THE ARISTOCRATIC TRADITION SUBJECT OF LANSING PASTOR

Supper and Entertainment Will Feature Meeting of Methodist Fellowship Club on Tuesday Evening.

Taking for his subject "The Aristocratic Tradition," Dr. Frank Kingdon, pastor of Central Methodist church, Lansing, will address the Fellowship club and their ladies of the Methodist church on Tuesday evening of next week. Date of the meeting.

DR. FRANK KINGDON

has been changed so as not to conflict with the school banquet which is to be held on Thursday evening of the same week.

Dr. Kingdon comes to Chelsea with the radio acquaintance of many people who have heard his voice on Sunday evenings over station WREO, Lansing, and already plans are being made to accommodate a record attendance at the Tuesday evening meeting. A scrub lunch supper, which every member and attendant of the church is invited, will be served at seven o'clock in the church dining room. Committees are busily engaged making arrangements for the feed and program, and adding to this an address by a speaker of Dr. Kingdon's calibre, the evening should be quite profitably spent.

LIMA TOWNSHIP TAXES
I will be at the Dexter Savings Bank, on December 30, and at Kemps Commercial & Savings Bank, Chelsea, every Saturday until further notice, commencing Saturday, December 11, for the purpose of collecting Lima township taxes.

A. L. WATT RESIGNS AS COUNTY FAIR MANAGER

A. L. Watt, of Ann Arbor, for four years closely connected with agricultural interests of the county, and since 1924 manager of the Washtenaw county fair, has resigned his position and will take up post-graduate work at the University of Minnesota. Watt was announced last Thursday. Mr. Watt has been prominent in county boys' and girls' club work, and has been eminently successful in the conduct of Washtenaw's annual fair, having been instrumental in bringing about a cleaning up of the fair program and with the co-operation of the fair board has built up practically every department of the society until it has become a source of real interest throughout the county. The county loses an able man in the withdrawal of Mr. Watt and leaves a vacancy which will be difficult to fill.

CHELSEA HIGH FOOTBALL SQUAD SCORES 142 POINTS

With the season one to look back on Chelsea High's football squad have counted a total of 142 points scored against opponents, with only 32 points scored against the local team. The final game was played last Friday when the Chelsea Independents were defeated with the score 38 to 0. All the games played were won by comfortable margins and with the possible exception of one or two games there was no question as to the result during the game.

WELLSHOFF O'BRIEN

Mr. Herman Wellschoff, son of Mr. and Mrs. Fred Wellschoff, and Miss M. O'Brien of Ann Arbor, were quietly married at the parsonage of St. Paul's church, on Friday evening of last week, Rev. P. H. Grabowski, pastor of the church officiating.

CAR LAUNDRY BUILDING BEING BUILT HERE

The contract has been let and work started on a new building, to be used as a wash room for four cars at one time, and will extend over the oil pit and permit this particular service to be done indoors. Modern machinery will be installed for car laundry work, with hot and cold water available. A vacuum cleaner for cleaning interior of cars will also be installed. J. J. Baris has the contract for erection of the building and the washing services will be under the supervision of O. B. McLaughlin, manager of the station.

COMMITTEE TO ACT ON SALARY CHANGES

Final action on the new salary schedule for county employes, adopted at the October meeting of the supervisors, will be taken by the board's finance committee at a conference with the heads of departments Monday, December 13, at the county building.

The committee's personnel is Donald May, Sixth ward, Ann Arbor; Jas. Hewlett, Lyndon, and Gilbert Madison, Dexter.

The conference with the department heads will be for the purpose of determining the number of clerks in each and the compensation they shall receive under the new schedule. Official agreements with department officers also will be made in regard to the fees they now receive.

UNITED STATES LEGATION AT PRAGUE RAZED BY FIRE

The following dispatch, dated December 2, tells of a fire which razed the United States Legation at Prague, Czechoslovakia, where Hon. Charles S. Winans, former Chelsea boy and brother of A. E. and Lester Winans of this place, is United States consul. Mr. Winans is in the United States building. The American legation here was almost completely destroyed by fire which started tonight in the Sobotna palace, and spread quickly to adjoining buildings.

