GAS COMPANY REDUCES LOCAL RATE 10 CENTS

Slight Drop in Price of Coal War-
rants Drop in Gas Rates in Che-
lsea and Dexter, Effective
February 15.

After nearly three years of nego-
tiating between the village of Che-
lsea on the one hand and the Washtenaw
Gas Company, Ann Arbor, on the
other, villagers are to receive the
benefit of a ten cent reduction in the
price of gas used during the next
year.

The new rates which take effect
February 15, and include the village
of Dexter as well as Chelsea, are as
follows:

First 5,000 cu. ft. \$1.75 per thou-
sand, gross; \$1.60 net. If more than
5,000 cu. ft. of gas is consumed, the
rate will be \$1.55 per thousand,
gross, and \$1.40 net. To receive the
benefit of discount all bills must be
paid by the tenth of month following
that for which bill is rendered.

With B. B. Turnbull as special at-
torney in charge of the negotiations,
the village nearly three years ago
launched a movement asking the
Washtenaw Gas Company to reduce
the price of gas to local consumers.
That this would be done as soon as
the price of coal warranted a reduc-
tion, was the answer of gas company
officials, who maintained that the
price of coal from which gas is man-
ufactured did not, at that time, make
it possible for the company to slash
the price. However, shortly before
the death of the late Harry W. Dou-
glas, then manager of the company,
Mr. Douglas intimated to the Che-
lsea council that a reduction would
be forthcoming within a short time.

Two weeks ago C. R. Henderson,
acting manager since the death of
Mr. Douglas, met with council and
Attorney Turnbull, in an effort to
come to an agreement in regard to
the rates. A consultation between
Mr. Henderson and directors of his
company was the result of this meet-
ing and on Monday evening of this
week the gas company manager wait-
ed on council and their attorney with
a proposition offering a ten cent re-
duction of rates in force here. This
agreement will hold for one year at
the end of which time further reduc-
tion or increase will be likely.

The new rate will save gas users of
the village approximately \$1,400, At-
torney Turnbull stated Tuesday.

ARGUMENT DRAWS AS WELL AS PRIZE FIGHT

Many a man has spent good money
to see a fight, but few are willing to
put themselves to any trouble in or-
der to hear an argument. However,
when "In Hollywood with Potash and
Perlmutter" was being filmed more
than three hundred people spent a
good part of the morning listening to
the first motion picture disagree-
ment between the famous partners.
And the sight proved well worth it,
for Montague Glass' famous charac-
ters are past masters in the art of
amusing while they argue. More-
over, it is not only what they say,
but the way they say it, that pro-
vides the humor.

"In Hollywood with Potash and
Perlmutter" is an adaptation of the
stage play "Business Before Pleas-
ure." The story takes the partners
to the movie capital and traces their
many adventures as they embark up-
on the career of motion picture pro-
ducers. Alexander Carr, the original
stage Perlmutter, plays the same role
in the picture, and George Sidney is
seen as Potash. Others in the cast
are Vera Gordon, Belle Bennett and
Betty Blythe. The picture was di-
rected by Alfred Green from Frances
Marion's scenario, and will be shown
at the Princess Theatre Wednesday
and Thursday, February 11 and 12.

PARENT-TEACHER ASSO- CIATIONS TO BANQUET

On February 20, at 6:30 o'clock at
the Bethlehem church, at Ann Arbor,
there is to be a banquet for all
Parent-Teacher Associations in the
county, as a celebration for Founders
day.

The County Council of the Parent-
Teacher Associations is most anx-
iously awaiting the banquet to be
held at least two delegates, and more
if possible. Tickets at 50c each, may
be purchased from Miss Florence Es-
sary, County Commissioner of Schools,
or Miss Helen Brown, 1012 Hill street,
Ann Arbor. Tickets must be pur-
chased before February 18.

Several Parent-Teacher Associa-
tions have been formed recently. The
County Council hopes that before the
year is over, each school in the coun-
ty will have such an organization.

BELSER SPORTS WIN LEAGUE GAME FROM SALINE FRIDAY

Local Team Face Strenuous Week
With Three Games Scheduled for
Thursday, Saturday, Tuesday.

Belser's Sports of Chelsea, added
another game to their list on Friday
evening of last week when they de-
feated the fast Saline five in a hard
fought game at the Welfare Build-
ing.

Gaining an early lead in the first
half, Chelsea maintained this lead
throughout the game which ended in
a score of 22 to 13. Shots from the
goal line figured materially in the
final score, Chelsea making 10 of
their 22 points in this manner, while
Saline managed to drop six balls
through the cage from the foul line.
Field goals were scattered, H. Brooks
being the only man on either team
who successfully dropped in more
than one ball from the field. He
made three baskets by this route.

At the end of the first half Chelsea
was leading with the score 15 to 8.
In the second half Chelsea nosed in
seven points to eight by the visitors.

The Sports face a busy week. This
evening they will go to Ypsilanti
where they will engage in a Southern
Michigan League game. Saturday
evening the National Guards of Ann
Arbor will appear in a game at the
Welfare Building, with the Sports as
opponents. Next Tuesday the Sports
will play another League game when
Milan appears on the local floor. All
of these games are expected to make
snappy entertainment for fans of
the cage game.

