FIVE SUNDAY SCHOOLS TO HOLD UNION PICNIC

Program Completed for Gala Day of Entertainment, Sports and Other Events.

A union Sunday school picnic, which promises to eclipse any event of its kind ever held in this vicinity, will be held at Elsenbecker's grove, North Lake, on Thursday, July 29th, when Methodists, Congregationalists and Lutherans will gather to celebrate this much-looked-forward-to occasion.

Picnic dinner will be served at 1:30, after which a short program of music and talks will be given. Following this games and contests for the kiddies as well as the older folks will be enjoyed. Worthwhile prizes will be offered for winners in these events, and it is expected real efforts will be put forth by those entering the contests. A ball game will be another feature of the afternoon's entertainment.

Refreshments of all kinds will be available at the grounds, in charge of the North Lake M. E. church. Churches taking part in the day's events are: Chelsea M. E., Congregational, St. Paul's, Salem M. E. and North Lake M. E. Each church will make arrangements for transportation for those having no way of getting to the grounds.

It is expected that an unusually large crowd will be present, owing to the fact that Chelsea business places are closed Thursday afternoons, which will make it possible for business men, as well as clerks and others, to get away for the afternoon and evening.

JERSEY BREEDERS TO PICNIC AT NOTTEN FARM TUESDAY

County Jersey Breeders' Association has sent out letters to the members regarding the annual Field Day of the association on Tuesday, July 27th. This year the county association has been active in some organization work, having adopted a definite program for the season. The projects that they are emphasizing this year are exhibits at County and State fairs, and boys' and girls' Jersey Club clubs. Washtenaw county was one of the Michigan counties competing in the State Jersey Cattle club contest. Officers and directors are very anxious to have a good attendance at the summer meeting as it will confer toward higher rating in the county contest.

On the 27th the breeders will assemble at the Oakland, Ann Arbor, at ten o'clock where the dairy herd will be inspected and it will offer an opportunity for Jersey enthusiasts to see the Oakland show herd before it leaves for the county and state fairs. During the past year the Oakland have added some especially fine cattle to their herd, which makes it one of the best in the country. Local breeders will be much interested in looking over the herd—and two hours will be spent at the Oakland farm.

From the Oakland the tour will go to the farm of Fred Notten west of Chelsea, where the breeders will have a picnic dinner. After dinner a special program is being arranged. One of the features will be a judging demonstration and contest under the supervision of H. A. Dennison, Field representative for the American Jersey Cattle club.

This will be a red letter day for Washtenaw County Jersey enthusiasts. A good attendance is expected at this annual meeting.

WASHTENAW FAIR NOTES

The building program prior to 1926 Washtenaw County Fair includes the erection of a dining room and dance floor. This building will fill a long felt need for accommodation at meal time and recreation in the evening. Work on this building will be commenced immediately. The erection of this building with sheep barn and grandstand improvement will make 1926 the banner expansion year of Washtenaw Fair.

Boy and girl club members of Washtenaw county are putting forth their best efforts to make their exhibit in the new Boys' and Girls' building one of the outstanding features of 1926 Washtenaw County Fair. The stock club members will fill to overflowing the first floor of this building with well cared for and fitted animals. The canning, clothing, hot lunch, handicraft and club displays on the second floor will occupy more space than previously and will undoubtedly reflect great credit on the members and club leaders.

The third annual picnic given by Washtenaw County Fair Board for Fair superintendents and their families will be held at Washtenaw County Fair grounds Friday evening, July 23. The attendance and interest at this annual event have grown rapidly and a large representation is anticipated at this year's meeting. RURAL WOMEN TO RAMP AND PLAY AT CAMP BIRKETT

Music appreciation, songs, and games played to music will be features of the third annual Rural Women's Camp to be held at Camp Birkett August 2nd to 6th. Last year the music appreciation was given by Miss Alice Keith. During the last year some of this work has been given in the Home Economics Extension Project and has been very much appreciated by rural women enrolled in these courses. Additional work will be given at this year camp under the direction of Miss Brekke.

Tuesday and Thursday there will be special instruction in recreation by representatives of the National Playground and Recreational Association of America.

A new feature in the form of parliamentary practice will be added to this year camp program. This will be especially helpful in community organizations such as Farmers' Clubs and Parent Teacher Associations, etc. A short time will be devoted to this work at the beginning of each forenoon and afternoon program. The women themselves will have charge of this part of the program and will get some very valuable suggestions in methods pertaining to parliamentary procedure.