Spreading from the palace, which is one of the finest old structures in the city, the blaze swept to the home of one of the Czech-Slovak ministers of state and burned that building sufficiently to cause its roof to collapse. The American legation, also nearby was almost a complete loss before the fire had been gotten under control.

The left wing of the palace, where the fire started in a defective flue, was badly burned. The palace was uninsured.

SCHOOL BANQUET EXPECTED TO BE NOTABLE AFFAIR

Program to include Pageant by School Children; Banquet Will be Served by Students.

That the banquet and entertainment to be given by the public schools in the new auditorium next Thursday will eclipse anything ever attempted by the local school, is the expectation of Superintendent E. L. Clark and members of the faculty who are assisting in the work of preparing for the event. A drive for five hundred tickets is being made by the students who are enthusiastically supporting the project. Seating capacity of the auditorium will undoubtedly be taxed to the limit.

If work and energy mean anything, folks are assured the worth of their money also. Every member of the faculty is busily engaged with preparations for the mammoth pageant which is to follow the banquet. Several hundred school children will take part in the stage presentation in order that diners may get the full benefit of the talent attending the school as well as the scenic effect of stage settings.

KIWANIANS HEAR PROF. W. D. HENDERSON ON LADIES' NIGHT

With a program which proved a headliner from start to finish, Kiwanians and their ladies thoroughly enjoyed a meeting held at the Catholic school on Monday evening. Following the banquet, served by ladies of St. Mary's church, the club was enthusiastic in their reception of Leonard Aldridge, baritone of Jackson, who sang a number of excellent selections, accompanied at the piano by Miss Ruthoff, also of Jackson. The address of the evening was delivered by Prof. W. D. Henderson, head of the extension department of the University of Michigan, who entertained as well as instructed his audience in some of the current topics of the day, concentrating his main thoughts on the part women are taking in business and industry as compared to a quarter century ago.

MRS. GEO. W. BECKWITH DIED MONDAY MORNING

Mrs. George W. Beckwith, 74, a life long resident of Sylvan township, died Monday morning, December 6, 1926, at the family residence in Chelsea. She was born in 1852 in Sylvan Center and formerly was Miss Adella Parker, daughter of Austin and Olive Parker. She was married in 1878 to George Beckwith and had resided in Chelsea since 1888.

She is survived by her husband. Funeral services were held at 2 o'clock Wednesday afternoon at the residence, Rev. Walter Firth conducting the services. Interment in Oak Grove cemetery.

CHELSEA RESIDENTS MUST CLEAN WALKS OR PAY COSTS

Village officials are again re-sounding a warning to residents that if snow is not cleaned from walks within a reasonable time after a snowfall the work will be done and charged to the property holder's taxes. Failure of some residents to observe this ordinance which is of long standing, brought forth reiteration of the village intent to carry out its provisions during this winter if the occasion demands. Better—clean your walks.

ORDINANCE NO. 13

Sec. 3. It shall be the duty of the owner or occupant to remove all obstructions caused by snow and ice from the sidewalks in front of the premises owned or occupied by them within two hours after verbal notice by the marshal so to do.

Sec. 4. It shall be the duty of the marshal, within two hours after any snow storm shall cease, to notify every owner or occupant of any premises in front of which there are side walks constructed, that he is required to remove such obstructions caused by snow or ice within two hours after time of notice, and in case any person so notified whose duty it shall be to remove such obstruction shall neglect or refuse to remove such obstructions, or cause the same to be removed, within the time required by such notice, then it shall be the duty of the marshal to forthwith make complaint to a justice of the peace of competent jurisdiction, against any and every person violating Sec. 3 of this ordinance, and shall also immediately notify the Village Attorney, of any and every complaint so made, and it shall be the duty of said attorney to prosecute all such complaints with diligence.

Sec. 5. It shall be the duty of the marshal immediately after the making of any such complaint, to proceed forthwith to remove said obstructions caused by ice or snow, or cause to be removed, without delay, and at the next meeting of the council thereafter to report any and all complaints so made, and any and all obstructions so removed, with the names of the owners of the premises in front of which obstructions were removed, together with cost of the same, verified by oath of said marshal, and the description of the property in front of which such obstructions were removed.

