Internal Revenue is a step in the right direction.

The Couzens investigation will undoubtedly disclose some ugly phases of the failure of law-enforcement, but it is extremely doubtful if anybody will be blamed for such failures as have been recorded.

If the Volstead act or any similar act is to be enforced, the enforcement should be entrusted to a department with full powers and ample appropriations to employ enforcement officers, to give evidence and to carry on prosecutions. A definite responsibility definitely placed would bring about an improvement of law enforcement.

GROWTH OF RADIO

Stephen B. Davis, solicitor of the Department of Commerce at Washington is authority for the statement that 1923 is to be the most important year in the history of radio. Mr. Davis says that inter-connection and the short wave broadcasting system will work many changes in radio broadcasting and receiving this year, and that they will greatly enlarge the scope of radio programs, as well as greatly enrich them.

The short wave length in broadcasting and receiving will do very much, it is said to overcome conditions that have contributed to hold back radio development. Short wave lengths not only add greatly to the distance that radio can be plainly heard, but also do away with the most of the interference now caused by a multiplicity of broadcasting stations.

Radio is rapidly coming into its own as a means of communication and entertainment. It is contributing more than anything to rural life and happiness in America.

WHAT OF TROTSKY?

Leon Trotsky, former associate of Lenin in control of the communist government of Russia has become the "Great Mystery."

It has not been long since Trotsky was press-agented to the world as the "man of Russia." He was said to have absolute and supreme control of the red army. His position was described as impregnable.

The press dispatches for two weeks have been somewhat confusing as to the state of health of Trotsky; as to his whereabouts, and as to his power. One thing does appear as being true of the situation in Russia, however.

Trotsky does seem to have lost most of his power, and a large part of his control over the red army. He seems to be in the bad books of the triumvirate that rules Russia.

He may be in very bad health, "dying with tuberculosis" as some reports have it. He may have fled Russia, as other reports say he has. He may be hiding in Moscow or elsewhere in Russia, holding on to whatever remnant of power he may still possess. But there is trouble among the Russian leaders, and that the soviet government is beginning to split up into factions, seems apparent.

It is said that the Russian peasant is awakening to the fact that he does not actually own the land he is permitted to work, and that under the communist system he can never own it. If this be true, then the soviet government is indeed in grave danger.

It is not likely that Russia will go back to the czaristic form of government. On the other hand it is apparent that the Russian citizenry is becoming dissatisfied with the kind of government they have, and that Russia may become a democracy, something on the order of our own government. It will be a great day for civilization when that culmination is realized. But it will require another revolution to do it.

There has been much complaint that immigrants have been getting into the United States through Mexico and Canada. There is a bill now in Congress providing that quotas shall come from those neighboring countries, the same as from Europe. Unless something like that is put in force there will always be leaks into the United States.

Bishop Edward Hughes Holt of the Methodist Episcopal church says that a minister who does not get and read the new books, who does not study and keep himself informed on the progress of the world is a sinner and not doing his duty to the church.

FOR A NEW CALENDAR

The Convention of the American Association for the Advancement of Science met in Washington City last week. Among other things favored by the association was that advanced by the economic and political science section, which unanimously passed a resolution favoring the new calendar which is being fostered by the League of Nations. The new calendar would divide the year into thirteen months, instead of into twelve as at present. There would be thirteen months with twenty-eight days each, with an extra "leap day."

Such a calendar would have many economic advantages. It would save an enormous amount of bookkeeping to such firms, corporations or individuals as make a distribution of their months, dividing business, income, etc., into weeks.

The churches have had most to do in the past in making calendars. In America we have the Julian calendar, which begins the New Year on January 1. The New Year, under the Gregorian calendar begins on January 14th. That calendar is used wherever the Greek church is the dominant religion. The Mohammedans use a calendar which begins the Mohammedan year 1344 on July 21, 1923, at sunset. The Jewish New Year 5688, begins at sunset on September 18, 1923. These are the principal calendars in use in the world at the present time. All of them had their origin based on phases of the moon, as relating to religious days or periods.