There will be two swimming periods each day, one just before dinner and the other in the evening. Swimming instruction will be under the direction of Mrs. F. A. O'Brien, who will also have charge of the swimming work at the Girls' Club camp in the previous week.

Enrollments are being received at the County Agent's office and it is expected that the camp quota of fifty women will be filled by the first of August. Several communities are sending groups of four or eight women to attend this year's camp. County Agent Oster advises that about 50 per cent of the present enrollments are women who have never been at camp in previous years. Those who desire to attend should send in name at once to County Agent's office.

What's going into your Basement?

Are you thinking of laying in a big supply of dirt and ashes and hard work for the coming winter?

Of course not, you remonstrate. You're merely going to get in touch with your dealer to make sure of next winter's fuel supply. Yet, what he'll deliver, after a large payment in advance, is really only dust, smoke and ashes in the end.

The man who burns gas in his furnace doesn't worry in summertime or any time about next winter's fuel supply. He doesn't pay out money six months in advance for winter warmth, he pays after enjoying the warmth. His wife has no ordeal with a tramped up lawn and a dirty, sooty house while getting the fuel into the bins. Gas is in the pipes, ready and waiting for the first winds of Fall.

Now, before winter comes, is the time to have a gas furnace installed. Investigate gas before you order solid fuel.

SUN'S HEAT VARIES

Last November we published a prediction that this would be a cold summer. This was a prediction of a professional Washington forecaster, who based his prediction on the prediction that this summer the sun spots will be turned toward the earth and that every sun spot means a diminished degree of heat. So far the prediction has been borne out.

Now comes Dr. Charles G. Abbott of the Smithsonian Institution at Washington, who announces the discovery of a new and simple proof that sun spots do influence the heat given off by the sun, and that the sun's heat does vary on the earth.

If the proof is final—and it seems irrefutable—there can be no further question that the sun is a real factor in the daily and yearly weather changes. Exact appraisals of its value for long range weather forecasting await only the perfection of measurements of solar variation and world-weather. At all events, Dr. Abbott says, an essential element new to weather forecasting has been discovered and proved, and that its application is only a matter of research and time.

For thirty years Dr. Abbott has been investigating the sun and measuring the heat it sends to the earth. In 1903 he surmised from his results for previous years that the amount of that heat varied. Urged on by that clue and its great significance, if true he has spent the intervening years in elaborate measurements of solar radiation in many parts of the world: at Mount Wilson and Mount Whitney, Cal.; at Bessant, Algeria; at Mount Marqua, Hala, Ariz.; and Mount Montezuma, in the nitrate desert of Chile.

He developed instruments capable of measuring a millionth of a degree change in temperature, and other instruments of the greatest complexity and usefulness; to be used in connection with his measuring for standardizing and for computing results.

The essence of Dr. Abbott's proof lies in a comparison of measurements of solar radiation made at times when the atmosphere is practically identical the same. It is obvious that, if the atmosphere is the same and the instruments are correct, any changes must mean differences in the amount of heat given off by the sun.

Dr. Abbott selected measurements made in the month of July for the years 1910 to 1920, omitting the years 1912 and 1913 because the volcano of Mount Katmai in Alaska filled the atmosphere of the whole northern hemisphere with dust in that period. During all these years Dr. Abbott and his assistant, L. B. Aldrich, has measured the sun from the same observatory of Mount Wilson, Cal. They used the same instruments throughout and these instruments were regularly tested against standards and found unchanged.

WHAT THE HARVEST?

Many surveys are being made, and have been made, to get a line on the installment business of the country.

The dollar-down-and-dollar-a-week plan of buying is the new American vice. In 1920 125 finance companies supplied the capital needed by retailers to maintain the installment selling system, and did a business of \$1,200,000,000. Last year there were nearly 1,500 of these finance concerns and their business totaled \$8,000,000,000.

Eight billion dollars is an enormous turnover for credit clearing houses. It indicates something of the volume of the business when it is known that less than thirty per cent of the installment business is done through these agencies.

There are some things that are absolutely essential that they should be bought on the installment plan. There are other things that should not be bought on the installment plan. To Dr. Abbott and his assistant, L. B. come in installment payments is not a serious or dangerous proposition. To tie up the major part of it, or to pledge more than all of it, is not only serious, it is dangerous. We might go further and show that it is disastrous.