KELLY GREENS TAKE GAME FROM ANN ARBOR

Although holding the Kelly Greens
of Chelsea scoreless in the second
half of a game played here Tuesday
night, the Y. M. C. A. team of Ann
Arbor went down to defeat by a score
of 21 to 19.

At the end of the first half the
Kelly Greens were leading by a score
of 21 to 13 and an airtight defense
during the second period checked the
Chelsea five although the Interme-
diates failed by one basket to even
up the count.

SEDAN, SECTION CAR COLLIDE SO. MAIN STREET CROSSING

Four Workmen Seriously Injured
When Thrown Among Wreckage
Driver Escapes Without Injury.

Alfred Faulkner, John Myers, Wil-
liam Faber and John Eder, Sr., sec-
tion men on the D. U. R. were se-
verely injured when the power car
on which they were riding, collided
with a Chevrolet sedan, driven by
Roy Kalmbach, on the South Main
street crossing of the D. U. R. last
Friday afternoon.

Faulkner apparently was the most
seriously injured of the four, he suf-
fering severe cuts about the face and
head, concussion of the brain and
two ribs broken. Myers sustained a
broken hip, collarbone, cuts and
bruises. Faber was cut about the face
and head and Eder had three ribs
broken. All four live in Chelsea.

Mr. Kalmbach was driving his se-
dan south on M-92, or South Main
street, enroute home about four
o'clock in the afternoon, when the
accident occurred, the power car
used by the section men approaching
the crossing from the west. That he
did not see the car on which the men
were riding until a second before it
struck his machine, was the state-
ment of Mr. Kalmbach, and it is be-
lieved the section men failed to note
their rapid approach to the crossing,
in view of the fact that their speed
was such that the impact threw one
of the men over the automobile, an-
other into a glass in the rear of the
car, and the others landed among the
wreckage. The rail car struck the
automobile about midway and threw
it two car lengths from the track be-
fore it was stopped, the engine still
running, but with running board,
fenders and some glass smashed.

While there is a "danger" signal
lighted at the crossing, continually,
the car used by the section men is
not heavy enough to start the bell
ringing and this signal was appar-
ently lacking at the time of the ac-
cident.

HERMAN HUDSON PASSED AWAY SATURDAY

Herman Hudson, aged 66 years, a
life-long resident of North Lake and
vicinity, died Saturday at his home
in Lyndon.

Mr. Hudson was well known to
many of the residents of Chelsea and
vicinity, and his many friends were
grieved to learn of his passing away.

He is survived by four sons, two
daughters, three brothers, 8 grand-
children and several nephews and
nieces.

The funeral was held at 2 o'clock
Tuesday afternoon at the family
home, Rev. E. C. Stinger of Ann Ar-
bor conducting the services. Burial
at North Lake cemetery.

WILLIAM H. WINANS

William H. Winans of Lansing, died
very suddenly at the home of his sis-
ter, Mrs. W. H. Benton, 911 West
Ganson street, Jackson, about 6
o'clock Saturday evening, January 31,
1925.

Mr. Winans was born in Tyre, Sen-
eca County, New York, January 16,
1861. At the age of 8 years his par-
ents moved to Chelsea where his boy-
hood days were spent. For nearly
forty years he had made his home in
Lansing. He was united in marriage
with Mrs. Martha Stickle about 37
years ago.

Mr. Winans came here on Friday
of last week and with his brother, A.
E. Winans, drove to Temperance,
where they visited their sister, Mrs.
Arthur Corwin. After dinner Satur-
day Mr. Winans, accompanied by
Mrs. A. E. Winans, went to Jackson
to visit his sister. After his lunch
he started for the car to return to
his sister's home, where he passed away
about 6 o'clock.

He is survived by his widow, three
brothers, Hon. C. S. Winans, the
American consul at Prague, Albert
E. and Lester L. Winans of Chelsea,
two sisters, Mrs. Benton of Jackson,
and Mrs. Corwin of Temperance.

The funeral was held from the
family home in Lansing Tuesday af-
ternoon.

FRANCE STILL QUIBBLES

Very many American people are losing patience with the quibbling tactics of France in discussing some settlement of the French debt to America. French newspapers are cartooning Uncle Sam as the modern Shylock, demanding his pound of flesh. Many French politicians are denouncing America for even expecting France to repay us the money we loaned her when she came begging, crying that "France is bled white."

In every political speech in France today, French politicians are telling of "how France saved the American colonies and made their independence possible."

What are the cold, bald facts in this respect? The American colonies were oppressed by England. They had declared that they were "of a right and ought to be free." England and France had been at each other's throats as long as they had been nations of importance in the world. One war was ended until another broke out. The history of France and England was one long detail of wars and bloodshed.

King Louis of France thought that even tentative aid to the American colonies would help weaken her ancient enemy, England. A little show of friendship, thought Louis, and a little financial aid would help establish in the western hemisphere where France herself had colonies and ambitions, another enemy of England, which to the reasoning of King Louis meant a friend of France. A little money was advanced—a handful of soldiers were sent. America did appreciate the act of friendship. America did appreciate the aid. America did repay. America did show her appreciation in a thousand ways.

