GET PRINTS OF SHEEP'S NOSES

Nose prints were taken of several sheep on the farm of Carol Moschel near Munith Monday afternoon, when Vern Freeman of the animal husbandry department of the Michigan State College, and Roy E. Decker, Jackson county farm agent, were out there looking the sheep over.
"These prints can be used to identify sheep, the same as finger prints of people are used," said Mr. Freeman. "This is possible because of the fact that no two sheep have the same prints, any more than two people do."

Some think this will not prove to be any advantage over the ear labeling plan used for many years, but Mr. Freeman states that it will. When men enter sheep in contests, the ear labels can be changed, but the nose prints will remain the same. It removes the possibility of dishonesty on the part of any unscrupulous person.
The M. S. C. is the first college in the United States to use this method. Last year prints were taken of the college flock and proved successful. More of the work will be done. Carol Moschel of Munith, Robert Noon of Michigan Center and William Wood of River Junction are the three fine-wool breeders of Jackson county.—Jackson News.

"NORTH OF 36" A TRUE SCREENPLAY OF PIONEER DAYS

New Paramount Picture a Colorful Page From U. S. History.
"North of 36," by Emerson Hough, depicting all the thrills and hardships of pioneer days on the Texas cattle ranges, has been filmed for Paramount by Irvin Willat, who made the natural-color picture, "Wanderer of the Wasteland" and other classics.
"North of 36" is a tale of the Texas cattle trail, picturing a country wild, almost lawless, at the period of the story, roughened and disheartened by the recent Civil War. Lois Wilson, as Taisie Lockhart, manager of her own vast ranch in Texas, finds herself penniless, with no means of disposing of her herds, her chief asset being the true spirit of the pioneers.
Word comes that way up "north of 36," a market beckons. With her 4,500 cows, 18 cow hands, 19 kinds of rifles and six shooters and 115 cow ponies, Taisie makes the start with all the thrills that the start of the wagon train in Emerson Hough's "The Covered Wagon" evoked.
Through this great panorama one sees groups of ragged sneaky men, the glorious girl at their head, the exorats and the sea of long horned cattle, accomplishing one of the greatest deeds of pioneer bravery and daring.

Paramount has furnished a notable cast to visualize the story. It includes Jack Holt, Ernest Torrence, Lois Wilson and Noah Beery in featured roles. The picture opens a 2 days' run next Wednesday and Thursday, June 3 and 4 at the Princeton Theatre.

STORES WILL SUSPEND BUSINESS SATURDAY

As announced in last week's Standard stores of Chelsea will be closed for the entire day on Saturday, Decoration Day, in order that business men and employees may observe the day in memory of the nation's dead heroes. However, every opportunity will be given people to do their customary week-end shopping on Friday. Stores will remain open until late Friday night so that all may be served as is usually done on Saturday night. Urgent request is made that residents bear this in mind and remember to do their shopping Friday.

BREITENBACH-MUNRO WEDDING

The marriage vows of Miss Veronica D. Breitenbach and Dean C. Munro were pledged Saturday afternoon at 1:30 o'clock, at the First Methodist Episcopal church parsonage, in Jackson.

Rev. Frederick Spence, read the service with Mr. and Mrs. Henry Wolfe serving as attendants. Mrs. Wolfe is a sister of the bride.

After an auto trip in the East, Mr. and Mrs. Munro will be at home to their friends at the Maryland apartments, 325 West Washington avenue, after June 15.

The bride is a sister of Mrs. A. L. Steger and is well known by many residents of this vicinity.

SHOULD FARMERS BELONG TO COW TESTING ASS'N?

A member of the Chelsea-Manchester Cow Testing Association has given out the following report for his herd of eleven cows from May 24, 1924, to May 24, 1925. Cow No. 1, feed cost per pound butter fat, 22c, feed cost per 100 pounds milk, \$1.32; cow No. 2, 22c and \$1.42; cow No. 3, 17c and 78c; cow No. 4, 23c and \$1.32; cow No. 5, 25c and 98c; cow No. 6, 16c and 88c; cow No. 7, 22c and \$1.30; cow No. 8, 21c and \$1.39; cow No. 9, 16c and 89c; cow No. 10, 20c and 95c; cow No. 11, 17c and 80c. Does it pay this man to belong to the Association, knowing just what his cows are doing? Many farmers are working in the dark, not knowing just what their herds are doing, which cows are making or losing money for them.

