COW TESTING ASSOCIATION ENTERTAINED BY KIWANIS

More Than Eighty Men Hear Prof. O. E. Reed, of East Lansing, Discuss Problems of Dairyman and Farmers.

Dairy cows owned and tested by members of cow testing associations in the state of Michigan are averaging 280 pounds of butter fat per year while the average estimated for cows outside these associations is approximately 160 pounds of butter fat per year, according to statements made by Prof. O. E. Reed, head of the dairy department of Michigan State College, East Lansing, in an address before the local Kiwanis club and the Chelsea-Washtenaw Cow Testing Association, the latter being guests of the Kiwanian organization in the basement of the Methodist church, ladies of the church serving the supper. More than eighty men were in the audience which heard Professor Reed discuss dairying, dairy products and cattle from the scientific viewpoint. Mr. Reed has spent twenty-five years studying the possibilities and development of the dairy and from this wide experience he drew a series of illustrations and facts which convincingly proved the efficiency of the cow testing associations and their payment in dollars and cents.

Importation of Denmark butter has and will play an important part in the production and price of butter in this country, according to Mr. Reed, who stated that Michigan imported 6,000,000 more pounds of butter than she produced per year. New Zealand also is coming to the front in butter exports, according to the speaker, who stated that it was mainly through the efforts of cow testing associations and efficiency of production that these countries are able to produce butter in such quantities and at such a price as to underbid American markets despite a protective tariff of 12 cents per pound.

Referring to the fact that Michigan alone imports 6,000,000 pounds of butter each year to supply the demand, the speaker emphasized his belief that the dairy industry was on a safer foundation and had a greater future than any of the farm products. There can be no over-production of this commodity for at least another twenty-five years in the opinion of Prof. Reed.

Michigan ranks third in the production of butter in the United States, running a close second to Wisconsin, the speaker stated. However, tests made by the 108 cow testing associations in this state show a higher average than those of Wisconsin where the average is 271 pounds of butter fat per year. Expressing a pardonable pride in the record made the speaker referred to Michigan as having Wisconsin "on the run" when it comes to high test records of cow testing associations.

Prof. Reed also urged a continuation of membership in the association, stating that testing one year and failure to test the next does not reveal the true worth of a cow. That some dairymen might feel they could not afford to belong to the association was brought out by the speaker but he continued by saying that any farmer engaged in the business of dairying could not afford to stay out.

Records of herd sire's ancestors are just as important as are those of the cows in the opinion of Mr. Reed, and he explained in detail the demand being made for, not only pure bred stock, but stock having long records of milk production back of them.

Lastly, the speaker stressed the importance of calf and pig club work. Here, he said, was one of the real opportunities to create in the young folks an interest which would keep them on the farm. And an attendance, if possible, at Michigan State College where agricultural courses may be pursued was encouraged by the professor.

Other short talks were given by Fred Notten, president of the local Cow Testing Association and H. S. Osler, county agent.

Rounding out the evening's program of addresses and fun-making the Playmakers, male quartet of Jackson, entertained with two groups of popular selections which met with hearty approval.

MUCH INTEREST TAKEN IN CORN BORER EXHIBITS

Lobbies of Both Local Banks Attract Much Attention as Effects of Borer are Shown in Photographs and Corn Stalks.

Bringing forcibly to mind the destructive effects of the European Corn Borer on corn crops in infested areas, displays in the lobbies of the Kempf Commercial and Savings Bank and Farmers & Merchants Bank, Chelsea, were creating considerable interest in this much feared pest which has been making inroads south and west from the Canadian border for several years. Already practically all of the New England states and parts of the Middle West and Ohio are under quarantine and in Michigan the quarantined area includes the counties of Monroe, Wayne, Lapeer, Washtenaw, Macomb, Oakland, Livingston, St. Clair, Lapeer, Genesee, Sanilac, Tuscola and Huron, besides parts of Saginaw, Bay and Jackson counties.

Illustrations in photographs which have been secured from infested areas show the progress made by the borer from the time it enters the corn stalk near the roots and makes its way clear through to the tassel, including on the way ears and leaves. Wilting of the stalk, breaking over of the ears and general destruction follow with the result that an entire corn crop is practically destroyed and worthless.

Bulletins covering the quarantine and remedies to be applied are available at either bank and it is hoped farmers and others interested will take advantage of this opportunity. The displays will be public until Saturday night. On Monday they will be shipped to other communities for further showing.

BASEBALL LEAGUE STARTS SEASON'S PLAY TONIGHT

Six Teams Will Compete Chelsea Playground League; Wilkinson's Field Rented For Summer Season.

With six teams signed up for entry in the Chelsea Playground League, baseball, America's favorite sport, will be featured in a schedule which includes forty-five games to be played during the next three months. Each team is scheduled to play fifteen games, one game a week, and Monday, Tuesday and Thursday evenings have been set aside for the contests which start this evening at 8:45 when the I. O. O. F. and Kiwanis teams furnish the opener.

There will be no charge for admission to the games and the public is urged to attend. While it is not expected there will be much "big league" material developed, still there is every indication that keen rivalry will feature all of the games and a pleasant pastime furnished for long summer evenings when outdoor recreation is possible.

Included in the league are the I. O. O. F., Masons, Catholic Recreation Club, K. of P., Carry On Class of the Methodist church, and Kiwanis teams. Rooters for each team are urged to develop exceptional lung power during the period of play by yelling for their respective teams.

At a meeting on Monday evening the general committee, which includes representatives of each organization represented, rules and regulations which will govern conduct of the league were drawn and read as follows:

First: All league games shall start at 8:45 p. m.

Second: No one man shall have the privilege of playing on more than one team throughout the season.

Third: The size of the ball shall be determined by the general committee.

Fourth: Each team shall have a manager and captain. While the game is in play the captain shall be the only person having the authority to offer protests of any kind.

Fifth: Any team shall forfeit their game if not appearing on the field by 7 p. m. on scheduled dates. In case of non-agreeable weather the game shall be postponed until the following Friday night.

Sixth: All rules and regulations exclusive of those prepared by the appointed committee shall be governed by the official rule book.