The world war was on. America unselfishly, without thought of benefit for herself did send millions of soldiers. Did send billions of dollars to help save France. The four billions she loaned were taken from the pockets of the American people, and loaned in good faith to a friendly nation, as an act of friendship. America spent something like twenty-five billions more to save France. This she does not ask, nor does she expect to be repaid. But the other is an honest debt, honestly contracted, and should be honestly liquidated.

The more than fifty thousand young men that lie in French soil—the hundreds of thousands of young Americans broken in the war—are America's contribution to the salvation of France for which no payment is asked, nor can any be made.

Statisticians have figured that every American family pays \$8.50 every year in interest on the French debt to us. They borrow our money, and then make us pay the interest!

Is there any wonder that the American people have grown impatient?

VALUE OF BLOODED STOCK

In the beginnings of horse racing in America, it was urged by those promoting and upholding it that it was for the purpose of interesting the people in the importance and value of raising blooded stock. It has always been a great sport the world over, and although it fell into disrepute through the misuse of racing events to make them gambling devices, it seems to have come back in most parts of America, with a stronger hold than ever on the public mind.

August Belmont of New York had built up what was considered the greatest racing stable in America with some world-beaters in the list of notable horses. When he died, the stable was put on the market. Last week, Joseph E. Windover, chairman of the standing committee of the New York Jockey Club, bought what was left of the great Belmont stables for \$500,000. This added to prices paid previously for individuals in the Belmont collection, brought the price of the whole stable to a round million dollars. That is reported to be far and away the highest price ever paid for a racing stable.

Whatever may be said of racing, there is no denying that the horse has been greatly benefited by the attention that has been given to his breeding. This has extended to draft horses, as well as runners, trotters, pacers and saddle horses. The automobile has come, and is a fixture. There were predictions twenty years ago that it would drive out the horse entirely. But the horse is here as strong, numerically as ever, and with the record prices of all history paid for a racing stable.

New York City is not only the home of the "Wolves of Wall Street," but also of the softest type of American sucker. Moe Turman started when he was seventeen, and in ten years "borrowed" enough money to "fail" owing \$1,300,000. He has been arrested, but far from being repentant, says he "had a good time on the money," "borrowed" always with the promise of paying it back with big interest. That big interest, he gets more suckers than anything else. What is the promise of big interest or big profits worth, coming from a man who can't pay?

WHAT SCIENCE LEARNED

The total eclipse of the sun on January 24th was an event of the greatest importance to scientists who wished for such an opportunity to survey the heavenly bodies, and get photographs of the sun's corona.

The path of totality of the eclipse through the eastern states was clear. Army observers and astronomers went up in the air far above the clouds, and above that third of the atmosphere of the earth which makes for obscurity and the showing of false shadows and lights, and there took what astronomers tell us are the most wonderful pictures of an eclipse ever made.

As the path of totality in the East had many large observatories in its boundaries, there was unusual preparation. The sun passed into a stage of total eclipse for full two minutes at the center to the path, and near it. During that two minutes the stars shone as brilliantly as the naked eye, as at midnight. The chickens tucked their heads under their wings for another nap—animals in fields took on an air of fright, and night enveloped the earth. After the two minutes the sun popped out, and the proud roosters proclaimed the dawn of another day, in less than two hours after they had heralded the first dawn.

Measurements were taken at eastern observatories, pictures and spectroscopic observations were made that cause astronomers to tell us they believe they have discovered a new element in the sun's rays, not known to exist before.

Radio experts think they have discovered some relationship of the sun's rays to sound waves, and this phase is being studied, with the possibility that there will be important news for radio fans, as soon as the studies of these observations have been put into concrete form.

It will be some time before the world will know what the astronomers and scientists learned during the period of the total eclipse. Astronomers do not rush headlong with their stories of discoveries. They check and recheck, and study and make further observations so as to be perfectly sure before they tell their story. But an eclipse being the best time to wrest secrets from the heavenly bodies, and this eclipse which favored the East, but not the West, having been observed under perfect conditions, we are almost certain to get out of it something valuable to the human race.

MORE CAPITOL SCANDALS

The Capitol of our Nation has had enough scandal in the past two years to last any country a lifetime, and yet the tendency at Washington seems to be to see how much more scandal can be dug up.

If frauds were exposed, if those who practiced them were prosecuted and brought to justice, and the country rid of graft and corruption in high places, it might be quite worth while. But, out of all the scandal that has floated from Washington out into the country, there has not as yet been one person brought to justice, nor does there seem any likelihood just now that any will be punished for many crimes and misdemeanors which have been perpetrated at the capital.

The latest scandal hinges on the appointment of Attorney General Stone to the Supreme bench. President Coolidge sent the nomination to the Senate and there it is being held up. There does not seem to be any question of his fitness for the place. At least we have seen no charge that he is incompetent, inefficient or dishonest. It appears, so far, that the only thing held against him is that he is active to secure a new indictment against a certain senator who has before been indicted, and that for this reason the Senate withholds confirmation.

If this be true, then well may the public feel and hold concern. We have understood from Senator Wheeler's explanation of the indictment against him, and from such records as have been published, that he was indicted for doing a thing which has always been customary for senators to do—to interfere at some department of the government, in the interest of a constituent.