M. B. Catworth, director of the International Fixed Calendar League and official expert of the League of Nations on the subject of calendar reforms reported that his organization had secured the cooperation of the Greek, Roman, Catholic, English and other churches in fixing the coming of Easter, and that Easter Sunday is expected to be a fixed event in the very near future, through an agreement of all the churches that observe it.

If this cooperation between religious leaders and business leaders continues, we may expect a calendar reform which will give us a universal calendar of 28 days to the month and thirteen months to the year, with an extra "leap day."

OVERCOMING DISEASE GERMS

Dr. Hugh P. Young of John Hopkins University in address last week before the American Society for the Advancement of Science, commenting on the discovery of Mercurochrome, the new antiseptic to destroy all manner of disease germs, expressed the belief that medical science will soon overcome all disease germs. "In the very near future we will see the proof of the greatest conquest of science in the history of medicine," said this eminent authority.

President Coolidge in addressing these scientists told them that the government is deeply interested in their work. He said that the United States is employing some of the greatest scientists in their lines for research work, and that this is accomplishing wonderful results as applied to diseases that affect human beings, our domestic animals, our fruits and field crops. He too, commented with a touch of optimism on the progress of science and the importance of the war being waged on all harmful disease germs. Without making a specific pledge of appropriations to further the application of remedies we now possess, to reduce the activities of disease germs, he did say that the government has the profoundest interest in what is being done by all scientific bodies, and that through established channels of the government, we are employing larger forces every year, to battle the bacteria that destroys human life, causes diseases and destruction to the human family and the animal and vegetable kingdoms to which man must look for his sustenance.

The government has grown in power and influence in combatting all disease germs. There are many citizens who believe it could go further with profit to the human race, and particularly to the American people. Long ago we had the maxim that "an ounce of prevention is worth a pound of cure." "Now we are beginning to appreciate the importance of administering the ounce of prevention."

THIS A PROSPEROUS YEAR

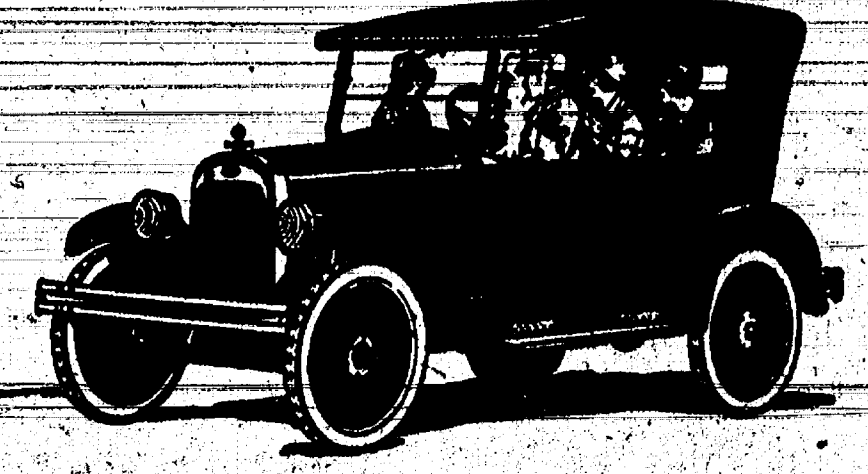

Herbert Hoover, Secretary of Commerce in the cabinet of President Coolidge adds his opinion to that of many other prominent Americans and captains of industry, that this will be a very prosperous year, and gives sound reasons therefor.

Among the reasons given by Mr. Hoover are that the world at large is more stable and prosperous than it has been since the World War. Labor, he says, is receiving a wage approximately 100 per cent higher than wages prior to the war, with living costs only 72 per cent higher. Our domestic condition is much better than it has been for a period of eleven years. Russia and China are the two exceptions to generally better world conditions, and Mr. Hoover expresses himself as hopeful of improvement in both these countries.