Seventh: Each team shall consist of nine regular men, and as many substitutes as each team may desire.

Eighth: It shall be the duty of the regular committee to purchase all the balls above described in these rules and regulations.

Ninth: The catcher in these games shall have the privilege of using a glove, mask and protector. The pitcher is privileged to deliver the ball as he may see fit.

BISHOP THOMAS NICHOLSON DELIVERS STRONG ADDRESS

Head of Detroit Area of Methodist Church Declares Church's Efficiency Being Recognized in World's Activities.

Delivering a strong address in which he stressed the church's increasing responsibility to the business, social and spiritual world, Bishop Thomas Nicholson, of the Detroit area of the Methodist Episcopal church, on last Thursday evening held the undivided attention of a capacity audience in the basement of the local Methodist church while he treated his subject from various points of view. In support of his declaration that the church is being recognized by political and commercial organizations as the one possible solution to problems facing the world today, Bishop Nicholson quoted from addresses of prominent statesmen such as President Coolidge and Premier Stanley Baldwin, of Great Britain, and gave illustrations from incidents happening within his own experience in Chicago, New York and Detroit, and in journeys abroad.

The bishop, who is one of the outstanding leaders in various activities both national and international, for betterment of world conditions, brought to a close an evening of intense interest and enjoyment, when almost two hundred persons met around the banquet table in honor of the occasion of the bishop's visit as well as that of other notables, made possible because of dedication of the north wing of the Old People's home in the afternoon.

A sumptuous dinner was served guests by members of the Ladies Aid society of the church, while music was furnished during the meal by Smith's orchestra. In the program that followed Rev. C. S. Risley, pastor of the local church, introduced Dr. J. E. Martin, superintendent of the Ann Arbor district, as toastmaster. He in turn introduced the various speakers, and musical numbers. Speaking in happy vein Dr. H. A. Lesson, pastor of Wesley church, Detroit, and former superintendent of the Ann Arbor district, entertained the audience for a few moments of fun and laughter, as did Rev. Harvey Pearce of Flint, formerly of Chelsea and North Lake. Vocal solos were given by Mrs. J. C. Fletcher and Mrs. A. A. Palmer.

Proceeds of the banquet will be used to assist in redecoration of the church interior.

WEISS AND WHIPPLE HAVE CARRIED MAIL 25 YEARS

Both Local Carriers Started From Chelsea Office on Same Morning Quarter Century Ago.

Twenty-five years in the employ of Uncle Sam serving the people of the same community from the same post-office and still going strong—that is the record made by two rural carriers delivering mail from the Chelsea postoffice. On Saturday, May 15, Edw. Weiss and Ed. Whipple, carriers on Routes One and Two, finished a quarter of a century in that capacity. Both Mr. Weiss and Mr. Whipple started carrying mail on the same day, twenty-five years ago, May 15, and both have been steadily employed at this job during the intervening times. A record they may well feel proud of.

In celebration of the event Mr. Weiss rolled out the old horse-drawn mail wagon, and covered part of his route with it last Saturday. Reminiscences of the old days brings to mind the fact that Wm. F. Riemenschneider was postmaster, and the postoffice was located in one of the rooms now occupied by the Trojan Laundry. The office was moved to its present location later, and two postmasters have succeeded Mr. Riemenschneider. Chaucer, Hummel serving from 1915 to 1920, and O. T. Hoover from 1920 to 1925, 1926-7. At the time Mr. Weiss and Mr. Whipple started carrying mail Mr. Weiss' route was 24 1/2 miles long. Horses were used until October, 1912 when the automobile was introduced for fair weather and good roads, the horses still traveling during the winter time and when roads were bad. Later horses were discarded altogether and of late years the automobile has replaced them the year round.

"I've got the best route and the best patrons in the United States," said Mr. Weiss when interviewed. "I've carried the mail twenty-five years and would like to carry it another twenty-five over the same route. During all this time I have never been in trouble on the route but what patrons have been quick to help me out of it." And it is this spirit of helpfulness which has created an everlasting friendship between carrier and patrons.

"gas chats"

The Milliner "does it better with Gas"

That little bit of feminine loveliness you choose for your spring hat comes in important part of its smart beauty to GAS.

If that sounds surprising, take a little trip, via imagination, to a hat factory. First you'll see rows and rows of aluminum molds, the metal for which has been melted by gas, and on these molds are felt and straw being made into all sorts of stylish and becoming shapes. The bottom section of the mold, on which the material is stretched, is heated with gas, then the top section, heated by small gas coils, fits down tightly and the pressure and gas heat do the work.

Visit next the work shop where the shapes are varnished with glue and dried in a gas fired drying room. Even the gay spring colors are made lovelier with gas, because they come out of big pots of dye heated over gas boilers. The materials are dyed, starched, and hung in a gas heated drying oven.

From your hat to your shoes, there's hardly any thing you wear for which gas is not in some measure responsible.

Editorial

"PRUNE THE PAYROLL"

Congressman Martin L. Davey of Ohio has earned the wrath of the Washington buck-passers.

Congressman Davey introduced a bill in Congress in February, having for its aim the reduction of the number of federal employees in Washington, empowering the President to reduce the number of employees and reorganize the government on much more economical lines; to reduce expenses of the operation of the Federal Government some \$500,000,000 annually.

Immediately all the buck-passers, time-killers, loafers and pay-suckers about the national capital hopped on to the frame of Congressman Davey. Labor, the organ of the railroad brotherhoods—a paper published for the purpose of keeping Congressmen in hot water if they do anything that looks to greater economy on payrolls, crawled Brother Davey's frame and said that he was not always there when the roll was called, and that he was getting \$10,000 a year from his Uncle Samuel without staying on the job—in other words, when the roll was called Mr. Davey was absent about as often as he was present.

To a man unlearned in Washington and its ways, that might look like a severe indictment, and a condemnation of the record of any Congressman—but it isn't. Calling the roll is one of the functions of the true American buck-passers. It is a political move in a strategy member wants to hold up and hinder some particular legislation, which he opposes.