It has been the custom so long that the memory of man runneth not to the contrary, that if Podunk wants a postoffice building, or Farmer Cornsawell wants some new kind of seed, to take the matter up with the Senator or the Congressman, and for the Senator or Congressman to do what he could to secure the thing wanted. Senators and Congressmen may have, from time to time, practiced law, or given service for pay on such missions—but if the practice is wrong, it is basically wrong, and is as wrong in small matters as in greater ones, and should be stopped entirely—yet, it is and has always been considered a proper function of a Congressman or Senator to render such service. Why should Senator Wheeler be made the goat?

What Washington ought to do is to bring some of the known guilty to justice before smearing further smudges of suspicion and scandal over others.

Jacksonville, Fla., proposes to regulate pedestrians using the streets, as well as automobiles. That is sensible. The streets of any city do not belong to motorists any more than to pedestrians. All have equal rights, and the pedestrian should be made to do his share in keeping the streets safe. The streets of any city do not belong to reckless drivers as well as to reckless pedestrians. Recklessness is responsible for nearly all automobile accidents. Stop that and you reduce accidents to the minimum.

YOUR INCOME TAX

The revenue act of 1924 provides that the statute of a taxpayer relative to the amount of his personal exemptions shall be determined by apportionment in accordance with the number of months the taxpayer was single, married, or the head of a family. Under the preceding act the amount of the exemption to which the taxpayer was entitled was determined by his status as a single person, a married person, or the head of a family on the last day of the taxable year, December 31. If the return was made on the calendar year basis, as most are.

For example, a taxpayer married on September 30, 1924, would be entitled to an exemption of \$1,375. For the first nine months he is classified as a single man entitling him to an exemption of \$750—three-fourths of the \$1,000 exemption allowed a single person—and for the last three months he is entitled to an exemption of \$625—one-fourth of the \$2,500 exemption allowed a married person. If on June 30, a taxpayer ceased being the head of a family—the support in one household of a relative or relatives being discontinued—he is allowed an exemption of \$1,750—one-half of the exemption of \$1,000 granted a single person plus one-half of the exemption of \$2,500 granted the head of a family. With regard to the \$400 credit for a dependent, the taxpayer's status is determined as of the last day of the taxable year. If, during the year, his support of such dependent ceased, he is not entitled to this credit.

As a general rule it is inexpedient to meddle with questions of state in a land where men are highly paid to work them out for you.—Kipling.

At last Old England grows ambitious—London is to have skyscrapers!

England was in the throes of a hard winter and a strike at Buckingham Palace, and all the government buildings in London last week. There was a greater chill in parliament than Lloyd George caused when he allied himself with labor a year ago, and gave England its first labor government.

A Squeezed Dollar

It pays to save a dollar at any time, but this is especially true now, when money is hard to get and the purchasing power is increasing.

The inflation is pretty well squeezed out of the dollar you handle today. It is not the same cheap, easily-earned, "come easy, go easy" dollar of the period of war inflation. It will probably become more valuable instead of cheaper. Now is the time to save.

Work That Counts

My friend, all speech and humor are short-lived, foolish, untrue. Genuine work done, what then works best? Truly, that is eternal! Take courage, then; raise the arm, strike home, and that right lustily; the citadel of hope must yield to noble effort. Thomas Carlyle.

FARM FOLK GATHERED

AT M. A. C. FARM WEEK

Agricultural interests of Michigan are gathered at East Lansing this week, more than 80 different farm groups holding meetings and hundreds of other rural folk attending the general sessions of the big Farmers Week conference.

No estimate of the attendance figures were available yet in the middle of the week, but college authorities estimate that the 5,000 mark of recent years will be equaled or passed with good weather.

Agricultural exhibits and national known speakers on the general program compete with each other for chief interest among the visitors. Women are holding a conference of their own, the Home-makers Section, with their own exhibits and meetings.

Germ-Killing Metals

Germs that come in contact with certain metals are destroyed as shown by recent experiments. Copper, zinc, brass and silver are capable of killing microbes, but these metals also are most easily attacked by chemicals. In the tests the germs were not harmed by platinum, nickel nor pure gold freshly cleaned and polished.

Sunday School Record

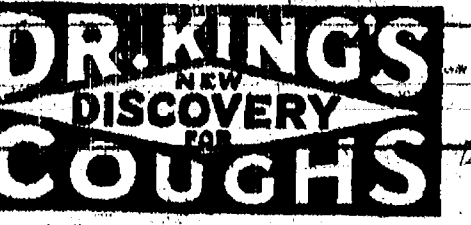

Three sisters in East Brunswick, Australia, have a record of attendance at every Sunday school session for ten years.

Tells How to End Night Coughing

To quickly stop hacking, irritating coughing at night, a very simple treatment may be had that often enables you to sleep the whole night through undisturbed almost at once.

This treatment is based on a remarkable prescription known as Dr. King's New Discovery for Coughs. You simply take a teaspoonful at night before retiring, and hold it in your throat for 15 or 20 seconds before swallowing it, without following with water. The prescription has a double action. It not only soothes and relieves irritation and soreness, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. So no matter whether your cough is dry and tight, or loose with much mucus, the coughing soon stops, you can usually sleep your accustomed time without a break, and the whole cough condition goes in a very short time.

