W. Summer, Pittsfield; Frank Burgess, Salem; Frank Cammet, Saline; Clarence B. Alley, Scio; Clarence Klose, Sharon; Glen Bird, Superior; Sam Stader, Sylvan; John W. Farrell, Webster; George W. Preston, Ypsilanti; B. P. Devonport, York; Joseph Zimmerman, Ypsilanti, First district; George Dingley, Ypsilanti, Second district; Charles H. Eaton, First ward, Ann Arbor.

"MARRYING MARIAN" WILL BE REPEATED AT TOWN HALL

Because of the general satisfaction with which the play met, and the enthusiasm shown on the part of those participating in the play, "Marrying Marian", given last Friday evening by the young people of the Congregational church, under auspices of the Ladies' Guild, will play a return engagement at the Town Hall on Monday evening of next week. A large audience greeted the cast as the curtain raised and the entertainment provided met with the highest expectations of those present.

"Marrying Marian" is a comedy which proved to be really laughable, and was played in a masterful way. The cast of characters is given elsewhere in this paper.

CATHOLIC FAIR DRAWING GOOD AND LIBERAL CROWDS

With the attendance increasing as the fair progresses the annual Catholic event will come to an end this evening with a program which includes an excellent chicken dinner, served from five until eight o'clock, and entertainment in the auditorium in which the fair is being held. Patronage has been liberal so far and with this evening's receipts, a substantial amount will be available to apply on the indebtedness incurred with rebuilding of the parish school, destroyed by fire some two years ago. As a climax to the fair a Dodge Special Sedan will be given away before the close of this evening's entertainment.

ANNA Q. NILSSON RISKS LIFE IN SCREENING NEW PICTURE

Disdaining "Doubles," First National Star Sets Up New Record for Daring.

Long reputed as the most fearless of screen actresses, Anna Q. Nilsson sets up a record for daring in her new picture, "Miss Nobody," coming to the Princess Theatre, Wednesday and Thursday, December 1 and 2.

Disdaining to allow a "double" to enact the hazardous scenes of this play of hobo life, Miss Nilsson "rides the rods" on a speeding freight train, paces the brakeman's runaway on top of careening cars, perches on the bounding "bumpers" and actually experiences the rigors of the brakeman's pet device for dislodging tramps clinging to the chassis of cars—the method known as "hanging a coupling iron."

Recording cameras either on top of the moving trains or on platforms

Miss Q. Nilsson in "Miss Nobody"

projecting from the side of the cars gave a graphic picture of actual dangers braved by Miss Nilsson for the sake of realism.

Walter Pidgeon, a recruit of the year from the musical stage, makes his appearance in this film opposite Miss Nilsson. Others featured in the cast are Louise Bonasera, Arthur Stone, Mitchell Lewis and Clyde Cook.

The picture is declared to rank as Miss Nilsson's best work since "Ponjola." By coincidence Miss Nilsson's role in "Miss Nobody" is reminiscent of her role in the former picture. In both, she plays the part of a man.

WE GIVE THANKS

As Thanksgiving nears we're prompted to ask ourselves—"What have we to be thankful for?" Upon sincere retrospection, the answer will come—"Many, many blessings!" Has not our generous Creator seen fit to bestow upon us Peace and Plenty—an undisturbed contentment and happiness that makes life worth living—a prosperity the steady growth of which assures us of the still brighter future to come?

No matter what direction we turn our eyes—north, south, east or west—everywhere we find the material evidence of Good Times. Business humming—unemployment rare—money plentiful—every street the line of march for a continuous "big parade" of smiling faces! Yes, even in our very own homes, science and invention and skill have placed many comforts that are bringing us countless hours of enjoyment! Is not all that worth giving thanks for?

Think of what few blessings our Pilgrim forebears had—what hardships fell to their lot—and yet how, after their first meager harvest, they found it within their hearts to set aside a day of Thanksgiving! And how on that day, on bended knees, they offered up devotion to God for His kindness and generosity! When we compare the little they had with ALL we have, surely our consciences urge us to "Give Thanks!"

