KEMPF BANK ANNOUNCES WINNERS IN ESSAY CONTEST

Thirty School Pupils Will Receive Cash in Return for Efforts in Educational Campaign Sponsored by Bank.

Winners in the prize essay contest being sponsored by the Kempf Commercial & Savings Bank have been selected and names of the winners announced this week by bank officials. Thirty boys and girls in schools throughout Sylvan, Lima, Lyndon and Freedom townships will receive awards of cash in the amount of \$5 for first, \$3 for second and \$2 for third in each of ten districts. That the contest has created considerable interest among students and teachers is unquestioned from the number of inquiries coming from participants in the contest as to possible winners in the final judging of essays.

Besides the contestants who have won prizes there are a large number who have been noted under the "honorable mention" caption which gives rise to the belief that this will encourage others to make further effort in future contests.

The contest just closed is the second to be conducted by the Kempf bank. Success of the initial project in 1924 led officials to believe in the popularity of such a community-wide venture; hence the repetition of the affair this year. Much gratification is expressed at the further success of this year's contest.

We are highly pleased with the results of the good work done by the pupils, assisted by their worthy teachers," said John L. Fletcher, vice president of Kempf, in speaking of the contest. "Nearly all the essays submitted were splendid and it is needless to say that our public in general has a greater appreciation of banks and what they stand for than it had before we began this educational campaign."

"We wish to thank all the contestants for their essays, as well as the teachers for their co-operation in making this essay contest even more successful than we had dared to hope."

Winners in the contest are:

Public school, grades 11 and 12—1st, Cleo M. Gage, 2nd, Florence Schmidt; 3rd, John Hamp.

Public school, grades 9 and 10—1st, Ruth McGuire; 2nd, Ivan Baldwin; 3rd, Edward A. Taber.

Public school, grades 7 and 8—1st, Carl Risley; 2nd, Robt. O. Williams; 3rd, Vera White.

Public school, grades 5 and 6—1st, Evelyn McManus; 2nd, Mary Geiman; 3rd, Bertha Aldrich.

Sylvan Township and Waterloo school—1st, Dorothy West; 2nd, Mildred Hayes; 3rd, Sadie Saine.

Lima Township—1st, James Tamlin; 2nd, Wilbert E. Brister; 3rd, Viola Jones.

Lyndon and Dexter Townships—1st, John Balard; 2nd, Marvin E. Miller; 3rd, Eloise Hadley.

Sharon and Freedom Townships—1st, Wilbur J. Wenk; 2nd, Norman Huestis; 3rd, Frank Adams.

Parochial school, grades 4, 5 and 6—1st, Dorothy Staniph; 2nd, Anna Volk; 3rd, Lucille Schulz.

Parochial school, grades 7 and 8—1st, Beatrice Keusch; 2nd, Armin Wolf; 3rd, Ruth Else.

Parochial school, grades 9, 10, 11 and 12—1st, Catherine Canfield; 2nd, John Keusch; 3rd, Irene Heim.

HOLDS SPECIAL MEETING

The Washtenaw County Clothing Project classes had a special meeting March 28th at the home of Mrs. John Finkbiner for the purpose of making dresses. Mrs. Lee Bradbury, Mrs. Jay Smith and Mrs. J. Schaefer lenders in this work, met with them and an interesting and profitable day was spent. Making seven forms, finishing three complete and the remainder were finished in the evening.

The regular classes will continue next week at the home of Mrs. S. Wood of Lima. The remainder of this week will be given to those members that have been sick or otherwise kept at home from the regular classes.

NOTICE

In the interest of the county clothing project, we ladies would like to call attention of all member voters, that election day will be here, and by your support help to place into offices those men and women who understand and welcome these progressive projects in our respective communities. It is as you all know through these that we can have the county agent, who in turn gives to us these wonderful lessons, direct from the college to our homes, without cost. Without him, it would be an impossibility to get this work, without great expense or actual college courses. And so we feel that it is our duty to our community to study their needs and actually take part in the developing of these progressive projects. We thank you.

