### Keeping Cut Flowers

Chloroform has little effect on the keeping qualities of flowers. Many of them are harmless, but none of them are of much value. Deep vases and bowls are better than the hollow ones, because they allow more water to be in contact with the stems and foliage.

### DETROIT MAN KILLED ON M-17 THANKSGIVING DAY

Motorist is Hit by Passing Truck While Standing on Pavement at Rear of Wrecked Machine.

Standing at the rear of his machine which had been wrecked a few minutes previous when it collided with a telephone pole in front of the Harry Prudden home east of town, Roy VanSicklen, of Detroit, was almost instantly killed Thanksgiving day morning when a truck driven by Joe Tohle, of Comstock, and enroute west, struck him on the head. VanSicklen was loaded into the truck and brought to a local physician's office, but died before the office was reached.

VanSicklen and wife, and Mr. and Mrs. Clarence Putzig, also of Detroit, were enroute to Bellevue, Mich., in separate cars. When near Chelsea Mr. and Mrs. Putzig, who were traveling in the head machine, noticed that the second car was not following, and when the M-92 intersection south of Chelsea was reached, they turned around and returned to the Prudden residence where VanSicklen's car was found wrecked following a crash into a telephone pole. The two men went to the rear of the wrecked car, which extended onto the pavement, stooped to look under it and, as the truck in question passed them, raised to a standing position. It was then that the handle on one of the truck doors struck VanSicklen on the head with such fatal results.

Howard Brooks, coroner, was called, and following an investigation, declared an inquest unnecessary. The body was removed to the Staffan undertaking parlors and prepared for burial.

### COURT DOCKET HAS 11 CRIMINAL CASES

Eleven criminal cases are listed in the circuit court docket for the December term, which opens before Judge George W. Sample, December 6.

The jury, however, will not report for duty until the following day. There are 69 issues of fact included among the cases to be tried during the coming term. Penitentiary first-class and 57 change-of-judgment cases are listed while there are 23 how matters and 37 change-of-judgment cases in which no progress has been made for a year.

### ARMY OFFICERS OUTFIT FILM HERO

Normal Kerry Equipped With Every Army Embellishment for "The Barrier"

Several army officers, to augment his own personal military experience, worked with Norman Kerry in assembling a complete officer's outfit for his role in "The Barrier," the photoplay from the Rex Beach novel which will be shown at the Princess Theatre Wednesday and Thursday nights, December 8 and 9.

Kerry plays a lieutenant, the veritable fashion plate of his division, and every possible embellishment—always within army regulations however, that an officer may wear—is used in his wardrobe.

Although every garment an officer wears is described by the army regulations, many bits of fancy are allowed in material and in workman-

ship. A "custom-made" Sam Browne belt, for instance, with silver buckles, is allowable, although a frill, and the same applies to boots, riding breeches and other details.

An all-star cast is playing "The Barrier," the company including Lionel Barrymore, Henry B. Walthall, Bert Woodruff, George Cooper, Marceline Day, Marie Carrillo, Princess Neola and Pat Harmon.

These players have been perfectly cast, and contribute a rare example of true ensemble playing in this picture. The story is full of thrills and action, and takes place against a picturesque Alaskan settlement, populated with fur trappers and seal fishers.

Kerry plays a military Don Juan who wins the heart of the heroine, played by Miss Day, and loses his own to her in return.

### CHELSEA WILL PLAY FOR CLASS C CHAMPIONSHIP

With neither team suffering a defeat this year, the coming tilt between football teams of Chelsea and Pinckney schools is expected to be one of the hottest battles of the season. Authorities have dated the game for Friday afternoon of this week at 3:30, when the Class C championship will be played off.

An effort is being made to bring out a record attendance at this game which will climax a successful season of playing for both teams. Heavy expense which is incurred makes it necessary that generous support be accorded and it is hoped everyone who possibly can will attend. Plenty of excitement is assured.