The great number of lives lost and damage done in Christmas tree fires ought to be enough to bring about reform of the careless, not to say reckless manner in which Christmas is observed, occasionally. A little more solemnity and recognition of the meaning and spirit of the day, and a little less frivolity and recklessness on the Christmas occasion would be a material change for the better.

President Coolidge again showed his good, common sense—he slept while Washington City welcomed the New Year with the usual blare of horns and other tomfoolery.

THE NEW CHEVROLET

New value—new quality—a new line of Chevrolet models far better than ever before. The public has recognized that Chevrolet represents a high standard of quality at low cost. As a result Chevrolet has become the world's largest producer of automobiles with standard three-speed transmission. Now this Chevrolet quality has been greatly increased. The new Chevrolet embodies quality features such as you would expect to find only on cars of much higher price. Extra heavy brake bands on big 11-inch brake drums; a new and easier steering mechanism and many improvements on the famous Chevrolet motor.

New bodies—of even greater beauty and comfort. Open bodies are

longer and have new windshield with very low bottom panel, rubber weatherstripped. All models have cowl lights and new instrument board refined and cut away for more leg room. The new radiator is of more beautiful design, made of non-rusting airplane metal. All closed models have new and exceptionally beautiful Fisher bodies with the new VV type closed body one piece windshield and automatic windshield wiper.

New finish—all models are now finished in Duco, the new finish that retains its color and lustre almost indefinitely and withstands very much harder usage. Here, again, is a quality feature hitherto not found in other low-priced cars.

BREVITIES.

Sharon—Those neither absent nor tardy during the month in district No. 6, Miss Dorothy Curtis, teacher, were: Herbert Walker, Roy, Herman, Glenn Feldkamp, Marian Smith, Star spellers were Marvin and Marlon Breitenwischer.

Clinton—Through the efforts of Willis Green a pension of \$20 per month has been secured for Miss Lucy Parker, payment of which she will receive for the first time in January. Miss Parker's father was a Civil war veteran.—Local.

Manchester—It has been observed that since the mill burned there have been comparatively few birds seen in the business section of the village. Birds of various kinds came here to feed upon grain that was scattered on the ground near the mill.—Enterprise.

Howell—The Municipal Christmas tree program put on by the Howell Rotary Club, Board of Commerce and Child Conservation League Christmas Eve, drew a large attendance from all over the county notwithstanding the extreme cold and icy condition of the highways.—Democrat.

Fairville—Leslie Sidell had the misfortune to have one of his new side curtains stole off his car while it was parked in the streets of Fairville Friday night. They seem to pick his car. Only last fall he had a spare tire and rim taken. He says he wishes he knew who took it, he would like to talk to them.—Review.

Brighton—The seventh annual meeting of the Livingston Cooperative Association was held in the First Presbyterian church last Monday, beginning with a dinner served in the church dining room. It was voted to change the association from a non-profit or non-stock one to a capital stock corporation with shares of \$100 each and a capitalization of \$50,000.—Argus.

Mason—What might have been a serious fire was soon brought under control Christmas night when candles on a Christmas tree in the apartments of R. A. Mack over his pool room caught on fire and threatened destruction to the building. A few boys badly scorched, a window curtain ruined and some badly frightened children was the result all owing to the fact that Mr. and Mrs. Mack were close at hand and used prompt measures to subdue the flames.—News.

Howell—Edward Parker, who has been employed in the Ford Service in Howell and in Keweenaw for a good many years, has formed a partnership with his father-in-law, Fred Stanyon of Dexter, and they have purchased R. Day Bird's garage, the Ford Service at Pinckney. Mr. Parker is to live at Pinckney and give his time to the new business. Mr. Stanyon recently sold a grocery at Dexter. Mr. Bird was the first regularly authorized Ford agent at Pinckney.—Republican.

Manchester—Everybody who drives a car will be glad when the bridge over the Ann Arbor railroad east of Saline is completed and opened for traffic. The old grade crossing was on a side hill and drivers could not see a train coming from the north, nor hear it, and it was extremely hazardous to drive either way. We learn that the bridge is a fine looking structure and when the embankment at the west end is protected by a suitable fence it will be a pleasure to drive over it.—Enterprise.

