REPUBLICANS SWEEP STATE IN TUESDAY'S ELECTION

Ernest M. Wurster, Democrat, Wins Election for Sheriff Over Dick Elliott; J. S. Cummings Elected.

Fred W. Green, candidate on the republican ticket for the governorship of Michigan, on Tuesday was swept into that office by a vote which is expected to mount above the 140,000 mark when final tabulations are made in the state contest. With him went the entire state republican ticket with large majorities.

In the county contest two democrats emerged victorious. Ernest M. Wurster, candidate for sheriff on the democratic ticket and Harry H. Atwell, democrat, candidate for surveyor or will occupy the respective offices during the next two years. Mr. Wurster won over Dick Elliott, republican, by a majority of approximately 500 votes, while Mr. Atwell was unopposed.

John S. Cummings, republican candidate for the office of register of

FRED W. GREEN Governor-Elect

deeds won over Frank Stimpf, democrat, with a majority of approximately 2800.

In Chelsea it appeared to be a fairly good democratic day. Mr. Comstock, democratic candidate for governor, carrying the two precincts of Sylvan with a majority of 134 votes. Wurster's majority over Elliott locally was 67. Otherwise the entire republican ticket carried with substantial majorities.

The figures in Sylvan township are as follows:

FIRST NUMBER OF LYCEUM COURSE WILL BE TONIGHT

The first number of the Lyceum course, L. Grove Herbert, popular lecturer and author, will be given at the new high school auditorium this evening. If you have not already purchased a season ticket and wish to do so, they can be purchased at the door any time before the lecture this evening. While patrons have been fairly liberal the ticket sale has not yet reached the stage where it will be a profitable investment for the school, under whose auspices the course is being given. Proceeds realized from sale of tickets will be used to help buy furnishings for the stage and auditorium.

MRS. TERRANCE FOSTER PASSED AWAY THURSDAY

Mrs. Terrance Foster, 38, died Thursday at her home in Lyndon township. She was born October 9, 1888, in Sharon township, and formerly was Miss Mable Dealy, daughter of Gerald and Bridget Dealy. She was married Nov. 17, 1919.

She is survived by her husband and two sons, Neil and Clarence, at home; a brother, Michael Dealy of Chelsea; and three sisters, Mrs. Nellie Madden of Chelsea, and Misses Etta and Mary J. Dealy of Detroit.

The funeral was held Saturday forenoon at St. Mary's church, Rev. Fr. Fallon celebrating the mass. Burial at Mt. Olivet cemetery.

FIRE CAUSES DAMAGE TO JOHN SCHENK RESIDENCE

Fire, said to have been started by defective electric wiring in the attic, did considerable damage to the upper part of the John Schenk apartment residence on South street at noon on Tuesday. Water used in fighting the fire, added greatly to the damage in the lower part of the residence where walls and ceiling were completely water-soaked.

Practically all of the damage done by fire was confined to the attic and roof which will necessitate complete re-building. The fire started over the apartment occupied by Mr. and Mrs. Vance Ogden and it was there also that the greatest damage was caused by water. Furniture from this apartment, however, was moved into the adjoining apartment and saved from any great damage.

TROLZ-VOGEL WEDDING

The marriage of Miss Beatrice Trolz, daughter of Mr. and Mrs. Wm. Trolz, of Manchester, and Mr. Clarence Vogel, son of L. P. Vogel, took place on Tuesday, October 26, 1926, in Highland, Ohio. The couple were attended by the bride's sister, Miss Mabel Trolz, and Mr. Floyd Steffe, both of Ann Arbor.

Mr. and Mrs. Vogel will make their home in the Gulde house, corner of West Middle and Grant streets, Chelsea.

DR. FAYE PALMER WILL OPEN NEW DENTAL OFFICES

With completion of the new suite of offices in the building recently purchased of the Gorman estate, located on East Middle street, Dr. Faye Palmer will, on November 27, be "at home" to the public in the new location. His offices in the Wilkinson building will be closed November 16 and from then until the 27th no work will be done by Dr. Palmer.