100 MILE AUTO RACE IN DETROIT ON JUNE 7TH

The big 100 mile auto race on the state fair grounds track, Detroit, on Sunday afternoon, June 7, looms as the greatest dirt track auto race battle that this country has ever known. The entries that have been received so far bear this out. Champions and championship aspirants have named their cars, a number of the pilots who will be in the big 500 mile Memorial day race are headed for the grind on the mile state fair speedway. Eleven different states have sent the names of their favorite sons. When the entry list was checked back early this week there were 28 cars named to go to the post for the trials and this number will likely be increased to 50 or more when entries close at midnight Friday, June 5. One of the most famous of the drivers in is Ralph Ormsby of Indianapolis national dirt track champion who last Sunday established a world's record for 15 miles. His car has repeatedly traveled at from 120 to 140 miles an hour. The management of the state fair is preparing to care for a crowd of 50,000 people. Next to the Indianapolis International speed battle the gas-jamboree set for June 7 is the biggest racing event for American drivers, with a few foreigners mixed in that the country will have to watch this year. Elaborate preparations are being made for safeguarding spectators and drivers. The track has been oiled and the turns banked way up. From 6 o'clock on the night before the race the speedway will be under guard of a regiment of police. Huge blocks of seats have been sold in nearby cities for the speedway battle.

GOOD PROGRAM AT JACKSON FAIR GROUNDS SATURDAY

Manager Russell H. Blake of the Jackson County Fair has a rare treat and something new and original in the way of high class entertainment in store for the people of this section of Michigan for Memorial Day Saturday, May 30th. He has been able to book the famous Miami Hunt and Polo Club of Dayton, Ohio and the Greenwood Hunt and Polo Club of Springfield, Ohio, for a horse Polo Game and Horse Show. This is something that has never been shown on any Fair Grounds in the State. It is clean and entertaining for the children and the grownups and there are anticipations of a mammoth crowd. The show will start at 2 o'clock and the mammoth grandstand will allow seats for all. The admission to the show will be at popular prices. There will be 32 head of horses from the Miami Club and a few more than that number from the Springfield Club. There will be a class of lady drivers. Jackson is particularly fortunate in securing this attraction as at the same time that the Polo game is on in this city the famous Gold Hatz and the Groome Pointe teams from the aristocratic Groome Pointe section of Detroit will be furnishing

When Better Automobiles Are Built, Buick Will Build Them

No. 13

Question: Why do you find better workmanship in Buick motor cars?

Answer: Buick's precision methods are possible because of Buick's great volume. It would be impossible to put such fine workmanship into Buick cars for their price if Buick built but a few thousand cars a year.

TO INVESTIGATE ST. PAUL

Some weeks ago this newspaper noted the perturbation prevailing in the West where the people bought heavily of the stock of the Chicago, Milwaukee & St. Paul railroad, then a prosperous, dividend-paying property, converted in a very few years into a bankrupt. It had an odor that indicated the cause of the sad prince of Denmark turning up his nose and making that famous remark for which he is noted. We said then that an investigation ought to be made and probably would be made. There were denials even by the members of the Interstate Commerce Commission that such investigation would be made. Now comes this same authority and says it will investigate. If the investigation is not thorough, it is more than likely that the United States Congress will investigate very thoroughly. The Chicago, Milwaukee & St. Paul has much mileage in Senator La Follette's bailiwick, and thousands of his constituents have been stung by the bankruptcy proceedings. Senator La Follette does look out for the interests of his constituents.

TABOO LOANS ABROAD

It seems definitely settled that President Coolidge, after hearing from the country on the suggestion that he might taboo foreign loans to countries not making satisfactory arrangements to fund their debts to this country, and to such nations as show any indication of belligerency. This was reported to be the probable policy of the administration, not only as to loans from our government, but also as applying to private loans from this country. They will be those, as a matter of course, who will say that the president has no right to stop private loans to European countries, whenever private parties or bankers wish to make such loans. Perhaps he may not have the direct right to do so, but he has a powerful weapon—the Federal Reserve Banks. The president can undoubtedly dictate a policy for the banks which would bar their use and aid to such persons, banks or interests as might persist in foreign loans when the administration had let it be known that no further loans were to be made to those nations. Nobody doubts that the President would use that weapon if it should be necessary to preserve the cash balances and credits of this country.

