LANSING MINISTER WILL SERVE CONGREGATIONALS

New Pastor Will Assume Local Charge on Sunday, September 12; Preached Here Sunday Night.

After several months without a pastor the First Congregational church, Chelsea, has secured Rev. Albert E. Potts, of Lansing, to take charge of the ministerial duties of the church. Rev. Potts will assume his charge here on the 12th of September. In the meantime he will remove his household effects to the Congregational parsonage on East Middle street.

The new minister is a middle-aged man, married and has four sons. For the past five years Rev. Potts has been serving the Mayflower Congregational church, Lansing, having built up this charge from a mission church to one of the influential churches in the city, leaving them in a prosperous financial and spiritual condition with assets including church and parsonage property. In addition he is president of the Lansing Ministerial Association.

At the morning service in his Lansing church Rev. Potts tendered his resignation to take effect September 5, and on Sunday evening he preached to a large congregation at the Chelsea church, taking for his subject, "The Power of Purpose." Following the service the congregation at folks ratified the choice of their minister, voting unanimously in favor of Rev. Potts.

Office of a pastor to serve the local church comes after long and deliberate efforts on the part of church officials to find a man competent enough to successfully lead his people. Both church officers and laymen are confident of the future under the Lansing minister's leadership and optimism prevails throughout church circles.

DETROIT CAR CRASHES

CRASHING INTO A TELEPHONE POLE near the Mohrlock farm on M-17 west of Chelsea at 2 o'clock on Tuesday morning resulted a Dodge sedan to a heap of junk and nearly cost the lives of six occupants, all residents of Detroit. The machine was being driven by Mrs. W. H. Hale, 625 Field Ave., Detroit, and she was accompanied by a daughter, two lady friends and two boys. They had been visiting at the home of Mrs. Hale's mother in Chicago and were endeavoring to reach Detroit early Tuesday morning. As a result of the accident all the occupants of the car spent the balance of the night in a local physician's office where cuts and bruises were dressed. Weber's taxi took them into Detroit early Tuesday morning.

GRASS LAKE YOUTH IS KILLED BY FAST TRAIN

Willis Dwell, 9-year-old foster son of Mr. and Mrs. John Hartz of Grass Lake, was struck by the locomotive of Michigan Central train No. 23 and instantly killed at the stockyards crossing in the village late Saturday afternoon.

The lad was helping John Brayman, hired man at the Dwell farm, drive cattle across the tracks and they had paused on the right-of-way to let a freight train pass. As the way-car of the freight went by Willis ran out on the tracks in front of the fast west-bound train.

The dead boy has a brother, Robert, age 11, and a sister, Edna, age 13 who also live with the Hartz family.

HEYDLAUFF HOME SCENE OF PRETTY WEDDING

A pretty home wedding took place last Thursday at the home of Mr. and Mrs. George Heydlauff of Sylvan, when their only daughter, Miss Elsie, became the bride of Walter Kalmbach of Francisco. The ceremony was performed by Rev. Fred Ross of Salem M. E. church in the presence of about 85 of the immediate relatives. Following the ceremony and congratulations a three-course dinner was served, following which the bride and groom departed for a honeymoon trip to Houghton Lake in northern Michigan where they will spend a couple of weeks.

The bride is a successful teacher, having taught a number of years before taking the Francisco school which she has been engaged to teach the third consecutive year. The groom is a popular young man, having been engaged in building and real estate in Detroit a number of years.

Following their return to Francisco they will reside there for the present.

Mr. Jones, pastor of the Royal Oak Congregational church, conducted the services, which were witnessed by the immediate relatives of the couple.

The couple were attended by Miss Mary Schneider of Beloit, Wisconsin, a niece of the bridegroom, and M. B. Houghton, brother of the bride. Miss Doris Schmidt of Chelsea played the wedding march. Mr. Coats sang "Be- loved is Morn," being accompanied by Miss Thelma. A wedding dinner was served following the marriage ceremony.

The young couple will reside in Detroit in a new home built and furnished by the bridegroom.

Mr. and Mrs. J. Bacon, parents of the bridegroom, attended the wedding.

COUNTY FAIR SOCIETY ENTERTAINS WITH BANQUET

Supervisors, Newspaper Men and Ladies of County, Hear of Plans for 1926 Fair.