BREVITIES.

PLYMOUTH—It takes about 900 years to grow a decent piece of wood-land, says Dad Plymouth, and then some darned fool comes along with a match.—Mail.

STOCKBRIDGE—The Odd Fellow and Rebekah lodges here will hold a joint fair on Friday and Saturday, December 10-11. The event will close with a supper and musical program Saturday night.

MANCHESTER—Many visitors in town the past few weeks have spoken about the prospects of having a paved way through the village, saying that it would be a great benefit to the village. Some have stated that business in this town and that town has been greatly increased by building of a paved thoroughfare through it.—Enterprise.

WHITMORE LAKE—James E. (Jim) Burke, 58, proprietor of Macdonald's Inn, Whitmore Lake, died suddenly at 9 o'clock last week Thursday morning at his home at Whitmore Lake. Mr. Burke was well known throughout the county and was born in Ann Arbor. He attended the public schools and high school here.

JACKSON—Arthur Grant, 15 years of age, 310 North Park avenue, was arrested late Friday night by Detectives Stevens and Larrabee and charged with the larceny of an automobile owned by Fred Broese, 1519 Michigan Avenue, East. It is alleged by the officers Grant stole the car from its parking place on Otsego avenue.

BROOKLYN—The opening of the new paving on M-50 east of Cambridge Junction now permits through traffic to Tinton without detour through the Fish Hills which has been the rule for several months. State gangs are working on the shoulders of the road and are setting new fence, the small amount of frost not preventing work. A steam shovel and dump cars have also been working on the sink hole at the Emory Neely farm between Brooklyn and Cambridge on the new right-of-way.—Exponent.

CLINTON—The approach of the annual fair and supper at St. John's Episcopal church has brought to notice the Clinton column of the Tecumseh Herald of September 23, 1886, just 40 years ago, in which is advertised a supper and musical entertainment given at the town hall by the ladies of St. John's church. The price of the supper was 15 cents and that of the entertainment 10 cents. The menu advertised for the supper was chicken pie, cabbage salad, jellies, biscuit, pickles, cheese, assorted cakes, tea and coffee.—Local.

BRIGHTON—Just what the meaning of the purchase by Detroit parties of more than five thousand acres of land lying in the vicinity of Hamburg and Whitmore Lake, is a question that a lot of people would like an answer to. A little more than a month ago a stranger from the city asked Manley Bennett of Hamburg, which he would care to sell his farm, which

lies just south of Hamburg village. He said he would sell and a price was agreed on, Mr. Bennett reserving about 25 acres including the house. A 30 day option was given the man.—Argus.

MASON—George Mull, alias Geo. Smith, of Lansing, was arrested in Mason last Saturday evening by sheriff's officers on a charge of illegal furnishing of liquor. He was brought before J. H. Shafer, justice of the peace, Monday morning and entered a plea of not guilty. The justice remanded him to the county jail to wait trial at the January term of court. Bail was set at \$1500 which to date has not been furnished. It is said that Mull has been suspected for some time of furnishing Mason citizens with liquor and last Saturday evening he was taken into custody by the marked bill method.—News.

MILAN—Milan high school is again taking its place among the foremost of the schools of the state. With the new building and its added equipment nearing completion, the board early this week announced the purchase of a new large playground within a couple of blocks of the school. The deal for the new property has been under discussion for some time and several rumors during the past few months rumors and statements have been made without authority that certain lands had been purchased. The deal was closed ear-

ly this week whereby the school district became the owners of the property of the Doyle estate on the east side of North street, from Michigan Avenue to the village limits. Five and eight-tenths acres are contained in the property. It was purchased from the estate of the late Val Doyle.—Leader.

Muscle Has Red Cells The muscles of the human body, it has recently been discovered, are filled with a red coloring substance almost identical with that in the red blood cells of the blood. The amount of this red substance seems to determine largely the power of the muscle, and it disappears rapidly if the muscle is paralyzed, thus showing the importance of exercising in keeping the muscles in trim.