Saline—A robbery occurred in town on Wednesday night of last week, when someone entered the Luckhardt market through the back door and took a couple of torn one dollar bills from the till. Mr. Luckhardt has been in the habit of leaving considerable currency in the money drawer nights, but fortunately for him his father, who is running the place during his illness upon looking up for the night took home all but the bills mentioned and Otto is considerably better off financially than he otherwise would have been. No clue to the thief has been discovered.—Observer.

Dexter—Mr. and Mrs. Henry Neeb received a Christmas present consisting of a hand-painted China cup and saucer from Mrs. Charles Kirchner of Detroit. It was given to the mother of ex-mayor Marx, who passed it on to the mother of ex-mayor Breitmeyer. At her death it was given to Mrs. Charles Kirchner of Detroit, who has just passed it on to Mr. and Mrs. Neeb. It has a little German verse in gilt letters on the edge of the saucer. It was painted by one of the best china painters in Detroit, who has since passed away.—Leader.

LOCAL BANKER INDORSES SCHOOL SAVINGS BANKS

"The value of school savings banks is now widely recognized as one of the best means to promote thrift among children," said P. G. Schallie, president of the Farmers and Merchants Bank. In an interview given a representative of the Standard on Wednesday, "Great school men have come to realize the importance of teaching thrift, and that no child's education is rounded and balanced without it," continued the bank president.

School savings banks are in operation in all the public schools of France and Belgium, and to some extent they are in use in England, Switzerland, Denmark, Italy, Austria and Canada. They have been introduced as well in Iceland and in Mexico.

While the idea of school savings was originated by a Frenchman in 1834, it was a Belgian who in 1873 built the first successful working plan for such a system. He spent his life writing many articles and lecturing on the subject. Copies of his lectures were sent to the schools throughout the country by the French government, and served to increase very rapidly the school savings plan in France.

The attention of educators in neighboring countries was attracted to the value of this system of savings, and it was not long before the school savings plan was in operation throughout France, and England also had adopted the penny bank.

The establishment of the school banking plan in the United States dates back to 1876. In that year it was first introduced in the schools of Beloit, Wisconsin, where it has remained in use ever since. In 1879 a savings plan was in use at the Carle Indian Training School. The results were quite remarkable in the amount of money saved by the Indian students.

It remained for Mr. John Thiry, a resident of New York, to establish school savings banks as a prominent feature in this country. He had studied the plan and method of this kind of saving as it was operated in France and Belgium, and in 1885 tried out his plan in one of the ward schools in Atlantic City. Mr. Thiry's plan was successful. He had no difficulty in interesting bankers in the movement. They realized the immeasurable value of the savings habit to the child.

The school savings bank plan is the foundation plank in our educational structure. The lessons learned will follow the children as they develop into men and women; the habits of economy and of thrift in all its forms will make better citizens for tomorrow.

DODGE BROTHERS BUILDING COACH

An attractive new Coach has been added to Dodge Brothers line of passenger cars and is on display for the first time at the New York automobile show.

"Characteristically Dodge Brothers," is the comment most frequently made by persons examining it.

Careful regard for quality as well as beauty is evident in every detail of construction and appointment.

The graceful lines are set off to advantage by the lacquer finish in Dodge Brothers blue, with a body stripe of cartouche yellow. Shroud and belt are black and the artillery wheels are blue. Doors and windows are exceptionally large, affording a clear vision on all sides and permitting passengers to enter and leave the car with the greatest ease. Each of the two doors is equipped with a pull to handle on the molding, greatly simplifying the closing. The car is locked by a high-grade lock on the right door.

The two front seats tilt forward, adding further to the convenience of occupants. The rear seat is spacious and comfortable, affording ample room for three adults. The upholstery is dark brown, attractive and of excellent wearing qualities.

