THREE ACCIDENTS REPORTED THIS WEEK: ONE FATAL

Three accidents have occurred in this vicinity over the week-end, one of which was fatal. Two of the accidents were at the cement plant and one on the Michigan Central railroad.
Saturday morning about 8:30 o'clock a convict, aged 21 years, while working with others, switching cars in the yards, fell from the moving car and was run over. Both of his legs were so badly injured that it was necessary to amputate them. One leg was removed just above the ankle and the other below the knee. The young man was taken to the hospital at Ann Arbor. He was serving a sentence of from 7 to 16 years.

A Mexican in the employ of the Palace Construction Co. was badly injured about 5:30 Saturday evening. The crew came here Saturday morning and were engaged in construction work for the M. C. The men were returning to their boarding car when the Mexican fell from the hand car and was run over. He sustained injuries to his back and probably internally. He was brought to the office of Dr. Palmer, who is the physician of the railroad company, and after being given treatment was taken to the hospital in Ann Arbor.

Attempting to recover his straw hat which had blown in the water, Frank Burt, 47 years old, Negro convict, swam to his death about 9 o'clock Monday forenoon while working at the State cement plant at Four Mile Lake.

Burt was employed on a dredge on the shore of the lake. According to three companions, his hat fell into the water and a strong wind carried it about 40 feet from the shore. He jumped into the water and after recovering the hat shouted for help when it was apparent he could not regain shore. Efforts were made to reach the drowning man with a raft and a plank, but Burt went down in 35 feet of water.

After five hours of dragging, the body was recovered about 2:00 o'clock Monday afternoon. The remains were taken to St. Ignace's undertaking parlor, Chelsea, pending word from Burt's parents, who reside in Chattanooga, Tenn.

Justice of the Peace Geo. W. Gage of Sylvan was called to the plant as acting coroner and after a thorough investigation decided that it was unnecessary to hold an inquest.

Burt was sentenced from Recorder's Court, Detroit, June 8, 1922, and was serving a 7½ to 15-years term for robbery with a knife. He was single and had been a trusty for some time. The body was shipped Wednesday afternoon to his relatives in Chattanooga, Tenn.

FIRE DESTROYS BARN, CONTENTS, AND SHEDS

A very destructive fire at the farm home of Mr. and Mrs. James Helm and his mother of Sylvan on Tuesday, did damage to the amount of about \$7,000.

The blaze, the cause of which is unknown, was discovered about noon. The large barn, 36x70, a tool shed 18x40, located west of the barn, and another east of the barn were burned to the ground. The contents of the barn, consisting of this year's hay crop, 300 bushels of oats and a wool clip of about 300 pounds were burned, also all of the farm tools in the tool shed, were consumed, as were the contents of the other shed.

Neighbors responded to the general alarm that was telephoned from the Helm home and their work was successful in removing all of the live stock that was in the buildings. The burned buildings were located on the south side of the highway opposite the residence which was not damaged. The loss is partly covered by insurance.

What's going into your Basement?

Are you thinking of laying in a big supply of dirt and ashes and hard work for the coming winter?

Of course not, you remonstrate. You're merely going to get in touch with your dealer to make sure of next winter's fuel supply. Yet, what he'll deliver, after a large payment in advance, is really only dust, smoke and ashes in the end.

The man who burns gas in his furnace doesn't worry in summertime or any time about next winter's fuel supply. He doesn't pay out money six months in advance for winter warmth—he pays after enjoying the warmth. His wife has no ordeal with a tramped up lawn and a dirty, sooty house while getting the fuel into the bins. Gas is in the pipes, ready and waiting for the first winds of Fall.

Now, before winter comes, is the time to have a gas furnace installed. Investigate gas before you order solid fuel.

BIELASKI CALLED

District Attorney Buckner of the Southern District of New York, seems to be a bit too fast for the lawyers called in by the bootleggers to get them out of trouble.

William V. Dwyer, on trial as head of the big bootleg ring that has been supplying the Greater City, has able counsel, no doubt, but they are too much on the bluff to get away with anything when Attorney Buckner is around.

Counsel for Dwyer kept harping on A. Bruce Bielaski, former secret service head of the United States, whose job it was, during our participation in the World war, to hunt down spies. Counsel wanted to get Mr. Bielaski on the stand and quiz him. Attorney Buckner accommodated him. He put Bielaski on the stand, then turned him over to counsel for the defense, without asking any questions. Counsel for the defense was flabbergasted. He fumed and raged and demanded that "theatricals be cut out." The court sided with the district attorney and after counsel for the defense had frothed at the mouth for a time, Mr. Bielaski was excused, being asked no questions by prosecution or defense.

Up to this good hour, it has the appearance of being a bad winter for Mr. Dwyer in Atlanta.

AN ENORMOUS PAYROLL

William E. Knox, former president of the American Bankers Association says that 44,000,000 of the American people are steadily employed, and that their annual wages amount to \$80,000,000,000.

An enormous payroll for one country!

The workers of America earn more every year than the entire wealth of the world when Columbus discovered America.