With the line-up made up of all first string men, there is reason to believe that it will take more than Pinckney to hold the line. Plungers and end-runs to say nothing of the forward passing which has been responsible for considerable gains this season. Included with the "beef" the local team is able to display, is some good headwork and speed. All of these will count in this last game of the year.

### DR. FRANK KINGDON WILL BE FELLOWSHIP CLUB SPEAKER

The entertainment committee of the Fellowship club of the Methodist church has secured Dr. Frank Kingdon, pastor of Central Methodist church, Lansing, as the speaker for the next regular meeting of the club which will be held on December 16 at the church. The meeting will be a ladies' night affair, with special emphasis on the "feed" and the excellent program to follow.

The voice of Dr. Kingdon is familiar to a great many folks hereabouts, services of Central church having been broadcast over WREO every Sunday evening for some time. Those possessing a radio acquaintance will be glad to hear Dr. Kingdon in person.

### CONGREGATIONALS SERVE CHICKEN SUPPER TONIGHT

Several hundred people are expected to participate in the Congregational church fair and supper to be held at the church this evening. ### M. E. ANNUAL FAIR AND SUPPER NEXT WEEK

The annual fair and chicken supper served by the Ladies' Aid Society of the Methodist church will be held Thursday evening, December 9, at the church. This is one of the outstanding events of the year and a liberal patronage is anticipated.

### JACKSON GIRL STARTS OUT TO SEE DETROIT

Elizabeth McCutcheon, 11, of Jackson, ended up in charge of officers in Ann Arbor Tuesday evening, after yielding to an attack of wanderlust during the afternoon. Elizabeth was picked up about four miles west of Chelsea on 3647 during the late afternoon by Don Lawrence, who turned the child over to Deputy Sheriff L. C. Palmer, the latter taking her to Ann Arbor and placing her in the Community home. Her parents in Jackson were notified of her whereabouts a short time later and thus ended a desire to take in the sights of Detroit, whither she was bound. She had secured rides from motorists until she reached the place where Mr. Lawrence picked her up.

Good crowds and a financial success marked the three days of the Catholic fair held the fore part of last week. Mrs. Warren Guerin was awarded the Dodge Special sedan, given away the last evening of the fair.

### SECOND PRESENTATION OF MUSICAL COMEDY GIVEN

Large Audience Greeted Congregational Players in Second Appearance at Town Hall in "Marrying Marian."

For the second time in a little more than a week, young folks of the Congregational church played before well filled houses at the Town Hall in the musical comedy, "Marrying Marian," the second appearance occurring on Monday evening of this week. The play is given under auspices of the Ladies' Guild of the church.

Excellent rendition of individual roles as well as chorus numbers marked the evening's performance which ranks among the best to be given from a local platform by local talent. Shouldering the burden of work in the training of the cast were Mrs. Roy Harris and Mrs. M. J. Baxter, who deserve special credit for the play's success, as well as does M. B. Giberson, Jr., who presided at the piano.

Included in the cast of characters are the following: Simpson—A supposed butler—David Beach.

Miss Prudence McWhiffie—An elderly teacher—Ruth Russell.

Marian Stanton—A popular student—Mae Hamp.

## Nothing To Unload

A man started to market with a load of potatoes and failed to fasten the end-gate. When he went up hill the potatoes landed in the road. In the next hollow he got stuck in the mud. Looking back he discovered the empty wagon and said: "Here I am, stuck and nothing to unload."

We are not stuck. We have plenty to unload. That's why we advertise each week and tell you of the splendid service our Bank has to offer. Come in and let's talk it over. Our service is the best. We want you with us.

Women Who Operate

Their Own Gas Plants

Women who use coal or wood in their stoves, really cook with gas—but it's gas of their own manufacture.

They buy fuel in the raw (just as we do) and then endure drudgery, dirt, soot, smoke and ashes before they finally convert it into fire.

We take the raw fuel, treat it to recover valuable by-products, dispose of the useless residue and deliver the clean, useful element—gas fuel—direct to you through a pipe.

Ten million American women have already junked their individual gas plants and have cast their fuel burdens on the gas companies. Other women are joining them at the rate of 400,000 a year.