ON THEIR HONEYMOON

David Merriweather Milton and Miss Abby Rockefeller, daughter of John D. Rockefeller, Jr., married last week, stayed over night at the Pennsylvania Hotel, and made their getaway on the French liner Paris, with the reporters locating them until they got to the steamer. Miss Rockefeller, reputed to be the richest bride in the world, may be a little more of a news story than a plain, everyday furbelows or any great fortune. But, even so, why isn't she entitled to a little privacy and freedom from reportorial spying, the same as any ordinary American citizen? Will the metropolitan press ever learn that it is men and women that marry—not dollars and cents?

KING SHAKES HANDS

The British are getting some of our bad habits. King George shook hands with a few of his subjects at the Wembley exhibition on Saturday night. Perhaps one of the worst things we do is to gather in mobs at Washington, form a line, pass by the president and shake his hand for two or three hours at a stretch, doing ourselves no good and our chief executive a great deal of harm. So far the dignity of kings has been sufficient to protect him from this very tiresome, very unnecessary and very unsanitary habit. Let us hope that King George will not go on a hand-shaking jamboree.

RETURNS FROM EUROPE

Thomas W. Lamont of the house of J. P. Morgan & Co., has returned from Europe, where he has been in the interest of his house, looking over the situation as to the solvency of European countries as well as European business. Mr. Lamont reports conditions in Europe much improved, and that Italy and France are working and saving, with a prospect of national recrudescence in the near future.

STUDY INFANT MORTALITY

Twenty-three thousand cases of infant mortality, reported in eight cities, studied by Dr. Robert Morse Woodbury, formerly Director of Statistical Research for the Children's Bureau, shows that the income of the father of children has much to do with the mortality figures. Where the mother is undernourished, the child is weakly and more susceptible to diseases that take away many of the babies of our country.

A movement is on foot not only to pension mothers of babies, whose fathers have too little income to properly care for the mother of the child, and may extend further, to extend at least, the attendance of a physician on the mother, and medical attention for the child, at public expense. It would be a great benefit to the American family of the class that has small incomes, or where men are out of work a good part of the time. If we are to undertake other lines of welfare work on a large scale, as we have done, this line of endeavor should commend itself to those who have large fortunes or incomes, and wish to do something really beneficial for the race.

NEW CRIMINAL CODE

The American Law Institute, of which Dr. William Draper Lewis, former dean of the University of Pennsylvania Law School is director, and such distinguished lawyers as Elihu Root, John W. Davis, Henry L. Stimson and others are on the executive committee, will begin at once drafting a new code of criminal procedure. This will be submitted to the legislatures of the several states, and strenuous efforts made for its adoption. It will take three years to prepare the draft. It will be paid for out of funds of the Laura Speller Rockefeller Memorial. \$20,000 a year for three years has been appropriated for the work, and some of the best legal talent of the country has volunteered service without pay.

TO DRY WET CITIES?

The federal government announces that a drive is to be made to dry up some of the big wet cities, such as New York, Philadelphia and Baltimore. Why is it necessary to advertise the drive? It looks like an effort to put interested persons on notice, so that the monied interests backing bootleggers can get from under before the drive starts. There is too much publicity in this wet and dry campaign. The government never advertises the fact that it hunts for counterfeiters, smugglers or any others who are constantly breaking the laws of the land. We view this campaign with considerable doubt and suspicion.

PROPAGANDISTS HERE

New York City seems to be overrun with propagandists, near propagandists and would-be propagandists. A man named Fuller says he is raising money and preparing to seat Grand Duke Cyril on the Russian throne. V. Blasco Ibanez, prominent writer is trying to have the king of Spain dethroned. And so it goes all up and down the world, somebody is in New York City trying to enthrone or dethrone somebody in practically every country. Isn't it about time we forcibly put a stop to this sort of thing?

SUGAR PRICES DOWN

The producers of raw and refined sugar are said to be studying for a reason why sugar is on the slump. When the crop of sugar was reported to be short two years ago, the refiners put the price up, and declared the cause was the shortage of the supply. Now there is an overproduction, and these same gentlemen profess to be in ignorance of the reason why sugar declines in price. All commodities not controlled by trusts or trade agreements are controlled by supply and demand. Why shouldn't sugar be so controlled?