COW TESTING ASSOCIATION ISSUES MONTHLY REPORT

Two hundred and ninety six cows were tested during the month of September in the Chelsea-Washtenaw cow testing association, according to a report just issued by the association. Grant Crowell, 39 cows were dry. Ten new cows were entered in the association; 8 cows produced above 30 pounds fat; 11 above 1200 pounds milk; 23 herds were tested. The average production per cow in the association was 587.5 pounds milk and 22.4 pounds fat. Six grade cows were sold, 4 grades and 2 purebreds bought. Ten men are keeping daily milk records.

IN APPRECIATION

I wish, by this means, to express my sincere appreciation to the voters of Chelsea and vicinity, for their kind support at the polls Tuesday, when a majority of approximately 500 votes was given me. I will endeavor to give this vicinity the protection and attention needful in the discharge of my official duties.

Ernest M. Wurster.

L. G. PALMER AND MISS LOIS STOKOE WED AT ANN ARBOR

Will Reside in Ann Arbor Following Bridal Trip to New York City and Other Eastern Points.

Mr. L. G. Palmer and Miss Lois Stokoe were quietly married at the parsonage of the Methodist church in Ann Arbor at four o'clock Saturday afternoon, Dr. A. W. Stalker, pastor of the church, performing the ceremony. They were attended by Dr. A. A. Palmer, brother of the groom, and Miss Lola Stokoe, sister of the bride.

Both Mr. and Mrs. Palmer are highly esteemed residents of Chelsea, the bride being a member of the teaching corps in the local public schools, a position which she also occupied last year. Mr. Palmer is proprietor of the Palmer Motor Sales of this place.

The bridal couple left immediately after the ceremony Saturday for a wedding trip to New York City and upon their return will reside in Ann Arbor.

OFFICERS ARE LOOKING FOR THIEF OF DETROIT CAR

Officers here are on the lookout for "Lize" Policht, Chelsea youth, who on Saturday night stole a Ford touring car in Detroit Saturday night and drove it here Monday night. The car belongs to Wm. Schilke, 7623 Wetherby Ave., Detroit. When officers Wm. Atkinson and Frank Leach went to the home of Policht Tuesday morning about seven o'clock to arrest him, he fled the house via the porch-roof route, barefooted and bareheaded while the officers waited at the front door for his appearance. It is said Policht was seen Tuesday evening near Lima Center, headed for Detroit, and that he had procured hat and shoes somewhere in the meantime. Mr. Schilke was in town Wednesday making arrangements to return the car which had been stripped of coils and spare tire by Policht. He also took back to Detroit with him a ten-year-old boy who accompanied Policht to Chelsea in the stolen car.

WAR DEBT SETTLEMENTS TO BE DISCUSSED BY PASTOR

Rev. A. E. Potts of the local Congregational church in the near future will discuss the European war debt settlement. Rev. Potts is writing letters to several prominent clergymen and statesmen throughout the nation, including Parks S. Cadman, who for twenty-five years has been pastor of Central Congregational church, New York, Harry Emerson Fosdick, Chester B. Emerson, Lynn Harold Hough, Bishop Page of the Episcopal church, Bishop Gallagher of the Roman Catholic church, and Hon. Earl C. Michener, representative in Congress. Also the local business and professional men. The idea is to get the reaction of the ordinary citizen as well as the leaders in national affairs.

It is a question which affects every citizen of the country, therefore it is a question which every citizen should make an earnest effort to understand. While the question may not be answered perfectly through the questions under discussion, they will, however, serve as an incentive to a more thoughtful attitude, a closer study, and a better understanding on the part of all who participate.

COLLEEN PORTRAITS GIRL'S HARDSHIP

"It Must Be Love," Coming to Princess Next Week; Is Appealing Drama.

Another of the heart appealing dramas, which Colleen Moore knows so well how to deliver, is the promise of First National in her latest screen vehicle, "It Must Be Love," which will be shown at the Princess Theatre, Wednesday and Thursday, November 10 and 11.

In this human story of a New York girl's struggle against the mediocrity and misunderstanding of her parents Colleen Moore has given to the screen a dramatic bit of life familiar to everyone who has been brought up in the midst of the crowded city. Because she wanted to have a nice home, where she could bring her friends without a feeling of inferiority, this girl, as portrayed by Miss Moore, had to sacrifice the love of her father and almost broke her mother's heart.

The parents conducted a delicatessen store and lived in back of it. Certainly these well meaning citizens were not giving their daughter a fair chance in the face of all the competition the modern girl must combat in keeping real friends.