MAKING CHRISTMAS SANE. There are two bits of advice which it is folly to ignore in this season. The one is "Do Your Christmas Shopping Early," and "Send Your Christmas Mail Early" is the second. Fools heed neither, but if the observance of both is proof of rare wisdom then the world is becoming wiser.

It was but a few years ago that the major portion of the Christmas shopping was done during Christmas week and the Christmas rush in the mails was not begun until the eleventh hour. The result was that unfavorable shopping conditions and congested mails ruined Christmas Day for countless thousands.

How much saner and how much more satisfactory for all concerned are the modern practices of starting the gift-buying season in November and of starting the gifts through the mails in ample time to insure their punctual delivery.

Whether one looks at the question from the selfish or impersonal points of view the arguments are all in favor of early shopping and early mailing. Early shopping gives one the pick of the new and undeploited Christmas stocks, leisurely selection, more satisfactory service and less jostling. Early mailing is a guarantee of timely delivery and minimizes the dangers of damage and loss in transit.

Should it be any to whom these arguments are unconvincing, let them give a thought to the merchant and his sales force and to the postal employees whose one desire is to please the public but who are powerless to help those who won't help themselves.

BI-Y!

The greatest gift is life, but man is not privileged to give that. However, the next greatest gift is health, and that man can give by buying Christmas Stools again this year. If every man and woman will buy a few of the little health stamps the billion that must be sold this Christmas season will quickly be distributed and another year of effective warfare against the white plague will be assured.

The Christmas stool is the standard of one of the most important and automatic lights ever made against disease. This light is being produced against one of the oldest plagues that have afflicted man. For many centuries the dread disease has gone steadily on, claiming its victims and leading them to a lingering death. The approach of the disease is so slow and gives so little warning that its progress is not until it is too late to prevent the spread of infection. Other plagues get in their devastating work and quickly and openly that man was moved to organize for self-protection and succeeded in wiping them out. Finally man launched his fight against the white plague and immediately began to gain ground.

It is estimated that tuberculosis in the United States wipes out a small-sized state every year. It is also estimated that to endure the disease in its present stage for the next thirty-five years would cost the nation twenty-six billion dollars. In the last twenty years education and sanitation have combined to cut the death rate from tuberculosis in two. Medical experts estimate that keeping the disease under control for thirty-five years will mean a national expenditure of \$10,000,000,000.

With the public give seven billions of dollars in the next thirty-five years to combat tuberculosis or will it permit tuberculosis to take from it twenty-six billion dollars of dollars and many thousands of lives? That is the challenge which the nation answers every Christmas.

INSPIRATION

To put all of the emphasis on the value of an education is a mistake in so far as education without inspiration is valueless. Only when you include inspiration as an element of education or one of its by-products can you rate education above all other advantages. There are educated men, well read men and intelligent men who are of little value to themselves or society because they have not that divine spark of inspiration which puts education to work and without which education can not work.

Education comes to man through reading, talking, listening and thinking. Inspiration comes with it through reading, talking, listening and thinking. Inspiration comes with it through the right kind of reading, the deep and profound sort of thought. In other words, some literature conveys book learning and other literature proposes only to inspire the reader, to lift him out of his work-a-day stupor.

Unknown to many, the human mind by proper impetus, is capable of kindling the divine spark of inspiration. There are many workmen who are sterner than creative ambitions by daily meditation on the ideals of their occupation and upon the vast possibilities lying dormant in their field of labor. No man ever suffered by imagining his job bigger than it really was. Of such imaginings is inspiration made.

Inspiration hitched up to education or set plain knowledge is making men, communities, nations, business enterprises and all the great inventive, industrial and commercial mar-

vels of the twentieth century. "There can be no great and lasting work without inspiration," wrote Emerson.

CHRISTMAS THE YEAR ROUND

What a world it would be if everyone kept up the Christmas spirit all through the year!

How much unhappiness, discontent, unrest, and worry could be avoided if the people of this community could keep the Christmas candles burning all through the year.

You are having an opportunity to do just that and keep doing it thru the twelve months that are coming. An envelope with Christmas seals in it will probably be delivered to your door within a few days if it has not already been delivered and perhaps you will wonder what it is all about. That little stamp seems small and you wonder whether your one cent a piece will ever get anywhere where it will do any good. Rest assured of this fact, it is one of the public welfare funds that is working on a very low overhead cost and some real work has resulted in the use of the money that has been contributed in the past few years. The investment is small but the results have been exceedingly large. Five million dollars invested in health for all.