"JUICE" TURNED ON SOUTH MAIN ST. LIGHT SYSTEM

Residents along South Main street and motorists using the pavement were highly gratified on Tuesday evening with the appearance of the boulevard lighting system which was "lit up" for the first time on that evening. Work of erecting posts and laying cables has been progressing for some time and as a result Chelsea can claim an extensive lighting system along South Main to M-17 which "fades" the lights in use in other sections of the village. There is no doubt but that the 20-foot payment and boulevard lighting system will prove attractive to many who

would not otherwise notice the second thought in passing. The lights will be turned on until after midnight each night. Cost of erecting the lighting equipment was un-drawn by local business men as another one of the progressive moves destined to put Chelsea on the map.

MANUFACTURING CONCERN PREPARING TO MOVE

C. Lehman and M. J. Dunkel added to Directorate. Mr. Lehman Secretary-Treasurer of Toy Company.

That the Detroit Flag and Manufacturing Company will be in operation here within 80 days was the prediction of Mr. Jewell, president and general manager of the concern who spent several days here the forepart of this week, taking charge of preliminary work necessary before actual moving of the plant is begun.

The company has purchased the building of the Lewis Spring & Axle Company.

The last detail involved which might make the deal questionable has been removed according to Mr. Jewell, who, while hesitant in making statements publicly, is quite optimistic in his outlook on the company's prospects here. The building is "just what we wanted," Mr. Jewell said, appearing much elated at the turn of affairs which permitted his company to acquire a home of such proportions and facilities.

At a meeting of the board of directors held last week, Conrad Lehman and M. J. Dunkel of this place were added to the directing body. Mr. Lehman to become actively engaged as secretary-treasurer of the company. This will be gratifying to local stockholders and others who have been anxious to "get back into the harness" and both men hold the confidence of Chelsea people in their ability to conduct manufacturing enterprises.

DRIVES CAR INTO DITCH TO SAVE ANOTHER FROM WRECK

In an attempt to save another motorist from serious injury, Attorney Elmer Kirkby, 1107 Francis street, narrowly escaped serious injury when he and Mrs. Kirkby were driving their Hudson touring car on M-17 about three miles east of Grass Lake Sunday afternoon. A smaller car came onto the highway without making a stop. Rather than crash into the smaller machine, Kirkby ran into the ditch which resulted in the Hudson turning turtle, being badly damaged. Fortunately neither he nor Mrs. Kirkby were injured, other than a severe shaking up and minor bruises.

The driver of the other car, whose name was not learned, stopped and offered aid. Kirkby's car was brought to a local garage by a wrecking car. —Jackson News.

Mrs. Kirkby is a daughter of Mrs. Mary Schenck of Sylvan.

NAME DIPHTHERIA ANCIENT HISTORY IN MICHIGAN

Toxin-antitoxin prevents diphtheria. Through its use, diphtheria can be made a thing of the past.

Toxin-antitoxin and antitoxin are not the same. Toxin-antitoxin is for the well person, to protect him from having diphtheria. Antitoxin is given to the person who actually has the disease, and to those who have come in contact with him. Antitoxin cures, while toxin-antitoxin prevents, diphtheria.

Diphtheria is caused by a germ. During its life on the surface of the throat, the germ manufactures an overwhelmingly strong poison. This poison enters the patient's blood stream and is responsible for the alarming character of the disease.

Diphtheria germs make their way directly from one person to another. Frequently, healthy individuals harbor the organism in their throats, and even though these "carriers" remain well, they often give the disease to others. There are undoubtedly carriers in every community, a constant danger to the unprotected.

Children especially very young children are a great drain more liable to contract diphtheria than are adults. Eighty per cent of the hundreds of children who annually, and needlessly, die from this disease are less than five years old.

Every individual can be safeguarded for life from diphtheria by the use of toxin-antitoxin. This material, by completely destroying the strength of the diphtheria poisons, makes the individual immune or incapable of contracting the disease. Even though the protected child gets diphtheria organisms in his throat, he does not have the disease. His body has been given ample means of defense.

Toxin-antitoxin is given by the physician in three doses, at weekly intervals. This is sufficient to safeguard 90 per cent of children. The other 10 per cent require a second series of treatments to make them absolutely immune. To determine whether the child needs the second series, the physician follows the first treatments with a simple skin test called the Schick test which shows whether the child is still liable to contract diphtheria.