Congressman Davey points out that if a Congressman spent all his time staying in his seat to answer roll calls he would render little service to his constituents. He tells of his organization to serve his district—to keep in touch with his constituency, and to keep them in touch with his office, and the government, at Washington. He shows a good record—he does not get a penny from the government, but spends out of his private funds to give service to his constituents, an amount greater than he receives in salary from the government.

That ought to silence the spokesmen of the Washington buck-passers, pay-suckers and time-killers—but it will not. These spokesmen, whether they take the cloak of attorneys or editors, are there to keep the payroll up, and put more on the payroll—not to allow any to be taken off.

This writer spent five years in Washington, in daily attendance on the House and Senate, in the capacity of a news writer. He knows that what Mr. Davey says is true—it was true long before the world war and all its train of evils, in adding parasites to the payroll—it must be worse now.

Washington is filled with hangers-on—with useless human payroll-pads, who draw millions from the public treasury, for which they give no ad-

quate return. If the taxpayers knew the truth about it, they would demand of every Congressman in America that he do something to remedy it.

President Coolidge has seemed, at times, to sense the great waste, and the wonderful opportunity for real economy, by cutting off millions of dollars in pay, that is no more than public pay to political parasites—yet the President, with all his power, has not dared to openly make a fight for this real economy, which would mean more to the American taxpayers than anything that has yet been done.

There ought to be a political upheaval—a rebellion of the taxpayers against the tax-eaters, and their slogan ought to be: "prune the payroll."

GREATER TOMORROW

Henry Ford, in telling the story of his life speaks frequently of today's opportunities, and tomorrow's greater opportunities.

There are pessimists who fear at this. They think the opportunities have all been taken up, and that the door of opportunity is closed so far as future generations are concerned.

Folly! Tomorrow will contain much greater opportunities than yesterday or today. That is proved by our growth of invention and discovery. This age possesses more millionaires than any other ever had. It is the age of invention and discovery. There has been more invention, greater discoveries and more progress in the past fifty years than in all-time back of that.

And we are still groping in darkness.

Fuel oil is a matter of years. There must be something to take the place of that. As surely as Time rolls on, there will be a better and cheaper fuel than oil. It will be made out of things we now waste or out of nothing we now know about that is as plentiful as earth, and as inexpensive as the air we breathe. This generation may live to see that.

Then there is the thing of controlling heat and cold. Somebody is going to discover a means of cheaply radiating the heat waves from the hot places of the earth and distributing them to the cold places, to make the hot places more endurable, and the cold places more comfortable. That will come in the course of Time. A means of circulating air from the equator to the poles and back again is quite as possible as the radio.

Then there are the insects that in-

fect us, that trouble us, that infect us with disease germs. Somebody is going to find a way to dispose of them—kill off all the destructive insects, and keep the beneficent ones.

Then there is the science of government. We are hardly a day in advance of semi-barbarism. Statesmen of the future are going to find better forms of government, which will do much more and cost much less. That off

will bring a school of great statesmen—open the door of opportunity to those who go in for politics and statescraft.

And you could spend the day writing, enumerating great things that will be done by future generations which will give children yet unborn opportunities we have never dreamed of.

English as Translated
In the American commerce room some amusing examples of misinterpretations are given. Thus in a Spanish speaking country "vacuum cleaners" was rendered "cleaners of emptiness," "iron washers" became "machines for washing iron" and "harrows for single-horse buggy" came out as "mess full of bugs for a bachelor harrow."—American Mutual Magazine.

MANCHESTER—They are doing considerable road work in the Irish Hills section this spring, finishing the grading on either side of the cement track, putting in cement ditches to prevent the high banks from caving when it rains, and generally improving the highway.—Enterprise.

ANN ARBOR—It takes 240 tons of coal, costing \$1,781.04, to heat the county infirmary a year. The court house at Ann Arbor consumes 167 tons of coal a year at a cost of \$1,121.80. The jail takes 54 tons, costing \$368.75 and the county road commission uses a ton and one-half, at a cost of \$22.50.