How the girl left home for her own ideals and found the man she loved makes a most interesting and unexpected development.

Miss Moore has the support of a splendid cast in this First National release. It includes Joan Herzholt, Malcolm McGregor, Arthur Stone, Rodin Rosing, Clove Moore, Dorothy Seastrom and Mary O'Brien. Alfred E. Green directed the picture, which was adapted from Brooke Hanlon's short story, "Delicatessen." John McCormick presents the picture.

"gas chats"

Roger Babson says--

Whatever Babson has to say falls on attentive ears among business men. They pay thousands of dollars yearly to subscribe to his bulletin on industrial and financial conditions. Here's part of his latest report on the gas industry—

"The reason for the tremendous growth in the use of gas is not hard to understand. Gas heat, like electrical heat, is a clean, controllable and convenient heat. As compared with coal its expense eliminates the expense and nuisance of coal storage and handling and ash removal. I understand that an efficient gas manufacturing system extracts up to 85 percent of the possible heat in coal.

"The advantages of gas for industrial heating purposes are very marked. It has been adapted to literally thousands of industrial processes and this number is growing constantly. Manufacturers find that in processes where gas has been substituted for coal, products of better quality are made, because the gas heat can be perfectly controlled. Furthermore it has been found that there is generally possible a marked increase in production."

FATHER AND SON WEEK

One of the most worthwhile among the many special weeks of the year is "Father and Son Week," which is announced this year for the week of November 7-14. This is a splendid institution, which has grown tremendously of late years, and rightfully so. The movement should receive the encouragement of everyone. It is a week when many things occur to bring fathers closer to their boys, and boys closer to their fathers. In the modern time in which we find ourselves, this taking an inventory of parental and filial obligations is a splendid thing.

ARMISTICE DAY

On Thursday, November 11, this nation will observe the eighth Armistice Day since the signing of that historic document on the blood-soaked fields of Flanders. Men and nations forgot. Wounds that were deep, wounds festering and rubbed with the salt of hate, have healed in the sunshine of a new day, scars that were thought ineffaceable are vanishing as the years pass on. Once more men and goods travel the seas where sailed the grim destroyers, and the plow turns ever deeper the buried hatreds of the greatest war. And it is well that we forget.

But let us not forget those who, when the nation called in those stormy days, were the first to answer. So let us join on Armistice Day this year in paying silent tribute due, reverent homage to Our Glorious Dead.

PEDDLER TYPES

When this newspaper warns against the peddler, we do not wish to be construed as including our own townspeople; taxpayers of the community, who may wish to carry on a business that necessitates a house to house visit. Neither should we include the farmer who wishes to dispose of his products in the residential districts. These people have a legitimate right in the general plan of merchandising, and there should be no attempt to legislate against them.

But there is a class of peddlers that we should avoid. They are the well-fed, sleek individuals that swoop down upon us from the large industrial centers, with the sole purpose of preying upon the public by peddling inferior goods at high prices. There is a distinction in the peddler class, so-called, that should be carefully analyzed and no hesitancy shown in turning down those unworthy of your patronage.

EDUCATIONAL WEEK

The state has just emerged from a strenuous political campaign, during which much was heard about those who neglect their duties of citizenship by remaining away from the polls. The right of franchise in a democracy should be exercised by every individual, but many deny themselves of that privilege and thereby permit rule by minorities and government by blocs. Not only in protection of our liberties is it important that we make use of the ballot, but there are many other duties that fit into a republican form of government in the making of a patriotic citizen. During the week of November 7-13, which will be known as "Educational Week," the duty of citizenship will be clearly outlined in a constructive program lasting over a period of seven days. The work and needs of the schools will be stressed, and it should not be necessary to urge the general public to take part in this program, which will be held in the schools and churches throughout the state and nation.

MORE BUSINESS PREDICTED

Car surpluses have been wiped out by the swelling traffic of the railroads and every one connected with transportation is being urged to do everything possible to conserve equipment in order to avert a car shortage. Commodity committee reports generally predict a busier season for the next three months than for the last three months of 1925. Inventories and stocks of raw materials are about the same as last year, and in some instances slightly less. Reports of commodity committees show that business conditions in the agricultural and general machinery industry are exceptionally good at this time, a few manufacturers of agricultural equipment reporting an estimated increase in volume of shipments of 50 per cent over the last quarter of 1925. The excavating and material handling machinery business is in a healthy condition owing to belated letting of public work due to the late spring.