Both the giving of toxin-antitoxin and the Schick test are harmless.

On Wednesday, April 15th, 1925, at the Chelsea public schools and at the parochial school, toxin-antitoxin will be given free of charge to all school children whose parents will sign a permit slip that will be sent to their home. All children from the age of 6 months and up should receive this protection.

OBITUARY

Miss Carrie Dorothy Kreppa was born November 18, 1892, in Waterloo township, Jackson county, and passed away at the home of her sister and husband at North Lake, Thursday, March 26, 1925, aged 32 years.

She is survived by a sister, brother-in-law, aunt, uncles, cousins, and a host of friends. One sister died in infancy, and mother and father in 1910.

Funeral services were held at the home of her sister on Sunday, March 29, at two o'clock. Burial in Pixly cemetery, beside her mother, father and sister.

ARRANGEMENTS BEING

COMPLETED FOR ANN

ARBOR MUSIC FESTIVAL

The Ann Arbor May Festival, com-

sisting of six concerts which will

take place in Hill Auditorium, Ann

Arbor, May 20, 21, 22, and 23, prom-

ises to stand out in distinct relief on

the background of thirty-two years

during which the institution has

been in existence.

The problems which the University

School of Music are obliged to meet

each year in presenting this classic

event which has brought world fame

to Ann Arbor are varied and com-

plex in nature. In addition to the

purely musical problems involved in

the building of programs which make

an appeal to the taste as well as to

the intellect of music lovers, there

are many different practical and me-

chanical problems which must be

solved each year.

The carrying on and completion of

negotiations for the assembling of

musical stars flitting about the

world under various musical man-

agers, the procuring of the neces-

sary music scores, both vocal and in-

strumental, which are used in the

various performances involving not

only the actual securing of, but the

compliance with various copyright

restrictions and performance rights,

involves a deal of correspondence

and patience much more pretentious

than would ordinarily be supposed.

Added to this is the tremendous

problem of publicity necessary to

attract the attention and bring to

the concert audiences such as are

invariably in attendance.

The publicity problem is two-fold,

the problem of display advertising

in newspapers and other periodicals

and that of the preparation and dis-

tribution of various circulars, book-

lets, etc. The most pretentious of

these booklets is the annual May

Festival announcement of 16 or 20

pages which contains pictures and

biographical announcements of all

the artists, the programs in detail,

and general information. 30,000 of

these are issued and mailed to that

many potential music lovers. Follow-

ing this is the publication of the

Official Program Book which is placed

on sale at the time of the Festi-

val. This in itself is a most preten-

tious connotation of the programs in

detail and is really a book instead of a

pamphlet. It is sold at a nominal

price which by no means covers the

cost of production.

Another very practical but tre-

mendous important problem is the

erection of the supplementary festi-

val stage in Hill Auditorium. This

problem in past seasons has only par-

tially been solved. The stage exten-

tion in Hill Auditorium has never

been entirely satisfactory from many

points of view. In order to make

room for the orchestra, chorus and

artists in the past, the stage has ex-

tended over four rows of seats on

the main floor. The orchestra has

then been spread out as a ribbon

across the entire front edge with the

artists in the background and the

chorus still farther back. This ar-

rangement, although the stage has

been raised to a considerable extent,

has had the unfortunate drawback

of projecting much of the perfor-

mance beyond the line of vision of

those seated in the balcony and at

the same time rendering entirely

useless a considerable number of

seats in the front on the main floor.

Serious attempt has been made

this year to eliminate many of those

objections at considerable expense.

An entirely new stage extension is

being constructed under the direc-

tion of the department of buildings

and grounds. This seating arrange-

ment, it is believed, will serve to

entirely eliminate the objections of

the public, at least lessen them to a

considerable extent. The coming

Festival will find the chorus seated in

diagonal lines at either end of the

stage. The two portions will be con-

nected at the rear by a few rows of

seats leaving a large V-shaped space

in between for the orchestra. Under

this arrangement only one row of

seats in the center on the main floor

will be covered by the extension in

stead of four as in the past. The

plan was worked out after many con-

ferences with architects and others

familiar with the seating of music

bodies.

BREVITIES.