Mail your check to the County Tuberculosis Association office in the self addressed stamped envelope and become a partner in this wonderful undertaking. Two dollars worth of stamps are being mailed to persons all over the county and your town will get the credit for its purchases. Last year Washtenaw averaged eleven and one fourth cents per person in the county for this big work. With a greater demand than ever at this time of the year the county should do much better even than this in 1926.

Storms Disturb Sun

Storms not unlike those that rage about the earth have been calculated to occur at different times around the sun. The surface of the sun is thought to be considerably disturbed by these storms and in some of studying them by the eye instead of merely by photographs has been found.

A Word With the Old Folks

Elderly People Are Learning Importance of Good Elimination.

In the later years of life there is apt to be a slowing up of the bodily functions. Good elimination, however, is just as essential to the old as to the young. Many old folks have learned the value of Doan's Pills when a stimulant diuretic to the kidneys is required. Scanty or burning passages of kidney secretions are often signs of impure kidney function. In most every community are scores of users and endorsers who claim the merit of Doan's. Ask your neighbor!

BRIGHTON—Just what the meaning of the purchase by Detroit parties of more than five thousand acres of land lying in the vicinity of Hamburg and Whitmore Lake, is a question that a lot of people would like an answer to. A little more than a month ago a stranger from the city asked Manley Bennett of Hamburg if he would care to sell his farm, which

lies just south of Hamburg village. He said he would sell and a price was agreed on, Mr. Bennett reserving about 25 acres including the house. A 30 day option was given the man.—Argus.

MASON—George Mull, alias Geo. Smith, of Lansing, was arrested in Mason last Saturday evening by sheriff's officers on a charge of illegal furnishing of liquor. He was brought before J. H. Shafer, justice of the peace, Monday morning and entered a plea of not guilty. The justice remanded him to the county jail to wait trial at the January term of court. Bail was set at \$1500 which to date has not been furnished. It is said that Mull has been suspected for some time of furnishing Mason citizens with liquor and last Saturday evening he was taken into custody by the marked bill method.—News.

MILAN—Milan high school is again taking its place among the foremost of the schools of the state. With the new building and its added equipment nearing completion, the board early this week announced the purchase of a new large playground within a couple of blocks of the school. The deal for the new property has been under discussion for some time and several times during the past few months rumors and statements have been made without authority that certain lands had been purchased. The deal was closed ear-

ly this week whereby the school district becomes the owners of the property of the Doyle estate on the east side of North street, from Michigan Avenue to the village limits. Five and eight-tenths acres are contained in the property. It was purchased from the estate of the late Val Doyle.—Leader.

Muscle Has Red Cells

The muscles of the human body, it has recently been discovered, are filled with a red coloring substance almost identical with that in the red blood cells of the blood. The amount of this red substance seems to determine largely the power of the muscle, and it disappears rapidly if the muscle is paralyzed, thus showing the importance of exercising in keeping the muscles in trim.

'Etiquette Constant Problem

Proper manners are set by the leaders of every age in history, and yet "high society" is hardly less guilty than the lower social orders at times. The situation became so bad during the reign of Louis XIV in France, who had poor eating manners, that books of instruction were issued there as now. At one time the fork was held "descendant."

Old English Superstition

A superstition once existed in East Anglia that the path over which a body had been carried to burial—called the Bier way—was unlucky. This was founded upon a belief that the devil always followed funerals in the hope of adding to the population of the infernal regions. It is said to have been over a path in the town of London in 1171.

A special campaign in the interest of further safety to the public and especially to school children is being made by the Michigan Central railroad in towns and wayside places along its railroad. Literature warning against careless crossing of crossings, crossing the tracks too soon after a long freight has passed, with the liability of stepping in front of an opposite bound train, short cuts across railroad property, and other dangerous practices, is being distributed to schools throughout the territory affected by the road. Children are also asked to keep a safe distance away from trains while waiting to cross crossings. These and many other things are noted for the welfare of everyone concerned.