RAILROAD WAGE STATISTICS
The Interstate Commerce Commission has issued its monthly compilation of railroad wage statistics. The report states that class 1 railroads of the United States had 1,857,219 employees as of the middle of July, and that their total compensation for the month was \$254,617,054. The number of employees shows an increase of 23,598 or 1.3 per cent over the month of June, and the compensation an increase of 2.2 per cent, due according to the statement to an increase in the number of hours worked per employee and a larger proportion of overtime.

African Locusts Large

In certain parts of Africa the locusts are said by explorers to grow to an extraordinary size. In some places, it is reported, they attain the length of four inches, and eat much as their ordinary food.

Keep Fit!

Good Health Requires Good Elimination

To be well, you must keep the blood stream free from impurities. If the kidneys lag, allowing body poisons to accumulate, a toxic condition is created. One is apt to feel dull, languid, tired and aching. A nagging backache is sometimes a symptom; with drowsy headaches and dizzy spells. That the kidneys are not functioning properly is often shown by burning or scanty passage of secretions. If you have reason to suspect improper kidney functioning, try Doan's Pills—a tested stimulant diuretic. Users praise them throughout the United States. Ask your neighbor!

BREVITIES.

MANCHESTER—Henry Ford and his secretary Frank Campbell, of Dearborn, were Sharon Hollow callers on Friday. Mr. Campbell came again on Tuesday and brought some white wood logs of Ashley Parks. Who knows but what Sharon may yet be a material for the well-known Lizzies Enterprise.
MILAN—With several faults and rooms still in the process of completion, the regular sessions of the Lincoln Consolidated school started as per schedule last Monday morning. Many of the rooms are not yet ready for occupancy, but work is progressing rapidly and the work of the contractors is being pushed.—Leader.

GRASS LAKE—In the special election, Monday, the proposition to turn the Electric lines and equipment over to the Consumers Power Co. carried by almost a four to one vote. 253 ballots were cast, 150 in favor and 103 against. There were 14 ballots not correctly marked which were thrown out.—News.

NORTHVILLE—J. W. Cleaver completed his apple harvest the first of the week and he gathered over 4,000 bushels. He sold to Herman C. Nagle of Detroit 3,452 bushels. The abundance of the apple crop generally made prices too cheap for profit because choice hand-picked stock sold in this section for \$1.00 per bushel.—Record.

FREEDOM—Mrs. Erwin Haessler, teacher of Freedom District No. 6, reports the following pupils neither absent nor tardy during the month of October: Edwin Glatz, Paul Haessler, Wanda Hoebner, Lodeina Koebbe, Alta and Frieda Scherdt, Lester and Howard Diebs, Margaret and Leonard Uphaus, Paul and Rubena Blumenauer and Loren Traub.

SOUTH LYON—Eighty-two and three-fourths miles of Covert roads are to be built in the county in 1927, according to the road program adopted recently by the Board of Supervisors. Of that number 67 will be concrete, 16 of gravel. This includes the Commerce road from the Orchard Lake pavement to the village of Commerce, and the south Milford road, from the Grand River pavement at New Hudson to the pavement at Milford. The program was adopted unanimously, but under the state law must again be approved by the Board before the commission can proceed.—Herald.

BROOKLYN—Hunters who went forth the first of the week in quest of the proud pheasant, the frisky squirrel and the fat rabbit, had all kinds of luck, good, bad and indifferent. After finding a farm that was not posted or getting permission of the owner the next thing was to find the game. Plenty of foliage still on the trees and undergrowth, six inches or more of water in all the marshes and a cold wind with snow flurries kept the game under cover. The first day saw quite a number of fine cock pheasants brought down. Squirrels were hunted up and rabbits were all hiding in grass tufts and not easily found.—Exponent.

HAMBURG—Thirty-day options have been obtained on a number of farms in this section which, if the deals are consummated, will be the largest real estate deal ever put through in Hamburg township. The farms on which options have been paid are: William H. Gilbert, Paul Engle, Henry B. Pryer, Mrs. Aura M. Condit, Charles M. Roiser, William A. Sheffer, Douglas Hall, a portion of Manley R. Bennett's and Dr. Alex H. Pearson's, H. G. Beach, Thomas W. Featherley, and the John Humphrey and Edwin Inslee farms; also Lemon and Leece farm in Green Oak, and some others are liable to be included. The acreage is ten or twelve hundred acres.