UNION SERVICES TONIGHT AT ST. PAUL'S CHURCH

Union services, which have been a part of the Thanksgiving program among Chelsea churches for years, will be held Wednesday evening at St. Paul's church, pastors of the three Protestant churches having a part in the exercises. Rev. A. B. Potts, pastor of the Congregational church, will preach the Thanksgiving sermon.

DEXTER MAN HIT BY AUTO DRIVER WHO SPEEDS AWAY

Albert LaPoint, 35, of Dexter, truck driver, suffered bad facial bruises and lacerations and bruises on his right leg when he was struck by a Ford coupe two miles east of Jackson on M-17 shortly after 11 o'clock Friday night. The driver of the car failed to stop and LaPoint was taken to the W. A. Foote Memorial hospital for treatment by Stanley Cowen of Albion, who happened to be driving by the scene of the accident. After receiving treatment, LaPoint returned to his truck. He is employed as driver by an Ann Arbor concern.

LaPoint's truck had stalled on the pavement east of Jackson about 11 o'clock Friday night and as it was without lights he had alighted to signal an oncoming car to avert a collision. However, the car failed to stop and LaPoint was struck by the machine, the offender speeding on, making no effort to ascertain the extent of the victim's injuries. Jackson Tribune.

LICENSE PLATES TO BE ON SALE IN ANN ARBOR DEC. 1

Washtenaw county motorists will be able to obtain their 1927 automobile license plates on December 1, according to an announcement by O. O. McLeish, of Ann Arbor, under whose direction the license plate bureau will be conducted this year.

Applications will be received and the plates distributed from the office in the Chamber of Commerce building. Mr. McLeish says the Ann Arbor office is opening much earlier than that of the branch bureaus in the state. Several cities will not be able to place the plates on sale before January 1, it is reported.

250 RURAL WOMEN ARE ENROLLED IN PROJECT

The second monthly meeting of the local leaders in Home Management Extension Project was held last week at the Ann Arbor Y. M. C. A. Lesson was given by Miss Edna V. Smith, Michigan State College. Local leaders are women selected by fourteen groups of the county to receive this instruction and in turn to pass it on to the different groups which they represent. This year's project is the continuation of last year's work. Lesson given last week related to the dining room. Subject matter discussed was the purposes of furniture, removal of stains, silver and china and general care. Miss Smith illustrated her talk by some rugs and dishes which she secured for illustrative purposes from local dealers. In the afternoon period was devoted to music appreciation. Victrola records were used in this work. Origin and history of some of the appropriate records for home use were illustrated and discussed. Third meeting in this series will be held for the local leaders January 20 and 21.

But while in "Ponjola" she played the part of an English gentleman, in "Miss Nobody" she is seen as a hobo. Lambert Hillyer directed "Miss Nobody," which is an adaptation of the celebrated novel "Shebo" by Tiffany Wells.

SCHOOLS WILL STAGE BIG BANQUET, ENTERTAINMENT

Promising a sumptuous banquet, followed by a program of excellent entertainment, the public schools of Chelsea will be hosts to the community in general at the first public affair to be staged under auspices of the school on Friday evening, December 17. An effort will be made to seat at least four hundred at the banquet tables in the auditorium, following which a school pageant, now in the making, will be presented from the stage.

Complete stage equipment, including scenery, curtain, footlights, etc. is being installed and it is expected will be completed by the time of the banquet. In addition to this, kitchen equipment, such as silverware and dishes, are being provided and it is expected these will be ready for use at that time.

Tickets for the affair will be on sale shortly by students and it is expected patrons of the school as well as the public at large will be anxious to "sit in" on this occasion.