Members of the Washtenaw County Board of Supervisors and newspaper men of the county, with their wives, were guests of the Washtenaw County Fair Society at a dinner at the fair grounds Friday evening of last week. The dinner was served in the new poultry building just completed.

In an address by A. L. Watt, secretary of the fair, a brief outline of the accomplishments of the fair society during the past year and prospects of the fair for the coming season were given the guests. For the \$8,000 appropriated by the board of county supervisors last year \$2,000 has been used to build a new sheep barn, according to the speaker, and the other \$6,000 was used to roof the grandstand and build an addition to the same. Money received from resale of booths in the merchants' building is being used for further improvements, such as a complete new lighting system and a dining and dance hall. New driveways and walks have been constructed as well as drains to take care of surplus water in rainy season. Every precaution is being taken to insure the comfort of fair visitors this year and it is expected that, given fair weather, a capacity crowd will be in attendance almost every day.

Improvements in the kind and quality of free entertainment being booked by the fair society was noted by Mr. Watt. No shows of immoral character will be permitted and games of chance have been eliminated. Games of skill will be in evidence and there have been four "rides" provided, such as the ferris wheel, merry-go-round, the whip and caterpillar. The Hoaglan Hippodrome, which includes horse pushing, ball auto polo, a mule derby, Russian leaping bounds, high school horses, etc., and the gymnastic team of Gully and Jeanny are among the free attractions, while fireworks of both day and night variety will be furnished. The night fireworks will be chiefly patriotic due to the sesqui-centennial celebration of the Declaration of Independence.

A better fair than the people expect, is the aim of the fair society, the speaker said, and report of the various activities under way served to bear out this statement.

Chas. J. Hutzler, president of the fair society, in introducing Mr. Watt, spoke briefly of the ambitions of the society and cordially invited members of the supervisors and newspaper men and their families to be guests of the fair during the week of August 31, September 1, 2, 3 and 4.

NATURAL ENEMIES OF CORN BORER BEING INTRODUCED

European corn borers, effects of their ravages and methods of destroying them, are described in an article carried in Sunday's Jackson Citizen-Patriot, much of it referring to the quarantine established five miles this side of Grass Lake on M-17. In the closing paragraph of the article the latest method of destruction is described and "The Standard" reprints it herewith for the information of its readers:

Experiments are continuing with two natural enemies of the corn borer, both imported from the native land of the pest, but it yet is too early in the game to determine whether these will be successful. They are small insects, much resembling small flies, which are parasitic to the corn borer. Eggs of the insects are laid either on or within the bodies of the corn borer larvae, where they hatch. Then the larvae of the flies proceed to devour the corn borer worm. It is said that in Monroe county, these tiny flies have proven very effective, but it is yet too early to determine whether or not the flies will withstand the rigors of the Michigan winter.

NOTTEN ROAD

Mr. and Mrs. Elmer Kirby of Jackson, Ed. Frost and family of Flint, visited at the Schenk home Sunday.

Master Winston Schenk was quite seriously injured by being struck by an auto on M-17 recently. At this writing he is much improved.

Donald Mitchell returned to his home in Detroit Sunday, after spending a week at the home of T. G. Riemen-schneider.

Arthur Wahl and family, Mr. and Mrs. Henry Gieske were at Pleasant Lake, Sunday.

Mr. and Mrs. Fred Notten and Mr. and Mrs. E. J. Notten visited the Oakland farm near Ann Arbor, Thursday.

The term sweetheart was originally written in the form of two words. It is found in literature as early as 1290, though there is no record showing by whom it was first used.

Values of Steel

Pig iron, worth \$25 a ton, when made into piano wire, is worth \$50,000 a ton; as hair springs, its value is \$5,000,000 a ton, and as surgical instruments it is worth \$2,500,000. This shows the way man's work increases value.

Birds Make Home in Mud

The home-making of the ibis in Australia entails the treading down of reeds into the mud. Each year thousands of the birds gather at the junction of the Lachlan and Murrumbidgee rivers and make their nests. The birds utter booming sounds heard for miles. The young are tapestry and subject to easy drowning.