WOMEN AFTER SEATS

Charging that the pledges repeatedly made to them to pass legislation asked for by the women of the state, the New Jersey Woman's Republican Club in session at Atlantic City, passed a resolution that the club would work for the election of at least one woman member of the assembly from every county in the state. That will make machine politicians in Jersey sit up and take notice, if it accomplishes nothing else.

ANOTHER LEAGUE FIGHT

Our American representatives at the Arms Conference at Geneva was forced into a fight last Saturday, on the question of the rights of America to take part in any conference pertaining to or fostered by the League of Nations, as America is not in the League, and does not recognize it as having any power or control over this country. Theodore E. Burton gave an emphatic "no" to the query as to whether or not America would become a member of, or co-operator with the League in order to make effective decrees of the league on arms and munitions.

Progress of the Race

Time changes. The man who had an ax to grind now has a valve. —St. Joseph News-Press.

DIVORCE PLOTS

At the instigation of Charles P. Sisson, attorney general of Rhode Island, Leonard W. Horton, a Master in Chancery and Francis P. Dougherty, an attorney, were arrested on the charge of conspiracy to obtain divorces. The Rhode Island Attorney General is to be commended for his action. The divorce in this country is bad enough without having a combination of lawyers conspiring to create more "divorce business."

SEEKS AMERICAN MONEY

The Dominion of Canada which has always looked to England for the financing it needed, has now turned to the United States. It seeks to secure here the financial aid formerly coming from London. It is getting enormous sums for expansion of Canadian trade, and ultimately will become more intimately associated with the United States than with the mother country. Financial ties are very often stronger than family ties.

Dated May 18, 1926.
JOHN B. COLE,
Assessor.

A very pleasant event took place on Tuesday of last week at the home of Mr. and Mrs. W. G. Lufck of Lima. Eleven little girls, Irene Seitz, Lellia Seitz, Joy Dancer, Olive Burkhardt, Ella Ross Kimbell, Clara Toney, Ruth and Esther Gross, of Lima, and Margaret and Dorothy Gellinas of Ann Arbor, were entertained. The event was in honor of the 13th anniversary of the birth of their daughter, Grace. A lunch was served and the little girl in whose honor the party was given received a number of handsome presents. The occasion was a very pleasant one for all who were present.

BREVITIES.

Clinton—The merchants of this village will close their stores at nine o'clock in the forenoon and remain closed until seven o'clock in the evening on Decoration Day.

Manchester—As Memorial Day occurs on Saturday this year, the banks will be closed. The postoffice will be closed after the morning mail is distributed. The business places will be closed, too.—Enterprise.

Howell—The sheriff of Livingston county sends out notice that all operators of motor vehicles who from now on violate the state law will be prosecuted to the full extent of the law.

Dexter—Memorial Day will be observed by the people of Dexter and vicinity Saturday, May 30, and exercises will be held in the opera house at the usual hour in the afternoon.—Leader.

Pinckney—In continuing Pinckney high school on the university list the state authorities suggested some improvements to the school building among which is a new system of toilets. The school board has decided to install an electric water system in the school to replace the present one that has never given good satisfaction.—Dispatch.

Jackson—There will be no Sunday dancing at resort hotels located in Columbia township, according to the decision of the township board, which defeated a petition to allow Sunday dancing. In case this action stags, dancing at lakes such as Clark Lake, which has featured Sunday dancing for the past two years, will no longer be allowed.—News.

Ypsilanti—Fred Warner, who has been gate-keeper at the M. C. Railroad crossing at Cross street for several years, died Wednesday in the University of Michigan hospital, Ann Arbor. Being ill he went to a local physician Saturday, and was advised to go to the hospital at once. His sister and other relatives here not knowing of his whereabouts, reported him missing to the police. News of his death came Thursday.

Stockbridge—A bad auto accident occurred about 5 o'clock last Saturday evening on East Main street. Mrs. Susie Artz, driving a Ford touring car, drove out of the side street and was struck by a Ford coupe driven by Mr. Odell of Jackson. The Artz car had one wheel broken and a fender smashed, while the coupe was completely demolished. Mrs. Artz escaped injury but Mr. Odell was severely cut by broken glass.—Brief-Sun.

Milan—Burglars were found in the store of the Milan Auto Supply owned by Ralph Robinson early Monday morning. Entrance had been gained through a side window over the desk. The window panes were removed from the outside and the beaver board partition which had been covering the window, had been cut away. When the robbers were discovered several hundred dollars worth of tires and accessories had been piled in the rear of the building, preparatory to hauling them away.—Leader.