## Editorial

### MAKING GOOD

The question for each man to settle is not what he would do if he had the means, time, influence and educational advantages; the question is what he will do with the things he has. The moment a young man ceases to dream or bemoan his lack of opportunities and resolutely looks his conditions in the face and resolves to change them, he tugs the corner-stone of a solid and honorable success.—Hamilton Wright Majors.

### GOVERNMENT PENSIONS

A decline in the number of pensioners on the government rolls below the 500,000 mark occurred during October for the first time in thirty-five years, according to a report made by the Pension Bureau to the Secretary of the Interior. The report gives the number of pensioners at 499,622, and shows that 1,281 veterans and 1,418 widows of the Civil war died in the month, terminating their pensions.

### PROPOSED REDUCTION OF REVENUE TAXES

There is much discussion concerning the proposed reduction of revenue taxes in Congress during the short session which begins Monday. President Coolidge takes the attitude that a reduction can be made at the short session by passing a bill which will rebate part of the taxes paid in 1926 on 1925 revenue, and also provide for a rebate on the 1926 tax to be paid in 1927. The secretary of the treasury is somewhat in sympathy with this general proposal although more disposed to give credit on the money paid in for taxes during 1927. It is the desire of the Democratic organization to revise the Revenue bill in detail at the short session, and with this proposal there are some sympathetic Republicans. These are matters of great interest and naturally will affect the country to a substantial extent. Any tax reduction which is warranted is always a help. There can be no question as to the honesty of the various proposals, but we sincerely hope that in the enthusiasm for any particular plan the reductions themselves will not fall by the wayside. Congress should be impressed with the single fact that a reduction in taxes is desired since it seems to be possible to do so, and that there should be an all-around conference with politics eliminated at which time a plan can be adopted which may be speedily put into effect.

### ENGLAND'S TROUBLE WITH THE "DOLE"

England is finding trouble with its dole system and thoughtful public men are wondering how the system may be revised, or dispensed with. It is doubtful if it can be dispensed with because it is an economic plan which has fastened like a leech on England. Just as soon as you begin to provide payment for non-workers the number will automatically increase. There is no question whatever that England at the time of the adoption of the dole was confronted with a serious condition. The number of men out of work was enormous, and there was great suffering. The dole, which is merely a payment to the unemployed week by week, was adopted. If it were possible to pay to those alone who could not secure work the question would be a different one. But today in the dole line are thousands of shirkers who refuse to work and are bleeding the country. It would be a very courageous political party who would undertake to dispense with the dole. On the other hand, it will be a very courageous Chancellor of Exchequer who will insist on increasing the taxes on an overburdened people to pay doles to loafers. The English papers point out that these undesirable are increasing in number, and for every receiver of dole who seeks and obtains work, two will take his place in the line who do not wish to obtain work. This is another case where men who repudiate socialism in theory, practice it in fact and of which we have many in the United States. This country should carefully watch out that it is not led into practical socialism by politicians who affiliate with conservative parties.

## Too Much "Acid?"

Excess Uric Acid Gives Rise to Many Unpleasant Troubles.

AUTHORITIES agree that an excess of uric acid is primarily due to faulty kidney action. Retention of this toxic material often makes its presence felt by sore, painful joints, a tired, languid feeling and, sometimes, toxic backache and headache. That the kidneys are not functioning right is often shown by scanty or burning passage of secretions. Thousands attest their kidneys are much better by the use of Doan's Pills—a stimulant diuretic. Doan's are recommended by many local people. Ask your neighbor!

RUPTURE  
EXPERT HERE

The Sealey Co.'s expert, of Chicago, will personally be at the Otsego hotel, and will remain in Jackson Tuesday only, December 7. Mr. Sealey says:

"The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions.

**CAUTION**—All cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Sealey has documents from the United States Government, Washington, D. C., for inspection. Our expert will be glad to demonstrate without charge or fee if you if desired. Business demands prevent stopping at any other place in this section.