W. W. HARPER HAS TAKEN OVER W. G. WHITE COMPANY

As stated by Walter W. Harper elsewhere in this paper, he has taken over the interests of W. G. White company in the sales and service garage on West Middle street, and will conduct the business in the same location as heretofore. Mr. Harper needs no introduction to Chelsea folks, having been employed as head mechanic at this same garage for several years, and is known by practically every motorist hereabouts. A complete repair department, with accessories, and a sales department will be maintained by the new management under the firm name of Harper Sales and Service.

DR. FAYE PALMER WILL OPEN OFFICES SATURDAY

Dr. Faye Palmer is preparing to open his new dental offices on East Middle street on Saturday, when he expects to have completed installation of his dental equipment in the newly remodeled building known as the Gorman block. The building has been practically rebuilt and decorated with colors which reflect the good taste of its owner. Considerable new equipment of the most modern and sanitary type has been added to that formerly used and, with an up-to-date set of offices, Dr. Palmer one of the finest dental outfits in this section of the state.

NEW ARRANGEMENT MADE BY COUNTY

Agitation to discard a custom of long standing regarding the cost of confining in county jail persons arrested under city ordinances has resulted in new arrangements between city and county officials.

At the June meeting of the board of supervisors it was charged that the county was being discriminated against by city and village officials who lodged offenders in county jail without paying for their care. The supervisors declared that if a person was arrested for a misdemeanor under a city or village ordinance and found to be without sufficient funds to pay a fine, he was prosecuted under a state law, if possible, and the county footed the bill.

A committee was appointed and while it made no official report at the next session of the board, it suggested that wherever both a city ordinance and state law provided penalties for misdemeanors, the offender should be prosecuted under the local regulation first.

The next step was a meeting of city and county officials called for the purpose of adjusting the matter. It was agreed that the county should be compensated at the rate of \$120 for the first day a city prisoner is held in county jail and 50 cents each day thereafter.

This arrangement will save Washtenaw considerable expense, county officials believe. Ann Arbor Times-News.

Women Who Operate

Their Own Gas Plants

Women who use coal or wood in their stoves, really cook with gas—but it's gas of their own manufacture.

They buy fuel in the raw (just as we do) and then endure drudgery, dirt, soot, smoke and ashes before they finally convert it into fire.

We take the raw fuel, treat it to recover valuable by-products, dispose of the useless residue and deliver the clean, useful element—gas fuel—direct to you through a pipe.

Ten million American women have already junked their individual gas plants and have cast their fuel burdens on the gas companies. Other women are joining them at the rate of 400,000 a year.

A NEW FAITH
We need a broader, firmer, deeper desire to do right, that the commonwealth is founded upon a righteousness which will endure, a reconstructed faith that the final approval of the people is given, not to demagogues, slavishly pandering to their selfishness, merchandising with the clamor of the hour, but to statesmen, ministering to their welfare, representing their deep silence, abiding convictions.—Calvin Coolidge.

THANKSGIVING

Thursday, millions of our countrymen will give thanks for the rich blessings that have been showered upon them. They will give thanks because this, of all the nations of the earth, has been most favored by the God who holds the destinies of the nations in the hollow of his hand. We will give thanks because we are at peace with the world; because we have been blessed with beautiful treasures from the soil; thanks because in this land there is so little suffering from downright poverty. And while we are in the midst of our thanks, let us not be unmindful of the splendid men and women who are saving their lives and fortunes to the uplifting of humanity or the men and women who are helping to banish intolerance from the world so that love and understanding can come and take its place. We have much to be thankful for.

YOUR GRACE TO HELP

Monday, November 22, marked the beginning of "Enrollment Week" for the crippled children of Michigan. It is not too late to play your part in this great humanitarian work of rescuing nearly 13,000 boys and girls in this state and turning them into self-supporting men and women.

A single dollar pays for a membership in both your county and state organizations. Certainly you can afford to give that amount. This appeal comes to you through Thanksgiving Week. Stop and think what happiness your dollar will help to bring to thousands of these little unfortunates—can't that in itself seem a thing worth while for you to be thankful about?