Fowlerville—The Brighton Argus started something when it claimed more lakes within five miles of that village than any other place in the state, and Norman Reason in the Pinckney Dispatch claims Pinckney has Brighton beat to a frazzle and names 66 lakes within five miles of Pinckney. There is only one way to settle the dispute and the Review will act as a referee, the disputants to bring a fish caught in each lake and the greatest number of fish brought to this office shall be awarded the banner.—Review.

Brooklyn—While some of the boys are making hard work of plowing and fitting long tilled fields this spring, Solomon Gilboe, 82 years of age, has been clearing a field of recently cut-over land, grubbing, plowing and fitting it. Everybody who passes his place three miles southwest of town says it is the stickiest job of new ground fitting they have ever seen. Mr. Gilboe first used pyratol in blowing out the biggest stumps, but everybody knows that there are plenty of roots left. Most of these he has taken out with an ax while plowing.—Exponent.

Brighton—The Argus contained an article last fall about the sinkhole near the Charles Risch farm in Genoa, and predicted that the pavement would settle out of shape. It did, as all who have traveled the road well know. The north side of the highway settled badly. The past week the highway department has been raising the pavement back to its level. The work was done with a series of jacks placed beneath the concrete and worked in unison. Concrete is then tamped beneath. The pavement in the north part of this village along the crossway, also settled considerably and will be similarly treated, we understand.—Argus.

Broke at 60

Statistics show that 90 per cent of the men, at the age of 60, are broke—because they did not save.

Here is what you can do by saving one-fifth of your pay.

In 20 years you can support yourself for 8 years without working—

In 25 years—11 years without working—

In 30 years—15 years without working, —and live as you are now living.

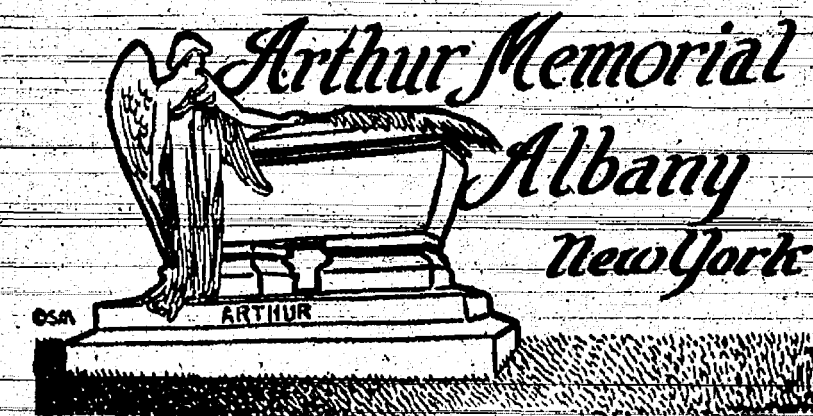

Is not that worth the effort?

The time to start is on your next pay-day.

You will never, never regret it.

Family Portraits

"Sweet is the smile of home; the mutual look,
When hearts are of each other sure."

—Kebler.

It will be too late in the years to come to have the family group photographed as they are today.

With sonny a man—sister a woman, you'll have nothing but memories of how they looked as children. Time waits for no one.

Make an appointment and let us photograph that "Family Group" now.

With our modern photographic method of lighting, a sitting only takes a few moments. You'll thank us in later years for this reminder.

Remember to have the "Family Group" taken now while you are all together.

LOVELY GIFTS

FOR THE
GRADUATE
AND THE
BRIDE

"Joys too exquisite to last,
And yet MORE exquisite when past!"

JUNE, the glorious month of Roses. Graduates, Brides. As the poet writes—it again brings joys too exquisite to last yet they seem so much MORE exquisite when past.

The Bride and the Graduate, more than anyone else, realize those joys as they spend the happy hours preparing for that "eventful June Day" which is to mean so much in their lives. And, very true, in later years that "day of days" does bring back "exquisitely" happy memories.

Some charming Gift of Jewelry will win the happy thanks of the Graduate or Bride. Indeed, no matter what you select in our line, it'll be a Gift that Lasts. Something she'll cherish for many years to come.

It makes little difference what you want to spend on the Gift, we have some suggestion here to fit your purse.