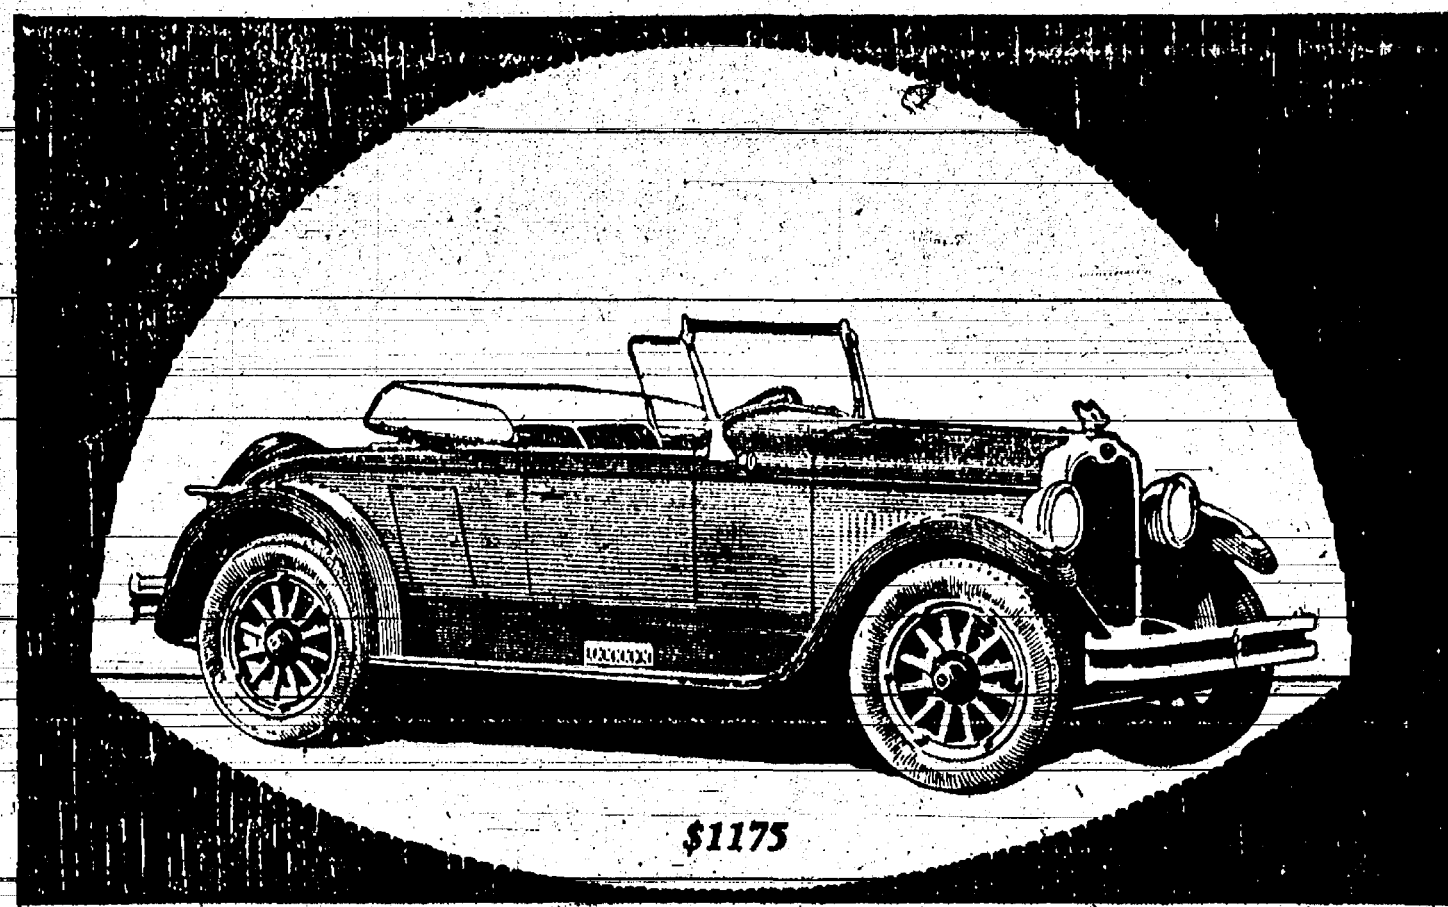

STOCKBRIDGE—The laugh is on Orville Jones. One day last week he drove J. E. Kinsey's Buick sedan, which was parked on the street, thinking it was his own car. After driving into the garage he noticed his mistake, but in backing out forgot to close one of the doors which was torn off. As this is the second time Orville has driven away the wrong car, it is suggested that he have his name painted on his car to avoid such mistakes.—Brief Sun.

EATON RAPIDS—That Eaton Rapids has in her magnetic mineral water a most wonderful asset is universally conceded. It is now proposed through the cooperation of the Chamber of Commerce to organize a company, to erect a sanitarium here preferably on the site of the old Island City Sanitarium, adjoining the Island City hotel. The success of such an enterprise seems certain and the fame of Eaton Rapids as a Sanitarium city is destined to return.—Review.

FOWLERVILLE—P. J. Lennox of Howell, ran into Milton Deyer Saturday night and took a wheel off Deyers auto on his way to Fowlerville. He was arrested by deputy sheriff Copeland and arraigned before Justice Calkins for driving while drunk and was fined \$75.00 or 30 days in jail. He had no license, but claimed he made application for a license Friday. Mr. Calkins notified the Secretary of State of what had taken place and advised his license be held back for three months. A drunken driver is certainly a menace to everything he meets on the road.—Review.

BROOKLYN—James Schermerhorn, well known speaker, and former editor of the Hudson-Gazette and the Detroit Times will be the main speaker at the Pioneer Irish Hills celebration May 30 at the Walker Tavern grounds at Cambridge Junction. Brief speeches will be made by Attorney C. H. Marr of Wyandotte and Dr. C. E. Blackmar of Jackson. The parade includes: Covered wagon, lumber outfit, Indians, trappers, celebrated characters in old vehicles, school teacher with children in old costumes, crafts and professions, old time fiddlers and many other features. It is estimated that about 200 will take part in various characters. There is a hearty cooperation on the part of nearby towns especially on the part of Brooklyn citizens.—Exponent.

SALINE—Frank Rose, who was recently placed on the retired list by the New York Central Lines, after serving the railroad at various places for the past 44 years, was born in Lyndon township, this county, in 1867, but shortly thereafter was taken to the vicinity of Eaton Rapids, where, except for a short interval, when the family returned to Wahtenaw, he lived throughout his boyhood and young manhood. He entered the service of the company in

In the Spotlight!

Each year, some one appealing motor car creation emerges from the throng of commonplace cars and wins country-wide preference.

This year, it is the dashing new Oakland Six sport roadster that occupies the spotlight. In every city and town in America, roadster enthusiasts are according the car an unexampled welcome.

They admire the beauty of its long, low, racy Fisher Body. They comment upon

its distinctive color scheme in two-tone Duco—Mount Royal Blue and El Paso Tan. They speak enthusiastically of its speed, acceleration, power and the unmatched smoothness imparted by the Harmonic Balancer. And they marvel that a roadster so fine can be offered at such a low price.

With the advent of Spring, the demand has become insistent. Ordinary wisdom suggests that you place your order now.

Oakland Six \$1025 to \$1195. Pontiac Six, comparable to Oakland Six, \$825. Coach or Coupe. All prices at factory. General Motors Time Payment Plan, hereafter the lowest, here loan made still lower.

COMMISSIONERS' NOTICE

No. 20561

State of Michigan, County of Wash-

tenaw, ss.

The undersigned having been appointed by the Probate Court for said County, Commissioners to receive, examine and adjust all claims and demands of all persons against the estate of LUCY H. PHILPS, late of said county, deceased, hereby give notice that four months from date are allowed, by order of said Probate Court, for creditors to present their claims against the estate of said deceased, and that they will meet at the Farmers & Merchants Bank, village of Chelsea in said county, on Tuesday the 20th day of July, and on Monday, the 20th day of September next, at ten o'clock A. M. of each of said days, to receive, examine and adjust said claims.