We are in the midst of unexampled prosperity. What are you doing with your share? Are you wasting your present good fortune on silly pleasures, hoarding it away from mankind, or are you spending it wisely for the betterment of humanity? Enrollment Week will give you an opportunity to make answer.

UNITED STATES MARINE BAND MEETS UNION RESTRICTIONS

One of the organizations of which this country is very proud is the United States Marine Band, which is known all over the world as "The President's Own." Recently, when the band went to Chicago, no city official met them, although a reception had been planned. The reason for this was that the Musicians' Union of Chicago had issued a decree that there should be no parade, that the mayor should not greet the distinguished Marines, that none of the members of the band should appear on the street in uniform, and at no time should these men wear their uniforms save at the concerts. But, even further, it was decreed by the Musicians' Union of Chicago that no more than two of the members of the band should appear in the same vehicle. Remember this was not in Soviet Russia, but in Chicago, Illinois. Let us imagine ourselves being compelled to submit to the tender mercies of these autocrats of labor and figure out which would be more acceptable, the real tyranny of Soviet Communism or the worse tyranny of labor union leaders.

EDDIE GUEST'S RELIGION

The sooner any young man discovers that belief in God and belief in his own divine purpose are vital to his character, the better it will be for him. I would rather die leaving nothing to my boy but his religion, than to die leaving him a fortune with no religion. If I can but impress him, as my mother impressed upon me, the fact that God has given him a soul to be his for all eternity, that he has been blessed with divine powers to beautify and glorify that soul, if I can give him the sure belief in a Supreme Being, I shall not have to worry about his future. The boy who has faith in God will have faith in himself. You can keep faith in God and follow any profession you may choose. It will not restrict your opportunity of becoming an obstacle to your ambition. It will not deprive you of a single decent pleasure or rob you of a single manly friend.—American Magazine.

The four-year-old question, "Where is King Ben?" seems to have been solved. The first thing we know somebody is going to find out who it was that kidnapped Aimee.

Our idea of a pioneer is the fellow who can remember when the hired man thought it the height of opulence to ride to town on Saturday night with the farmer and his wife.

Queen Marie bought five fur coats in Chicago. It can't be her reception was that chilly.

We presume the bootleggers are wondering why Chicago is making such a lot of fuss over a little water.

SOUTH LYON—Work is progressing nicely on the construction of the tower and tank for the South Lyon waterworks system. It is being put up by the Chicago Bridge & Iron Works. Efforts have been put forth at the pump house to extricate the sand that has rose up in the pipe of the pump. As soon as the workers do this, a screen will be attached to the pipe to keep out the sand, and it is expected everything will then be in first-class order, as there is plenty of water.—Herald.

FOWLerville—Postmaster Fuller received orders recently to make certain changes, that had been recommended by him, on routes No. two and three out of this village. These make some changes on the becoming postmaster, said changes giving direct service to fifteen families. These changes are always the result of continued efforts on the part of postmasters and Mr. Fuller deserves due credit for securing the same.—Review.

Keep in Trim!

Good Elimination Is Essential to Good Health.

THE kidneys are the blood filters. If they fail to function properly there is apt to be a retention of toxic poisons in the blood. A dull, languid feeling and, sometimes, toxic backaches, headaches, and dizziness are symptoms of this condition. Further evidence of improper kidney function is often found in burning or scanty passage of secretions. Every year more and more people are learning the value of Doan's Pills, a stimulant diuretic, in this condition. Scarcely a nook or hamlet anywhere but has many enthusiastic users. Yaws Used in Archery

In recent years there has been considerable effort at reviving archery. While almost every wood used for fishing rods, except bamboo, is suitable for making bows for archery, the yew tree wood is held to be superior. About 40 years ago archery was a great social pastime and sport, but after 1890 it fell into disuse.