Michigan Centek—C. H. Fenn has installed a new refrigerator of the iceless type to care for the ice cream business this coming season.

Sharon—Those neither absent nor tardy during March in district No. 6, Dorothy Curtis, teacher, were Glenn Feldkamp and Roy Herman. The star speller was Marian Breitwieser.

Freedom—Arthur Hohenberger is among the veterans of the World war who are rejoicing at award of the bonus. Arthur saw 22 months service over seas as a member of the engineers division, and drew \$1,575.

Manchester—Alonzo Aten, who had been at the county infirmary the past winter, returned home Saturday glad to get back where he can earn something to support himself. He says that they are well fed and cared for at the infirmary and he expects to go there again next fall.

Enterprise.—The water main on Maple avenue broke recently, undermining the front bed. An automobile Sunday passed over the defective trench, breaking in a strip about twenty feet long. It was fortunate it happened in the daytime, else a serious accident might have occurred.—Observer.

South Lyon—When the old Free Methodist church was torn down last week, one of the old landmarks of the village was taken away. The building was erected 51 years ago, but has not been used for church services for many years. Lumber used in this structure is said to be in excellent condition.—Herald.

Ypsilanti—Benjamin Neely, of this city, was placed on probation for two years and ordered to pay costs of \$50 by Judge George Sample in the circuit court Saturday. Neely was arrested July 13, 1924, and charged with disturbing the peace following a disturbance in Recreation park. He was accused of having attacked Constable Klavitter, who had endeavored to have Neely sit down at a ball game in the park. Neely was found guilty by a circuit court jury. Record.

Brooklyn—Carload after carload of material and equipment for road building are coming into Brooklyn for the Chicago turnpike concrete job which will soon be in full swing. Late reports say that the east camp at Evans lake may not long be maintained because of no convenient roads to the west when once that point is passed. The biggest camp for the summer will be at Cambridge Junction and a new camp may be established at some point west.—Exponent.

Dexter—The large farm house on the farm owned by John Schultz, in Webster and occupied by Rhodes Bros., who recently moved there, was completely destroyed by fire Sunday morning. Part of the con-

tents was saved. The fire, which was discovered by smoke coming through the roof, caught in the attic and is thought to have been caused by a defective chimney. The building was insured for \$3,400 in the German Mutual Insurance Co. The contents were also insured.—Leader.

Manchester—Two new high pressure chemical tanks for use of the fire department have arrived and are being installed on an Overland chassis by Frank D. Kern. A new hose also accompanies the outfit, and when all is in readiness a continuous stream of chemical may be played upon a fire, the tanks being used alternately. It was found too much time was lost recharging the single tank when at a fire of some size. The department is doing hard and conscientious work and added equipment comes as a just reward for their unstinted efforts.—Enterprise.

Plainkey—One day last week, while at work at her home, Mrs. Wm. Meyer took off two rings from her fingers and carefully laid them aside in the pantry. Several days later she started house cleaning, beginning in the pantry. She gathered the old papers on the shelves and put them in the stove and then remembered about the rings. It was too late however as the fire was very hot and no trace of the rings could be found in the ashes. One was a diamond ring and both were highly engraved engagement and wedding rings valued at nearly \$200.00. Dispatch.

Brighton—Fire ran over a large tract of land south of Chilson road Tuesday afternoon, doing considerable damage. The old house and barn on the Horsepool farm, now owned by L. S. Foskett of Howell, went up in smoke as did a stack of hay and some straw on J. D. Appleton's place. At one time it looked though it would be impossible to save the Beurmann schoolhouse. The fire extended as far south as Joseph McClements woods. We have been unable to find out definitely how the blaze started. The men were getting it pretty well cornered when the rain came last night.—Argus.

Perfect Time Keeping

The basis of reckoning standard time at the United States naval observatory is instant observation of the stars. The observatory has three standard clocks running in a constant temperature vault, electrically wound and sealed to keep the air pressure constant. Monthly circumpolar observations of selected stars are taken regularly on clear nights and from these observations the errors of the standard clocks are determined and corrected.

Africa's Vast Water Power

Africa, although known as the "dark continent," contains nearly half of the world's potential water power. Second on the list is Asia, and then come North America, South America and Europe—in that order. Australia, smallest of the continents, is also last as regards white coal.