The equipment also includes a rubber mat in the forward section and a carpet on the rear floor, dome light, foot rest, mechanical window lifters, transmission lock and automatic windshield wiper. The latter is controlled by a valve on the instrument board and is regarded as unusually efficient. The windshield is of one piece, self-ventilating type and carries a fixed wiper.

Equipped with balloon tires and non-rumble roof, and built on Dodge Brothers standard chassis, it rides smoothly and comfortably over any roads.

There is every reason to believe, according to W. R. Daniels, Dodge Brothers dealer, that demand for the Coach will quickly reach exceptional proportions.

"The sturdy construction and smartness of the lines and interior appointments, not to mention the proven dependability of the chassis, make it difficult to believe that this coach could be sold for \$1,095 f. o. b. Detroit," he said. "But that is the price—and I am certain the public will like it."

DETROIT YOUTHS START OUT TO SEE STATE'S PRISON

John King, Edward Kowal, Mike Orlowski, all residents of Holbrook street, Hamtramck, Detroit, were suddenly interrupted from their sight-seeing trip about the state of Michigan, when on Tuesday night they were picked up by Marshal Wm. Atkinson, and lodged in the village jail until they could be returned to their homes or relatives notified of their whereabouts. The boys, all thirteen years of age, had traveled by electric car to Lima Center, and then crossed to the Michigan State cement plant, and afterward came to Chelsea apparently for something to eat and a place to sleep. Questioned regarding their intentions the boys stated they wanted to see the State prison, so came to Chelsea. They were taken to Ann Arbor Wednesday morning by Marshal Atkinson and Deputy Sheriff T. G. Palmer, and turned over to the sheriff's department.

Weakening Night Coughing Banished Very Simple Way

It is really astonishing how a persistent, exasperating cough that has kept you awake night after night, and is rapidly wearing you down is usually stopped short by a very simple method. Hundreds have found that they can sleep the whole night through without coughing after the first time they try it.

The method is based on a remarkable prescription known as Dr. King's New Discovery for Coughs. You simply take a teaspoonful of this before retiring and hold it in your throat for 15 or 20 seconds before swallowing, without following with water. The prescription has a double action. It not only soothes and breaks the irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. Getting at the cause like this in a perfectly simple way it stops the cough almost instantly. You get your best night's rest perhaps in a week, and in a very short time the whole cough condition is gone.

This simple treatment is splendid not only for coughs and chest colds, but also for bronchitis, bronchial asthma, hoarseness and almost every kind of respiratory irritation, including children's spasmodic cough. Very economical, too, as the doctor's only recommendation is to get all good druggists. Ask for it.

STOP THAT ACHE!

Don't worry and complain about a bad back. Get rid of that pain and lameness! Use Don's Pills. Many Chelsea people have used them and know how effective they are. Here's a Chelsea case.

Mrs. P. Brower, McKinley St., says: "It has been some time since I used Don's Pills but from past experience I feel justified in recommending them. My kidneys were weak and acted irregularly. My back had a weakness and soreness in it and I felt tired and drowsy. As one of my family had used Don's Pills with good results I decided to try them and they helped me right away. The backaches left and my kidneys were regulated."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Don's Pills the same that Mr. Brower had. Foster-McBarn Co., Mts., Buffalo, N. Y.

Exceptions to Theory

The recapitulation theory is the theory that a parallel exists between the embryonic development of an individual and the historical evolution of its race. This parallel is explained by the theory of evolution, according to which, in the words of Sedgwick, "the development history of the individual appears to be a short and simplified repetition, or, in a certain sense, a recapitulation of the course of development of the species." The theory is correct to a limited extent in the case of many animals, but there are many deviations due to the adaptation to environment—abbreviation of the course of development and other influences.

"Hard" and "Soft" Water

Hard water is water which contains dissolved in it certain substances which interfere with the action of soap in forming with it an insoluble compound or curd. The hardness of natural waters is principally due to the salts of calcium and magnesium, especially calcium carbonate, which produces temporary hardness removable by boiling, and calcium sulphate, which causes permanent hardness. Soft water is characterized by the practical absence of substances which prevent the formation of lather with soaps.