Dated May 11th, 1926.
PAUL SCAIBLE,
HOMER H. BOYD,
Commissioners.

Necessary Element

The fat meat is said to be highly digestible and to constitute an important source of energy-producing nutriment in the diet. Fats and carbohydrates in the food are the main sources of fat heat and activity in the body. Fat stored in the body is the body's principal energy reserve.

Cheese Very Much Alive

"And old story," said a well-known way freight agent wrote to a gourmet: "Dear Sir—We have now held your shipment of one Camembert cheese for three days. If same is not called for immediately, it will be shot."

Futurity

An Oxford lecturer prophesies that chemistry will create synthetic men. There should still be room, however, for the self-made variety.

Little Cochineal Used

Cochineal as a coloring is still used to some extent. Formerly it was much employed for coloring wool or silk a scarlet or crimson; but owing to the cost of its production and to the fact that the colors, although brilliant, are not very enduring, this dye has been greatly replaced by cheaper coal-tar products, and for this reason the cochineal industry has been rapidly declining.

The Newburgh Addresses

The Newburgh addresses was the name given to two anonymous letters to the American army, written from Newburgh, N. Y., by John Armstrong in 1780, reciting the grievances of the soldiers and asking for arrears of pay.

"Divine Rights"

George F. Baer was known as Divine Rights Baer because of a statement in which he is alleged to have said: "The rights and interests of the laboring man will be protected and cared for—not by the labor agitators, but by the Christian men to whom God in His infinite wisdom has given the control of the property interests of the country."

The G-Boy

Scores a Genuine Triumph

The enthusiastic welcome given the G-BOY, Graham Brothers new one-ton truck, has established this fact:

It is recognized at once as a real—a major—contribution to commercial haulage.

Revolutionary improvement in balance effected by a new system of weight distribution, compact wheel base, ease of handling, generous body capacity, advantages of the ever-dependable and always economical Dodge Brothers engine—all these important factors enter into the G-BOY'S marked success.

And then the price! So low that only Graham Brothers, the largest exclusive truck makers, with huge buying and building capacity, could possibly achieve it.

DE PALMA WILL RACE IN JACKSON NEXT SUNDAY

Jackson, Mich., May 20.—This city is ready for the coming of Ralph De Palma and the knights of the roaring road who will compete in the first sanctioned A. A. A. auto races here Sunday, May 23. De Palma arrives from Indianapolis where he is practicing for the annual 500 mile race and returns right after the race to go back on the big-buck track. Here he will drive his Miller car of 122 cubic inch piston displacement. It is the same car in which he hung up the world's dirt track marks recognized by the A. A. A. contest board. The races are also the first that have ever been held in this city under A. A. A. sanction and make the initial step in the plans of the Michigan Speedway A. A. A. to build up the racing game in this state. De Palma will be arrayed in actual races, not exhibitions, against the best drivers in this and other states. Entries closed Thursday midnight and showed a long list of cars that will compete, manned by many well known pilots. The gate admission is \$1.10 and grandstand 50 cents. There will be no charge for cars or parking and 1000 grandstand box seats are available as long as they last. Gates to the grounds will open at 9 o'clock in the morning and the races start at 3 o'clock.

The cars were being driven through to Benton Harbor.

Mrs. Bradbury's Lima Home Management Class met May 12 with Mrs. Wm. Pidd. This being the last meeting before Achievement Day, the afternoon was given to reports, changes and improvements made in the hands of members. At the close of the meeting Mrs. Leigh Beach, in behalf of the class, very cleverly presented Mrs. Bradbury with a service wagon, in appreciation of her work for the past year. A picnic supper, with ice cream furnished by the hostess, closed the afternoon.

About 35 W. R. C. ladies, their husbands and friends, gathered at the home of Mrs. Willette Richards Tuesday evening and gave her a surprise. The evening was spent in cards and music and ice cream and cake was served. Those present from away were Mr. and Mrs. Algernon Richards of Francisco, Mrs. Austin Richards of Detroit, Mrs. Carrie Scheppee of Chicago, Mrs. Emma Kalmbach and son and friend of Francisco. A very enjoyable evening was spent by all.

FRANCISCO

The school reunion at District No. 2, Sylvan, last Saturday, was attended by a large delegation of former pupils and teachers. Of the latter, ten were present, the oldest teacher being Mrs. Henry Gieske of Sylvan township, followed by Nicholas Schweinfurth of Jackson, Mrs. Mattheu Lehman of Stockbridge, Miss Josephine Hoppe of Sylvan, Mrs. Wm. Schatz of Chelsea, the rest having taught within the past twenty years. Former pupils were present from Detroit, Jackson, Mason, Stockbridge and Chelsea, and most of those living in this vicinity. An interesting program was rendered following the basket dinner, in which the pupils now attending the school did exceptionally well. Mrs. Henry Gieske gave a very complete resume of the organization and early history of the school, the date of the organization being 1849. Mrs. Gieske was followed by Mrs. Lena Kruse-McKenzie who gave a paper on the doings in the school some 35 years ago. It was voted on to make the reunion an annual event, and Mrs. Henry Gieske was elected president. Philip Riemenschneider secretary-treas. Mrs. Philip Riemenschneider and Mrs. Lizzie Beaman chairmen of the committee on refreshments. The date of the reunion is to be the third Saturday in May. Mrs. Martha Keeler of Francisco, who attended school there 20 years ago, was unable to attend.

A pretty wedding was solemnized Saturday afternoon at St. John's church, when Irving Roller of Manchester and Miss Bernadine Schoenling of Grass Lake, spoke the marriage vows. Rev. A. A. Schoen of Manchester and Rev. F. Boshm of Francisco, officiated. The church was gallily attired for the event and music was furnished by Misses Louella Waltz and Rose Asfah of Grass Lake, who sang two duets. Following the ceremony a wedding supper was served at the home of the bride.

The Francisco school held a picnic on the lawn Saturday afternoon, a week before the closing of the school, to enable Eva Lehman to be present, Miss Lehman left Sunday for Jackson where she will make her home with Mr. and Mrs. Harry Brownhike. The usual picnic dinner was served, and games and sports occupied the attention of the youngsters while the parents and guests spent the time visiting.