UNADILLA

Leigh Hague of Capac and Miss Banfouan of Ann Arbor spent Friday and Saturday at the home of Claude Rose.

Mr. and Mrs. Charles Teachout and son Claude, Roy Palmer and family and Ralph Teachout and family were in Azalia Saturday, attending a funeral of a relative.

Roland Gorton entertained last Friday evening, the Young People's Society at his home, 25 being present.

Roy Shelbert had the misfortune to lose a horse Friday night.

Mr. and Mrs. A. J. May, Mrs. Ed Cranna and James Little were in Jackson Monday.

Mrs. Myrna Rose and Janette Webb were entertained at the home of Mrs. Eliza Montague in Gregory last Saturday in honor of Mrs. Benjamin Jones of Edwardsburg.

H. Carney and family and Mr. and Mrs. Clarence Valentine returned home from Florida last week. They expect to return in a few weeks to make it their home.

WATERLOO

Mr. and Mrs. Geo. Schenk and brother J. D. of Tecumseh, spent Sunday with Mr. and Mrs. L. Gordon.

The Waterloo mill will grind only on Saturday from now on until further notice.

Mr. and Mrs. Ernest Moekel and Roland and Ruth Rhodes spent Sunday afternoon with John and Laura Moekel.

Roland Lehman of North Francisco spent Saturday with his father here.

Mr. and Mrs. Elmer Marsh and family of Jackson spent Sunday and Monday with Geo. Nuoffer and family.

Mr. and Mrs. Geo. W. Beeman spent last week in Ann Arbor with Albert Kellogg, who is in a hospital there. He underwent an operation for appendicitis.

Mr. and Mrs. Ezra Moekel spent Sunday with Mrs. John Thelen near Francisco.

Walter Vicary and family of Jackson moved to their home here Monday.

Mr. and Mrs. Albert Visel spent Sunday with Mr. and Mrs. G. Nuoffer.

Mr. and Mrs. Theodore Koelz and sons, Teddy and Bobby, and Mr. and Mrs. Carl Schafer of Jackson were Sunday guests at the home of Mr. and Mrs. August Koelz.

Preserving Books

The simplest way to prevent mildew of books is to keep the leather in a well-ventilated and well-lighted place, preferably one exposed to the sunlight. Mildew cannot make much headway in sunshine. When mildew develops it should be washed off with soap and warm water, or simply wiped off with a moist cloth, drying the leather well afterward.

A tramp, apparently demented, made his appearance at farm homes south of town this morning about eight o'clock in a hatless and coatless condition but possessed of the usual appetite. Officials at the state cemeteries plan to call with the thought that perhaps one of the inmates there had escaped and, while no one had escaped from there during the night officers were sent to "look the tramp over". However, he did not "belong" and was left to go his way, plus a hat and some eats supplied by farmers.

CONFIRMED PROOF

Residents of Chelsea Cannot Doubt What Has Been Twice Proved.

In gratitude for relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Pills. Residents of Chelsea, who so testified years ago, now say the results were permanent. This testimony doubly proves the worth of Doan's Pills to Chelsea kidney sufferers.

Chas. Hyzer, Madison street, Chelsea, says: "I was a sufferer from kidney trouble and backache. Sharp, shooting pains through my kidneys made work a burden, and if I stooped I could hardly straighten again. Finally a friend who had used Doan's Pills with good results told me to try them and after using them I was soon relieved. Three boxes cured me so I am glad to say Doan's are a fine kidney remedy."

Mr. Hyzer gave the above statement March 1, 1918 and on April 27, 1920, he added: "I am glad to confirm my former statement. The cure Doan's made for me has remained permanent."