NOTICE OF MORTGAGE SALE

Whereas Arthur L. Lowry, a single man, of the Township of Sylvan, Washtenaw County, Michigan, made and executed a certain mortgage, bearing date the 2nd day of November, A. D. 1922, to Lucy A. Hoppe, of Detroit, Michigan, which was recorded in the office of the register of deeds of the county of Washtenaw on the 16th day of February, A. D. 1924, at 11:55 o'clock in the forenoon, in Liber 161 of Mortgages on Page 394; and whereas the amount claimed to be due upon said mortgage is the sum of \$3210.00 dollars, and no suit or proceeding has been instituted at law to recover the debt now remaining secured thereby, or any part thereof.

And whereas default has been made in the payment of the money secured by said mortgage, whereby the power of sale contained therein has become operative.

Now, therefore, notice is hereby given that, by virtue of said power of sale and in pursuance thereof and of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the mortgage premises, at public vendue, to the highest bidder, at the south front door of the court house, at Ann Arbor, in said county of Washtenaw, that being the place of holding the circuit court within said county, on the 3rd day of April, A. D. 1925, at 10 o'clock in the forenoon; the description of which said premises contained in said mortgage is as follows: The southerly thirty acres approximately of the northwest quarter of Section number eight; also all that portion of the northeast quarter of section seven that lies east of Crooked Lake, excepting therefrom the southerly one hundred feet of said easterly lake frontage by one hundred and fifty feet in depth; excepting also eighty feet frontage of said Lake lying next north to lot doeded by said first party to Marguerite Ferguson; also one hundred and fifty feet in depth; also the island in said Crooked Lake, said island being within the lines of said northeast quarter of the northeast quarter of section seven if extended with right of way to go over upon and fish in Crooked Lake; also right of way to and from Crooked Lake to Hoppe Road right of way for benefit of Rudolph Hoppe being served to driveway along S. shore of mentioned island. Township of Sylvan, Washtenaw County, Michigan. Dated January 8, 1925.

Business Now Made of Producing Spider Silk

Spider farming is one of the little known industries of modern times. The end in view is not the intensive fighting of the fly pest, but the production of spider silk, than which there is nothing better for the cross lines of surveying and other instruments.

Supplies in vastly larger quantities are needed for the manufacture of spider-silk stockings, and it is to meet this demand that special spider farms have been started from time to time, says "Tit-Bits."

It is no easy matter to keep and feed the spiders, to prevent them from engaging in mortal combat, and to collect their silk in suitable form. The process of "silk" the spider mounts 18 playing catchball with the spider as ball. In its passage through the air the spider instinctively pays out silk, and it can be induced to part with a hundred yards or more during a succession of such flights.

Claimed Prophetic Gift

Jonna Southcott, a domestic servant, aroused all England about 1831, with her pretended supernatural gifts and her claim to be the woman mentioned in Apocalypse, chapter 12. She gained over 100,000 followers.

Income Tax Has Never Had Great Popularity

Imaginative persons seem never to tire of conjecturing as to which of modern man's accomplishments would most astound our ancestors.

The motorcar or the airplane is usually the favorite, but if one could select a chosen few, comprising many of the kings of England along with their counselors, probably the achievement which would bulk largest in their eyes would be the collection of the income tax.

Starting with Edward III, who distinguished himself by collecting \$150,000 by a graduated capital levy in 1321 without causing a revolution, the history of the efforts of the rulers of our race to yoke us with this burden is interesting. Edward III's levy was very modest, says A. G. D. in the Winnipeg Free Press. It ranged from \$30 to 8 cents, according to the position of the taxpayer.

Richard II—his ill-starred grandson—almost lost his throne before he had not firmly seated on it, because he levied a still more modest tax, ranging from \$5 to 8 cents. Wat Tyler, before he was murdered, so convinced the rulers of Britain that an income tax was not a practical form of taxation that it was more than 200 years before such a levy was again attempted.