Thelma and Donald Waltz of Grass Lake, spent Saturday afternoon with their former schoolmates at the picnic.

Mrs. Sophie Kalmbach and son of Sylvan, accompanied by Mrs. Truman Lehman and children were Jackson visitors one day last week.

Austin Easterle of Chelsea, called on Mr. and Mrs. C. H. Plowe recently.

Mr. and Mrs. Sheldon H. Frey of Detroit, were Sunday guests at the Henry Frey home.

Oscar Schittenheim took a truck load of stock to the Detroit stock yards Monday.

Norman Davis of Grass Lake was in Francisco Monday, taking the assessment.

Arthur Frey of Ann Arbor, spent the week-end with his grandparents, Mr. and Mrs. John Helio.

Edward Willy was a Chelsea visitor, Saturday evening.

Mr. and Mrs. Truman Lehman and children visited Mr. and Mrs. Victor Moekel of Waterloo, Sunday afternoon.

Explore Your Own Middle West

Pleasure places, wonderful scenery and unusual sights are within a short distance of your home—wherever you may happen to live in the Middle West. This great, rich section of our country has been unexploited, but no part of the world offers more to see and do.

Leave dull care behind and start out tomorrow in your car to explore your own country. Time? It doesn't matter. A day, a week, or a whole summer—it will be packed with pleasure. Money? It's not important. Camp beneath the stars, stop at rustic lodges, put up at smart hotels—as you wish.

Look over this short list. Check the things you've seen, and those you'd like to:

- 1—Wyandotte Cave, Crawford County, Indiana, the second largest cavern in the country. Eleven levels and a passage-way thirteen miles long. Near Corydon on State Highway No. 16.
- 2—Redwood Falls, a magnificent spectacle, in Ramsey State Park, Minnesota. Itasca Park Highway and State Highway No. 14.
- 3—Starved Rock, visited by Marquette and Joliet in 1673, the scene of the last stand of the Illinois Indians. A few miles from Ottawa, Illinois. State Highway No. 7.
- 4—Gorge of the Mississippi in Wisconsin with castellated heights of weathered limestone bearing a fantastic resemblance to fortresses of old. State Highway No. 35.
- 5—Mark Twain State Park in Monroe County, Missouri, on beautiful bluffs overlooking Salt River, where Samuel Clemens was born. Near Paris, State Highways No. 10 and 15.
- 6—Hutchinson, Kansas—a center of the salt industry and an extensive stretch of pure rock salt which is probably the largest in the world. Highways No. 24 and No. 32.
- 7—The Kildeer Mountains, the most beautiful of the scenic spots of North Dakota. Near the town of Kildeer on the Mandan-Kildeer and Denver-Estevan Highways.
- 8—Miles of shaded shoreline along the Lake in Michigan. Shoreline Highway No. 11 and No. 22.
- 9—Spanish Canyon, with its sheer walls and tumbling waters, forty miles of exquisite beauty in South Dakota. Custer Battlefield Highway from Rapid City.
- 10—Effigy Indian mounds built in the shape of various animals. Several bird mounds that measure 150 feet from tip to tip of wing. North of McGregor, Iowa, on State Highway No. 13 and No. 19.

These are mere suggestions. Isn't the list an incentive to find out what is near you?

Motoring in the Middle West is an unalloyed pleasure. There are fine roads wherever you go—and Red Crown Gasoline all along the way.

Fill your tank with Red Crown Gasoline, get a good road map, and start out tomorrow. Rediscover your own Middle West.

CIRCUS IN ANN ARBOR ON

John Robinson's Circus, pioneer "white top" of the world, is coming to Ann Arbor for afternoon and night performances on May 26, and circus lovers of this vicinity are looking forward with great interest to the appearance in this community of this famous old show.

For the 1926 tour, the 103rd in the history of the organization, John Robinson has arranged a program that is bubbling over with features and extraordinary attractions. From the Far East, Europe, South America and practically every country and climate, performers and animals have been imported. Now as always John Robinson will give the best circus performance that money and brains can assemble.

Such noted trainers of the steel arena as Capt. Theodore, Nellie Roth, Theo. Schroeder, Ione Carle, Bert Noyes, Margaret Thompson, Carl Bruce, and Dewey Butler will send their jungle charges through remarkable routines. Another special attraction will be Carlos Carroon's contingent of Wild West Champions, including cowboys, cowgirls and a tribe of Sioux Indians from the Pine Ridge reservations in South Dakota.

Regular circus features and acts will also have prominent places in the lengthy program. The Rudy Rudynoff Family of Equestrians from Austria; the Ben Mohamed Arabs from Arabia; the Four Barron Girls from England; Senorita Piedad Morales from Mexico; Miss Rosemary Giff from Australia; Petita, Teta from Japan, and the Edgys from London are but a few of the noted acts.

Circus alleys will have a contingent of fifty famous fun makers, boys who know the art of extracting chuckles and grins from young and old. Silvers Johnson, Jack Harris, Abe Goldstein, George Harmon, the Simmons Twins, Jack Penton, Joe O'Brien, and Joe Wilde are but a few of the famous "Merry Andrews".

In order to give a complete and perfect performance, there will be no street parade.

DeGarmo, President, Directors and Company of the Farmers and Merchants Bank of Michigan, and Arden H. Ballard, and their unknown heirs, devisees, legatees and assigns, are necessary and proper parties defendant in the above entitled cause and are interested in the subject matter involved therein and whose names appear in the Office of the Register of Deeds for the County of Washtenaw as having some time claimed a right, title, interest, mortgage or estate in the subject matter of said cause, or as having a lien on

charge thereon, without having conveyed or released the same, and who might, at any time, under the provisions or legal effect of such instruments of record claim or attempt to claim benefits thereunder, and it further appearing to the satisfaction of the court that said above named parties are dead or their whereabouts unknown to plaintiffs, and after diligent search and inquiry they have been unable to ascertain the same or where any of them or their heirs reside, or whether such interest as appears of record has been disposed of in any way, and that such defendants cannot be personally served with process, therefore, IT IS ORDERED that the appearance of said defendants and each and all of them be entered in said cause within three months from the date of this order, and that in case of their appearance, they cause their answer to the bill of complaint to be filed and a copy thereof served upon the attorneys for plaintiffs within fifteen days after service upon them of a copy of the bill of complaint, and that in default thereof said bill of complaint be taken as confessed by each of said defendants, and it is further ordered that said plaintiffs cause a copy of this order to be published in the Chelsea Standard, within forty days from this date, a newspaper printed and published in said County of Washtenaw and circulated therein, once in each week for six successive weeks, or that said plaintiffs cause a copy of this order to be personally served upon said defendants and upon each of them within twenty days of the time prescribed for their appearance.