The Bride you might give—

Influenza Ancient Enemy
Influenza has been known almost as long as man has been known. The word itself is derived from the ancient astrologers, who believed it to be caused by the "influence" of the stars. The disease has been unmistakably traced back to 1630. It was then prevalent in eastern Germany and was known, curiously enough, as sleeping sickness. It appeared again in the eighteenth century, when epidemics of it were frequent and prolonged in most European countries. Among the famous people of long ago who suffered from it were Sir Isaac Newton, Goethe and Schiller. The great philosopher, Kant, was attacked by it, and he believed it was caused by noxious insects brought to western Europe as a result of trade with Russia.

MEMORIAL DAY PROCLAMATION

(By the Governor)

The march of the Grand Army of the Republic is nearly over. The vast and sturdy ranks of a generation ago have dwindled to a hazy line of aged but exalted veterans. Time was when men from their own ranks decorated the graves of comrades and glorified the deeds of living warriors. This duty has now fallen upon the citizens of a grateful republic. Once each year as long as this, the happiest, mightiest and most righteous of all nations endures, we will be called upon to honor not only the valor of veterans of the Civil war, but to pay homage to soldiers of all other conflicts of the nation. In peace with all the world, our tribute to the honored dead and the surviving veterans who made our happiness possible should this year be more impressive than ever before.

Therefore, I, Alex. J. Groesbeck, as Governor of Michigan, proclaim and urge a proper observance of Saturday, May 30, 1925, as Memorial Day.

Given under my hand and the Great Seal of the State this thirteenth day of May, in the year of our Lord one thousand nine hundred and twenty-five, and of the Commonwealth the eighty-ninth.

Alex. J. Groesbeck, Governor.

By the Governor:
Charles J. DeLand, Secretary of State.

Hate and Love
"When I hate, I take something from myself. When I love, I become richer by what I love. To pardon is to recover a property that has been lost. Misanthropy is a protracted suicide. Evilness is the supreme poverty of a created being." Schiller.

MEAT AND ICE

What has your butcher taught you about meat protection?

You have seen him promptly return a side of meat to the ice box after filling an order. You like to buy meat from a shop where such care is taken but have you ever analyzed the reason why? The butcher knows that ice has protected the meat in the packing plant, in the refrigerator car during shipment, in the warehouse, and finally he knows that he must continue this protection in his own shop if he is to satisfy your wishes for fresh, tender, flavory meat.

He knows, too, that the moist surface of the meat makes a good lodging place for dust and germs which are always present in the store and outside air, so he guards your health by keeping the meat as much as possible in the ice box where the air is washed and purified by coming in direct contact with the ice. The melting ice absorbs the impurities and they pass out of the box with the water, leaving the air in the best possible condition for meat protection.

Meat comes to your home fresh and with full flavor because it has been protected by ice. Surely it is the best kind of common sense to continue this protection, regardless of the season of the year. If it is good practice in the butcher shop, it is good practice in your home. The use of ice all the year prevents spoiled foods—gives you finer flavored foods—and protects your health.

ORDER FOR PUBLICATION

STATE OF MICHIGAN
In the Circuit Court for the County of Washtenaw, In Chancery.

Frank A. Deihl and Ida Deihl, Plaintiffs,

vs.

Jacob A. Polhemus, Henry Rumsey, James W. Brown, Clayton Gaskill, Moses Rogers, James Brown, Mary I. Webster, Mary J. Webster, Sarah Ann Vandewalker and their and each of their heirs, devisees, legatees and assigns.

Defendants.

At a session of said Court, held at the Court House in the City of Ann Arbor, on this 25th day of April, A. D. 1925.

Present: Hon. George W. Sample, Circuit Judge.