Of this great total it is said that ten billions is wasted every year, and that one billion is spent for pure American speculation.

"A Highly Desirable Community in Which to Live"---

that's the opinion of those who have already purchased summer home sites at

Inverness Country Club and Park Lawn Beach!

As a location for a summer home, there are many favorable factors about this property to consider. Probably the most unique feature is the life membership in the Inverness Golf and Country Club that goes with each lot purchased in Park Lawn Beach Developments. The club house is already on the property and the golf course will be ready soon.

The location, on the shores of North Lake, makes it possible to enjoy all water sports as well as golf, riding and tennis. Really, it would be hard to find a more desirable place for a summer home.

You must see this property to appreciate its many advantages. The enthusiastic endorsement of present owners is a recommendation you can bank on. Come anytime and see the place!

Study the Pontiac Six. Note the large engine with its 186.5 cu. in. displacement the 46 lb. crankshaft, the costly bronze-backed interchangeable bearings, the superior Fisher bodies, paneled, beaded and smartly finished in Duco; the scientific distribution of weight—and score after score of features literally without precedent in a Six at \$825.

That is why the "Indian head" is seen on every trail and highway. That is why Pontiac leadership cannot be denied—why already over 35,000 Pontiac Sixes have been built—a six months record that exceeds the largest production ever attained by any new make of car during its first full year!

JACKSON—According to reports from the county officials there are 3000 dog owners in Jackson county who have not paid their 1926 dog tax. Over 2000 of the dogs are owned by residents of the city of Jackson.

BROOKLYN—State highway graders have already started grading operations to pave the balance of the Brooklyn public square, something like 50 feet more on either side of the 20 foot strips already completed.—Exponent.

SALINE—Sweet cherries have been a bountiful crop this year, and that it pays to own a tree full of this luscious fruit is evidenced by the fact that one such owner here in town gardened eight bushels from the one in his yard which, at five dollars per bushel, netted him \$40. Not so bad, not so bad.—Observer.

BROOKLYN—An inmate known as "Bail-and-chain Johnson" disappeared from the road gang on Tuesday. He was in the cement storage house, left his prison clothes by the roadside, having apparently obtained other clothing from some source. He had only about 75 days to serve, but will get a large part of 11 years if caught.—Exponent.

WILLIAMSTON—Orle, the 14 year old son of Mr. and Mrs. George Peacock, was bitten through the upper lip by a dog, last Wednesday evening. Later, the dog was killed and the brain sent to Ann Arbor, for examination. The report was received that the dog was suffering from the rabies. The boy has been taken to Ann Arbor for treatment.—Enterprise.

BRIGHTON—A few weeks ago, on May 19, to be exact, the Argus had a story about a possible revision of the four rural mail routes out of this village, which revision would consolidate the four routes into three. This change has come about sooner than anyone expected. In fact, it has been definitely announced by the postoffice department that the new ruling will take effect August 1st.—Argus.

STOCKBRIDGE—Gaylord Hall has been promoted to the position of engineer in the research and development department of the Western Electric Co. For two years he was connected with the Consumers Power Co. as "wireless" engineer. He had charge of the installation of the 5,000 watt radio broadcasting station of W. J. R. at Pontiac and until promotion, had charge of the plant. He will be stationed at the Hawthorne station of the Western Electric in Chicago.—Brief-Sun.

CLINTON—Sparks from the 3:08 train Wednesday afternoon, set fire to the barn of W. J. Hogan, on the old Hayes place, and completely destroyed it. Mr. Hogan was at his home, which is a short ways north of where the barn was located, when the fire was started. The alarm was given at both Clinton and Manchester, and Mr. Hogan says help responded in almost no time. With the help of a few children, who were near the barn, the fire was extinguished in the grass, that was ablaze south of the barn, which is next to the track, but the barn which was located nearest the highway burned to the ground, and also the old house, that had not been used for a dwelling for some time.—Local.

TWO FACTORS CONSIDERED IN DETROIT'S GROWTH

A recent survey of industrial and real estate conditions in Detroit reveals a factor heavily concerned in that city's amazing expansion that is usually overlooked. Almost invariably, all credit is given to Detroit's pyramiding industries and little or none to the mightily constructive labors of the big real estate companies.
As a matter of fact the former could not have been effective without the latter, for without the adequate residence conditions provided by the real estate men the huge population induced by industrial employment could not have been held in Detroit.
The attention of the student of Detroit's growth factors is unavoidably attracted to two outstanding concerns, that of Henry Ford in the industrial field and that of the Frischkorn Real Estate Company in the realty field. In point of romance the achievement of the Frischkorns is hardly less thrilling than that of Mr. Ford.