Surveys have been made in various industries, where men and women are employed by the week, and get their money on Saturday night. Surveys show that in some instances workers have tied up all the income of the family, and are pledged to pay more than the weekly income each week, on installments! This does not allow for food, clothing, fuel, house rent, a little saving account against time of sickness or incapacity for working. This condition can be described by no other than that plain and ominous word, DISASTROUS!

We would not say that there should be no installment business. We think it is very necessary in many cases—perhaps in the case of every wage earner. But it is going wild, spending recklessly—tying up a major portion of the weekly or monthly income that is playing havoc with the American people and will mean untold distress in the long run.

Long Distance Saves Money for the Grocers Customers

There is no quicker, more certain way of buying or selling—whether it be butter, eggs, fresh vegetables or canned goods—than by Long Distance telephone service.

Ask the jobber or wholesale grocer—they know. For they use Long Distance regularly and sell many thousands of dollars worth of produce over the telephone circuits.

It saves money for the grocer's customers, too, by eliminating delays, giving assurance of fresh stocks and making it possible to buy or sell when the market is right.

NOTICE CITY WATER USERS

On account of water conditions many people are compelled to use water for washing and are inconvenienced because of its hardness. To overcome this add one teaspoonful of Rub-No-More Washing Powder (the Original 50 Water Softener) to each gallon of city water. IT SAVES SOAP. Besides its household uses it is the only cleanser that will clean sinks and tubs and dissolve upon rinsing. No sand left to clog drain pipes.

"A Highly Desirable Community in Which to Live"---

that's the opinion of those who have already purchased summer home sites at

Inverness Country Club and Park Lawn Beach!

As a location for a summer home, there are many favorable factors about this property to consider. Probably the most unique feature is the life membership in the Inverness Golf and Country Club that goes with each lot purchased in Park Lawn Beach Developments. The club house is already on the property and the golf course will be ready soon.

The location, on the shores of North Lake, makes it possible to enjoy all water sports as well as golf, riding and tennis. Really, it would be hard to find a more desirable place for a summer home.

You must see this property to appreciate its many advantages. The enthusiastic endorsement of present owners is a recommendation you can bank on. Come anytime and see the place!

The Greater OAKLAND SIX

77 Refinements—No Increase in Prices

Foremost among the refinements in the Greater Oakland Six is the Rubber-Silenced Chassis—an epochal and exclusive feature freeing the Oakland Six from the noise and rumbling found in ordinary cars and permitting passengers to ride in quiet, cushioned comfort. This new achievement combines with the Harmonic Balancer to place the Oakland Six far in advance of current motor car design.

Other refinements include smart new Bodies by Fisher in new and

strikingly beautiful two-tone Duco color combinations; new double-filament tilting beam headlights, with convenient foot control to make night driving safer; vital engine developments including new camshaft and new valve spring retainers—resulting in still quieter performance.

Come in—see this Greater Oakland Six—examine it—drive it—before buying any automobile at any price. You'll agree that the car has few equals in quality, and no equal in value!

BREVITIES.

CLINTON—A chalet is to be held here opening August 2 and closing August 6.

ANN ARBOR—The office of the Washtenaw county road commission is now in the Commission's building on West Huron street instead of in the court house.

SOUTH LYON—The township of Salem will start a new project this year in the form of a community camp. It will be held at Island Lake from July 21 to 28th.—Herald.

BROOKLYN—The business men of this village are making arrangements for a big picnic to be held about August 18. This is an annual event that is sponsored by the business men of this place.

STOCKBRIDGE—Dogs played havoc with Ezra Hanneveld's sheep, one day the latter part of last week. There were 150 sheep in the flock of which about one third were killed and several more injured.—Brief-Sun.

MANCHESTER—The program of chalet at Manchester this year, which begins Tuesday afternoon, July 27 and ends Friday evening, the 30th, will be launched on the first afternoon with a grand concert.—Enterprise.

DEXTER—At a mass meeting of residents of this village on Wednesday evening of last week, a resolution was adopted endorsing the proposed water works system that is being advocated by the Chamber of Commerce here.

STOCKBRIDGE—The annual Catholic picnic will be held at Artz grove, Bunker Hill, Wednesday, August 4. Chicken dinner, games, etc., and Gov. Grosbeck will be the speaker. Stockbridge and Leslie will play their league game on the grounds.—Brief-Sun.