The prescription contains absolutely no narcotics or other harmful drugs, instead of merely numbing the throat, it actually helps the system to throw off the cause of the natural way. Furthermore, it is very economical, the dose being only one teaspoonful at night before retiring, and for children, half a teaspoonful. It is a wonderful remedy for children's coughs and croup, and for the elderly, and for the whole family. On sale at all good druggists. Ask for

BREVITIES

Manchester.—The railroad company has been ordered to erect signals at the crossing near the lumber yard where Frank Leeson's car was struck by a freight train a few weeks ago. Enterprise.

Fowlerville.—The mystery of the shooting of Russell Compton a few nights ago at this place was cleared up Thursday when young Compton confessed to sheriff Tessler and prosecuting attorney Smith that he did the shooting himself. Review.

Eaton Rapids.—Announcement of the complete enrollment figures of Western State Normal at Kalamazoo for the winter term shows 35 students from Eaton county. Kalamazoo Normal has a total enrollment this winter of 2,106 students. Review.

Stockbridge.—This village was shocked last Thursday morning by the death of Mrs. Frank Bayes. Preparing breakfast as usual she and Mr. Boyce sat down, and leaning back in her chair passed away instantly. Brief-Sun.

Freedom.—Our townsman, Frank Koobas, who has been living in Manchester since he was appointed postmaster there some years ago, now has more leisure and is acting as administrator in the Henry Kemmer estate. Frank has had some experience in such matters during the past years, this being the 15th estate he has had in hand.

Sharon.—The number of farmers who buy cattle and sheep and fatten them for market has increased considerably the past few years. Will Haselchwerdt was among those who took stock to Detroit the past two weeks, making good money by the transaction. This with care in selection of cows for dairy purposes is sure to put the farmer on easy street.

Brooklyn.—The meeting of base ball fans called Saturday evening at the Cook block was well attended and a lively interest was manifested. A good team for the coming season is a certainty. There is a point undecided as to whether Brooklyn will go into the league again this season, and this will be determined after an investigation and report of Ray Watts who was elected director. Exponent.

Pineckey.—Last Thursday the fish house in East Putnam was burned to the ground. A total loss, with only \$500 insurance. The Pineckey fire engine was rushed to the farm but could do nothing to save the house as there was no water supply. With the chemical apparatus the firemen managed to save the woodshed. The fire is supposed to have started from a defective chimney. Dispatch.

Dexter.—Wm. Beach of Lima received word Wednesday of the death of Mrs. Robert Buchanan, a former resident, who passed away at the home of her daughter, Mrs. Fred Le Count of Hartford, Wis. Sunday afternoon, January 25. The body will arrive here Friday morning, and a short service will be held at her late residence on Fifth St. at 10:30. Burial in Forest Lawn cemetery. Leader.

Ypsilanti.—Game Warden Darrell Cosgrove saw a man throw a bag away on King's flats a week ago and investigated. He found the bag to contain a sawbill duck and got out a warrant for Aden Benedict, who admitted the charge of killing the duck, but claimed he did not know it was out of season. He paid a fine.

of \$5 and \$2.75 costs in Justice Currier's court on Saturday morning for his failure to know the law regarding ducks. Record.

Howell.—The spacious quarters of Howell Lodge, No. 38, F. and A. M., in the First State and Savings Bank building was taxed to capacity Monday evening in celebrating the seventy-fifth anniversary of the founding of the lodge. The occasion was indeed a notable one as the attendance of two hundred seventy-five members and invited guests testified. The banquet was served at 6:30 and was very satisfactory putting the guests in a happy frame of mind. Republic.

Brighton.—The manner of nominating the village officers this year will be entirely different from the old way that has been in vogue since the village was incorporated. Inasmuch as the proposition to nominate village officers by primary election was carried at the last village election, there will be no caucus this year. Instead, a primary election will be held on February 16, and at least 10 days previous to that date, candidates wishing their names to be placed on the ballots for the various offices must file a petition with the village clerk. Argus.

South Lyon.—Two hundred votes were cast at the special election held at the village hall Wednesday, for the purpose of voting on the question of a general revision of the village charter as ordered by the village council. Of the votes cast, 155 were in favor of the change and 45 against it. This election, which was three to one for the revision, indicates the progressiveness of South Lyon citizens and their attitude on questions which vitally affect the welfare and growth of the town. Now, if ever, is the time when South Lyon people must be awake and take advantage of the opportunities which are at hand. Herald.

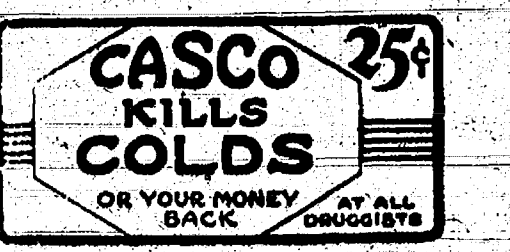

Bulldog's Ancestry.—The bulldog is a cross between an English setter and a large pug dog from southeastern Asia.

Peculiar Ice Block.—A steam shovel, working on a new highway, near Reno, Nev., uncovered a huge block of ice under the ground, measuring 60 feet in length, 20 feet in width and 10 feet in thickness. It is believed that originally the ice, which is estimated to be about forty years old, was a field of snow on the mountain side above, and was compressed into its present form by an avalanche of earth, rocks and trees.

LYNDON TAXPAYERS.—I will receive Lyndon township taxes every Saturday afternoon, beginning December 13, at the Farmers & Merchants Bank, Chelsea, and every day at my home. Theo. Mohrlock, Treasurer.