Now an \$11,000,000 corporation, the Frischkorn Real Estate Company was founded just 10 years ago by E. S. Frischkorn, a young "Pennsylvania Dutch" schoolmaster whose continuous presidency and active direction have placed his firm in a leading position in the middle west. A few years ago two brothers, George M. and Charles E., followed him from Pennsylvania and became vice presidents of the corporation, very active in its management.
Said to have the largest personnel of any Detroit realty organization, the Frischkorn firm has fully equipped departments for all phases of the real estate business, such as subdivision, improvement, construction, brokerage, leasing, property management, agency collection and home construction financing.
Until three years ago the company confined its subdivision efforts to the subdivision, partial improvement and sale of ripe residence tracts shrewdly chosen in the industrial west side of the city. Thousands of these lots were sold on a long-time payment basis, and not only are these properties now well built up with homes, but it is apparent that every lot purchaser has realized a handsome profit on his purchase through its great appreciation in value.

Some of the many Frischkorn properties were outside of the rapidly extending limits of the city of Detroit when subdivided and sold, but the hugely increased values of these Frischkorn lots are not surprising when one realizes that the assessed valuation of Wayne county has increased at the rate of 86 per cent per year for every one of the past 21 years.
In 1923 the Frischkorns altered their method of operation and became what real estate parlance now terms "developers." A developer purchases a tract of farm land and makes of it a well-housed, well-served community. He installs water, sewers, streets, sidewalks, electricity, builds the homes for sale on low terms and brings about the furnishing of adequate transportation and the benefit of stores, schools and churches.

The Frischkorns' Grand-Dale is Detroit's most outstanding example of such a "developed" community. Nearly a square mile in area and a half mile from other population in 1923, it contained a fully serviced handsomely housed community population of more than 3000 just two years later. It was annexed to the city in its second year.
Purchasers of vacant lots in Grand-Dale have realized profits greater than 200 per cent in two years as the result of the rapid development of that property. The old method, still used by all but two or three Detroit concerns, of letting development and home building come when it will, would have yielded less than a third of those profits to the lot purchasers.
The Frischkorn Real Estate Company, having completed its Grand-Dale community development, is now beginning another, far more ambitious in its purposes and prospective profits. This big community development is called Grand-Dale Gardens.

MAY JURORS EXCUSED FOR THE SUMMER

Judge George W. Sample of circuit court has allowed the jurors who have been serving during the May term to return to their homes, probably to be called for duty but once before the October term is opened.

Prosecutor William M. Laird desires to try one criminal case before the jury is finally dismissed, that of Leonard Garvin, negro, charged with felonious assault in connection with the stabbing of David Miller, night ticket agent at the Michigan Central station. Garvin's examination is set for August 5 before Justice A. E. Gibson of Ann Arbor.

During the present term, which opened the first Monday in May, the court has signed orders, made decrees and settled cases to the number of about 850 and work for the period is well up to date.

Who Are Hunkies?

"Hunkie" is a slang term of contempt and derision which is applied to foreigners, especially to immigrants from southern Europe. Apparently the origin of the word is unknown. Like the words dago, wop, kike, harp, bohunk, greaser, spick, polack, chink and many others, it is not used by people who regard the feelings of others.—Fathfinder Magazine.

Britain Behind the Times
Britain contains more unclaimed money than any other country in the world. This is due to the complexity of civilization in the islands, the wandering habits of the race and, above all, to the lack of any system of distributing derelict wealth. Such a system exists everywhere else that counts; but in England, ownerless gold steadily accumulates year after year.

WASHTENAW FAIR NOTES
Under the direction of William L. Henderson, superintendent of Speed at Washtenaw County Fair, several unover places in the track on the Fair grounds have been filled and the whole track is now in excellent condition for record time heats at the 1926 Fair. A number of horses, both locally owned and from a distance are working out daily. Among the horses locally owned up, those of Dr. F. A. W. L. Henderson, L. Fruehauf and George Slaughter, Deep Run Farm, Ypsilanti. The race program of the 1926 Fair includes six good harness race heats daily September 1-2-3 and in addition two running races, screamingly funny Mule Derby and spectacular Roman Standing Races at both afternoon and evening performances throughout the week.

Washtenaw County Sunday School Council has appointed A. N. Squires, Jr. of Milan, Chairman of the Fair committee. Mr. Squires is requesting the Sunday schools throughout Washtenaw to exhibit pictures, etc. of the work carried on by their individual groups. These will be displayed on second story of Boys' and Girls' Building. Ribbons for Sunday school entries are provided by Washtenaw County Fair.

Every resident of Washtenaw county who intends exhibiting at the 1926 Washtenaw County Fair is requested by the Fair management to make entries immediately. Entry sheets may be found on page 255 of premium book or secured from Fair Office. The Robert Eppet of Detroit, is spending time with his grandmother.

"Flood" or "Deluge?"
The International Standard Bible Encyclopedia says that there are 18 different words which have been translated "flood," including the words indicating the deluge of Noah, the waters of the Red sea, the Euphrates river, the Nile, the Jordan, a torrent, a tempest and incessant rain. For this reason the word deluge is more correct to designate the universal catastrophe.

Scared by Kangaroo
An escaped kangaroo, the property of a retired army officer, eluded three days and three nights of liberty at Seattle, Wash. Several people were relieved nerve shocks by coming face to face with the antipodean visitor. One evening it hopped off a bank into the glare of an automobile headlight. The animal, which had a fit, but no opportunity to show its big "jack rabbit" had disappeared into the night.