COMEDY TEAM'S SECOND SCREAM

"We're in the Navy Now". Brings Bery-Hatton Team Together.

Adolphe Menjou may remain Uncle Sam's suave sophisticate, Harold Lloyd should keep on as America's perennial playboy, Jack Holt can continue upholding the honor of the West, Bob Daniels may well stay on as Hollywood's boyish tomboy but as for Wallace Berry and Raymond Hatton—let them continue to be the screen's funniest comedy team, in films similar to 1926's fun test, "Behind the Front."

Businessmen officials realized the public demand for a sequel to the first "silly side of the war" picture and cast about for another good story. Monty Brice, adaptor of the earlier production, handed in an original script, which upon being read caused everyone to fall into convulsions of laughter. It's name? "We're in the Navy Now!"

And so the picture which arrives at the Arcade Theatre, Ann Arbor, Sunday, December 12th, traces the lives of a prize fighter and his manager from the day they incidentally join the Navy till their final return to the ring. If you don't believe it to be chick fill of stinks, listen to one typical situation.

After having been vanquished by a nurse aboard ship, the boys are asked to take her over the side in a row-boat. They do this and she suddenly vanishes into thin air. Lost in a fog, their boat is cut in two by an invisible draught. Picked up by rescuers, they tell of their adventures with a whole fleet of submarines. "Then—but why continue?—" says in "The Navy Now" is really a life-saver in a sea of inferior productions.

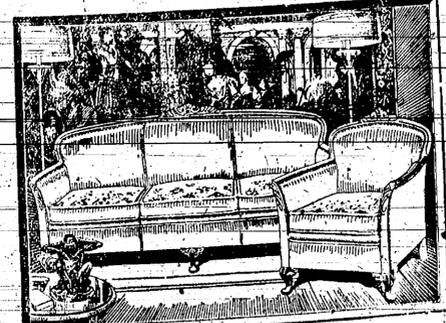

Axolotls

A remarkable scientific achievement, says Tid-Bits, London, was discovered at Brighton—namely, that Huxley. Some time ago Professor Huxley made experiments with the progeny of axolotls. Axolotls, which are found in America, have tails like fish but they have lungs in addition to gills. Professor Huxley injected them with thyroid gland extract and within three days they had lost their tails. Further experiments have now been made by Doctor Spall of London University, who by similar process to that of Professor Huxley, has changed an aquatic transformed a head-biting axolotl into the aquatic axolotl is on view at the aquarium and may be compared with the aquatic species in an adjoining tank. The aquatic axolotl has three gills on each side, but in the transformed specimen these completely disappeared.

View 17-Year Locust

The so-called "seventeen-year" locust is not a special kind of locust at all, but the common variety which changes its form under certain conditions. The first has been discovered by a scientist at work in Egypt, where the locust pest has been a problem for years.

Your Christmas Cards Should Be PRINTED OR ENGRAVED.

We have stocked a good supply of Christmas cards and suggest that you send printed greetings this year—why bother to write greetings, or even to sign your name when a printed card—in script, Old English or some other suitable type—will convey the message in a much more impressive manner, and hardly a bit more expensive.

Orders for either printed or engraved cards should be placed early. It assures you good service and no disappointments.

When Boy and Puppy Meet

When boy and puppy meet, even though it is against the tuberculosis sanatorium rules, there is joy in the hearts of both. And why shouldn't there be joy, especially in the heart of the boy for he is going home soon after a stay in the Litchan county tuberculosis sanatorium, and then he can play with puppies to his heart's content. Through the Christmas season, which finance the work of the Michigan Tuberculosis Association, trail leads are found throughout Michigan, and help to grow into strong and healthy ones.

These'll Suit Him To A "T!"

There's no describing the mental contentment a man gets out of an easy-drawing, sweet-tasting Pipe. Add to that a jar of his favorite blend of Tobacco—and Presto! You'll have a Christmas combination gift that'll "tickle him pink!"

WE OFFER

Cigars, Cigarettes and Tobaccos in fancy packages, also a fine line of Pipes, Cigar and Cigarette Holders. We are showing a fine stock of Christmas Candies in fancy boxes.