EATON RAPIDS—The forty-first annual session of the Michigan State Holiness Camp Meeting will be held in Eaton Rapids July 23 to August 1. The camp preachers will be Rev. Joseph H. Smith of Redlands, Calif., Rev. Guy M. Wilson of Brookline, Mass., Rev. Raymond Browning of Hendersonville, N. C. and Rev. W. G. Nixon of Detroit. Rev. Lloyd H. Nixon of Lowell, Mich., will be musical director and Howard Skinner, of Grand Haven, pianist, will be heard again this year.—Review.

HOWELL—A few weeks ago a move ment was set on foot for a new post office in the city of Howell, and a time set to receive bids. Of the bids received in this respect, H. L. Williams was awarded the location, which is located two blocks south of the present location. The new building will be one story, 40 by 60 feet. This action removes the post office from the most central of any ever held in Howell.—Democrat.

MILAN—Contracts for the proposed sewer extensions through Milan's new subdivisions were let Wednesday noon by the Village Council. Don Ostrander, former Milan boy, who has been in the contracting business for several years, was awarded the contract. The cost of the sewer will be a little more than seven thousand dollars. Work will begin on the extensions within a couple of weeks.—Leader.

SALINE—Three young boys, who had stolen a car in Detroit and were headed for the wild and woolly west, were apprehended here and returned to their parents. They ran out of gas and swapped a quart of oil with Mr. Taylor of Schuylerville for a little of the stuff that makes the wheels go 'round. He became suspicious of them and notified Deputy Fitzgerald, who took them in charge. They claimed the car belonged to the father of one of the boys, but upon being called upon later, said the father did not even own a car.—Observer.

MASON—Engineers of the H. G. Christman Co. of Lansing, were at the old Donnelly House Tuesday preparing plans for the wrecking of the ancient hostelry and the erection of a modern service station by the Central Service Co. of Lansing. The Donnelly House was built about fifty years ago by Henry Donnelly, who made the hotel one of the most outstanding in the state. Travelers would go many miles out of their way to spend a night under the hospitable roof of Mr. Donnelly. However with the advent of interurbans and automobiles the hotel failed to thrive and for many years the building has been an eyesore in the community.—News.

Woodpecker Tree Friend
Because he reaches with his long tongue into holes bored by beetles, and extracts the beetle grub therefrom, the little woodpecker is looked upon by foresters as a great friend of the tree. These beetles leave a kind of embroidery of grooves on the bark and the woodpecker destroys thousands of beetles.

Few Successful Plungers

The majority of those who have built up fortunes laid the foundations of their success in thrift. They began by saving small amounts. Had they gone in for the larger and quicker returns they might have ended in complete personal failure. Successful plungers are few, but those who have succeeded through thrift are legion.—Thrift Magazine.

Details tell impressive story of quality standards strictly maintained

Unprecedented sales prove how well the public knows that Dodge Brothers Motor Car is sturdier and more dependable than ever before.

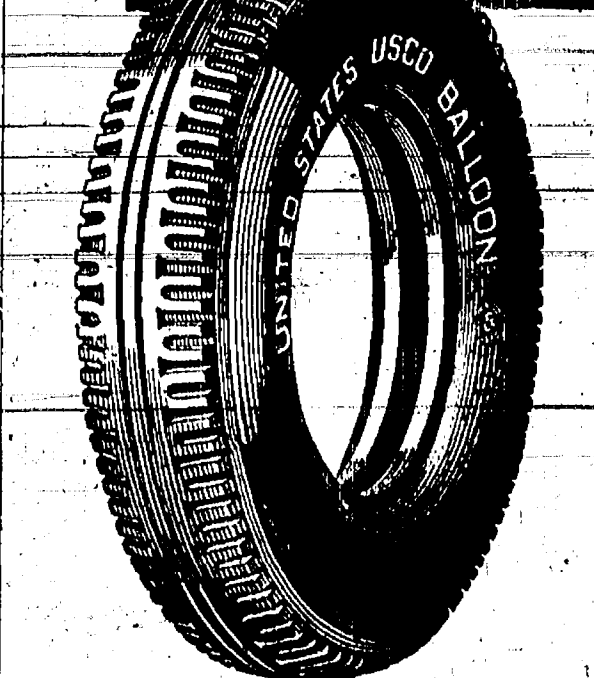

Delivers more miles at lower cost-per-mile. Stands up under harder going. Calls for fewer repairs. Provides greater safety. Excels in every quality that has earned its good name.

In fact, you have only to check any chassis part against its own past best—engine, axles, gears, bearings, frame, springs, shafts, electrical equipment—to prove how strictly and consistently Dodge Brothers have preserved and improved the basic goodness of their product.