Is Prosperity Ahead?

A COMMUNITY is as good or as bad as its gas service. The two things go hand in hand. If the community is prosperous, the gas company will be prosperous likewise. Or the contrary may be true.

Watch what takes place in 1925. If business expands and conditions are generally prosperous, you will be able to read the real story in the records of this company.

When the makers and users of gas service are on friendly terms, both benefit from prosperous times. Where there is lack of co-operation between them, both parties suffer.

All signs point to a prosperous 1925. We are equal to the tasks ahead, and can meet increased demands, but we must have the co-operation of our customers. To try to do the job alone would be to court disaster.

Reward in Well-Doing
He that does good to another man does also good to himself not only in the consequence but in the very act of doing it, for the conscience of well-doing is an ample reward.

Honor for "Unknown"
The decorations awarded the Unknown Soldier were: Croix de Guerre, France; Legion of Honor, France; gold medal for bravery, Italy; Virtute Militari, Rumania; war crosses, Czechoslovakia; Virtuti Militari, Poland; Congressional Medal of Honor, United States.

Nature's Wisdom
Nature gives to every time and season some beauties of its own, and from morning to night, as from the cradle to the grave, is but a succession of changes so gentle and easy that we can scarcely mark their progress.—Dickens.

Composition of Chalk
Chalk is a soft, earthy, finely granular variety of limestone, white, grayish white or yellowish in color. Chalk is formed chiefly by sea bottom accumulations of the shells of small minute organisms known as siliceous spicules of sponges and shells of radiolaria. The uses of chalk are many. When mixed with a binding substance it finds wide application as a writing material.

No Stated Sum for Church
The government of England does not appropriate any specific sum of money in support of the church. One of its important sources of income is the Queen Anne's bounty, a fund formed by Queen Anne in 1704 to augment the poorer livings of the Church of England. There are also large endowments. Church rates are voluntary and cannot be recovered by law.—Washington Star.

Apostle Man of Learning
St. Paul was educated in all the learning of the Jewish doctors of the law, as he states himself. His addresses also show that he had a knowledge of classical literature, particularly the literature of the Greeks. There were many seats of learning in the East in his time. One, that we would call a university, was situated in his native city of Tarsus, in Cilicia.

Making "Lead" Pencils
To make the wooden tube in which the lead for a pencil is incased the manufacturer cuts out a board about seven inches long, the width of six pencils and as thick as half a pencil in diameter. With a machine he then shapes it into six semi-rounded or semi-hexagonal sections and grooves one side to hold the lead. When the lead is inserted the halves are glued together. The "lead" in a pencil is composed of graphite.

CHURCH CIRCLES

METHODIST EPISCOPAL

Rev. C. S. Risley, pastor.

We hope to see you Sunday at services. The hymns, the prayers, the "The Diversity of Gifts." This is the day of interest. What can save the day? What can check society's downward course? Is the "Saviour" still lost? How can it be regained? The evening services—"The Sunday Schooler"—a famous sleep. Hear the story. Our Sunday school is growing. Do not miss your class. Why not be at church as well as Sunday school? Bring your young folks with you. There will be a question box at each church door—drop in your question without name—and the pastor will attempt to answer the following Sunday. All questions must be fair ones. Come to church. Missing—Last Sunday, some families from church. Whether art thou bound? Later—Rev. Gieruluf Jensen, of Cincinnati, Ohio, brother-in-law of Mrs. Risley, will preach for us Sunday morning. Hear him. It will be worth while.

CONGREGATIONAL

E. L. Sutherland, Minister

Sunday, January 11—Hours of worship, 10:00 a. m. and 7:00 p. m. to which all are welcome. Theme for the morning worship is "Christ Takes a Day Off." In the evening discussion will be upon "The Wonderful Way of Living," or the great question of Christianity. Do we need Christianity in this modern day? Blessed are they that hunger and thirst after righteousness for they shall be filled. Does that mean today? By special request, the choir will repeat Christmas music next Sunday morning.