A choice line of Toilet Articles, consisting of Powders and Lotions.

Be Sure the Lot Is Title Insured

An abstract of title may be perfect—or it may contain a flaw. Before you buy land, make sure the title is clear. There is no better way to be sure than through Title Insurance. If the seller has it, the chances are 1000 to 1 the title is good. And the insurance can readily be transferred to you.

Title Insurance means every penny you invest in land is protected in full against flaws in the title. A home and grounds often mean a life-time of work and sacrifice. Certainly that is too great a thing to endanger for lack of the one certain protection—insurance of the title itself.

Title Insurance is Positive Protection

Remember this: If your Title is insured you are protected against loss, fully completely, positively. Now would be an excellent time to talk it over. We'll be here.

Romans Ate Camel's Heels

Roman epicureans had many unusual dishes, some of which have been since revived by modern chefs, but as yet no professional cook has offered a Roman dish made from camel's heels. These heels were prepared in potted form and were a favorite dish of Roman banquets.

Subject Changed

We fell into conversation with a bright looking boy—the other day. Almost every sentence he spoke was preceded by the "elucidation" "See." Finally we requested. We asked him what "see" meant, anyway, but he didn't know. "But if you don't like 'see' I won't say it any more," said the boy. "But my 'kosh' instead." We changed the subject. —Leviathan Journal

Early Trade Centers

Hoston, New York, Albany and Baltimore were the markets of major importance before the Civil war, and Lancaster, Pa., boasted a live stock trade of considerable volume before the Revolution. An the railroads had westward this trade moved on to Pittsburgh, Buffalo and Cincinnati, which were in turn eclipsed by Chicago and Kansas City and other Missouri river markets.

CHURCH CIRCLES

METHODIST EPISCOPAL

Walter Firth, Pastor

We shall give the next of a series of Christmas topics next Sunday morning, when the subject will be: "The Coming of Christ and Sacred Song." These subjects are interesting and inspiring, don't miss them.

Elaborate plans are being made for a big time on Thursday evening, December 23rd, when we shall celebrate Christmas with the usual tree and a first class program under the direction of Mrs. Daniels and others. The program will be in harmony with our "White Gift Christmas" with its striking features. An additional and interesting feature will be a party for the children at the close of the usual program, which will be of interest to the older folks too. Remember the date, keep it open, and plan for a big time.

Next Sunday morning we are planning for the biggest attendance of the year in the Sunday school. Each teacher is pledged to see that every scholar shall be present and bring any others who do not attend any other school. Our superintendent has faith that it can be done. Let us honor his faith and be present without fail.

The Fellowship club meeting will be held Tuesday evening next week instead of Thursday as announced. Dr. Frank Kingdon of Lansing, is the speaker. Everybody who belongs or attends the Methodist church is invited to the luncheon at 7 o'clock. Bring dishes and sandwiches unless otherwise advised. We want 150 to attend.

FRANCISCO

C. H. FLOWE

C. H. Flowe, who has been ill the past year and a half, passed away at his home here, Friday, December 3. He was 66 years of age, and for 48 years had been in the employ of the Michigan Central railroad company, serving as telegrapher and station agent. Most of this time he operated at the Francisco office. He was forced by ill health to discontinue work at the station, August 7, 1925. He sought relief at both Jackson and Ann Arbor hospitals, but there was none, and the end came peacefully at an early hour Friday morning, releasing him from a long, painful period of suffering.

Besides his widow, he is survived by one son, Carl G. of Portland, Oregon, two sisters, Mrs. Anna Hammond of North Francisco, Mrs. Kate Kalmbach of Chelsea, and one brother, William, of Francisco, and several nieces and nephews. He left friends without number. His long connection with the railroad company established a wide acquaintance, and many railroad employes came to see him in the earlier part of his sickness when he was still able to receive them, and his neighbors and friends visited him frequently until his strength no longer permitted.

The funeral was held Tuesday at the late home, conducted by Rev. Fred Ross of Salem, Mich. Burial was private. Burial was made in the Sylvan Center cemetery, beside his parents, Mr. and Mrs. George Flowe.