In this cause, it appearing by the bill of complaint duly verified, presented and filed and to the satisfaction of the Court that Jacob A. Polhemus, Henry Rumsey, James W. Brown, Clayton Gaskill, Moses Rogers, James Brown, Mary I. Webster, Mary J. Webster, Sarah Ann Vandewalker and their and each of their unknown heirs, devisees, legatees and assigns, are necessary and proper parties to the above entitled cause and are interested in the subject matter involved therein and whose names appear in the office of the Register of Deeds for the County of Washtenaw as having at some time claimed a right, title, interest or estate in the subject matter of said cause, or some portion of it, or as having a lien or charge thereon without having conveyed or released the same, and who might at any time under the provisions of record claim or attempt to claim or be entitled to claim benefits thereunder, and it further appearing to the satisfaction of the Court that said above named parties are dead or their whereabouts unknown to the said plaintiffs, and after diligent search and inquiry have been unable to ascertain the same or where any of them or their heirs reside or whether such interest as they may or might have therein have been disposed of by will or otherwise, and that such defendants cannot personally be served with process, therefore, on motion of Louis E. Burke, attorney for said plaintiffs, it is ORDERED that the appearance of said defendants and each and all of them be entered in this cause within three months from the date of this order, and that in case of their appearance they cause their answer to the bill of complaint to be filed and a copy thereof served on the plaintiffs within fifteen days after service upon them or their attorneys for a copy of said bill of complaint, and that in default thereof said bill be taken as confessed by each of said defendants, and it is further ORDERED that said plaintiffs cause a copy of this order to be published in the Chelsea Standard, within forty days from this date, a newspaper printed and circulated in said County of Washtenaw, and in each of said successive weeks, or that said plaintiffs cause a copy of this order to be personally served upon said defendants and upon each of them at least twenty days before the time prescribed for their appearance.

TONIGHT—on a wind-swept hill-top far to the north—stands a silent gray sentinel.

Alone—save for the hovering spirit of the long-gone Indian who roved these hills and who, too, kept a tireless vigil through the night.

Then—the copper-hued sentinel, faithful in a deathless loyalty to those who rested in security in their hill-side camp.

Now—this great gray sentinel, faithful to the trust of thousands in far-flung Michigan cities and towns. Away into the darkness—reaches the sentinel line; off through the haze to either side, his gray mates loom. In their steady grip a great copper cordon—holding back darkness and desolation.

For these are the TOWERS—the Sentinels of Service! Night and day, the Tower Line stands its ground against storm and trouble—holding tight the vital copper lines reaching from the swift Manistee down into central and southern Michigan, across to the east, and far north—again on the other side of the state to the rushing Au Sable. Within the sentinel lines 800,000 people in 170 cities and towns, are depending on Consumers Power Service.

Not cold steel are these sentinels—but living, vibrant guardians of your comfort. With a fierce tenacity, they fight back storms—so that through their copper veins may throb the energy that brings men work in factories, and light and help to homes. Back of them, day and night, loyal men on duty—to patrol and protect.

So some night—look down the gray line into the haze. Your sentinels are on duty for you—that the peace-word may always be—"All's Well!"

Act Passed 190 Times

Each year for 100 years, from 1880 to 1870, the British parliament passed the "Mutility Act," which provided for the punishment of crimes of mutility and desecration, and for the proper upkeep of a standing army.

Odd Lightning Facts

Photography reveals many things about lightning. One is that a great many flashes are multiple, consisting of several discharges in rapid succession along the same path, says Nature Magazine. These flashes are studied by means of a camera mounted on a vertical axis and turned from side to side by clockwork. The pictures are taken at night, the shutter being left open until a flash occurs.

Confidence Won for Him

A young man once applied for a position of considerable responsibility. The employer told him that he was too young and half-jokingly suggested that he call again five years later. "Five years from now," said the young fellow, "I shan't want this job; I shall have a much better one." The words and the quiet confidence with which they were spoken so impressed the employer that a few days later he sent for the youngster and gave him the place, in which he "made good."—Youth's Companion.

 FAIR NOTES

Penalty of Selfishness

The selfish man suffers more from his selfishness than he from whom that selfishness withholds some important benefit.—Emerson.

Hangar Made into Church

Situated in the English village of Craxwell, the royal-art force center, is a church—formerly a hangar—of which the font is an old aero engine and other fittings from disused airplanes.

"Flabbiness of Spirit"

I call flabbiness of spirit this wantiness to the least reprimand, this discouragement which follows, this demand for consideration, this want of constant rewards for doing the least bit of your duty; this desire to be at your ease without having it cost anything; this chagrin when you find it hard to correct yourself—I believe, my dear child, that there you have, in part, at least, what constitutes flabbiness of spirit.—Mme. de Maintenon.

Hot Water

The Whole Day Through

ONLY the woman in the home knows how many daily uses there are for hot water. Almost hourly it is needed. Does your present system of water heating give you all the hot water you need, all the day through, or do you have to stop and wait for "the tank to heat up?"