FOWLerville—As G. L. Adams and William Craig were returning from Ann Arbor Friday evening where Mr. Adams had delivered an address at the annual meeting of the University Press Club, when about three miles south of Howell the car suddenly shot out of the road without any warning or seeming provocation and landed against a tree by the side of the road. Both men were cut about the head and face from the glass in the windshield and Mr. Adams had a fractured rib from the contact with the steering wheel. A passing auto stopped and took the men to the office of Dr. J. E. Brown at Howell where the cuts were sewed up and Clyde Wright very kindly brought them home.—Review. Mr. Adams is the editor and publisher of the Review.

CELERY'S PREFERENCE
While celery grows naturally on low, moist, well-drained soils, especially on the muck lands of the north-eastern United States, it can be grown on almost any type of soil provided enough plant food is present and water is supplied during the dry periods. Most of the successful celery-growing enterprises, however, are located on the low-lying muck or the "hammock" soils. The muck soils that are underlain with marl or some form of material bearing calcium carbonate are considered best for celery growing.

From Height to Height
Like a horse after running, a dog after tracking the game, and a bee after storing honey, so a pup, after some good food, does not call others to come and see, but goes on to do another deed, as the vine proceeds, to produce grapes season after season.—Marcus Aurelius.

Rays Make Hens Lay
Ultra-violet rays, besides making animals and human beings grow faster, have a tendency to make hens lay often, according to French doctors who have been at work in this field. It is said also that the rays will make cows give more and better milk.

DESTITUTION OF NEAR EAST SUFFERERS TOLD AMERICANS

Tragic pictures of little children menaced by death from cold and exposure, as well as starvation, are portrayed in a call issued by the Michigan State Committee of Near East Relief, asking financial aid to save the thousands who were victims of last week's Armenian earthquake.

Nine thousand little wards of American charity, miraculously rescued from shattered stone buildings, are without shelter, compelled to lie on the ground in a country where winter has already started. Snow and zero weather are expected within thirty days. Faced with a deficit of two hundred thousand dollars because of lagging contributions, the Near East Relief, sole protector of these children, finds itself in sore straits.

An emergency appeal from the state relief committee of which Luren D. Dickinson, in chairman, has gone from the state headquarters, 1105 Stroh Building, Detroit. All funds are handled by Joseph W. McCauley, president of the Commonwealth Federal Savings Bank of Detroit, as treasurer of the state relief committee. It is urged that unless funds are at hand to provide shelter for the orphan tots within the next fortnight, the keenest distress will follow.

Six hundred lives were lost in the disaster which devastated Armenia, dispatches say, and to aid stricken families all nurses, surgeons and

FRUIT MEN WILL HOLD ANNUAL STATE MEETING

Horticultural leaders of the state will meet at Grand Rapids November 30 to December 2 for discussion of the problems of the fruit growing industry at the fifty-sixth annual meeting of the Michigan State Horticultural Society.

The forty-third annual meeting of the American Pomological Society will be held in conjunction with the Horticultural Society meeting. This will be the first meeting in 41 years of the Pomological organization to be held in Michigan. Charles A. Garfield, of Grand Rapids, was secretary of the Pomological Society at the time of their last meeting in the state. Mr. Garfield who is now over 80 years of age will be one of the speakers on the program this year.

Cash prizes will be offered in 12 classes in the Apple Show, in addition to special premiums offered by manufacturers of materials and equipment used in the apple growing industry in a special section of 22 classes. The State Horticultural Society is trying to persuade fruit men to grow fewer varieties and is limiting the number of varieties eligible for prizes to 20 as compared to 120 varieties that were eligible in 1923. There will be a judging contest for agricultural high schools and one for college students. M. S. C. students will enter in the oratorical contest on problems in fruit growing.

Prominent growers and leaders in

the fruit industry will appear on the programs of both the Horticultural Society and the Pomological Society. M. S. C. men who will appear on the program are Prof. V. R. Gardner, head of the horticultural department and Prof. R. H. Pettit, head of the entomology department.

Both societies will join in staging a banquet during the meetings. Paul Stark, president of the American Pomological Society will act as chairman.