GEO. W. SAMPLE,
Circuit Judge.

Countersigned,
Claramon L. Pray, Clerk.

TAKE NOTICE: That the above entitled cause involves the title of the following described premises, situate and being in the Township of Ann Arbor, County of Washtenaw and State of Michigan, and is brought for the purpose of quieting the title to said described premises, to-wit:

CHEVROLET WILL PRODUCE 1,000,000 CARS PER YEAR

The largest expansion program in the history of Chevrolet Motor Company involving the expenditure of \$10,000,000 and increasing the company's production facilities to a peak capacity of 1,000,000 cars per year, will be inaugurated June 1, according to an announcement just made by W. S. Knudsen, President and general manager of the Chevrolet Motor Company.

Building plans have been completed, machinery ordered and by January 1, 1927, the company will be fully prepared to build 1,000,000 Chevrolet cars during the coming year.

Under the new program, company employees numbering 20,000 during full-time operation, will be increased proportionately.

Closed body production facilities will be 750,000 annually, constituting 75 per cent of the total production of Chevrolet cars.

Sixty per cent of the \$10,000,000 will be spent in installing improved machinery and equipment of the most modern type and the remainder will be expended in erecting additions to various plants of the company in the United States.

With present equipment, capable of producing 750,000 cars a year, unable to meet the demand for Chevrolet cars and reports showing the factory production greatly oversold, the building program calls for additions to seven of the company's plants located at Detroit, Flint and Bay City, Michigan; Toledo and Cincinnati, Ohio; Janesville, Wis., and St. Louis, Mo.

The additions will provide greatly increased facilities at the forge, gear and axle plants at Detroit, to the motor plant at Flint, the small parts plant at Bay City and the transmission plant at Toledo.

Expansion of the Fisher Body plants at Flint, Janesville and St. Louis will meet the augmented demand for closed bodies.

"Facilities for building the Chevrolet car will be equal to those for producing the finest high-grade automobile made in this country, regardless of price," said Mr. Knudsen.

"The expansion is being made in line with the Chevrolet Motor company's closely followed policy in the past of utilizing the most modern equipment available, enabling us to constantly increase the quality of our product.

"Inherent quality is the most essential feature of any automobile, and must of necessity be greater in a lighter car than in the heavier types, where the factor of safety need not be figured so closely.

"This unprecedented expansion of the Chevrolet Motor company has no other explanation than that of the constantly increasing demand on the part of the public for the improved car. It is recognition on our part of this steadily growing favor of the Chevrolet car with the motor-buying public that has caused us to prepare for the future and to be ready to produce 1,000,000 cars during the coming year."

CALL FEEDERS' DAY AT M. S. C. JUNE 4
 Feeders' Day at M. S. C., an annual occasion when livestock men of Michigan gather to study results of experimental work at the college, will be held on Friday, June 4, this year, according to announcement made at East Lansing this week by Prof. George A. Brown.

The third year results of a special test in feeding baby beef for market will be given out on Feeders' Day. Many of the state's livestock feeders have been following this work closely, and the "baby beef" section is expected to prove about the most valuable among the various experiments.

One lot in this feeding test has been on a self-feeder of grain, with two other lots on a limited grain ration. Each of the lots has been getting alfalfa hay and silage. One of the limited ration lots has been on a "home grown" ration—corn, alfalfa, and silage. The other two lots have been getting linseed meal as protein supplement. The results of this experiment for all three years will be announced.

Other work in the college test feed is reported on which will be made on June 4, includes: "Economic Wintering of Work Horses"; "Hog Rations"; "Best Methods of Rye Feeding to Hogs"; and "Orange Cross Experiments With Hogs."

The morning of Feeders' Day will be given over to inspection of the various animals on test, with a general program booked for the afternoon.

ANOTHER CHELSEA CASE

Time-tested by a Chelsea Resident.

Just another report of sickness and suffering relieved by Doan's Pills. Another Chelsea case that tells of lasting benefit. What can be more convincing? Thousands recommend Doan's for backache, rheumatic pains, headaches, dizziness and distressing urinary disorders. Doan's are a stimulant diuretic to the kidneys. They have helped thousands. A Chelsea case:

Chas. Hyzer, Madison St., says: "I was a sufferer from kidney trouble and backache. Sharp, shooting pains through my kidneys made work a burden and if I stooped I could hardly straighten. After using three boxes of Doan's Pills, I was cured."

MANY YEARS LATER, Mr. Hyzer said: "The cure Doan's made for me has remained permanent."

CHRYSLER IMPERIAL "80" TO BE PACEMAKER AT RACES

A Chrysler Imperial "80" roadster will set the pace for the thirty-odd contestants entered in the fourteenth annual edition of the nation's greatest speed classic, which will be run this year at the Indianapolis Motor Speedway on Monday, May 31.

To be chosen pacemaker of this field is a signal honor to any car and to its manufacturer and is one that is awarded on the basis of merit and known performance.

To win such an honor only two years after the first car of the name was produced, as the Chrysler has done, is, therefore, a high honor indeed.

As the model number indicates, the Chrysler Imperial "80" is capable of maintaining a speed of 80 and more miles per hour and is, therefore, one of the fastest stock cars in the world. Experience has shown, too, that this fleet beauty of the highways possesses the added advantage of being exceptionally smooth-riding, responsive to the driver's lightest touch, and capable of sustained performance that has proved a revelation to many.