LIMA TAXPAYERS.—I will be at the Kempt Commercial & Savings Bank every Saturday afternoon until Saturday, February 28, to collect Lima township taxes. E. L. Downer, Treasurer.

SILVER TAXPAYERS.—I will be at the Kempt Commercial & Savings Bank on Wednesday and Saturdays commencing on December 13, to receive the Silver taxes. C. Hummel, Treasurer.

Lamps Show if Factory Machinery Is Working

In a counting factory having seven food-packing machines the manager has installed a little device near his desk to indicate whether or not all seven are working properly. The device consists of a panel on which seven miniature lamps are mounted, each of which is connected to one of the machines, so that every time a car passes to the filling machine it causes a lamp to flash. As long as the lamps keep flashing, the manager knows that everything is going all right, but if any lamp fails to flash it is a signal to him that he is perhaps needed at the factory to untangle some difficulty. A switch is, of course, provided so that the current can be turned on or off.

Silencing Automobile-Door Noises

Squeaking automobile doors can sometimes be silenced by cleaning the rubber gaskets and the parts they touch with gasoline, wiping dry and powdering liberally with talc dust. Oil should never be used, as it ruins the rubber. If the door is tight, or if the rubber is pressing against the door, it is not a good idea to use the talc dust, or by forcing small pieces of paper into the joint.

Newspaper Pages Flashed by Radio Is Prediction

Transatlantic transmission of photographs and newspaper pages by radio is a development likely to become a reality in the near future according to Maj. Gen. J. G. Harbord, president of the Radio Corporation of America. Two-way talk by radiophones he also regards as an imminent possibility. A ticker that will actually print words on paper from a central broadcasting point, thus greatly amplifying present news-distributing agencies, is another of the objectives of radio-research engineers, and control of airplanes, submarines and other ships from a remote land station is, he believes, a possibility certain to be realized in view of the astounding progress already made in radio accomplishments.

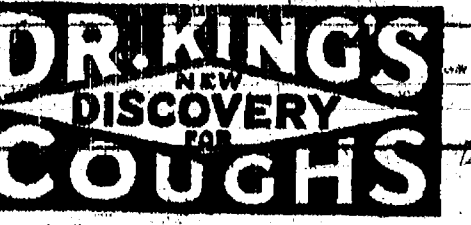

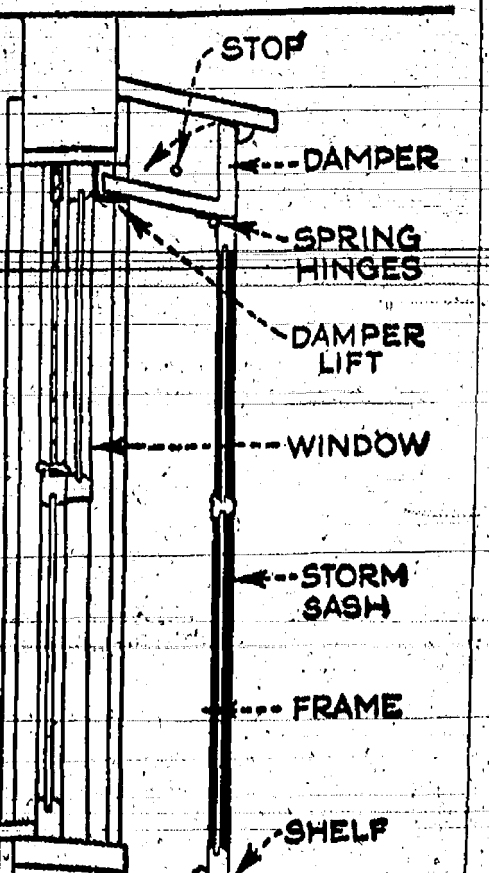

Preventing Snow from Sticking to Shovel

It is usually somewhat difficult to use a metal shovel for scooping snow as the snow has a tendency to stick to it. This trouble can easily be prevented by first cleaning the shovel so that it is absolutely free from dirt, heating the metal part, and then covering it with melted paraffin or wax. When the paraffin is cold, the shovel can be used, and it will be found that the snow will not stick. Of course, this will last only as long as there is a film of wax on the shovel; but it is surprising how long it takes before this film is worn off. Wooden shovels may be treated with grease or rubbed with soap.

Ventilating the Kitchen

In the construction of many houses the kitchen is built without much thought or consideration for the cook. The stove windows usually do not permit much ventilation and no pipe is provided to carry away the smoke and fumes from the stove. A good method of providing proper ventilation is shown in the drawing. A wooden box incorporating

the storm window is built around the window on the outside. This box is made about 6 in. longer than the storm window, which is allowed to rest on the lower edge of the box, thus leaving a 5-in. space at the top. A right-angled wooden damper is made to fit this space; it is hinged to the upper end of the storm sash, and long enough to rest on a length of angle iron screwed to the upper edge of the inside sash. Opening or closing the inside sash automatically opens or closes the damper. Whether the damper is open or closed the space between the two windows is practically tight all the time. The box itself can be used as an iceless refrigerator during the cold months, small shelves being built on the sides so as not to shut off any light if the box is made wide enough for this purpose.

The coronet of an English duke consists of a circle of gold around which, arranged at equal distances from one another, are eight gold strawberries. The leaves are called parodies by some authorities.