Invented Heraldry
The origin of heraldic armorial bearings is a general concept attributed to the necessity which arose during the crusades of distinguishing the leaders of the numerous bands of warriors which constituted the Christian armies.

Triumph Over Evil
 In Greek and in northern mythology,
 and also in medieval legend, the drag-
 on represents the power of evil much
 as does the snake in the biblical story,
 and for this reason, just as Christlan-

 St. George, is pictured as victorious
 over the powers of evil as represented
 by the dragon.

Crops and Weeds

Generally speaking, the larger the
 crops the fewer the weeds present.

This is especially true with small
 grain and hay, since good stands of
 these crops will tend to smother out
 weeds. Furthermore, pastures that
 are given good care by top dressings
 with fertilizers free from weed seeds
 and by close but not destructive graz-
 ing always contain fewer weeds and
 more grass than those poorly managed.

Preserve Improvements

Home owners, as a rule, are too
 quick to install improvements in their
 houses, and too slow to do anything
 about preserving them. Not until an
 emergency arises, or until a big re-
 pair job is on hand, do most people
 realize the necessity of rectifying the
 results of their neglect.

Flowers in Sick Room

There is a theory that growing
 plants absorb certain elements from
 the air and for this reason it is not
 considered advisable to have them in
 a sleeping room. The effect would
 probably not be seriously detrimental
 in a sick room, provided the flowers
 did not have a heavy odor and there
 were not too many plants.

Franklin Never Atheist

Benjamin Franklin was not an athe-
 ist. According to one authority, for
 a while during his youth he was a
 skeptic, and he was never an ortho-
 dox Christian. His attitude, however,
 when he died was such that today he
 would be classed with the "liberal
 Christians."

Butterfly Travels Far

The Monarch butterfly has been
 found in the Hawaiian Islands, 2,000
 miles from the American continent,
 where the insect was not known prior
 to the establishment of its food plant,
 the milkweed, in the islands about
 1890.

End of World's Lifetime

For a while, at least, says the Popu-
 lar Science Magazine, we don't have
 to worry about the world's coming to
 an end. After doing a bit of simple
 figuring with bewildering rows of
 ciphers, Prof. F. K. Moulton of the
 University of Chicago now assures us
 that our earth still has some 800,
 000,000,000 years to go on whir-
 ling around the sun.

"The Little Giant"

Starring GLENN HUNTER with Edna
 Murphy and David Higgins.

A dramatized version of a man you all
 know. A regular high-pressure he-man
 salesman. But here's one time he gets
 HIS with the emphasis where it belongs.
 Glenn Hunter as the go-getting salesman
 in this refreshingly human satirical com-
 edy drama is good for what ails you. He'll
 keep you chuckling long after the final
 fade-out and win a goodly share of sympat-
 hetic tears.

 Here is Charles Ray back again in one of
 those lovable, wistful country-boy roles
 that have endeared him to millions. You'll
 say it's a perfect riot, and your laughs
 will be mixed with a tear or two, as you
 watch his blundering, honest attempts to
 win the heart of a Broadway butterfly.

The P. T. A. of the Maute school met at the home of Mr. and Mrs. John Tisch Friday evening, October 29, in the form of a Halloween party. Several of the members appeared in weird costumes, which carried out the true spirit of Halloween. After the business meeting, the evening was spent in playing games and a program given by the school children. It was decided that we should meet at the home of Mr. and Mrs. George Maute, November 19. Afterwards the members departed for their various homes, thanking Mr. and Mrs. Tisch for their hospitality. Miss Irene Young, teacher.

Miss Irene Young attended a Halloween party, given by her cousin, Naomh Leak at Lake Odessa, over the weekend.

CHEVROLET PROVES STURDY IN MOVIE FRONTIER TESTS

Sometimes only one car will do! Out in the motion picture sanctuaries of California, where money, genius and picturesque country unite to provide romantic and thrilling screen stories, the automobile is handed most strenuous assignments.

The motor car frequently gives its star performance behind the screen—unknown to the millions of moviegoers, who are often unaware of the vital contribution which the automobile has made to the taking of the picture.

When the motion picture director sets out to make a western film, the transportation department is confronted with the gigantic task of getting the entire company with all of their paraphernalia out to the great open spaces.