Needle Mystery

"A western Kansas man found a proverbial needle in the straw stack. How it got there he doesn't know, but after he slid down the stack it required an hour for the surgeon to get the needle out," so records the Salt Lake Journal. It was probably a needle some farmer lost when he "sowed" his wheat.—Capper's Weekly.

What's going into your Basement?

Are you thinking of laying in a big supply of dirt and ashes and hard work for the coming winter?

Of course not, you remonstrate. You're merely going to get in touch with your dealer to make sure of next winter's fuel supply. Yet, what he'll deliver, after a large payment in advance, is really only dust, smoke and ashes in the end.

The man who burns gas in his furnace doesn't worry in summertime or any time about next winter's fuel supply. He doesn't pay out money six months in advance for winter warmth—he pays after enjoying the warmth. His wife has no ordeal with a tramped-up lawn and a dirty, sooty house while getting the fuel into the bins. Gas is in the pipes, ready and waiting for the first winds of Fall.

Now, before winter comes, is the time to have a gas furnace installed. Investigate gas before you order solid fuel.

Editorial

CARELESSNESS

A "Careful Crossing" campaign is being conducted by the railroads of the United States. This great effort to preserve human life should have the support of the entire public. Investigators have repeatedly pointed out that practically every grade crossing accident was the result of carelessness. Carelessness of the people is a factor to be abated by none save themselves. That explains why trespasser casualties have decreased but little while there has been a varying increase in crossing accidents, amounting last year to 21 per cent. The railroads, it would appear, are doing their utmost to conserve human life and limb, but the great public, careless and heedless, is not co-operating in the safety policy as it should and might.

WHAT REALLY COUNTS

It is not the critic who counts; not the man who points out how the strong man stumbles, or where the door of deeds could have done better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly, who errs and comes again and again, because there is no effort without shortcoming and error; but who actually strives to do the deed, who knows the great enthusiasm, the great devotion, who spends himself in a worthy cause, who at the best knows in the end the triumph of high achievement, and who at the worst, if he fails, at least fails while daring greatly, so that his place will never be with those cold and timid souls who know neither victory or defeat.—Theodore Roosevelt.

TREAT THE TOURIST RIGHT

Michigan is now at the height of the tourist season, a time when thousands of visitors are spending their vacation days among the splendors of our scenic wonders. We have invited this great army to visit us. We have asked them to come here to renew their youth and fortify themselves against the other months of the year when they have turned back to the grind of everyday life.

Michigan wants them to come again, to know that this is a state where our welcome is real and where they will feel that an annual visit is worth while. We cannot hope to accomplish this if we do not treat them as a stranger has a right to be treated. From isolated sections of the state come complaints that the tourist is being charged exorbitant prices, that he is being gouged to the last penny. This is mighty poor practice and should be frowned upon by every community. When we overcharge the tourist we are killing the goose that wants to lay for us the golden egg. If we want to make Michigan great as a summer resort state, the first thing we have got to learn is to TREAT THE TOURIST RIGHT!

RAILROAD MANAGEMENT

Despite the efforts of some radical politicians who are constantly endeavoring to find solutions for transportation ailments through political nostrums instead of through economic correctives, the railroads are managing to conduct themselves without much embarrassment from the political quacks. A few decades ago every politician seemed to have some political suggestion for handling railroads. A few of these had merit. In fact, there was a time when some railroads needed to be forged into changes of direction. But of late years the roads have realized their responsibilities and their duties to the people and, generally speaking, have conducted themselves properly.

The past five years have demonstrated that the rail lines are managed with consummate skill and business ability. The records show that we have the most satisfactory transportation service the country has ever known. And this was accomplished in the face of handicaps which at some seasons were serious. Transportation is an economic rather than a political problem and it will be able to solve its problems only when the politicians quit harassing them with new and Frank schemes which recognize no economic laws. The roads should be allowed to devote all their time and energy to the conduct of their business instead of being confronted with political problems which should have no place in railroading.