Family gatherings and sumptuous dinners with turkey "n' everything" will probably feature many homes in Chelsea and vicinity on Thursday when the annual Thanksgiving festival will be celebrated. High prices of turkeys, good for the farmer having kept some folks from enjoying the big drumsticks of this bird, in which case the less stately but just as edible, chicken will grace the festive boards. In either case it is quite likely few will feel other than thankful for the bounties enjoyed during the year.

Early Musical Term.

From the end of the Fourth to the Twelfth century music found a system of notation, or pitch of notes. Since no music existed, they were not notes as we now understand them. They were doubtless ancient marks placed over syllables, and consisted of dots, dashes and other hieroglyphic. These were gradually developed into notes.

CHEVROLET OWNERS ASSURED PROMPT SERVICE

The Chevrolet Motor company, after expending \$1,500,000 on the installation of a radically new system of replacement parts distribution, which executives declare will assure prompt service for every Chevrolet owner in the United States, today announced the plan, involving the shipment of six new, major supply depots throughout the country, has been worked out by president W. S. Knudsen and J. P. Little, manager of parts and service division. In a

The new supply depots, in which will be stored reserve parts stocks, are to be located at the following points: Oakland, Calif.; Janesville, Wis.; Cincinnati, O.; Buffalo, N. Y.; St. Louis, Mo., and Harrytown, N. Y. All of the depots except those at Harrytown and Oakland will be new, specially-designed buildings of brick and reinforced steel-concrete. The existing parts stations at Oakland

Harrytown will be enlarged and permitted to meet the heavy demands that will be made upon them under the new system. The entire facilities of the central parts warehouse at Flint, which heretofore has been the central shipping point, will be retained. The ground already has been broken for the four new buildings, and all of the major supply depots will be ready for operation by January 31.

The new depots will serve as safety valves, smoothing out the peaks and valleys of demands made by the parts department on production plants and service stations. They will perform a two-fold function: first, expedite the delivery of parts; second, create a reservoir that will permit of uniform production of parts, regardless of seasonal variations in demand.

Under the new plan the major supply depots will, in effect, create huge concentrations of parts stocks connecting the Chevrolet factories and the entire service organization. They will assure car owners far better and more efficient service through the constant maintenance of adequate stocks throughout the country. Parts will be shipped in straight carload lots from the factories to the supply depots.

The establishment of the major supply zones, outlined above, does not constitute the entire parts distribution program of the Chevrolet Motor company. In addition to the concentration points previously mentioned, the company already has in operation eleven other parts warehouses which will continue in operation and be added to as necessity arises. The even other parts warehouses are lo-

located at Boston; Pittsburg, Baltimore, Charlotte, Atlanta, Jacksonville, Dallas, Oklahoma City, Minneapolis, Denver and Portland. These warehouses will receive their entire shipments of parts in carload lots from the nearest major supply depot guaranteeing faster service to the dealer and owner.

The new buildings are of uniform monitor type construction, and will

Odd Mixture of Waters

A strange, three-layer arrangement
water has been revealed by recent
hydrographic investigation of the
Faro-Shetland channel, north of

The layers are so distributed that a swimmer in the channel could take his choice of swimming in saltie ocean water at the surface diving into the Norwegian sea which flows at the bottom, while between top and bottom he could enjoy a mixture of the two kinds of water with a dash of Icelandic, Arctic current added to the blend. THE CHELSEA STANDARD

Don't forget this discriminating old codger who will be coming around one of these nights. He has already been here with oodles of fascinating gifts from all parts of the world.

From Germany come these cunning little Molly Dogs. Made of soft wooly fur which can be sterilized to make it safe for the baby. They are almost lifelike.

Dainty handkerchiefs from all over, and there is nothing more acceptable as a gift. Did you ever see a woman who had too many?

And last but not least, hosiery—the old dependable gift. You will find none more acceptable to femininity than Ruby Ring in one of the newest shades—\$1.65, \$1.85 and \$2.