SCHOOL NEWS
The chapel program of Tuesday morning was a break in the tension following the semester examinations. The high school trio, Doris Foster, Mae Hamp and Dorothy Weinman, entertained with a musical selection. Rev. Risley was the speaker, his subject being "Courtesy." Many examples were cited where manners or politeness was of utmost importance. One thought brought out was that the beginning of things worth while was in the home.
Martha West was neither absent or tardy for the first five months of school. Her name was omitted from the list in last week's paper.
Monday night the girls' game at Grass Lake turned out contrary to everyone's hopes and expectations. One reason was that the girls were not accustomed to playing a two court game. Then too of course the opponents being on their own floor was of most importance. There did not seem to be any special star playing, as everyone did their best. Line-up: R. F. Weinman; L. F. Mayer; R. C. Evans; J. C. Pittsley; R. G. Dancer; L. G. McLaughlin. Substitutions: Seitz for Evans, Evans for Seitz.
The Lake quintet are lucky on coming through in the last few seconds of play for a lead both at home and abroad and C. H. S. boys dropped a fast contest to them on their own floor Monday, February 2nd; by the score of 24-20. In the first three or four minutes of play the Lakers lead off with five close baskets by Foster and his forward mate while Chelsea was not even settled for a passing game. The quarter ended with a 12-6 count and the half, with 14-9, showing that the boys got started and held them after a short time. The team was not daunted by this lead and the third period ended with a count of 17-14 for the locals. This lead was maintained until the last few minutes of play when Grass Lake came through with two baskets which won the game for them in a good burst of aggressiveness from the 14 mark. The local boys did exceptionally well on the fouling as only three personal were distributed on a many players. Held ball was called sometimes when a foul should have been in our favor. The locals have a good offensive but somewhat impervious defense. A good crowd of spectators attended the game and the support is appreciated. Line-up and scoring: L. F. Kinner, R. E. Steger, C. Fox, R. G. White, L. G. Beach. Field goals: Kinner 3, Fox 2, White 3. Free throws: Steger 3 in 3, Beach 1 in 1.

Our church school at 11:15 a. m. A good place for God to find young and old is in the church school for study of His word. As I look out across the world, I sometimes wonder, what has the world been weaving into the great web of life? Have we been using poor material in our weaving of life? Best? Have we been in earnest or indifferent about it? Do not forget our "All Parish Night." The great church family gathered for a social fellowship. All around the table as one family in God's great work. There is no place like the church home with all present. So come, be in your place, bring your smile and have a good time.

SPECIAL PATROL ASKED
Commissioner Harry H. Jackson of the Department of Public Safety of Michigan has asked the state legislature to appropriate funds for a highway patrol in the resort and fruit-growing sections during the summer and fall seasons. These troops are not only needed to check violation of the motor vehicle laws but also to protect orchards and do general police work. Presence of a courteous body of officers on the highways, who will aid motorists, is expected to encourage tourist travel.
IDENTIFY FUGITIVES
The identification bureau of the Michigan Department of Public Safety now makes an average of nearly 500 identifications each month. Recently four fugitives from Michigan prisons were arrested in one town in Iowa and identified through fingerprints sent out from the bureau Lansing.

Home Inspires Confidence

Home ownership inspires self-respect in individuals which, in turn, stimulates in others respect for them.

It makes of them better men and women, better American citizens, better husbands and wives, better parents.

It gives them a standing and an influence in a community second only to the influence exercised by intellectual and moral character.—Exchange.

Defendants.
At a session of said court, held at
the Court House in the city of Ann
Arbor on the 14th day of January, A.
D. 1925.

Present, Hon. George W. Sample,
Circuit Judge.
In this cause it appearing by the
bill of complaint duly verified, pre-
sented and filed, and to the satisfac-
tion of the court that Oren C. Thomp-
son, Henry E. Root, John W. Norris,
William Beach, William A. Abel, Ezra
W. Whitmore, Rhoda Wilcox, William
Finley, Cornelius Ousterhout, Theo-
dore S. Nichols and their unknown

FRANCISCO

A company of 12 young friends of Arthur Frey met at the home of Mr. and Mrs. John Helle Saturday evening for a sleighride party, after which a fine supper was served by Mrs. Helle and Mrs. Sade Frey. The color scheme in the dining room decorations was pink and yellow. Following the supper the evening was spent in parlor games and music. Among the guests were a number of young people from Jackson and Grass Lake. All the young people expressed their pleasure at the entertainment. Mrs. Helle and Mrs. Frey had given them, and hoped some time to have the pleasure of meeting at the home of Mr. and Mrs. Helle again.

Mr. Seid, who has been in poor health, is quite improved, and is now at work at his shop part of the time. Henry Bohne and daughter, Miss Helma, were in Jackson Saturday. Mrs. Martha Simmons of West Francisco visited Mrs. Henry Frey Saturday.

School is closed in the Dorset district again on account of scarlet fever, this time in the Charles Wake-man family. This is the third time this school year the school has been closed on account of scarlet fever among the pupils. While June has not been having a severe case, Opal has been a very sick child, but it is hoped she has passed the crisis and that the family will soon be out of quarantine. The rest of the children that have been sick from scarlet fever are reported improved.