NOTICE OF MORTGAGE SALE

Whereas Arthur L. Lowry, a single man, of the Township of Sylvan, Washtenaw County, Michigan, made and executed a certain mortgage, bearing date the 2nd day of November, A. D. 1922, to Lucy A. Hoppe, of Detroit, Michigan, which was recorded in the office of the register of deeds of the county of Washtenaw, on the 18th day of February, A. D. 1924, at 11:55 o'clock in the forenoon, in Liber 181 of Mortgages, on Page 384;

And whereas the amount claimed to be due upon said mortgage is the sum of \$9135.00 dollars, and no suit or proceeding has been instituted at law to recover the debt now remaining secured thereby, or any part thereof;

And whereas default has been made in the payment of the money secured by said mortgage, whereby the power of sale contained therein has become operative:

Now therefore, notice is hereby given that, by virtue of said power of sale and in pursuance of the same and of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the mortgage premises, at public vendue, to the highest bidder, at the south front door of the court house, at Ann Arbor, in said county of Washtenaw, that being the place of holding the circuit court within said county, on the 24th day of April, A. D. 1925, at 10 o'clock in the forenoon; the description of which said premises is as follows:

The southerly thirty acres approximately of the northwest quarter of the northwest quarter of Section number eight; also all that portion of the northeast quarter of section seven that lies east of Crooked Lake, excepting therefrom the southerly 100 feet of said easterly lake frontage by one hundred and fifty feet in depth; excepting also 80 feet frontage of said lake lying next north to lot deeded by said first party to Marguerite Ferguson; also one hundred fifty feet in depth; also the island in said Crooked Lake, said island being within the lines of said northeast quarter of the northeast quarter of section seven if extended with right of way to go over upon and ash in Crooked Lake, also right of way to and from Crooked Lake to Hoppe Road right of way for benefit of Rudolph Hoppe being reserved to driveway along S. shore of above mentioned island, Township of Sylvan, Washtenaw County, Michigan.

Excepting so much of the above described lands as has been heretofore released by release recorded in Liber 22 of releases Pte 71, Washtenaw records and described as follows: Beginning at the N. E. corner of the N. W. quarter (1/4) of Sec. eight (8) and thence running West on the north line of said section to the land now owned by Vincent Burg, running thence south 80 feet along the east line of land owned by said Vincent Burg, running thence south and west along the east line of lots owned by Ray Alexander, Ed. Alexander, McCarter, Alice Gilbert, up to the S. E. corner of Lot No. 6, now owned by M. H. Hoppe, thence running north and west to shores of Crooked Lake, thence west four (4) ft. along shore of said lake, thence south along the east line of lot owned by Painter, thence west along the driveway up to the N. E. corner of Henry Almendinger's land; thence south along the E. line of said Almendinger's land, and thence running West on the north line of said section (8) thence north on the east line of said N. W. quarter (1/4) of the N. W. quarter (1/4) of section eight (8)—40 rods to place of beginning, containing ten (10) acres more.

Dated January 3, 1925.

So far as looks are concerned, Staebler Gasoline differs not at all from ordinary kinds. Nor is the Staebler gallon any larger. But when it comes to actual performance, motorists are quick to realize the superiority of this remarkable fuel. Yet it costs no more.

Chats with your GAS man Serving All Alike

We serve many customers at a loss. They use such a small amount of gas that were our business like others we would have good reason for dropping them from our books. But you can't do this in the gas business.

We must serve all alike—the cottage and the mansion, the rich man and the poor man. And gas service must be of the same quality and of the same price to all—except in special cases where very large quantities are used.

The gas business is thoroughly democratic. Every customer is considered a good customer and treated as such. And we give just as careful consideration to the complaint received from the smallest customer as we do from the largest. That is the obligation of serving the public.

English Nobility

The higher nobility, or peerage, of England consists of the five ranks: Duke, marquis, earl, viscount and baron. All persons holding these titles are members of the upper house of parliament, where they sit as lords temporal. The archbishops of the established church are termed lords spiritual. They are not peers of the realm, but have seats in the upper house.

Queer Siamese Delicacy

A missionary returned from Siam tells of a queer food the natives are very fond of. Bee-bread, made from wild bees with the larvae in it, is broken up and cooked until it is a pulpy mass. "It is really quite delicious," says the missionary, "with a sweetish flavor. If one didn't happen to know the ingredients he would probably take a second helping."

Glycerin on Glass

To prevent raindrops or water from beading on glass, wipe off the glass with a piece of cloth wet with glycerin. The first few drops remain as drops spreading and showing a tendency to run, but as the drops increase in number they come into contact with each other and coalesce, forming a smooth transparent film of water over the entire surface, which is no obstruction to vision.