THE FASHION DETAILS OF THE FALL FROCKS ARE THE ALL IMPORTANT THING

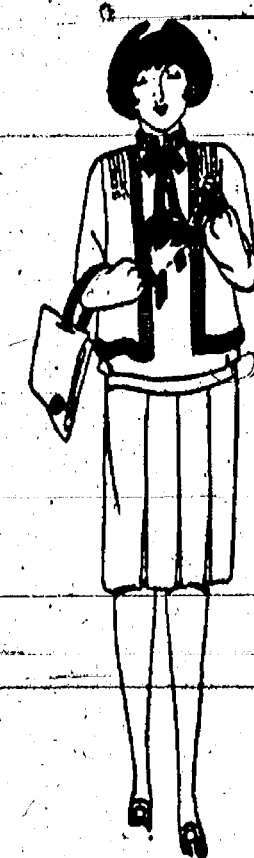

\$25.00

The Fashion details, this season, give prominence to the more feminine mode. Yokes are good, especially if they are pointed. Pleats appear in clusters at the sides of the frocks they adorn. Irregular hemlines entitle dresses to special attention and a bolero on your frock marks you as fashion knowing, and incidentally takes five years from your age. Blousiness at the waistline is probably one feature that you will notice more than any other. See that it finds a place, somewhere in your wardrobe, if you would be considered fashionable.

The newest satin and crepe frocks are it gorgeous, fall shades. Claret red, Tiffin, Spanish Raisin, Navy, Jungle Green, Rustic Brown and the ever-smart Black. Many are authentic copies of exclusive models that have recently appeared in New York.

Our new fall dresses are not just a stock of sizes. We have shopped for them with you in mind and in accordance with your desires and preferences. So there is an individuality about these frocks. Come in and tell us your requirements and we will gladly show you the most interesting of the new fashions that will answer them most gratifyingly.

BREVITIES.

MUNITH—The annual reunion of the Dewey family was held at the home of Mrs. Mary Dewey on Saturday.

BROOKLYN—The public school here will open on Monday, September 20. Prof. A. J. Skinner will be the superintendent for the coming year.

MANCHESTER—Manchester will not get work done by the state or county on the project of paving through the village because they intend to put a paved road around the city of Ann Arbor this year, is the report.—Enterprise.

STOCKBRIDGE—Mr. and Mrs. Geo. Sly's combined ages are 165 years and 11 months. Mrs. Sly was 80 years old June 10, and George will be 86 years old October 10. Mr. Sly is pretty active for a man of his years, does his home chores and is about town every day.—Brief-Sun.

SALINE—While peacefully sleeping in his room at The Tavern last Wednesday night, someone relieved E. A. Hauser of \$94, leaving a quarter in a side pocket of his coat. Evidently didn't want E. A. to be without funds for breakfast. We understand another lodger missed a smaller amount from his room.—Observer.

POWLERVILLE—The council voted Monday evening to install two stop and go lights, one at the corner of Grand River and Grand Ave. and one at the school corner on Grand River. We are sure this action of the council will meet the hearty approval of a large majority of our citizens.—Review.

JACKSON—Three Detroit women narrowly escaped serious injury if not death late Thursday afternoon when an automobile in which they were riding at a high rate of speed, got out of control on M-17 west of Jackson, stopping only when striking the heavy guard rail at the side of the trunk highway.

BRIGHTON—Last Saturday, August 7, marked the opening of the last stretch of pavement which makes a complete ribbon of concrete from Detroit across the state through Brighton, Howell, Powlerville, Lansing, Portland, Grand Rapids and on to Grand Haven. There are now no detours, nor no unpaved sections on this 182 miles which is known as M-16.—Argus.

ANN ARBOR—The Washtenaw Post, of Ann Arbor, which was founded by Eugene E. Helber something like 40 years ago, and has been in continuous possession of Eugene E. Helber and his son James E. Helber ever since, has been sold to C. H. Hemmingsway of Polo, Ill. When Mr. Helber, senior, died in December, 1922, Mr. Helber junior became the sole owner and publisher, and he is now retiring on account of ill health.

CLINTON—The new cement pavement between Ypsilanti and Saline will be opened Friday, August 20, making a complete cement road into Detroit. To celebrate this important event, the Board of Commerce at Ypsilanti will give a banquet at the new Huron hotel in that city August 20, and will entertain the village officials and others who have been interested in road work, of Clinton and Saline.—Local.