While cranking her machine the other day, Mrs. Charles Hamilton broke her wrist.

Mr. and Mrs. Fred Boehm and children of Grand Rapids are visiting at the home of their parents, Rev. and Mrs. Fred Boehm.

Earl Dorr of Detroit was home part of last week to visit his father, C. C. Dorr, south of town.

Mrs. Kate Ahling and daughter, Miss Nellie, of Ann Arbor, were recent guests of relatives south of town.

Mr. and Mrs. Albert Bahnmiller and son spent a day recently with Mrs. Bahnmiller's parents, Mr. and Mrs. George Klump of Grass Lake.

Mr. and Mrs. Wm. Jones of Jackson spent Sunday with Mrs. Jones' parents, Mr. and Mrs. John Seid.

Walter Thelen of Sylvan spent part of last week with Mrs. Martha Keeler. Mr. and Mrs. Oscar Kalmbach of Sylvan spent Sunday with their mother, Mrs. Emma Kalmbach.

To Tell Weight of Coal
A solid cubic foot of anthracite weighs about 38 pounds. When broken it weighs about 64 pounds. Bituminous coal when broken up averages about 60 pounds per cubic foot. Therefore, simply find the contents of box or bin in cubic feet and multiply by one of these numbers, according to kind of coal.

Eccentric English Duke
The duke of Bedford's gold plate at Woburn abbey is among the most magnificent collections of its kind in the world. So lightly, however, was it regarded by the eighth duke, that on his death in 1872 gold plate worth tens of thousands of dollars was found strewn about the floor of his house in Belgrave square in such a deplorable condition that it narrowly escaped being consigned to the dustbin as worthless metal.

FAMOUS CONTRALTO TO APPEAR IN SONG RECITAL

In presenting Sophie Braslau in the Choral Union Series, Friday evening, February 13, one of America's finest artists will be heard. Miss Braslau is an American girl who of sheer merit has made her way to the topmost pinnacle of artistic fame. Her lovely voice and attractive artistry with a charming personality has carried her to the further heights both at the Metropolitan Opera Company and in recital. Her tremendous success belies the impression that only foreign artists can attain great success in this country. For she is easily ranked with those great contraltos, such as Matzenauer, Schumann-Heink, Onegin of foreign extraction and Mme. Homer, her most distinguished fellow countrywoman. Her voice is large and velvety and so well handled that its possessor always is mistress of whatever she undertakes.

Those who were disappointed on account of her inability to appear as star at the Friday evening concert of the last May Festival will now have an opportunity of hearing her in a full recital of songs and arias.

NORTH FRANCISCO

Mr. and Mrs. John Mittler spent Sunday at the home of Mr. and Mrs. Otis Havens of Grass Lake.

WILL HOLD ESSAY CONTEST

The average housewife of today may be familiar with only a very few cuts of meat as revealed by a recent government survey, but Mrs. Housewife of the future is to be far better equipped in this behalf if the National Live-Stock and Meat Board has its way.

Results of the survey, which was conducted by the U. S. Department of Agriculture, have prompted the Board to launch a new project of meat education among high school students of home economics, says a statement issued today by the organization's headquarters in Chicago. This project will be known as the Second National Meat Story Contest.

Full particulars concerning which will be in the hands of high school home economics instructors and their students in the very near future.

The first contest of this sort was held during the spring of last year in co-operation with the home economics departments of the nation's high schools. The board explains the initial effort as being for the purpose of stimulating the study of meat through offering an incentive for the student to write upon this subject. The new contest is a continuation of the original idea, the need for which has been accentuated by the findings of government investigators.

The board points out that home economics instructors in all parts of the country heartily endorsed the first contest as an aid to education and many urged that further work be done along this line. It is said that approximately 12,000 high school girls representing every state in the union competed and it is expected that a much larger number will become interested in the present event. Dr. Louise Stanley, Chief of the Bureau of Home Economics, U. S. Department of Agriculture, served as chairman of the judging committee in the first contest.

The incentive for students to enter is offered in the form of cash prizes totaling \$2,500, the National Championship prize being \$300. Awards will be made in every state.

Oil Stains on Concrete

The bureau of standards says that it knows of no method that will entirely remove oil stains from concrete. The stains can be partly removed by soaking the concrete with gasoline, then taking up the excess by means of a porous material like blotting paper. Repeating this process several times at intervals a good portion of the oil can be removed.

Good News

About the year 2000, says an authority on demography and vital statistics, the population of the United States will reach its greatest height at 137,274,000. Thereafter it will decline, which is good news if the number of automobiles is going to increase in proportion to the population. —Youth's Companion.

Honesty

Honesty does not merely mean that you will not lie with your lips or take somebody's money or property. It also means that you will do your very best in everything, do every task to a complete finish, and stamp each job you do with the trademark of your character. —Kiel Kraftman.

Protects Himself

"Men are not as tickle as women." "Perhaps not," assented Miss Cayenne. "A woman is free to change her mind, but a man after buying an engagement ring has a little something to protect in the way of an investment." —Washington Star.

The Earnest Man

The earnest men are so few in the world that their very earnestness becomes at once the badge of their nobility; and as men in a crowd instinctively make room for one who seems eager to force his way through it, so mankind everywhere opens their paths to one who rushes zealously toward some object lying beyond them.