The Epworth League members of Salem M. E. church met at the home of Mr. and Mrs. Walter Kalmbach and gave them a surprise. The evening was spent in a social way.

Mrs. Wulfer of Ann Arbor, came early last week to spend some time at the C. H. Flowe home.

Mr. and Mrs. James Grunden are arranging to move to Latta, Ohio, this week. They spent the week-end with relatives in Jackson.

Mrs. Bertha Jones was a Sunday visitor at the home of her parents, Mr. and Mrs. John Seid.

Miss Esther Maute is home from Sharon, where she spent a few days with Miss Margaret Esch.

Miss Helen Bohne was home from Ypsilanti for the week-end.

Mrs. Sadie Frey of Jackson, and son Arthur Frey of Ann Arbor, were week-end guests of Mr. and Mrs. John Hele.

The ladies of St. John's church held their regular monthly meeting at the school house last week.

Mrs. Albert Orbring has returned to her home north of town after spending a number of days at the Flowe home.

Lewis Lambert and Henry Frey were in Chelsea Monday.

LYNDON TOWNSHIP TAXES

Sun's Effect on Earth

From the earliest times sunlight has been considered an important aid in the preservation of health. The ancient Greeks and Romans exposed their naked bodies to the sun in the open air to recruit mental and physical energies. Exposure to the sun's rays was always adopted by the physicians of those times as a remedy for many affections, especially dropsy, inflammation of the kidneys and paralysis.

Pernicious Insect Pest

The Argentine ant, which takes its name from the country where it was first discovered, has a fondness for flesh and is said to have been known to attack babies in their cradles. In some instances the wounds proved fatal. This ant is one of the worst known insect pests, and when they once invade a locality it is almost impossible to get rid of them.

COUNTY BUILDING INSURANCE RAISED

Insurance on county building has been increased from \$70,000 to \$140,000 following action taken by the board and insurance committee of the board of supervisors which met recently at the request of the board.

While the county paid a premium over a five-year period of \$1,120 on the \$70,000 policy, the \$140,000 one, which carries a co-insurance clause, was obtained for a premium of \$1,792 over the same length of time.

The committee, on which are Supervisors Howard Boyd, Sylvan, James N. Galbreath, Seventh ward, Ann Arbor, and Noel S. Srodek, Fifth ward, Ann Arbor, adopted the \$140,000 policy instead of a \$160,000 one which also was placed before them for consideration. The amount of the policy adopted represents 70 per cent of the appraised value of the buildings.

The building recently was appraised at \$196,005 and it was estimated that it would cost \$251,500 to build a new structure with the same materials.

"TUMBLEWEEDS" SHOWS BILL HART AT BEST

Star Returns to Active Screen Work in Role That Fits Him Perfectly.

When Bill Hart stepped before a camera in "Tumbleweeds" some months ago, it was the first time in a year and a half that he had faced the movie lens.

But the great star looked better than ever, weighed exactly what he weighed when he first entered pictures, more than ten years ago, and in every way was the Bill Hart "Two Gun Bill" - the public has learned to adore.

"Tumbleweeds" will be seen at the Princess Theatre, Wednesday and

WILLIAM S. HART

Thursday, December 15-16, and if over the west was represented faithfully on the screen, this is one time. However, this has always been a characteristic of Mr. Hart's productions. He is faithful to the types and incidents of the west. He does not believe in wild exaggeration and untruthful representation of people he holds in reverential esteem the men who made the west. A fun cast is comprising Mr. Hart and the picture is of real thriller, King Baggot directed.

NORTH FRANCISCO

Herbert Harvey and family spent Sunday at the home of Homer Harvey of Leon.

Mrs. Edna Loveland and daughter Thelma, and Miss Mabel Notten were in Jackson Saturday.

Mr. and Mrs. William Lehman were Sunday callers at the home of Mrs.

Mae Hatt. Mrs. Ora Hlemensneider had her tonsils removed last Tuesday and is getting along nicely at this writing.

Mr. and Mrs. Herbert Harvey were in Ann Arbor and Ypsilanti Friday afternoon.

Mrs. Mary Havens, who has been spending some time with relatives

and friends in this vicinity, has returned to her home.