STATE OF MICHIGAN
The Circuit Court for the County of Washtenaw, in Chancery.
Maher vs. Stoffer, Plaintiff, vs. Defendant.
Jennie Gorman, Alvah Hudson, James Popkin, Alice Gorman, Bridget Forner, J. C. Winans, David McGuire, Enoch James and Jason Hudson, their and each of their unknown heirs, devisees, legatees and assigns, Defendants.
At a session of said court, held at the court house in the City of Ann Arbor, Michigan on the 3rd day of May, 1926.

Present: Hon. George W. Sample, Circuit Judge.
In this cause, it appearing by bill of complaint duly verified and to the satisfaction of the court that the following of the above defendants, Jennie Gorman, Alvah Hudson, James Popkin, Bridget Forner, J. C. Winans, David McGuire, Enoch James and Jason Hudson, are necessary and proper parties to the above entitled cause and are interested in the subject matter involved therein and whose names appear in the office of the Register of Deeds for the County of Washtenaw and having at some time claimed a right, title, interest or estate in the subject matter of said cause, or some portion of it, or having a lien or charge thereon without having conveyed or released the same, or who might at any time, under the provision or legal effect of such instruments of record, claim or attempt to claim benefits thereunder,

and it further appearing to the satisfaction of the court that said above named parties are dead or their whereabouts unknown to said plaintiff, and after diligent search and inquiry have been unable to ascertain the same or where any of them or their heirs reside or whether such interest as they may or might have therein has been disposed of by will or otherwise, and that such defendants cannot be personally served with process; therefore, on motion of John Kalmbach, attorney for plaintiff, IT IS ORDERED:
That the appearance of said defendants be entered in this cause within three months from the date of this order, and that in case of their appearance they cause their answer to the bill of complaint to be filed and a copy thereof served on the attorneys for plaintiff within fifteen days after service upon them or their attorneys of a copy of said bill of complaint, and that in default thereof said bill be taken as confessed by each of said defendants and it is further ordered that said plaintiff shall cause a copy of this order to be published in the Chelsea Standard, a newspaper printed, published and circulated in said county of Washtenaw, within forty days from date, and that such publication be continued therein once in each week for six successive weeks or that said plaintiff cause a copy of this order to be personally served upon said defendants and each of them at least twenty days before the time prescribed for their appearance.
GEO. W. SAMPLE,
Circuit Judge.

(A true copy)
Claramon L. Pray, Clerk.
To Said Defendants:
Take Notice That the above entitled cause involves the title to the following described premises situate and being in the Township of Lyndon, Washtenaw County, Michigan, and is brought in said Circuit Court for the County of Washtenaw, in Chancery, for the purpose of quieting title to said described premises, to-wit:
The south west quarter and the north east quarter of the south east quarter of Section twenty-two, also the west half of the south east quarter of said section twenty-two. Also the north east quarter of the south west quarter of Section number fifteen, Town one South, Range three East.

Famous "Greek Fire"
The fire invented and used by Calimachus in 688 A. D. to destroy the ships of the invading Saracens was composed of naphtha or liquid bitumen mixed with sulphur and pitch procured from green fir trees. Water, instead of extinguishing, quickened this agent, which the Greeks controlled with sand, wine and vinegar. The secret was maintained by the Greeks for 400 years.

Power of Attorney
Our word attorney is said to have been derived from the French "pouvoir," meaning power. An attorney is a person qualified to act for another in law. A person not a member of the legal profession can be empowered by a written authorization to represent another person and act for him with respect to a certain matter or generally.

Road Tests Prove Buick Quality

Many months are spent in designing and experimental work before an automobile is actually produced in quantity. The engineering department must plan a model down to the finest detail, and then build a fleet of test cars to be used in proving that

the model will stand up in actual use. Hundreds of thousands of car miles are traveled before any part is considered ready to be put into production. Many changes are usually necessary before the car meets the exacting standards set. In order to duplicate actual road conditions and to give the car a service test more rigid than they are ever likely to receive in actual use, Buick test cars are daily put through their paces at the General Motors Proving Grounds near Milford, Michigan. Here the cars are tested in every conceivable manner for strength, stamina, comfort, roadability and economy of operation. Each of the fifteen or twenty test cars is driven from 300 to 500 miles every twenty-four hours. They are periodically torn down and inspected for signs of wear by Buick engineers. The picture shows a speed test in which a fifth wheel and recording apparatus is used. It is one of hundreds of tests which determine the qualities of the car.

Early Postage Stamps

Prior to the use of postage stamps, which were first issued in 1847, postmasters used what were known as provisional stamps. These were in the nature of a rubber stamp which served the purpose of postage. It showed the prepayment of postage and was similar to the postmark on letters today, and usually bore the word "Paid," name of the office and the amount of the postage remitted.

Rock Formation

The term "Monadnock" is derived from Mount Monadnock in New Hampshire, and is applied to an isolated mountainlike remnant of hard rock extending above its surroundings in the late stages of a period of cycle of erosion. Stone mountain in Georgia is another instance of this class.

Great Lawyer-Principals

Van Buren and Benjamin Harrison are considered the greatest lawyers who have been President of the United States.

Tidal Wave's Movements

In general it may be said that the rate at which a tide wave proceeds depends on the depth, the formula being: Rate of the advance of the tide equals the square root of the acceleration of gravity, multiplied by the depth of the water. Therefore, in a deep channel the tide progresses at a more rapid rate than in a shallow channel.

Anti-Saloon League

In 1832 a group of clergymen of the United States endeavored to form an organization of all denominations of the United States should participate. This did not materialize. The Anti-Saloon League of America was founded at Oberlin, Ohio, by Howard H. Russell, in 1898, and in the same year in the District of Columbia.

Needed Sporty Apparel

And yet croquet might have become the national game if somebody had thought up a snappy costume for it.—Rochester Times-Union.

FAIR NOTES

That Did It

Outside the storm raged. The thunder was deafening. The lightning flashed almost continuously. Presently a bolt struck some part of the house and knocked the owner completely out of bed. He rose, rubbed his eyes, yawned, and said, "All right, dear, I'll get up."