SOUTH LYON—Babe Ruth, champion slugger of the American League, with Paddy Sexton, Detroit real estate man, who were arrested at Island Lake in June for breaking Michigan game and fish laws and who were freed by officials at Howell, were called back by Deputy State Game Warden Allen Wilkinson, and ordered to appear in justice court at Brighton, Monday, where the two paid \$50 in fines.—Herald.

MILAN—Coy VanderVeen, of Grand Rapids, dropped dead while at work on the new school building here last Thursday morning. Death was attributed to heart failure according to the reports of E. C. Ganzhorn, coroner who was called. VanderVeen was a steam fitter employed on the building. Workmen who were with him at the time of his death say that VanderVeen was apparently in good health and had been jovial and pleasant during the morning. A companion caught him as he fell, but he died at once. The remains were taken to the Blackmer parlors and later removed to Grand Rapids for burial.—Leader.

EATON RAPIDS—The long anticipated work of construction of the Veterans of Foreign Wars National Home began this week Tuesday with work on the Michigan Building for which an appropriation of \$20,000 has been made by legislature. At a recent meeting of trustees of the Home which was attended by Governor Grosbeck, it is stated that assurances were given by the Governor that an additional sum can be secured if needed in support of this great enterprise. It is planned to spend about \$16,000 on the Michigan building, including plumbing, and electrical work. It is to be fireproof. There is to be a meeting of the trustees at the Home on August 31, also a flag raising.—Review.

Sorta Good?

"The greatest woman in history is the wife of a man of moderate means who does her own cooking, washing and ironing, brings up a family of girls and boys to be useful members of society and finds time for her own intellectual and moral improvement."

Hard-Working Novelist
 It is said of Charles Dickens, that whenever he emerged from his home after working on one of his novels, he was as haggard looking as a beggar. And the experiences of other authors indicate that novel writing requires a close confinement that is not altogether good for the health.

A Small, Desirable Community---Less Than 300 Lots at
Inverness
 Country Club

This is a small and restricted community of summer homes, that's one of the reasons why Inverness Golf and Country Club, located on the shores of North Lake, are so popular. Here the entire family will find rest and recreation—safety for the children, peace and comfort for the grown-ups, missing all the objectionable features of the average summer colony.

All forms of summer sports are possible here. There's fishing, swimming and boating for those who enjoy the water. Now playing 6 holes of the nine-hole golf course. A 12-room club house, which the members of the community will own, is already on the property. You'll be as enthusiastic as those who have already purchased here, when you see this community. A membership in the Club goes with every lot.

The third Sunday in June has been set aside as Father's Day. Mrs. John Bruce Dodd was the founder of this day and the Y. M. C. A. and Ministerial Association of Spokane, Wash., brought her idea to the attention of people throughout the country. Father's day was first celebrated in Spokane in 1910.

WITH LAURA LA PLANTE

It isn't the cost, it's the upkeep, but you'll have a glorious time watching Denny find that out.

It will give you more laughs in every reel than a centipede has legs. It's an uproarious business farce showing what a dress suit can do for a small salaried clerk with the right kind of wife who knows how to Charleston. Laughs overlap like the scales on a fish.

Have your old shoes resoled and heeled. It will cost on the average about 4 as much as a new pair. The soles will outwear any new leather sole to say nothing of the comfort you retain.

Cosmopolitan South Africa

South Africa is among the most cosmopolitan places in the world, according to L. Kee, writing in the Sydney Bulletin.

"I saw a suitcase in the window of a shop in Durban and decided to buy it," says Kee. "A pleasant Hindu took my order and requisitioned a negro boy to get the suitcase from the window. A girl (niece) was visible, but because only (niece) eyes were visible, they (her whites) typed the sale note, and an aged white man took my cash. Finally a Zulu, dressed like Beelzebub, rickshawed me and the case to the hotel. Each addressed the other in a different tongue."

Fog's Effect on Air

Foggy air weighs more than clear air. All the other conditions are alike, and more per cubic foot, say, by the weight of all the fog particles in that cubic foot—less the weight of the air displaced by these particles. However, this fog weighs very little, and so dry air and foggy air, when the other conditions are identical, weigh almost exactly the same.

