Getting ready for the next 150 years

On July Fourth this year we celebrated the nation's 150th birthday anniversary, and what citizen of these United States can but feel a glow of pride in the achievement of our country.

Forty years after the Liberty Bell pealed out, the first gas company was organized in Baltimore, so that for more than two-thirds of the 150 years of her independence, America has enjoyed the convenience and cleanliness of gas service.

But, in our industry, we spend little time looking backwards. The future is always before us. Every year brings a greater demand for gas service. Every year it becomes more imperative to conserve the country's coal supply so that gas, the concentrated fuel, may meet the nation's needs over a greater span of years.

The Gas Industry today is spending millions of dollars in providing today's supply of gas, and other millions in preparing for the next 150 years.

OUR RESPONSIBILITY

The day when nearly every family possessed a cow has passed. In those earlier years, when there was plenty of pasture on the village green and along the quiet highways, it was an economical saving to the household to have their own supply of milk and butter. There were no creameries in those days and the supply from the farm was generally uncertain, but with the coming of the creamery and the elimination of grazing areas, the problem of supplying dairy products was given over to the farmer. We made that one of his problems along with many other things and naturally we have a certain amount of responsibility in this success.

Every business man, every professional man, every working man owes it to himself and to his community to do all in his power to promote dairy farming and diversified farming. He has no more important task for the prosperity of the farmer is inextricably interwoven with the prosperity of the city resident. The combined efforts of the farmer and city resident make a prosperous community, for each has his allotted share in the world's work. There must be a prosperous farm population if a community is to succeed.

TRAFFIC TOLL

Grade crossing accidents are on the decline in this state, despite the heavy increase in automobile traffic at this time of the year, when tourist travel is at its height. Much credit for this saving of human life can be attributed to the "Careful Crossing Campaign" instituted by the railroad of the country on May 1st and which will continue until October 1st. Gradually we seem to be getting away from the foolish idea that the motoring public cannot go through a nice day without killing somebody and hurting somebody else, to say nothing of the property damage that results from the many collisions and side-swipes.

Since the automobile began to be a problem, the law makers, the law enforcers, the motor clubs and others have urged care and safety first. Dangerous curves and hills have been marked, railroad crossing warnings can be seen a long way off and every precaution has been taken to protect the life of the conservative driver. These precautions doubtless have saved some lives, but they cannot save all. The business of making the highways safe for all automobile drivers must start in the driver's mind. While one driving fool is at large nobody is safe. Multiply one driving fool by several and the result is a menace to life, limb and property that no force of police, sheriffs and constables is able to combat.

Investigation over a term of years has shown that most automobile accidents were preventable. Somebody takes a chance, is in too much of a hurry or disregards the law and the rights of others, and the result is a tragedy. If the reckless drivers killed only themselves, the roads would be cleared of them in time. The pity of it is that they often escape unharmed when innocent persons go to their graves. No improvement in existing conditions can be expected this year or any other year until all the sane car owners co-operate to the utmost in putting the crazy driver where he ought to be, and in making recklessness pay severe penalties.

THERE IS NO SATURATION POINT FOR HONEST VALUE

Build a product that the world needs, better than the world expects, and mounting sales will answer those who are constantly predicting a saturated market.

During the first six months of this year, for instance, Dodge Brothers sold 207,115 motor cars and trucks. This represents a gain of 49.3 per cent over the first six months of 1925, and continues Dodge Brothers in the enviable position of THIRD IN THE INDUSTRY.

For the three weeks ending July 17th, 23,862 motor cars and trucks were delivered to customers—an increase of 62.4 per cent over the same period last year, and impressive evidence that Dodge Brothers great sales gain is continuing through the quiet weeks of mid-summer.

There may be a saturation point for mediocrity, but honest value will always command a great and ever expanding market.

SALINE MAN ANNOUNCES CANDIDACY FOR SHERIFF

John L. Osborn, one of the contestants for nomination for the office of Sheriff on the Republican ticket, has withdrawn from the race and states that he will give his entire support to George V. Cook of Saline, one of the other contestants for the nomination in the Republican primaries.

Mr. Osborn in making this withdrawal makes the following statement: "I have taken this step after considerable deliberation, and want to give my friends my reasons for it.

GEO. V. COOK

After having investigated the record and character of Mr. Cook, I am convinced that he will, if he is elected, give the county a clean, efficient, and conscientious administration. Mr. Cook has served Washtenaw county and the Federal government with great success. I, therefore, urge my

friends to support Mr. Cook in the primaries and the election."

Simultaneously George V. Cook of Saline made the announcement that in case he is elected to the office of sheriff, he will appoint John L. Osborn as his undersheriff. In making that statement in regard to his intentions Mr. Cook stated: "I feel that John Osborn is a young man of fine character with a splendid overseas record, and has been a success in his present capacity as deputy sheriff. Should I be elected, we shall be able to give Washtenaw county an administration that stands for high efficiency, economy and courtesy."

Mr. Cook, who is a successful business man of Saline, has had several years' experience as an officer of the law. He served as Deputy Sheriff under Col. Ambrose Pack for four years, then received an appointment as Federal Probation officer for eastern Michigan, in which capacity he served for three years.

While deputy sheriff of Washtenaw county for nine years, Mr. Cook earned an enviable record in the apprehension and arrest of criminals. Four years ago he was runner up in the office of sheriff. At that time he received 392 out of 442 votes in Saline township. Democrats and Republicans alike gave their support, in spite of party lines. He carried Ypsilanti, and several other townships by a good majority. Even Ann Arbor, the home of his opponent, gave him a heavy vote.

A telegram from Thomas H. Brennan, deputy prohibition administrator for Michigan reads as follows: "George V. Cook was an agent of this department for three years. He is a hard, faithful worker. Record O. K."

It is difficult to say whether the North or South pole is the more difficult of access, since similar conditions are to be met with in both cases. The south polar region is swept by violent and prolonged blizzards, and the constant difficulty of access, being fringed by oceanic ice caps and projecting glaciers.

Some one has said, "America's need is to go forward." Surely this cannot be realized by a sluggish indifference on the part of her citizens. Men and women in small communities as well as large, must work for progressive action in the development of those ideals which are part of our American heritage. The Christian church affords that opportunity.

Why I'm going to the Greater MICHIGAN STATE FAIR

COMPETING FOR A REAL PRIZE!

Effie Martin and Minnie Kirk's been running a neck and neck race for young Bill Carter, the catch of Lapeer County. Effie expects to win out on her lemon meringue pies and Minnie's depending on her coconut cream cake. Last night they were both at our house together and I hear you can learn something new down there about baking in September. And young Bill Carter was telling me he's getting mighty tired of lemon pie and cream cake. Seems to me you ought to brush up a bit! So I made two cuttomers for the Fair right there.