The Store of Individuality

Frocks for Day and Night

With the holidays coming on you will want to add to the spirit of the occasion by wearing smart new togs. Never have we had a more delightful assortment of chic frocks. Every style is represented here now in the prettiest of materials with the most novel and fascinating trimmings. Very reasonably priced—\$16.75 and up.

Ann Arbor

ROLAND HAYES WILL APPEAR IN ANN ARBOR

Ann Arbor, Saturday, December 4th, brings to his recitals not merely a ly-

ric voice of great flexibility and beauty, but also a scholarly understanding of music and a graceful and compelling interpretation; because he puts to shame the average vocal artist by a positive mastery of the five

languages in which he sings; because his singing of the Negro Spirituals has in it a quality of revelation. The story of the rise of this eminent Negro singer from the humblest station in life to an honored place among the world's foremost artists makes a remarkable story.

As a boy, he worked on the small Georgia farm holding of his mother, an ex-slave. Despite poverty, he succeeded in educating himself, and attended Pisk University, at Nashville. He further managed to equip himself with a musical training. His tentative recitals met with so much encouragement that he resolved to try his fortune in Europe.

Reaching London in 1920, he had barely enough money to announce a recital. But that recital proved the turning point in his career. It was followed by fifteen others to packed audiences and a summons from King George V to sing at Buckingham Palace.

There followed an invitation to appear with the Colonne Orchestra—an event which set all Paris talking about the remarkable newly-found tenor.

When Vienna and Berlin heard him, incredulity changed to admiration. As Paris had particularly praised his diction and command of style in French songs, these capitals judged him in the German lieder as a model for their own singers.

Each city was at a loss to describe Roland Hayes' silken, ethereal tones, which were not quite like anything they had ever heard before. And in the negro spirituals he laid a strange and wonderful treasury before them.

Then came his first tour of his own country, in 1923. This put the seal on his greatness. No singer in years has won such sudden and nation-wide attention.

Since then, Roland Hayes, has been devoting his winters to this country, and his summers in Europe. The European capitals await his annual return, and crowd to his recitals, but these he has had more and more to curtail on account of the pressure and exertions of his successive American tours.

From coast to coast, from Canada to our southern-most states, the mere announcement of a recital assures an overflowing audience. When he appears with our principal symphony orchestras, demonstrations are the rule. His singing has brought numberless critical and editorial eulogies, and magazine articles, showing a national interest by no means confined to our musical public.

An American audience now anticipates a recital by Roland Hayes as an experience rare beyond description.

BREVITIES

ANN ARBOR—Ann Arbor's smoke ordinance, which limits the emission of smoke from chimneys to two minutes out of every 15, will be enforced rigidly this winter, City Engineer George H. Sandenburgh has announced. Owners of factories, public buildings or other structures who allow more smoke to roll from chimneys than is allowed by the ordinance will be prosecuted, Mr. Sandenburgh promises.

PLYMOUTH—Alfred Straesen of this village, who joined Fisher's orchestra at the Grand Hotel, Mackinac Island, last September, and is now

playing at the Gorge club at French Lick Springs, Indiana, one of the country's finest fall and spring resorts, has contracted to play with Fisher's orchestra on their world tour on the steamer Beigianland. The steamer leaves New York City, December 14th, and returns April 24.

MASON—Nothing down and a

whole year in which to pay the balance was the easy terms granted a bridegroom in Justice Shafer's wedding chambers Monday. Justice Shafer states that the bride and groom are usually so ecstatic that he is able to give the Gettysburg address in lieu of the prescribed ritual and the couple would fail to notice the difference, and in that frame of mind the statu-

tory fee of \$2.00 is promptly paid. This was not so on Monday. After the nuptial knot had been duly tied and the couple had been pronounced man and wife, the groom said he was without funds but would pay the \$2 in installments. Either a dollar down or cash and carry system will soon be installed according to the judge.—News.