"Whipping the Cat"

In colonial days an apprentice who had completed his term of service in learning the shoemaking trade usually started out in business in a manner that was known as "whipping the cat," which meant journeying from town to town, living with a family while making a year's supply of shoes for each member of the family and then leaving to fill other engagements previously made.

Early Wall Paper

Skins of animals were the forerunner of the existing wall-paper in England and were later succeeded by tapestries and painted cloths. The first patent for the manufacture of wall paper in England was taken out in 1692. It was soon the custom for an American bridegroom to give his bride a set of English wall papers as a wedding gift.

Palestine For the Jew? Why?

Among the remarkable and significant movements of the present day none is more interesting and worthy of note than that of the Jews rebuilding Palestine. After having been desolate for almost nineteen centuries the land is gradually being restored to fertility and modern cities are being built by ardent Jews from all parts of the world. They have bought thousands of acres of marshes and waste lands and are turning them into a paradise. Will Palestine be fully restored to the Jewish people? This is a question that suggests itself to the thinking mind. And what is the significance that the Bible attaches to this movement? You will enjoy hearing a lecture on the subject by

COUNTY FAIR NOTES

Washtenaw County Fair patrons are assured interesting, entertaining and educational displays in the poultry building and ravine in the nature of State Department of Conservation displays. These displays have many special features, including four fawn, cub, bear and extensive aquarial exhibits of numerous species of Michigan game fish. In addition the State Department is furnishing an exhibition of furs typifying predatory animal control and displays showing methods of game protection, fire control and reforestation. This exhibit was obtained for Washtenaw County Fair by Commissioner George W. Miller of Ann Arbor.

The completion of the new sheep barn and grandstand and the installation of much-needed high tension light and power system throughout the grounds; new fence along south and west sides; improved roads and track and erection of dining room and dance floor, which is well underway, will, when finished, round out Washtenaw County Fair's greatest expansion year since location on the new Jackson Avenue grounds.

Improved and extensive exhibitions in each of the sixteen departments of the fair are assured and indications point to five great days and nights of pleasure, education and entertainment August 31 to September 4.

Representatives of eight base ball teams from various parts of Washtenaw County met at the Fair office recently and arranged for a tournament at the 1926 Fair. Each team gave a list of players it will use; posted forfeit of fifty dollars for appearance and drew number for its opponent. The eight teams are Salem, Warden, Dexter, Unadilla, Liberty Street (Ann Arbor), Saline, Manchester and D. Mulley of Ypsilanti, winners of tournament at 1925 Fair. The drawing for opponents, which aroused keen interest, resulted as follows:

Salem drew Dexter and will play the first game at 1:30 Tuesday, August 31.

Warden drew Unadilla and will play second game at 3:30 Tuesday, August 31.

Manchester and Ann Arbor will play at 10 Wednesday, September 1.

Saline and Ypsilanti will furnish the entertainment at 3:30 Wednesday afternoon. Tuesday's winners will play Thursday; Wednesday's winners will play Friday and Thursday and Friday's winners will play Saturday for county championship and Ann Arbor Chamber of Commerce trophy.

The diamond is in excellent condition; new dressing rooms have been built under the grandstand; Harold Guy of Milan will umpire and all indications point to an interesting tournament throughout.

Fox Fires No Longer

Cause Childish Fear

Boys and girls nowadays seldom experience the thrill of seeing a mysterious light glowing dimly in the depths of the forest or gleaming from some half-buried, rotten log in a lonely swamp. The cutting away of the forests and the draining of swampy land have caused from much of the landscape the causes which produce fox fire. In early days, however, the feet of pioneer children often were sent scurrying home in the twilight when their owners came unexpectedly upon a light which seemed to have no source, says the Indianapolis News.

Ghosts and goblins and all sorts of evil omens ever have been associated with the appearance of fox fire and will-o'-the-wisps. There long has been a difference of opinion regarding the cause of fox fire, but now it is generally contended to be due to a living fungus growth which permeates decaying vegetable matter and which possesses the power of emitting waves of light. No sensible heat waves are thrown out, and in this respect fox fire resembles the light emitted by fireflies and glowworms. Many a ghost might have been traced to its lair had the origin of phosphorescence been understood better, especially in the countries where the will-o'-the-wisps are reputed to be of frequent occurrence.