GAS Water Heaters

Storage System

As you draw off the hot water, the storage tank is refilled automatically so that there's always hot water on tap, ready for use. Nothing to turn on or off, yet no gas is wasted. Ask us about this better system.

Have installations made NOW at housecleaning time, when you need hot water more than ever.

CHURCH CIRCLES

CONGREGATIONAL
E. L. Sutherland, Minister.
Hours of worship, 10 a. m. Church school at 11:15. No evening service. The theme, "The Center of Christianity."

Believing that every person needs variety in life, that monotony is killing, that Sunday should be "different," that a spiritual tonic on Sunday makes the work of the other days more effective, that the moral teachings of the church are a help and an inspiration to right living, that a town without churches is no place to live, that it takes people to make a church; I, therefore, am pleased to invite you to our church, or some church of your choice. You will find a hearty welcome at any of them. Come, make some church your home. Bring your children to some church for religious instruction.

METHODIST EPISCOPAL
Rev. C. S. Risley, pastor.

A large congregation paid tribute to our soldiers, both living and dead, on last Sunday. Rev. Grabowski, of St. Paul's church gave us a very appropriate and appreciative address. The union choir rendered two very fine selections. It was a very fine service throughout. Our theme for Sunday will be "The Leprosy of Unreality." Whitsunday or Pentecost Sunday has just past. Our purpose Sunday is to say something in reference to this great day. There is something in this theme that every Christian should hear. Sunday evening, "David Jesse" will be our character study. Our Sunday school and League at the usual hours. Good work is being done in these departments.

We extend a cordial invitation to all—not worshipping elsewhere—to join with us.

ST. MARY CHURCH

Rev. Fr. T. J. Fallon, pastor.
Low Mass at 8 a. m.
High Mass at 10 a. m.
Baptism at 11 a. m.
Mass on week days at 8 a. m.

ST. PAUL'S CHURCH

P. H. Grabowski, Pastor.
The services at St. Paul's next Sunday will be conducted in the German language. This is to make up for the German service that we lost last Sunday morning on account of the Memorial service. As a special attraction we will have with us "Sister Maria Hamm." Sister Maria is one of our Deaconesses at Dorlisheim near Strasbourg, and has promised to tell us of the conditions that face our Evangelical hospitals and orphanages in Germany today. To all that are interested we extend a hearty invitation to come and hear her. Her talk without a doubt will be a most interesting one. Service will commence at 10:00 o'clock. Sunday school as usual, 11:15.

SALEM METHODIST EPISCOPAL CHURCH
Near Francisco, Mich.
Fred J. Schweinfurth, Pastor.
SPECIAL FOR SUNDAY MORNING, MAY 31.

This Sunday morning, May 31, we will unite with the Waterloo patriotic meeting beginning about 10:30. Therefore please make that YOUR service.

We have regular meeting at night.

ANNOUNCEMENTS

Regular meeting Olive Chapter, Wednesday evening, June 3rd.
Attention, members of the Fellowship club of M. E. church. The last meeting of the season Tuesday evening. There will be special music, also speakers. A fine program is in preparation for this occasion. Be sure and come. Menu committee—E. P. Steiner, T. Bahnmiller, Henry Musbach, P. M. Broesamle, I. Weiss. Table committee—E. Benton's Sunday school class.

Trees With Latin Names

Latin has always been the language of scholars. It is now a dead language and consequently not being subject to change is helpful in giving to trees accurate names that can be used in all parts of the world, regardless of the language spoken locally. The Romans called the oak Quercus. We still use this word as the first part of the scientific name. Our native white oak is known by the scientific name—Quercus alba. The word "alba" is appropriate, for it means white, and refers to the white bark. The red oak is known by the scientific name Quercus rubra. The word "rubra" is also appropriate, for it means red and describes the distinctive feature of the tree.—Joseph S. Illick, in Tree Habits.

Freak Sculpture

A sculptor, using old newspapers soaked in liquid paste for his clay, molded a large ornamental urn. Almost all the work was done without the aid of tools.

Elephants of "Commerce"

It is the Asiatic, or Indian, elephant that is tamed and trained. While there seems to be no reason that the African elephant could not be trained, it has not been.

Grass Lake—Marcus Preston has a barn raising on his farm last Saturday. His barn burned on the place a year ago. Mr. Howard Clark of Manchester is building this barn and it will be 38x60 with gambrel roof and basement.—News.