Use of motor cars and trucks has made possible filming pictures in backgrounds that have the authentic atmosphere of the Old West. Year by year, motion picture men declare, it is becoming necessary to go farther afield to secure new and unspoiled scenic effects.

Hal Roach, of the studios which bear his name, recently established a permanent camp at the Big Horn ranch near Moapa, Nev., as a headquarters for the use of his production companies when engaged in making western pictures.

A marked absence of roads is one of the chief beauties of the surrounding country from the standpoint of the directors but the transportation department found it very difficult to establish communication in many of the localities chosen, where the dry bed of sand was the best possible substitute for a highway to be found.

"After various types of motor vehicles had been tried," says Hal Roach, "a Chevrolet truck was purchased. It proved so completely satisfactory that four more were added and the fleet of five has since, time and again, proved its ability to go anywhere and back again through the roadless desert around the Big Horn Ranch."

"For personal transportation I invariably use a Chevrolet. On my first trip to the Big Horn Ranch, I set out in a larger car. In the first heavy sand encountered the larger car tore out the rear axle and I finished the trip in a Chevrolet."

"Now many of the other executives of the Roach studios employ Chevrolets for their excursions into the country where men are men and automobiles must be real cars."

NORTH LAKE

Miss Dorothy Reilly of Pinckney, spent the weekend at the home of Mr. and Mrs. Christ Fitzsimmons.

Mr. and Mrs. Anson Dickinson and Mr. and Mrs. Ray Dickinson of Jackson and Mrs. Gertrude McDaniels and son James of Chelsea, spent Friday afternoon at the home of Mr. and Mrs. E. W. McDaniels.

Mrs. Ella Burkhardt and daughter Flora, who has been spending several weeks with relatives in Toledo and Detroit, were at their home here over the weekend.

Dr. H. G. Pearce and daughters May and Ruth, and Martha Tandy of Flint, spent Friday night at the Pearce farm. Saturday they, with Miss Mildred McDaniels, attended the dedication of the Sumner Wesleyan Dormitory for Women and other events connected with the home coming at Albion college.

Church night at the home of Mr. and Mrs. Homer Strofer, Friday, October 29, was a great success. About seventy-five were present.

Sunday, Nov. 7, 10:30, Sunday school; 11:30, sermon by the pastor.

Caves of Elephants

Not far from Bombay, India, are the famous caves of Elephants. Elephants is an island long held as a sacred place by orientals. The name was given by the Portuguese from a colossal sculpture of an elephant in series of subterranean temples are hewn right out of the solid rock. Columns of the natural rock are left standing to support the roof, says the Cleveland Plain Dealer.

Wrens Hatch Two Broods

In building bird houses for wrens it is better to build a double house. As soon as one brood is hatched the pair of wrens start building another nest before the first brood is able to fly. Consequently they need the extra space for their home.

Tennis Ancient Game

Tennis originated in France and the name has been Anglicized from "Tener," meaning to take or to receive. Formerly it was "Lawn Tennis," but it is no longer played on lawns, but on smooth clay or other surfaced courts.

Snakes Eaten as Food

Snakes, considered by some people as food delicacies, are a specialty in the new Kinura restaurant in Tokyo, Japan. The proprietor is a well-known Japanese chef and his fancy fried snakes already have a great and wide vogue, it is said.

Isa. 51:16. What is meant in the Scriptures by the word "heaven"? What similarity is there between Satan's and God's organizations? What are the new heavens and new earth of 2 Peter 3:12? What must be accomplished before the old order passes away? At the Jno. Hober residence, South St. All interested in Bible study are welcome.

Tomatoes for Market

Some of the choicest tomatoes are now grown on the island of Madeira, and for years the Canary Islands, particularly Tenerife, with its volcanic soil, sent tons of tomatoes to the British market. The Channel Islands are especially adapted to the growth of tomatoes, not only providing supplies for England, but sending their early tomatoes to the United States.

Named From Human Body

The Anglo-Saxons gave names to many localities from the supposed resemblance to parts of the human body, as, headland, a neck of land, a tongue of land, the mouth of a river, the brow of a hill, the foot of a hill, an arm of the sea, and so on. Battersea was once known as Peter's eye, or Peter's Island. Chelsea was Skele-eye, and Bermondsey was Bermond's-eye, all of them having been originally islands.
